We can help the cities become involved in a greater degree in vocational training, recreational facilities, adequate transportation for residents of these areas between their homes and jobs, and so on.

There are a number of possibilities, some of which are already covered, in part, by Federal programs, and some of which we hope may be stimulated and developed under local sponsorship with the supplemental funds from the bill.

Mr. GORE. Mr. President, I think the Senator by his extemporaneous answer has given more life and meaning to the program than any explanation I have yet heard.

I want to observe that, not only in this instance, but also in many others, I have been impressed with the fact that the distinguished junior Senator from Maine speaks with a clarity, elocution, articulateness, and grammatical perfection that few Senators possess.

Mr. MUSKIE. I thank the Senator from Tennessee. I was really trying to sell the program and not the speaker.

The demonstration city approach places maximum dependence upon the locality and its officials to plan and carry out the program. The Federal Government will help with technical and financial assistance, but it will be limited to those cities presenting imaginative and effective ways of dealing with the physical and social problems of slum and blighted areas.

The financial assistance will be in two forms—planning assistance and program assistance. Planning assistance will be on an 80 percent Federal grant basis with the city making up the other 20 percent of cost. For this purpose the bill authorizes an appropriation of \$12 million a year for each of 2 years, fiscal years 1967 and 1968.

The program assistance would provide supplementary financial aid to cities to carry out activities in addition to those already provided under existing Federal law. The supplementary aid will be computed in each case on a formula related to local contributions to Federal programs involved in the project. Under the committee bill the program assistance for any project would be a maximum of 80 percent of the total non-Federal contributions made on all projects under existing Federal grant-in-aid programs which are being carried out as part of the city demonstration program. The supplemental grant could not be used to reduce local expenditures on existing projects or activities or to reduce the local effort for similar activities. The bill calls for a 2-year authorization of \$400 million for fiscal 1968 and \$500 million for fiscal 1969. The 2-year level of authorization is consistent with administration estimates for a 5-year program.

This bill is limited to 3 years. The first year it would be planning assistance only, to the extent of \$12 million. The second year it would be planning to the extent of \$12 million, and \$400 million programing; the third year, it would be \$500 million for programing.

Under this title, the urban renewal grant authority would be increased by \$250 million to be used for projects included within a city demonstration program.

Title II calls for improved coordination of Federal activities in metropolitan areas, requires minimum standards of planning and coordination by local governments in such areas, and authorizes supplementary Federal grants to State and local public bodies for metropolitan development projects as incentives for adequate metropolitanwide comprehensive planning and adherence to such planning. The supplementary grant would be authorized only for those metropolitan areas which have met standards for comprehensive planning on a metropolitanwide basis. The grant would be made to the public body sponsoring the metropolitan development project. It would amount to a maximum of 20 percent of the cost of the project. In no case could the total grant—the

basic grant plus the supplementary grant—exceed 80 percent of the project cost nor could the supplementary grant exceed the basic grant.

Mr. President, this program would not be an addition to the demonstration program.

The benefits of this title are for projects in a standard metropolitan statistical area, which is defined by the Bureau of the Budget as the area in and around a city of 50,000 population or more. The projects to be benefited are generally of a public works nature but are listed in detail in the bill. The authorization under the bill is a maximum of \$25 million for fiscal year 1967 and \$50 million for fiscal year 1968.

Title III of the bill is designed to help local communities make better use of Federal urban assistance programs by authorizing Federal grants to States and metropolitan area agencies to help finance information centers to serve metropolitan areas and small communities throughout the State. The grant could not exceed 50 percent of the cost of the activity. The bill authorizes an appropriation not to exceed \$5 million for fiscal year 1967 and \$10 million for fiscal year 1968.

At this point, Mr. President, I wish to call to the attention of my colleagues the principal changes which the Banking and Currency Committee made in the administration's legislative proposals.

Section 101, the statement of findings and declaration of purpose, was tightened considerably. The committee believes the statement of purpose, in particular, is clearer and more forceful in expressing legislative intent. It reads as follows:

The purposes of this title are to provide additional financial and technical assistance to enable cities of all sizes (with equal regard to the problems of small as well as large cities) to plan, develop, and carry out locally prepared and scheduled comprehensive city demonstration programs containing new and imaginative proposals to rebuild or revitalize large slum and blighted areas; to expand housing, job, and income opportunities; to reduce dependence on welfare payments; to improve educational facilities and programs; to combat disease and ill health; to reduce the incidence of crime and delinquency; to enhance recreational and cultural opportunities; to establish better access between homes and jobs; and generally to improve living conditions for the people who live in such areas, and to accomplish these objectives through the most effective and economical concentration of Federal, State, and local public and private efforts to improve the quality of urban life.

The second major change made by the committee was in section 103 which contains the basic criteria, including need, for eligibility for assistance under the program. The basic intent of the original proposal is accomplished in a concise and logical manner. Subsection (b) contains new language emphasizing the prime importance of local initiative and prompt response by Federal departments

and agencies to such initiative, maximum coordination of Federal assistance, and program flexibility. The new language is designed to underscore the intent of Congress that this will represent a new method of dealing with the complex and interrelated social and physical problems of slum and blighted areas in cities of all sizes.

The committee retained the President's 80-percent supplemental grant proposal for assistance to comprehensive demonstration city programs. However, the grant formula has been tightened considerably to insure that the base for the supplemental grants could not be distorted by the use of irrelevant projects, that funds provided could not be dissipated on projects not essential to the program. That the supplemental grants could not be used to replace local contributions which the community had committed to Federal grant-in-aid projects before starting the comprehensive program, and that the supplemental grants could not be used for general administration of the city. The supplemental grant funds must be used to support fully the innovative, nonfederally aided activities of a program before they can be used to match additional Federal grants.

I realize, Mr. President, that the supplemental grant formula concept has given some of my colleagues concern. Therefore, I want to take this opportunity to explain it in detail.

The formula for supplemental grants proposed in the bill is designed to help overcome two of the major obstacles to the solution of the problem of city slum areas:

First. The inability of the cities to find the necessary money, especially to finance new and imaginative programs, and

Second. The difficulty of coordinating and channeling existing Federal aids to the solution of these problems.

The Federal aids are available through many different departments and agencies.

These aids sometimes go to the State, sometimes to the city, sometimes to special agencies independent of the city government.

These aids are distributed under widely varying formulas for allocating Federal funds among the States or for determining the amount and kind of local contribution required.

The existing aid programs are designed to accomplish different specific national objectives—improve education, eliminate poverty, combat disease. This fact dictated differing incentives and requirements in each program.

Therefore, an aid formula was sought which would:

First. Provide cash to the cities needed to carry out the demonstration programs.

Second. Encourage and allow flexibility for innovation

Third. Provide an incentive to use the existing Federal aid programs in a coordinated fashion to the greatest extent practicable.

Fourth. Preserve the requirements of existing aid programs, which were designed to accomplish specific national objectives.

Fifth. Avoid the substitution of Federal money for city money in the support of existing programs.

The formula chosen:

First. Provides a city with an amount equal to 80 percent of the non-Federal contribution otherwise required for Federal aid projects included in the demonstration program in the city.

Second. Makes this money available—

To pay for new and additional activities in the program.

After the costs of those activities are covered, to provide matching funds for the Federal aid projects included in the demonstration program—but not to replace matching funds committed before the program started.

Third. Requires the city to maintain its level of expenditure—on all activities similar to those included in the demonstration program—at least at the level existing before the program started.

The formula therefore meets the basic program objectives:

First. It provides the city with additional money. Based on a calculation of several sample programs, the 80-percent figure will furnish the city with the money needed for a demonstration program if—

It uses as many relevant Federal aid programs as practicable.

Makes its own effort to raise some additional matching funds.

Second. It encourages and allows flexibility for innovation—the money is not earmarked for specific Federal-aid projects and must be used first for the new and additional elements of the approved demonstration program.

Third. It provides an incentive to use existing, applicable Federal aid programs—the amount of money depends upon the number of such programs used.

Fourth. It requires the city to continue to meet the specific requirements of existing Federal aid programs, thus protecting the national objectives of those programs.

Finally, it assures that Federal funds are not merely substituted for existing local funds.

At this point, Mr. President, I ask unanimous consent that alternative formulas considered for the program, which were rejected because they did not meet its objectives, be included in the RECORD:

There being no objection, the formulas

were ordered to be printed in the RECORD, as follows:

Alternative A. Grant the city a certain percentage of the total cost of the demonstration program.

* This would remove any incentive to use and coordinate existing Federal-aid programs.

Alternative B. Grant the city a certain percentage of that part of demonstration program costs not covered by other grants in aid.

* This provides no incentive for using existing Federal-aid programs: The fewer that are used, the more supplementary grants that would be made available.

Alternative C. Grant the city a certain percentage of the cost of those elements of the demonstration program which are not eligible for aid under other Federal programs.

* This would not allow the cities to use the money to increase their use of existing Federal aid programs. They often have difficulty raising the matching share.

Alternative D. Increase the Federal share on Federal aid projects included within the demonstration program.

* It does not assure funds to the city for innovative projects, since the recipient agency may be the State or a local unit of government other than the city.

* It is administratively complex if the original granting agency is to give the increased grant.

* It tends to break the line on the Federal share in a whole host of programs with specific national objectives outside the demonstration cities.

Alternative E. Provide a sliding scale grant formula, with differing percentages going to different cities, dependent upon (1) the extent of the cities problems, and (2) the ability of the cities to increase their own financial effort.

* We do not yet have the knowledge needed to specify equitable indices of need.

* We do not have reliable data available to measure the relative needs of cities, even if the indices could be defined.

* We would be opening up a continuing battle over the specific grant share to be provided.

Mr. MUSKIE. Mr. President, when I first examined the administration's proposal, I had questions about the supplemental grant formula. I gave long and careful study to this aspect of the proposal.

I have resolved my questions. The formula may be modified later, in the light of experience, and as we develop more adequate statistics on need, effort and other indexes. But as the foundation of this demonstration program, I believe the formula is sound, workable and fair.

My colleagues will note that title I of S. 3708 contains a Davis-Bacon labor standards provision which was not in the original administration proposal. It is similar to the House Banking and Currency Committee proposal, as contained in title I of H.R. 15890, and is acceptable to all interested parties.

One of the most important changes made by the committee was the change

from an open-end money authorization requested by the administration to a 2-year, \$900 million program.

The committee provided such a limitation for two reasons: First, it believes the Congress has a responsibility to define the estimated monetary requirements of such a program; and second, it wished to insure a careful review of this new and experimental program before extending appropriations authority beyond fiscal year 1969.

During this period, the committee and the Congress will have an opportunity to evaluate the experience under the comprehensive city demonstration program. If it is as successful as the committee expects it to be, the committee and the Congress can provide—on the basis of plans submitted by the cities, the progress of activities under demonstration programs being carried out, and the budgetary situation existing at the time—a continued reasonable annual rate of funding for the program.

I want to stress that the program funds authorized for fiscal years 1968 and 1969 are consistent with estimates made by the administration on the probable cost of the program.

It should be noted also that the supplemental grant funds represent only a part of the total Federal, State, and local resources which will be available for cities to apply to their demonstration projects.

For the information of my colleagues, Mr. President, I ask unanimous consent that there be printed in the RECORD at this point a table providing a list and analysis of the existing Federal grant-in-aid programs which may be used in demonstration projects.

There being no objection, the table was ordered to be printed in the RECORD, as follows:

FEDERAL GRANT-IN-AID PROGRAMS LIKELY TO FORM CORE OF CITY DEMONSTRATION PROGRAM ACTIVITIES

This material contains brief descriptions of 49 Federal grant-in-aid programs deemed most likely to be among those utilized by a city in developing a city demonstration program "of sufficient magnitude in both physical and social dimensions" to meet the criteria of the Demonstration Cities bill. The programs are arranged alphabetically under their respective administering departments and agencies. It is not implied that these programs necessarily will or should be used in any one demonstration or that other programs may not also be used.

This is a preliminary draft in connection with an ongoing legal project. When completed, all descriptions will have been cleared by the legal staffs of the agencies involved. In the meantime, this material must be used with caution because legislative history and regulatory limitations not appearing in the sources consulted may alter important details.

DEPARTMENT OF AGRICULTURE

Food stamp program

[Statutory reference: 7 U.S.C. 2011-2025 (O.E. 1964)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist States and local governmental units to raise levels of nutrition in households of low income. Eligible households are issued food stamps or coupons which may be used to purchase food at retail stores. The face value of the coupon is intended to be sufficient for a low-cost nutritionally adequate diet, but households are charged only that portion of the face value equivalent to their normal expenditures for food.	Administration of the program is assigned to State public assistance agencies. Participation is limited to those households whose income is determined to be a substantial limiting factor in the attainment of a nutritionally adequate diet. Each State is to establish standards of eligibility including maximum income and asset limitations consistent with the standards used by the State in administering Federal public assistance programs.	Fiscal year 1966, \$100,000,000; fiscal year 1967, \$200,000,000. Subsequent years—not in excess of such sums as may hereafter be authorized by Congress.	The stamps (or coupons) are provided to participating States without charge. States receive payments for part of their costs in investigating the eligibility of households not on public assistance. The payment is 50 percent of the sum of (1) the salary costs of personnel involved in such investigations; (2) travel and related costs of these investigations; (3) an amount not exceeding $\frac{1}{4}$ of the costs under (1) and (2). All other costs must be financed by the State or its political subdivisions.	In approving the participation of subdivisions within States, the Secretary is instructed to provide an equitable and orderly expansion among the States in accordance with their relative need and readiness to institute programs in such subdivisions.

School lunch program

[Statutory reference: 42 U.S.C. 1751-1760]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To safeguard the health and well-being of the Nation's children and to encourage the domestic consumption of nutritious agricultural commodities.	State agencies to enable them to reimburse participating schools for a part of the food costs of lunches.	Not fixed, but of amounts appropriated, \$10,000,000 is for food equipment, and another \$10,000,000 for fiscal year 1963, and such sums as may be necessary in succeeding years, especially for schools located in areas where poor economic conditions exist.	Federal, 25 percent; State, 75 percent. Provided, for any State with per capita income below the U.S. average, the State matching requirements may be reduced.	Sets forth an involved formula.

DEPARTMENT OF COMMERCE

Federal aid to highway programs

[Statutory reference: 23 U.S.C. 101-134 (O.E. 1916 (1956))]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
For construction and improvement of the 41,000 mile National System of Interstate and Defense Highways, including the other two Federal-aid systems, the primary and secondary systems, and urban extensions thereof.	States.....	Interstate systems: range from \$2,200,000,000 for fiscal year 1962 to \$3,000,000,000 for fiscal years 1968 through 1971, with \$2,900,000,000 for fiscal year 1971. For primary and secondary systems and their extensions with-in urban areas: \$1,000,000,000 for fiscal year ending June 30, 1966, and \$1,000,000,000 for fiscal year ending June 30, 1967.	(1) Interstate: Federal, 90 percent; State, 10 percent, except in certain large land area States, Federal may be 95 percent. (2) Primary and secondary and extensions: Federal, 50 percent; State, 50 percent, except in large land area States, Federal share may be increased under a stated formula.	(1) Interstate: 100 percent is allotted on the basis of estimated cost of completing the system in each State. ¹ (2) Primary system, 45 percent of allotment. (3) Secondary system, 30 percent of allotment. (4) Extensions, 25 percent.

¹ Beginning with fiscal year 1967 a new formula devised.

Public works and development facilities

[Statutory reference: 42 U.S.C. 3131-3136 (O.E. 1965)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist States or political subdivisions or private or public nonprofit organizations in designated redevelopment areas to acquire or develop land and improvements for public works, public service, etc., to improve opportunities for industrial and commercial expansion, long-term employment, and to assist low-income families. ¹ Supplementary grants may be made to enable States and other entities to carry out projects eligible for other Federal grant-in-aid programs.	States, local public bodies, and private nonprofit agencies.	\$500,000,000 for fiscal year ending June 30, 1966, and for each succeeding year through June 30, 1969.	Federal, 50 percent of cost. ² -----	Not more than 15 percent may be expended in any one State.

¹ Areas approved under the Appalachian Regional Development Act of 1965 are excluded from benefits.² In the event of a supplementary grant, the non-Federal share may not be less than 20 percent of project cost.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE—OFFICE OF EDUCATION

Academic facility construction, graduate schools

[Statutory reference: 20 U.S.C. 731-733, 751-757]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To improve graduate schools and graduate centers by assisting the construction, rehabilitation, or acquisition of structures suitable for use as classrooms, laboratories, libraries, and related facilities for instruction of students, research, or administration.	Institutions of higher education and cooperative graduate center boards (established to offer students of participating institutions graduate work which could not be offered with the same propriety or economy at an individual institution).	Fiscal year 1967 and 1968—such sums as Congress may hereafter authorize by law. Administration—such sums as may be necessary.	Grants may not exceed 33 $\frac{1}{3}$ percent of the development cost of any project.	Not more than 12 $\frac{1}{2}$ percent of the appropriations for a fiscal year may be spent in any State.

Academic facility construction, undergraduate

[Statutory reference: 20 U.S.C. 711-721, 751-757]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To meet urgent needs of undergraduate institutions by assisting the construction, rehabilitation, or acquisition of structures suitable for use as classrooms, laboratories, libraries, and related facilities for instruction of students, research, or administration.	Institutions of higher education.	Fiscal year 1967 and 1968, such sums as Congress may hereafter authorize by law. Administration, such sums as may be necessary.	Grants may not exceed 33 $\frac{1}{3}$ percent of the development cost of any project, except for public community colleges and technical institutes, grants may not exceed 40 percent of the cost.	22 percent of the funds appropriated are allotted for public community colleges and public technical institutes. These are allocated to the States on the basis of per capita income and number of high school graduates. The remainder of the funds, to be used for other institutions, are allocated to the States on the basis of the number of college and high school students.

Adult basic education programs (antipoverty)

[Statutory reference: 42 U.S.C. 2801-07, 2831 (O.E. 1964)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist State educational agencies in providing elementary level education for persons 18 years old and over. Federal funds may be used to (1) assist local educational agencies in establishing programs and pilot projects; (2) assist in meeting the actual costs of adult instruction; and (3) assist State agencies in improving their technical and supervisory services to adult basic education. Also, grants may be made to provide training for instructors for adult basic education programs.	States (but program is required to be administered by State educational agency). For teacher training projects, grants may be made to college and universities, State or local educational agencies, or other appropriate public or private nonprofit agencies or organizations.	Fiscal year 1966 part of \$850,000,000; fiscal year 1967 and 1968, such sums as may be hereafter authorized by Congress (this authorization is shared with the community action program and voluntary assistance program for needy children).	Fiscal year 1966 and 1967, Federal 90 percent; State 10 percent. Fiscal year 1968, Federal 50 percent; State 50 percent.	Not to exceed 5 percent of the amount appropriated or allocated may be used for teacher training projects. Not in excess of 2 percent of the amount allocated for the remainder of the program is to be divided among Puerto Rico, Guam, American Samoa, and the Virgin Islands. The remainder is to be allocated among the States on the basis of the relative number of people who have attained age 18 and completed not more than 5 grades of school. No State allotment can be less than \$50,000.

Community service program grants

[Statutory reference: 20 U.S.C. 1001-1011 (O.E. 1965)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist institutions of higher education in strengthening their resources for providing educational programs, activities, or services designed to assist in the solution of community problems, with particular emphasis on urban and suburban problems (but also including rural problems).	States. States formulate State plans which include policies and procedures for allocating funds to institutions of higher education in the State.	Fiscal year 1966, \$25,000,000; fiscal years 1967 and 1968, \$50,000,000; fiscal years 1969 and 1970, such sums as Congress may hereafter authorize.	Fiscal years 1966 and 1967, Federal 75 percent and State 25 percent of cost of developing and carrying out approved State plans. Fiscal years 1968, 1969, 1970, Federal 50 percent and State 50 percent of cost of developing and carrying out approved State plans. Except that no payments shall be made to any State for developing and administering the State plan which exceed 5 percent of the State's costs for that year or \$25,000, whichever is greater.	\$25,000 to Guam, American Samoa, Puerto Rico, and the Virgin Islands, \$100,000 to each State. The remainder to the States on a population basis. Reallotments may be made where funds are not required, or at the request of a State.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE—OFFICE OF EDUCATION—Continued

Education of children of low-income families

[Statutory reference: 20 U.S.C. 241a-241j (O.E. 1965)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To provide financial assistance to local educational agencies serving areas with concentrations of children from low-income families to expand and improve educational programs which contribute particularly to meeting the special educational needs of educationally deprived children.	State educational agencies (which transmit the funds received to local educational agencies).	Not fixed.	Basic grants, maximum grant is 50 percent of the average per pupil expenditure in the State multiplied by the sum of the number of children in families with annual incomes less than \$2,000 and in families receiving aid to families with dependent children payments of more than \$2,000. Such basic grant may not exceed 30 percent of the sum budgeted by the local agency for current expenditures in fiscal year 1966. Special incentive grants, fiscal year 1967, Not to exceed the product of the average public school attendance during 1965 and the amount by which the per pupil expenditure of the local educational agency for fiscal year 1965 exceeds 105 percent of such expenditure for fiscal year 1964. Fiscal year 1968, similar calculation, based on amount by which expenditure for fiscal year 1966 exceeds 110 percent of expenditure for fiscal year 1964.	Not more than 2 percent of the amounts appropriated may be allotted among Puerto Rico, Guam, Virgin Islands, and trust territory according to their respective needs.

Guidance, counseling, and testing; identification and encouragement of able students

[Statutory reference: 20 U.S.C. 481-484 (O.E. 1958)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist State educational agencies to establish and maintain programs of testing, guidance, and counseling.	State educational agencies	Fiscal year 1966—\$24,500,000. Fiscal years 1967 and 1968—\$30,000,000 each year.	The Federal payment equals one-half the amount spent by the State in carrying out its State plan. The Commissioner may also make arrangements for testing students attending schools where the State agency is not authorized to test; the cost is shared equally with the State.	Not more than 2 percent of the amount appropriated may be allotted among Puerto Rico, Guam, the Canal Zone, American Samoa, and the Virgin Islands according to their respective needs. The remainder is allotted among the States in proportion to their school-age populations. No State allotment can be less than \$50,000.

Instruction in critical subjects (National Defense Education Act)

[Statutory reference: 20 U.S.C. 441-445]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To strengthen elementary and secondary school instruction in economics, science, mathematics, and modern foreign languages and other critical subjects. Grants to States are made for acquisition of laboratory and other equipment and for improvement in supervisory services and administration. Loans are made to nonprofit private schools for the acquisition of laboratory and other equipment.	State educational agencies as to grants, but private schools as to loans.	\$100,000,000 each year for fiscal years 1966, 1967, and 1968. For supervisory services and administration of State plan, \$10,000,000 for each year for fiscal years 1966, 1967, and 1968.	Federal, 50 percent; State, 50 percent.	The allotment to a State is based upon the product of the school-age population of the State and the State's allotment ratio (under a prescribed formula). Loans may be made up to 12 percent of appropriations and are governed by a stated formula.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE—OFFICE OF EDUCATION—Continued

Vocational education

[Statutory reference: 20 U.S.C. 35-35j]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist States in establishing and maintaining vocational education programs for persons attending high school, persons who have completed or left high school and are available for full-time study, persons in the labor market who need training to achieve stability or advancement in employment, persons who have academic or socioeconomic handicaps, and to construct area vocational education facilities.	States.....	Fiscal year 1967 and succeeding years—\$225,000,000 each year.	Allotments may pay $\frac{1}{2}$ of a State's expenditures under an approved plan, and not exceeding $\frac{1}{2}$ of construction costs for area vocational education schools.	90 percent of the funds appropriated are allotted to the States as follows: 1 50 percent on the basis of the population 15-19; 20 percent on the basis of the population 20-24; 15 percent on the basis of the population 25-65; 5 percent on the basis of the preceding 3 allotments.

¹ 10 percent is for research, training, and demonstration programs.

Vocational work study

[Statutory reference: 20 U.S.C. 35k]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist States to provide employment in educational agencies or other public agencies for persons 15 to 21 who are full-time students in vocational education programs and need funds from such employment to commence or continue their programs.	States.....	Fiscal years 1967 and 1968, \$35,000,000 each year. ¹	The Federal payment equals 75 percent of the amounts expended for compensation of students up to the limits of a State's allotment.	Allotments are based on the population of each State, age 15 to 20.

¹ Residential vocational education schools share this authorization.

Work-study programs (antipoverty)

[Statutory reference: 42 U.S.C. 2751-2757 (O.E. 1964)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To stimulate and promote the part-time employment of students, particularly those from low-income families, in institutions of higher education who are in need of earnings from such employment to pursue their courses of study.	Institutions of higher education for payments to participating students.	Fiscal year 1966, \$129,000,000; fiscal year 1967, \$165,000,000; fiscal year 1968, \$200,000,000.	The Federal share of student's compensation cannot exceed 90 percent of such compensation for work performed through Aug. 20, 1967; 75 percent thereafter. The institution may pay its share in the form of services and equipment furnished to the student.	Not more than 2 percent of the amount appropriated may be allotted among Puerto Rico, Guam, American Samoa, the Virgin Islands, and the trust territory according to their respective needs. Of the remainder, $\frac{1}{3}$ is allotted among the States on the basis of the number of students in institutions of higher education; $\frac{1}{4}$ is allotted on the basis of the number of high school graduates; and $\frac{1}{4}$ on the basis of the number of related children under 18 living in families with annual incomes of less than \$3,000.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE—PUBLIC HEALTH SERVICE

Air pollution control

[Statutory reference: 42 U.S.C. 1857-1857l (O.E. 1955)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To protect the Nation's air resources, to initiate and accelerate a national research and development program to achieve the prevention and control of air pollution, to provide technical and financial assistance to State and local governments in connection with the development and execution of their air pollution prevention and control programs, and to encourage and assist the development and operation of regional air pollution control programs.	Grants for air pollution control programs—State, local, intermunicipal, and interstate air pollution control agencies. Research, surveys, or demonstrations with respect to air pollution—air pollution control agencies, other public or nonprofit private agencies, institutions, and organizations, and individuals.	Fiscal year 1960, \$25,000,000; fiscal year 1967, \$30,000,000; fiscal year 1968, \$35,000,000. Not more than 20 percent of the amounts appropriated may be spent for grants for pollution control programs.	Grants for air pollution control programs—grants to State and local air pollution control agencies may not exceed $\frac{2}{3}$ of the cost of developing, establishing, or improving programs. Grants to intermunicipal or interstate agencies may not exceed $\frac{3}{4}$ of the cost of developing regional programs. Research, surveys, or demonstrations generally may not exceed $\frac{2}{3}$ of cost.	Not more than 12 $\frac{1}{2}$ percent of the grants for air pollution control programs shall be expended in any 1 State.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE—OFFICE OF EDUCATION—Continued

Library services and construction

[Statutory reference: 20 U.S.C. 351-358 (O.E. 1956)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To promote the further extension of public library services to areas without such service or with inadequate services. Grants may be used to help finance the extension of services by contributing to the cost of salaries, books, materials, and equipment. They may also be used to finance construction of additional library facilities in areas found by State authorities to be without the means to do so.	States.	Services: Fiscal year 1967, \$35,000,000; fiscal year 1968, \$45,000,000; fiscal year 1969, \$55,000,000; fiscal year 1970, \$65,000,000; fiscal year 1971, \$75,000,000. Construction: Fiscal year 1967, \$40,000,000; fiscal year 1968, \$50,000,000; fiscal year 1969, \$60,000,000; fiscal year 1970, \$70,000,000; fiscal year 1971, \$80,000,000.	Within the limits of its allotment, each State receives the Federal share of the total expended by the State and its subdivisions for administration of the State plan and approved construction projects. The Federal share is 100 percent less the State percentage. The State percentage is the percentage that bears the same ratio to 50 percent as the per capita income of all States bears to the per capita income of all the States. The Federal share cannot exceed 66 percent or be less than 33 percent except that the Federal share for Puerto Rico, Guam, American Samoa, and the Virgin Islands shall be 66 percent, and for Trust Territory shall be 100 percent.	Services: \$25,000 each to Guam, American Samoa, the Virgin Islands, and the Trust Territory. \$100,000 to each State. The remainder is to be allotted among the States on a population basis. Construction: \$20,000 each to Guam, American Samoa, the Virgin Islands, and the Trust Territory. \$80,000 to each State. The remainder is to be allotted among the States on a population basis.

Supplementary educational centers and services

[Statutory reference: 20 U.S.C. 841-48 (O.E. 1965)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To enable communities to provide educational services to their children, to raise the quality of educational services already offered, and stimulate the development of exemplary elementary and secondary school educational programs to serve as models for the regular programs. Supplementary educational centers and services may include remedial instruction, adult education, cultural activities, vocational guidance, dual-enrollment programs, home-study courses, materials centers, mobile libraries and laboratories, and support to radio and television programs. Construction or lease of necessary facilities and acquisition of necessary equipment is authorized.	Local educational agency or agencies (but applications must be reviewed by State educational agency).	Fiscal year 1966, \$100 million, fiscal years 1967, 1968, 1969, and 1970, such sums as Congress may authorize.	From the amounts apportioned to each State the commissioner of education pays each applicant with an approved application an amount equal to the total sums expended by the applicant under the application.	Not more than 2 percent of the amounts appropriated may be allotted among Puerto Rico, Guam, American Samoa, Virgin Islands, and trust territory according to their respective needs, \$200,000 to each State. The remainder is apportioned among the States half on a population basis and half on the basis of the number of children aged 5 to 17.

Training and skill development

[Statutory reference: 42 U.S.C. 2601, 2614]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To enable States to provide occupational training or basic educational skills prerequisite to such training to unemployed or underemployed persons referred by the Secretary of Labor as unable to secure full-time employment without such training.	States (under which State vocational agencies will provide the training or arrange for it to be provided through appropriate private educational agencies). In certain cases the Secretary of HEW may contract directly with public or private educational or training institutions.	Such amounts as may be necessary.	The Federal payment generally may not exceed 90 percent of the cost of the training program (exclusive of training allowances).	In accordance with uniform standards developed consistent with certain factors listed in the statute.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE—PUBLIC HEALTH SERVICE—Continued

Community mental health centers

[Statutory reference: 42 U.S.C. 2681-2683d, 2691-2697 (O.E. 1963)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To construct public and nonprofit facilities providing services for prevention or diagnosis of mental illness, care and treatment of mentally ill patients, or rehabilitation of such persons. Services are to be provided principally for those residing near the facility. Projects must conform to approved State plans. There is also a program to meet a portion of the costs of compensation of professional and technical personnel for the initial operation of new community mental health centers or new services in such centers.	Construction—States, political subdivisions, or public or other nonprofit agencies. (Applications must be submitted through a State agency.) Initial cost of operation—Public or nonprofit private agency or organization which owns or operates the center.	Construction—Fiscal year 1966, \$50,000,000; fiscal year 1967, \$65,000,000. Initial cost of operation—Initial grants: Fiscal year 1966, \$19,500,000; fiscal year 1967, \$24,000,000; fiscal year 1968, \$30,000,000. For fiscal year 1967-72 such sums as may be necessary to make grants to centers which have previously received grants.	Construction—The State plan may provide a uniform rate for all projects which may not be less than 33½ percent nor more than 66⅔ percent or the State's Federal percentage, whichever is lower. The Federal percentage is 100 percent less that percentage which bears the same ratio to 50 percent as the per capita income of the State bears to the per capita income of all the States, except the Federal percentage for the territories is 63⅓ percent. The State plan may also provide a variable rate between projects or classes of projects based on economic status of areas or other factors. The rate may not exceed 66⅔ percent or be less than 33½ percent.----- Initial cost of operation grants may not exceed 75 percent for the first 15 months; 60 percent for the 1st year thereafter; 45 percent for the 2d year thereafter; and 30 percent for the 3d year thereafter.	Construction—Funds are to be allotted on the basis of population, need for the centers, and financial need. No State allotment may be less than \$100,000. Initial cost of operation—No formal allotment but the Secretary is instructed to take into account the same factors listed under "construction."

Hospital and medical facilities construction

[Statutory reference: 42 U.S.C. 291-291c (O.E. 1946)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist the States in carrying out their programs for construction and modernization of hospitals and other medical facilities as may be necessary to provide adequate hospital, clinic or similar services to all; and to stimulate development of new and improved types of physical facilities for medical, diagnostic, preventive, treatment or rehabilitative services.	States, political subdivisions; public or other nonprofit agencies. All applications must be reviewed and approved by the State agency.	Fiscal years 1966-70, \$70,000,000 each year for facilities for long-term care; \$20,000,000 each year for diagnostic or treatment centers; and \$10,000,000 each year for rehabilitation facilities. Fiscal year 1966, \$160,000,000 for construction of hospital and public health centers and modernization of such facilities and the facilities referred to above; fiscal years 1968 and 1969, \$180,000,000.	The State plan may provide a uniform rate for all projects, which may not be less than 33½ percent nor more than 66⅔ percent or the State's allotment percentage, whichever is lower. The allotment percentage is 100 percent less that percentage which bears the same ratio to 50 percent as the per capita income of the State bears to the per capita income of all the States, except that the allotment percentage cannot exceed 75 percent or be less than 33½ percent, and the allotment percentage for the territories is 75 percent.	Appropriations for hospitals and public health centers are divided between construction and modernization as follows: Fiscal year 1966, 1⅓ construction. Fiscal year 1968, 1⅓ construction. Fiscal year 1969, 2⅓ construction. Each State receives an allotment from all Hill-Burton funds (except modernization) which bears the same ratio to the amounts appropriated as the product of the population of such State and the square of its allotment percentage bears to the sum of the corresponding products for all the States. Minimum State allotments are as follows: Construction of hospitals and public health centers, \$200,000; modernization, \$200,000; diagnostic or treatment centers, \$100,000; long-term care facilities, \$200,000; rehabilitation facilities, \$50,000. Territorial minima are ⅔ those of the States. Appropriations for modernization all allotted on a formula based on population, the extent of the need for modernization and financial need. States have some leeway to transfer allotments from one category of facilities to another. A portion of any allotment shall be available to pay up to ⅓ of the necessary cost of proper and efficient administration of the State plan, but not more than 2 percent of the total allotments for a year or \$50,000 whichever is less, shall be available for such purpose.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE—PUBLIC HEALTH SERVICE—Continued

Public health, chronic illness and aged

[Statutory reference: 42 U.S.C. 246(c)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To establish and maintain adequate State and local public health services for the chronically ill and aged.	States.....	Fiscal year 1967, \$50,000,000 ¹	Established by regulations. Equal matching by State and local agencies is required.	Appropriations are apportioned among the States on the basis of population, extent of the public health problem involved, and financial need.

¹ Includes a number of additional public health programs.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE—VOCATIONAL REHABILITATION ADMINISTRATION

Planning, construction, and initial staffing of rehabilitation facilities and workshops

[Statutory reference: 29 U.S.C. 41a]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
(1) To pay part of the cost of construction and initial staffing of public or other nonprofit workshops and rehabilitation facilities. The workshops are to provide gainful employment to the severely handicapped who cannot be readily absorbed in the competitive market. (2) The Secretary is also authorized to make planning grants to the appropriate State agency to pay part of the cost of determining the State's need for workshops and rehabilitation facilities.	(1) Any public or other nonprofit organization, which assures the Secretary of HEW that the project will be used as a public or other nonprofit rehabilitation facility or workshop for at least 20 years after completion, and which satisfies other requirements concerning matching funds, plans and specifications, and approval by the appropriate State agency. (2) State vocational rehabilitation agencies....	Fiscal year 1966, \$1,500,000; fiscal year 1967, \$7,000,000; fiscal year 1968, \$9,000,000.	(1) The Federal share in any State for construction shall be the same as it is in the case of rehabilitation facility grants in such State under the title 42 U.S.C. program (i.e. 33½ percent to 66¾ percent). As for grants to assist in initial staffing, the Federal share may not exceed 75 percent of costs for the 1st 15 months, nor exceed 60 percent for the 1st year thereafter, 45 percent for the 2d year and 30 percent for the 3d year thereafter. (2) There is no specified matching provision for the planning grant.	None.

Research and training centers

[Statutory reference: 29 U.S.C. 34]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To pay part of the cost of establishing and maintaining, at selected universities, research and training centers for the study of the various disciplines of rehabilitation.	Educational institutions with comprehensive programs of training and research in the various rehabilitation specialties, affiliated with clinical rehabilitation facilities.	There is a lump sum authorization for grants for special projects generally, including this program, and programs for rehabilitation research, training, and planning. Fiscal year 1966—\$80,000,000; fiscal year 1967—\$104,000,000; fiscal year 1968—\$117,000,000.	No specific requirement, except that grants under this program may pay only part of project cost. Matching ratios are a matter for administrative discretion.	None.

Vocational rehabilitation research, training, and expansion

[Statutory reference: 29 U.S.C. 34]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To pay part of the cost of projects of research, demonstrations, training, and traineeships in the field of vocational rehabilitation; and to pay part of the cost of projects for planning, preparing for and initiating special programs to expand State vocational rehabilitation services.	States and public and other nonprofit organizations and agencies.	Fiscal year 1966—\$80,000,000; fiscal year 1967—\$104,000,000; fiscal year 1968—\$117,000,000.	No specific matching requirements are set forth. Grants pay "part of the cost" of approved projects at the discretion of the Secretary of HEW.	None.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE—VOCATIONAL REHABILITATION ADMINISTRATION—Continued

Vocational rehabilitation services

[Statutory reference: 29 U.S.C. 32]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist the States in meeting the costs of providing vocational rehabilitation services. Assisted under this grant program are guidance and placement, diagnosis, physical restoration, job training and other services, and expenses of administering the program.	State vocational rehabilitation agencies in the 50 States, the District of Columbia, Guam, Puerto Rico, and the Virgin Islands.	Fiscal year 1966—\$300,000,000; fiscal year 1967—\$350,000,000; fiscal year 1968—\$400,000,000.	Federal share of expenditures, a percentage varying from State to State within statutory limits of 50 and 70 percent, is computed biennially in accordance with a statutory formula based on per capita income.	Individual State allotments are computed annually in accordance with a statutory formula based upon the product of a State's population and the square of its "allotment percentage." Allotment percentages, varying from State to State within limits of 33½ and 75 percent, are promulgated biennially and are related to per capita income.

Vocational rehabilitation services—innovations

[Statutory references: 29 U.S.C. 33]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist States in paying for the costs of projects for vocational rehabilitation services under the State plan which provide for the development of methods and techniques new in the State, for providing vocational rehabilitation services for handicapped individuals, or are designed for development of new or expanded vocational rehabilitation services for groups of handicapped individuals with catastrophic or particularly severe disabilities.	Vocational rehabilitation agencies in the 50 States, the District of Columbia, Guam, Puerto Rico, and the Virgin Islands.	Fiscal year 1966—\$5,000,000; fiscal year 1967—\$7,000,000; fiscal year 1968—\$9,000,000.	The Federal share of approved projects shall be equal to 90 percent of the cost of such project for the first 3 years and 75 percent for the next 2 years, except that at the request of the State, such payments may be less than such percentage of project cost.	Appropriated funds are allotted to the States on the basis of population, with a minimum allotment of \$5,000.

Workshop training and improvement programs for the handicapped

[Statutory reference: 29 U.S.C. 41b]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To aid in the provision of training services for handicapped individuals in public or other nonprofit workshops and rehabilitation facilities. Such services shall include training in occupational skills and in related services, such as work evaluation, work testing, provision of occupational tools and equipment, and job tryouts; and payment of weekly allowances to the handicapped individuals undergoing training.	States and public and other nonprofit organizations and agencies.	Fiscal year 1966, \$1,500,000; fiscal year 1967, \$9,000,000; fiscal year 1968, \$14,000,000.	The Federal share of the cost of the workshop training program is 90 percent.	None.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE—WELFARE ADMINISTRATION

Aid to families with dependent children

[Statutory reference: 42 U.S.C. 603]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To enable States to furnish financial assistance, rehabilitation and other services, assistance to needy children meeting statutory specifications, the object being to maintain children in their own homes with parents or relatives, or in foster homes.	States.....	Open, not fixed.....	1st \$17 of payment, average: Federal, \$4.67; State, \$1. Balance of payment up to \$30, average: Federal share is variable, based on per capita income, not more than 65 percent nor less than 50 percent. Federal share of administrative cost is 50 percent.	None. But see column on matching provisions.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE—WELFARE ADMINISTRATION—Continued

Aid to the blind

[Statutory reference: 42 U.S.C. 1203]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To enable States to furnish financial assistance to needy blind persons and to stimulate the growth of rehabilitation and other services to help the blind attain and retain their self-support or self-care capability.	States.....	Open end, not fixed. Amount of appropriation depends upon the amount of the States' expenditure for the program.	First \$37 of monthly payment, average: Federal grant pays \$31. Balance of payment up to \$75. Federal share is variable, based on per capita income, not more than 65 percent nor less than 50 percent. Federal, may be 75 percent of cost of providing certain preventive and rehabilitative services, and of staff training. Federal share of administrative cost is 50 percent.	None. See column on amount of authorization.

Aid to the permanently and totally disabled

[Statutory reference: 42 U.S.C. 1353]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To pay part of the cost of financial assistance to needy persons, 18 years of age or older, who are permanently and totally disabled.	States.....	Open end. Not fixed.....	Federal, not less than 50 percent nor more than 65 percent, except as to certain items Federal funds may cover 75 percent of the cost. Federal share of other costs of State and local administration is 50 percent.	None.

Child welfare services

[Statutory reference: 42 U.S.C. 722]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist State agencies in establishing, extending, and strengthening child welfare services for the protection of homeless, dependent, and neglected children and children in danger of becoming delinquent.	State public welfare agencies.....	\$45,000,000 for fiscal year 1968-67 and fiscal year 1967-68, and \$50,000,000 a year thereafter.	Variable. Federal share not under 33½ percent or over 66½ percent of the total program cost.	Each State receives up to \$70,000 annually, but not less than \$50,000, depending upon the ratio of annual appropriations to the amount which is authorized to be appropriated. Additional amounts may be made available under certain prescribed factors.

Maternal and child health services

[Statutory reference: 42 U.S.C. 702]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To enable each State to extend and improve services for promoting the health of mothers and children. Grants may also be made for projects of regional or national significance that contribute to the advancement of maternal and child health services.	States.....	\$40,000,000 annually for fiscal years 1968 and 1967; \$45,000,000 annually for fiscal years 1968 and 1969; and \$50,000,000 annually thereafter.	Fund A: Federal, 50 percent; State, 50 percent. Fund B: No matching.	Half of the funds are placed in fund A: From this, States receive \$70,000, plus an amount in ratio to the number of live births in the State to total live births in the United States.

Medical assistance programs

[Statutory reference: 42 U.S.C. 1396-1396d]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist States in providing medical assistance on behalf of families with dependent children and of aged, blind, or permanently and totally disabled individuals, whose income and resources are insufficient to meet the costs of necessary medical services.	States with approved State plans.....	Not fixed.....	The Federal payment varies from 50 to 83 percent of State medical assistance payments under this program plus 75 percent of amounts for compensation or training of skilled medical personnel necessary for administration of the plan.	None.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE—WELFARE ADMINISTRATION—Continued

Medical assistance to the aged (Kerr-Mills)

[Statutory reference: 42 U.S.C. 301-306, 1361-1365]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist States in providing medical services to individuals 65 years or older who are not recipients of old-age assistance but whose income and resources are insufficient to pay for such services.	States with approved State plans-----	Not fixed-----	State and local contributions vary from 20 to 50 percent of State expenditures for medical assistance. State and local contributions of at least 25 percent are required for preventive and rehabilitative services and personnel training.	None.

Old-age assistance

[Statutory reference: 42 U.S.C. 301-306]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist States in providing financial assistance to aged needy individuals and appropriate rehabilitation or other services to help such individuals attain or retain capability for self-care.	States with approved State plans-----	Not fixed-----	Federal funds pay \$29 of the first \$35 up to a maximum average monthly payment of \$70 per recipient. The Federal proportion of the next \$35 varies from 50 to 65 percent depending on the per capita income of the State. Federal funds pay 75 percent of the cost of preventive and rehabilitative services and staff training.	None. See matching provisions.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Assistance for basic water and sewer facilities

[Statutory reference: 42 U.S.C. 3101-3108 (O.E. 1965)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist and encourage local public bodies and agencies to finance the construction of specific projects for basic public water facilities and for basic public sewer facilities (other than treatment works) needed to promote the efficient and orderly growth and development of communities, and to acquire land for such future construction of public works and facilities.	Local public bodies and agencies-----	\$200,000,000 for each fiscal year, 1966, 1967, and 1968, to remain available until expended.	Federal, 50 percent of development cost, except in a community of less than 10,000 population the amount may be not more than 90 percent for a sewer facility.	None.

Assistance for code enforcement

[Statutory reference: 42 U.S.C. 1468 (O.E. 1965)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist cities, counties, and other municipalities in carrying out programs of concentrated code enforcement in deteriorated or deteriorating areas in which such enforcement, together with public improvements, may be expected to arrest the decline of the area.	Cities, counties, and other municipalities---	Funds to be advanced from urban renewal grant funds.	Federal, two-thirds of cost of planning and carrying out the program which may include the provision and repair of necessary streets, curbs, sidewalks, street lighting, treeplanting, and similar improvements, except three-fourths where the population is 50,000 or less.	None.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT—Continued

Assistance for neighborhood facilities

[Statutory reference: 42 U.S.C. 3103-3108 (O.E. 1965)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist local public bodies or agencies in financing specific projects for neighborhood facilities. Projects may be undertaken directly or through a nonprofit organization approved by the public body or agency.	Local public bodies or agencies	\$50,000,000 without fiscal year limitation	Amount shall not exceed 66⅔ percent of development cost of project or 75 percent of such cost if the project is located in an area designated as a redevelopment area under the Area Redevelopment Act or any supplementary act.	None.

Community renewal program

[Statutory reference: 42 U.S.C. 1453(d) (O.E. 1959)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist in the preparation and completion of community renewal programs which include the identification of slum or blighted areas, measuring the nature and degree of blight, determination of the financial and other resources needed to renew such areas, identification of potential project areas, and the scheduling of urban renewal activities.	Local public bodies authorized to perform the planning work necessary for preparation or completion of the program.	Funds to be advanced from urban renewal grant funds.	Grants may not exceed ⅔ of the cost of preparation or completion of the community renewal program.	None.

Demolition of unsafe structures in and outside of urban renewal areas

[Statutory reference: 42 U.S.C. 1467 (O.E. 1965)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist cities, counties, and other municipalities in financing the cost of demolishing structures unsound or unfit for human habitation and which under State or local law may be demolished.	Cities, counties, and other municipalities.....	Funds to be advanced from urban renewal grant funds.	Federal, shall not exceed ⅔ of cost.....	None.

Preservation and development of open-space land in urban areas

[Statutory reference: 42 U.S.C. 1500-1500e (O.E. 1961)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To encourage and assist States and local public bodies to help finance the acquisition of title to, or permanent interests in, open-space land in urban areas and its development for park and recreational purposes, conservation and other natural resources, or historic or scenic purposes.	States and local public bodies.....	Not to exceed \$310,000,000, without fiscal year limitation, but less \$64,000,000 for built-up areas, and \$36,000,000 for urban beautification.	Federal, 50 percent of total cost of acquisition, demolition, and removal.	None.

Provision of open-space land in built-up urban areas

[Statutory reference: 42 U.S.C. 1500-1500e (O.E. 1965)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To authorize contracts to make grants to States and local public bodies to help finance the acquisition of title to, or permanent interests in, developed land in built-up portions of urban areas to be cleared and used as permanent open-space land.	States and local public bodies.....	Not to exceed \$64,000,000, without fiscal year limitation.	Federal, 50 percent of cost of acquisition, demolition, and removal of improvements.	None.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT—Continued

Public low-rent housing

[Statutory reference: 42 U.S.C. 1401-1435 (O.E. 1937)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist States and political subdivisions to eliminate slums and blighted areas and to provide decent, safe, and sanitary dwellings for low-income families.	States and local public bodies.....	Originally \$20,000,000 for 1st 3 years. Now up to \$554,250,000 through July 1, 1968.	The State and local public body must exempt the property from taxation or make an equivalent payment in cash. If tax exempt, project pays in lieu of taxes at rate of 10 percent of shelter rent, or such lesser amount as will amount to a local contribution of at least 20 percent of the Federal contribution.	Since 1961, dwelling units in any one State may not exceed 15 percent of aggregate amount not already guaranteed. Maximum period is 40 years for annual contributions to be made to local public housing authorities under contracts fixing term and annual amount. The amount of annual payment is fixed under a statutory formula.

Urban beautification and improvement

[Statutory reference: 42 U.S.C. 1500-1500e (O.E. 1965)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist States and local public bodies in carrying out local programs for the greater use and enjoyment of open space and other public land in urban areas.	States and local public bodies.....	Not to exceed \$36,000,000 without fiscal year limitation.	Not to exceed 50 percent of amount by which the cost of the activities carried on by recipient during a fiscal year exceeds its usual expenditures for comparable activities. However, not to exceed \$5,000,000 of the amount may be used to make grants up to 90 percent of cost of activities having special value in demonstrating new and improved methods and materials for beautification use.	None.

Urban mass transportation

[Statutory reference: 49 U.S.C. 1601-1611 (O.E. 1964)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist States and local governments in financing the acquisition, construction, reconstruction, and improvement of facilities and equipment for use, by operation or lease or otherwise, in mass transportation service in urban areas, and in coordinating such service with highway and other transportation service in such areas.	States and local public bodies and agencies...	\$75,000,000 for fiscal year 1965, \$150,000,000 for fiscal year 1966, and \$180,000,000 for fiscal year 1967.	See "Apportionment Formula."	No initial allocation among States. Up to 2% of project cost from Federal grant. May not exceed 12 1/4 percent of total for any one State. 100 percent relocation payments from Federal grant—maximum of \$200 per individual, \$3,000 or actual moving expenses per business.

Urban renewal

[Statutory reference: 42 U.S.C. 1450-1464 (O.E. 1949)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To provide financial and technical assistance to local public agencies, including States and local public bodies, for the planning and carrying out of urban renewal projects involving rehabilitation and/or redevelopment of slum, blighted, or deteriorated neighborhoods.	States and local public bodies.....	\$4,700,000,000 ¹ increased by \$675,000,000 in 1965; \$725,000,000 in 1966; \$750,000,000 in 1967 and 1968.	Generally, Federal, 2% of net project cost. In special cases, Federal, 3% of costs after certain costs are paid by recipient. ²	Not in excess of 12 1/4 percent in any 1 State.

¹ Less \$25,000,000 for mass transportation demonstration projects, and \$5,000,000 for urban renewal demonstration projects.

² Additional funds are authorized for certain enumerated undertakings.

DEPARTMENT OF THE INTERIOR—FEDERAL WATER POLLUTION CONTROL ADMINISTRATION

Waste treatment works construction

[Statutory reference: 33 U.S.C. 466-466k (O.E. 1948)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist construction of necessary works (including intercepting sewers, outfall sewers, pumping, power, and other equipment) for the treatment of sewage or industrial wastes of a liquid nature. A related program provides grants to assist in the development of projects that demonstrate a new or improved method of controlling the discharge of inadequately treated sewage or other waste from sewers which carry storm water, both storm water and sewage, or other wastes. Contracts for research and demonstrations on this subject are also authorized.	Construction, States, municipalities, or intermunicipal or interstate agencies. Sewer overflow control demonstrations. Grants for project development, States, municipalities, or intermunicipal or interstate agencies. Contracts for research and demonstrations, public or private agencies and institutions, and individuals.	Construction, fiscal years 1966 and 1967, \$150,000,000 each year to remain available until expended. At least 50 percent of the 1st \$100,000,000 appropriated during a fiscal year shall be used for grants for treatment works serving communities of 125,000 or smaller. Sewer overflow control demonstrations, fiscal years 1966, 1967, 1968, and 1969, \$20,000,000 each year to remain available until expended. No grant or contract may exceed 5 percent of the total amount authorized in any 1 fiscal year. Not more than 25 percent of the amount appropriated may be spent on contracts for research and demonstrations.	Construction, grant may not exceed 30 percent of cost or \$1,200,000 whichever is smaller. (If project serves more than 1 municipality limit is \$4,800,000). These dollar limits will not apply to projects constructed with grants from allocations from appropriations in excess of \$1,000,000 if the State agrees to match equally all such allocations. These limits may be increased 10 percent for any project certified by a State, metropolitan or regional planning agency as being in accord with the comprehensive plan for the development of the metropolitan area. Sewer overflow control demonstrations, grants may not exceed 50 percent of the estimated reasonable cost. Contracts, none.	Construction, the first \$100,000,000 appropriated each fiscal year is apportioned among the States, half on a population basis and half on a per capita income basis. The remainder, if any, is apportioned on a population basis. Sewer overflow control demonstrations. None.

OFFICE OF ECONOMIC OPPORTUNITY

General community action programs (antipoverty)

[Statutory reference: 42 U.S.C. 2781-2791, 2831 (O.E. 1964)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist local communities to mobilize their resources to combat poverty through community action programs, and pay expenses of development and administration.	Public or private nonprofit agencies.....	Part of \$850,000,000 for fiscal year 1966; and for fiscal years 1967 and 1968 such sums as Congress may authorize. (This authorization is shared with adult basic education program and the voluntary assistance program for needy children.)	Federal, 90 percent through Aug. 20, 1967; up to 50 percent thereafter (with discretion to exceed these limits under special circumstances).	See note below.

NOTE.—After reserving 2 percent for allotment to territories and 20 percent as a discretionary fund, the remainder is to be allotted among the States: $\frac{1}{3}$ in proportion to the number of public assistance recipients, $\frac{1}{4}$ in proportion to the number of unemployed persons, and $\frac{1}{3}$ in proportion to the number of children under 18 years of age living

in families with annual incomes of less than \$1,000. Statutory guidelines are also provided for allocating funds among areas, rural and urban, within each State.

Work-training programs (antipoverty)

[Statutory reference: 42 U.S.C. 2731-2736 (O.E. 1964)]

Purpose	Eligible recipient	Amount of authorization	Matching provisions	Apportionment formula
To assist and cooperate with State and local agencies and nonprofit organizations in developing programs of useful work experience opportunities for unemployed young men and women through participation in State and community work-training programs to increase their employability or chance of resuming their education.	State and local agencies and private nonprofit organizations.	Part of \$640,000,000 for 1966; for fiscal year ending June 30, 1967, and the succeeding year such sums as the Congress may hereafter authorize. (Job Corps program shares this authorization.)	Federal, 90 percent of cost for 3 years after Aug. 20, 1964, and thereafter not to exceed 50 percent, unless increased by regulation.	Not more than $12\frac{1}{2}$ percent of any funds for any fiscal year shall be used in any one State. Allotment among the States shall be on the basis of population, unemployment, and family income levels.

Mr. MUSKIE. In addition, I would note that the maximum impact on the fiscal year 1967 budget would be a modest \$12 million for planning.

Finally, Mr. President, the committee has provided a \$250 million authorization for additional urban renewal funds to assure that the demonstration cities program would not use a disproportionate amount of existing urban renewal grant authority to the detriment of cities not participating in the program, particularly small towns. The \$250 million estimate is tied to the 2-year monetary authorization for supplemental grants.

I want to underscore the committee's intent that the comprehensive city demonstration program is not to be used simply as a means of accelerating urban renewal projects. The program is designed to place in better balance, social and physical renewal programs aimed at meeting the needs of people living in slum and blighted areas.

The comprehensive city demonstration program is a bold new effort, Mr. President, but it is essential if we are to make our cities what they ought to be. We have learned from the shortcomings of the past that fragmented, uncoordinated applications of individual programs—however desirable in and of themselves—will not correct the spiraling crisis of the cities.

What we propose to do is analogous to our aerospace program, where several years ago we abandoned the practice of trying to fit separately developed components together. Today we use the systems approach to complex, but inter-related problems.

The housing, education, job opportunity, physical, and social needs of men and women are part of the total environment of the cities. They should be treated as such.

As Prof. Norton Long has written:

It is this circle [of the troubled environment of the cities] that can indeed be a vicious circle, that housing, education, jobs and income are all linked together. If you don't have the housing, you don't have the access to the education. If you don't have the education, you don't have access to the jobs. If you don't have the access to the jobs, you don't have the income. If you don't have the income, you can't buy the housing.

The reason why we have to do something about this problem is that our policy of storing people is much more shameful and wicked than the policy of storing grain. The grain merely rots, but the people rot and reproduce, and the people they reproduce rot, too, until it is brought to our attention out in the containers of poverty, by explosions like Watts.

The comprehensive city demonstration program is also designed for broad application, throughout our Nation. Eligibility is limited by need, not size or geographic location. The net effect of the program will be to help those in need in the slum areas and by so doing to contribute to healthier and better-balanced cities.

This approach appeals to me because it is humane, because it is consistent with our experience in other fields, and because it calls for prudent and sound management of our resources.

Mr. President, title II of S. 3708 is a logical extension of the coordination concepts of the comprehensive city demonstration program. As I noted earlier in my remarks, one of the principal objectives "will contribute to a well-balanced city." Such balance cannot be achieved unless the metropolitan area in which a city is located has an effective, coordinated planning program. And metropolitan areas without effective planning and coordination of their physical development are inviting blight, decay, and economic dislocation.

The original administration proposals were contained in S. 2977, introduced by the distinguished chairman of the Housing Subcommittee [Mr. SPARKMAN]. The subcommittee broadened and reorganized those proposals to provide for a logical progression in metropolitan area planning and development, particularly in connection with Federal grant-in-aid programs which affect the physical development of such areas.

The first step in such coordination requires the Federal Government to put its own house in order. Under section 202 of the bill, the Secretary of Housing and Urban Development is authorized to obtain from other Federal agencies statistical data, program reports, and other material needed to carry out the metropolitan area responsibilities of the Department. In addition, Federal departments and agencies carrying out metropolitan area programs would be directed—to the maximum extent practicable—to consult with and seek advice from all other significantly affected Federal departments and agencies.

I recognize that this language is primarily an expression of intent. It does not compel coordination by Federal agencies. But we hope this precatory language will be heeded by the executive branch. If it is not, the Congress may have to consider more detailed and specific coordination requirements.

To help encourage coordination of Federal activities in metropolitan areas, section 203 of the bill would authorize the Secretary of Housing and Urban Development, upon the request of duly authorized local officials and after consultation with local governmental authorities, to appoint for any metropolitan area a "metropolitan expediter" to provide information, data, and assistance to local authorities, organizations, and persons and to relevant Federal agencies with respect to the Department's programs and activities and other related activities and needs in the area.

The committee has made it clear that the services of the expediter can be provided only on local request and that his role would be entirely advisory. In no way would he impose Federal control over local decisions affecting metropolitan development.

Section 204 is a committee amendment. It would require that all applications for Federal loans or grants to assist in carrying out projects for open-space land, hospitals, airports, libraries, water supply and distribution facilities, sewerage facilities and waste treatment works, highways, transportation facilities, or

water development and land conservation within any metropolitan area must, after June 30, 1967, be submitted for review and comments by a metropolitan-wide comprehensive planning agency which is, to the greatest extent practicable, responsible to the elected officials of the general local governments. It would further require that such an application by a special purpose unit of local government must also be submitted to any affected general local governments.

This proposal is consistent with proposals contained in sections 503 and 504 of S. 561, the intergovernmental cooperation bill approved by the Senate earlier in this Congress.

The committee retained, essentially unchanged from the original administration proposal, section 205 which authorizes incentive grants on federally aided projects in metropolitan areas where State and local governments are cooperating fully in planning and programming, and carrying out all their major activities in accordance with such planning and programming.

And so, Mr. President, in title II we have provided for progressive improvements in planning and development for our metropolitan areas.

First, we call upon the Federal departments and agencies to coordinate their activities.

Second, we provide for metropolitan expeditors who, at local request, can help such coordination in metropolitan areas.

Third, we require minimum levels of cooperation and coordination at the local level as conditions for receipt of certain Federal grant-in-aid funds for metropolitan development.

Finally, we provide incentive grants for more effective coordination of metropolitan area planning and development.

Title III, Mr. President, is a modification of the earlier urban information center proposal contained in title IV of S. 2977. The distinguished junior Senator from New Hampshire [Mr. McINTYRE] developed the new provisions which were adopted by the committee.

The new program seeks to fill the needs of local governments, organizations, and individuals to know more about Federal programs affecting urban development. It would authorize the Secretary of Housing and Urban Development to make grants to assist programs of States and metropolitan area agencies for the establishment and operation of urban information and technical assistance centers. In addition, the program would provide technical assistance to small communities, of not more than 25,000 persons, relating to urban problems.

CONCLUSION

These are our proposals, Mr. President. In my opinion, they represent a sound implementation of the President's recommendations. They are responsive to the national concern over the plight of our cities and metropolitan areas.

The proposals are not confined to one section of the country. They are not limited to one type of situation—cities and counties of all sizes, councils of gov-

ernments, State and local agencies are eligible to participate.

We have tried to treat the problems of these areas as a whole. We have kept the programs flexible. We have emphasized local initiative and direction.

I believe this legislation offers us a challenge and an opportunity to focus the great resources of our Nation through the use of "creative federalism" on one of the most critical, complex, and vital domestic questions of our day, the question posed by the President:

Shall we make our cities livable for ourselves and our posterity? Or shall we by timidity and neglect damn them to fester and decay?

Mr. President, I propose we take the constructive approach, learning from the past, using our imagination, building for the future. I urge approval of S. 3708.

Mr. President, I yield the floor.

Mr. TOWER. Mr. President, again may I say that even though I am opposing this measure, the distinguished Senator from Maine has made some very significant improvements in this measure in committee, and he is to be commended for having done so. I only regret that I must debate what I consider the lack of merit in this measure with so formidable and estimable and eloquent a gentleman as my distinguished friend, the Senator from Maine.

Mr. President, President Johnson said before the National Legislative Conference, National League of Cities, March 31, 1966:

The investments you are making in your cities are vital to our future. We would like to complete them all at once. But if we attempt to do too much, too soon, we will end by accomplishing less by borrowing our money, by issuing bonds when the cost of money is at the highest point in several years—when costs are skyrocketing and materials and skilled labor are scarce. I ask you to go home and get out your lead pencil—and take a good hard look at your next quarterly budget expenditures.

I believe the President's evaluation of the city development problem to be exactly right.

I believe that the President, to be consistent after having expressed this strong opinion, would join me in voting against this bill if he were back in the Senate.

The so-called demonstration cities bill, title I of S. 3708, is an expansion of a faltering urban renewal program which will be financed almost totally with Federal funds.

The facts and figures on urban renewal prove beyond doubt that the program has hit dead center because of the failure to inject some basic thinking into a program that deserved a better fate.

Urban renewal was an enticing fantasy that preyed on cities which could not afford all the luxury in a hurry that such a program offered. Much like the human failure of overindulgence at an attractive cafeteria counter.

The cities' one-third share of the project costs has become more and more difficult to meet despite the promising tax profits to be derived from improved property rising on the project sites. One project created another—moving people and businesses to less expensive areas

than that to be developed by urban renewal.

Urban renewal, the great promise to the cities, has deteriorated to the point where only \$1.5 billion in Federal funds has been spent since 1949 out of a total of \$7.6 billion authorized during that period. Of course, \$5.6 billion has been committed, but it obviously is much easier to commit than to spend when it is necessary for the cities to raise from their taxpayers the one-third of the cost of a project on which the Federal Government offers to pay two-thirds.

That is why another dreamworld of spending is planned for the cities, but this time the Federal Government's share in the demonstration cities proposal can run as high as 95 percent because under certain conditions the Federal Government would be authorized to contribute 80 percent to the local share of project costs.

The administration sought to have no limit on congressional authorizations for this new program and supported this indefinite money position by professing some indefiniteness in just how many cities would get the benefit of the program and to what extent each fortunate city would benefit.

Nevertheless, administration figures submitted in testimony before the committee made possible the estimation of total costs of approximately \$2.9 billion for a 5-year program.

The committee reduced the program from a 5-year program to a 3-year program and fixed authorization limits at \$12 million for the first year, which is a planning year, and at \$400 million for fiscal 1968 and \$500 million for fiscal 1969, which would be considered the programming years, or the years in which the Federal contributions would be made on active projects.

Mr. MUSKIE. Mr. President, will the Senator yield?

Mr. TOWER. I yield to the distinguished Senator from Maine.

Mr. MUSKIE. The Senator from Texas and I wish to state the basic facts accurately. I wonder whether the Senator would explain the \$2.9 billion figure. I understood that originally it was \$2.3 billion for demonstration cities. There are additional costs associated with title II.

Mr. TOWER. I believe the total estimate for a 5-year period was \$2.9 billion. But I shall be glad to check those figures and discuss them with the distinguished Senator from Maine tomorrow.

Mr. MUSKIE. All right.

Mr. TOWER. Even so, this change in the bill can hardly be classified as a redeeming improvement in light of the fact that new expenditures are to be committed by Congress at a time when "costs are skyrocketing and materials and skilled labor are scarce," as President Johnson said to the city representatives only last March.

Before our committee on August 4, Gov. J. L. Robertson, of the Federal Reserve Board, testified that recommendations for reducing Federal Government expenditures had been made to President Johnson because of existing inflationary pressures.

I believe it is appropriate to go further into the testimony of Governor Robertson, as well as that of Joseph W. Barr, Under Secretary of the Treasury who also appeared before our committee, because the basic issue before us at that time concerned the halting of inflationary pressures.

In testifying on a bill to deal with interest rate regulation, Governor Robertson warned of "boom and bust" dangers and said:

We are in the midst today of an inflationary situation. The inflation pressures are great. In my opinion the dangers of inflation are much greater than the dangers of high interest rates. The cost to the people of this country is much greater in the case of inflation than in the case of high interest rates.

Governor Robertson told the committee that the continued use of monetary policy and failure to use fiscal policy will put additional upward pressure on interest rates. He also said that recommendations have been made to President Johnson that expenditures be reduced to curb the demand for money.

Secretary Barr said that it would be desirable to "pay something on the Federal debt this year" and that this is the year "we should be in balance or as close to balance as possible, or surplus."

These statements by men charged with a great deal of the responsibility of protecting the economy against extreme and damaging fluctuations only serve to emphasize the President's own words of caution against overspending in the cities during these times of expensive money.

It should be noted that the committee minority did not take the demonstration cities program apart item by item for criticism because there are recognizable needs for assistance in many of our great cities. However, as the President said, too much might be attempted too soon.

As we indicated in our report, the Congress would not be deserting the cities by postponing the expansion of expenditures for city rehabilitation at this time. We have pointed out the inability of the cities to carry out commitments already given for urban renewal projects and much more money will be available throughout the next 3 years. Last July 1, an annual authorization of \$750 million for urban renewal capital grants became effective. Additional authorizations of \$750 million will become effective on July 1, 1967, and July 1, 1968.

Further proof that Congress is fully cognizant of the problems in the Nation's cities and that those problems will be subject to continued consideration is contained in the 1965 approval of an increase in planning grant authorization of \$125 million, which brings the total to \$230 million, to be available until expended.

The city redevelopment program need not stand still for lack of funds either for planning or actual development work in the event that the Congress rejects this proposal authorizing over \$900 million. This is a period in which difficult decisions must be made. With our economic machine running wide open, priorities are necessary.

Expenditures cutbacks have been recommended—and in some cases accomplished—on a few isolated domestic projects. The savings from these cutbacks would be swallowed up, however, by only a fraction of what is sought to expand city redevelopment.

Aside from the obligations we face in Vietnam and second-front fighting against inflation in our Nation, the judgment used in planning this demonstration cities program is questionable. With Dr. Robert D. Weaver, Secretary of Housing and Urban Development, admitting that a single city of 1 million population could qualify for more than \$400 million and a city of 50,000 population could qualify for as much as \$23 million, it becomes quite obvious that only a chosen few of the Nation's cities, large or small, would share in the benefits to be derived from the expenditures of additional hundreds of millions of dollars called for in this bill.

Title II of the bill providing grants to assist in the orderly development of metropolitan areas has a laudable purpose. Certainly planning is essential to orderly development and it is important that the planning, if approved by local civic leaders and a majority of the residents in an area, be followed.

It is no less obvious that the multiplicity of political jurisdictions and agencies involved in metropolitan development make it difficult to achieve the type of overall planning that would fully integrate the efforts of each to meet the economic and social needs of those residing in the subdivisions of a metropolitan area.

While we express accord with the objective of the bill we cannot support it as a means to that end.

Among other reasons Why we withhold our support, is that already voiced about expansion of federally financed programs at a time when our economic machine is already straining its capacity. Even if this proposal contained no objectionable provisions, the economic situation at this time would warrant our opposition.

It is suggested that one of the reasons for this legislation is the complexity of metropolitan government and the multiplicity of political jurisdictions and agencies involved. We do not find anything in the bill that would lessen the complexity or reduce the number of jurisdictions. These, we feel, should only be altered by the voice of the people, and as has been evident in case after case, the people have not voted to accept an overall metropolitan government.

The voice of the people in each political subdivision of the metropolitan planning area must not be circumvented by any Federal redevelopment plan. They should have the opportunity to either be part of the plan or refuse to be part of it depending upon the combined judgment of the residents.

The requirement in section 202 of this title that all Federal agencies consult with and ask advice from all other agencies to assure fully coordinated programs is redundant at best and an indictment of the present administration of Federal programs. It is indefensible

that agencies using public funds would not take all possible measures to assure that any projects under their administration relating to metropolitan development were in accord with proper area development and all other federally assisted projects, even in the absence of a congressional mandate.

There may be reason for rivalry among private individuals, firms, or institutions, but there is no excuse for such among those who are supposed to be public servants.

We are not of the opinion that it is necessary to provide an additional Federal incentive of 20 percent, thus reducing the local share in order to bring about metropolitan planning, nor have we been convinced that the funds provided in this title will increase planning. We suspect that those advanced areas which already are well along with their planning will receive the supplemental grants as a windfall and that little additional planning will result.

The Federal Government is already contributing from 50 to 90 percent of the cost of a wide variety of projects ranging from sewer facilities to beautification projects. We see no reason why the Federal contribution as set forth in programs which are already now part of the law are not predicated on the condition that the assisted project fit into a coordinated plan.

Last year, a bill which would have made areawide planning a condition for Federal participation in local programs was approved by the Senate. We feel that that bill, S. 561, would be a more appropriate measure for the stimulation of metropolitan planning, at no additional expense for the Federal Government.

Mr. President, this legislation would require that any land development or uses which have a major impact on the development of the area, whether federally assisted or not, must be carried out in conformance with the comprehensive plan approved by the Secretary of the Department of Housing and Urban Development. Thus, not only would the Secretary have a stranglehold over the projects which receive Federal aid, but also any other construction or development in a metropolitan area. He would have this by virtue of the fact that the supplemental Federal share on federally assisted projects can be withheld unless all development having metropolitan-wide or interjurisdictional significance, is in accord with the plan.

While it is desirable that all development proceed in an orderly manner, we do not feel that it is necessary or in keeping with American tradition to give the Secretary such great power over city development.

Some of the projects which, under this legislation, would receive an additional 20 percent Federal aid are not under the administration of the Department of Housing and Urban Development nor the jurisdiction of the Banking and Currency Committee.

If additional subsidy is needed by localities for the development of waste treatment works or outdoor recreational facilities, administered by the Depart-

ment of the Interior, or if the Federal share of Federal highway programs and public works and development facilities administered by the Department of Commerce; or airport planning and development administered by the Federal Aviation Agency, then let those congressional committees which have responsibility for these programs recommend an increase in the Federal share. It would be far better that the increase be based on the operation of each program and the needs not now being filled than that there be an across-the-board, 20-percent increase in the Federal share.

Title III, setting up urban information and technical assistance services, is a belated recognition that small cities are not in a position to benefit from either the demonstration cities program or the metropolitan development program. Although it has been stated again and again by supporters of the two programs that they would be for both large and small cities, it is evident that the small city civic organizations are not even aware of the Federal subsidies now available, to say nothing of their inability to meet the planning requirements.

This prompted acceptance of title III of the bill which would provide a means by which a small community with a population of 25,000 or less can receive from the Federal Government, grants up to 50 percent of the cost of the operation of technical assistance and urban needs centers.

Mr. President, there is no convincing evidence that the administration intends to cut back its demands for domestic Federal expenditures. In the absence of measures bringing about an increase in receipts, it is unrealistic to suggest that we pay something on the Federal debt, as the Treasury Department testified, unless we take action that will lead to that end. We have yet to see a Federal budget that does not equal the sum of its parts. This bill would authorize an increase in spending of \$1 billion.

We cannot expect others to show restraint unless, we, too, are willing to do so. It is extremely difficult to cut back on established programs but it is possible to either postpone or reject proposed new programs.

I suggest that the welfare of this Nation could best be served by such action.

Mr. President, I intend to call up an amendment so that it may be made the pending business. That will be my amendment No. 746. I ask unanimous consent that the time agreed to in the consent agreement on debate will begin tomorrow, when the matter is taken up.

THE PRESIDING OFFICER. Without objection, it is so ordered.

Mr. TOWER. Mr. President, I call up my amendment No. 746, and ask that it be stated.

THE PRESIDING OFFICER. The amendment will be stated.

The legislative clerk proceed to state the amendment.

Mr. TOWER. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

THE PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 14, strike out lines 7 through 12 and insert in lieu thereof the following:

"(b) The Secretary shall prepare and submit to the Congress, not later than June 1 of each of the years 1967 and 1968, reports setting forth the number of comprehensive city demonstration programs which have then been submitted to him for review, as provided in section 105(a); the number of such programs which he determines satisfy the criteria set forth in section 103; the city demonstration agencies which have submitted programs which satisfy such criteria; and an estimate of the cost to the Federal Government in providing assistance under this title to such city demonstration agencies in administering and carrying out such programs.

"(c) No funds shall be appropriated for the purpose of financial assistance and administrative expenses under sections 105, 106, and 107 prior to the receipt by Congress of the reports referred to in subsection (b)."

On page 14, line 13, strike out "(c)" and insert "(d)".

Mr. TOWER. Mr. President, the thrust of my amendment is that it would make this essentially a planning bill, leaving in the authorization money for planning, but would eliminate the authorizations for fiscal 1968 and fiscal 1969, to the extent that we could come back next year and review the plans and perhaps pass an authorization measure then. This is the thrust of my amendment.

Mr. MUSKIE. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. TOWER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. McGOVERN. Mr. President—

The PRESIDING OFFICER. The Senator from Texas [Mr. TOWER] has the floor.

Mr. TOWER. I yield the floor.

The PRESIDING OFFICER. The Senator from South Dakota [Mr. McGOVERN] is recognized.

Mr. McGOVERN. Mr. President, I send to the desk an amendment on behalf of myself and the junior Senator from Minnesota [Mr. MONDALE] and ask that it be stated.

The PRESIDING OFFICER. An amendment is now pending at the desk.

Mr. McGOVERN. Mr. President, I ask unanimous consent that the pending amendment be temporarily laid aside, so that the Senate may proceed to the consideration of my amendment.

The PRESIDING OFFICER. Is there objection to the request? The Chair hears no objection, and it is so ordered.

The amendment of the Senator from South Dakota [Mr. McGOVERN] will be stated.

The legislative clerk read as follows:

(A) On page 14, line 20, after the second word "City" insert a comma and the words "the county," and line 22 after the words "governing body" insert the words "of such city or county."

(B) Starting in line 25 on page 14 and ending in line 1 on page 15, strike out the words "or, with respect to urban areas outside of incorporated municipalities."

Mr. McGOVERN. Mr. President, this is a very simple amendment. The two modifications of section 112 of S. 3708 which are proposed are intended to make it clear that county governments may be the instrumentality for the administration of projects under the act and that their jurisdiction is not limited to unincorporated urban areas outside municipalities.

The first change proposed amends subsection (2) which now defines a city demonstration agency as "the city or any local public agency established or designated by the local governing body" to specify county governments making it read: "the city, the county or any local public agency designated."

The second proposed change in language eliminates from subsection (3) which defines the meaning of the word "city," to strike out the phrase "or with respect to urban areas outside of incorporated municipalities" and make it read:

City means any municipality (or two or more municipalities acting jointly) having general governmental powers.

To limit the counties to unincorporated urban areas will bar the inclusion in any project under the act of any predominantly rural area, and it will exclude the counties from any really meaningful participation.

In many of our States, counties are empowered to provide services contemplated by this legislation in both incorporated and unincorporated areas.

In 14 States, I am advised, counties are empowered to sponsor urban renewal and public housing programs. The National Association of Counties is working with the Department of Housing and Urban Development in developing model enabling legislation to extend county jurisdiction in other States to do likewise.

Where counties provide urban renewal and public housing, they are not limited to doing so in unincorporated areas only nor are they limited to building county hospitals or sewage treatment facilities or schools in the unincorporated areas.

The unrestricted authority of counties to participate is, in my opinion, a matter of very great importance. A city and its suburbs cannot be administered efficiently and successfully as two separate units. Nor are all urban problems going to be solved in urban areas for a considerable cause of urban problems lies out in the predominantly rural areas of America—where 45 percent of all the poverty exists—where victims of rural poverty by the thousands annually start their trek into the urban areas in search of opportunities.

Mr. President, I have discussed this amendment with the distinguished Senator in charge of the bill, and I hope that it will be adopted.

Mr. MUSKIE. Let me say that the distinguished Senator from South Dakota and the distinguished Senator from Minnesota [Mr. MONDALE] have indicated to us their great interest in this amendment. We have examined it from a technical point of view. We have discussed it with the agency. We find it to be completely consistent with the pur-

poses and intent of the bill, and we are willing to accept it. It is a desirable, technical modification of the language of the bill.

To indicate its consistency, I refer to the following language, found in section 101 of the present act:

The Congress further finds and declares that cities, of all sizes—

Are covered.

Then later, in the same section, the following language:

The purposes of this title are to provide additional financial and technical assistance to enable cities of all sizes (with equal regard to the problems of small as well as large cities) to plan, develop, and carry out locally prepared and scheduled comprehensive city demonstration programs.

In other words, it is the desire and intent of the bill to hit at the disease wherever it exists. It is not our desire and we would not welcome any language in the bill which would inhibit our ability to deal with this disease because it happens to exist in a county which, for technical reasons, is not covered by the definitions in the bill.

We recognize the problem raised by the Senator from South Dakota and welcome his amendment.

Mr. TOWER. Mr. President, speaking for the minority, we are perfectly prepared to accept and be amenable to the amendment of the Senator from South Dakota.

Mr. McGOVERN. I thank the Senator from Maine and the Senator from Texas, who have given long and careful attention to this bill. I think they would be the first to recognize that many of the problems of poverty and disorder which we have in the cities today are aggravated by the migration of people who cannot find opportunities in the rural areas and move to the cities and add to the congestion and problems which already exist there.

Therefore, to whatever extent we can, we should apply the remedy of this bill to the people in the smaller towns and the rural areas where there are limited opportunities, because then we will be dealing with poverty at a major source rather than after it has been exported to the cities.

I thank the Senators from Maine and Texas.

Mr. MUSKIE. The Senator is eminently correct, let me say, in suggesting the correlation between poverty in the rural areas and poverty in the urban areas.

In the sense that we have this urban migration from the country, we are transporting social problems which are implicit in the condition of so many of our rural areas.

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from South Dakota.

The amendment was agreed to.

Mr. MUSKIE. Mr. President, before yielding the floor, I wish to express my appreciation to the Senator from Tennessee for being so generous in withholding the remarks he is about to make this afternoon, on what I am sure will be legislation of great importance, in

order to enable us to proceed with our business on this bill.

Mr. TOWER. Mr. President, let me also express my great appreciation to the Senator for his wonderful generosity and patience in waiting on us.

Mr. McGOVERN. Mr. President, I, too, would like to join in thanking the Senator from Tennessee for allowing me to proceed with my amendment.

Mr. GORE. Mr. President, I am about to be overwhelmed by these wonderful encomiums. Let me say that I am very happy to be able to accommodate my friends in expediting the business of the Senate.

Mr. KENNEDY of Massachusetts. Mr. President, I should like to join in the accolades being heaped on the Senator from Tennessee, and would ask if he would yield to me for a few moments to make a few remarks on the subject of the demonstration cities bill.

Mr. GORE. I am happy to yield to the Senator from Massachusetts for that purpose.

Mr. KENNEDY of Massachusetts. Mr. President, I wish to add my voice in support of the demonstration cities program, which I consider among the most important pieces of legislation to come before this Congress. Rebuilding our cities is the great domestic challenge of the next decade. Our country grows increasingly urban. But the cities themselves become less and less habitable, and less and less able to pay the costs of the reforms so desperately needed to arrest the precipitous decline in the quality of urban life.

At the present time over 7 million homes in our cities are run down or deteriorated. Over 3 million do not have hot and cold running water and adequate plumbing. The human and physical decay of our cities forces the costs of city services upward, yet attempts to finance those costs through taxes drives to the suburbs those best able to finance the cities' rehabilitation.

The problems of urban decay are most accentuated for the particularly blighted areas within our Nation's cities. Despite the national prosperity of the last 5 years, the great urban ghettos have not shared in our growing affluence. In Watts, for example, in the last 5 years the rates of poverty, unemployment, and standard housing have increased. Places like Watts, and they are many, are losing ground as they become the final resting places for the truly disadvantaged—the aged, the handicapped, the deserted or unwed mother, the illiterate, the incompetent, and the Negro poor. These places exist in every major city and their identifying characteristics are everywhere the same: noise and filth and congestion; crime and disease and delinquency; lack of education and recreation facilities. In these areas people live in isolation, sealed off from the mainstream of urban life, full of anger and despair and hatred of the society outside.

The real test of America as a civilization will be whether we possess the determination and the ingenuity necessary to concentrate, from all levels of government and private industry, enough of our vast resources to reverse this decline—

to meet this crisis by a joint, coordinated, and massive effort aimed at the physical and human renewal of the blighted sections of our cities.

I do not see how we can afford to delay any longer. The decline of our cities grows more serious each day, denying to all Americans what should be the centerpiece of a Great Society, and succeeding only in building higher the walls of separation—between the urban poor and the suburban well to do, between the black man consigned to a ghetto life of hopelessness and failure and the white man driven to the suburbs by the ugliness and violence of today's cities, between the complacent and the despairing. This situation is wrong, and dangerous. It has sown the seeds of insurrection and riot and it will continue to do so as long as these conditions continue.

Indeed, I do not believe there can be any question that the racial problem in American today is as serious as it is largely because of our failure to make our cities liveable. And I do not believe we can hope to bridge the gulf that presently separates Negro and white Americans until we can tear down these ghettos and revitalize our cities. For as long as the Negro is isolated from white Americans and denied mobility and access to decent housing, his children will go to segregated schools of inferior quality, he will pay more for the inferior housing to which he does have access, and he will be cut off from the power structures of government—unable to communicate or participate in the white society that surrounds him.

The rebuilding of our cities will require nothing less than a massive undertaking—an enormous commitment of resources, channeled through a program which can effectively harness our efforts in an intensive attack on our urban needs.

Up to now, we have simply devoted too little of our resources—and expended them in fragmented, diffused and often conflicting programs—to adequately cope with problems requiring the utmost in coordination and intensive focus in order to achieve maximum impact.

But the demonstration cities program offers something new. It reflects a number of key premises:

That the problem of our cities is a national problem of such dimension as to justify substantial Federal assistance.

That the problems are not just ones of physical renewal; physical rehabilitation must be accompanied by more effective use of existing programs focusing on human needs, providing those who live in the area with access to jobs and good schools and hospitals and recreation facilities and social services.

That for these existing programs to be truly effective, they must be coordinated by a larger design, providing a concentrated focus on the area being rehabilitated.

That each urban area is unique with its own problems, and that therefore each demonstration city program should be locally prepared and scheduled with the Federal financial incentives offered as support and to maximize local initiative and innovation.

In my judgment, all of these premises are valid. They reflect the lessons we have learned from a history of developing federalism, and from a growing awareness of what must be done to save our cities.

These premises apply to small cities as well as large and the legislation before us would afford assistance to both large and small cities in all parts of the country. Cities in every State could participate, each responding to its special problems in its own way. All a city would have to do is to designate the city demonstration agency to coordinate its program. The agency could then apply for a grant to plan a program and this planning grant would enable the agency to tie together the many local organizations and programs which must be joined together if our urban problems are to be adequately met. And once the program was thoroughly planned and coordinated the city could receive Federal funds in addition to the Federal assistance available under other Federal programs. This supplemental grant of up to 80 percent of the non-Federal contribution to these other programs should stimulate the cities to make maximum use of existing Federal aids as well as providing additional Federal support, to finance additional projects or upgrade ongoing projects.

In other words, the demonstration cities bill provides the machinery we need for the concerted and coordinated use of our wealth of specialized urban assistance programs. It provides desperately needed financial assistance to our cities. It provides for an exchange and coordination of the technical knowledge that is in short supply.

Mr. President, for a city to become eligible for assistance under this legislation, it must develop acceptable programs for increasing jobs, increasing educational opportunities, improving community and health facilities and increasing the supply of decent housing for low-income families. In other words, it would be up to the city to harness the creative energies and resources available to it in order to launch the most effective attack on its problems. The cost of this program is minimal considering the impact it can have. Only \$12 million is authorized for planning in fiscal year 1967-68, and supplemental grant authorizations total only \$900 million for fiscal years 1968-69. Yet the resources which could be mobilized through this program at all levels of government would be many times this figure and the return on this investment both in human and economic terms greater still. Indeed, if this program is to realize its potential as a means for rebuilding our cities, far greater sums will have to be committed in the future. But this at least is a beginning.

But we must be absolutely clear that the minimum funding and the minimum program length commitment set forth in the bill are really just bare minimums. If we are to expect local administrators, mayors, and city managers to plan and develop programs and to devote their resources to these programs, then they must have solid assurances that the Federal Government really intends to go

down the line on this program. I think we can give such assurances. This program is just a beginning—but it is the beginning of a long range and massive commitment by the Federal Government to devote whatever is necessary to meet the crisis of our cities.

My concern for the fate of this bill is very real. The Commonwealth of Massachusetts also needs help in solving its urban problems.

Our three largest urban centers—Boston, Worcester, Springfield—are blighted by more than 90,000 dilapidated, substandard housing units. An average of 12 percent of their people have substandard incomes—below \$3,000 yearly. We suffer from rising unemployment as a result of industrial withdrawal from the labor market—particularly in Springfield, where the arsenal is threatened by a closing order of the Defense Department.

By such criteria, these cities parallel—even exceed—the general urban problem profile.

Nor have we been idle. Boston's ABCD community development program and Springfield's redevelopment agency for example have tackled our problems with the fragmented programs at our disposal.

We have learned that piece-by-piece efforts are not able to do the whole job in Worcester or Boston or Springfield, or smaller cities like Malden, Fall River, and New Bedford anymore than they do the job in Chicago or Washington or Los Angeles.

I believe this demonstration cities bill will make it possible for us to consolidate programs we have already begun, and give them total direction and the added drive that will take us a long way ahead.

In my State, I would expect participation in the demonstration program to extend our present activity to comprehensively attack blight in the Roxbury-Dorchester-Jamaica Plains area, and in our south Boston area.

In the Springfield-Chicopee metropolitan area—where redevelopment Chairman Breck has already affirmed an interest in early participation—the program could materially help to meet the problems created by industrial movement, and by the shutdown of the Springfield Arsenal.

The bill offers our cities enough to get our programs started.

Mr. President, I do not believe we can successfully deal with the problems of our cities if we continue as we are now. Existing Federal programs have not made progress commensurate to the accelerating problems. The cities themselves lack the resources to do the job alone. The demonstration cities program, by knitting together existing programs, by emphasizing the need to deal with people as well as with real estate, and by offering incentives and support to the cities, is a major new approach which deserves our support. I urge its enactment.

Mr. President, before I yield the floor, I once again wish to express my appreciation to the Senator from Tennessee [Mr. GORE].

(Mr. RUSSELL of South Carolina took the chair as Presiding Officer.)

A NONPROLIFERATION TREATY IS URGENT

Mr. GORE. Mr. President, the late President Kennedy observed in March of 1963, that in the 1970's the President of the United States might be forced to face a world "in which 15 or 20 or 25 nations" have nuclear weapons, a situation which he regarded "as the greatest possible danger and hazard." President Kennedy's sense of urgency in dealing with the problem of nuclear proliferation was most explicit during his report to the Nation in 1963 on the nuclear test ban:

He said that—

We have a great obligation . . . to use whatever time remains to prevent the spread of nuclear weapons, to persuade other countries not to test, transfer, possess, or produce such weapons.

President Johnson has characterized nuclear proliferation as the "gravest of all unresolved human issues," thus indicating the deepest of concern.

Nor has Congress been remiss in sounding warning of this ominous threat to man's very existence. In January of this year, the distinguished Senator from Rhode Island introduced a resolution commending the President's "serious and urgent efforts to negotiate international agreements limiting the spread of nuclear weapons," and urging the administration to make a supreme effort to win an antiproliferation agreement. This resolution was wholeheartedly supported by rollcall vote.

It was with pleasure that I cast my vote for it.

The distinguished junior Senator from New York also spoke persuasively of the dangers of a further spread of nuclear weapons, as did others.

This concern of the United States has apparently also been keenly felt in the Soviet Union. This was one of the subjects in which Soviet citizens bespoke to me their intense interest during a recent conference in Geneva.

Mr. CLARK. Mr. President, will the Senator yield?

Mr. GORE. I yield.

Mr. CLARK. The Senator from Tennessee has been kind enough to tell me some of the details of that trip to Geneva. I realize there are some details about it he would not feel free to reveal in an open colloquy in the Senate, but to the extent that he can tell us, I feel sure that not only our colleagues but the general public would be very much interested.

Mr. GORE. To begin with, I was asked to go as a private citizen. The meeting was sponsored by Mr. Robert Hutchins, former president of the University of Chicago, now executive director of the Center for the Study of Democratic Institutions, at Santa Barbara, Calif.

A number of men enjoying prominence in various foreign countries attended that conference, which was entirely off the record in so far as what the men said is concerned. From France, for instance, there came two very distinguished Frenchmen, a former Prime Minister of that country, Mendes-France, and Ambassador Chanville, former Ambassador to Mainland China.

From the Soviet Union came the editor of Pravda, and another gentleman whose name I do not recall.

I shall not undertake to name them all, but they were men of certain prominence from various countries.

Mr. CLARK. On both sides of the Iron Curtain?

Mr. GORE. On both sides of the Iron Curtain, and all with the understanding that they were there as private citizens.

I must say I certainly did not go without making my intention or the possibility of my visit known to my Government. Suffice it to say, I would not have made the trip had I met with any reluctance or disagreement on the part of my Government.

All I can report, really, is that I made a suggestion which was considered. I said to the conference, and I quote what I said:

I am confident that my Government would be prepared to conclude a no-first-use-of-nuclear-weapons treaty with Red China if Red China on her part would adhere to the nuclear weapons test ban treaty.

Let me emphasize that I advanced this as a private citizen. It received much consideration and it was, I believe, about a month later that Red China gave her reaction, which, unfortunately, followed the same pattern of her previous reactions and denunciation of the proposal as another "trick" of President Johnson and the United States.

I think it was regrettable that she did this. It seems to me if it could have been accepted, it would have been a major step toward breaking the ice of the frigid relationship between the United States of America and Red China.

Mr. CLARK. Mr. President, will the Senator further yield?

Mr. GORE. I yield.

Mr. CLARK. Is the Senator in a position to tell us whether the suggestion he made appeared to be favorably received by those in attendance at the meeting in Geneva who came from countries such as Poland and Russia and perhaps on or two of the other Eastern European countries?

Mr. GORE. I do not think I could use the words "favorably considered." I can say to the Senator from Pennsylvania that several of the delegates manifested intense interest, including the Senator may be sure, the delegates from the Soviet Union.

Mr. CLARK. Because one might think, knowing nothing about Government policy, that they would be happy indeed to have China sign a nuclear test ban treaty. Would not the Senator from Tennessee think that that would be a likely point of view for them to take?

Mr. GORE. All I can say about their attitude is that they showed very great interest.

Mr. CLARK. I thank the Senator.

Mr. GORE. Mr. Kosygin, in his message to the Eighteen Nation Disarmament Conference on the occasion of tabling a Soviet draft treaty on non-proliferation, said:

If we do not put an end to the proliferation in the world of nuclear weapons, the threat of the unleashing of a nuclear war will be increased.

HIGHLIGHTS: House committee voted to report bills to provide uniform crop liens and penalties, clarify law on overtime inspection services, and permit sale of grain storage facilities, and transfer experiment station to Alaska.

SENATE

1. DEMONSTRATION CITIES. Passed, 53-22, with amendments S. 3708, the demonstration cities and metropolitan development bill. pp. 19158-66, 19169-83, 19182-206
2. APPROPRIATIONS. Agreed to the conference report on H. R. 15456, the legislative appropriation bill. This bill will now be sent to the President. pp. 19162, 19183-88

3. FOREIGN AFFAIRS; WATER. The Foreign Relations Committee reported without amendment S. 2747, to authorize an agreement with Mexico for joint measures for solution of the Lower Rio Grande salinity problem (S. Rept. 1485). p. 19119
4. LANDS. Passed without amendment S. 476, to increase authorizations for construction of airports in or near national parks, national monuments, and national recreation areas. pp. 19121-2
5. QUARANTINE INSPECTION. Passed as reported S. 1596, to provide for quarantine inspection by the U. S. at ports of entry without reimbursement by the owners of the transportation facilities. pp. 19122-3
6. BANKING. Began debate on S. 3158, to strengthen the regulatory and supervisory authority of Federal agencies over insured banks and insured savings and loan associations. pp. 19209-24
7. SCHOOL MILK. Sen. Proxmire urged further action on the school milk program. p. 19140
8. FOOD FOR FREEDOM. Sen. Nelson commended Sen. Mondale for his efforts in support of an agricultural research amendment to the food-for-freedom bill. pp. 19141-2
9. HORACE GODFREY. Sen. Talmadge spoke in praise of Horace Godfrey, ASCS Administrator, for 32 years of USDA service. p. 19148
10. ORGANIZATION OF CONGRESS. Sen. Monroney urged action on the proposals for reform by the Joint Committee on the Organization of Congress and inserted several editorials on the subject. pp. 19153-5
11. INTERGOVERNMENTAL RELATIONS. Sen. Ervin commended and inserted Sen. Muskie's speech outlining "how Congress can assist the counties in the more efficient performance of their governmental tasks." pp. 19151-3
12. ECONOMY. Sen. Hartke criticized present U. S. economic policies and outlined "a new strategy for the U. S. economy." pp. 19189-92

HOUSE

13. COMMITTEE BUSINESS. The House Agriculture Committee voted to report (but did not actually report H. R. 4429, to provide for reimbursement to Wyo. for improvements made on certain Eden conservation project lands in Sweetwater Co., Wyo., if such lands revert to the U. S.; H. R. 5934, amended, to provide uniform provisions for crop liens, interest on unpaid marketing quota penalties, and the persons liable for such penalties for all commodities for which a marketing quota program is in effect; H. R. 9147, to permit meetings of the national advisory research committee to be held less often than quarterly; H. R. 3421, to convey the agricultural experiment station to the University of Alaska; H. R. 9150, to clarify the Department's authority to furnish, upon a reimbursable basis, certain inspection services involving overtime work; and H. R. 12360, amended, to permit the sale of grain storage facilities to public and private nonprofit agencies and organizations. Also approved work plans for several watershed projects. p. D783

Right now, huge areas of the world are closed to visitors, or seriously restricted. Because of our adverse trade balance and gold drain, the administration is doing what it can to limit tourism and avoid American spending abroad. The senators, in voting to get ahead with the oversized plane development, have not stopped to ask themselves where the speedy monsters will fly to, who will join in the mass flights or whether the U.S. financial situation will permit such wholesale foreign travel expenditures.

MIDWEST NEWSPAPERS AND ILLINOIS BAR ASSOCIATION HELP STOP DUMPING INTO LAKE MICHIGAN

Mr. HARTKE. Mr. President, since my speech in the Senate last Friday asking the Army Corps of Engineers and the Chicago Sanitary District to cease dumping nutrient laden dredge material from the north branch of the Chicago River into Lake Michigan, I have received many letters from concerned persons in Chicago and Indiana whose homes are located along Lake Michigan.

On August 16, 1966, I addressed a letter to Lt. Gen. William F. Cassidy asking for a report on this matter and that the corps find other receptacles for this filth laden dredge material. Since I have received no answer, I sent the following telegram to the Army Corps of Engineers:

Lt. Gen. WILLIAM F. CASSIDY,
Chief, Army Corps of Engineers,
U.S. Army, The Pentagon,
Washington, D.C.:

Refer my letter August 16 for full report on dumping dredge material from North Branch of Chicago River into Lake Michigan. Please advise if the Corps has ceased such activity which will ultimately create a pollution situation which would require billions of federal dollars to erase. People of the Midwest are incensed at Corps flagrant disregard for welfare of population along Lake Michigan.

VANCE HARTKE,
U.S. Senator.

Mr. President, I ask unanimous consent to have printed in the RECORD an editorial from the Friday, August 12, Chicago Daily News, entitled "Stop Lake Dumping Now."

There being no objection, the editorial was ordered to be printed in the RECORD, as follows:

STOP LAKE DUMPING NOW

Highly contaminated dredgings from the north branch of the Chicago River are being dumped into Lake Michigan with no regard to the health hazard involved. As in the case of polluted dredgings from the key harbors and waterways in the Calumet area, the culprit again is the U.S. Corps of Engineers. And again the excuse is that the engineers have no other dumping site.

In a confrontation in Washington with Sanitary District president Frank W. Chesrow, who wants the north branch dumping stopped immediately, the engineers contended that the dredging project would be completed in two weeks. Not enough time remained, they said, to devise workable plans to dump the river refuse elsewhere. Rep. EDWARD J. DERWINSKI (R-Ill.), one of the Chicago area congressmen who attended the meeting, reported that "there is no solution" to this problem.

Nonsense. In this case, the simple solution is what Chesrow proposed: Stop fouling the lake now! If the price of dredging the north channel to a new depth of 12 feet

(from 9) is further pollution of the lake, most Chicagoans do not want to pay it. The channel is piled mostly by barges hauling cement and salt, and they have encountered no significant trouble in navigating at the present depth.

In the absence of an unequivocal federal policy on pollution, the engineers admittedly are faced with a dilemma: how to proceed with their task of keeping Chicago's waterways navigable and yet avoid contaminating Lake Michigan. But the north branch project is only a small part of their over-all responsibility; there is no reason why this project could not be suspended until a satisfactory dumping site is found.

The idea that a little pollution here and a little pollution there can do no harm is untenable. The cumulative effect of piecemeal pollution is pollution on a gigantic scale—with disastrous consequences to the public's health and well-being.

Mr. HARTKE. Mr. President, I call to the attention of the Senate a letter which I received from Mr. Frederick H. Lauder, chairman, Committee on Water Resources of the Illinois State Bar Association. Mr. Lauder joins me in efforts to bring a halt to further pollution by the corps of Lake Michigan. I ask unanimous consent to include his letter and the article from the Monmouth, Ill., Atlas in the RECORD.

Mr. President, I hope we can have a report from the Army Corps of Engineers soon.

There being no objection, the letter and article were ordered to be printed in the RECORD, as follows:

ILLINOIS STATE BAR ASSOCIATION,
Springfield, Ill., August 16, 1966.

Hon. VANCE HARTKE,
Senate Office Building,
Washington, D.C.

DEAR SIR: For some time, the U.S. Army Corps of Engineers have been dumping in Lake Michigan debris and filth dredged up from the Chicago River and from elsewhere. This pollutes the water of the lake (which is used for drinking purposes by the inhabitants on shore), and contaminates water on bathing beaches. I understand that both the State of Illinois and the City of Chicago have protested against this practice, and it is the subject of a news item in the August 11, 1966, issue of the Chicago Tribune, on pages 1 and 2.

Many U.S. Government agencies and civilian organizations are trying to preserve the water resources of our country and prevent pollution of lakes, rivers and streams. It is very difficult for us to persuade cities, corporations, associations and individuals to cease and desist from polluting our water resources when they can point to the Army Corps of Engineers, an activity of the United States Government, as the greatest and most flagrant offender of all, in this field. It would seem to me that the proposed pollution of Lake Michigan would be a violation of Senate Bill 3107, passed by the Senate on June 9, 1966.

I have noticed an article in the Monmouth Review Atlas, published in the City of Monmouth, Illinois, under date of August 13, 1966, to the effect that you have protested against the Army Corps of Engineers dumping this sludge into the lake. I hope that your efforts and the efforts of other members of the Senate will prevent the continuation of this practice.

I protest this pollution of Lake Michigan, as well as the pollution of other lakes, rivers and streams, and believe that the other members of the Committee on Water Resources of the Illinois State Bar Association do, also. I hope you will do everything in your power to prevent further contamination of the waters of the lake in this way.

With my very best wishes for your continued success, I am

Sincerely yours,

FREDERICK H. LAUDER,
Chairman, Committee on Water Resources.

[From the Monmouth (Ill.) Atlas, Aug. 13, 1966]

LAKE MICHIGAN'S SLUDGE AM ISSUE

WASHINGTON.—Sludge, dredged from the North branch of the Chicago River and dumped into Lake Michigan, is endangering the health of millions, Sen. VANCE HARTKE, D-Ind., said Friday.

In a speech on the Senate floor, HARTKE said the Army Corps of Engineers is dumping large quantities of "polluted filth" 13 miles off the shoreline. The sludge is being dredged to deepen the river for navigation.

The Senator demanded an immediate halt to the dumping and said it "increases the pollution level of the lake and creates a menace to the health and welfare of millions of people in the Chicago area . . . Gary, Hammond and East Chicago, all in Indiana, and neighboring Wisconsin and Michigan communities."

HARTKE asked for long-range pollution planning in the Great Lakes and urged these three immediate steps:

The immediate halting of dumping in the lake by the Army Engineers.

More efficient methods of disposing of waste materials by the Chicago Sanitary District.

New research programs by federal agencies to find new methods of sewage treatment and water reclamation.

A BACK-DOOR OUTFLOW OF DOLLARS

Mr. HARTKE. Mr. President, monetary policy and balance of payments have been a continuing concern for us, one which grows ever sharper in its implications.

The economist and financial columnist Eliot Janeway, in his regular column of August 15, published in the Washington Star, discussed this and related financial problems. I ask unanimous consent that it be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

WORLD BANK ACTION HURTS

(By Eliot Janeway)

NEW YORK.—It's not just the Supreme Court that follows the election returns. Mr. Dooley's celebrated quip applies as well to the sophisticated denizens of Washington's swank embassy row. Their main job is to keep a sharp eye on the Yankee dollar. Every embassy in Washington has long since alerted its government to count on dollars being hard to come by—and not just because the money policies of the Johnson administration have left us strapped for cash for even our own needs here at home.

The war in Viet Nam—more precisely, the isolation in which we are fighting it—has clearly left the country with the belief that dollars advanced overseas have not come back as value received. Perhaps they never can. The suggestion is all the argument that's needed to cut down on dollar advances. Congress certainly took the suggestion at face value last month when it voted large slashes in the Johnson administration's foreign aid requests.

Governments in need of dollars—and most of them are—have been trying to turn up new ways of raising them without having to deal directly with the American government. The World Bank is proving to be a pretty convenient touch for the shrewdest, toughest-minded political dollar-foragers on the

loose in Washington—South Africa, for example.

In June this column cited Sen. STUART SYMMINGTON, D-Mo. as authority for the criticism it leveled against the World Bank for its sale of \$175 million of 25-year bonds in the New York market. Its operations, we warned, were getting in the way of American borrowers in their own market; and its borrowings were aggravating the overheated conditions which Johnson was exhorting American business to permit to cool off.

Adding insult to injury, the World Bank was preparing to siphon off scarce dollars, and send them abroad at the very time when Washington's money policies are shutting off financing opportunities to Americans.

Sen. SYMMINGTON, in leveling his objections at this discrimination, noted the World Bank's clearly defensive agreement "initially" to keep the proceeds of its financing in dollars "in order to eliminate any immediate effect on our continuing unfavorable balance of payments." He asked the World Bank to define "initially" and "immediate" and before July was over, the World Bank had given him his answer. It was more reckless than even his critical attitude had bargained for. It announced a \$20-million loan to South Africa to finance half the foreign exchange costs of a power plant.

As a matter of American bargaining in the national interest to get full value for dollars advanced, the position in which the loan puts us is as undignified economically as it is morally. For South Africa is an active participant in the international gold speculation against the dollar, and she is holding gold back from the market in order to add to the pressure on the dollar. This is her right, and it is to her interest. But it is not to America's interest to advance South Africa the dollars to operate while she holds back her gold. It is our right to hold back our dollars in order to make her use her gold.

In assessing this use of back-door dollar outflows, it behooves us to remember that it would take a crash in America to make South Africa's gold worth more. Any more that weakens the American dollar against South Africa gold, is bound to encourage the speculation against the dollar and to make it seem plausible.

On the record, SYMMINGTON is on sound ground when he said: "Under the article of the charter of the Bank, the Treasury had the authority to disapprove the issue. I wish they had." Certainly, the lack of plan or purpose in our government's dealing with other governments, playing their own hands in their own interest, is hurting business and investment confidence nearly as much as the resultant cost of doing business.

CONCLUSION OF MORNING BUSINESS

The VICE PRESIDENT. Is there further morning business? If not, morning business is concluded.

DEMONSTRATION CITIES AND METROPOLITAN DEVELOPMENT ACT OF 1966

Mr. MANSFIELD. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of the unfinished business.

The VICE PRESIDENT. The bill will be stated by title.

The LEGISLATIVE CLERK. A bill (S. 3708) to assist the comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general wel-

fare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes.

The VICE PRESIDENT. Is there objection to the present consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

Mr. MUSKIE. Mr. President, will the Chair advise the Senate as to what is the pending business?

The ACTING PRESIDENT pro tempore. The question is on agreeing to the amendment of the Senator from Texas [Mr. TOWER].

Mr. MUSKIE. I thank the Chair. Mr. President, I yield myself 5 minutes.

Mr. President, at this point I ask unanimous consent to have printed in the RECORD a list of organizations which support the pending legislation.

There being no objection, the list was ordered to be printed in the RECORD, as follows:

ORGANIZATIONS IN FAVOR OF THE DEMONSTRATION CITIES PROGRAM

AFL-CIO.
American Institute of Architects.
American Institute of Planners.
Americans for Democratic Action.
American Public Health Association.
American Public Welfare Association.
Atlanta Region Metropolitan Planning Commission.
California Commission of Housing and Community Development.
Cooperative League of the United States.
Council of Jewish Federations and Welfare Funds.
Family Service Association of America.
Georgia Municipal Association.
Group Health Association of America.
Industrial Union Department, AFL-CIO.
Methodist Church: Board of Christian Social Concerns.
National Association for the Advancement of Colored People.
National Association of County Officials.
National Association of Home Builders.
National Association of Housing and Redevelopment Officials.
National Association of Social Workers.
National Catholic Community Services.
National Conference of Catholic Charities.
National Council of Catholic Men.
National Council of Catholic Women.
National Council of Senior Citizens.
National Farmers Union.
National Federation of Settlements and Neighborhood Centers.
National Governors' Conference.
National Housing Conference.
National Jewish Welfare Board.
National League of Cities.
National Medical Association.
National Recreation and Park Association.
National Urban League.
Pennsylvania League of Cities.
Presbyterian Church, U.S.A.
Tennessee Municipal League.
Union of American Hebrew Congregations.
U.S. Conference of Mayors.

Mr. MUSKIE. Mr. President, the pending amendment, in effect, places before the Senate an issue which goes to the heart of the pending bill. The proposal of the distinguished Senator from Texas [Mr. TOWER] is to strike from the bill the program authorizations of \$400 million in fiscal year 1968 and \$500 million in fiscal year 1969.

The amendment of the Senator from Texas would retain in the bill the plan-

ning authorization of \$12 million for the current fiscal year and \$12 million for the following fiscal year. In effect, this would strike out the demonstration cities program. In effect this would require that the Congress again consider proposals for authorizations of this program after the studies which the Tower amendment would authorize.

The Tower amendment poses the question for the Senate as to whether or not the problems with which the bill proposes to deal should be dealt with now or postponed until some future time. On this point, I believe that all of us in the Senate should consider the urgency of the conditions it is proposed that the bill meet.

The distinguished columnist Joseph Alsop, in the Washington Post of August 5, 1966, had something to say on this point which should appeal to the consciences of all of us. Mr. Alsop states:

The right way for all Americans to look at the desperate American urban problem is simply to think of our great cities as very important patients in a very expensive hospital.

In a healthy family, the father and children do not complain about being on short commons for a while, in order to pay for the mother's medical expenses. And if one may be cynical, this tends to be especially true if the father, the bread-winner, the source of the family's income and prosperity, is the person whose recovery from a dire disease is going to cost a small fortune.

In our almost wholly urbanized America, the great cities are the major sources of the general prosperity, and they are indeed direly diseased. They grow less and less fit for human habitation, year by year. They are afflicted with the open ulcers that are the Negro Ghettoes, which should fill every single American, be he Rocky Mountain sheepherder or Wall Street banker, with inextinguishable shame.

Furthermore, because of the population trends already examined in this series, most of the great cities are threatened with early transformation into vast, impoverished Negro reservations—city-sized super-Watts, in fact. Unless something is done, and done soon, to reverse the white emigration to the suburbs, that will be the end of the road, not just in one great American city, but in the majority.

Mr. President, I ask unanimous consent to have printed in the RECORD two articles written by Joseph Alsop which also appeared in the Washington Post.

There being no objection, the articles were ordered to be printed in the RECORD, as follows:

A MODEST PROPOSAL—II (By Joseph Alsop)

Why are most of the American great cities likely to be transformed into super-Watts? Why, in other words do more and more of the cities have heavy Negro majorities in their school systems, predicting virtually segregated Negro cities of the future?

The first answer is the schools. Here in Washington, for instance, we have elementary schools that are over 90 per cent Negro; we have a city-wide population that is two-thirds Negro; and we have a voting population that is still only about one-half Negro. (These differences appear in all major cities, although other cities' figures are down in the scale as yet.)

But although Washington has already become a predominantly Negro city, the District of Columbia retains a white population of

about 250,000. There should, therefore, be a great many tens of thousands of white children of school age in the District. And in reality, there are almost none!

To be precise, Washington had 26,000 white children of elementary school age five years ago. It has lost half that number since then. And of the 13,000 white children of school age still in the District of Columbia, far more than a third attend private schools.

Those figures mean only one thing: That nowadays, white families with children almost automatically emigrate to the suburbs. That conclusion can be cross-checked, too, in half a dozen ways.

The Southwest redevelopment, for instance has caused many white people to return to live in the District of Columbia. But of these returners, almost none are families with children.

Again, there are two or three Catholic parishes in Washington with particularly strong parochial schools. As the Negro people moved into these neighborhoods, virtually all white Protestant families with children moved out, leaving the public schools almost solidly Negro.

But many of the white Catholic families have stayed, although the parochial schools, too, now have very high Negro percentages. This is because the parochial schools, being strongly led, have remained as good as ever, and the Catholic families therefore saw no reason to move.

It would be unrealistic to deny that the cruel fact of race prejudice has played a role in the white emigration to the suburbs. But the truly dominant role has been played, and is still being played, by the schools themselves.

If the admission of large numbers of disadvantaged children causes a school to go to hell in a hack, almost all families who are able to do so rather promptly move to a neighborhood with better schools—which nowadays means a suburban neighborhood. And as the Watts Report shows, the racial origin of the disadvantaged children has little to do with this emigration. The children's effect on the school, because of the extra burden they inevitably impose on the teachers, is the heart of the matter.

The truth of the matter is that the Justices of the Supreme Court left a needed job only one-half done, when they outlawed segregated schools. Because of this country's shameful history of economic and other injustices to its Negro people, the great majority of Negro children are disadvantaged. Desegregation of the schools should therefore have been accompanied by legislation sharply increasing outlays on the school systems, and particularly on the great urban school systems.

That can still be done. The question is whether it can be done in a way to halt the white movement to the suburbs, and even to bring a lot of white families back into the city centers—thereby making a reasonable population balance in both cities and school systems, and thus preventing the growth of the city-sized super-Watts that now threaten us.

The answer is not just good urban schools, which we do not now have. Merely good schools are no longer good enough to reverse the sinister population trend that may soon make our cities into vast Negro reservations. The answer, I fervently hope and strongly believe, is immensely superior urban schools, fine enough to hold and even to attract all families that want the best schooling for their children.

If New York spent \$1700 per child per year, or a bit more than Scarsdale does; if St. Louis did the same—in short, if present urban school outlays were just about doubled in every great city—the cities would soon

enough have the superior schools that are so desperately needed for social-political reasons as well as educational reasons.

That would leave the problem of safe streets, which has played a lesser, yet discernible, role in the white emigrations to the suburbs. For safe streets, more money must be poured out, not only on better police departments, but also on parks and playgrounds and other recreational facilities and all the other things that make a city a good place to live.

The total bill, as anyone can see, will be astronomically larger than the cities can hope to pay. But what if the Federal Government pays the whole cost of giving superior schools to the great cities, and further lets the cities use their present school budgets to make themselves habitable once again? That question will be examined in the last report in this series.

A MODEST PROPOSAL—III

(By Joseph Alsop)

The right way for all Americans to look at the desperate American urban problem is simply to think of our great cities as very important patients in a very expensive hospital.

In a healthy family, the father and children do not complain about being on short commons for a while, in order to pay for the mother's medical expenses. And if one may be cynical, this tends to be especially true if the father, the bread-winner, the source of the family's income and prosperity, is the person whose recovery from a dire disease is going to cost a small fortune.

In our almost wholly urbanized America, the great cities are the major sources of the general prosperity, and they are indeed direly diseased. They grow less and less fit for human habitation, year by year. They are afflicted with the open ulcers that are the Negro Ghettos, which should fill every single American, be he Rocky Mountain sheepherder or Wall Street banker, with inextinguishable shame.

Furthermore, because of the population trends already examined in this series, most of the great cities are threatened with early transformation into vast, impoverished Negro reservations—city-sized super-Watts, in fact. Unless something is done, and done soon, to reverse the white emigration to the suburbs, that will be the end of the road, not just in one great American city, but in the majority.

For the reasons set forth in two previous reports, there is only one expedient that offers much hope of reversing the present urban trend. The great cities must be given superior schools—not just good schools, mind you, but immensely superior schools, with a strong attractive power—and along with superior schools, the great cities must be given the resources to achieve safe streets again.

That means an astronomical expenditure. A good guess is that all the great cities' present levels of spending per child in school should be at least doubled. In many cases, further funds should also be provided for root and branch rebuilding of antiquated, jail-like urban schools. And in most cities, sums just about equal to the present school budgets are needed to get safe streets, by more spending on police, parks, recreational facilities and other neighborhood-builders.

How, then, is the job to be done? There is no use talking about increasing the cities' tax rates. High urban taxes are another influence behind the white emigration to the suburbs. Only the Federal Government can do the job.

Yet if the Federal Government is to spend many billions per year to cure the disease of the cities, this necessarily means discrimination in favor of the great cities, and

against the suburbs, the small towns and the countryside. Nothing could be more politically difficult, yet the job must be done.

Suggesting remedies is not usually the reporter's task, but the aim of this series is none the less to offer a modest proposal for a remedy. We should begin, I think, by recognizing that the great cities are not merely a major source of the national wealth; they are also the sole source of the wealth of the metropolitan areas that extend for hundreds, even thousands of square miles beyond each city's limits.

The cities, therefore, may be regarded as engines which generate the whole flow of Federal revenue from each metropolitan area. And the cities are deeply diseased, endangering the revenue. Why not, then, take the three following steps:

First, let the President appoint a distinguished Federal commission, or even a series of commissions, to trace the true limits of the metropolitan areas of each of the great cities.

Second, let the Federal revenues from each metropolitan area be ascertained, and let the Congress recognize that the revenues from each area are in fact mainly generated in the diseased city center.

Third, let the Congress therefore provide that of these revenues from each metropolitan area, a generous percentage will be returned to each city-center, in order to pay for the superior schools that offer the main hope of cure for the urban disease.

In this manner, the subsidies to the cities that are so desperately needed will at least be placed on a rational basis. If the whole school bill is footed by the Federal Government (while the schools, of course, continue to be managed by the municipal school boards), the cities will then have enough financial elbow room to do all the things needed for safe streets.

There are other advantages in the plan. The newly traced metropolitan areas could later be used as a basis for metropolitan authorities, on the pattern of the TVA, to handle such urban-suburban problems as transportation—problems which are so urgent and grave. The superior schools should not merely cure the urban disease; they should also open the door out of the poverty trap for the children of the urban ghettos.

But enough has been said, except for one thing. If you once grasp what this urban problem is going to do to the American future, you will automatically agree that any effort, any outlay, any sacrifice is justified to achieve a cure.

Mr. MUSKIE. In his series Mr. Alsop also suggests some of the treatment for this disease which is envisioned by the pending measure. He puts his finger on education. He suggests a massive Federal program designed to create in our cities "immensely superior schools with a strong attractive power." He suggests that this would be a significant contribution to the treatment of this disease.

Mr. President, I used the word "disease" yesterday and today, and I use it advisedly because I think that this is what we are dealing with.

Mr. President, I come from a State of small towns and small cities. The total population of my States spread over one-half of the geographical area of New England, is about a million people. The largest city in my State has a population of 75,000.

The ACTING PRESIDENT pro tempore. The time of the Senator has expired.

Mr. MUSKIE. Mr. President, I ask unanimous consent that I may proceed for 3 additional minutes.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. MUSKIE. Mr. President, in terms of my State we do not face a problem which calls for the kind of program which the pending measure proposes. My State is 1 of 50 States. More important, it is one part of a great country. Ever since we began this country, operating under the Constitution, we have been aiming at the objective of creating one country. Indeed, the establishment of the Constitution in the first instance, as a substitute for the Articles of Confederation, had the objective of creating a single nation out of 13 quarrelsome colonies.

This objective of creating one country, a whole country of citizens, all of them equal with each other, has been our objective for 180 years. The stark fact is that this year 1966 we are not yet one country. We are not yet a whole country. We are not yet a completely healthy country. We are not yet a completely free country, that is to say free from instability, disorder and many other problems.

I think that the series which has been written by Joseph Alsop pinpoints this fact. I think the headlines that have been staring at us in the newspapers of the Nation throughout this hot summer pinpoint this fact. The restlessness, instability, disorder, the violence which stems and grows from these diseased areas in our cities is testimony to that fact.

It is because of my concern that we live in one country, that we live in a whole country, that our citizens be free and equal, that this Senator, from a small, rural State, and without great cities, has undertaken to manage the bill, has undertaken to contribute to its authorship, and has undertaken to set forth the ideas it encompasses.

It is vital to my State that we deal with this problem which is plaguing metropolitan areas and the great cities of our country. As Mr. Alsop puts it, cities are the generators of prosperity in this country. Without them, we cannot hope to be viable economically, politically, or ideologically. We cannot hope to sustain our image before the world, but more importantly, we cannot hope to survive as a country and as a society which has meaning for its individual citizens.

Mr. President, this bill will launch an experiment. There are those who would like to see more specific and detailed blueprints of the experiment before it is launched. The point is that the problem is so great, the disease so virulent and spreading so rapidly, that we must undertake to learn as we go along. We must dare to experiment. We must come to grips with the problem. We cannot afford the delay, the study, and the procrastination which the Tower amendment proposes. We have got to get on with the job.

Mr. President, before I undertook to manage the bill, some 6 to 8 weeks ago, one of my conditions was that I would be

given the opportunity to write safeguards into the bill which would insure that it would not launch irresponsible experimentation, that it would focus upon the problem, that it would not and could not be diverted into irrelevant directions, that it would not become a giant boondoggle and pork barrel, but that it would, indeed, focus the country's resources upon this disease.

That is what we have tried to do with this bill. It is not a perfect bill. I hope that if the bill is enacted by Congress and signed by the President, we will learn valuable lessons which will enable us to do an evermore effective job in dealing with this disease.

That is our hope. That was our plan. That is how the bill was written. But, just because it is not perfect, because it is not based upon complete information—which is not available—because it does not have the detailed blueprints, is no justification for further postponement and procrastination. We have postponed and procrastinated too long.

If we had applied this kind of experimental medicine a little earlier, we might not now have the problem in its present virulent state.

Indeed, the Tower amendment proposes for us the single, most important issue in the bill. We might just as well be voting on final passage. Essentially the same issue is involved. Obviously, the issue has been raised in the form of this amendment in order to give opponents of the bill more than one crack at it. They are going to try to kill it with this amendment. If they lose, then they may try another cutting amendment of lesser scope.

This is a heel-dragging, a foot-dragging amendment, designed to prevent us from coming to grips with the problem.

We cannot afford it.

I suggest that if I came from a metropolitan city State my motives might be suspect; but I do not come from such a State. Politically, it could be argued persuasively that I would be better off voting against the bill, let alone managing it on the floor of the Senate. But, as Americans, as Mr. Alsop pointed out, the condition in our cities in the Negro ghettos should fill every single American, be he Rocky Mountain sheepherder or Wall Street banker, with inextinguishable shame.

Mr. President, I suggest that emotional shame should be stimulated by these conditions and that we should have the courage and the will to come to grips with the problem. What we are talking about in terms of our resources, our gross national product, is negligible.

A week ago today, the Senate voted to add to the college housing program an increment of \$900 million.

By coincidence, that figure is exactly the amount of money involved in the demonstration cities program.

Who supported that proposal to add \$900 million to our college housing program?

The distinguished author of the pending amendment, the Senator from Texas [Mr. TOWER], who also signed the minority report along with two other signers, the distinguished Senator from South

Carolina [Mr. THURMOND], and the distinguished Senator from Iowa [Mr. HICKENLOOPER], all three of whom have stated in the minority report on the bill that we cannot afford, with the economy moving in high gear, to add these new programs.

Yet, we are willing to spend \$900 million—which the committee did not approve—for college housing, but refuse to spend \$900 million to deal with the problem of demonstration cities.

Mr. President, I suggest that they search their consciences and decide whether they should not shift their support from the college housing \$900 million to the demonstration cities \$900 million.

The minority report states that there must be a sense of priorities.

Mr. President, what should that order of priorities be as between these two programs?

It is true that we face a college housing shortage. It is also true that we face a shortage of space in our institutions of higher education for the floodtide of youngsters who need to be served by them, this year, and in the years to come. I do not minimize that problem at all, but it is not one which will lead to instability in this country. It is not one which will lead to disorder and violence in our cities.

Which is the more pressing demand for the \$900 million which these gentlemen who wrote the minority reports are willing to spend on college housing, but are unwilling to spend on the disease which is running rampant and virulent throughout the cities of our land?

I know what my order of priorities is, Mr. President. I say that if we are going to spend that \$900 million, as between these two programs, we should spend it on our cities.

That is the issue raised by the Tower amendment.

I do not quarrel at all with the motivation of the opponents, or question their sincerity or integrity, but, in my opinion, their order of priorities is misplaced.

In the Housing Committee, we discussed four bills all at once at the same committee session; namely, mass transportation, the FNMA bill to stimulate the flow of mortgage funds into housing construction, the housing and urban development bill, and the Demonstration Cities bill.

The issue of college housing was raised, and it was agreed to hold the line and not increase it.

It was voted unanimously to cut the demonstration cities program by \$1.4 billion, because we were all concerned about not adding too much to the fires of inflation. Thus, the spirit of restraint motivated all members of the committee. The package reported by the committee—four bills—reflected that spirit of restraint; yet, on the floor of the Senate, a week ago today, three of the signers of the minority report on the demonstration cities bill voted to spend another \$900 million. In effect they said that it is more important to spend that money on the college housing program than on this burning problem which is afflicting our cities.

So, Mr. President, on the basis of my order of priorities, on the basis of the relative importance of the two problems which are involved, I urge the Senate to reject the Tower amendment which, I repeat, puts the heart of the bill before us as an issue, and to go on from that point to pass the bill.

Mr. MUSKIE. Mr. President, I yield myself 2 minutes.

I might say that, without opposition present on the floor, this is something like punching at a pillow. I am not sure I am making myself persuasive on absent Senators, but I do want to make the RECORD and make one further point in connection with the Tower amendment.

The principal argument of the Senator from Texas for his amendment, and indeed the principal argument of those in opposition to the bill, is the alleged inflationary effect of the demonstration cities program.

May I say on this point, the program funds \$900 million as the amount to be spent for it. As a matter of fact, the bill provides only \$12 million for fiscal year 1967 unless the urban renewal increase would become operative, as contrasted with \$300 million of additional college housing which the minority members of this subcommittee supported last week.

So only \$12 million is provided for fiscal 1967. Four hundred million dollars is provided for grants in fiscal 1968 and \$500 million for fiscal 1969, but no part would be spent before June 30, 1967.

For the most part, because of the lead-time involved in developing and planning comprehensive programs, most of the money will be spent in 1968 and 1969.

To the extent that we can expedite implementation of the program, we will undertake to advance this spending deadline which I have indicated, but in the realities of the situation of the present, the here and now, with the economy moving in high, as the opposition to this legislation has put it, this spending is not to take place in any substantial way now or in the immediate future.

Mr. President, I suggest the absence of a quorum.

Mr. President, I withdraw that suggestion, and I yield 1 minute to the Senator from Kansas [Mr. CARLSON] on the amendment.

Mr. CARLSON. I should like to call to the attention of the acting chairman of the committee the fact that I have an amendment pending that I shall be pleased to have called up at this time, if the acting chairman would care to withdraw the pending amendment temporarily.

Mr. MUSKIE. Mr. President, I ask unanimous consent that the Tower amendment be laid aside temporarily for that purpose.

The ACTING PRESIDENT pro tempore. Is there objection? Without objection, it is so ordered.

Mr. CARLSON. Mr. President, I have an amendment at the desk, which I ask the clerk to state.

The ACTING PRESIDENT pro tempore. The amendment of the Senator from Kansas will be stated.

The legislative clerk read the amendment (No. 749) as follows:

On page 31, line 11, delete period and insert: "or a statewide agency or instrumentality of its political subdivision designated by such chief executive."

Mr. CARLSON. Mr. President, Senate bill 3708 provides for an orderly development of the metropolitan areas of our Nation, with which I am in accord.

The major cities of my State have expressed their strong interest in the legislation. They see in this bill hope for valuable tools to aid them in the resolution of many local problems which typify urban communities all over America.

There are other reasons for my conviction that this legislation should be approved at this time.

First, we need to recognize that the Congress has heretofore approved some 170 programs of aid to State and local governments. These now provide almost \$15 billion in Federal funds. Of course, not all of this money goes to cities. Much of it is used for State-administered welfare, education, highway, and institutional programs. Nevertheless, a very significant sum finds its way into units of government within cities or to deal with problems of people who live in cities.

It can be said that our justification for approving these many aid programs over the years has been to improve the opportunities and environment for the people of this Nation. With three-quarters of the people living in urban centers, it is obvious that, one way or another, the impact of many Federal aids—by whoever administered—is most dramatically judged in the urban context.

Now it seems to me that our categorical aid approach has resulted in many justifiable programs falling far short of their potential because they compete or overlap with other federally aided programs. Our real need is to coordinate these programs at the point of use. They must be packaged into a total program, along with local public and private resources and programs to concentrate on the most critical problems as determined locally by careful community analysis. Unless this is done, we will go on increasing, year after year, the number of categorical aid programs further compounding the confusion of State and local administrators and the public.

The city demonstration bill does just that. In simple terms it says to each city, you prepare a comprehensive plan for correcting the human and physical problems of the most inadequate areas of your community and include in that plan a proposal for the coordinated use of existing Federal aid programs. To provide the inducement or leverage to secure coordination—and of course to fill in some financial gaps—the bill proposes to pay an additional share of the non-Federal cost of the total program.

The plan, as I understand it, is locally conceived and locally implemented. The Federal aids to be used are already authorized, funded, and in use. All we are provided in addition here is a nominal sum to aid in planning and an annual inducement to coordination which is less than one-thirtieth of our present annual State and local aid bill.

Second, I want to point out that our present aid system has had a very unfor-

tunate effect on local general government—cities and counties. It has fragmented community policymaking and it has dismembered local government administration. We have reached the point where at the end of each Federal-aid string is a local agency, department, or constituency which is expected to follow Federal direction or receive no benefits. Local government has been seriously weakened and finds it difficult to respond as the result of the divide-and-conquer concept of existing Federal aid.

The inducements contained in the demonstration cities bill, encouraging diverse interests to sit down together to coordinate their individual programs, resources, and talents under the supervision of the city government or city demonstration agency, will materially aid in strengthening local government and reducing the possibility of detailed Federal intervention.

We are an urban nation. We have urban problems. Urban problems compel the attention of Congress. They require adequate fiscal resources. They demand the fostering of strong local government. This bill is a realistic recognition of these needs of our times.

I am offering an amendment, which I have sent to the desk, which, if approved by the Senate, would make it clear that the pending bill would provide that either a State agency or an instrumentality of its political subdivisions could be selected if the appointing authority so desired.

Mr. President, I offer the amendment as one who has served as Governor, as has the distinguished acting chairman, and who is familiar with the problems involved.

Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. Out of whose time shall this time come?

Mr. MUSKIE. Out of my time on the amendment.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MUSKIE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. MUSKIE. Mr. President, I yield myself 5 minutes.

I say to the distinguished Senator from Kansas that his statement is an excellent analysis, in capsule form, of the bill, the proposed program for demonstration cities, and what it is intended to do. I have not seen a better one, and I compliment him on it. I welcome his support of the bill.

With reference to his amendment, it had been brought to my attention yesterday or the day before yesterday. I have checked it out carefully, and reviewed it with the agency. I see no objection to it. Indeed, I think it is a modification that can be very helpful and useful. I would be happy to accept it.

Mr. CARLSON. Mr. President, I appreciate very much the statement just

made by the chairman of the committee.

The ACTING PRESIDENT pro tempore. Do both sides yield back their time?

Mr. MUSKIE. I yield back the remainder of my time.

Mr. CARLSON. I yield back the remainder of my time.

The ACTING PRESIDENT pro tempore. All time having been yielded back, the question is on agreeing to the amendment of the Senator from Kansas.

The amendment was agreed to.

Mr. TOWER. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. MUSKIE. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. TOWER. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. On whose time?

Mr. TOWER. Mr. President, I ask unanimous consent that any time consumed by any quorum call be charged to neither side.

The ACTING PRESIDENT pro tempore. Is there objection to the request of the Senator from Texas? The Chair hears none, and it is so ordered.

The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MANSFIELD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

LEGISLATIVE APPROPRIATIONS, 1967—CONFERENCE REPORT— UNANIMOUS-CONSENT AGREEMENT

Mr. MANSFIELD. Mr. President, I ask unanimous consent that, at 1 o'clock, or, if the Tower amendment is still under consideration at that time, at the conclusion of its consideration, one-half hour be set aside to consider the conference report on the legislative appropriations bill, the time to be equally divided and under the control, respectively, of the distinguished senior Senator from Delaware [Mr. WILLIAMS], and the chairman of the subcommittee, the distinguished senior Senator from Oklahoma [Mr. MONRONEY].

The ACTING PRESIDENT pro tempore. Is there objection? The Chair hears none, and it is so ordered.

Mr. TOWER. Mr. President, a parliamentary inquiry.

The ACTING PRESIDENT pro tempore. The Senator will state it.

Mr. TOWER. Mr. President, the time will not be charged against the demonstration cities bill or against either side.

The ACTING PRESIDENT pro tempore. The Senator is correct.

DEMONSTRATION CITIES AND METROPOLITAN DEVELOPMENT ACT OF 1966

The Senate resumed the consideration of the bill (S. 3708) to assist compre-

hensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes.

Mr. TOWER. Mr. President, I ask unanimous consent that my amendment be temporarily laid aside for the consideration of an amendment to be offered by the distinguished Senator from South Dakota.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. McGOVERN. Mr. President, I send an amendment to the desk and ask that it be stated.

The ACTING PRESIDENT pro tempore. The amendment will be stated.

The legislative clerk proceeded to read the amendment.

Mr. McGOVERN. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered. The amendment will be printed in the RECORD.

The amendment, ordered to be printed in the RECORD, is as follows:

On page 32, after line 14, insert the following:

"TITLE IV—COMPREHENSIVE RURAL DEMONSTRATION PROGRAMS

"Findings and declaration of purpose

"SEC. 401. The Congress further finds that a large part of the urban slum and blight problem is increasingly traceable to conditions in some predominantly rural areas which are experiencing rapid changes in their supporting economy, including towns, cities, and other places relying substantially upon such an economy for their vitality. Perpetuation of such rural blight and lack of opportunity in such areas will continue to generate an unnecessary flow of such people from such areas to metropolitan centers who are without marketable skills or other preparation for useful urban roles and who consequently gravitate to metropolitan slums. The purposes of this title are to provide in such predominantly rural areas additional technical and financial assistance to achieve the purposes stated in Section 101.

"Basic authority

"SEC. 402. The Secretary is authorized to make grants in amounts certified by the Secretary of Agriculture as provided by this title to enable predominantly rural district demonstration agencies as defined in Section 411 to carry out comprehensive demonstration programs. The Secretary of Agriculture is authorized to plan, develop, and provide technical assistance in carrying out comprehensive demonstration programs in accordance with this title.

"Eligibility for assistance

"SEC. 403. (a) A comprehensive rural demonstration program is eligible for assistance under Sections 405 and 407 only if—

"(1) physical and social problems in the rural area covered by the program are such that a comprehensive rural demonstration program is necessary to carry out the policy of the Congress as expressed in section 401;

"(2) the program is of sufficient magnitude to make a substantial impact on the physical and social problems and to remove or arrest blight and decay in entire sections or neighborhoods; to contribute to the sound development of the entire rural area; to make marked progress in reducing social and educational disadvantages, ill health, underem-

ployment, and enforced idleness; and to provide educational, health, and social services necessary to serve the poor and disadvantaged in the area, widespread citizen participation in the program, maximum opportunities for employing residents of the area in all phases of the program, and enlarged opportunities for work and training;

"(3) the program, including rebuilding or restoration, will contribute to a well-balanced rural area with a substantial increase in the supply of standard housing of low and moderate cost, maximum opportunities in the choice of housing accommodations for all citizens of all income levels, adequate public facilities (including those needed for education, health and social services, transportation and recreation), commercial facilities adequate to serve the residential areas, and ease of access between the residential areas and centers of employment;

"(4) the various projects and activities to be undertaken in connection with such programs are scheduled to be initiated within a reasonably short period of time; adequate local resources are, or will be, available for the completion of the program as scheduled; administrative machinery is available at the local level for carrying out the program on a consolidated and coordinated basis; substantive local laws, regulations, and other requirements are, or can be expected to be, consistent with the objectives of the program; the local governing body has approved the program and, where appropriate, applications for assistance under the program; agencies whose cooperation is necessary to the success of the program have indicated their intent to furnish such cooperation; the program is consistent with comprehensive planning in the entire rural area; and the locality will maintain, during the period an approved comprehensive rural demonstration program is being carried out, a level of aggregate expenditures for activities similar to those being assisted under this title which is not less than the level of aggregate expenditures for such activities prior to initiation of the comprehensive rural demonstration program; and

"(5) the program meets such additional requirements as the Secretary may establish, with the concurrence of the Secretary of Agriculture, to carry out the purposes of this title.

"(b) In implementing this title the Secretary of Agriculture shall—

"(1) emphasize local initiative in the planning, development, and implementation of comprehensive rural demonstration programs;

"(2) insure, in conjunction with other appropriate Federal departments and agencies and at the direction of the President, maximum coordination of Federal assistance provided in connection with this title, prompt response to local initiative, and maximum flexibility in programing, consistent with the requirements of law and sound administrative practice; and

"(3) encourage rural district demonstration agencies to (A) enhance neighborhoods by applying a high standard of design, (B) maintain, as appropriate, natural and historic sites and distinctive neighborhood characteristics, and (C) make maximum possible use of new and improved technology and design, including cost reduction techniques.

"Financial assistance for planning comprehensive rural demonstration programs

"SEC. 404. (a) The Secretary is authorized, with the concurrence of the Secretary of Agriculture, to make grants to, and to contract with, rural district demonstration agencies to pay 80 per centum of the costs of planning and developing comprehensive rural demonstration programs.

"(b) Financial assistance will be provided under this section only if (1) the application for such assistance has been approved by the local governing bodies of the rural

area, and (2) the Secretary of Agriculture has determined that there exist (A) administrative machinery through which coordination of all related planning activities of local agencies can be achieved, and (B) evidence that necessary cooperation of agencies engaged in related local planning can be obtained.

"Financial assistance for approved comprehensive rural demonstration programs"

"SEC. 405. (a) The Secretary is authorized to approve comprehensive rural demonstration programs if the Secretary of Agriculture, after review of the plans, determines that such plans satisfy the criteria for such programs set forth in section 403 and so certifies.

"(b) The Secretary is authorized to make grants to, and to contract with, rural district demonstration agencies to pay 80 per centum of the cost of administering comprehensive rural demonstration programs approved by the Secretary of Agriculture, but not the cost of administering any project or actively assisted under a Federal grant-in-aid program.

"(c) To assist the rural area to carry out the projects or activities included within an approved comprehensive rural demonstration program, the Secretary is authorized, with the concurrence of the Secretary of Agriculture, to make grants to the rural district demonstration agency of not to exceed 80 per centum of the aggregate amount of non-Federal contributions otherwise required to be made to all projects or activities assisted by Federal grant-in-aid programs (as defined in section 112(1)) which are carried out in connection with such demonstration program: *Provided*, That no Federal grant-in-aid program shall be considered to be carried out in connection with such demonstration program unless it is closely related to the physical and social problems in the area of the rural area covered by the program and unless it can reasonably be expected to have a noticeable effect upon such problems. The specific amount of any such grant shall take into account the number and intensity of the economic and social pressures in the sections or neighborhoods involved, such as those involving or resulting from population density, poverty levels, unemployment rate, public welfare participation, educational levels, health and disease characteristics, crime and delinquency rate, and degree of substandard and dilapidated housing. The amount of non-Federal contribution required for each project in a Federal grant-in-aid program shall be certified to the Secretary by the Federal department or agency (other than the Department of Housing and Urban Development) administering such program, and the Secretary shall accept such certification in computing the grants hereunder.

"(d) Grant funds provided to assist projects and activities included within an approved comprehensive rural demonstration program pursuant to subsection (c) of this section shall be made available to assist new and additional projects and activities not assisted under a Federal grant-in-aid program. To the extent such funds are not necessary to support fully such new and additional projects and activities, they may be used and credited as part or all of the required non-Federal contribution to projects or activities, assisted under a Federal grant-in-aid program, which are part of an approved comprehensive rural demonstration program. Such grant funds, however, shall not be used—

"(1) for the general administration of local governments; or

"(2) to replace non-Federal contributions in any federally aided project or activity included in an approved comprehensive rural demonstration program, if prior to the filing of an application for assistance under section 104 an agreement has been entered into with any Federal agency obligating such non-Federal contributions with respect to such project or activity.

"Technical assistance"

"SEC. 406. The Secretary of Agriculture is authorized to undertake such activities as he determines to be desirable to provide, either directly or by contracts or other arrangements, technical assistance to rural district demonstration agencies to assist such agencies in planning, developing, and administering comprehensive rural demonstration programs.

"Continued availability of Federal grant-in-aid programs"

"SEC. 407. Notwithstanding any other provision of law, unless hereafter enacted expressly in limitation of the provisions of this section, funds appropriated for a Federal grant-in-aid program which are reserved for any projects or activities assisted under such grant-in-aid program and undertaken in connection with an approved comprehensive rural demonstration program shall remain available until expended.

"Consultation"

"SEC. 408. In carrying out the provisions of this title, including the issuance of regulations, the Secretary shall consult with and secure the concurrence of the Secretary of Agriculture. The Secretary of Agriculture shall consult with other Federal Departments and agencies administering Federal grant-in-aid programs and shall consult with each Federal Department and agency affected by each comprehensive rural demonstration program before approving a commitment by the Secretary of Housing and Urban Development to make grants for such program under section 405.

"Indian areas"

"SEC. 409. In the case of rural areas in Indian reservations, the Secretary of the Interior shall exercise the authorities given to the Secretary of Agriculture under the provisions of this title.

"Labor provisions"

"SEC. 410. The provisions of section 110 shall apply to projects assisted in whole or in part under this title.

"Funding"

"SEC. 4100 (a). There shall be allocated for the purposes of this title out of funds appropriated pursuant to section 111 (a), (b) and (c) and section 113 of this Act, a share of funds based on the proportion of national population residing in predominantly rural areas.

"(b) Of the sums appropriated for administrative expenses, there shall be transferred to the Secretary of Agriculture and the Secretary of the Interior such sums as are determined by the Bureau of the Budget to be necessary to carry out their responsibilities.

"Definitions"

"SEC. 412. In addition to the definitions in Section 112 which may be applicable to this title—

"(1) a 'rural district demonstration agency' means a town, city, county or any local public agency established or designated by the participating local governing body or bodies to administer the comprehensive rural demonstration program for an area; and

"(2) 'local governing body' means any council or board having general governmental and legislative powers in any municipality (or two or more municipalities acting jointly) or with respect to rural areas outside of incorporated municipalities, any county or other public body (or two or more acting jointly) having general governmental powers.

"(3) 'Predominantly rural district' means any district so designated by the State Planning Agency and certified by the Secretary of Agriculture—

"(1) which includes at least one urban town or place and the surrounding predominantly rural territory within convenient commuting distance of such urban center.

"(2) within which the residents thereof carry on their day-to-day commercial, vocational, public service, social, educational, and cultural pursuits; and

"(3) within which there has been established a district-wide planning board capable of planning comprehensively for both the urban and rural areas of the district's residents, and representative of, and responsible to, local governing bodies within the district.

"SEC. 413. Amend the title so as to read: 'A bill to assist demonstration programs for rebuilding slum and blighted areas and disadvantaged rural areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in these areas.'"

STOP URBAN BLIGHT AT ITS RURAL SOURCES

Mr. McGOVERN. Mr. President, I am happy to give my support to the demonstration cities bill reported by the committee. There are no large metropolitan areas in South Dakota. However, there are smaller and medium size cities in South Dakota that might qualify for the benefits provided in this legislation, and I am hopeful that if they qualify and apply, they will receive favorable consideration.

However, the crisis that confronts city life is of immediate concern to all Americans—rural and suburban residents as well as those who reside in large cities. We are Americans together, and even the remotest rural resident is not immune from the costs and dangers of continuing deterioration, blight, and misery in the slums of our great cities. It is basically in recognition of that fact, as a representative of one of the rural States, that I support the effort to regenerate our cities.

Mr. President, there is a serious weakness in the bill as it has come before us, both from the standpoint of equitable recognition of the interests of all Americans, and from the standpoint also of the special interests of the people in congested metropolitan centers. A great deal of the misery and squalor that infects our great cities today has its origins in depressed rural areas. Many millions of the inhabitants of our great city slums are recent migrants from farms and Indian reservations. During the past two decades, there has been a sharp decline in employment in agriculture. Millions of rural jobs have been eliminated by modern farming machinery and lessening agricultural opportunities. In spite of our generally rising prosperity, the creation and persistence of farm-bred poverty is continuing. The bill that is before us, Mr. President, overlooks the opportunity to overcome urban poverty at its source. It is both more humane and more economical to deal with poverty in rural areas where so much of it begins, before it has been exported to the cities.

At the time of the riots in the Watts section of Los Angeles just a year ago this month, Chalmers M. Roberts wrote a most perceptive report from the riot area in Los Angeles in the Washington Post. He asked:

Why did it happen, and why did it happen here?

Then he wrote:

The story of the Los Angeles riots is the story of the American Negro's revolution of rising expectations—not of its successes, however, but of its failures.

It is the story of expectations frustrated, of hopes denied, denied specifically to the rural and small-town Southern Negro caught in an urban world he does not understand and whose fruits he cannot share.

Mr. President, I would like at this point to have printed in the *RECORD* the full report by Chalmers M. Roberts in the *Washington Post* of August 18, 1965, which is headlined: "Rural Negroes Caught in Urban World; Frustration Is Blamed for Riots."

There being no objection, the article was ordered to be printed in the *RECORD*, as follows:

[From the *Washington Post*, Aug. 18, 1965]

**RURAL NEGROES CAUGHT IN URBAN WORLD—
FRUSTRATION BLAMED FOR RIOTS**

(By Chalmers M. Roberts)

LOS ANGELES, Aug. 17.—Why? Why did it happen, and why did it happen here?

The story of the Los Angeles riots is the story of the American Negro's revolution of rising expectations—not of its successes, however, but of its failures.

It is the story of expectations frustrated, of hopes denied, denied specifically to the rural and small-town Southern Negro caught in an urban world he does not understand and whose fruits he cannot share.

And it is the story of men, women and children who feel hemmed in by a city police force they see as no different from the white man's exercise of authority they knew back home where they came from in the South.

It is most emphatically not the story of all Negroes here in Los Angeles, certainly not of those many thousands who have achieved, who have made it. Rather it is the story of the other Negro community, here as elsewhere in the big cities; the community, as Theodore H. White has described it, "that is threatened with collapse of all human values, all dignity, all function."

It is "a feeling of nobodiness and frustration," as the Rev. Thomas Kilgore of the Negro Second Baptist Church puts it. Mr. Kilgore, who is the Rev. Dr. Martin Luther King's associate here, estimates that up to 65,000 of the city's approximately half-million Negroes "are on or below the fringe."

These are the people, whatever their exact number, from whom came the mobs that pillaged and looted and burned and turned their guns on the white man. Hoodlums, dope addicts, alcoholics, common criminals were among them no doubt. But to lay the blame there or to contend, as Mayor Samuel Yorty did today, that Communists are at fault or, as others have hinted, that Black Muslims played a role, is to miss the depth of the story of what happened here.

NEGROES' "PORT OF ENTRY"

First, take a look at the area which exploded. The urban ghetto known as Watts (it was a small town annexed to the city in 1926) has long been considered "the port of entry" for Negroes coming to Southern California. Unlike the big Northern industrial cities, Los Angeles did not attract the Negro before World War II. Only during the wartime labor shortage did this golden horizon first beckon. The Urban League estimates the influx now is about 1000 a month to the city.

Today a sixth of the county's Negroes live in Watts and adjacent downtown and near-downtown areas have become, in words of a University of Southern California study, "a convenient dumping ground for the problems which the community has failed to solve and which the comfortable suburbanites would rather ignore."

In Watts 65 per cent came from the South, the rural and small-town South. Today Mississippi and Alabama natives represent the most numerous arrivals, whereas earlier it was Texas and Louisiana.

Here the newly arrived Negro family lives in crowded quarters and pays high rents, if it can pay at all.

"A lot of people here live in shacks," said a plumber's helper yesterday in Watts as he was boarding up the broken store window of his white employer. "Some people rent cars for the night for sleeping. And don't let a vegetable truck come down the street—it will look like a skeleton!"

The camera these past few days has presented Watts to America as an area of separate homes, green lawns, palm trees, back yards. But this is an optical illusion, strikingly different as the outward appearance is from Harlem's slum building or Washington's overcrowded row houses.

The 1960 population density in Watts was 14,090 per square mile compared to Harlem's 20,000, according to another report.

John A. Buggs, the Negro director of Los Angeles County Human Relations Commission, says that "you don't have 2000 people living in one block but many, many homes are dilapidated and deteriorating."

"There may be more play areas than in Harlem," says Buggs, "but inside that four walls there is very little difference."

FEW OWN HOMES

Most of the homes are rented from absentee landlords; home ownership in the city's poverty area is barely over 10 per cent. And repossession of homes by white owners is common in Watts.

In the UCLA study of Los Angeles' poverty problem, just over 13 per cent of the 341,000 studied were rated as functional illiterates; that is, they had less than five years of education.

The disparity in schooling is most marked among those Negroes who came here from the Deep South.

These, then, are the people ill-prepared to find a livelihood here in Los Angeles. The city's Negro unemployment rate is now 9.6 per cent and probably double that in Watts. Negro Congressman AUGUSTUS F. HAWKINS from Los Angeles says that 48 per cent of the area's youth are out of jobs.

The unskilled predominate, of course, in an industrial society calling for more and more skills. Yet so cut off from the mainstream are these people that the U.C.L.A. study found half the unemployed saying they had never heard of any of the Federal-state retraining programs.

JOB HUNTING DIFFICULT

Furthermore, industrial decentralization away from the central city here makes job hunting more and more difficult.

Given all these counts against them, it is no wonder that Dr. Harold W. Jones, a Negro psychiatrist who heads a mental health clinic in the riot area, stresses the disappointment of those who come here from the Deep South, seeing their great expectations die for reasons often beyond their control.

And so, Dr. Jones says, those who took part in the riots "feel morally right about what they have done. They look upon it as a revolt rather than a riot and therefore subject to a different value system."

"They see their insurrection as an opportunity to speak. It is as if they are saying, 'It's better to be feared than to be held in contempt.'"

FAMILY PROBLEMS

Dr. Jones, physician-in-charge of the South-Central Mental Health Service, agrees that the breakdown of the Negro family structure is a principal reason for a lack of respect for authority.

The psychiatrist point out that the typical Negro father in low-income areas is a non-entity with few work opportunities who is degraded in the eyes of his youngsters, by the women in his family, by the law and by white men in general.

"It's far easier for the Negro woman to get a job as a domestic than it is for a Negro

man to get a job," they say. "When the children go to school, they see fathers depicted in books as men who wear white shirts and a tie and drive a car, and they know this isn't their father."

"Then they see him sitting around the kitchen drinking beer with his buddies while the mother is out working. Too often he has little to show the family that he is in charge."

DISTRUST OF AUTHORITY

"This absence of a figure whose function it is to set limits and establish controls leaves the children lacking in an essential part of upbringing—respect for loving authority—that will enable them to take on a meaningful role in society when they grow up."

"They grow up fighting authority, which usually for them is in the form of a police officer."

This leads you to the problem of the Negro and the Los Angeles police.

"Every kid wants a car," says Don Smith, the CORE head in the city. "He wants it as a social necessity and we have the humiliation of a boy sprawled against the fenders being searched while his date sits frightened."

It is not a matter of "widespread police brutality," Buggs says, but "of insensitive use of words and language, sometimes innocently," by the police.

RESENT TAG OF "BOY"

"To call a man in his 30s 'boy' here is as bad to the Negro as calling him 'nigger' back home in the South. The police say 'boy' to whites, too, but the implication to the Negro is quite different."

When one Negro is hit by a policeman, Buggs says, word spreads fast "and ipso facto the whole police force is brutal."

Buggs agrees that there is crime in Negro neighborhoods "and resistance to legitimate police authority among Negroes." He adds:

"A situation is thereby created in which a police officer believes that he is going to be resisted by any Negro as he attempts to discharge his law enforcement duty, and a large majority of Negroes feel that they are going to be treated roughly when approached by a police officer. These very expectations on the part of both parties tend to produce the kind of situation that each expects."

"This phenomenon may be called a 'self-fulfilling prophecy.'"

POLICE FORCE MAKEUP

The official Los Angeles police figures show a force of 5,000 men, of whom 200 are Negroes. There used to be two Negro lieutenants, but both have retired and today the 23 sergeants represent the highest rank attained on the force by Negroes.

Of the total force 13 percent, police records show, come from the South but this includes many of the Negroes. There appears to be no record of the political sympathies of the Los Angeles police but it is widely believed that all over the United States, especially in urban areas where Negroes have charged "police brutality" as they long have done here, the white men on the forces voted for Barry Goldwater because he promised to uphold their hand more than they thought the Democratic Administration was doing.

Individuals, too, make a difference and Los Angeles Police Chief William H. Parker is a man who speaks his mind. He is widely credited with being a first-class chief in terms of normal police work. But he is just as widely viewed as a man who lacks political tact in dealing with community relations problems, especially with the Negro community.

DEPUTY CHIEF CRITICIZED

His deputy, Roger Murdock, also comes in for a lot of criticism. One of the city's intense and voluble Negro ministers, the Rev. H. H. Brookins, said the other day that "Murdock's attitude is no less than that of

Jim Clark in Alabama. Murdock said that the only use for Negro police was because he couldn't be seen after dark."

The result of all this antipathy, as Mr. Kilgore puts it, is that the ghetto Negro "say the white police beat us so we'll burn down the white man's town."

And Mr. Kilgore adds another factor. "The white power structure," he says, "the news media, the government and the police do not see Negroes as people but as Negroes."

This is the difference, he adds, between the fate of the waves of Irish, Italian and East European immigrants who came to America and in time fought their way up the economic and social ladder and gradually have been largely absorbed into what is more and more a middle-class nation. The Negro can't change the color of his skin.

The ghetto Negro, those who have not and cannot escape, thus form an undigested lump of millions in American society. They are in but not of that society.

HOPE IN POVERTY PLAN

The Federal antipoverty program, so far largely held up here in a political snarl, is, in Bugge's opinion, "absolutely the only hope if it is operated as it should be."

But time is running out and the problem grows. Here in Los Angeles the census shows 13.5 per cent of the population is Negro, but more than 20 per cent of the babies being born are Negro.

The Negro today is more urban than the whites. Between 1950 and 1960 two million whites in the cities were replaced by two million Negroes, so vast was the white flight to the suburbs and the Negro migration from the South.

Theodore H. White, in his "The Making of the President—1964," notes that whereas today only Washington among major cities has a Negro majority, "by 1980—if the arithmetical projections of present population trends come to pass—Negroes will be the majority in Detroit, Cleveland, Baltimore, Chicago and St. Louis."

HIGH BIRTH RATE

White notes that the Negroes' urban birth rate is about 40 per cent higher than that of whites. Of infants today under a year old, he reports, one in six is non-white and one-fifth of all Negro children are illegitimate.

What White speaks of in national terms is true here in Los Angeles: "Fatherless babies grow up in a world with no family standard of decency—a burden and menace to all about them, white and black." Today the Nation's leaders, nationally and locally, are only beginning to recognize the importance of a massive birth-control program for those countless Negro women who want more out of life than a baby a year.

All this, then, is the story, at least part of the story, behind what happened here these past few days. It is a story of immense problems but not of insuperable problems, given their frank recognition and a widening determination to resolve them.

Mr. McGOVERN. Mr. President, the central fact that stands out in this account is that the transfer of displaced and impoverished rural people into the city slums does not square with their own economic interests, nor the most desirable goals of our society. Most of these rural people cannot find employment in the cities. Their migration benefits neither them, nor the national economy.

The most constructive, and the most economical course for the Nation to take is to raise the level of opportunity in rural America so that the people displaced from agricultural jobs, mining, forestry, and other rural occupations, can

earn decent incomes in their home communities, rather than yielding to the pressures that draw them in a rising flood into the chaos of city slums.

Mr. President, I am proposing an amendment which will apply the same kind of concerted attack upon the problem of poverty and squalor, where much of it originates—in the small cities, rural towns, and the farming countryside—that the bill proposes to apply after it has reached the city.

There is ample living and working space in rural communities. There is no need for the reckless crowding of population into increasingly ugly cities, if we take the steps that are needed to make rural America more livable.

The purpose of my amendment, Mr. President, is to provide a demonstration that the rural countryside can offer new industrial and commercial jobs to the men and women displaced from agricultural employment and that urban poverty can be cut off at its source.

Rural poverty is not as highly visible as urban blight. It is found along the backroads and in the mountain valleys and the Indian reservations. But it does exist. The proportion of rural families in poverty is two times as high as it is among urban families.

Much is said, much is written, much is broadcast, much is pictured, of the wretched housing of our big city slums.

But it is generally overlooked that in rural areas there are more families living in houses that are unfit for human habitation than in all the slums of the cities of America.

According to the U.S. Census of 1960, there were 1,390,799 housing units classified as dilapidated and unfit for human habitation in urban areas. The same census reported 1,501,066 dilapidated, unsanitary, unfit housing units in the rural communities with populations of 2,500 or less.

Only 1 in 40 of the housing units in urban areas was classified as unfit for human habitation in 1960. The proportion so classified in rural areas was more than 1 in 12—more than three times as great as the urban proportion.

Educational disadvantage is a principal handicap afflicting rural people. The average rural male is about 2 years behind the national average in schooling. Only 30 percent of rural high school seniors go on to college, compared to 50 percent of the high school seniors in urban areas.

Inadequate health care is another serious rural disadvantage. Children in rural families get only one-third as much service time from doctors and dentists as do urban children. The death rate of children ages 5 to 14 is 50 percent higher in rural communities than in urban areas. The rural death rate is double the urban rate for young people ages 14 to 24.

Unsanitary water supplies and unsafe waste disposal facilities, create serious and chronic health hazards in many rural communities. Yet, modern technology has demonstrated that safe water and waste disposal is economically feasible and practical in rural areas and small towns.

If these barriers to good living can be lifted in our rural communities, they can attract new industries, to provide new jobs for millions of rural workers, without forcing them to migrate for all too often illusory opportunities in the cities.

The purpose of this legislation is to demonstrate ways and means whereby the barriers to decent living can be raised for city dwellers, how city blight and city slums can be corrected.

The purpose of my amendment, Mr. President, is to demonstrate how the same ways and means can be used in rural communities to prevent slums, to prevent city blight, to prevent urban poverty before it reaches the metropolitan area.

I am convinced, Mr. President, that the cost of preventing city poverty by attacking it at its rural origins will be far less, both in human suffering and in dollars and cents, than the cost of curing it after it has reached the metropolitan slums.

My amendment recognizes that most local rural governments are too small to undertake alone either the efforts that are needed to raise the quality of life for their citizens or to generate the economic opportunity and jobs that are necessary to sustain human life in comfort and dignity. The amendment provides that groups of local governments must work together, both to plan and to carry out their development programs. It would offer to small cities, and the small towns and rural areas tributary to them, the same opportunity, if they cooperate with each other, that would be offered to residents of large metropolitan areas.

Just as the predominantly rural people of South Dakota share with all Americans in their interests in reversing the decay and misery of the large American cities, so do all Americans, city man and rural alike, share an interest in raising the quality of life in rural communities. But for the city resident, rural development is doubly important. It is important to him as a citizen because it will strengthen the economy and insure the tranquility of our society as a whole. And it is doubly important to him as a city resident, because it will help to slow down the tide of rural poverty flowing into his city slums. It will give to the city planners and city officials the breathing space they need so desperately in order to catch up with and overcome the gigantic problems already upon them.

My amendment provides for the same sort of rural district or area programs provided in the demonstration cities title, modified to be applicable to the rural areas and Indian reservations. The areas must meet appropriate criteria comparable to those for cities demonstration projects. They must be certified by the Secretary of Agriculture.

My amendment directs that a portion of the funds, authorized and appropriated under the act, based on the proportion of our national population in rural areas, shall be allocated to rural areas. Thirty percent of our population lives in communities of 2,500 or less. Pre-

dominantly rural areas will, in some instances, include somewhat larger towns, but approximately one-third of the funds should, in my opinion, go to the countryside where much of our urban distress is spawned.

Mr. MUSKIE. Mr. President, I yield myself such time on the amendment as I may need to respond to the distinguished Senator from South Dakota.

The Senator and I have discussed his amendment privately. I must say that the rationale for it, the argument he makes as to the nature of the problem, the fact that much of the poverty that we find in our cities has been transported from rural areas which provide less than adequate opportunity—all these factors are difficult to dispute.

In response, may I say to the distinguished Senator from South Dakota, as I did yesterday, in connection with another amendment which was offered by the Senator and accepted by the Senate, that the city demonstration program in the pending legislation is not limited to large cities.

May I again repeat language to which I referred the Senator and the Senate yesterday. Reading from page 2 of the bill, the findings and declaration of purpose:

The Congress further finds and declares that cities of all sizes do not have adequate resources to deal effectively with the critical problems facing them . . .

Proceeding to language in the same section:

The purposes of this title are to provide additional financial and technical assistance to enable cities of all sizes (with equal regard to the problems of small as well as large cities) to plan, develop, and carry out locally prepared and scheduled comprehensive city demonstration programs containing new and imaginative proposals to rebuild or revitalize large slum and blighted areas;

So it is the intent of the bill, and of those of us who have participated in its authorship, that we deal with this problem wherever it exists—in the large metropolitan areas, in the smaller cities, in towns or groups of towns. We recognize that poverty is not confined to cities. It is recognized that poverty, indeed, is sometimes transported from rural areas to the cities, and so we wish to deal with it and its causes.

May I say, in addition, Mr. President, that the base of this demonstration program is made up of existing and current Federal aid programs, some 170 of them, as the distinguished Senator from Kansas pointed out earlier this morning. These existing Federal aid programs are the base, and eligibility under them is not confined to the cities. Eligibility is open to all citizens in all parts of the country, whether they come from sparsely settled rural areas or heavily concentrated populations in our cities. So that our current Federal aid programs are the base of the demonstration program, and are available to deal with the problems that the distinguished Senator from South Dakota has spelled out.

Second, it is our objective to coordinate these existing programs, and this coordination effort under the bill is avail-

able to the rural areas as well as the city areas.

Title III, for example, I point out to the distinguished Senator from South Dakota, would set up effective centers of technical assistance, with particular reference to the problems of small towns and rural areas, so that they may have readier access to existing Federal aid programs; so that they may be given technical assistance enabling them more effectively to coordinate those problems and focus those Federal resources upon the problems of rural areas and small towns.

Mr. President, may I say to the distinguished Senator from South Dakota that although what is in the bill may not be applicable to the problems of rural areas in exactly the same way that he might desire, the provisions and benefits of the bill and the financial resources of the Federal Government which would be unleashed by the bill would be available in rural areas—and I believe should be made available in rural areas—to deal with the root causes of the problem which is plaguing our cities.

Mr. McGOVERN. Mr. President, will the Senator yield?

Mr. MUSKIE. I yield.

Mr. McGOVERN. Mr. President, first of all, I wish to thank the Senator from Maine [Mr. MUSKIE] and the Senator from Texas [Mr. TOWER] for accepting, as they did yesterday, the amendment which I offered that would permit the counties to play a role in executing this program; because I think that, in itself, will give our rural people a greater voice in the execution of the purposes and the goals of this program.

With reference to the further suggestion that a certain portion of the funds be set aside for the small towns and rural areas, I am greatly encouraged by the remarks the Senator has just made, and by the assurance that he provides that some reasonable share of the funds will be made available to the rural areas and to the small cities and towns.

I believe that it is extremely important to recognize that we cannot deal with poverty and with congestion and with crime and with urban blight in the great metropolitan areas alone, recognizing that much of it has its origins in the smaller towns and rural areas where migration is taking place because of the absence of opportunities in those areas.

Do I understand the Senator correctly that in his judgment some reasonable consideration will be given to the allocation of funds to our smaller cities, and that not all the funds will go into a few great metropolitan centers?

Mr. MUSKIE. It is the intent of the legislation, as I understand it—and it is certainly part of my intent—that all facets and all denominations of this problem be explored and studied.

The title of this program was chosen advisedly. It is a demonstration cities program, designed to demonstrate what ought to be done, what can be done effectively, to deal with this root problem of poverty and social unrest. When we deal with a problem of this kind, we must be concerned not only with the big

taproot, but also with the smaller roots from which the disease springs.

I could not agree more with the Senator that our rural areas and some of our blighted small towns are the source of much of the problem that we find in our cities.

So I would say to the Senator that I would expect that we would get demonstration city programs in these small areas, and I would be disappointed if we did not.

Mr. McGOVERN. I am as concerned as the Senator is with the problems that have erupted and have caught the headlines in areas such as Chicago, Watts, Harlem, Detroit, and elsewhere. Much of the discussion centering around this bill had focused on those three or four areas in the news.

It seems to me that it is important for us to underscore here and to make some legislative history indicating that this is legislation aimed at cities of all sizes—small, middle, and large—and not confined to a few areas that happen to have caught the news and are in the forefront at the moment.

On the basis of the assurance that the Senator from Maine [Mr. MUSKIE] has given me, and his acceptance of the amendment on yesterday, I ask unanimous consent to withdraw the amendment from further consideration.

The ACTING PRESIDENT pro tempore. The amendment of the Senator from South Dakota [Mr. McGOVERN] is withdrawn.

Mr. GORE. Mr. President, I ask unanimous consent that I may proceed out of order for 3 minutes.

The ACTING PRESIDENT pro tempore. The Senator from Tennessee [Mr. GORE] is recognized for 3 minutes.

HIGH INTEREST RATES AND HOUSING

Mr. GORE. Mr. President, the Commerce Department announced on yesterday that housing starts in July dropped again, this time to the lowest level since December 1960. In 1960 we were in the depths of the final Eisenhower tight-money-induced recession. Purchasing power was pinched. Buying had slowed down.

Today, of course, we are not in a recession. Purchasing power is high, personal income continues to grow, family formations are high, housing demand great. But the housing market is dependent upon long-term financing, and it is here that high interest rates take their first big bite. Automobiles and other consumer durables, such as appliances for the home, are next in line.

The slowdown in housing is already being felt in other areas. A constituent who has a furniture store in a medium-size city in Tennessee wrote to me a few days ago to say that he was feeling the pinch of the drop in activity in the housing market. His furniture and appliance sales have fallen off.

And so it goes. Other industries will be next, and, if interest rates are not brought back down to a livable level, we will soon be in the midst of vaster dislocations.

vocation, or employment. The Administrator shall perform such duties as are delegated to him by the Secretary. On highway matters the Administrator shall consult with the Federal Highway Administrator.

SEC. 202. (a) The Secretary shall prepare and submit to the President for transmittal to the Congress on March 1 of each year a comprehensive report on the administration of the Highway Safety Act of 1966 (including chapter 4 of title 23 of the United States Code) for the preceding calendar year. Such report should include but not be restricted to (1) a thorough statistical compilation of the accidents and injuries occurring in such year; (2) a list of all safety standards issued or in effect in such year; (3) the scope of observance of applicable Federal standards; (4) a statement of enforcement actions including judicial decisions, settlements, or pending litigation during the year; (5) a summary of all current research grants and contracts together with a description of the problems to be considered by such grants and contracts; (6) an analysis and evaluation of completed research activities and technological progress achieved during such year together with the relevant policy recommendations flowing therefrom; (7) the effectiveness of State highway safety programs (including local highway safety programs); and (8) the extent to which technical information was being disseminated to the scientific community and consumer-oriented material was made available to the motoring public.

(b) The annual report shall also contain such recommendations for additional legislation as the Secretary deems necessary to promote cooperation among the several States in the improvement of highway safety and to strengthen the national highway safety program.

SEC. 203. The Secretary of Commerce shall report to Congress, not later than January 10, 1967, all standards to be initially applied in carrying out section 402 of title 23 of the United States Code.

SEC. 204. The Secretary of Commerce shall in consultation with other government and private agencies make a comprehensive study of alcoholism and the consumption of alcohol and their effects upon and relation to highway safety. Such study shall include, but need not be limited to, review and evaluation of State and local laws and enforcement procedures concerning driving while under the influence of alcohol, and State and local programs for the treatment or rehabilitation of alcoholics and habitual drunkards. The Secretary shall report the results of his study to the Congress not later than July 1, 1967. Such report shall include the Secretary's recommendations concerning needed legislation, if any.

SEC. 205. The Federal Highway Administrator and any other officer who may subsequent to the date of enactment of this Act become the operating head of the Bureau of Public Roads shall receive compensation at the rate prescribed for level IV of the Federal Executive Salary Schedule established by the Federal Executive Salary Act of 1964.

SEC. 206. This Act may be cited as the "Highway Safety Act of 1966".

Mr. MUSKIE. Mr. President, I move that the Senate disagree to the amendments of the House to S. 3052 and request a conference with the House on the disagreeing votes, and that the conferees on the part of the Senate be appointed by the Chair.

The motion was agreed to; and the Acting President pro tempore appointed Mr. RANDOLPH, Mr. GRUENING, Mr. MUSKIE, Mr. MOSS, Mr. COOPER, and Mr. FONG conferees on the part of the Senate.

DEMONSTRATION CITIES AND METROPOLITAN DEVELOPMENT ACT OF 1966

The Senate resumed the consideration of the bill (S. 3708) to assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes.

The ACTING PRESIDENT pro tempore. The question is on the amendment of the Senator from Texas [Mr. Tower].

Mr. TOWER. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. TOWER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. FULBRIGHT addressed the Chair.

The ACTING PRESIDENT pro tempore. Who yields time?

Mr. MUSKIE. Mr. President, I yield such time as the Senator from Arkansas [Mr. Fulbright] requires, under the pending amendment.

The ACTING PRESIDENT pro tempore. The Senator from Arkansas [Mr. Fulbright] is recognized.

Mr. FULBRIGHT. Mr. President, I intend to vote for S. 3708, because something must be done to arrest the human and environmental decay that blights the cities of America. No one suggests that this bill contains solutions to all the problems of our cities. But no one denies that solutions must be found.

Whatever may be the values or the shortcomings of S. 3708, it proposes very modest appropriations in relation to the dimension of the job to be done. It represents the labor and conscientious conclusions of one of the great committees of the Senate. It comes before us in a summer filled with strife and violence born of the despair and frustrations of those who seek a better life. I do not condone or excuse acts of violence, but I recognize the need to change the conditions out of which violence is spawned.

Mr. President, it has been announced that on September 6 the Senate will begin debate upon another civil rights bill. Whatever may be the nature of the bill to be debated, it will do nothing whatsoever to enlarge the real civil rights of anyone. So 3708 may be the true civil rights bill of 1966, if it can result in programs which come to grips with the problems of our cities.

Even if this effort to save urban America is a failure, it will help guide us toward more successful alternatives. And, hopefully, when the first Americans land on the moon several years in the future, they will be able to report with pride that, in time, the cities of their country may become fairly pleasant places to visit.

I want especially to commend the Senator from Maine for his leadership in this field. It happens to be one of the

activities deserving of the highest priority in our country today. Unfortunately this and its allied activities are given a low priority compared to the space program and our military program. Thus, I particularly wish to commend the Senator from Maine for helping us at least to get back on the track that we should have been on during the past several years.

Mr. MUSKIE. Mr. President, I thank the distinguished Senator from Arkansas for his remarks and for his most welcome support of the pending bill. He and I concur in our impression of the gravity of the problem and the pressing need for action.

As I stated earlier, I come from a small rural State, whose largest city has a population of 75,000. I suspect that there may not be another State whose largest city is as small in population as mine.

The majority leader tells me that Montana's largest city is smaller. In any case, the point I made earlier is that 180 years ago, we undertook the task of building one country, a whole country, with all its citizens given equal opportunity. We have reached this year of 1966, and our country is producing goods and services at the rate of \$730 billion a year, but we are not yet one country, we are not yet a whole country.

The \$900 million we are speaking about today is a small enough beginning for such a massive problem and for such a worthy objective.

I deeply appreciate the support of the distinguished Senator from Arkansas.

Mr. FULBRIGHT. There is only one urban center in my State, a combination of Little Rock and North Little Rock, split by a river, which is larger than the city the Senator mentions in his own State. No other urban center is as large as 75,000 in population in Arkansas. Thus, this is not a program designed to be of primary significance to Arkansas. Our urban centers are not afflicted with any slum areas as serious as those in some other States, I am happy to say.

What I have in mind is of national interest in this regard because I can see how all of our activities, political as well as economic, and domestic as well as foreign, are affected by the disease which is now spreading through our large urban cities.

My interest is not local. I can assure the Senator from Maine that I have no great pressures upon me from my constituents about this bill at all. It is for the national interest that I favor it. I think it is a serious matter.

I am very much embarrassed trying to give advice to foreigners when I look at what is going on in America today. How can we presume to tell people in other countries how to conduct their business, whether it be in NATO, the United Nations, or anywhere else, afflicted as we are with riots in Cleveland, in Chicago, in California, with general unrest, and especially the shootings which have recently occurred?

In that connection, I have never seen such an outbreak of such barbarous shootings as the one in Austin, Tex., at the University there, a few days ago, as well as the killing of the eight nurses

in Chicago where the same kind of thing took place.

Mr. TOWER. Mr. President, will the Senator from Arkansas yield at that point?

Mr. FULBRIGHT. It seems to me that this is a symptom of a deep unrest, of a malaise, a display of the evils of our society. One of these evils is the deplorable condition of our great cities today.

Mr. TOWER. Mr. President, will the Senator from Arkansas yield?

Mr. FULBRIGHT. I am happy to yield to the Senator from Texas.

Mr. TOWER. It should be noted that the tragic Whitman episode in Austin, Tex., was committed by a man who did not come from a socially disadvantaged group. He probably belonged to a middle income or a fairly well-to-do family.

By the way, he was a Floridian and not a Texan.

This sort of psychosis can occur in persons who are not necessarily socially disadvantaged. I do not believe that we are going to wipe out psychotic crimes by passing a demonstration cities bill.

Mr. MUSKIE. To dismiss the Whitman tragedy is not to solve the problem of our cities. If rebuttal to the demonstration cities program is the Whitman episode—

Mr. TOWER. Of course, that is not a total rebuttal.

Mr. MUSKIE. It is not the result of the blight on our cities, then the case falls. I could not agree with the Senator from Arkansas more.

Mr. FULBRIGHT. I think the Senator from Texas [Mr. Tower] takes a much too narrow view of the afflictions which arise in our society. An atmosphere, an attitude develops from the conditions which I mention. This constant agitation over racial matters which has been burdening us for many, many years, creates an apprehension, a nervousness that finally leads to mental problems and mental imbalance throughout the country. Generally, I think it has a connection with the distortions in our society.

In a veterans hospital in my State, there is a crowded waiting room for mental patients, although there are other rooms available for other kinds of patients.

Again, this grows out of the conditions existing in this country which I think are most unfortunate. We live at such a fast pace. It is not just all the city. Even driving to work, I sometimes get caught in a traffic jam. This may not be directly related to the problem we are discussing, but it does something to one's nervous system.

It makes me furious that with all the skill and technology, the wealth and capacity in this country, we cannot manage to get to work with reasonable comfort. I get stuck in a traffic jam every now and then, when I drive on Constitution Avenue past the Commerce Building. Every day, there is some kind of congestion in that area, which to me is inexcusable. So I try to find a different way around that bottleneck. Occasionally, I am successful.

As a Senator, I do not have to come to the Capitol at a very early hour, although I am generally here until quite

late in the day. Most Government workers, of course, have a fixed time to get to work and they are in much worse shape than I am. Yet I try to avoid the worst part of that congestion along Constitution Avenue, either early or late. I certainly sympathize with people going to and from work. They must feel helpless about it.

We can say that this is a minor thing, but they all add up to this imbalance which I feel is going on in this country. The country seems to be going crazy, if that is possible.

The priorities exhibited in this body sometimes give me great grounds for apprehension. We vote \$5 billion to go to the moon—which is one of the silliest undertakings any great nation ever undertook—and Congress votes \$58 billion for its defense appropriation, with practically no opposition except from a handful of Senators.

Perhaps it has to be done. When it comes to the furnishing of essential funds, of course it has to be done, but not to be able even to reduce it back to what the administration's request was, indicates a situation which to me is very disturbing.

We seem to think that the solution to all our ills is more and more money for arms. That is about what it amounts to. It is incredible to me that the one great program on which Congress insists on giving more money than the administration asks for is armaments. They do not do it for health any more—there was a time when they did—or for education, but now it is for armaments.

There is certainly this feeling that we are afflicted with terrible ills and that if we provide more armaments it will take care of them. I do not know why we should have provided \$500 million more than the Pentagon asked for—although it will probably not use it—with the idea that this will save our consciences.

In this week's U.S. News & World Report, under the column headed "Washington Whispers," it is stated that the people of Europe look upon the United States as the sick man of the world. I recall the time when we used to call Turkey the sick man of Europe.

What are we sick about? It is not due to our Treasury, or our financial condition, or our supply of food. It is our mind or mentality, a lack of comprehension of what is going on. I subscribe to that view.

It is evident by the priorities for which we vote in the Senate. Day after day, with respect to programs like the one now before us, we grudgingly grant money; but the funds provided for in this bill are little more than what the Senate added beyond the requests of the Defense Department in the bill we considered yesterday. We voted over \$58 billion to build arms, and yet this bill goes to some of the sources of our trouble.

I think it is a matter that goes to our minds and our attitudes. When an advantaged student like Mr. Whitman can do what he did, it is even more discouraging for people who do not have those advantages. For people who grow up in the slums, perhaps there is some excuse for such action, because they had

no such advantages, but when somebody from the middle class becomes disturbed and acts this way, who is left?

I think the Senator from Maine is on the right track. I hope he succeeds.

Mr. MUSKIE. I thank the Senator from Arkansas. I make one further point. I know of no more root causes for instability, disorder, and violence than deprivation and discontent. We recognize it in our policy of trying to aid the underdeveloped countries of the world. We ought to recognize it in our own cities. This was one of the causes for the original separation of our colonies from Great Britain.

Discontent with our situation and deprivation are the causes for instability and disorder and are more responsible for the riots, violence, and restlessness in America today than anything else.

Mr. FULBRIGHT. If the Senator will yield, particularly when it is inexcusable. There is no excuse for it. It is not that we do not have money and cannot afford needed programs. It is because of our judgment of what our priorities are and what matters we base our priorities on.

What makes me more furious about the conditions in the cities is that there is no good excuse for it. It is due to negligence and lack of interest in those conditions, because we spend money in other ways. That is what sends people off their "rockers" and makes them lose confidence in their society. This is what raises a question about whether we have the right kind of system. I think we do, but—

Mr. MUSKIE. I read in the paper yesterday the number of families in Washington with incomes of over \$20,000 a year and the number of swimming pools here. We read that 27,000 families in the city of Washington have incomes of over \$20,000 a year, and there are 1,500 swimming pools.

Mr. FULBRIGHT. How many swimming pools are there?

Mr. MUSKIE. I do not have that number, but I suggest that the number would fade into insignificance by comparison.

How can we expect people who observe all that affluence to be content with their lot when they are deprived, when they do not have adequate recreation facilities? The sprinklers had to be turned on in the streets to provide them with recreation. These 1,500 swimming pools were not available to them. The gap between affluence and having nothing is too much.

Mr. FULBRIGHT. Did they not put up one of those swimming pools and it collapsed?

Mr. MUSKIE. It was described as a collapsible swimming pool, and apparently it worked.

Mr. TOWER. Mr. President, I yield myself 5 minutes.

I reject the notion that the United States of America is the sick man of the world. I reject the notion that we do not know or comprehend what is going on in the world. Simply because we are engaged in a war, many people beat their breasts and proclaim the guilt of the United States.

We do not like to spend billions of dollars on armaments. We are not a warlike people. In modern history, the United States has not initiated or resorted to war as a national policy on its own initiative. The reason we are fighting this war and spending this money on weapons is that armed aggression has been committed against people who are not capable of defending themselves.

If we did not spend any money on armaments, we can bet that the Communist materialists would have taken over this world by now, and we would not be here debating the demonstration cities bill, because everything would be dictated.

I submit that the people of the United States, even those who live in the slums, are more privileged than are those who live under a socialistic system. There are no private swimming pools in the Soviet Union, except perhaps those owned by the officials. There are no private swimming pools in Peking. But our people, in all parts of our socioeconomic scale, even those who have been oppressed—and I speak with shame about the way we have treated the American Negro—but even those people are better off—and I think they would admit it—than are the people of the Soviet Union.

The United States of America is not sick. We are a growing, dynamic people. We have our problems, yes. From time to time we have our psychoses. But I still think we possess the genius and toughness that allowed us to grub a civilization out of the wilderness. I think it is despicable that we should hear someone stand on the floor of the Senate and call the United States sick.

Mr. MUSKIE. Mr. President, I yield the Senator from Arkansas [Mr. FULBRIGHT] 2 minutes on the bill.

Mr. FULBRIGHT. Mr. President, I hesitate to remind the Senator, when he says that he does not think the United States has ever been a warlike people—

Mr. TOWER. I said "in modern history."

Mr. FULBRIGHT. If the Senator will yield just a moment—he does not know what I am going to say yet—I remind him of the war against Spain in Cuba. I think that is considered to be in modern history, and I think that most historians agree we had some part in initiating that activity, which brought about certain results, as well as our involvement in the Far East, the Philippines, with which we are still stuck in many respects. That is one instance.

I think the Senator will recall Abraham Lincoln, of his party, and his attitude toward the war against Mexico. I have often cited his dissent as a reputable precedent for our disagreement with this war. I have used it recently. So that I do not think that the Senator can say that we have always been a peace-loving country.

I am not trying to denigrate this country. There is no question that this is the most powerful and the richest country in the world. We have often said that.

The thing that is disturbing to me is that we are beginning to act as have all

powerful countries in history. I do not like that. I want us to act much better, and much more wisely. If we are to follow the road followed by the great empires of the past, we are headed for eventual disaster. Not immediately; we can withstand a great deal. We can lose lots of men; we can spend a lot of money in Asia, or anywhere else we like, and we can obtain glory, in the process, of a temporary nature.

What I have been trying to say on various occasions recently is that this country has the greatest opportunity that any country ever had. It is powerful, it is rich, and it has great ingenuity, if it applies it in the right place. I think it is applying it in the wrong place.

I believe that the good example we could set of a fine society here at home would be infinitely more persuasive to the rest of the world, including the Communists, that we have something of value for the world, and would do more to undermine what I consider to be a false concept of how to organize society—that is, the Communist system as promoted in China and a few other countries. I think such an example would be much more powerful than constantly increasing our armament and constantly increasing the tempo of destruction.

I realize that this is the old, traditional pattern; and it may be expecting entirely too much to expect the United States, which is made up of people who came from these ancient traditional empires, to assume a different role, or to follow a different path. Perhaps that is idealistic and unrealistic.

It may be; but I should like to urge that we attempt it. I believe that the existence of nuclear weapons is a very persuasive reason why we should try to follow a different course. That is all I am saying. If we follow the priorities exemplified by the pending bill, and some of the others that have been before us, we might take a different course. Others might rely upon our example as an intelligent, civilized, discriminating community, and try to follow our example. They might say, "Here is a country that knows how to manage its affairs in such a way as we would like to manage ours."

As to what I said about Western Europe regarding us as a sick nation, I did not initiate the idea that we are the sick man of the world. That statement was made in the U.S. News & World Report. And the U.S. News & World Report, after all, is a rather conservative organ.

Mr. TOWER. I object.

Mr. FULBRIGHT. David Lawrence is not noted for being a wild-eyed liberal. He is the one who says that we are regarded now by the most civilized part of the world outside of the United States—that is, Western Europe—as being the sick man.

This is very disturbing. Would it not be a much more powerful step toward achieving our objective of a peaceful world if they regarded this Nation as the outstanding example of an intelligently organized and run society? That is what I am talking about. Rather than their having the other view, and we confirming it by voting here the biggest peacetime military budget in the history of

the world—much the largest in peacetime; the only one approaching it was one we voted during the midst of the war.

But according to the morning paper—and I read it just a few minutes ago—we are doing everything we can to confirm that view, as I see it. Certainly for the last several days we have. We voted down efforts to moderate the devotion of our efforts and our money to militarism, and voted to increase the amounts for a number of military programs.

So I think we are confirming that attitude. I am not at all ready to give up, and say this is final. I am only trying to persuade the Senate and the country to follow a somewhat different course. I think we still can, and I hope we will. That is all I am trying to say. We have not given up.

But I wish to say this: Every time a suggestion is made about a change in the present policies, there always creeps into the response an implication that we are not patriotic and not interested in this country. My view is just the opposite. If we are really interested in this country, would we not like to make it a little better than it is? Using patriotism in its purest sense, does a true patriot just accept everything as is, and deny that anything can be improved? Is it not more patriotic, if I may use that term—and I do not like to use these terms—and indicative of more genuine interest in the welfare of this country, to try to search always for some way to improve it?

One way to do that is the manner in which the Senate is discussing this bill. We have discussed what is wrong with our cities, and what is wrong with the country. I know there is much that is right with the country. Goodness gracious, we could spend all day talking about that.

But it does no good just to be complacent, and say that everything is placid and tranquil. It is not.

We do have troubles, and we should try to get at them. And I suggest to the Senator from Texas that those who suggest there are ways to do things better are not disloyal to the United States. We are not trying to promote communism. What we are trying to do is to make our system more attractive, not only to us, but to everybody abroad, by making it work better and by having better conditions of life here, which I think would appeal far more than going to the moon, or having the biggest bomb, or being able to kill more people than anybody else.

I do not think those things appeal either to our own people or to people abroad. It gives a certain satisfaction; power always does, to those who wield it. But I do not think it is particularly appealing to foreigners, or even to our own people. I do not believe the people of my State are especially impressed by the capacity to go to the moon, or to kill 5,000 Vietcong in 24 hours. I think they are impressed by these other things that we can do and such as we are trying to do in this bill. That is the point I am trying to make. I am not trying to denigrate or to run down the United States by calling attention to these matters.

We are only trying to discuss the situation for the purpose of improving it.

Mr. LAUSCHE. Mr. President, will the Senator yield?

The ACTING PRESIDENT pro tempore. Does the Senator from Texas yield to the Senator from Ohio?

Mr. TOWER. I yield 5 minutes to the Senator from Ohio.

Mr. LAUSCHE. Mr. President, I cannot stand silently by while these statements are being made on the floor.

The U.S. News & World Report reports someone in Europe as saying that the United States is sick. The premise for that accusation is that we have not put our fiscal house into order. That is the basis of the charge.

We do know that 15 years ago, we had \$25 billion in gold and we owed the nations of the world in American dollars about \$6 billion. Since that time our gold reserves have dropped to \$13 billion and our indebtedness in American dollars to foreign creditors has risen to \$30 billion. We have begged foreign bankers not to call for payments of our debt. We have begged foreign nations to repay to us the dollars which they owe. We have sought other means to bring our fiscal house in order, but have not been able to do it.

The foreign creditors and those who undoubtedly were quoted by the U.S. News & World Report are those who know of our distressed position with regard to fiscal matters. And the question is, who is to blame?

I have been in the Senate now for 10 years, and for 10 years I have been arguing that we must do something to bring our fiscal house into order. The President has begged us, in this session—though not in previous sessions—to quit spending. But what have we done? We have disregarded his request. We have spent more than he has recommended. And I submit to my fellow Senators that when we do that, we are feeding a bane, not a boon, to the physical anatomy of the United States. We are making it a sick nation because of our fear of fulfilling our responsibility as Members of the Congress.

Mr. President, in reply to the statement made concerning the article in the U.S. News & World Report, I cannot look with favor upon the constant denigration of the United States.

Our Nation has been good to the people of the world. We have spent \$110 billion in trying to uplift the lives of other people. Yet, from the floor of the Senate and out of committee hearings, quotations are broadcast to the world concerning statements made by Senators.

What is the substance and the core of those statements?

From the Committee on Foreign Relations, through statements and through question put, various impressions concerning the United States were given to the world.

The first was that the United States is the aggressor in South Vietnam.

If U.S. Senators make those statements what do we expect the Communist and our enemies to do?

The second impression was that the United States is seeking to impose colonial domination upon South Vietnam,

that it wants to exploit the human and natural resources of South Vietnam.

That is a falsehood. It is completely in conflict with the truth. We are not seeking to exploit the human or natural resources of South Vietnam or of any other place in the world.

The third impression created is that the United States, in effect, is making prostitutes out of the women of South Vietnam.

I reject that statement as indefensible and a slur on the honor of the United States.

The fourth impression created is that the United States is committing atrocities by putting to death innocent civilian men and women.

A recent radio program stated that the era of atrocities has sprung into intense fury within the last few days. By whom are these atrocities being committed? The atrocities have been and now are being perpetrated not by the United States but by the Vietcong.

One of our Senators has made the statement that the U.S. Intelligence Agency dressed its agents in the uniform of the Vietcong and then sent them into the villages to kill innocent men and to rape women solely for the purpose of placing the blame on the Communists.

That statement was carried all over the world. The news agencies in Peking and Moscow grabbed that story and spread it.

The fifth impression created is that the United States is demanding unconditional surrender which makes it impossible for Ho Chi Minh to go to the negotiation table.

That is not a fact. We sought every avenue available by which to get the Communist Ho Chi Minh to the negotiating table. We have not been able to do it.

I do agree with some aspects of the statements made here concerning the placing of a man on the moon. I have fought for reductions in the cost of that program.

My clear purpose has been to speak one word on behalf of a country that has been good to the people of the world and has been extraordinarily beneficent to its own people.

Any statements to the contrary are not in accord with the facts.

Mr. MUSKIE. Mr. President, I yield 2 minutes on the bill to the distinguished majority leader.

Mr. MANSFIELD. Mr. President, I do not think anyone in this Chamber has ever attempted to denigrate our country.

I think every Senator is patriotic, regardless of his point of view. I think that he does his best for the Nation in the light as he views it.

I do not agree with the statement made by the U.S. News & World Report in its "whisper" column, as it has been called. It probably should be labeled the gossip column.

The United States is not the sick man of the world. However, we must recognize that our cities are suffering from an illness.

In a meeting held before a Senate committee earlier this week, when the Attorney General was asked whether

there was any agitation connected with the situations existing in Cleveland, Minneapolis, Chicago, Detroit, Los Angeles, Rochester, and the many other large cities in our Nation, he said:

Yes. There were agitators involved, and those agitators were named disease and poverty and hunger and lack of opportunity.

It appears to me that the pending bill, on which both the manager of the bill and the ranking minority member are in accord as far as the ultimate objectives are concerned, is a step in the right direction.

The pending bill does not apply to a State like mine, any more than it does to a State like that of the Senator from Maine or the Senator from Arkansas. However, it is a national problem which we must recognize.

There is a growing disrespect for the rule of law in this country. Respect for the rule of law is the bedrock of any society. Disrespect is symptomatic of society which does not face up to its responsibilities. We cannot blink our eyes at this situation.

The cities themselves evidently cannot cope with this problem alone. It is up to us to try to do something because it is a national problem and ours is a national responsibility. It is unfortunate, but every summer the situation in our major cities seems to get worse.

Insofar as civil rights legislation is concerned, Congress, year after year, beginning under the leadership of the President of the United States when he was majority leader in the Senate, has passed many civil rights bills. However, they are no panacea: The problem we try to meet in this bill is of much greater scope and its causes and remedies far more complicated than the problems faced in those measures.

I think it is proposals like this, which try to reach down into the heart of large metropolitan areas, which present some hope in reaching the core of their problems—some hope, so to speak, of finding a remedy for the illness, the poverty, the lack of education, and the disease; it is an attempt to cure rather than disperse these problems.

I hope that no one in this Chamber will ever be accused of denigration of this country because, to my knowledge, no one has done so.

I certainly would not place any substance in a statement carried in the "whisper" column of the U.S. News & World Report which, incidentally, was reporting something it had heard in Europe.

When a Member of the Senate refers to an allegation of this kind on the floor and identifies it and its source, he certainly should not be charged with having made that statement or the validity of the opinion stated therein. He has made a referral and identified its source.

The business now before the Senate is to decide what we are going to do to help the people in the large cities where unrest has become perennial and where some action must be taken or the situation will get worse.

Mr. FULBRIGHT. Mr. President, will the Senator yield so that I can place in the RECORD the exact words that have been discussed?

Mr. TOWER. Mr. President, I yield to the Senator from Arkansas.

Mr. FULBRIGHT. Mr. President, in order to clarify the item that has been discussed and distorted by some of my colleagues, I want to read precisely what was said on page 21 of the U.S. News & World Report of August 22, 1966. It reads:

In Europe, western leaders are beginning to call the United States "The sick man of the world," plagued with war, strikes, street riots—including arsons and looting crime running wild, and with a dollar facing an uncertain future.

I only wish to point out that we know we have had this unfortunate strike. It has inconvenienced all of us. We have had the riots, accompanied by arson and looting. We have seen the pictures. Nevertheless, I am not alleging, and never have, that these are incurable or that the whole country has it. We have not had this in Arkansas and many other places. It is only a symptom of a problem that we ought to deal with. I do not like to have the United States referred to by anybody as a "sick man." That is why we ought to do something about it.

Mr. TOWER. Mr. President, I yield myself 5 minutes.

Mr. President, I wish to make it clear that it was not the intent of my remarks to imply that any Member of this body is unpatriotic.

I realize that we have our foibles and weaknesses in this country; and I know, too, that one of the things that makes the United States great is that by virtue of the fact that we have free speech, free press, and freedom of assembly, we can speak out about the things that are wrong with this country. I hope that we will never lose the facility for self-analysis and self-criticism, because I believe that this is one of the things that has made our country great.

I become a little riled sometimes when it is implied that the United States has precipitated war. We have been in four wars in this century, none of which we started ourselves, two of which we certainly were not ready for, and the one in which we are involved now is a nasty, filthy little thing that I wish we were not involved in. The fact of the matter is that we are. Why are we? Because a great and tyrannical power has sought to impose its will on a people who are not capable of defending themselves.

We seek no territorial or population aggrandizement for the United States. We do not want any more territory, and we do not want any more people for whom to be responsible. As I see it, our national goal is to attempt to create a climate in this world, or help create a climate in this world, in which all people can aspire to self-determination and have some reasonable hope of realizing that aspiration.

I wish that we did not have to spend so much money on defense, but we must. It is a matter of necessity. Not only must we fight a war, but also we must deter bigger wars, and that is why we spend what we spend on defense.

With respect to the problems of the United States, the national defense is a

function that can be performed only by the Government of the United States. The raising of arms is a peculiar concomitant of nationality. Therefore, only the Government of the United States is competent to authorize and appropriate money for the national defense. But as far as our social problems are concerned, as far as our economic problems are concerned, as far as the problems of cities are concerned, many other entities work on these problems—the city government itself, the private organizations, the nonprofit organizations that operate within cities, State governments, and the Federal Government. It is applied to the cities; it is not solely the responsibility of 535 men sitting here on Capitol Hill, in Washington. And when we say that it is, we are being arrogant and we are being presumptuous.

I still believe that the people of the United States, acting in their capacity as citizens of the community and of the State, are capable of disciplining themselves to do for themselves what they should and must do. What we propose to do is very little compared to what they have already done.

I think that sometimes in our presumptuousness we arrogate power unto ourselves that ultimately results in weakening—or perhaps, in some instances, destroying—the sense of individual and local initiative and responsibility of the people of the United States.

I submit that this program is not necessary. We are doing things for the cities. We have an urban renewal program in operation. How much money in that program has not been used? Billions of dollars have been authorized which have not been used. So that we are not even making full utilization of all the money that has been authorized and made available for urban renewal. I shall place those figures in the RECORD.

Mr. President, this proposition with which we are dealing, with inadequate guidelines, somewhat vague in character, leaving so much to the arbitrary will and discretion of one or a few men, will not be the panacea for all the ills of the cities.

Urban renewal has spent \$1.5 billion in Federal funds since 1949, out of a total of \$7.6 authorized. Full utilization has not been made of that money.

The PRESIDING OFFICER (Mr. MONDALE in the chair). The time of the Senator has expired.

Mr. TOWER. Mr. President, I yield myself 3 additional minutes.

Mr. President, we have heard from a number of distinguished Senators from rural States. I come from an urban State. In my State are at least 15 cities with a larger population than the largest city in the State of the distinguished Senator from Maine. Houston has a million and a quarter people, Dallas has a million, San Antonio has 800,000. There are many big cities in my States. I was born in the sixth largest city of the United States, Houston, and I am not insisting on the needs of the cities; but I submit that if the vast majority of the people in the urban State of Texas do not

want this program, I cannot understand why these rural gentlemen are advocating it.

Mr. PASTORE. Mr. President, will the Senator yield?

Mr. MUSKIE. I yield 5 minutes to the Senator from Rhode Island.

Mr. PASTORE. Mr. President, I have listened attentively to our distinguished colleague, the Senator from Texas. I believe in his sincerity, I believe he is consistent as he is constant in his persistency in counseling us to be cautious and very careful in expending money on a Federal level to perform tasks that possibly could be performed on a local level. But I hope that he would look at the other side of the coin as well.

I come from a very urbanized State. As a matter of fact, my beloved densely populated State of Rhode Island has been characterized as a city State. More than half of the people of Rhode Island live in metropolitan Providence.

I have been Governor of my State for 6 years, and I have been honored to be in the U.S. Senate for 16 years. Ours is a State founded on religious and racial tolerance and I never dreamed that in my own State we would have demonstrations in any of our cities, but they have taken place.

I believe that the world is going through a transition period. It may be called an evolution or it may be called revolution, but people are beginning to understand more and more about what the dignity of man means. They are reaching out for those basic values that are known as freedom and liberty and the right to think as one feels he should think, and the right to say what a man thinks.

As depressed and oppressed people understand more, they demand more—and those demands are not limited to any one locality—and are beyond the means of any one locality to meet.

It is a wise local authority that recognizes this and it is a conscientious local authority that seeks the help to avoid calamity.

Mr. President, my experience has been that many mayors are asking for this kind of a program. It is not because they desire to extend their hand and dip their fingers into the Treasury of the United States. But the problem is so gigantic and the task is so herculean that it is almost impossible, on a parochial level, to do the things that need to be done to remove these scourges, the genesis of which goes back 100 years. Sometimes we become a little impatient because we think we should be able to do it in a fortnight. We cannot do it in a fortnight, but we must begin to do something about it. And here is our opportunity, and here is our necessity.

The television is our teacher when one sees Americans rising against Americans. Yet, Mr. President, I wish to say at this point that I have not been discouraged in this country. Good heavens, no. I can understand the burning desire of the humble heart to share in the glory that America can and does mean. There is no man who can understand the glory of America better than the Senator who is now speaking. No one can understand that better than I. No one should

understand more and appreciate more about what America means than the senior Senator from Rhode Island. I am a product of the glory, the benevolence, and the opportunity of America. For otherwise I would never have been Governor of my State, or would I be in the Senate today.

Sometimes those glories seem a little tarnished. It is true that sometimes a handful of rowdies take over in the cities and make the situation look bad. Those are sore spots—and they stand out because they are sore spots. But they are not symbolic of the vast youth of America.

I have visited college after college. I have talked to college groups by the hundreds across this Nation. I dare to say that the youth of today is as clean, good, and law abiding, perhaps even better today than in my day of youth.

Violence rather than virtue makes the headlines. So there are news items published on the front pages of the newspapers and people, perhaps somewhere in London or Rome, without looking at their own troubles, say that America is falling apart.

Of course, America is not falling apart. I do not care where anyone lives in the world; he would like to come to America. I do not care whether they live in Italy, France, or Germany, people look toward America with awe. There is no place in the world like America. One need only travel to discover that fact—and our good fortune. It is a good fortune that we know—only too well—all Americans do not share in equal measure.

On this question I know that it is not easy to find a cure for our ills.

The PRESIDING OFFICER. The time of the Senator has expired.

Mr. PASTORE. Mr. President, I ask unanimous consent that I may proceed for 4 additional minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. PASTORE. What do we hold out to these depressed people? What do we hold out to these denied people? What is the answer for the slums? We build a big freeway to accommodate air-conditioned Cadillacs so that they will not be interrupted in their travel. We build tremendous highways. Where do we build them? We build them right through a slum area.

Do we say to ourselves, "Where do these poor people go?" Where do they go? Is there a worse ghetto than the ghetto they are leaving? If there is, that is a despicable and deplorable situation. We have to act. We have to do something about it. We have to find housing for the dispossessed.

There is not a city in my State which can meet that responsibility on its own. We have succeeded in taxing nearly everything on a national level. About all that can be done in the State of Rhode Island is to raise the tax on real estate. It gets so that a family man with two or three children cannot afford to own his own home.

After awhile the burden becomes so great that even here in Washington we raise the income tax from time to time. We do this and we do that. Everyone gets the idea, "Let's go to Washington."

I do not encourage that. I do not endorse that. I do not condone anyone who looks at it that way.

I understand that Governors had a group conference not too long ago, as did a group of mayors. They thought that the billions and billions of dollars that we collect on a national level should be sent back without limitation for them to spend as they see fit. I do not like that idea. Anybody who seeks the privilege to spend money should have the obligation to raise it. That is my philosophy. If money is going to be spent, then the responsibility for raising it must be assumed by the spender. That is our responsibility here. We raised the money here, and now we have the privilege of spending it.

The question is: Are we throwing the money away? Are we wasting it away? Or are we beginning to do what needs to be done, as a first step? I say, "as a first step," because if you do not take that first step, you cannot take the second step and the succeeding steps to do something about removing the deplorable conditions that exist in some of our urban areas.

Possibly some States do not have the problem which others have in their congested areas. But there has been an exodus of Negroes from the South to the North. There has been an exodus of Puerto Ricans from Puerto Rico. There has been a trend for them to go to the urban areas of the North. In many instances four or five members of one family live in one room. Their history is not a pleasant one. Many of these places are rat infested. Many young babies in their cribs are being bitten by rats. When that happens one can imagine how resentful that mother and father become. Protest is proper. Then, there comes the question of whether there are going to be violent or nonviolent demonstrations.

I respect the sincerity of the Senator from Texas [Mr. TOWER], but I think that he goes too far when he says that this program is unnecessary. The minute that that is said one would be closing his eyes to the many scourges that are afflicting American society. Unless we begin to do something about this situation, in time we will pay a severe price. Necessity is not to be met by neglect.

Today industry is organized. Today labor is organized on a lofty level. Today even the oppressed are organized on a major level. One does not quarrel, contest, or fight against that individual as an individual any more. That would be fighting against the cause that he represents, and you are not going to sweep that mighty issue under the carpet. That is not going to happen.

Yes, there are two sides to this point. There is sincerity on both sides of the argument, I understand that. But I am not carried off by the idea that all we have to do is to sit back and say, "Let's let the town people do it; let the city people do it; let the State people do it, and the job will be done."

The PRESIDING OFFICER. The time of the Senator has expired.

Mr. PASTORE. I ask unanimous consent that I may proceed for 2 additional minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. PASTORE. The job will not be done in that fashion. I realize that this is not even a ripple in the ocean. I realize that this is hardly a drop in the bucket. But it is a start.

There was a report by a commission headed by John McCone, the distinguished industrialist and one of the greatest public servants that we have known—at least, that I have known in my term in the Senate. He was formerly the Chairman of the Atomic Energy Commission. His report said we need \$5 billion to take care of Watts. Would you levy that on a local level?

Where would \$5 billion be raised in Watts? I am not saying that we should start appropriating \$5 billion, but somewhere along the way someone has to help. This is a national responsibility. If this situation is permitted to grow and grow, whether it is in Chicago, whether it is in Providence, whether it is in Austin, Tex., whether it is in Houston, or Billings, Mont., or Augusta, Maine, I do not care; let it grow, and grow, and grow, and it will be a cancerous growth that could well destroy the American system. Let us operate while there is time.

The time to do something is now, today. Do it with moderation, and not, as we have done in some other programs, where we proceeded on a crash basis and found ourselves in trouble.

I am not defending waste or maladministration. I am defending a philosophy. This problem has assumed national proportions. It has become a national concern, and it needs some kind of national remedy. And this Senate must do its part.

I thank the Senator for yielding to me.

Mr. TOWER. Mr. President, I yield 2 minutes unto myself.

I think that sometimes we delude ourselves into thinking that wherever a problem presents itself, if we just throw some Federal money at it it will go away. I might point out that Federal programs themselves have caused some displacement and some discomfort for slum dwellers because Federal bulldozers for urban projects have more often than not displaced people with no other place to go and left them with inadequate housing.

The PRESIDING OFFICER. The time of the Senator has expired.

Mr. TOWER. Mr. President, I yield 3 additional minutes unto myself.

The PRESIDING OFFICER. The Senator from Texas [Mr. TOWER] is recognized for 3 minutes.

Mr. TOWER. Mr. President, this demonstration cities bill and the testimony supporting it in the House and in the Senate leave the Congress almost completely in the dark as to the scope of the program.

At no time has the Congress been told in the hearings to how many cities the supporters of the program intend to give these broad benefits;

Or what cities they believe will be able to qualify for the benefits as demonstration cities;

Or what the estimated cost of the total program might be.

The minority members of the committee said in their report that this is no

time to expand extensive spending programs, yet there is an authorization of nearly \$1 billion in this measure for a program about which the Members of Congress have been given minute evidence of need.

I recognize the plight of our big cities—and of some of our smaller cities as well—but with the country's money demands what they are and with cost-of-living dangers what they are, it would be wiser to consider this inflationary period to be the time for planning instead of spending—planning for the days when spending is more in keeping with the supply and cost of money.

I will offer an amendment which will keep all of the provisions of the demonstration cities bill intact for planning purposes for fiscal years 1967 and 1968.

We can hope and pray that before those 2 planning years have ended Vietnam will be only a blot on history's picture, that the dangers of inflation will have passed, and that we will be in far better fiscal position to take up billion-dollar expenditures for new programs.

My amendment would leave in the bill the requested \$12 million authorization for each of the fiscal years 1967 and 1968, but would provide that no funds be appropriated for the actual operation of the program. Thus, we would have a planning program—and we could use some planning.

My amendment adds a requirement that the Secretary of Housing and Urban Development shall report to Congress not later than June 1 of each year, 1967 and 1968, the number of programs which have been submitted to him for approval; the number of such programs which the Secretary feels meet the criteria contained in the bill; the city demonstration agencies which have submitted satisfactory applications and an estimate of the cost of the satisfactory applications.

These reports will serve as a guide to the Congress as to who might get the benefits of this program and how much they might get. It will demonstrate, also, whether only the major cities can prepare qualifying plans in time to share in the benefits of such a program.

This amendment would set up a "plan now, pay later" program.

In the meantime, the cities can work with those urban renewal billions which have not yet been used up.

Mr. President, in short, my amendment would not gut the bill. It would simply eliminate the authorization for fiscal years 1968 and 1969. Let us give the money for plans. Let us get the plans and let us look at the plans. Let Congress have an opportunity to see the results of the planning and what the judgment of the Secretary will be, as to how he will apply the standards and the criteria. Otherwise, we will be leaving a great deal of arbitrary power in the hands of one man. Thus, I think we had better go ahead and authorize the planning, but not bind ourselves hand and foot by authorizing \$900 million at this time.

Mr. MUSKIE. Mr. President, the Senator from Ohio has asked me to yield

to him for the purpose of answering some questions, which I am delighted to do at this point; and I therefore yield myself 5 minutes for that purpose.

The PRESIDING OFFICER. The Senator from Maine is recognized for 5 minutes.

Mr. LAUSCHE. I thank the Senator. What was the amount that the administration recommended be expended for the program outlining the problem?

Mr. MUSKIE. For title I, the demonstration cities program, the President asked for an open ended authorization which he indicated would call for \$2.3 billion over a 5-year period. This is spelled out in Secretary Weaver's testimony.

Mr. LAUSCHE. What is the amount allowed in the bill?

Mr. MUSKIE. We have cut that amount to \$900 million, and have cut the period from 5 years to 3 years. That is, the bill now provides for planning money in this fiscal year of \$12 million, and planning money in the next fiscal year of \$12 million; and then \$400 million for program money for fiscal 1968; third, \$500 million in program money for fiscal 1969.

Mr. LAUSCHE. There will be no money available for the execution of the project in the first year?

Mr. MUSKIE. The Senator is correct.

Mr. LAUSCHE. The only money allocated is the \$12 million for planning? In the second year, there is \$12 million for planning, and then there is \$400 million for execution?

Mr. MUSKIE. The Senator is correct.

Mr. TOWER. If I may interject there, actually there is another \$250 million in the bill—section 113.

Mr. LAUSCHE. I will get to that later.

Mr. MUSKIE. We were addressing ourselves to the demonstration cities part of the program. I think we will get to that point later.

Mr. LAUSCHE. What is the amount in the third year?

Mr. MUSKIE. Five hundred million.

Mr. LAUSCHE. That is new money for planning?

Mr. MUSKIE. There is no planning money in the third year.

Mr. LAUSCHE. By the time of the third year the planning is supposed to have been completed?

Mr. MUSKIE. The Senator is correct.

Mr. LAUSCHE. What has the committee done with respect to the open-ended authorization?

Mr. MUSKIE. We have eliminated the open-ended authorization.

Mr. LAUSCHE. Mention has been made by the Senator from Texas of the \$250 million item. Will the Senator explain that, please?

Mr. MUSKIE. On the House side—although the House has not yet acted on the bill—in the House committee, \$600 million was added for urban renewal because it was feared that otherwise the outstanding urban renewal authorization might be drained for the demonstration cities program to the detriment of other cities in other communities that would not be in the demonstration cities

program. Thus, the \$600 million was added. We have cut that amount to \$250 million, which is in this bill.

Mr. LAUSCHE. I think that answers all my questions, and I thank the Senator for his information.

Mr. TOWER. Mr. President, the way the bill reads is, in part, as follows:

The Secretary may contract to make grants under this title, on or after July 1, 1967, in an amount not to exceed \$250,000,000: *Provided*, That the authority to contract to make grants provided by this sentence shall be exercised only with respect to an urban renewal project which is identified and scheduled to be carried out as one of the projects or activities included within an approved comprehensive city demonstration program * * *.

Mr. MUSKIE. That is right. That means that we would have to resort to the outstanding urban renewal authorization. The Senator has stated exactly what I said. There is no difference.

Mr. JAVITS. Mr. President, will the Senator from Maine yield?

Mr. MUSKIE. I yield 3 minutes to the Senator from New York.

The PRESIDING OFFICER. The Senator from New York is recognized for 3 minutes.

Mr. JAVITS. Mr. President, I rise to oppose the amendment offered by the Senator from Texas because I think it would gut the program. I hope that the Senate will turn it down.

Mr. President, we are now engaged in a series of hearings before the Executive Reorganization Subcommittee of the Government Operations Committee, of which I am a member and of which my colleague from New York [Mr. KENNEDY] is also a member.

We are learning from the Attorney General of the United States that he regards the incendiary potential building up within the cities as being so great that he cannot assure us there will be no riots in as many as 40 cities.

We are suffering from great demographic and social changes in the great cities of this country, from an enormous increase in population—it now amounts to 125 million people out of an aggregate population in the United States of somewhat under 200 million—which represents a literal revolution in population change, the flow of people from the rural areas to the urban areas—including a great outpouring from the Southern States, heavily attributable to a century of suppression of the Negro people in the South.

All this has created enormous problems of the greatest moment to public order and tranquility.

One thing is clear—whatever we may do, whatever it is our intention to do, the time to do it is now and not tomorrow. With the best faith in the world, if it is given us to have only planning funds for great projects in the cities of a comprehensive nature such as are contemplated in the pending bill, it will be necessary to defer realization for at least the 2 years which could be indispensable in preventing what may happen in many of our great cities.

It is unfortunate that we have this concentration of problems in the cities

at the same time we are fighting a war in Vietnam. But, let us remember, we have the great productive power of the United States with us. We must therefore try to utilize a fair allocation of our resources so that we do not, by design, delay the consummation of what is urgently required in order to bring a condition of tranquillity back to the country and return security to the people of the cities—125 million strong.

It is clear from the testimony to which we have been listening every morning—including this morning—that one of the most urgent problems on which this program can zero in is the comprehensive approach to do something with important sections of the city, especially its central core.

We have had express testimony from the Attorney General, from the Secretary of Health, Education, and Welfare, from the Secretary of Housing and Urban Development, from the Government officials who testified. They pick out this demonstration cities program as the key to whether or not we can get moving toward a solution of the problems. If we let this slide, we are inviting what we will get—to wit, disorder in the cities, disorders and riots. If we do not pass it, we leave them no alternative but to loot and burn as a product of their despair. Of course, we will suppress that disorder. Neither I nor anyone else will condone anarchy, but it is a terrible cost to pay for failure to generate what is proposed here on the part of the Congress.

I shall marshal my arguments in favor of the bill for a later time.

The PRESIDING OFFICER. The time of the Senator has expired.

Mr. JAVITS. Mr. President, I ask for 1 additional minute.

Mr. MUSKIE. I yield 1 additional minute to the Senator from New York.

Mr. JAVITS. If we gut this bill, we will be intentionally and designedly doing something that we should not do with respect to the situation which faces us in 40 cities of America, as the Attorney General testified. We will be facing riots and fires unless we give the people something to which they can look for relief. I hope that the Senate will pass the bill in an attempt to do something about the problem.

Mr. MUSKIE. Mr. President, I yield 5 minutes to the Senator from New York [Mr. KENNEDY], in order to engage in a colloquy with him.

The PRESIDING OFFICER. The time on the amendment has expired.

Mr. MUSKIE. I yield time on the bill.

The PRESIDING OFFICER. The Senator from New York.

Mr. KENNEDY of New York. Mr. President, I want to join with my senior colleague from New York [Mr. JAVITS] in opposing the amendment offered by the Senator from Texas. If adopted, I think it would destroy the bill. In view of the disorders that have taken place in our cities over the last few years, it is quite clear that there are major problems for the country to deal with. The question is whether we are going to develop any proposal to deal with our urban problems in an orderly way.

When we realize that 80 percent of our people will live in the cities within the next few decades, when we ask ourselves whether those cities will be allowed to grow and develop as places where people will want to live in peace, and whether industries will remain in the cities, the answer is really going to depend on the judgment of Congress and the executive branch as to how Federal law will be structured and how it will be used in conjunction with the local communities and cities.

My disagreement with the demonstration cities program is not that it goes too far, but that it does not go far enough. It is but a beginning in an effort to meet some of the problems of urban areas across the United States.

Although I join with my colleague from New York about the need to prevent violence, I think we also have a responsibility to the people who live in urban areas, who live in poverty, who lack opportunity to obtain proper training and education, and therefore to obtain jobs.

When we consider that 43 percent of the Negro families who live in urban ghettos are now living in dilapidated and substandard housing, when we consider that one-quarter of the children in the ghettos are "aid to dependent" children, we realize the importance of this opportunity, this legislation, which will, for the first time, bring all of the Federal programs together in a coordinated way. It is an opportunity for the first time to put together the Federal program which the cities and the States might use. I think it is the first opportunity to really bring private enterprise into the effort to bring about a solution.

Does the Senator from Maine agree?

Mr. MUSKIE. The Senator is correct. It is difficult to project the extent to which the cities and States and the private sector will proceed with the program which will be stimulated and generated by the supplemental money provided by the Federal Government, but it is estimated that the total expenditure will be on the order of \$5.5 billion, considering local governments, State governments, the private sector, as well as the Federal Government, under the existing and supplemental programs. It is this effort that we need to unleash.

Mr. KENNEDY of New York. Through the hearings conducted by the Senator from Connecticut [Mr. RIBICOFF] and also the hearings conducted by the Senator from Maine for some years, the necessity has been shown for a coordinated approach to these problems, and it has been shown that it is a coordinated approach that has been lacking. This bill will be a means of coordinating the various programs and there will be an opportunity for these programs, of which there are hundreds, to bear on the problems in a coordinated way.

We had an example of this in New York City, when \$10 million worth of poverty money had to be turned back because they were not dealing with it properly.

This program will enable all the programs to bear on the problem for the first time in a coordinated way. For the

first time it will bring private enterprise into the ghetto areas. There are no General Electrics in Harlem or Bedford-Stuyvesant. Private enterprise, which has been responsible for so much of the success of this country, will for the first time be able to play a part in this effort.

We have all talked about coordination at the Federal, State, and local community level. All of us have been critical when it has not existed. We have all said that our private enterprise should be utilized.

For the first time we have come up with a program—a limited but necessary program—which will give us a coordinated attack against the problems and bring in private enterprise in a substantial way.

Mr. MUSKIE. The Senator from New York is eminently correct, and I deeply appreciate his cooperation.

Mr. President, I yield 3 minutes to the Senator from Pennsylvania [Mr. CLARK].

Mr. CLARK. Mr. President, I should like to join my colleague from New York [Mr. KENNEDY] in expressing my support for the bill. In many ways, the problems of our cities in New York and Pennsylvania are identical.

I strongly commend the Senator from Maine [Mr. MUSKIE] for his magnificent job in shepherding this bill to the Senate floor. I hope he will be successful in getting it passed by the Senate.

It is even more commendable because of the fact that the Senator from Maine does not come from an urban area. Yet he has mastered these facts better than many of us to bring out the problems of the metropolitan areas and the smaller cities, too.

I join with the Senator from New York [Mr. KENNEDY] in stating that this program is inadequate. It ought to be 10 times as large as it is. I say that in all seriousness. It should be in the neighborhood of \$9 billion instead of \$900 million. But it is still a foot in the door. Perhaps with this start, we can get moving—if we can ever get the war in Vietnam cleaned up—and proceed to do what should be done.

I am particularly interested in the table which the Senator from Maine placed in the RECORD of yesterday, on page 19012, which shows the Federal programs brought together for coordination under this program.

Is that correct?

Mr. MUSKIE. That list includes 49 of the programs most likely to be under the demonstration cities program. It is not all of them, but these 49 appear the most likely to be brought under it.

Mr. CLARK. This is a magnificent job.

As I have said, I do not think the bill provides enough money, but with the initial expenditures for planning and coordination, perhaps we can get rolling.

It is clear to me that many of these programs overlap. As chairman of the Subcommittee on Employment and Manpower of the Committee on Labor and Public Welfare, I am aware that there are projects which can be coordinated under the bill for the benefit of the people in the urban areas. There are a host of problems under the education pro-

grams which are involved. I have the honor to serve on that subcommittee, as well.

I think the Senator from Maine has done a magnificent job in getting this "show on the road." I hope that the amendment of the Senator from Texas, which would destroy that good work, will be defeated.

The PRESIDING OFFICER. The time of the Senator has expired.

Mr. MUSKIE. Does the Senator want more time?

Mr. CLARK. No.

Mr. DOUGLAS. Mr. President, will the Senator from Maine yield?

Mr. MUSKIE. May I say to the Senator from Illinois, the Senator from South Carolina asked for some time earlier. I should like to have him go ahead; then I shall yield to the Senator from Illinois.

Mr. DOUGLAS. I thank the Senator from Maine.

The PRESIDING OFFICER (Mr. HARRIS in the chair). Who yields time?

Mr. TOWER. Mr. President, I yield 4 minutes to the Senator from South Carolina.

The PRESIDING OFFICER. The Senator from South Carolina is recognized for 4 minutes.

Mr. THURMOND. Mr. President, I enthusiastically support the amendment offered by the distinguished Senator from Texas [Mr. Tower] to the pending bill.

In the present context of fiscal and monetary affairs of our country, I am not at all convinced that S. 3708, the Demonstrations Cities and Metropolitan Development Act of 1966 should even be considered on its merits. A major portion of the Senate session yesterday was devoted to a very thorough discussion of inflation and high interest rates. Many Senators joined in and expressed their concern in this area and their support in taking positive steps to correct the decidedly inflationary tendencies in our economy and the trend toward higher and higher rates of interest.

The distinguished Senator from Wisconsin [Mr. PROXMIRE] discussed this matter in great detail, and he made one particularly significant point which I would like to emphasize by quoting his statement verbatim from the CONGRESSIONAL RECORD as it appears on page 18966 of the daily CONGRESSIONAL RECORD which is now on each Senator's desk. Beginning at the bottom of the second column on that page, Mr. PROXMIRE says:

But the inflation in both interest rates and prices is coming from the boom in construction, and to this the Government is directly contributing, and in a big way.

Consider these shocking facts, Mr. President, and recognize that this is taking place in a period of inflationary boom in construction that has contributed to a home-building recession.

Here is the Government's spending for civil public works, excluding national defense. I repeat, excluding national defense.

For 1958, the total civilian Federal spending in this area was \$3.1 billion. By 1963, it hit \$5.8 billion. And for the present fiscal year of 1967 this year of construction inflation—it is \$7.6 billion of Federal civil construction.

This spending has far more than doubled in 9 short years. It is civilian, not national defense spending; it is directly inflationary; it requires Government borrowing that drives up interest rates; and in past wars it has been either partly or wholly deferred.

Mr. President, this point is very well taken, and it certainly has a significant bearing upon the Senate's action with regard to the pending Tower amendment.

The Tower amendment makes this bill a planning bill and would allow the Congress the opportunity to review the plans before deciding whether they merit the tremendous outlay of funds which is contemplated in the bill. Unquestionably, this is a wiser course of action to follow.

Mr. President, it has been said here that we will have more demonstrations, more riots, and more trouble unless we pass this demonstration cities bill. In other words, the demonstrators are laying down an ultimatum as to what they are going to do unless we pass this bill, as I understand.

I wish to say here and now that if we pass this demonstration cities bill it will not stop the demonstrations and the riots. It will not stop all, or even a significant portion of the demonstrations, such as have occurred in Chicago, in Cleveland, in Harlem, in Buffalo, in Detroit, and in the other places throughout the country, because there is evidence that some of those demonstrations are either Communist inspired, Communist directed, or Communist controlled. Even the mayor of Chicago, Mayor Daley, found evidence of Communist involvement or intigation as a result of a thorough study of the riots in Chicago. Until the President of the United States takes steps to expose the individuals involved in demonstration after demonstration, and shows up those people for what they are, we are not going to stop the riots. Certainly passing this demonstration cities bill will not stop the demonstrations.

Mr. President, I urge the Senate to adopt the Tower amendment in the interest of fiscal responsibility and the stability of the dollar.

Mr. MUSKIE. Mr. President, I yield 2 minutes to the Senator from Illinois.

The PRESIDING OFFICER. The Senator from Illinois is recognized.

Mr. DOUGLAS. Mr. President, first I wish to congratulate the Senator from Maine on his magnificent handling of this bill. I had the pleasure and the honor of introducing the original bill. I think the Senator from Maine has improved it very markedly, and it is probable that we would not have had the bill before the Senate had it not been for the convincing efforts of the Senator from Maine, both in the subcommittee and in the Committee on Banking and Currency.

I think it should be noted that the only amounts authorized by this bill for the current fiscal year are \$12 million for planning, and that the authorized appropriation of \$400 million for fiscal year 1968, which begins on July 1, 1967, would probably not be spent until 1968. So there is in this bill no immediate addition

to the danger of inflation; and during this period, we can certainly expect the processes of natural growth of the economy—which last year were well over 5 percent—to continue.

So the bill is not inflationary. It deals with a problem which we should have faced long ago, and which, if we do not deal with it now, will be infinitely more difficult in the future.

In conclusion, let me say that we should realize this program is not a substitute for urban renewal. It is intended as a supplement to urban renewal, and to help the very programs to be carried through by the cities which have been losing their taxpaying capacity by the exodus of wealthier citizens and of light industries to the countryside; and which, at the same time, have been taxed by an influx of poorer citizens into the cities themselves.

I hope very much that the Tower amendment, which would "gut" this bill completely, will be defeated by an overwhelming vote.

Mr. TOWER. Mr. President, I yield myself 1 minute.

My amendment would not "gut" the bill. A quarter of a billion dollars is earmarked in the bill for urban renewal projects for fiscal 1968. My amendment would simply serve to give us adequate time to examine the proposed programs, and then to vote for the appropriations the following year.

Mr. President, I yield as much time as he may desire to the distinguished minority leader.

The PRESIDING OFFICER. The Senator from Illinois is recognized.

Mr. DIRKSEN. Mr. President, it would be folly for the Senate not to adopt the Tower amendment, and it would be a greater folly if the Senate should pass the bill in its present form.

It has all the prospects and all the potential of becoming one of the greatest boondoggles that this country has ever witnessed. It will be shot through with waste and corruption and goodness knows what all before we get through.

All we have to do is to look at the language of the criteria, such as they are, because under the section termed "Eligibility for Assistance," among other things, there is a question whether the "physical and social problems in the area of the city covered by the program are such that a comprehensive city demonstration program is necessary to carry out the policy of the Congress."

Who is going to make that determination? It is going to be an individual whom we refer to as the Secretary. The second item under that same section reads:

The program is of sufficient magnitude—

And among other things, it states:

The program is of sufficient magnitude to make marked progress in reducing social and educational disadvantages.

You tell me what that means, and you tell me how that will be interpreted.

As to the magnitude, it will have ample magnitude, believe me, because in the Great Society they think of nothing else except the magnitude of these programs.

It is further provided under this section that the program has to contribute to a well-balanced city.

I ask, Mr. President, what is a well-balanced city—balanced with respect to what? Oh, it speaks about housing and maximum opportunities in the choice of housing accommodations, adequate public facilities, health and social services, transportation and recreation.

The sky is the limit. The world is the oyster under this bill.

Then, of course, it has to be scheduled to be initiated within a reasonable period of time. Well, that is all right. I am glad to see that provision, but where are the plans, where are the blueprints, and where are the specifications? Where is the data with which to go forward and initiate an early program?

The last idea is "duddy" indeed, because the program must meet such additional requirements as the Secretary may establish to carry out the purposes of this title.

One man shall say what the additional requirements shall be. That is the language of the bill.

They have one of the secretaries on the pan now. They say his ideas are outmoded, that he is behind the times, and that what his department has done just does not fit the modern situation, as I read the press accounts. I could not go to the hearing.

I concluded that all they wanted was \$10 billion a year, and maybe for a 10-year period.

The distinguished Senator from Rhode Island was on the floor a moment ago. In his most impassioned tone, he said: "Let it grow, grow, grow."

He will not be disappointed. It will grow, even as everything in Government grows, and it will be something to contemplate this business a few years from now.

This is a vague kind of a plan. It has not been thought out. It is half baked. They now want a commitment of \$900 million for 2 years. However, that is not the end of it.

The Senator from Pennsylvania said: "Let us put a toe in the door." He was not kidding. This is the toe in the door, and from here on it will be dollars and dollars and dollars. It will not be millions, but it will be billions before we get through.

I have looked around from time to time to get a little expert information in this general field. I discovered the book entitled "The Federal Bulldozer," written by a professor named Martin Anderson. I should have saved the jacket. He is a good-looking fellow. I guess he did this as a research fellow for the Massachusetts Institute of Technology. However, in reading the foreword, he certainly went into the matter thoroughly.

He was not content with the published reports of HUD and HEW. He came down here and talked to the Assistant Commissioners. He discovered that there were unpublished reports.

I wonder if those reports ever came to the attention of the Senate committee, the House committee, the Senate, or the House of Representatives. I doubt it very much.

Professor Anderson spent a lot of time putting this information together, and he comes to some rather interesting conclusions, which I want to relate for a moment, particularly so because he dealt with urban renewal and development.

My colleague, the senior Senator from Illinois, just got through saying that this bill before us is a supplement to urban renewal. Well, if urban renewal is a colossal failure—and it is—then, of course, we are just going to supplement a failure, and that will be a double failure before we get through.

Professor Anderson lays the informa-

tion out in great style. He did not overlook a thing. I was delighted, of course, that among other things he included here what he discovered to be the beliefs about urban renewal as distinguished from the facts and estimates.

Mr. President, I ask unanimous consent that the data from the bottom of page 219 to virtually the bottom of page 223 of Dr. Anderson's volume be printed in parallel columns in the RECORD, exactly as it appears in the book.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

BELIEFS

Housing quality in the United States deteriorated badly during the decade from 1950 to 1960, especially in the major cities.

The middle-income group is becoming less important in the life of the city, as the low-income, minority groups and the high-income groups gain in relative importance.

The federal urban renewal program has made a significant contribution toward solving the housing problem, especially for low- and middle-income groups.

Most of the new buildings constructed in urban renewal areas are public housing for low-income families.

The families that are required to move from their homes by the federal urban renewal program move into better housing in better neighborhoods.

Urban renewal helps poor people, especially those from minority groups.

Urban renewal does not affect one racial group more than any other.

The federal urban renewal does not really affect many people.

Urban renewal eliminates slums and prevents the spread of blight.

Urban renewal generates a large increase in the tax revenues of the city.

Urban renewal plays an important role in the economy of the United States; its role in the economy of cities is very important.

If it had not been for the federal urban renewal program, the new buildings erected on urban renewal sites would not have been built within the city.

The private construction put up in urban renewal areas is wholly financed by private lending institutions.

Most of the money used for urban renewal comes from private sources. For every \$1 contributed by the government, private interests invest about \$4.

A typical urban renewal project only takes a few years to complete.

FACTS AND ESTIMATES

The decade from 1950 to 1960 witnessed what was probably the greatest improvement in housing quality ever shown in the United States. This was also true for the cities, especially the major ones.

Middle-income people today constitute 57 per cent of the population of cities with over 100,000 population. Their importance relative to low- and high-income groups has remained essentially unchanged since 1950. Large cities have a relatively greater share of the middle-income population than does the country as a whole.

The federal urban renewal program has made it more difficult for low- and middle-income groups to obtain housing because of the amount of low-rent housing it has destroyed.

Most of the new buildings constructed in urban renewal areas are high-rise apartment buildings for high-income families; only 6 per cent of the construction is public housing.

Many of the families that are required to move go into housing as bad as or worse than their original homes in neighborhoods that are as bad or worse than their original neighborhoods. And they often pay higher rents at the new location.

Urban renewal helps upper-income people and a few elite groups. It hurts low-income people, especially those from minority groups.

Over 60 per cent of the people forced to move are either Negroes, Puerto Ricans, or members of other minority groups.

In 1962, 1,665,000 persons had been or were about to be required to move from their homes. If the program continues to expand, more millions will be displaced in the future.

It is likely that urban renewal simply shifts slums and thus encourages the spread of slums and blight.

So far, urban renewal may have caused a decrease in cities' tax revenues. Indications are that the chances of urban renewal increasing tax revenues are small, and if they do increase, it is likely that the increase will be slight.

Urban renewal plays an insignificant role in the economy of the United States; its role in the economy of cities is slightly greater, but still insignificant.

It is estimated that 50 per cent of the new construction put up on urban renewal sites would have been put up elsewhere in the city, even if the federal urban renewal program had not existed.

Approximately 35 per cent of the private construction in urban renewal areas has been financed by the federal government through one of its agencies, the Federal National Mortgage Association.

A large part of the money used for urban renewal comes from the government. For every \$1 contributed by the government in the form of grants and loans, private interests invest about \$1, not \$4.

Urban renewal takes a very long time. The typical project takes almost twelve years to complete.

BELIEFS

Urban renewal construction is profitable for private developers.

Rehabilitation is superior to redevelopment. People are not required to move from their homes, it does not cost as much, and it is fairly easy to accomplish.

The constitutionality of the federal urban renewal program has been established beyond question.

Urban renewal is definitely in the public interest, that is, its net result is "good" when looked at from the national viewpoint.

The acceptance of the urban renewal program has been widespread, and the politicians are only responding to the desires of the people.

(The preceding beliefs indicate that the net results of the federal urban renewal program have been favorable.)

Mr. DIRKSEN. Having worked very diligently on this matter for a long time, he states in the column under "Beliefs":

Housing quality in the United States deteriorated badly during the decade from 1950 to 1960, especially in the major cities.

In the column under "Facts and Estimates," he states:

The decade from 1950 to 1960 witnessed what was probably the greatest improvement in housing quality ever shown in the United States. This was also true for the cities, especially the major ones.

As the second item under "Beliefs," he states:

The middle-income group is becoming less important in the life of the city, as the low-income, minority groups and the high-income groups gain in relative importance.

In the column under "Facts and Estimates," he states:

Middle-income people today constitute 57 per cent of the population of cities with over 100,000 population. Their importance relative to low- and high-income groups has remained essentially unchanged since 1950. Large cities have a relatively greater share of the middle-income population than does the country as a whole.

Some of the myths in the "beliefs" do not stack up with the "facts."

I will let the Senators read this in the RECORD for themselves.

I now come to Dr. Anderson's conclusion which, of course, is rather interesting. It is quite something.

First he says:

There are strong indications that private enterprise made substantial gains while the federal government did not.

He also says:

Of the estimated \$824 million of construction started by March of 1961, 56 per cent was private residential housing, 6 per cent public housing, 24 per cent public facilities, 10 per cent commercial, and 4 per cent industrial.

FACTS AND ESTIMATES

So far the private developers have not made much money. The potential profit is there, but they have been unable to tap it.

Rehabilitation has most of the same consequences as redevelopment. People are required to move from their homes either because they cannot afford to rehabilitate them, or because they do not want to rehabilitate them. Relatively large amounts of public subsidy are necessary, and the administration of the program is complex and time-consuming. It seems doubtful that any significant progress will be made in this area.

The constitutionality of the federal urban renewal program is still an open issue, and a strong case can be made that it is not constitutional.

It has never been clearly established that urban renewal is in the public interest. In fact, a strong argument can be made that it is not in the public interest.

Few individuals know any of the consequences of urban renewal. Widespread ignorance of the program and apathy toward it have been interpreted as widespread acceptance. Believing this, the politicians have been quick to accept arguments for urban renewal presented by a few elite groups.

(The preceding facts and estimates indicate that the net results of the federal urban renewal program have been unfavorable.)

Then his final conclusion is:

It is recommended that the federal urban renewal program be repealed now. No new projects should be authorized; the program should be phased out by completing, as soon as possible, all current projects. The federal urban renewal program conceived in 1949 had admirable goals. Unfortunately, it has not and cannot achieve them. Only private enterprise can do so.

That from a man who was a research fellow at Massachusetts Institute of Technology, a great scientific institution, who did his work very well and over a long period of time. I would rather take that judgment than a judgment that has been based, perhaps, on inadequate figures, to show where we are going.

I reaffirm and reassert, Mr. President, that this bill has all the possibilities of a huge boondoggle. And it will grow—I repeat, in the language of the Senator from Rhode Island; he will have his wish, if we do it—it will grow, it will grow, and it will grow.

If we do nothing else, we might defer this matter and ascertain what kind of report we will get from the Committee on Government Operations, and especially from the subcommittee under the distinguished leadership of the Senator from Connecticut [Mr. RIBICOFF].

Here, they pass upon the inadequacy of all the programs, and they are building up an image of a program that, as I evaluate the language, probably will run into the billions and billions every year, for a long time to come.

So this bill is what? It is a toe in the door, and the program will be undertaken without any adequate planning whatsoever.

The distinguished Senator from Texas, who has been most diligent in following this bill, has laid it all on the line in capsule form. The authorizations are for 1968 and 1969. Why not see what kind of planning they do? Why not

first get a little information, and then determine whether or not we should authorize and ultimately appropriate that kind of money?

The Tower amendment ought to be adopted, because it would be folly for the Senate not to do so. I wish to say to Senators that if the Tower amendment is not adopted, the minority leader does not propose to vote for this bill. And I say that advisedly, because in my State is one of the large metropolitan centers of this country, at the north end of the State, along Lake Michigan. I refer to the city of Chicago.

I shall not commit this kind of authority and this kind of money, only to see colossal waste and inadequate results.

Dr. Anderson, a really diligent student, who has applied himself, comes up with the answer that urban renewal ought to be repealed. Let us not, as my colleague said, supplement a failure and make it a double failure.

So that as we vote, let us support the Tower amendment—first, \$12 million for planning, and then let them come back here, hat in hand, and respectfully, to show us precisely what they propose to do under the vague criteria of this bill.

Mr. MUSKIE. Mr. President, I yield myself 5 minutes.

Mr. President, let us understand the nature of the issue before us. It is not urban renewal. A vote for or against the Tower amendment will have absolutely no effect on the current authorization for the urban renewal program.

The opportunity of the Senate to pass on urban renewal is behind us, until the next authorization bill comes before us.

This is not an urban renewal program. What is it? Very simply, it undertakes to do two things. First, it undertakes to coordinate existing Federal grant-in-aid programs so that they can be focused more efficiently and more effectively on the diseased areas of our metropolitan areas and our cities. It undertakes the coordination of existing Federal aid programs. And in those programs we will find all the criteria, all the standards, all the experience, all the planning that has been built into those programs over the years.

Yesterday, I included in the RECORD an analysis of some 49 current grant-in-aid programs that are likely to be included, or are most likely to be included, in the demonstration city programs. So that we have ample criteria and ample standards, well established in the RECORD, for all to read, if what the Senators desire is some indication of standards and criteria.

That is the first thing that the bill does: It coordinates existing grant-in-aid programs and brings them to bear upon the human problems of these diseased areas in our cities.

Urban renewal is involved in the physical reconstruction of our cities. What we are undertaking here is to launch programs to reconstruct the lives of the people who live in these cities.

I have said over and over again in this debate that of course this is an experimental program; but not insofar as its base is concerned, because its base is the

170 Federal grant-in-aid programs that we now have.

The second thing that the bill would do is to provide some additional Federal money. For what? To stimulate local initiative, local imagination, local enterprise, to develop comprehensive plans designed to deal with the disease of these cities, the blighted areas of these cities, the blighted lives of their people.

The initiative must be taken in the cities. It cannot be taken by the President, by the Secretary of HUD, or by any other Federal official. Under this bill, the initiative must be taken at the local level.

The Senator from Texas has spoken about this bill as representing an arrogance of Federal power. All this bill does is to provide Federal resources to enable local initiative to apply itself to the disease.

These additional Federal funds will be generated and will be spent in accordance with comprehensive plans developed at the local level by our cities. In order to develop comprehensive plans, it will be essential that there be brought into the problem, to be applied to it, not only these Federal resources, but also local resources, State resources, the resources of the private sectors.

Mr. President, when we speak about criteria and standards, I hope that we are not talking about evidence of the existence of the disease. There has been ample reference to the disease on the floor of the Senate yesterday and today. We know what the disease is: areas in our cities where people are leading blighted lives, lack of educational opportunity of sufficient quality to really stimulate the inner forces of the young people of those areas. We all know what the disease is. We have at least driven on the outskirts of these diseased areas. We have driven through them, I trust. We know how people live in these areas. We know that out of these areas come unacceptably high crime rates, unacceptably high rates of dropouts from schools, unacceptably high antisocial indexes of human behavior, whatever index may be used.

So, we know what the disease is. We do not have to spell that out statistically in the bill, I trust. We know what the problem is. Whoever says he does not know such a problem exists and does not know what it is, has not been reading the newspapers, has not been watching television, has not been listening to the radio, has not been traveling through our cities, has not watched the American scene.

The problem is evident. It is there for all to see. It is there to be seen by people overseas, who are undertaking to ascertain how effectively we are able to provide opportunity for our people.

The example of American democracy in these areas is an open book for us and for everyone. What is the quarrel? The quarrel is, first of all, that we are seeking to spend too much money. How much money, Mr. President? How much money is involved in this Tower amendment? There is involved \$900 million. That would be a big sum in my bank account, but we are talking about \$900 million out of a gross national product of \$730 billion, and is that too much?

The minority views of this committee which were signed, among others, by the distinguished Senator from Texas [Mr. Tower], the distinguished Senator from South Carolina [Mr. Thurmond] and the distinguished Senator from Iowa [Mr. Hickenlooper] said that we should not spend \$900 million for this program because our economy is in high gear and we would feed the fires of inflation.

A week ago today on the floor of the Senate there was another \$900 million program brought up to add to the transportation and housing bills that that committee had reported. The amount involved was \$900 million; coincidentally, the same amount which is involved in the pending bill. Senators on the other side of the aisle, including the 3 Senators whose names I have mentioned voted 24 to 1 to add that \$900 million. That did not add to the fires of inflation. That was not inflationary.

We all recognize the housing program. I have supported programs for college housing. But the argument here is that \$900 million is all right to spend, and \$300 million of it would have been spent in this fiscal year. But this \$900 million to deal with the most explosive domestic issue on the American scene today is too much to spend; and only \$12 million of that would be spent under this bill in fiscal 1967.

There was a lot of talk last Friday about a proper order of priorities. There has been a lot of talk today about priorities. There have been many programs that we have talked about in connection with priorities other than college housing and demonstration cities. The priorities have been highlighted by these situations. In connection with this argument, which was made persistently yesterday and today, as far as my list of priorities is concerned, the explosive problem of these diseased cities is No. 1 on the list of domestic problems in this country.

I come from a small State. Only a dribble from this program can seep into my State. We do not have disease. But that disease, wherever it exists is a disease which should be of concern to everyone, including the fishermen, the trapper, or the farmer in the relatively peaceful and beautiful State of Maine. This is the problem.

I am for this bill. I agreed to floor manage it, not because there is any pressure in my State and not because the problems exist in my State, but because as an American and I do not think we can afford, as a country, to avoid taking this small step forward to make this country one, toward making it whole, and toward making it healthy. The amendment would cut the demonstration cities program. If the amendment were adopted we would have to begin all over at some time in the future to prove the case again, and the problem will not wait for that time.

Mr. ELLENDER. Mr. President, will the Senator yield?

Mr. MUSKIE. I yield to the Senator from Louisiana.

Mr. ELLENDER. Mr. President, I wish to say that I am very much in sympathy with the bill.

The PRESIDING OFFICER (Mr.

MONDALE in the chair). How much time does the Senator request?

Mr. ELLENDER. Mr. President, I only wish to ask a question.

Mr. MUSKIE. Mr. President, I yield myself such time as I need.

Mr. ELLENDER. I wish to compliment my good friend, the distinguished Senator from Maine [Mr. MUSKIE], for the excellent speech which he has just made.

Would the bill earmark any of these funds, other than the \$12 million, for any particular category of aid, such as housing, transportation, or things of that nature?

Mr. MUSKIE. The supplemental will not be earmarked with respect to any particular program.

Mr. ELLENDER. Does the Senator feel that we should exclude mass transportation from this item? It has been already provided for separately. I can well see that there may be a necessity for more action in the housing field but I would hate to see additional funds taken from this authorization to construct mass transportation systems, when other more important areas are in much greater need.

Mr. MUSKIE. It is difficult to envision what any particular State may have in mind, when the Senator uses the words "mass transportation." There is no doubt that in some of these areas inadequate access between homes and jobs, the heavy cost of traveling between homes and jobs, is a part of the unrest.

In the case of the Watts example this is a significant problem for the people. People live in an area that looks fairly decent, but it costs so much to move from their homes to available jobs, particularly for low-skilled or unskilled groups, that employment opportunities are quite few.

The bill is not intended to supplement the mass transportation in the sense that these funds could be added by the Secretary for that authorization, to be appropriated in Washington in the mass transportation program. But I would not want to exclude from the bill the possibility of doing something, and this is within the initiative of local authority to do something to deal with the kind of transportation problem which I just outlined. I do not think that the mass transportation which is now on the books could be brought to bear in the kind of situation which I just described in Watts. I think that is a different kind of problem.

Mr. ELLENDER. Mr. President, the purpose of my questions to the floor leader about the use of the funds under the bill is to obtain assurances on how this money is to be used.

I have supported housing programs over the years in the interest of providing better housing for the people. I would not want to see the benefits of this bill wasted on programs already provided under other laws. For example, earlier this week the Senate voted large sums of money for urban transit, and I would not want to see this program be a duplication of that program.

In my mind, the biggest need in these cities is better housing, and I hope that we can get some assurances this is how

the majority of funds under this bill will be spent.

Mr. MUSKIE. I agree with the senior Senator from Louisiana that one of the greatest needs in our cities is better housing. Of course, there are many other needs that this bill would be directed to help solve. I would not want to foreclose the use of these funds for transportation, but I cannot imagine that any more than a small amount of funds would be used for this purpose.

Mr. ELLENDER. Here the Senator is coordinating all of these programs?

Mr. MUSKIE. We are coordinating the programs.

Mr. ELLENDER. Exactly, and the manager of the bill indicated that some small part of these funds might come to be used for mass transportation. But it seems to me that if we could exclude the category of mass transportation, as we understand it, and limit this bill to an attempt to cure the housing and social evils within the cities, I believe quite a job could be done under this legislation. In my view, that is the course which should be followed.

Mr. MUSKIE. I wish to give the Senator one other point. The Senator is concerned with our so-called supplemental funds that would be provided under the bill. The bill says clearly that the supplemental funds shall be used to initiate any programs, any services as needed in these areas, and they shall be used only in the current program. They can be used to help communities pick up their share under the current program. The emphasis in the bill is on the new program, bringing together new ideas to apply. Housing is, of course, very necessary under the objectives of the bill.

Although I understand the concern of the Senator, I believe that the amount that would be diverted into the programs that are currently on the books would be minimal in the field of transportation.

Mr. YOUNG of North Dakota. I have a great deal of sympathy for the objectives of this program. I am sorry that I did not get an opportunity to listen to all of the discussion. Let me ask the Senator, how would these funds be spent?

Would they be matched by the local interests, city and State?

Mr. MUSKIE. What is involved, first of all, is the current grant-in-aid program which would be brought to bear. Without making use of the current grant-in-aid programs, there would be no supplemental funds generated under the bill. Under the current grant-in-aid programs, there are requirements for the local raising of funds, as the Senator knows. These vary from 70 percent down to 20 percent. The formula that the bill includes for generating supplemental funds is this: To the extent that Federal grant-in-aid programs are used currently, the bill would authorize the expenditure of 80 percent Federal money, and 80 percent of the non-Federal contributions under the current program, so that 20 percent of the local contributions would still be a requirement.

In addition, and this might be helpful to the Senator, and to the Senate as a whole: I hold in my hand an analysis of what the department expects on the basis of its own projections may be reasonable programs of spending, not only by the Federal Government but also by State and local governments and by the private sector in this field.

The total spending projected, assuming the \$900 million authorization under the bill of Federal funds, would be \$5.592 billion. Of that amount, Federal funds would include the following: The Federal share of the grant-in-aid program used, \$1.979 billion. That is, under current authorization under current programs. Supplemental grants under this bill—according to this analysis would be \$881 million of the \$900 million authorization—that is, total Federal expenditures of \$2.860 billion.

State and local funds, the local share, the grant-in-aid programs, would be \$1.04 billion, plus municipal expenditures under existing municipal programs of \$612 million. State expenditures for demonstration programs, \$79.8 million. Total State and local expenditures, \$1.736 billion. Private social expenditures, housing and construction and rehabilitation, and nonresidential construction

and rehabilitation, \$995 million. This anticipates spending by the Federal level, State and local levels, and the private sector.

Mr. President, I ask unanimous consent to have the table, together with supporting data, printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

SOURCES OF FUNDS FOR EXPENDITURES FOR CITY DEMONSTRATION PROGRAM

The \$5,592.2 in total expenditures for the demonstration program would come from Federal, State and local, and private funds in the following amounts:

[In millions]

Federal funds:	
Federal share of grant-in-aid programs	\$1,979.4
Supplemental grants under demonstration cities bill	881.4
Total Federal expenditures	2,860.8
State and local funds:	
Local share of grant-in-aid programs	¹ 1,044.2
Increased municipal expenditures under existing municipal programs	612.0
State expenditures for demonstration programs	79.8
Total State and local expenditures	1,736.0
Private social expenditures, housing construction and rehabilitation, and nonresidential construction rehabilitation	
	995.4
Total of all expenditures	5,592.2

¹ Actual amount of local dollars contributed to grant-in-aid programs is \$57.6 million less than the \$1,101.8 million amount on the basis of which the supplemental grant is computed. The difference occurs because that amount of supplemental grant funds provided by the demonstration cities bill would be used and credited as part of the non-Federal contribution to projects or activities which are a part of the approved comprehensive city demonstration program and assisted under a Federal grant-in-aid program.

The following table is illustrative of a possible pattern of expenditures for the city demonstration program over a 2-year period:

Estimated expenditures for a city demonstration program

[In millions of dollars]

	1-year expenditures	2-year expenditures	2-year funding of activities using specially authorized funds		
			Supplemental grant funds	Special urban renewal funds	Regular program funds
A. Expenditure program component:					
1. Federally assisted (grant-in-aid program) activities:					
(a) Capital improvements, demonstration area	851.8	1,703.6	1 207.0	250.0	1,246.6
(b) Public and social services, demonstration area	692.4	1,384.8	245.2		1,139.6
(c) Other capital improvements, demonstration program connected	223.7	447.4			
Subtotal	1,767.9	3,535.8			
2. Municipal and State public expenditures (unrelated to Federal assistance programs):					
(a) New and supplemental municipal service	184.6	369.2	369.2		
(b) Existing municipal expenditures	306.0	612.0			
(c) State expenditures (within city)	39.9	79.8			
Subtotal	530.5	1,061.0			
3. Private sector:					
(a) Private nonprofit organizations	133.2	266.4	1 60.0		206.4
(b) Private housing construction and rehabilitation	211.5	423.0			
(c) Private nonresidential construction and rehabilitation	153.0	306.0			
Subtotal	497.7	995.4			
Total	2,796.1	5,592.2			

Footnotes at end of table.

Estimated expenditures for a city demonstration program—Continued

[In millions of dollars]

	1-year expenditures	2-year expenditures	2-year funding of activities using specially authorized funds			
			Supplemental grant funds	Special renewal	urban funds	Regular program funds
B. Derivation of supplemental grant entitlement (non-Federal share):						
Capital improvements in demonstration area.....	262.4	524.8				
Other capital improvements, demonstration program connected.....	73.0	146.0				
Public and social services in demonstration area.....	215.5	431.0				
Total.....	550.9	1,101.8				
80 percent of total.....	440.7	881.4				
C. Use of supplemental grants (in demonstration area):						
1. Urban rehabilitation and capital improvements.....	133.5	267.0				
2. Payment of portion of non-Federal share under categorical Federal grant-in-aid programs for public and social services.....	122.6	245.2				
3. New and supplemental municipal services.....	184.6	369.2				
Subtotal.....	440.7	881.4				
D. Federal share under categorical aid programs.....	989.7	1,979.4				
E. Total Federal expenditures.....	1,430.4	2,860.8				

¹ \$207,000,000 plus \$60,000,000 shown in this column account for \$267,000,000 of supplemental grant funds shown in line C1 of the table.

² Would include about \$60,000,000 of supplemental grant funds "which may also be used and credited as part or all of the required non-Federal contribution to projects or activities, assisted under a Federal grant-in-aid program, which are part of an ap-

proved comprehensive city demonstration program" in accordance with sec. 105(d) of S. 3708.

³ Could be used in connection with either federally assisted grant program capital improvements or with such activities undertaken by private nonprofit organizations as part of an approved demonstration program.

NOTES

Sec. A illustrates the types of activities and related expenditures that would be in approved demonstration programs, including federally assisted, State, local, and private activities.

Sec. B illustrates the derivation of 80-percent demonstration grants for the illustrative type of program.

Sec. C shows how the demonstration grant funds might be used.

Sec. D shows the Federal share of categorical aid programs.

Sec. E is the total Federal expenditure, consisting of the 80-percent grants plus the Federal share under categorical aid programs.

Mr. JAVITS. Mr. President, will the Senator from Maine yield?

Mr. MUSKIE. I yield to the Senator from New York.

Mr. JAVITS. I appreciate the eloquence of the Senator from Maine. I think the case could be allowed to rest exactly as he left it. I propose to do exactly that. I rise only because I was the sponsor of the amendment with relation to college housing.

I respectfully submit to all Senators that this Government can do what justice demands. Whatever the demands are, this Government can do. We certainly demonstrated that by appropriating almost \$60 billion for defense the other day with a unanimous vote of the Senate. We certainly showed that we intend to do what justice demands we should do.

However, let me say to all Senators, in connection with my vote on the demonstration cities bill, that perhaps I am one of the very few men in this Chamber who is, really, thoroughly and right down to the ground a product of the big city from the poverty level up, where this problem festers. This is where I was born. This is what I know. I speak as a witness from personal experience. The cities are strangling. They are in the gravest danger. It is wonderful to me that a barefoot boy from Maine could say it as eloquently as he has. He sounds as though he has done what I have done. Let me assure him that it is breaking through to the consciousness of the Federal Establishment. This bill is one of the indications of that breakthrough. A new day is dawning in our country. That is what we are signaling in a relatively modest way. It is so serious that the Attorney General can say to us that the danger of riots and violence exists in every one of the 40 cities which he is now looking into. It seems to me that,

on that basis, our line of action as intelligent men is currently indicated.

The Senator's amendment would gut the bill. I hope very much that it will be defeated.

Mr. TOWER. Mr. President, I ask for the yeas and nays on my amendment.

The yeas and nays were ordered.

Mr. TOWER. Mr. President, I think it should be made adequately clear, in accepting my amendment, that we will not be turning our backs on the cities. We are already doing a great many things for people in the urban areas and I anticipate that we will be doing more in the future.

My amendment would not gut the bill. The program remains. The money for planning remains.

I am merely trying to enable Congress to come back next year and look at those plans so that it will not be taking shots in the dark to authorize an appropriation for 1968 and 1969.

Mr. President, I yield back the remainder of my time.

Mr. MUSKIE. I have no time to yield back.

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from Texas.

On this question, the yeas and nays have been ordered; and the clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. LONG of Louisiana. I announce that the Senator from Alaska [Mr. BARTLETT], the Senator from Maryland [Mr. BREWSTER], the Senator from North Dakota [Mr. BURDICK], the Senator from Mississippi [Mr. EASTLAND], the Senator from Arizona [Mr. HAYDEN], the Senator from Alabama [Mr. HILL], the Senator from Minnesota [Mr. MCCARTHY], the Senator from Wyoming [Mr. MCGEE], the Senator from Oregon [Mrs. NEUBERGER], the Senator from West Virginia

[Mr. RANDOLPH], the Senator from Florida [Mr. SMATHERS], the Senator from Alabama [Mr. SPARKMAN], and the Senator from Georgia [Mr. TALMADGE] are necessarily absent.

I also announce that the Senator from Tennessee [Mr. BASS] is absent on official business.

I further announce that, if present and voting, the Senator from Alaska [Mr. BARTLETT], the Senator from Tennessee [Mr. BASS], the Senator from North Dakota [Mr. BURDICK], the Senator from Wyoming [Mr. MCGEE], the Senator from Oregon [Mrs. NEUBERGER], and the Senator from West Virginia [Mr. RANDOLPH] would each vote "nay."

On this vote, the Senator from Maryland [Mr. BREWSTER] is paired with the Senator from Mississippi [Mr. EASTLAND]. If present and voting, the Senator from Maryland would vote "nay," and the Senator from Mississippi would vote "yea."

Mr. KUCHEL. I announce that the Senator from Utah [Mr. BENNETT] and the Senator from California [Mr. MURPHY] are absent because of illness.

The Senator from Michigan [Mr. GRIFFIN], the Senator from Iowa [Mr. MILLER], the Senator from Massachusetts [Mr. SALTONSTALL], and the Senator from Pennsylvania [Mr. SCOTT] are necessarily absent.

If present and voting, the Senator from Utah [Mr. BENNETT], the Senator from Iowa [Mr. MILLER], the Senator from California [Mr. MURPHY], and the Senator from Massachusetts [Mr. SALTONSTALL] would each vote "yea."

On this vote, the Senator from Michigan [Mr. GRIFFIN] is paired with the Senator from Pennsylvania [Mr. SCOTT]. If present and voting, the Senator from Michigan would vote "yea," and the Senator from Pennsylvania would vote "nay."

The result was announced—yeas 27, nays 53, as follows:

[No. 215 Leg.]

YEAS—27

Boggs	Fong	Pearson
Byrd, Va.	Hickenlooper	Robertson
Byrd, W. Va.	Holland	Russell, S.C.
Cotton	Hruska	Russell, Ga.
Curtis	Jordan, N.C.	Simpson
Dirksen	Jordan, Idaho	Stennis
Dominick	McClellan	Thurmond
Ervin	Morton	Tower
Fannin	Mundt	Williams, Del.

NAYS—53

Alken	Hart	Montoya
Allott	Hartke	Morse
Anderson	Inouye	Moss
Bayh	Jackson	Muskie
Bible	Javits	Nelson
Cannon	Kennedy, Mass.	Pastore
Carlson	Kennedy, N.Y.	Pell
Case	Kuchel	Prouty
Church	Lausche	Proxmire
Clark	Long, Mo.	Ribicoff
Cooper	Long, La.	Smith
Dodd	Magnuson	Symington
Douglas	Mansfield	Tydings
Ellender	McGovern	Williams, N.J.
Fulbright	McIntyre	Yarborough
Gore	Metcalf	Young, N. Dak.
Gruening	Mondale	Young, Ohio
Harris	Monroney	

NOT VOTING—20

Bartlett	Hayden	Randolph
Bass	Hill	Saltonstall
Bennett	McCarthy	Scott
Brewster	McGee	Smathers
Burdick	Miller	Sparkman
Eastland	Murphy	Talmadge
Griffin	Neuberger	

So Mr. TOWER's amendment (No. 746) was rejected.

Mr. MUSKIE. Mr. President, I move to reconsider the vote by which the amendment was rejected.

Mr. PASTORE. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

LEGISLATIVE BRANCH APPROPRIATION BILL, 1967—CONFERENCE REPORT

Mr. MONRONEY. Mr. President—

The VICE PRESIDENT. The Senator from Oklahoma.

Mr. MONRONEY. Mr. President, as I understand it, there is a 30-minute limitation agreement on the adoption of the legislative appropriation conference report.

The VICE PRESIDENT. There is a unanimous-consent agreement to grant 15 minutes to the Senator from Delaware [Mr. WILLIAMS] and 15 minutes to the Senator from Oklahoma [Mr. MONRONEY].

Mr. MONRONEY. Mr. President, I yield myself 5 minutes.

Mr. President, I submit a report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 15456) making appropriations for the legislative branch for the fiscal year ending June 30, 1967, and for other purposes. I ask unanimous consent for the present consideration of the report.

The VICE PRESIDENT. The report will be read for the information of the Senate.

The legislative clerk read the report.

(For conference report, see House proceedings of August 15, 1966, CONGRESSIONAL RECORD, pp. 18442, 18443.)

The VICE PRESIDENT. Is there objection to the present consideration of the report?

There being no objection, the Senate proceeded to consider the report.

The VICE PRESIDENT. How much time does the Senator yield to himself?

Mr. MONRONEY. Five minutes.

Mr. President, the conference report is printed as House Report No. 1852 and the details are available within the report. In addition, later on I expect to ask unanimous consent to insert in the RECORD a table which will give all of the detailed figures of each item in the bill.

The conference agreement totals \$214,463,913, and this is \$285,850 under the budget estimates considered by the Senate.

Since the conference report itself goes into detail on the items, I will confine my remarks to a few of the more important controversial items in the bill.

WEST FRONT EXTENSION

The conference committee on this bill agreed that funds for the proposed construction of the west front extension of the Capitol should not be considered further during this session of the Congress. You will recall that the Architect of the Capitol had advised our subcommittee that an appropriation for rebuilding and extending the west front would be sought later on this year in a supplemental appropriation measure. The effect of our action will allow the Architect to continue preliminary design planning for the extension.

I believe that this is a reasonable compromise that will enable both advocates and opponents of the proposed major addition to the west front to participate in whatever decision Congress eventually will make in this matter. We recognize the need for restoring and strengthening the west front, but we felt very strongly that the matter should not be considered along with other urgent supplemental appropriations during the closing days of the session.

The action of the conference committee will permit the Architect to go ahead with design planning and to complete a model of scheme 2, which was approved by the Commission for the Extension of the Capitol. The funds for this model were appropriated to the Architect last year in a supplemental appropriation bill. This action in no way endorses or rejects the Architect's course of action up to this point, but it assures Members of both Houses a further opportunity to vote on the matter during a future Congress.

It is sincerely hoped by most of the conferees that an opportunity will be given for taking extensive testimony on the condition of the west front foundations, and for consideration of the ultimate cost of rebuilding the west front on the present foundation lines, as compared with the proposed extension, which would take in a great deal more area.

STATIONERY ALLOWANCES

Amendments Nos. 27 and 34 relate to the stationery allowances of the Senate and the House of Representatives.

Senators will recall that the Senate adopted these two amendments, which were considered en bloc, as a joint amendment, prohibiting stationery commutation payments in the future.

Mr. LAUSCHE. Mr. President, will the Senator yield? I wish to ask a question concerning the first item.

Mr. MONRONEY. Will the Senator wait until I complete my prepared statement? Then I shall be happy to yield.

There is no question in the minds of the Senate conferees that the House objected to amendment No. 34, which rewrote the law with respect to House stationery allowances. The Senate conferees receded from this amendment. The Senate conferees also receded from amendment No. 27, which proposed the same restrictive language for the Senate stationery account.

The Subcommittee on Legislative Appropriations in considering the bill this year wrote a provision prohibiting commutation payment in the future and applied the restrictive language to the Senate only. The full Senate Appropriations Committee felt that it was undesirable to rewrite the stationery allowances for the Senate only and the full committee deleted the provision. On the floor on July 28, 1966, a joint amendment rewriting the legislation with respect to stationery allowances for the House and Senate was adopted.

One of the great difficulties in this matter is that historically the Senate has legislated on many housekeeping matters in the legislative appropriation bill, whereas housekeeping matters in the House of Representatives are handled in an entirely different manner.

Rule XI of the House of Representatives on the powers and duties of committees, in section 679 makes it clear that the House Committee on Appropriations has jurisdiction over "appropriation of the revenue for the support of the Government." A footnote to the section states:

While this committee has authority to report appropriations, the power to report legislation relating thereto belongs to other committees.

Section 693 of the same rules provides that the Committee on House Administration shall have jurisdiction over "measures relating to accounts of the House generally" and "expenditure of contingent fund of the House."

In those instances where the Senate legislates on administrative matters of the Senate and the House in an appropriation bill, the House conferees have no jurisdiction in the matter. It is an amendment which should be considered by the House Administration Committee or representatives from that committee.

Personally, I am in sympathy with the desire to eliminate stationery commutation payments. However, if it is the desire of the Congress that the existing law should be changed, it should be done in a bill which would be considered in the Senate by the Committee on Rules and Administration and it would be considered in the House by the House Committee on Administration. It is not a

matter which should be considered in an appropriation bill.

I am happy to yield briefly to my distinguished friend, the Senator from Ohio.

The PRESIDING OFFICER (Mr. MONDALE). The Senator's 5 minutes have expired.

Mr. MONRONEY. I yield myself 2 additional minutes.

Mr. LAUSCHE. I understood the Senator to say that if the conference report is approved, the Architect will be permitted to proceed with planning. Will the Senator please explain what the term "planning" embraces, and how far he will be permitted to go?

Mr. MONRONEY. In a bill last year, we allowed some \$300,000 for preliminary planning, of which he has spent all but some \$40,000. This \$40,000 is available for expenses in connection with the preliminary planning. Some of these funds would still be available, but for preliminary planning only.

Most of the remainder, or a part of it, will be spent for building a mockup or small model, to show in that style the way the building would look if scheme No. 2, which is advocated by the Capitol Extension Commission, should be constructed.

But there will be no money in this bill whatsoever for construction of any kind.

Mr. LAUSCHE. He will be permitted to proceed only to the extent that was originally contemplated when the \$300,000 was allocated?

Mr. MONRONEY. That is correct. He has no money to go forward even with detailed design. It is for preliminary planning only; and no construction funds whatever are included in the bill.

Mr. President, I reserve the remainder of my time.

The PRESIDING OFFICER. Who yields time?

Mr. WILLIAMS of Delaware. Mr. President, I regret very much that the conferees did not insist on amendments 27 and 34, the purpose of which was to require that any portion of a stationery allowance which was not used by any Member of Congress, in the House or in the Senate, should automatically revert to the Treasury. Under the existing procedure, at the end of the fiscal year any unused balance can be claimed by the Member and used to defray his personal expenses. I think that is wrong.

The Senate voted to correct the situation. I realized and acknowledged at the time that this was legislation on an appropriation bill, but there have been plenty of precedents for it. There were four other pieces of legislation in this same appropriation bill. Only earlier this week the Senator from Georgia very properly added a legislative proposal to the armed services appropriation bill, dealing with the Reserves. I supported it. We have often legislated, to a certain extent, on appropriation bills, and it can be done.

The question here is very simple. Do the Members of Congress wish to continue the practice whereby any unused portion of our stationery allowance—an allowance which is provided specifically for the purpose of defraying the legitimate costs of operating our offices—may be put in our pockets?

I think the Senate has been under enough criticism in the past for some of our practices. We did not emerge with our image enhanced as a result of the reluctant investigations of the Rules Committee of a year ago, and we are under a certain amount of criticism again in connection with an investigation which is currently being conducted by the Ethics Committee concerning the handling of campaign funds.

I think the very least the Senate could do here would be to go on record that we want no part of any unused allowances for our offices to put in our own pockets. The only way we can approach the matter is to reject the conference report, and then a motion can be made to instruct the conferees to go back and insist upon this amendment.

Under the rules of the Senate this is the manner by which this objective can be obtained.

This same question has been before the Senate many times. As the Senator from Oklahoma pointed out, the first proposal was to limit the amendment to the Senate only, confining the restriction to the Senate on the basis that there may be some argument as to what we should or should not tell the House to do. Another argument was advanced that both Houses should have the same rules to follow.

Personally, I think the Members of the House of Representatives should be under the same restrictions.

This is not a matter which concerns only the Members of Congress individually. The American taxpayers, 190 million people, have a stake in what we do here. It is their money that is being spent, and they have a right to an accounting.

The stationery allowances is allowed for the expressed purpose of defraying the cost of operation of our offices. Under what line of reasoning does any Member of either the House or the Senate have any right to put any part of the unused balance of any allowance in his pocket? All the other allowances for our offices are so restricted that they must be used for the expressed purpose for which they are authorized. Our telephone allowance and our Western Union allowance, for example, revert automatically to the Federal Treasury unless they are expended on official telephone calls or official telegrams. Why not?

Members do not get their hands on that money, and this is the way it should be.

All that this amendment provided, if it were retained, was that at the end of the fiscal year any part of the unused stationery allowance—whether it be \$1, \$1,000, or whatever amount it might be—that remained unexpended would automatically revert to the Treasury.

A couple of years ago Congress amended the Internal Revenue Code to provide for a greater restriction on the use of expense allowances by American industry. We required an itemized accounting by every individual who claims his expenses as a cost of doing business.

Congress passed that provision. Why do we not live up to the same rules ourselves? Why do we insist that we should not have to render an accounting for our

unused stationery allowance or that any Member should have the right to put in his pockets anything that is left over?

That is the sole issue before us here today. There is no need to debate it further; every Senator knows what is involved. The only way we can retain this amendment is to reject the conference report. If the conference report is rejected, I will then make a motion to send the conferees back with instructions to insist upon the Senate amendments.

Mr. PASTORE. Mr. President, does the Senator yield?

Mr. WILLIAMS of Delaware. I yield.

Mr. PASTORE. Mr. President, I realize that the proposition of the Senator from Delaware has considerable merit. However, the contention was made here that under the strict interpretation of the stationery account, it would not include certain of the expenses which many Senators feel are in line with their official duties. They are not personal expenses for the benefit of the individual as much as they are necessary expenses to carry out the functions and duty of a Senator.

I suggest to the Senator that he draw up an appropriate amendment that would take this all into account. The amendment can then be submitted to the Committee on Rules and Administration. Let us have this done in orderly fashion—as a clarification and not an accusation.

The Senator knows that no Senator wants to steal anything that does not belong to him. There is not a Senator who wants to take advantage of his position.

The point has been raised that sometimes other items have to be subscribed to, such as the purchase of newspapers from a Senator's State, and others which are considered legitimate expenses incurred because the man happens to be a U.S. Senator.

We should take that into account, rather than having this develop into the suggestion of a sort of scandalous atmosphere. Why do we not act like reasonable people and draw up whatever amendment that needs to be drawn up? We can then hold a few hearings and get the matter cured.

In principle, I agree with the Senator. I do not want a nickel that does not belong to me. I do not think any other Senator does. However, it is a question of acting in the right way or the wrong way. The Senator from Delaware is presenting this by saying: "You are putting in your pocket money that doesn't belong to you."

Nobody is doing that. It appears that, from the very beginning, the stationery account has been misinterpreted and misunderstood. There are said to be certain deviations that have taken place only because of varying circumstances. If so they ought to be corrected and remedied.

I agree in this with the Senator from Delaware. However, let us not put ourselves in the position of saying that the vote we take today proves that we have been doing something legitimate or that our practices are illegitimate.

I think the Senator will agree with that.

Mr. WILLIAMS of Delaware. Mr. President, I yield myself 2 additional minutes.

adult education bill and the Javits-Hartke bill to extend the 7 percent investment tax credit to cover investment in job retraining; third, enact legislation to provide needed funds for the home-building industry;

Fourth. Reverse the tight money and high interest rate policy of the Federal Reserve Board.

■

Uncertainty is striking at the heart of our domestic prosperity. Uncertainty is striking, as well, at the free world's financial and economic stability. Will the U.S. payments deficit be ended? Will the British pound be devalued? Will the international monetary reform be achieved? Not only the answers to these questions are unknown: the impact of the correct answers can barely be gaged.

One thing is sure. The confidence and cooperation which any system of credit and exchange must enjoy in order to function no longer exist. Political self-interest and economic insolationism are back in the driver's seat. We have committed ourselves to turning off the flow of private investment dollars which the free world—Western Europe as well as the developing nations—requires to hold its own economically, let alone to grow and prosper. And all too many of the beneficiaries of that dollar flow which continues have used the dollars they gain not for the productive purposes which only dollars can perform, but in order to buy gold.

The world which would exist in the absence of any U.S. action affecting our balance of payments would be bad enough. It would be a world—as the real one is—in which French economic and financial nationalism was running rampant: in which Britain was undergoing a chronic crisis of stagnation and obsolescence; in which central bankers around the world sacrificed prosperity and growth on the altar of tight money and deflation. These aspects of the world in which we live would exist even if the United States had remained totally passive.

But the United States has not remained passive. Our Government has instituted a series of statutory and voluntary restrictions which have closed New York to foreign borrowers, reduced U.S. direct investment in needy economics, and created a worldwide dollar drought. Our Government has escalated its dollar flow to Vietnam and thereby guaranteed that even the favorable political and psychological impact of the sharp cutback in the needed outflow of private dollars would be lost—as our overall balance of payments remains in substantial deficit. And our Government has touched off and acquiesced in an explosion upward of domestic interest rates which has fed the flames of the international interest rate war.

Our Government has put the cart before the horse. Its priorities have been stood upside down. The purposes of any financial and monetary system—domestic or international—is to facilitate the flow of goods and capital in order that jobs may be created, that income may rise, and that prosperity may prevail. But today we see our great British ally

deliberately sacrificing domestic jobs, income, and prosperity in order to maintain the system. We see the second largest economy in the free world, West Germany, teetering on the brink of recession due to deliberate monetary restriction in the name of balance of payments stability. And we see our own authorities and would-be experts calling out for even greater restrictions than those we suffer already in order "to put our house in order." An international monetary system which demands deliberate recession, which requires unemployment, which lives off tight money—this is a system not worth maintaining.

We have tied our economic well-being to the supply and value of one commodity—gold. Only the Communist addiction to the most primitive form of trade—barter—puts greater shackles on a nation's economy.

This kind of performance, nevertheless, by the free world's economic system is what gives the Communists, with their primitive barter trade, hope for ultimate victory. In the 1930's, the great depression opened the way for totalitarian advance by both Fascists and Communists, when it demonstrated the bankruptcy of the old capitalist system. We must not give the Communists another chance. We must demonstrate that progressive free enterprise coordinated with enlightened government can provide the jobs, can raise the living standards, can promote the social progress which men everywhere demand. The present international monetary system—when it requires unemployment when it reduces living standards, when it hinders or reverses social progress—serves the Communist cause.

The heart of an alternative strategy for putting our international house in order is the proper ordering of our priorities. Sound, noninflationary growth of trade, of jobs, of income on a worldwide scale—this must be the overriding priority.

In the absence of worldwide consensus, with the continued existence in power of men with cruel, archaic ideas of social justice, one nation must stand up and lead. One nation must take responsibility for the enforcement of a priority which has the heartfelt support of ordinary men and women the world over. President Franklin D. Roosevelt did not shrink from leadership and responsibility when he called the Bretton Woods Conference in 1944 and made clear to the world that the United States would work actively, and solely, for a postwar world of expansive international economic cooperation. President John F. Kennedy did not shrink from leadership and responsibility when he called for the Punta del Este Conference in 1961 and made clear to the hemisphere that social justice and economic progress go hand in hand and are jointly America's No. 1 priority. Now it is the turn of President Lyndon B. Johnson to accept once more America's unique responsibility to lead the world in the path of cooperation, progress and freedom. I call upon the President to convene a new Bretton Woods Conference for this generation, to translate the

Alliance for Progress into every language which freemen speak.

In 1933, the London Economic Conference was called after economic disaster had already produced political chaos—the result was a tragic fiasco. We must make sure that this time the Conference comes before an international crack-up makes international cooperation impossible.

Let those who share our ideals and our vision join with us in this great work. And let those who cling to selfish interests and who adhere to dismal disciplines go their own way.

Because for today and for the foreseeable future the maintenance of worldwide prosperity will require dollars, a vital step toward this objective is the re-opening of the unprecedented resources and unique facilities of the New York money and capital markets to foreigners. And that is not all. The world needs American technology and expertise and management as much as it needs dollars.

Direct private investment by American corporations provides all four key components of progress—and pays a cash dividend to America as well. In 1963, a Commerce Department study indicated that U.S. overseas investments totaled some \$65 billion; and in that year the direct dollar return flow on those investments was \$5 billion. Indirectly, the flow of U.S. direct investments generates U.S. export sales to American subsidiaries and provides the hard dollars needed to purchase even more U.S. exports. The restraints our government has placed on both direct portfolio investments overseas means restraint on the dollar return on those investments not just in 1966, but in 1970 and 1975, as well. Reversal of this policy, elimination of the "voluntary" restraints on U.S. foreign investment and repeal of the Interest Equalization Tax are the first steps required for a return to free world financial equilibrium.

Second, Mr. President, we must move to deal with the specific international impact of Vietnam, just as we must move to deal with its domestic impact. The outflow of dollars to Vietnam has more than offset the short-term savings garnered by the restrictions on productive capital outflows. We must put all dollar operations relating to Vietnam on a wartime basis. This means more than paying our soldiers with scrip as we are finally now doing. It means using blocked accounts and policing black currency markets. It means all the techniques learned with such difficulty but with such success during World War II and Korea for guaranteeing that dollar expenditures on war serve ourselves and our few allies alone. If this means admitting that we are fighting a war, then let us admit it. But let us stop this running sore of dollars which flows into Vietnam, through the hands of speculators and black marketeers, and wind up—as the evidence indicates—either in the hands of our foes to be used to subvert and support subversion or, no better, into the hands of the French to be used to purchase gold.

Third, Mr. President, we must recognize the significance on the international side of a fundamental reorientation of our farm policy. As I have already said, it is ever more apparent that the world is moving from a long-term period of farm surplus to a long-term period of farm scarcity. Our unmatched ability to produce and sell farm produce is moving from being a source of embarrassment to becoming a source of tremendous economic and strategic power. Policies which were created to dispose of surpluses must be traded in for policies aimed at export for cash and commercial credit. Certainly our humanitarian policy of feeding those threatened with famine must be maintained. But food giveaways to money-good customers must disappear with the surpluses. The payoff in terms of increased hard currency export earnings will be incalculable. Also incalculable will be the impetus given to higher living standard and incomes on our Nation's farms. Not only will this policy reverse the deterioration of our international trade surplus, it will return to our farmers and to all of us the benefits which were earned when—100 years ago—America's ability to produce and export farm goods first brought us world recognition.

This alone is not enough. Not only must the United States resume its role of banker and investor to the world, not only must we guard against artificial, wartime dollar outflows, not only must we revolutionize our farm program to multiply the cash return, but direct steps must be taken as well to reinforce the second great pillar of international equilibrium—that the dollars which the United States supplies to the world will be used productively. Already our Government has worked out a constructive agreement with the Canadian Government to permit Canadian borrowing in New York up to the point at which excess dollars begin to accumulate in the Canadian reserves. But working out bilateral agreements of this sort, useful as they may be, is a long and arduous process. At its command our Government has a weapon to make absolutely clear to the world—including the French—what the result will be of continued gold purchases.

The U.S. Government, alone among nations, stands ready to sell or buy gold at a fixed price: \$35 per ounce. Our promise to sell gold for dollars to all official purchasers fixes the value of the dollar against which value all other free world currencies are fixed. But our promise to buy gold serves only to guarantee all gold buyers—both the speculators and the politically motivated—against loss. By our promise to sell gold we underwrite the current international value of the dollar. By our promise to buy gold, however, we merely underwrite the current value of gold—and thereby underwrite the destructive activities of those who would garner windfall profits from currency distress and, far worse, for those who would destroy the entire delicate system of international monetary relations for petty political purposes.

This is why, Mr. President, I join today with such distinguished and experi-

enced monetary and economic observers as Mr. Donald Cook, president of the American Electric Power Corp., in calling for urgent Government action to remove the artificial floor under the price of gold. U.S. withdrawal of its promise to buy gold will make clear to all the world where responsibility lies for the piecemeal destruction of monetary stability. And it will make clear to the gold buyers our determination to play our unique and necessary role in the furtherance of world prosperity—regardless of their archaic fascination with that mystic commodity. For play this role we must, if the world is to prosper. And if the result of the continued purchases by the singleminded goldbugs is to drain every last ounce of gold out of Fort Knox—then all that will happen is that, at last, the fogs of superstition will be lifted and the real basis of the dollar's unprecedented strength will emerge.

The reason the dollar stands alone as the world's greatest trading currency and investment currency and reserve currency is due not to the size of our gold supply or to the terms of any treaty. It is due to the strength of the American economy, to our ability to outproduce every other nation in the world, to our vast supply of savings available for productive long-term investment, and to a uniquely American level of productivity and technological advance with which we can outsell anyone else in everything from microelectronics to winter wheat. If the French or anyone else wants to face a dollar valued on the basis of competitive cost of production of American goods, then I say let them. But for any nation which makes clear its desire to cooperate and coordinate financial and commercial relations, we must make it equally clear that we stand ready to provide dollars and to sell exports and to purchase imports on a free and equitable basis—regardless of how we must deal with those who isolate themselves by their monetary irresponsibility.

This is my alternative strategy for managing our international position in the world economy:

First. Get our priorities in proper order by making clear that we will only support a world economic system which promotes employment, income, and social progress and which does not demand their sacrifice;

Second. Summon a new Bretton Woods Conference to determine who will work with us to create a liberal system of commercial and financial relations based on free and fair exchange of goods and capital;

Third. Eliminate the artificial restrictions on the flow of productive private investment dollars and repeal the interest equalization tax;

Fourth. Isolate and sterilize the dollar drain to Vietnam by placing the foreign exchange cost of the war under wartime exchange controls;

Fifth. Reorient our farm program to expand production for export to cash customers, while retaining our humanitarian policy of feeding those threatened with famine;

Sixth. Eliminate our unconditional promise to buy gold at \$35 per ounce and

thus make clear to the world that continued, irresponsible purchases of American gold by foreigners means the end of world economic stability and the onset of unrestrained competition with American productive power.

Mr. President, the hope for world prosperity is not to be found in the esoteric mumblings of so-called monetary experts as they mutter around obscure conference tables. The hope for world prosperity is leadership by the one nation which can and must lead. We can reject this responsibility of leadership as, to a tragically great extent, we are doing. But if we do not lead we will never be able to put off the responsibility that will fall on us in the all too near future for having allowed world prosperity to perish by default. This responsibility can be avoided no more than can the responsibility of our national leaders to give the facts to the people about Vietnam to relieve the recession soft spots and the inflationary strains which crisscross our economy, and to preserve our domestic prosperity together with that of the free world.

DEMONSTRATION CITIES AND METROPOLITAN DEVELOPMENT ACT OF 1966

The Senate resumed the consideration of the bill (S. 3708) to assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes.

Mr. KENNEDY of Massachusetts. Mr. President, I send to the desk an amendment and ask that it be stated.

The PRESIDING OFFICER. The amendment will be stated by title.

Mr. KENNEDY of Massachusetts. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered, and the amendment will be printed in the Record as this point.

The amendment submitted by Mr. KENNEDY of Massachusetts is as follows:

On page 31, line 1, strike out "FEDERAL COOPERATION" and insert in lieu thereof "COOPERATION AND COORDINATION".

On page 31, line 2, after "305." insert "(a)". On page 31, after line 5, insert the following:

"(b) In the administration of this title, the Secretary shall seek to ensure the greatest practicable cooperation and coordination as between the various urban information and technical assistance centers established under this title."

Mr. KENNEDY of Massachusetts. Mr. President, I am pleased to note that title III of this bill establishes a new grant program to assist States and municipalities in the establishment of urban information centers.

The purpose of such centers would be to help local government officials to know more about Federal programs, to enable these communities to collect and

study the local data relating to their problems, to relate this knowledge to the Federal programs of assistance which are available, and to provide expert assistance to help the local decisionmaker through the maze of assistance programs confronting him.

In my judgment, programs such as this one are vitally needed. For I firmly believe that the failure of the Federal Government to fully deliver to the communities themselves the services planned for in our Federal programs is due, in significant part, to the confusion and lack of coordination between levels of government.

One of the main reasons for the confusion is that the great proliferation of Federal programs in recent years has not been accompanied by any kind of concerted effort to develop a communications system to keep up with the increase in activity. Local government executives are confronted with so many alternatives that they cannot keep track of all of them or distinguish between them.

The bureaucratic chaos which often flows from this crisis in communications is costly to everyone. It is costly to the taxpayers whose money is not wisely or effectively spent. It is costly to the communities that are denied benefits they need. And it is costly to the Nation as a whole when ill-informed decisions result in ineffective programs.

The only way to solve this crisis, in my judgment, is to call upon the scientific advances which have been made in computer and information retrieval technology, and develop modern information systems which will enable us to get a grip on the programs we have now and will have in the future. In a sense, it is a problem of scientific management, and it must be faced up to directly. Given the progress we have made in the field of information technology, I am certain that if we give this problem the attention it deserves, it is a problem we can solve.

The proposed title III of this bill is therefore in my judgement a much needed first step.

I personally believe that in addition to this proposal, congress should go further and authorize a complete study of the desirability and feasibility of establishing a national information system, operating through computer centers throughout the country, which would not only enable local governments to match their needs against Federal programs, but which would also keep the Federal Government in touch with local needs. The system I envision would tell Federal officials and Members of Congress what programs are working, what programs are not, what programs are needed. It would enable the Federal Government to better comprehend the problems of the local community and the directions they want to take in the future.

Moreover, such a system should make it possible for the Federal Government, both Congress and the executive, to obtain an overview of the whole operation of Government, to look at the "grand design," and in so doing, get a better understanding of priorities and allocation of resources, rather than carrying on in the

piecemeal and essentially haphazard manner we are at present.

From my discussions with industry and Government experts, I believe that such a system is feasible, and I am hopeful that hearings on the legislation I have offered to develop the design of this system can be held in the near future.

It may be several years before any comprehensive system can be established. In the interim, information center programs such as that set up in title III can be extremely helpful in increasing the effectiveness both of Federal programs and local administration.

There is, however, one respect in which I believe the present legislation can be improved.

Title III presently provides in section 305 for the Federal Government to cooperate with the States and metropolitan area agencies in providing information under this title. But it does not make any provision for cooperation and coordination between the information centers to be set up under this title in various urban centers.

If there is no effective interchange between the centers and with the Federal Department of Housing and Urban Development, much of the effectiveness of these centers will be lost. There will be unnecessary duplication of effort, and a failure on the part of some communities to benefit from the experience of others in setting up such centers.

If advanced technology is to make a maximum contribution, knowledge and expertise must be pooled.

The purpose of my amendment is simply to assure that the coordination and cooperation between centers and with HUD which is so essential to the effectiveness of the program will be forthcoming.

I note that such a provision was explicitly favored by the National League of Cities when the league testified on this program before Senate Committee on Banking and Currency, and I believe, if it is accepted by the Senate that it will be helpful in making this program work effectively.

Mr. President, I had an opportunity to discuss this amendment only with the staff and not with the Senator from Maine, but I hope that it is acceptable to him.

Mr. MUSKIE. Mr. President, I have not discussed this amendment with the Senator from Massachusetts. However, in the words of the amendment, "In the administration of this title, the Secretary shall seek to insure the greatest practicable cooperation and coordination as between the various urban information and technical assistance centers established under this title," which is title III of the bill, the amendment is acceptable to me.

Mr. KENNEDY of Massachusetts. Under this amendment, we will be better assured that the experience gained in some urban areas will be available to other urban areas. Title III provides for the greatest degree of cooperation between the various Federal agencies and the urban areas. The hope here is to gain the benefits of the experience in certain urban areas and make it avail-

able to other urban areas to help them develop their particular programs.

Mr. TOWER. Mr. President, I am willing to accept the amendment of the Senator from Massachusetts.

Mr. President, I yield back the remainder of my time.

Mr. MUSKIE. Mr. President, I yield back the remainder of my time.

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from Massachusetts.

The amendment was agreed to.

Mr. TOWER. Mr. President, for the information of Senators, let me say that there will be a record vote on the bill, and it should come relatively soon, because I know there are many Senators who wish to get away for important engagements.

I have two amendments, which I have already discussed with the Senator in charge of the bill and which he said he intends to accept. The Senator from New York [Mr. JAVITS] has an amendment. Other than that, I know of no other amendments.

AMENDMENT NO. 474

Mr. TOWER. Mr. President, I call up my amendment No. 747 and ask that it be stated.

The PRESIDING OFFICER. The amendment will be stated by title.

The legislative clerk read the amendment, as follows:

On page 15, line 25, it is proposed to insert: "SEC. 114. Grants made under section 105 for projects in any one State shall not exceed in the aggregate 12½ per centum of the aggregate amount of funds authorized to be appropriated under section 111."

Mr. TOWER. Mr. President, I ask unanimous consent to modify my amendment to read "15 percent" instead of "12½ percent."

The PRESIDING OFFICER. The Senator has a right to modify his amendment, and it is modified accordingly.

Mr. TOWER. Mr. President, this amendment would establish a formula which is, in effect, now in existence in other measures of this kind, so that an inordinate amount of funds will not go to any one city or to any one State.

Mr. MUSKIE. The Senator is correct that limitations of this kind are quite customary in this kind of legislation. I have no objection to the Senator's amendment and I am willing to accept it.

Mr. JAVITS. Mr. President, will the Senator yield to me briefly?

Mr. TOWER. I yield.

Mr. JAVITS. I understand that the figure used is 15 percent?

Mr. TOWER. The Senator is correct—15 percent.

Mr. JAVITS. I had intended to seek the same proviso with respect to this bill which we worked out the other day on another housing bill relating to areas which have used up or are close to using up their allowable percentage. In view of the fact that the percentage is fixed at 15 percent, instead of 12½ percent, I would be willing to see what the experience will be with it in this shape, to see whether we can live with it without this proviso, under the circumstances.

The PRESIDING OFFICER. The question is on agreeing to the amendment (No. 747) of the Senator from Texas.

The amendment was agreed to.

AMENDMENT NO. 748

Mr. TOWER. Mr. President, I call up my amendment No. 748 and ask that it be stated.

The PRESIDING OFFICER. The amendment will be stated by title.

The legislative clerk read the amendment, as follows:

On page 28, line 12, it is proposed to insert: "Sec. 209. Grants made under section 205 for projects in any one State shall not exceed in the aggregate 12½ per centum of the aggregate amount of funds authorized to be appropriated, pursuant to section 206(b)."

Mr. TOWER. Mr. President, I ask unanimous consent to modify this amendment to read "15 percent" instead of "12½ percent."

The PRESIDING OFFICER. The Senator has that right, and the amendment is so modified.

Mr. TOWER. Mr. President, this amendment is similar to amendment No. 747 which has just been adopted, which related to section 105.

Amendment No. 748 relates to section 205, and I believe it will be acceptable to the Senator in charge of the bill.

Mr. MUSKIE. Mr. President, for the same reasons I accepted the previous amendment No. 747, I am willing to accept the present one, now under consideration, No. 748.

Mr. TOWER. Mr. President, I yield back the remainder of my time.

Mr. MUSKIE. Mr. President, I yield back the remainder of my time.

The PRESIDING OFFICER. The question is on agreeing to the amendment (No. 748) of the Senator from Texas.

The amendment was agreed to.

Mr. LAUSCHE. Mr. President—

The PRESIDING OFFICER. Who yields time?

Mr. MUSKIE. I yield to the Senator from Ohio.

Mr. LAUSCHE. I desire to put a question. Does the bill contain any provisions allowing grants to be made to what are called community organizations not primarily responsible to Government and Government officials?

Mr. MUSKIE. Mr. President, we have discussed this matter privately. I desire to say for the RECORD that all grants under the demonstration cities program go to State and local governments.

Mr. LAUSCHE. Am I correct in interpreting the statement of the Senator from Maine that no effort has been made to guard against the evils that have grown up in the poverty program where money is being allocated to what are called community organizations?

Mr. MUSKIE. The grants under this program will be made only to established units of Government.

The PRESIDING OFFICER. The bill is open to further amendment.

Mr. JAVITS. Mr. President, I call up my amendment No. 742.

The PRESIDING OFFICER. The amendment offered by the Senator from New York will be stated.

The legislative clerk read the amendment (No. 742), as follows:

"TITLE IV—MISCELLANEOUS

"Study concerning relief of homeowners in proximity to airports

"Sec. 401. Section 1113 of the Housing and Urban Development Act of 1965 is amended—

"(1) by inserting '(a)' after 'Sec. 1113.'; "(2) by striking out 'one year after the date of the enactment of this Act' and inserting in lieu thereof 'six months after the date of the enactment of the Demonstration Cities and Metropolitan Development Act of 1966'; and

"(3) by adding at the end thereof the following new subsection:

"(b) There is authorized to be appropriated the sum of \$100,000 to carry out subsection (a)."

Mr. JAVITS. Mr. President, I yield myself 5 minutes.

This amendment is precisely the same as the provision in the House bill, which was not carried in the Senate bill. The purpose is to authorize \$100,000 for the purpose of implementing a section of the Housing Act which we adopted in 1965 regarding what can be done about insulating homes which are located near airports relating to noise from aircraft.

At that time, the \$100,000 required was not included in the supplemental appropriation bill. The Senator from Massachusetts [Mr. SALTONSTALL] said, when the appropriation bill came back from conference, that the amount was not included because it was thought the Federal Aviation Agency had enough money to do the job.

It developed that while the Federal Aviation Agency had the resources, it was interested only in a study of the noises made by aircraft as they approached airports or noise within the aircraft, but was not concerned with the noise as it affected housing.

Therefore, since that amount of time has elapsed, it appears that the purpose sought to be accomplished should be done in a housing bill. It was provided for in a section of the Housing Act of 1965. It may be that the Department of Housing and Urban Development can "scrounge" money enough to complete the study. Perhaps that can be done, but it is an irregular process.

Since there has been a concentration of jet airplanes, the administration is interested in the field of noise, and the amount of \$100,000 was included in the House bill.

From a practical basis, and so long as it is found necessitous, I hope we can assure that it will be provided for by adopting the amendment to the pending bill.

Mr. MUSKIE. Mr. President, I understand that the amendment simply undertakes to extend the time limits and to provide some money to implement a provision of law already on the books. We have approved the policy. I think this figure is reasonable to do the job. I am willing to accept the amendment.

I yield back the remaining time on the amendment.

Mr. JAVITS. I yield back my time on the amendment.

The PRESIDING OFFICER. All time

on the amendment having been yielded back, the question is on agreeing to the amendment of the Senator from New York.

The amendment (No. 742) was agreed to.

The PRESIDING OFFICER. The bill is open to further amendment.

Mr. JAVITS. Mr. President, I send another amendment to the desk and ask that it be stated. This is the only other amendment I have.

The PRESIDING OFFICER. The amendment offered by the Senator from New York will be stated.

The legislative clerk read the amendment, as follows:

On page 5, line 12, change the semicolon after the word "scheduled" to a comma, and insert the following: "and, in the carrying out of the program, the fullest utilization possible will be made of private initiative and enterprise;"

Mr. JAVITS. Mr. President, this amendment refers to the purpose section of the bill. This is the way it was always intended to be. Somehow or other the words were dropped out when the bill got to the floor. I think it would be reassuring to many to know that the impact of the bill is that it will be a private enterprise effort.

Mr. MUSKIE. Mr. President, this amendment also reflects the intent of the bill. It is the desire to stimulate activity of the private sector as much as possible. I am happy to accept the amendment.

The PRESIDING OFFICER. Do the Senators yield back their time?

Mr. JAVITS. I yield back my time.

Mr. MUSKIE. I yield back my time.

The PRESIDING OFFICER. All time on the amendment has been yielded back. The question is on agreeing to the amendment of the Senator from New York.

The amendment was agreed to.

Mr. RIBICOFF. Mr. President, I rise in support of S. 3708, the demonstration cities bill. The bill offers us the promise of restructuring and reshaping our cities. It can provide a beginning of efforts to channel our Nation's resources and wisdom toward solving the most critical problem of our time—the urban crisis.

This crisis will test the mettle of this democracy, just as the Nation's great wars, economic depressions, and natural disasters have tested that mettle. For this crisis concerns the very future of our democracy, and, in great measure, will determine the future course of the democratic ideal throughout the world. This crisis is joined in our cities, for this is the most powerful urban democracy in the history of the world. The crisis revolves about whether American cities can be effectively democratic, whether they can truly function in a democratic sense, or whether they will continue to sink into a welter of economic disuse and social disorganization.

The inadequacies of past efforts, for all their good intentions, are patently obvious in the growing headlines of riots, of the history of the world. The crisis re-

civil disobedience on a vast scale, throughout those festering urban slums of the cities, North and South, East and West.

The demonstration city program is small to start with in terms of dollars. But it is a beginning. I am pleased to have been a member of the President's task force which originally recommended this proposal.

Mr. President, this afternoon in Syracuse, N.Y., President Johnson will deliver an address on the problems of our cities which should be read by all. It is an important message because it lists what has been done to date and the responsibility of Congress on many pending measures. It also emphasizes the immensity of the problem and recognizes that a great deal needs to be done to meet it. I ask unanimous consent to include the text of the President's remarks at this point in the RECORD.

There being no objection, the address was ordered to be printed in the RECORD, as follows:

REMARKS OF THE PRESIDENT AT SYRACUSE, N.Y.

I want to talk to you today about the center of our society—the American city.

Over 70% of our population live in urban areas. Half a century from now 320 million of our 400 million Americans will live in cities with our larger cities receiving the greatest impact of this growth.

For almost three years my administration has been concerned with the question: what do we want our cities to become?

For you and your children, the question is: What kind of place will Syracuse be fifty years from now?

A city must be more than a collection of shops and buildings; more than an assortment of goods and services; more than a place to escape from.

A city must be a community where our lives are enriched. It must be a place where every man can satisfy his highest aspiration. It must be an instrument to advance the hopes of all its citizens. That is what we want our cities to be. And that is what we have set out to make them.

One word can best describe the task we face—and that word is immense. Until this decade, one description fitted our response: "too little and too late." By 1975 we will need two million new homes a year—schools for 60 million children—health and welfare programs for 27 million people over the age of 60—and transportation facilities for the daily movement of 200 million people in more than 80 million automobiles.

In less than 40 years—between now and the end of this century—urban population will double, city land will double, and we will have to build in our cities as much as has been built since the first settler arrived on these shores.

Our cities are struggling to meet this task. They increased their taxes by 39% between 1954 and 1963, and still their tax debts increased by 119 percent. Far more must be done if we are to solve the number one domestic problem of the United States.

Let me be clear about the heart of this problem: It is the people who live in our cities and the quality of the lives they lead that concern us.

We must not only build housing units; we must build neighborhoods. We must not only construct schools; we must educate our children. We must not only raise income; we must create beauty and end the pollution of our water and air. We must open new opportunities to all our people so that everyone, not just a fortunate few, can have access to decent homes and schools, to recreation and culture.

These are obligations that must be met not only by the Federal Government but by every Government—State and local—and by all the people of America. The Federal Government will meet its responsibility, but local government, private interests and individual citizens must provide energy, resources, talent, and toil for much of the task.

Many of the conditions we seek to change should never have come about. It is shameful that they should continue to exist. And none are more shameful than conditions which permit some people to line their pockets with the tattered dollars of the poor.

We must take the profit out of poverty. And that is what we intend to do.

First, I have asked the Secretary of Housing and Urban Development to set as his goal the establishment—in every ghetto of America—of a neighborhood center to service the people who live there.

Second, I have asked the Director of the Office of Economic Opportunity to increase the number of neighborhood legal centers in slums. I want these legal centers to make a major effort to help tenants secure their rights to safe and sanitary housing.

Third, I am directing the Attorney General to call a conference to develop new procedures to insure that the rights of tenants are fully and effectively enforced. We will have at that conference the best legal minds in the country to work with State and local officials.

Fourth, I will appoint a commission of distinguished Americans to make the first comprehensive review of codes, zoning, taxation, and development standards in more than two generations. I proposed the establishment of such a commission in my 1965 message on the cities. Both Houses of Congress this week agreed in conference to fund this effort. The work of the commission will begin immediately upon the enactment of this legislation.

These are steps we will take now. But let me be perfectly candid: This job cannot be done in Washington alone. Every housing official, every mayor and every governor must vigorously enforce their building, health, and safety codes to the limit of the law. Where there are loopholes, they must be closed. Where there are violations, the exploited tenant must be assured a swift and sure action by the courts.

Not even local officials, however, can change these conditions themselves. Unless private citizens become indignant at the treatment of their neighbors, unless individual citizens make justice for others a personal concern, poverty will profit those who exploit the poor.

The Federal government, of course, has a very large responsibility. And we are trying not only to fulfill but enlarge our role in the rebirth of American cities.

In 1961 we were investing \$15 billion in our cities. We have increased that nearly 100 percent—to almost \$30 billion. For the first three years of this decade these programs increased by an average of \$1½ billion per year. Since then, they have increased \$4 billion per year—2½ times the rate of increase in the previous three years.

We have made important new starts in many vital areas: in the War on Poverty; in assistance to law enforcement; in the attack on pollution; in the training of manpower; in the education of children; and in the improvement of our health.

But not all the answers are in. Not even all the questions have been asked. We must continue to search and to probe, to experiment and to explore. We need constant study and new knowledge as we struggle to cure what plagues the American city.

This is why, for the first time in our history, our cities have a place in the Cabinet. More than a century after President Lincoln created the Department of Agriculture, we have a Department to serve the needs of the

three out of four Americans who live in cities.

I have directed every member of my Cabinet who can help with our urban challenge to meet at least once a week in the White House—or as often as necessary, to keep our cities program moving. I have asked each one of them to go out into the cities and to see the needs for themselves—and to come back and tell me what he finds.

This is why we have brought to Washington the ablest men we could find in this country to concern themselves with the future of our cities. They have come from the universities, from business, and from labor. They are scientists, lawyers, and managers—creative men, men of vision, practical men.

This is why we have taken steps to set up summer programs for our youth, to keep the playground open later at night, to open swimming pools and open fire hydrants on hot summer evenings. These temporary steps do not take an act of Congress. Any city can take them. Every city should take them now.

There are responsibilities, however, which only Congress can meet. We need laws and new programs—and we need them this session.

I have proposed to Congress what could become the most sweeping response ever made to our cities' needs. This is the Demonstration Cities Program which is still before the Congress. It admits for the first time that cities are not made of bricks but of men. When Congress acts—and action is needed now—we will be able to make the first concentrated attack on urban blight and to rebuild or restore entire neighborhoods.

As we learn more, new ideas and new courses of action to improve our cities can be fitted into the demonstration cities program. It does not freeze our strategy and inhibit future change. It does not erode the power of local governments, but on the contrary gives cities new choices and new abilities, new ideas and new spurs to action.

Congress has already acted to provide the money for the rent supplement program that will mobilize private enterprise for our poor. Every \$600 of rent supplements will encourage private enterprise to build a housing unit with 20 times that amount.

Congress gave us \$18 million less than we need, and it only acted more than a year after we proposed rent supplements. But now we can move forward to help hundreds of thousands of poor families raise their children in clean and decent surroundings.

These are only two of the programs we have laid before Congress to help solve the problems of our cities. What we need now—and what American cities expect now—is action. Congress can pass this program and bring new opportunities to millions.

To the Congress I say:

Give us funds for the Teacher Corps—and let skilled teachers bring knowledge and a quest for learning to those children who need it most.

Give us more resources for rent supplements—and let us provide better homes for so many who live in substandard housing.

Give us the Civil Rights bill—and let us begin to break the chains that bind the ghetto by banishing discrimination from the sale and rental of housing.

Give us the means to prosecute the War Against Poverty—and let us provide jobs and training for adults and a head-start for the very young.

Give us the Child Nutrition Act—and let us offer breakfasts and hot lunches to needy children who can be encouraged to stay in school.

Give us the Hospital Modernization bill—and we can build and modernize hospitals to serve our urban citizens.

Give us the legislation—and we can help overcome a severe shortage of trained medical personnel.

Give us the money for Urban Mass Transit—and our cities can begin to provide adequate transportation for their people.

Give us a just minimum wage—and more American workers will earn a decent income.

Give us better unemployment insurance—and men out of work can be trained for jobs that need workers.

Give us the Truth in Lending bill—so that customers, especially those who are poor, can know the honest cost of the money they borrow.

Give us the Truth in Packaging bill—so the hard-earned dollars of the poor—as well as of every American—can be protected against deception and false values.

We have an agenda for action. We have taken the first steps toward great cities for a great society. Now Congress must act to give us the power to move ahead on all these fronts.

This is no time to delay. This is no time to relax our efforts. We know there is no magic equation that will produce an instant solution to the blight and poverty and want deposited in our cities by decades of inaction and indifference.

But we also know there is no substitute for action.

I do not know how long it will take to rebuild our cities. I do know it must not—and will not—take forever. For my part, I pledge that this Administration will not cease our efforts to make right what has taken generations to make wrong.

We have started down that road. Until each city is a community where every member feels he belongs, until it is a place where each citizen feels safe on his streets, until it is a place where self-respect and dignity are the lot of each man—we will not rest.

This is what men have always dreamed their cities would be. And this is what we seek to build.

DEMONSTRATION CITIES ACT WILL HELP TO MAKE OUR CITIES FIT FOR PEOPLE

Mr. DOUGLAS. Mr. President, our society, whether it becomes the Great Society or not, is primarily a city and suburban society. No nostalgia for the rural America of the 19th century will change the basic fact that 70 percent of our 190 million people live in some 700 cities and their suburbs. No foreseeable action will reverse the constant increase in both the numbers and the proportion of our people who live in cities.

So when we speak of the problems of our cities and urban centers, we speak of the problems of nearly all of us now, and the problems of virtually all of us soon.

PROBLEMS OF THE CITIES WEIGH HEAVILY ON THE POOR

In the narrow but still human sense, the problems of cities are primarily the problems of the poor. And to be even more exact, they are primarily the problems of Negroes and of the whites from poorer families. Sixty-five percent of our Negro citizens lived in urban areas in 1960; of these, 80 percent lived in the central cities. In the last decade and a half, the more prosperous whites have left the central cities for the suburbs to be replaced by Negroes at a rate generally just sufficient to keep the central city populations static in numbers. Every major city contains, moreover, large areas of concentrated and exclusive Negro populations. There are also concentrations of the poorer whites and the Latin Americans.

Mainly, these are the slums, the deteriorating areas, where the adult in-

habitant is restricted to one-half the median income of that of the average person; where he has less than one-half the chance of full-time employment; where his family is three times as likely to live in substandard housing; where the children are more likely to have more crowded classrooms and less qualified teachers.

The Nation's cities are faced with an immense and increasing demand for municipal facilities and services. This demand is straining their financial resources—resources unfortunately tied to shrinking sources of revenue. In trying to meet these demands, one of the most intricate problems facing cities is that of blighted areas with their high and constantly increasing demands for services and their declining taxable values.

COSTS GREATER THAN CITIES CAN BEAR ALONE

The economic cost to cities of slums and blighted areas is staggering. Cities are caught in a descending spiral which leads to widespread municipal insolvency. The continuing spread of blight reduces the taxable value of city land. As slums and blight spread, crime, delinquency, and disease follow.

As the need for city services grows, the city's ability to provide these services is impaired by the very blight that creates the demand. Greater blight, greater demand for city services, decreasing revenues to meet the demand—that is the downward spiral in many American cities. In these circumstances, it is not surprising that the cities with the greatest slum problems have the least capacity to deal with these problems.

Moreover, the efforts of our cities to help themselves are in too large measure self-defeating. The more determined the city's efforts to raise funds to meet the need for increased services, the more likely it is that such efforts will further drive its economically affluent citizens to the nearby suburbs. Similarly, the greater the burden which the city places on industry within its borders, the smaller its opportunity to attract and hold the industry and commerce which its economy requires. As a result, the city becomes, increasingly, a home for the economically deprived, those least able to bear the cost of municipal services.

Until the 1920's, the city's dominant function was that of the melting pot, the instrument through which 40 million immigrants were assimilated into American life. The city, through its various public and private institutions, provided millions of foreign-born with food, shelter, jobs, and education.

"NEW IMMIGRANTS" REQUIRE HELP

The past generation, however, has brought a new and different type of immigration to our cities—not of the foreign born, but of economically and culturally disadvantaged rural Americans. The migrants of the past generation, beginning with the years of the great depression, came to the city unprepared for the demands and pressures, and the dwindling opportunities, of urban life. They were largely unskilled, uneducated, and unwanted. Unable to adjust to an increasingly mechanized, complex, and often hostile urban society, they found neither the jobs nor the other

opportunities which the earlier generations of city dwellers found. Today, they are the unemployed, the welfare and relief recipients of every American city.

The city today must provide jobs and adequate housing and education for millions of the Nation's unemployed, ill-housed, and uneducated. It must provide community facilities and health and social services on a scale unprecedented in the Nation's history. And, it must do so in the face of overwhelming demands on its skills and resources.

It would be a disservice to the long and vigorous efforts of many of the outstanding leaders of our cities to suggest that the Federal Government can abruptly solve the problems of our cities where local leadership has not been fully successful.

But it is true that with their own limited resources and the existing Federal grant-in-aid programs, cities have not been able to deal adequately with the entire range of their problems. The size and scale of their efforts has been too small, and too widely disbursed.

Present programs are often prisoners of archaic and wasteful building practices. They have inhibited the use of modern technology and they have often inflated the cost of necessary rebuilding.

The goals of the existing major Federal grant-in-aid programs have often lacked cohesiveness. Some work for the revitalization of the central city. Some disrupt it.

TO IMPROVE THE CONDITIONS OF LIFE

In sum, we have still not firmly launched the effort necessary to assure that our cities will be fit for people. In his "Cities" message to the Congress on January 26, President Johnson said:

It is clear to me that American cities require a program that will . . . concentrate our available resources—in planning tools, in housing construction, in job training, in health facilities, in recreation, in welfare programs, in education—to improve the conditions of life in urban areas.

The demonstration cities bill now before us, and in particular title I, will help our outstanding leaders—local, State and National—to show the Nation how we can provide both the human and the physical renewal of our cities.

This legislation will enable cities of all sizes for the first time, to undertake an intensive and coordinated attack on large sections of the city which suffer from blight and decay. It will enable the cities, in conjunction with physical renewal programs, to undertake new needed social and welfare services for the disadvantaged residents of their blighted and decaying neighborhoods.

The legislation will at last encourage programs of the scope and magnitude needed to stop the physical and social deterioration of large sections of our cities. It will make possible the concentration of all available educational, health, and social services on the problems of the poor who live in the vast slums and blighted neighborhoods so that their social needs will be met at the same time the physical rehabilitation of the slums is being carried out. It will help provide massive additions to the

supply of low- and moderate-income housing.

AMOUNTS AUTHORIZED ARE CONSISTENT WITH
PRESIDENT'S RECOMMENDATIONS

Mr. President, the amounts authorized by the bill to carry out the city demonstration program are consistent with the administration's estimates of expenditures for this program. The authorization provided by the bill will permit a reasonable beginning over the next 2 years.

The bill authorizes appropriations of \$12 million for financial assistance—through 80 percent grants—for planning comprehensive city demonstration programs for the fiscal year ending June 30, 1967, and an additional \$12 million for planning such programs during the fiscal year ending June 30, 1968. The bill authorizes \$400 million for the fiscal year ending June 30, 1968, for supplemental grants to help finance the activities undertaken as part of demonstration programs, and \$500 million for this purpose for the fiscal year ending June 30, 1969.

These amounts will permit us to finance the first 2 years of the 5-year program proposed by the administration.

During the next 2 years Congress will have an opportunity to evaluate the experience under this program. I have high hopes for the program. If it is as successful as I believe it will be, the Congress can provide—on the basis of plans submitted by the cities, the progress of activities being carried out by cities under comprehensive demonstration programs already approved and underway, and the budgetary situation existing at the time—a continued reasonable annual rate of funding for comprehensive city demonstration programs.

NOT INFLATIONARY

This bill has no inflationary effect. Except for \$12 million authorized to finance the planning of demonstration programs during fiscal 1967, not 1 penny of the money authorized by this bill can be spent until after July 1, 1967. Indeed, it is doubtful that any substantial amount of the \$400 million authorized to be appropriated for the fiscal year after July 1, 1967, to carry out demonstration programs can actually be spent before late 1968.

As all of us here know, there is a great amount of leadtime involved in getting these programs off the ground. The situation in our cities is such that we cannot tolerate unnecessary delay. If we authorize work to be begun immediately—actual accomplishments will come none too soon.

So the actual expenditures of the amounts authorized by this bill to be spent for demonstration cities will not take place until well into the future. It may well be that by the time the funds we authorize today are to be spent, they will stimulate a sluggish economy as well as permit cities to meet vital public needs. But regardless of the pace at which our economy may be operating in 1968 and 1969, the expenditures authorized by this bill are vitally necessary and extremely small in relation to the need.

HUMAN RENEWAL IS ALSO NEEDED

In order to qualify for assistance under this legislation, a city must be prepared

to plan and carry out a comprehensive city demonstration program. This assistance will be for a local program; planned and carried out by local people; and based on local judgment as to the city's needs and its order of priorities in meeting these needs.

Frankly, this program will ask a great deal of a qualified city, large or small, which undertakes such a program.

By my support of this legislation, I do not mean to suggest that local leadership has neglected social renewal, but in most cases their hands have been tied by a lack of funds and the absence of clear national policy to encourage a comprehensive renewal in both human and physical terms.

The Demonstration Cities Act has two substantially new elements: first, this emphasis on human renewal—on schools, jobs and health services within large areas; and second, the use of new techniques which will permit more efficiency and less waste motion in our efforts.

It must be emphasized, moreover, that this is a large-scale demonstration. It is an invitation to the best leadership in our cities. Its purpose is to demonstrate to the Nation what we really can do when we make a maximum effort. It will demonstrate to the Nation that we can rescue our cities. I believe it will result in tremendous national support for additional comprehensive efforts of very large magnitude.

Cities will not find it simple to qualify. This legislation is designed to help those cities willing to face up to their responsibilities; willing to fully commit their energy and resources; willing to undertake actions which will have widespread and profound effects on the social and physical structure of the city.

REQUIREMENTS FOR CITY DEMONSTRATIONS GRANTS

The requirements for this assistance ask for real initiative from our local leaders. A demonstration program must meet these criteria:

First, the physical and social problems in the area of the city covered by the program must be such that a comprehensive city demonstration program is necessary to improve the physical environment, increase the supply of adequate housing for low- and moderate-income people, and provide education and social services vital to the public health and welfare.

Second, the demonstration program must be of sufficient magnitude to make a substantial impact on the social and physical problems and to remove or arrest blight and decay in entire sections or neighborhoods; to contribute to the sound development of the entire city; to make marked progress in reducing social and educational disadvantages, ill health, underemployment, and enforced idleness; and to provide educational, health, and social services necessary to serve the poor and disadvantaged in the area, widespread citizen participation in the program, maximum employment opportunities for residents of the area in all phases of the program, and enlarged opportunities for work and training.

Third, the program, including rebuilding or restoration, must contribute to a well-balanced city with a substantial in-

crease in the supply of standard housing of low and moderate cost, maximum opportunities in the choice of housing accommodations for all citizens of all income levels, adequate public facilities—including those needed for education, health, and social services, recreation, and transportation—commercial facilities adequate to serve the residential areas, and ease of access between the residential areas and centers of employment.

Moreover, the bill requires, as additional related criteria, that: the local governing body has approved the program and, where appropriate, application for assistance under the program; adequate local resources are, or will be, available for the completion of the program as scheduled; agencies whose cooperation is necessary to the success of the program have indicated their intent to furnish such cooperation; administrative machinery is available at the local level for carrying out the program on a consolidated and coordinated basis; local laws, regulations, and other requirements are, or can be expected to be, consistent with the objectives of the program; the demonstration program include a plan for relocating individuals, families, business concerns, and non-profit organizations displaced or to be displaced in carrying out the program; and the demonstration program be consistent with comprehensive planning in the entire urban or metropolitan area.

FULL RANGE OF PHYSICAL RENEWAL AND SOCIAL SERVICE

What this legislation offers, in summary, is the full range of existing Federal programs of physical renewal and social service. If the city is prepared to undertake such comprehensive renewal and revitalization, it will, in effect, receive Federal matching grants for presently existing programs at a lower rate of local matching. But the city must maintain at least the existing level of effort, so the supplemental grant will enable it. This will permit the city to do more under Federal grant programs for the same amount of local cash or to spend the additional Federal funds on related programs in the demonstration.

BOTH PRIVATE AND PUBLIC EFFORTS

In a comprehensive demonstration, therefore, a city can bring together private and public efforts to provide such facilities and activities as: housing for low-income families; facilities for the abatement of air and water pollution; schools; hospitals; transit systems; open-space land; water and sewer facilities; neighborhood recreation centers; parks; housing relocation programs; adult education and manpower training services; day-care centers for underprivileged children; special education programs such as consumer and domestic science classes; incentive pay to teachers of problem students; better trash collections and better garbage disposal; street cleaning; more and better street lighting; the elimination of rats; programs for applying advanced technology to the construction of city buildings; revised and modernized housing and building codes and zoning laws to assure proper city development.

In many demonstrations, financial assistance for such projects and activities will be available under existing Federal grant-in-aid programs. Hospitals, for example, receive assistance under the Hill-Burton program; transportation facilities under Mass Transportation Act of 1964; and manpower training programs under the Manpower and Development Training Act of 1962. The supplemental grant made available under the Demonstration Cities Act will ease the city's financial burden in meeting its local share of such programs. In cases where projects and activities involved in demonstration programs are not assisted under existing Federal programs—for example, a program for neighborhood health and social centers—the supplemental grant available under the act will help to finance the carrying out of such projects and activities.

The supplemental grant will be for an amount up to 80 percent of the aggregate amount of the non-Federal contributions required to support the projects or activities assisted by the Federal grant-in-aid programs which are undertaken in connection with such demonstration programs.

EXAMPLE

A comprehensive city demonstration program may involve, for example, 10 distinct projects or activities. A number of these may be financed under existing Federal grant-in-aid programs. Thus, there may be included in the comprehensive city demonstration program an urban renewal project, a Hill-Burton hospital, a federally assisted school construction program, and a public housing project. Each of these is supported in part by a Federal grant under the various Acts establishing the program, and in part by a State, local, or private matching. The proportion of the local share of the total cost varies among the programs. Urban renewal, for example, in two-thirds Federal; one-third local.

If the required aggregate non-Federal contributions to these Federal grant-in-aid projects amount to \$5 million, the Secretary of Housing and Urban Development will make a grant to the city of 80 percent of that amount, or \$4 million. The city would then be free to use the \$4 million grant under the Demonstration Cities Act both to: First, to provide part of its required local share of projects funded under the existing Federal grant-in-aid programs; and second, provide funds to carry out the other, nonfederally assisted projects or activities undertaken as part of the demonstration programs.

MUST MAINTAIN EFFORT

Of course, we have to be certain that this additional assistance to cities is not used simply to replace local funds already being used by cities to rebuild and to provide community facilities and services. Accordingly, it is required, as a condition to receiving assistance for administering the comprehensive demonstration program, that the city not reduce, during the period an approved program is carried out, its prior level of expenditures for projects or activities similar to those being assisted under the demonstration program.

Fundamentally, the city demonstrations bill asks cities to do much more even than the full scale use of Federal grant assistance.

It calls on the cities to act, in conjunction with their demonstration programs, to develop entirely new techniques of rebuilding and restoring slum and blighted areas.

NEW TECHNIQUES

In determining whether a city demonstration program which meets the criteria I have outlined may be approved, the Secretary of Housing and Urban Development also will consider the extent and nature of purely local actions which encourage more rational urban development. The bill requires that the Secretary, in implementing the demonstration program, shall:

First. Emphasize local initiative in the planning, development, and implementation of comprehensive city demonstration programs;

Second. Insure, in conjunction with other appropriate Federal departments and agencies and at the direction of the President, maximum coordination of Federal assistance provided in connection with this title, prompt response to local initiative, and maximum flexibility in programing, consistent with the requirements of law and sound administrative practice; and

Third. Encourage city demonstration agencies to enhance neighborhoods by applying a high standard of design, maintain, as appropriate, natural and historic sites and distinctive neighborhood characteristics, and make maximum possible use of new and improved technology and design, including cost reduction techniques.

NOT A SUBSTITUTE FOR URBAN RENEWAL

Mr. President, I wish to emphasize that the demonstration cities program is not a substitute for urban renewal, nor is it intended to siphon off to the cities which participate in this program the existing grant authorization for urban renewal. To help clarify this intent, the subcommittee adopted my "in addition to urban renewal" motion to amend the declaration of purpose in section 101 so that it now reads:

The Congress further finds and declares * * * that Federal assistance in addition to that now authorized by the urban renewal program and other existing Federal grant-in-aid programs is essential.

In most communities, the urban renewal program will be the major existing program included in the demonstration cities programs. To protect those cities which do not participate under demonstration cities, the committee bill also authorizes \$250 million in new urban renewal grant funds which will be available after July 1, 1967, for urban renewal projects which are identified and scheduled to be carried out as one of the projects or activities included within approved city demonstration programs.

The demonstration cities program asks an added effort. It does not encourage simply an acceleration of urban renewal, any more than it intends a diversion of funds from some cities to other cities under existing grant programs.

WE ASK A MAJOR COMMITMENT TO SOCIAL JUSTICE

These commitments which we ask of our cities should not be taken lightly. Cities will not find them easy to fulfill. They represent, in fact, an enormous demand upon local talent, leadership, and resources. But nothing less will do. What we sometimes casually refer to as the problems of cities are no less than the facts of our society. There is no longer room to escape from or to bury the conditions of city life. The health of our cities is the health of us all. The plight of the poor in our cities restricts for all Americans—in our consciences and in our daily lives—the promises of life, liberty and happiness. We can make our cities fit for people, and I believe that the demonstration cities bill will permit us to demonstrate that the job which must be done can be done.

Mr. PELL. Mr. President, I wish to express my strong support for the demonstration cities legislation now before the Senate, and to express my hope, also, that this very sensible bill will pass the Senate in substantially unchanged form.

We have been hearing a great deal in recent days about what is wrong with our Federal assistance programs for cities. The Senator from Connecticut and others have focused on many aspects of these programs which have not always improved the quality of urban life in the ways that were expected or intended.

My own State of Rhode Island, which is among the most urbanized of all, knows all too unhappily how some of these federally supported programs can fall short of the mark. We have had our share of urban renewal projects that displaced hundreds of people and transplanted them into settings that were not much better than the area being rebuilt. And Providence, like so many other cities across the land on this long, hot summer, has reaped its share of the inevitable fruits of such action.

As poorly conceived as some of our programs may now appear to be, and as distressing as some of the public results have been, I am very pleased to note that some of the sternest critics during the past few days have placed great hope in the bill which is now before us. It seems to me that the demonstration cities program does, in fact, hold the key to a more orderly resolution of the urban dilemma.

The chief merit of the bill, as I see it, is the emphasis and incentives which it provides for coordinated action. It not only seeks to relate various Federal programs one to another, but also seeks to program them in a systematic way so that housing, jobs, education, recreation, and health facilities will come together in the way they should to provide a proper community environment.

I have become more and more convinced of the need for such rational coordination in recent years as I have dug deeper and deeper into the problems of public transportation. I am convinced more than ever of the need for swift, efficient ground transportation between urban centers in such areas as the northeast seaboard, and I am watching with interest the progress of the \$90 million program authorized last year by the

High Speed Ground Transportation Act. I am increasingly impressed, also, with the way in which the total human environment must be considered when one element alone is changed. Innovations in transportation affect economic development, land use, population distribution, water supply, air pollution, the demand for recreation facilities and a host of other matters.

And so it is with the internal workings of our cities. We must be concerned with the total human environment, and we cannot afford the unbalance caused by uncoordinated action. I have been particularly impressed, in this regard, by the writings, and thinking of Constantinos Doxiadis, the brilliant Greek city planner, who has been concerned with this very problem of uncoordinated public action. Speaking on a recent "Meet the Press" program, Dr. Doxiadis described the problem in these words:

Every one of the people who are concerned with the city speaks about one aspect, usually: economic, social, political or administrative, technological, or cultural or esthetic. And this is a great danger because we speak of one aspect of a very complicated problem.

To meet the danger, Dr. Doxiadis has established a new scientific discipline, the science of human settlements, which he calls "ekistics." It brings together such traditional disciplines as geography, economics, sociology, and architecture into a coherent, scientific effort to shape the environment in human terms.

There are thus striking similarities between Dr. Doxiadis' thinking and the legislation before us today. Both are concerned with intelligent coordination and both emphasize that human needs should be the ultimate objective of our efforts to change the urban environment. We can reflect usefully, I believe on this emphasis on human needs as one of the essential differences between planning and social action in a free society and that of a controlled, communistic society where the human element must so often yield to economic determinants. The bill before us would do much to allow for the human element in our urban programs. It is a big step in the right direction, and I am glad to support it.

Mr. MCINTYRE. Mr. President, when the administration first sent up its proposal for a new demonstration cities program for our Nation, I read through the language of the original bill and was, quite frankly, shocked.

My astonishment was not with the nature of the original demonstration cities proposal, nor with its goals. The goal of helping to restore the municipalities of our Nation, small towns as well as big cities, to their rightful place as viable communities, is shared by all Americans.

We all join in agreement with our President when he described the problems of our cities—the slums, the crime rates, the lack of basic facilities—as our "biggest domestic problem."

My astonishment, and dismay, was rather with the staggering costs projected for the demonstration cities program. The administration bill was open ended; no limit was placed on the

amounts which could be spent. Stories were going around that this program could cost \$5 billion, \$10 billion. Cries were heard for expenditures in the near future of over \$20 billion.

I, for one, did not, and do not now, believe that our Federal Government, faced with the continuing costs of Vietnam, faced with constantly rising demand in the economy, could properly spend that much of our taxpayers' money on such domestic needs, even though these needs were legitimate and had some priority, until we had ended our heavy military expenditures in Vietnam by defeating the forces of the Vietcong.

Mr. President, when this bill came before the Subcommittee on Housing, we acted properly to change its form into a more moderate, responsible approach to the problems of our towns and cities. Under the leadership of the distinguished Senator from Maine [Mr. MUSKIE], the committee made the operating provisions of the bill more precise, more responsibly tailored to the most urgent needs of the cities, and generally more moderate in its approach.

As for the open-ended price, the subcommittee quickly moved to put a brake on the maximum spending on this program. Our Republican colleagues moved that the total operating funds in the bill be limited to a total of \$2.3 billion. I personally felt that this figure was far, far too high, considering our other priority needs, the state of the Treasury, and the possibility of mounting costs in Vietnam.

I moved in subcommittee that the total operating price tag be reduced by an additional \$1.4 billion to its present \$900 million. While this still represents a large sum, I believe that it represents a reasonable and moderate compromise with those who were in favor of spending untold billions of dollars at this point in our history. Thus I support the bill in its present form.

I would like to add a few words about one specific portion of this bill in which I take a great deal of pride of authorship. I refer to title III of the bill as reported, which provides for urban information centers and other technical assistance functions.

Title III had its genesis in a problem faced by many communities in New Hampshire and across the country, especially small cities and small towns. This is the problem of technical expertise in the process of applying for Federal programs, and knowledge of the various programs which exist to provide a working partnership between the Federal Government and local communities for the benefit of the communities.

Many communities in New Hampshire have applied for participation in Federal programs, only to be turned down—not because the application was not meritorious—but rather because the community had failed to comply with the detailed requirements of that particular program, or because the program applied for was not as appropriate as others might have been. My office receives calls almost daily from selectmen and city councilmen whose communities, faced

with a need for heavy spending for basic facilities, are interested in Federal assistance but are unaware of the particular Federal agencies or the specific requirements involved in participation in these projects.

This problem is not the fault of the communities involved. It is rather the expected result of the enormous proliferation of Federal agencies administering programs of Federal-community self-help and financial assistance. This is a problem which has engaged the attention of the Senate Subcommittee on Intergovernmental Relations for some time.

What title III of this bill attempts to do is to provide for the establishment of urban information and technical assistance centers to help communities to assess and qualify for the many opportunities—Federal, State and private—to meet their own needs.

There are two particular points which should be made about title III.

The first is that the staffing of the centers established by this title will be by non-Federal employees. Thus, although the Federal Government will provide part of the funds for the centers, the staff members will be local employees, responsible to the State governments or the municipal governments for whom the centers are established.

Thus we hope to avoid the problems which have arisen in the past when Federal employees, in agency regional offices, have been unwilling or unable to cooperate fully with the local official with whom they work. This is a provision which will place the control over information and technical assistance right where it belongs, in the hands of local government.

The second point involves the type of technical assistance to be rendered by the centers. It was our belief that big cities are perfectly able to afford the staff people who have the know-how and ability to qualify their municipal employers for Federal programs. There is no need in having the Federal Government pay part of the salary of a New York City official whose job involves applying for Federal funds.

In the small cities and towns, however, this need for "know-how" does exist. Small town budgets cannot afford the cost, and small town officials cannot afford the time, to become expert in all Federal and other financial programs and methods of qualification.

Under title III, therefore, we have distinguished the types of activities which urban information centers can perform according to the size of the communities which they serve. In the big cities, urban information centers will be restricted, in general, to the collection of urban data, not otherwise routinely available.

In the small towns, and for the urban information centers covering collections of small towns which will be run by the States, the urban information centers will provide technical assistance. This means that, in the State of New Hampshire, for example, the State government will be able to establish a center

using these Federal funds which can be staffed with knowledgeable people able to sit down with town selectmen and explain the disadvantages and advantages of available Federal and other programs and actually assist the towns in preparing their applications.

I believe that title III of this bill will prove to be of meaningful help to every small town and small city in America. Its inclusion in the demonstration cities bill changes the character of the bill from one directed basically at big cities to one offering help to all sizes of communities. I urge my colleagues to support the passage of this bill.

Mr. NELSON. Mr. President, I offer my full support to the demonstration cities program. The situation in our cities has become a crisis. Seven million urban families live in deteriorated houses, in blighted areas lacking decent schools, recreation areas, and shopping facilities. Our cities suffer from congestion, poor planning, and lack of adequate public transportation. The crime rate is rising sharply.

The brunt of these conditions is borne by those who have limited power to change the situation—by Negroes and other minority groups living in the inner cities of our major metropolitan areas. The 1960 census revealed that 80 percent of American Negroes were crowded into the central cities. In the worst areas of the cities the unemployment rate for Negroes between the ages of 24 and 44 is 8.7 percent, while the national rate of unemployment has been lowered from 4.1 percent last December to a current 3.9 percent.

Economic decline is plaguing our cities. Tax revenues are falling, businesses are moving out of the cities, and this only compounds the tragedy of hard-core unemployment.

The future is not bright. The frustrations born of despair have led to riots and violence. We must act and act now.

By 1975 we will need schools for an additional 10 million children.

We will need an additional 2 million homes a year.

We will need transportation systems to move 200 million people and 80 million automobiles per day.

Most important, we will have to create 14.6 million new jobs.

These crucial problems are the critical areas upon which we must focus our domestic attention in the years to come. No panacea can be produced to solve the problems overnight.

Passage of the demonstration cities program will be an important first step. The program will employ joint Federal and local action to restore and rebuild neighborhoods in the worst of the slums.

Cities are involved in a maze of Federal programs. While current programs are aimed at alleviating particular conditions in a slum neighborhood, no program exists to replan and rebuild the entire areas.

The demonstration cities program will authorize the Department of Housing and Urban Development to plan for the restoration of such areas. Supplemental grants for communities will also be available.

The \$12 million authorization for fiscal years 1967 and 1968 and the supplemental of \$400 million for 1968 and \$500 million for 1969 are worthwhile investments. We shall have to be prepared to exceed these amounts if we are to avert the disasters in store for our cities.

There is a tendency to think of the problems of our cities as being limited to huge metropolitan areas, such as New York, or to think of them as a problem which should concern only specialized groups, such as civil rights leaders, or elected city officials.

This is not correct. The problem of the cities is a problem for all of America. The crisis of the cities is a nationwide crisis.

The people in our State—known as a beautiful land of green forests, rolling farms, and sparkling blue lakes—are becoming more and more concentrated into a relatively small urbanized area. About three-fourths of our 4 million residents are now concentrated in the southeastern corner of the State—in cities such as Milwaukee, Madison, Racine, Kenosha, Waukesha, Fond du Lac, and Sheboygan.

Within many of these cities, gigantic problems are building up. The inner cores are becoming old and dilapidated. Higher income families are moving to the suburbs—which also have their problems—and these deteriorating centers of our cities are left largely to lower income families. This is creating serious social and economic problems.

Most of these cities face serious problems with their traffic, schools, streets, water and sewer services, housing, and law enforcement.

The overriding problem, of course, is financial. At this moment of crisis, the cities of Wisconsin find themselves almost powerless to help themselves because their principal source of revenue is a severely overburdened and inequitable property tax.

I wonder if we realize how we have starved the cities for tax revenue. In 1930, local government in Wisconsin received about 56 percent of all taxes collected, including Federal. It now receives only 16 percent.

Property taxes are steadily increasing, further aggravating the flight to the suburbs.

In 1961 in Wisconsin we enacted a property tax relief program which reduced property taxes by 11 percent statewide. But by 1965, the full effect of this tax relief program had been wiped out by tax rate increases.

The cities of Wisconsin estimate that there will be a \$150 million a year gap between their revenues and their expenses by the early 1970's—even though their bonded indebtedness has increased 250 percent in the past decade.

Obviously, this is a crisis of tremendous proportions.

A bold, imaginative Federal program is needed to help these cities find the way out of their problems.

There is no guarantee that the demonstration cities program will become an overnight success. The road ahead is a difficult one. But the issue cannot be dodged or avoided any longer. We have

no choice but to act. I am certain that the Congress will meet its responsibility and pass this vital legislation as an important step forward in coming to grips with the crisis in our cities.

METROPOLITAN PLANNING NEEDED

Mr. YARBOROUGH. Mr. President, the Committee on Banking and Currency has reported favorably S. 3708, the Demonstration Cities and Metropolitan Development Act of 1966. This legislation recognizes the problems of metropolitan growth and takes initiative in meeting present and future urban needs.

Title I of this bill, the comprehensive city demonstration programs, is similar to S. 2842 which I was privileged to cosponsor earlier this session. Titles II and III provide for planned metropolitan development and urban information services. This legislation is timely and well suited to meet the growing problems of urban areas.

More than two-thirds of the population of the United States live in metropolitan areas. Most cities are ridden with slums and blighted areas in which the underprivileged and poor tend to concentrate. Over 7 million homes in urban areas are run down or deteriorated. Crime and disease are prevalent. A coordinated Federal-local effort is necessary to combat these potentially explosive areas.

The demonstration cities approach is designed not merely to accelerate urban renewal projects but to place in better balance existing social and physical renewal programs aimed at meeting the needs of people living in slum and blighted areas. S. 3708 emphasizes local initiative and responses to local problems. The success of the program rests on the ability of local people to assess their own most pressing problems and devise their own solutions. All cities will benefit by the example of the demonstration cities program. The solutions devised to typical urban problems will be applicable throughout the country.

Title I of S. 3708 authorizes the Secretary of Housing and Urban Development to make grants and provide technical assistance to enable city demonstration agencies to plan, develop, and carry out comprehensive city demonstration programs. To qualify for assistance under title I, a city must be ready to mount a creative, responsible attack against major urban problems. Its physical and social problems must be suitable for a comprehensive city demonstration program which will have a substantial impact upon the blighted area. Title I would authorize appropriations not to exceed \$12 million for planning comprehensive programs for the fiscal year ending June 30, 1967, and the same amount for fiscal year ending June 30, 1968. To provide supplemental grants needed to carry out the comprehensive demonstration programs, planned by the cities, the bill authorizes an appropriation not to exceed \$400 million for fiscal year ending June 30, 1968, and not to exceed \$500 million for the fiscal year ending June 30, 1969.

Title II provides for planned metropolitan development, strengthening Federal policy in four ways. It authorizes

and encourages cooperation between Federal departments and agencies with respect to programs affecting metropolitan development. To provide information and assistance concerning programs of the Department of Housing and Urban Development the bill authorizes the appointment of metropolitan expeditors. It requires review and comment on applications for Federal assistance by area-wide comprehensive planning agencies and provides additional incentive, through supplemental grants for federally assisted development activities. The title would authorize grant appropriations of up to \$25 million for fiscal year 1967 and \$50 million for fiscal year 1968. These authorizations would remain available until appropriated, and amounts appropriated would remain available until expended. The proposed new program under title II would encourage coordination of local planning and Federal assistance.

Under title III of S. 3807, urban information and technical assistance services are established. Centers will be created to make available information and data on urban needs and to provide technical assistance to small communities with respect to solution of urban problems. The knowledge gained through the demonstration cities can thus be shared with communities throughout the country.

S. 3807 is a forward-looking bill which endeavors to control the problems of metropolitan growth and make our cities well-balanced with a full range of services and opportunities. City dwellers deserve decent homes and pleasant communities. I support this legislation and urge its immediate passage.

Mr. YOUNG of Ohio. Mr. President, the Demonstration Cities and Metropolitan Development Act of 1966 is among the most important legislative proposals on which the Senate will act this year. Major causes for recent rioting and mob disorder in Cleveland, Ohio, and in other great cities of the Nation were indignities of ghetto life—the pent-up frustrations, unemployment, and the hopelessness of many persons living in crowded and neglected city slums.

We, in the Congress, as well as city and State officials and community leaders must bear some blame for our failure and delay in providing adequate housing and in removing intolerable conditions in urban areas of this Nation.

There are more than 7 million homes in our cities that are substandard—run down or deteriorating. More than 3 million do not have adequate plumbing or hot and cold running water. The central section of many of our cities are virtually decaying.

More and more it is the old, the poor and the underprivileged who are concentrated in these blighted areas where crime, delinquency, poverty, and disease flourish. While the need for municipal services grows, the cities' ability to provide these services is hampered by the very blight that creates the demand.

It seems clear that the elimination of slum misery requires new programs. Cities, no matter how well they have been managed in recent years, are destitute of necessary finances. Therefore, the

Federal Government must step in without delay and give hope to the hitherto hopeless and provide decent homes for those thousands who have been living in the midst of filth, stench, overcrowded in dark, ugly, and dirty tenements. We Senators would do well to stop, look, and listen before appropriating additional billions of dollars for foreign aid to so-called underdeveloped countries. Very likely, one-third of the billions of dollars spent for foreign aid since the end of World War II has been squandered or stolen by officials of countries we desired to aid. Unfortunately, some has been squandered by our own AID officials. If only 10 percent of our foreign aid appropriations from 1953 to 1966 had been eliminated and spent in our country to do away with city slums and ghettos and to aid high school dropouts and provide employment, recent rioting in city slums would not have occurred because the worst slums would have been eliminated. We should emphasize for our good Uncle Sam what is written in that book of all books, "Physician, heal thyself."

One of the first steps we in the Congress can take toward coping with the problems of our cities is to approve the demonstration cities bill. President Johnson has attached to this legislative proposal the rank of "first domestic priority." This is rightfully so for this legislation is directed at relieving and solving one of the most profound internal problems with which our country has had to wrestle since the days of the great depression.

Our cities, blighted at their centers and ringed by an unplanned growth of suburbs, are beset by problems which are completely beyond their ability to solve alone. Between 1954 and 1963 their tax revenues increased by 43 percent and local government indebtedness increased by 119 percent. With limited sources of revenue the cities have waged a heroic battle against problems which are overwhelming them. They must have help.

We in the Congress have created almost 200 different programs of urban assistance and development for one or another special area of need. Although present programs have produced solid benefits, we have learned that piecemeal attacks, no matter how numerous and no matter how sound are simply inadequate to the total need. The demonstration cities bill recognizes that fact and provides a means by which our cities can assess their total problem and then choose from the wide range of existing urban assistance programs those ingredients which they determine are needed to answer it.

This is no Federal master plan. Decisions will be made at the local level by local officials who know and understand their own local problems.

The bill provides our cities with a trigger in the form of supplemental grants, which will enable them to do their planning on the scale and at the depth necessary to comprehend and attack the whole problem. Upon qualification for participation, a demonstration city would then draw from programs already in existence and already funded

the assistance needed to put their programs into operation.

Mr. President, my home city of Cleveland, Ohio, is a prime example of the need for intensive and effective local-Federal action. Obviously one of the causes of the recent rioting in Cleveland was the terribly inadequate and long-neglected housing condition throughout the Hough Avenue area. The neglect of that entire area is inexcusable.

I deplore the violence which exploded throughout Cleveland. However, I am thoroughly convinced that much more of the same is to come unless strong corrective measures are taken.

Not long ago, Secretary Weaver of the Department of Housing and Urban Development and Mayor Locher of Cleveland took emergency steps to speed up urban renewal in Cleveland as a means for relieving the pressures of violence.

Among the measures taken were immediate action to speed up urban renewal programs, provisions for the construction of recreation areas, stepped-up trash collections, an approach to providing social and welfare services for residents in the University-Euclid urban renewal project, the correction of housing code deficiencies, and maximum utilization of existing housing in the area as a public housing resource. This emergency effort plainly shows what can be done on a much broader scale, under the demonstration cities proposal.

It is clear that the elimination of slum misery will require new programs and much money. Mr. President, the \$900 million in this bill for the first 2 years is a pledge by the Congress to stamp out slums. We as legislators must act with determination in providing the wherewithal to rub out conditions in slum neighborhoods which give rise to the ugly rioting which has racked our cities over this summer. We must be determined in this task. The handwriting is clearly written on the battered walls of Cleveland, Chicago, and other great cities of our Nation.

The PRESIDING OFFICER. The bill is open to further amendment.

If there be no further amendment, the question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and to be read a third time.

The bill was read the third time.

Mr. TOWER. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. TOWER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. TOWER. Mr. President, I ask for the yeas and nays on final passage.

The yeas and nays were ordered.

Mr. TOWER. Mr. President, I yield back my time on the bill.

Mr. MUSKIE. I yield back my time on the bill.

The PRESIDING OFFICER. All time on the bill has been yielded back.

The question is on the passage of the bill. The yeas and nays have been ordered, and the clerk will call the roll.

The legislative clerk called the roll.

Mr. INOUE. I announce that the Senator from Alaska [Mr. BARTLETT], the Senator from Maryland [Mr. BREWSTER], the Senator from North Dakota [Mr. BURDICK], the Senator from Mississippi [Mr. EASTLAND], the Senator from Indiana [Mr. HARTKE], the Senator from Arizona [Mr. HAYDEN], the Senator from Alabama [Mr. HILL], the Senator from Louisiana [Mr. LONG], the Senator from Minnesota [Mr. MCCARTHY], the Senator from Wyoming [Mr. MCGEE], the Senator from Oregon [Mrs. NEUBERGER], the Senator from West Virginia [Mr. RANDOLPH], the Senator from Georgia [Mr. RUSSELL], the Senator from Florida [Mr. SMATHERS], the Senator from Alabama [Mr. SPARKMAN], and the Senator from Georgia [Mr. TALMADGE] are necessarily absent.

I also announce that the Senator from Tennessee [Mr. BASS], the Senator from Arkansas [Mr. FULBRIGHT], and the Senator from Washington [Mr. MAGNUSON] are absent on official business.

I further announce that, if present and voting, the Senator from Alaska [Mr. BARTLETT], the Senator from North Dakota [Mr. BURDICK], the Senator from Arkansas [Mr. FULBRIGHT], the Senator from Indiana [Mr. HARTKE], the Senator from Louisiana [Mr. LONG], the Senator from Wyoming [Mr. MCGEE], the Senator from Oregon [Mrs. NEUBERGER], and the Senator from Florida [Mr. SMATHERS] would each vote "yea."

On this vote, the Senator from Maryland [Mr. BREWSTER] is paired with the Senator from Georgia [Mr. TALMADGE]. If present and voting, the Senator from Maryland would vote "yea" and the Senator from Georgia would vote "nay."

On this vote, the Senator from Mississippi [Mr. EASTLAND] is paired with the Senator from Washington [Mr. MAGNUSON]. If present and voting, the Senator from Mississippi would vote "nay" and the Senator from Washington would vote "yea."

On this vote, the Senator from West Virginia [Mr. RANDOLPH] is paired with the Senator from Georgia [Mr. RUSSELL]. If present and voting, the Senator from West Virginia would vote "yea" and the Senator from Georgia would vote "nay."

On this vote, the Senator from Tennessee [Mr. BASS] is paired with the Senator from Alabama [Mr. SPARKMAN]. If present and voting, the Senator from Tennessee would vote "yea" and the Senator from Alabama would vote "nay."

Mr. KUCHEL. I announce that the Senator from Utah [Mr. BENNETT] and the Senator from California [Mr. MURPHY] are absent because of illness.

The Senator from Michigan [Mr. GRIFFIN], the Senator from Iowa [Mr. MILLER], the Senator from Massachusetts [Mr. SALTONSTALL] and the Senator from Pennsylvania [Mr. SCOTT] are necessarily absent.

If present and voting, the Senator from California [Mr. MURPHY], and the Senator from Massachusetts [Mr. SALTONSTALL] would each vote "nay."

On this vote, the Senator from Pennsylvania [Mr. SCOTT] is paired with the Senator from Utah [Mr. BENNETT]. If present and voting, the Senator from Pennsylvania would vote "yea" and the Senator from Utah would vote "nay."

On this vote, the Senator from Michigan [Mr. GRIFFIN] is paired with the Senator from Iowa [Mr. MILLER]. If present and voting, the Senator from Michigan would vote "yea" and the Senator from Iowa would vote "nay."

The result was announced—yeas 53, nays 22, as follows:

[No. 217 Leg.]

Hartke	Neuberger	

So the bill (S. 3708) was passed, as follows:

S. 3708

An act to assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Demonstration Cities and Metropolitan Development Act of 1966".

TITLE I—COMPREHENSIVE CITY DEMONSTRATION PROGRAMS

Findings and declaration of purpose

SEC. 101. The Congress hereby finds and declares that improving the quality of urban life is the most critical domestic problem facing the United States. The persistence of widespread urban slums and blight, the concentration of persons of low income in older urban areas, and the unmet needs for additional housing and community facilities and services arising from rapid expansion of our urban population have resulted in a marked deterioration in the quality of the environment and the lives of large numbers of our people while the Nation as a whole prospers.

The Congress further finds and declares that cities, of all sizes, do not have adequate resources to deal effectively with the critical

problems facing them, and that Federal assistance in addition to that now authorized by the urban renewal program and other existing Federal grant-in-aid programs is essential to enable cities to plan, develop, and conduct programs to improve their physical environment, increase their supply of adequate housing for low- and moderate-income people, and provide educational and social services vital to health and welfare.

The purposes of this title are to provide additional financial and technical assistance to enable cities of all sizes (with equal regard to the problems of small as well as large cities) to plan, develop, and carry out locally prepared and scheduled comprehensive city demonstration programs containing new and imaginative proposals to rebuild or revitalize large slum and blighted areas; to expand housing, job, and income opportunities; to reduce dependence on welfare payments; to improve educational facilities and programs; to combat disease and ill health; to reduce the incidence of crime and delinquency; to enhance recreational and cultural opportunities; to establish better access between homes and jobs; and generally to improve living conditions for the people who live in such areas, and to accomplish these objectives through the most effective and economical concentration and coordination of Federal, State, and local public and private efforts to improve the quality of urban life.

Basic authority

SEC. 102. The Secretary of Housing and Urban Development (hereinafter referred to as the "Secretary") is authorized to make grants to provide technical assistance, as provided by this title, to enable city demonstration agencies (as defined in section 112(2)) to plan, develop, and carry out comprehensive city demonstration programs in accordance with the purposes of this title.

Eligibility for assistance

SEC. 103. (a) A comprehensive city demonstration program is eligible for assistance under sections 105 and 107 only if—

(1) physical and social problems in the area of the city covered by the program are such that a comprehensive city demonstration program is necessary to carry out the policy of the Congress as expressed in section 101;

(2) the program is of sufficient magnitude to make a substantial impact on the physical and social problems and to remove or arrest blight and decay in entire sections or neighborhoods; to contribute to the sound development of the entire city; to make marked progress in reducing social and educational disadvantages, ill health, underemployment, and enforced idleness; and to provide educational, health, and social services necessary to serve the poor and disadvantaged in the area, widespread citizen participation in the program, maximum opportunities for employing residents of the area in all phases of the program, and enlarged opportunities for work and training;

(3) the program, including rebuilding or restoration, will contribute to a well-balanced city with a substantial increase in the supply of standard housing of low and moderate cost, maximum opportunities in the choice of housing accommodations for all citizens of all income levels, adequate public facilities (including those needed for education, health and social services, transportation and recreation), commercial facilities adequate to serve the residential areas, and ease of access between the residential areas and centers of employment;

(4) the various projects and activities to be undertaken in connection with such programs are scheduled to be initiated within a reasonably short period of time; adequate local resources are, or will be, available for the completion of the program as scheduled,

and, in the carrying out of the program, the fullest utilization possible will be made of private initiative and enterprise; administrative machinery is available at the local level for carrying out the program on a consolidated and coordinated basis; substantive local laws, regulations, and other requirements are, or can be expected to be, consistent with the objectives of the program; there exists a relocation plan meeting the requirements of the regulations referred to in section 107; the local governing body has approved the program and, where appropriate, applications for assistance under the program; agencies whose cooperation is necessary to the success of the program have indicated their intent to furnish such cooperation; the program is consistent with comprehensive planning in the entire urban or metropolitan area; and the locality will maintain, during the period an approved comprehensive city demonstration program is being carried out, a level of aggregate expenditures for activities similar to those being assisted under this title which is not less than the level of aggregate expenditures for such activities prior to initiation of the comprehensive city demonstration program; and

(5) the program meets such additional requirements as the Secretary may establish to carry out the purposes of this title.

(b) In implementing this title the Secretary shall—

(1) emphasize local initiative in the planning, development, and implementation of comprehensive city demonstration programs;

(2) insure, in conjunction with other appropriate Federal departments and agencies and at the direction of the President, maximum coordination of Federal assistance provided in connection with this title, prompt response to local initiative, and maximum flexibility in programing, consistent with the requirements of law and sound administrative practice; and

(3) encourage city demonstration agencies to (A) enhance neighborhoods by applying a high standard of design, (B) maintain, as appropriate, natural and historic sites and distinctive neighborhood characteristics, and (C) make maximum possible use of new and improved technology and design, including cost reduction techniques.

Financial assistance for planning comprehensive city demonstration programs

SEC. 104. (a) The Secretary is authorized to make grants to, and to contract with, city demonstration agencies to pay 80 per centum of the costs of planning and developing comprehensive city demonstration programs.

(b) Financial assistance will be provided under this section only if (1) the application for such assistance has been approved by the local governing body of the city, and (2) the Secretary has determined that there exist (A) administrative machinery through which coordination of all related planning activities of local agencies can be achieved, and (B) evidence that necessary cooperation of agencies engaged in related local planning can be obtained.

Financial assistance for approved comprehensive city demonstration programs

SEC. 105. (a) The Secretary is authorized to approve comprehensive city demonstration programs if, after review of the plans, he determines that such plans satisfy the criteria for such programs set forth in section 103.

(b) The Secretary is authorized to make grants to, and to contract with, city demonstration agencies to pay 80 per centum of the cost of administering approved comprehensive city demonstration programs, but not the cost of administering any project or activity assisted under a Federal grant-in-aid program.

(c) To assist the city to carry out the projects or activities included within an ap-

proved comprehensive city demonstration program, the Secretary is authorized to make grants to the city demonstration agency of not to exceed 80 per centum of the aggregate amount of non-Federal contributions otherwise required to be made to all projects or activities assisted by Federal grant-in-aid programs (as defined in section 112(1)) which are carried out in connection with such demonstration program: *Provided*, That no Federal grant-in-aid program shall be considered to be carried out in connection with such demonstration program unless it is closely related to the physical and social problems in the area of the city covered by the program and unless it can reasonably be expected to have a noticeable effect upon such problems. The specific amount of any such grant shall take into account the number and intensity of the economic and social pressures in the sections or neighborhoods involved, such as those involving or resulting from population density, poverty levels, unemployment rate, public welfare participation, educational levels, health and disease characteristics, crime and delinquency rate, and degree of substandard and dilapidated housing. The amount of non-Federal contribution required for each project in a Federal grant-in-aid program shall be certified to the Secretary by the Federal department or agency (other than the Department of Housing and Urban Development) administering such program, and the Secretary shall accept such certification in computing the grants hereunder.

(d) Grant funds provided to assist projects and activities included within an approved comprehensive city demonstration program pursuant to subsection (c) of this section shall be made available to assist new and additional projects and activities not assisted under a Federal grant-in-aid program. To the extent such funds are not necessary to support fully such new and additional projects and activities, they may be used and credited as part or all of the required non-Federal contribution to projects or activities, assisted under a Federal grant-in-aid program, which are part of an approved comprehensive city demonstration program. Such grant funds, however, shall not be used—

(1) for the general administration of local governments; or

(2) to replace non-Federal contributions in any federally aided project or activity included in an approved comprehensive city demonstration program, if prior to the filing of an application for assistance under section 104 an agreement has been entered into with any Federal agency obligating such non-Federal contributions with respect to such project or activity.

Technical assistance

SEC. 106. The Secretary is authorized to undertake such activities as he determines to be desirable to provide, either directly or by contracts or other arrangements, technical assistance to city demonstration agencies to assist such agencies in planning, developing, and administering comprehensive city demonstration programs.

Relocation requirements and payments

SEC. 107. (a) A comprehensive city demonstration program shall include a plan for the relocation of individuals, families, business concerns, and nonprofit organizations displaced or to be displaced in the carrying out of such program. The relocation plan shall be consistent with regulations prescribed by the Secretary to assure that (1) the provisions and procedures included in the plan meet relocation standards equivalent to those prescribed under section 105(c) of the Housing Act of 1949 with respect to urban renewal projects assisted under title I of that Act, and (2) relocation activities are coordinated to the maximum extent feasible with the increase in the supply of decent, safe, and sani-

tary housing for families and individuals of low or moderate income, as provided under the comprehensive city demonstration program, or otherwise, in order to best maintain the available supply of housing for all such families and individuals throughout the city.

(b)(1) To the extent not otherwise authorized under any Federal law, financial assistance extended to a city demonstration agency under section 105 shall include grants to cover the full cost of relocation payments, as herein defined. Such grants shall be in addition to other financial assistance extended to such agency under section 105.

(2) The term "relocation payments" means payments by a city demonstration agency to a displaced individual, family, business concern, or nonprofit organization which are made on such terms and conditions and subject to such limitations (to the extent applicable, but not including the date of displacement) as are provided for relocation payments, at the time such payments are approved, by sections 114 (b), (c), (d), and (e) of the Housing Act of 1949 with respect to projects assisted under title I thereof.

(c) Subsection (b) shall not be applicable with respect to any displacement occurring prior to the date of the enactment of this Act.

Continued availability of Federal grant-in-aid programs

SEC. 108. Notwithstanding any other provision of law, unless hereafter enacted expressly in limitation of the provisions of this section, funds appropriated for a Federal grant-in-aid program which are reserved for any projects or activities assisted under such grant-in-aid program and undertaken in connection with an approved comprehensive city demonstration program shall remain available until expended.

Consultation

SEC. 109. In carrying out the provisions of this title, including the issuance of regulations, the Secretary shall consult with other Federal departments and agencies administering Federal grant-in-aid programs. The Secretary shall consult with each Federal department and agency affected by each comprehensive city demonstration program before entering into a commitment to make grants for such program under section 105.

Labor standards

SEC. 110. (a) All laborers and mechanics employed by contractors or subcontractors in the construction, rehabilitation, alteration, or repair of projects which—

(1) are federally assisted in whole or in part under this title and

(2) are not otherwise subject to section 212 of the National Housing Act, section 16(2) of the United States Housing Act of 1937, section 109 of the Housing Act of 1949, or any other provision of Federal law imposing labor standards on federally assisted construction,

shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a-276a-5): *Provided*, That this section shall apply to the construction, rehabilitation, alteration, or repair of residential property only if such residential property is designed for residential use for eight or more families. No financial assistance shall be extended to any such projects unless adequate assurance is first obtained that these labor standards will be maintained upon the construction work.

(b) The Secretary of Labor shall have, with respect to labor standards specified in subsection (a), the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 1332-15), and section 2 of the Act of June 13, 1934, as amended (48 Stat. 948; 40 U.S.C.

276c). and the Contract Work Hours Standards Act (76 Stat. 357).

Appropriations

SEC. 111. (a) There are authorized to be appropriated, for the purpose of financial assistance and administrative expenses under section 104, not to exceed \$12,000,000 for the fiscal year ending June 30, 1967, and not to exceed \$12,000,000 for the fiscal year ending June 30, 1968.

(b) There are authorized to be appropriated, for the purpose of financial assistance and administrative expenses under sections 105, 106, and 107, not to exceed \$400,000,000 for the fiscal year ending June 30, 1968, and not to exceed \$500,000,000 for the fiscal year ending June 30, 1969.

(c) Appropriations authorized under this section shall remain available until expended.

Definitions

SEC. 112. As used in this title—

(1) "Federal grant-in-aid program" means a program of Federal financial assistance other than loans and other than the assistance provided by this title.

(2) "City demonstration agency" means the city, the county, or any local public agency established or designated by the local governing body of such city or county to administer the comprehensive city demonstration program.

(3) "City" means any municipality (or two or more municipalities acting jointly), or any county or other public body (or two or more acting jointly) having general governmental powers.

(4) "Local" agencies include State agencies and instrumentalities providing services or resources to a city or locality, and "local" resources include those provided to a city or locality by a State or its agency or instrumentality.

Grant authority for urban renewal projects which are part of approved comprehensive city demonstration programs

SEC. 113. Section 103(b) of the Housing Act of 1949 is amended by inserting after the first sentence of the following new sentence: "In addition to the authority to make grants provided in the first sentence of this subsection, the Secretary may contract to make grants under this title, on or after July 1, 1967, in an amount not to exceed \$250,000,000: *Provided*, That the authority to contract to make grants provided by this sentence shall be exercised only with respect to an urban renewal project which is identified and scheduled to be carried out as one of the projects or activities included within an approved comprehensive city demonstration program assisted under the provisions of section 105(c) of the Demonstration Cities and Metropolitan Development Act of 1966".

State limitation

SEC. 114. Grants made under section 105 for projects in any one State shall not exceed in the aggregate 15 per centum of the aggregate amount of funds authorized to be appropriated under section 111.

TITLE II—PLANNED METROPOLITAN DEVELOPMENT

Findings and declaration of purpose

SEC. 201. (a) The Congress hereby finds that the welfare of the Nation and of its people is directly dependent upon the sound and orderly development and the effective organization and functioning of the metropolitan areas in which two-thirds of its people live and work.

It further finds that the continuing rapid growth of these areas makes it essential that they prepare, keep current, and carry out comprehensive plans and programs for their orderly physical development with a view to meeting efficiently all their economic and social needs.

It further finds that metropolitan areas are especially handicapped in this task by

the complexity and scope of governmental services required in such rapidly growing areas, the multiplicity of political jurisdictions and agencies involved, and the inadequacy of the operational and administrative arrangements available for cooperation among them.

It further finds that present requirements for areawide planning and programming in connection with various Federal programs have materially assisted in the solution of metropolitan problems, but that greater coordination of Federal programs and additional participation and cooperation are needed from the States and localities in perfecting and carrying out such efforts.

(b) It is the purpose of this title to provide, through greater coordination of Federal programs and through supplementary grants for certain federally assisted development projects, additional encouragement and assistance to States and localities for making comprehensive metropolitan planning and programming effective.

Cooperation between Federal agencies

SEC. 202. In order to insure that all Federal programs related to metropolitan development are carried out in a coordinated manner—

(1) the Secretary is authorized to call upon other Federal agencies to supply such statistical data, program reports, and other materials as he deems necessary to discharge his responsibilities for metropolitan development, and to assist the President in coordinating the metropolitan development efforts of all Federal agencies; and

(2) all Federal agencies which are engaged in administering programs related to metropolitan development, or which otherwise perform functions relating thereto, shall, to the maximum extent practicable, consult with and seek advice from all other significantly affected Federal departments and agencies in an effort to assure fully coordinated programs.

Metropolitan expeditors

SEC. 203. Upon the request of one or more duly authorized local officials and after consultation with local governmental authorities in a metropolitan area, the Secretary may appoint a metropolitan expeditor for such area whenever he finds a need for the services specified in this section. The metropolitan expeditor shall provide information, data, and assistance to local authorities and private individuals and entities within the metropolitan area, and to all relevant Federal departments and agencies, with respect to all programs and activities conducted within such metropolitan area by the Department of Housing and Urban Development, and with respect to other public and private activities and needs within such metropolitan area which relate to the programs and activities of the Department.

Coordination of Federal aids in metropolitan areas

SEC. 204. (a) All applications made after June 30, 1967, for Federal loans or grants to assist in carrying out open-space land projects or for the planning or construction of hospitals, airports, libraries, water supply and distribution facilities, sewerage facilities and waste treatment works, highways, transportation facilities, and water development and land conservation projects within any metropolitan area shall be submitted for review—

(1) to any areawide agency designated to perform metropolitan or regional planning for the area within which the assistance is to be used, and which is, to the greatest practicable extent, composed of or responsible to the elected officials of the units of general local government within whose jurisdiction such agency is authorized to engage in such planning; and

(2) if made by a special purpose unit of local government, to the unit or units of

general local government with authority to operate in the area within which the project is to be located.

(b) (1) Except as provided in paragraph (2) of this subsection, each application shall be accompanied (A) by the comments and recommendations with respect to the project involved by the areawide agency and governing bodies of the units of general local government to which the application has been submitted for review, and (B) by a statement by the applicant that such comments and recommendations have been considered prior to formal submission of the application. Such comments shall include information concerning the extent to which the project is consistent with comprehensive planning developed or in the process of development for the metropolitan area or the unit of general local government, as the case may be, and the extent to which such project contributes to the fulfillment of such planning. The comments and recommendations and the statement referred to in this section shall, except in the case referred to in paragraph (2) of this subsection, be reviewed by the agency of the Federal Government to which such application is submitted for the sole purpose of assisting it in determining whether the application is in accordance with the provisions of Federal law which govern the making of the loans or grants.

(2) An application for a Federal loan or grant need not be accompanied by the comments and recommendations and the statements referred to in paragraph (1) of this subsection, if the applicant certifies that a plan or description of the project, meeting the requirements of such rules and regulations as may be prescribed under subsection (c), or such application, has lain before an appropriate areawide agency or instrumentality or unit of general local government for a period of sixty days without comments or recommendations thereon being made by such agency or instrumentality.

(3) The requirements of paragraphs (1) and (2) shall also apply to any amendment of the application which, in light of the purposes of this title, involves a major change in the project covered by the application prior to such amendment.

(c) The Bureau of the Budget, or such other agency as may be designated by the President, is hereby authorized to prescribe such rules and regulations as are deemed appropriate for the effective administration of this section.

Grants to assist in planned metropolitan development

SEC. 205 (a) The Secretary is authorized to make supplementary grants to applicant State and local public bodies and agencies carrying out, or assisting in carrying out, metropolitan development projects meeting the requirements of this section.

(b) Grants may be made under this section only for metropolitan development projects in metropolitan areas for which it has been demonstrated, to the satisfaction of the Secretary, that—

(1) metropolitanwide comprehensive planning and programming provide an adequate basis for evaluating (A) the location, financing, and scheduling of individual public facility projects (including, but not limited to hospitals and libraries; sewer, water, and sewage treatment facilities; highway, mass transit, airport, and other transportation facilities; and recreation and other open-space areas) whether or not federally assisted; and (B) other proposed land development or uses, which projects or uses, because of their size, density, type, or location, have public metropolitanwide or interjurisdictional significance;

(2) adequate metropolitanwide institutional or other arrangements exist for coordinating, on the basis of such metropolitanwide comprehensive planning and program-

ing, local public policies and activities affecting the development of the area; and

(3) public facility projects and other land development or uses which have a major impact on the development of the area are, in fact, being carried out in accord with such metropolitanwide comprehensive planning and programing.

(c)(1) Where the applicant for a grant under this section is a unit of general local government, it must demonstrate to the satisfaction of the Secretary that, taking into consideration the scope of its authority and responsibilities it is adequately assuring that public facility projects and other land development or uses of public metropolitanwide or interjurisdictional significance are being, and will be, carried out in accord with metropolitan planning and programing meeting the requirements of subsection (b). In making this determination the Secretary shall give special consideration to whether the applicant is effectively assisting in, and conforming to, metropolitan planning and programing through (A) the location and scheduling of public facility projects, whether or not federally assisted; and (B) the establishment and consistent administration of zoning codes, subdivision regulations, and similar land-use and density controls.

(2) Where the applicant for a grant under this section is not a unit of general local government, both it and the unit of general local government having jurisdiction over the location of the project must meet the requirements of this subsection.

(d) In making the determinations required under this section, the Secretary shall obtain, and give full consideration to, the comments of the body or bodies (State or local) responsible for comprehensive planning and programing for the metropolitan area.

(e) No grant shall be made under this section with respect to a metropolitan development project for which a Federal grant has been made or a contract of assistance has been entered into, under the legislation referred to in paragraph (2) of section 208, prior to February 21, 1966, or more than one year prior to the date on which the Secretary has made the determinations required under this section with respect to the applicant and to the area in which the project is located: *Provided*, That in the case of a project for which a contract of assistance under the legislation referred to in paragraph (2) of section 208 has been entered into after June 30, 1967, no grant shall be made under this section unless an application for such grant has been made on or before the date of such contract.

Extent of grant

SEC. 206. (a) A grant under section 205 shall not exceed (1) 20 per centum of the cost of the project for which the grant is made; nor (2) the Federal grant made with respect to the project under the legislation referred to in paragraph (2) of section 208. In no case shall the total Federal contributions to the cost of such project be more than 80 per centum. Notwithstanding any other provision of law, including requirements with respect to non-Federal contributions, grants under section 205 shall be eligible for inclusion (directly or through refunds or credits) as part of the financing for such projects: *Provided*, That projects or activities on the basis of which assistance is provided under section 105(c) shall not be eligible for assistance under section 205.

(b) There are authorized to be appropriated for grants under section 205 not to exceed \$25,000,000 for the fiscal year ending June 30, 1967, and not to exceed \$50,000,000 for the fiscal year ending June 30, 1968. Appropriations authorized under this section shall remain available until expended.

Consultation and certification

SEC. 207. In carrying out his authority under section 205, including the issuance of regulations, the Secretary shall consult with the Department of the Interior; the Department of Health, Education, and Welfare; the Department of Commerce; and the Federal Aviation Agency with respect to metropolitan development projects assisted by those departments and agencies; and he shall, for the purpose of section 206, accept their respective certifications as to the cost of those projects and the amount of the non-Federal contribution paid or to be paid to that cost.

Definitions

SEC. 208. As used in this title—

(1) "Metropolitan development" means all projects or programs for the acquisition, use, and development of open space land; and the planning and construction of hospitals, libraries, airports, water supply and distribution facilities, sewerage facilities and waste treatment works, transportation facilities, highways, water development and land conservation, and other public works facilities.

(2) "Metropolitan development project" means a project assisted or to be assisted under section 702 of the Housing and Urban Development Act of 1965; title II of the Library Services and Construction Act; section 606 of the Public Health Service Act; section 8 of the Federal Water Pollution Control Act; section 120(a) of title 23, United States Code; section 9 of the Federal Airport Act; section 3 of the Urban Mass Transportation Act of 1964; title VII of the Housing Act of 1961; section 5(e) of the Land and Water Conservation Fund Act of 1965; or section 101(a)(1) of the Public Works and Economic Development Act of 1965 (for a project of a type which the Secretary determines to be eligible for assistance under the other provisions listed above).

(3) "State" means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or an agency or instrumentality of any of the foregoing.

(4) "Metropolitan area" means a standard metropolitan statistical area as established by the Bureau of the Budget, subject however to such modifications and extensions as the Secretary may determine to be appropriate for the purposes of this title.

(5) "Comprehensive planning" includes the following, to the extent directly related to area needs or needs of a unit of general local government, (A) preparation, as a guide for long-range development, of general physical plans with respect to the pattern and intensity of land use and the provision of public facilities, including transportation facilities; (B) programing of capital improvements based on a determination of relative urgency; (C) long-range fiscal plans for implementing such plans and programs; and (D) proposed regulatory and administrative measures which aid in achieving coordination of all related plans of the departments or subdivisions of the governments concerned and intergovernmental coordination of related planned activities among the State and local governmental agencies concerned.

(6) "Hospital" means any public health center or general, tuberculosis, mental, chronic disease, and other type of hospital and related facilities, such as laboratories, outpatient departments, nurses' home and training facilities, and central service facilities normally operated in connection with hospitals, but does not include any hospital furnishing primarily domiciliary care.

(7) "Areawide agency" means an official State or metropolitan or regional agency empowered under State or local laws or under an interstate compact or agreement to perform comprehensive planning in an area; an

organization of the type referred to in section 701(g) of the Housing Act of 1954; or such other agency or instrumentality as may be designated by the Governor (or, in the case of metropolitan areas crossing State lines, any one or more of such agencies or instrumentalities as may be designated by the Governors of the States involved) to perform such planning.

(8) "Special purpose unit of local government" means any special district, public-purpose corporation, or other limited-purpose political subdivision of a State, but shall not include a school district.

(9) "Unit of general local government" means any city, county, town, parish, village, or other general-purpose political subdivision of a State.

(10) "Secretary" means the Secretary of Housing and Urban Development.

State limitation

SEC. 209. Grants made under section 205 for projects in any one State shall not exceed in the aggregate 15 per centum of the aggregate amount of funds authorized to be appropriated, pursuant to section 206(b).

TITLE III—URBAN INFORMATION AND TECHNICAL ASSISTANCE SERVICES

Purpose

SEC. 301. It is the purpose of this title to assist States and metropolitan area agencies to make available information and data on urban needs and assistance programs and activities through centers established for such purpose, and to provide technical assistance through such centers to small communities with respect to the solution of urban problems.

Grant authority

SEC. 302. (a) The Secretary is authorized to make grants to States and metropolitan-area agencies to help finance programs for the assembly, correlation, and dissemination of information and data needed for improving, coordinating, and more effectively utilizing governmental and other programs and activities available for the solution of local urban problems and to provide technical assistance to small communities with respect to the solution of such problems. Activities aided by such grants shall include—

(1) the planning and establishment of urban information and technical assistance centers;

(2) the assembly, correlation, and dissemination of urban physical, social, and economic development information and data through such centers for the purpose of informing local governments, organizations, and individuals of the availability and status of Federal, State, and local programs and other resources and data for the solution of urban problems; and

(3) providing, through such centers, technical assistance with respect to the solution of urban problems to any small community requesting such assistance.

(b) A program assisted under this section shall—

(1) specify the information and technical assistance activities to be carried on and justify the needs for the costs of such activities; and

(2) represent substantially increased or improved activities on the part of the applicant State or metropolitan-area agency.

Extent of activities

SEC. 303. (a) An urban information and technical assistance center established by a metropolitan-area agency under this title shall be directed primarily to the provision of (1) informational services of general metropolitanwide utility, and (2) informational services and technical assistance of utility to the communities within that metropolitan area.

(b) An urban information and technical assistance center established by a State

under this title shall be directed primarily to the provision of (1) informational services of general statewide utility, and (2) informational services and technical assistance of utility to communities not within metropolitan areas for which information centers have been established under this title.

Amount of grant

SEC. 304. (a) A grant under this section shall not exceed 50 per centum of the cost of the activities carried on under an approved urban information and technical assistance program.

(b) No grant shall be made under this title to assist in assembling data, or providing information, to be used primarily in the day-to-day operations of State or local governing bodies and agencies.

Cooperation and coordination

SEC. 305. (a) Federal departments and agencies shall cooperate with States and metropolitan-area agencies in providing information to assist in carrying out the purpose of this title.

(b) In the administration of this title, the Secretary shall seek to ensure the greatest practicable cooperation and coordination as between the various urban information and technical assistance centers established under this title.

Definitions

SEC. 306. As used in this title—

(1) "State" means any State of the United States, the Commonwealth of Puerto Rico, the Virgin Islands, or an agency or instrumentality designated by the chief executive of any of the foregoing, or a statewide agency or instrumentality of its political subdivisions designated by such chief executive.

(2) "Metropolitan area" means a standard metropolitan statistical area as established by the Bureau of the Budget, subject however to such modifications and extensions as the Secretary may determine to be appropriate.

(3) "Metropolitan-area agency" means (A) an organization or body composed of public officials which the Secretary determines to be representative of the political jurisdictions encompassing a metropolitan area; or (B) where no such organization exists and can qualify for a grant under this title, a public body or agency (i) designated by the governing body of that political jurisdiction within the area which contains the largest population, according to the most recent decennial census, and (ii) concurred in by other local political jurisdictions which, together with the designating jurisdiction, contain at least two-thirds of the population of the area.

(4) "Small community" means any municipality or other political subdivision of a State having a population of twenty-five thousand or less.

(5) "Secretary" means the Secretary of Housing and Urban Development.

Appropriations

SEC. 307. There are authorized to be appropriated for the purpose of carrying out the provisions of this title not to exceed \$5,000,000 for the fiscal year ending June 30, 1967, and not to exceed \$10,000,000 for the fiscal year ending June 30, 1968. Appropriations authorized under this section shall remain available until expended.

TITLE IV—MISCELLANEOUS

Study concerning relief of homeowners in proximity to airports

SEC. 401. Section 1113 of the Housing and Urban Development Act of 1965 is amended—

(1) by inserting "(a)" after "SEC. 1113";

(2) by striking out "one year after the date of the enactment of this Act" and inserting in lieu thereof "six months after the date of the enactment of the Demonstration Cities and Metropolitan Development Act of 1966"; and

(3) by adding at the end thereof the following new subsection:

"(b) There is authorized to be appropriated the sum of \$100,000 to carry out subsection (a)."

Mr. MUSKIE. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. DOUGLAS. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. MUSKIE. Mr. President, I ask unanimous consent that the Secretary of the Senate be authorized and directed to make all necessary clerical and technical changes in the engrossed bill, S. 3708.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MANSFIELD. Mr. President, we witnessed today the Senate at its best. It has been some time since I have witnessed such excellence in debate in this Chamber. The junior Senator from Maine [Mr. MUSKIE] has demonstrated today the type of leadership in managing a bill that could be equaled by very few in the Senate. His grasp of the subject matter of the underlying problems of our great metropolitan areas is unsurpassed in this body. As the debate brought out, the State of Maine will not benefit directly from the passage of this measure; it and every State of the Union, large or small, will benefit by directing this Nation's attention and effort toward some of the deeper aspects of a national problem. The Nation has benefited by the leadership given this measure by the junior Senator from Maine. Even the most experienced in this body have marveled at his eloquence and his uncanny finesse and expertise in managing so controversial a measure. Its overwhelming passage today is attributable almost solely to his remarkable performance.

I would like also to commend the ranking minority member of this subcommittee, the junior Senator from Texas [Mr. TOWER], for his unflinching cooperation in expeditiously handling this controversial measure; he was, as always, most articulate.

I desire also to commend the junior Senator from Arkansas [Mr. FULBRIGHT] for his significant and eloquent contribution; today on this measure, as on all occasions in which he participates, he demonstrates and stimulates excellence of debate and clarity of thought. In like manner, I desire to commend the senior Senator from Rhode Island [Mr. PASTORE], the Senators from New York [Mr. JAVITS and Mr. KENNEDY], the senior Senator from Ohio [Mr. LAUSCHE], and the senior Senator from Louisiana [Mr. ELLENDER] for their significant contributions in this debate.

As always, I desire to thank the distinguished minority leader [Mr. DIRKSEN] and the entire Senate for their cooperation in facilitating the handling of this measure. It is the leadership's hope that the momentum gained today can continue for the next 2 weeks, so that our adjournment date may be obtained in ample time prior to the fall elections.

Mr. FULBRIGHT subsequently said: Mr. President, I am sorry that I was not present at the vote on the demonstration

cities bill. I was at the State Department and was unable to return to the Senate in time. Had I been able to be here in time, I would certainly have voted for the passage of the bill, as I made clear earlier this morning. I merely desire to have the RECORD show that I was at the State Department and unfortunately could not return to the Senate in time for the vote.

ORDER FOR ADJOURNMENT TO MONDAY

Mr. MANSFIELD. Mr. President, I ask unanimous consent that, when the Senate completes its business today, it meet at 12 o'clock on Monday rather than at 11 o'clock, as previously ordered.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT OF THE FEDERAL AVIATION ACT OF 1958

Mr. MANSFIELD. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Calendar No. 1444, S. 3197.

The PRESIDING OFFICER. The bill will be stated by title.

The LEGISLATIVE CLERK. A bill (S. 3197) to amend section 416 of the Federal Aviation Act of 1958.

The PRESIDING OFFICER. Is there objection to the request of the Senator from Montana?

There being no objection, the Senate proceeded to consider the bill which had been reported from the Committee on Commerce with an amendment to strike out all after the enacting clause and insert:

That subsection (b) of section 416 of the Federal Aviation Act of 1958 (49 U.S.C. 1386) is amended by adding at the end thereof the following new paragraph:

"(3)(A) If one or more air carriers, whether or not then holding a certificate to engage in foreign air transportation, have filed an application under section 401 of this Act for a certificate to engage in foreign air transportation, the Board may, subject to the provisions of subparagraph (B) of this paragraph, exempt such air carrier or carriers from the enforcement of such section with respect to any air transportation covered by such application, for a period not to exceed two years, subject to renewal, following the effective date of the order of such exemption, or the period terminating 60 days after the final decision by the Board on such application, whichever period is shorter, if the Board finds, after giving notice and an opportunity for interested parties to present their views to the Board, that the national interest, and the development and promotion of United States-flag international air transportation, are, or would be, adversely affected by reason of the operations of a foreign air carrier or carriers serving the United States if such exemption or exemptions were not granted, and that it is in the public interest to grant such exemption or exemptions. Application for an exemption pursuant to this paragraph shall be made in writing to the Board.

"(B) In carrying out the provisions of this paragraph, the Board (i) may not exempt any air carrier from any provision of section 401 of this Act unless the Board finds that it does not reasonably expect to dispose of the pertinent application for a certificate filed by such air carrier under such section

89TH CONGRESS
2^D SESSION

S. 3708

IN THE HOUSE OF REPRESENTATIVES

AUGUST 22, 1966

Referred to the Committee on Banking and Currency

AN ACT

To assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes.

- 1 *Be it enacted by the Senate and House of Representa-*
- 2 *tives of the United States of America in Congress assembled,*
- 3 That this Act may be cited as the "Demonstration Cities
- 4 and Metropolitan Development Act of 1966".

1 TITLE I—COMPREHENSIVE CITY DEMONSTRA-
2 TION PROGRAMS

3 FINDINGS AND DECLARATION OF PURPOSE

4 SEC. 101. The Congress hereby finds and declares that
5 improving the quality of urban life is the most critical do-
6 mestic problem facing the United States. The persistence
7 of widespread urban slums and blight, the concentration of
8 persons of low income in older urban areas, and the unmet
9 needs for additional housing and community facilities and
10 services arising from rapid expansion of our urban popula-
11 tion have resulted in a marked deterioration in the quality
12 of the environment and the lives of large numbers of our
13 people while the Nation as a whole prospers.

14 The Congress further finds and declares that cities, of
15 all sizes, do not have adequate resources to deal effectively
16 with the critical problems facing them, and that Federal
17 assistance in addition to that now authorized by the urban
18 renewal program and other existing Federal grant-in-aid
19 programs is essential to enable cities to plan, develop, and
20 conduct programs to improve their physical environment,
21 increase their supply of adequate housing for low- and mod-
22 erate-income people, and provide educational and social
23 services vital to health and welfare.

24 The purposes of this title are to provide additional finan-

1 cial and technical assistance to enable cities of all sizes (with
2 equal regard to the problems of small as well as large cities)
3 to plan, develop, and carry out locally prepared and sched-
4 uled comprehensive city demonstration programs containing
5 new and imaginative proposals to rebuild or revitalize large
6 slum and blighted areas; to expand housing, job, and income
7 opportunities; to reduce dependence on welfare payments; to
8 improve educational facilities and programs; to combat dis-
9 ease and ill health; to reduce the incidence of crime and de-
10 linquency; to enhance recreational and cultural opportunities;
11 to establish better access between homes and jobs; and gen-
12 erally to improve living conditions for the people who live
13 in such areas, and to accomplish these objectives through the
14 most effective and economical concentration and coordina-
15 tion of Federal, State, and local public and private efforts
16 to improve the quality of urban life.

17 BASIC AUTHORITY

18 SEC. 102. The Secretary of Housing and Urban De-
19 velopment (hereinafter referred to as the "Secretary") is
20 authorized to make grants and provide technical assistance,
21 as provided by this title, to enable city demonstration agen-
22 cies (as defined in section 112 (2)) to plan, develop, and
23 carry out comprehensive city demonstration programs in ac-
24 cordance with the purposes of this title.

ELIGIBILITY FOR ASSISTANCE

SEC. 103. (a) A comprehensive city demonstration program is eligible for assistance under sections 105 and 107 only if—

(1) physical and social problems in the area of the city covered by the program are such that a comprehensive city demonstration program is necessary to carry out the policy of the Congress as expressed in section 101;

(2) the program is of sufficient magnitude to make a substantial impact on the physical and social problems and to remove or arrest blight and decay in entire sections or neighborhoods; to contribute to the sound development of the entire city; to make marked progress in reducing social and educational disadvantages, ill health, underemployment, and enforced idleness; and to provide educational, health, and social services necessary to serve the poor and disadvantaged in the area, widespread citizen participation in the program, maximum opportunities for employing residents of the area in all phases of the program, and enlarged opportunities for work and training;

(3) the program, including rebuilding or restoration, will contribute to a well-balanced city with a substantial increase in the supply of standard housing of

low and moderate cost, maximum opportunities in the choice of housing accommodations for all citizens of all income levels, adequate public facilities (including those needed for education, health and social services, transportation and recreation), commercial facilities adequate to serve the residential areas, and ease of access between the residential areas and centers of employment;

(4) the various projects and activities to be undertaken in connection with such programs are scheduled to be initiated within a reasonably short period of time; adequate local resources are, or will be, available for the completion of the program as scheduled, and, in the carrying out of the program, the fullest utilization possible will be made of private initiative and enterprise; administrative machinery is available at the local level for carrying out the program on a consolidated and coordinated basis; substantive local laws, regulations, and other requirements are, or can be expected to be, consistent with the objectives of the program; there exists a relocation plan meeting the requirements of the regulations referred to in section 107; the local governing body has approved the program and, where appropriate, applications for assistance under the program; agencies whose cooperation is necessary to the success of the program have indicated their intent to furnish such coopera-

tion; the program is consistent with comprehensive planning in the entire urban or metropolitan area; and the locality will maintain, during the period an approved comprehensive city demonstration program is being carried out, a level of aggregate expenditures for activities similar to those being assisted under this title which is not less than the level of aggregate expenditures for such activities prior to initiation of the comprehensive city demonstration program; and

(5) the program meets such additional requirements as the Secretary may establish to carry out the purposes of this title.

(b) In implementing this title the Secretary shall—

(1) emphasize local initiative in the planning, development, and implementation of comprehensive city demonstration programs;

(2) insure, in conjunction with other appropriate Federal departments and agencies and at the direction of the President, maximum coordination of Federal assistance provided in connection with this title, prompt response to local initiative, and maximum flexibility in programing, consistent with the requirements of law and sound administrative practice; and

(3) encourage city demonstration agencies to (A) enhance neighborhoods by applying a high standard of

design, (B) maintain, as appropriate, natural and historic sites and distinctive neighborhood characteristics, and (C) make maximum possible use of new and improved technology and design, including cost reduction techniques.

FINANCIAL ASSISTANCE FOR PLANNING COMPREHENSIVE
CITY DEMONSTRATION PROGRAMS

SEC. 104. (a) The Secretary is authorized to make grants to, and to contract with, city demonstration agencies to pay 80 per centum of the costs of planning and developing comprehensive city demonstration programs.

(b) Financial assistance will be provided under this section only if (1) the application for such assistance has been approved by the local governing body of the city, and (2) the Secretary has determined that there exist (A) administrative machinery through which coordination of all related planning activities of local agencies can be achieved, and (B) evidence that necessary cooperation of agencies engaged in related local planning can be obtained.

FINANCIAL ASSISTANCE FOR APPROVED COMPREHENSIVE
CITY DEMONSTRATION PROGRAMS

SEC. 105. (a) The Secretary is authorized to approve comprehensive city demonstration programs if, after review of the plans, he determines that such plans satisfy the criteria for such programs set forth in section 103.

1 (b) The Secretary is authorized to make grants to, and
2 to contract with, city demonstration agencies to pay 80 per
3 centum of the cost of administering approved comprehensive
4 city demonstration programs, but not the cost of adminis-
5 tering any project or activity assisted under a Federal grant-
6 in-aid program.

7 (c) To assist the city to carry out the projects or activ-
8 ities included within an approved comprehensive city dem-
9 onstration program, the Secretary is authorized to make
10 grants to the city demonstration agency of not to exceed
11 80 per centum of the aggregate amount of non-Federal
12 contributions otherwise required to be made to all projects
13 or activities assisted by Federal grant-in-aid programs (as
14 defined in section 112 (1)) which are carried out in connec-
15 tion with such demonstration program: *Provided*, That no
16 Federal grant-in-aid program shall be considered to be car-
17 ried out in connection with such demonstration program
18 unless it is closely related to the physical and social problems
19 in the area of the city covered by the program and unless
20 it can reasonably be expected to have a noticeable effect
21 upon such problems. The specific amount of any such grant
22 shall take into account the number and intensity of the
23 economic and social pressures in the sections or neighbor-
24 hoods involved, such as those involving or resulting from
25 population density, poverty levels, unemployment rate, pub-

1 lic welfare participation, educational levels, health and dis-
2 ease characteristics, crime and delinquency rate, and degree
3 of substandard and dilapidated housing. The amount of
4 non-Federal contribution required for each project in a
5 Federal grant-in-aid program shall be certified to the Secre-
6 tary by the Federal department or agency (other than the
7 Department of Housing and Urban Development) admin-
8 istering such program, and the Secretary shall accept such
9 certification in computing the grants hereunder.

10 (d) Grant funds provided to assist projects and activ-
11 ities included within an approved comprehensive city demon-
12 stration program pursuant to subsection (c) of this section
13 shall be made available to assist new and additional projects
14 and activities not assisted under a Federal grant-in-aid pro-
15 gram. To the extent such funds are not necessary to support
16 fully such new and additional projects and activities, they
17 may be used and credited as part or all of the required non-
18 Federal contribution to projects or activities, assisted under
19 a Federal grant-in-aid program, which are part of an ap-
20 proved comprehensive city demonstration program. Such
21 grant funds, however, shall not be used—

22 (1) for the general administration of local govern-
23 ments; or

24 (2) to replace non-Federal contributions in any

1 federally aided project or activity included in an ap-
2 proved comprehensive city demonstration program, if
3 prior to the filing of an application for assistance under
4 section 104 an agreement has been entered into with
5 any Federal agency obligating such non-Federal con-
6 tributions with respect to such project or activity.

7 **TECHNICAL ASSISTANCE**

8 SEC. 106. The Secretary is authorized to undertake such
9 activities as he determines to be desirable to provide, either
10 directly or by contracts or other arrangements, technical
11 assistance to city demonstration agencies to assist such agen-
12 cies in planning, developing, and administering compre-
13 hensive city demonstration programs.

14 **RELOCATION REQUIREMENTS AND PAYMENTS**

15 SEC. 107. (a) A comprehensive city demonstration
16 program shall include a plan for the relocation of individuals,
17 families, business concerns, and nonprofit organizations dis-
18 placed or to be displaced in the carrying out of such pro-
19 gram. The relocation plan shall be consistent with regu-
20 lations prescribed by the Secretary to assure that (1) the
21 provisions and procedures included in the plan meet relo-
22 cation standards equivalent to those prescribed under sec-
23 tion 105 (c) of the Housing Act of 1949 with respect to
24 urban renewal projects assisted under title I of that Act,
25 and (2) relocation activities are coordinated to the maxi-

1 num extent feasible with the increase in the supply of decent,
2 safe, and sanitary housing for families and individuals of low
3 or moderate income, as provided under the comprehensive
4 city demonstration program, or otherwise, in order to best
5 maintain the available supply of housing for all such families
6 and individuals throughout the city.

7 (b) (1) To the extent not otherwise authorized under
8 any Federal law, financial assistance extended to a city
9 demonstration agency under section 105 shall include grants
10 to cover the full cost of relocation payments, as herein de-
11 fined. Such grants shall be in addition to other financial
12 assistance extended to such agency under section 105.

13 (2) The term "relocation payments" means payments
14 by a city demonstration agency to a displaced individual,
15 family, business concern, or nonprofit organization which
16 are made on such terms and conditions and subject to such
17 limitations (to the extent applicable, but not including the
18 date of displacement) as are provided for relocation pay-
19 ments, at the time such payments are approved, by sections
20 114 (b), (c), (d), and (e) of the Housing Act of 1949
21 with respect to projects assisted under title I thereof.

22 (c) Subsection (b) shall not be applicable with respect
23 to any displacement occurring prior to the date of the enact-
24 ment of this Act.

1 CONTINUED AVAILABILITY OF FEDERAL GRANT-IN-AID
2 PROGRAMS

3 SEC. 108. Notwithstanding any other provision of law,
4 unless hereafter enacted expressly in limitation of the pro-
5 visions of this section, funds appropriated for a Federal
6 grant-in-aid program which are reserved for any projects or
7 activities assisted under such grant-in-aid program and un-
8 dertaken in connection with an approved comprehensive city
9 demonstration program shall remain available until expended.

10 CONSULTATION

11 SEC. 109. In carrying out the provisions of this title,
12 including the issuance of regulations, the Secretary shall
13 consult with other Federal departments and agencies ad-
14 ministering Federal grant-in-aid programs. The Secretary
15 shall consult with each Federal department and agency
16 affected by each comprehensive city demonstration program
17 before entering into a commitment to make grants for
18 such program under section 105.

19 LABOR STANDARDS

20 SEC. 110. (a) All laborers and mechanics employed
21 by contractors or subcontractors in the construction, re-
22 habilitation, alteration, or repair of projects which—

23 (1) are federally assisted in whole or in part under
24 this title and

1 (2) are not otherwise subject to section 212 of the
2 National Housing Act, section 16(2) of the United
3 State Housing Act of 1937, section 109 of the Housing
4 Act of 1949, or any other provision of Federal law
5 imposing labor standards on federally assisted construc-
6 tion,
7 shall be paid wages at rates not less than those prevailing
8 on similar construction in the locality as determined by the
9 Secretary of Labor in accordance with the Davis-Bacon
10 Act, as amended (40 U.S.C. 276a-276a-5) : *Provided*, That
11 this section shall apply to the construction, rehabilitation,
12 alteration, or repair of residential property only if such resi-
13 dential property is designed for residential use for eight or
14 more families. No financial assistance shall be extended to
15 any such projects unless adequate assurance is first obtained
16 that these labor standards will be maintained upon the con-
17 struction work.

18 (b) The Secretary of Labor shall have, with respect
19 to labor standards specified in subsection (a), the authority
20 and functions set forth in Reorganization Plan Numbered
21 14 of 1950 (15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 133z-
22 15), and section 2 of the Act of June 13, 1934, as amended
23 (48 Stat. 948; 40 U.S.C. 276c), and the Contract Work
24 Hours Standards Act (76 Stat. 357).

APPROPRIATIONS

2 SEC. 111. (a) There are authorized to be appropriated,
3 for the purpose of financial assistance and administrative
4 expenses under section 104, not to exceed \$12,000,000 for
5 the fiscal year ending June 30, 1967, and not to exceed
6 \$12,000,000 for the fiscal year ending June 30, 1968.

(b) There are authorized to be appropriated, for the purpose of financial assistance and administrative expenses under sections 105, 106, and 107, not to exceed \$400,000,000 for the fiscal year ending June 30, 1968, and not to exceed \$500,000,000 for the fiscal year ending June 30, 1969.

13 (c) Appropriations authorized under this section shall
14 remain available until expended.

DEFINITIONS

16 SEC. 112. As used in this title—

(1) "Federal grant-in-aid program" means a program of Federal financial assistance other than loans and other than the assistance provided by this title.

(2) "City demonstration agency" means the city, the county, or any local public agency established or designated by the local governing body of such city or county to administer the comprehensive city demonstration program.

24 (3) "City" means any municipality (or two or more

1 municipalities acting jointly), or any county or other public
2 body (or two or more acting jointly) having general govern-
3 mental powers.

4 (4) "Local" agencies include State agencies and in-
5 strumentalities providing services or resources to a city or
6 locality, and "local" resources include those provided to a
7 city or locality by a State or its agency or instrumentality.

8 GRANT AUTHORITY FOR URBAN RENEWAL PROJECTS
9 WHICH ARE PART OF APPROVED COMPREHENSIVE
10 CITY DEMONSTRATION PROGRAMS

11 SEC. 113. Section 103 (b) of the Housing Act of 1949
12 is amended by inserting after the first sentence the follow-
13 ing new sentence: "In addition to the authority to make
14 grants provided in the first sentence of this subsection, the
15 Secretary may contract to make grants under this title, on or
16 after July 1, 1967, in an amount not to exceed \$250,000,-
17 000: *Provided*, That the authority to contract to make
18 grants provided by this sentence shall be exercised only
19 with respect to an urban renewal project which is identified
20 and scheduled to be carried out as one of the projects or
21 activities included within an approved comprehensive city
22 demonstration program assisted under the provisions of sec-
23 tion 105 (c) of the Demonstration Cities and Metropolitan
24 Development Act of 1966".

1 STATE LIMITATION

2 SEC. 114. Grants made under section 105 for projects
3 in any one State shall not exceed in the aggregate 15 per
4 centum of the aggregate amount of funds authorized to be
5 appropriated under section 111.

6 TITLE II—PLANNED METROPOLITAN
7 DEVELOPMENT

8 FINDINGS AND DECLARATION OF PURPOSE

9 SEC. 201. (a) The Congress hereby finds that the
10 welfare of the Nation and of its people is directly dependent
11 upon the sound and orderly development and the effective
12 organization and functioning of the metropolitan areas in
13 which two-thirds of its people live and work.

14 It further finds that the continuing rapid growth of these
15 areas makes it essential that they prepare, keep current, and
16 carry out comprehensive plans and programs for their
17 orderly physical development with a view to meeting
18 efficiently all their economic and social needs.

19 It further finds that metropolitan areas are especially
20 handicapped in this task by the complexity and scope of
21 governmental services required in such rapidly growing
22 areas, the multiplicity of political jurisdictions and agencies
23 involved, and the inadequacy of the operational and admin-
24 istrative arrangements available for cooperation among them.

25 It further finds that present requirements for areawide

1 planning and programing in connection with various Federal
2 programs have materially assisted in the solution of metro-
3 politan problems, but that greater coordination of Federal
4 programs and additional participation and cooperation are
5 needed from the States and localities in perfecting and carry-
6 ing out such efforts.

7 (b) It is the purpose of this title to provide, through
8 greater coordination of Federal programs and through sup-
9 plementary grants for certain federally assisted develop-
10 ment projects, additional encouragement and assistance to
11 States and localities for making comprehensive metropolitan
12 planning and programing effective.

13 COOPERATION BETWEEN FEDERAL AGENCIES

14 SEC. 202. In order to insure that all Federal programs
15 related to metropolitan development are carried out in a co-
16 ordinated manner—

17 (1) the Secretary is authorized to call upon other
18 Federal agencies to supply such statistical data, pro-
19 gram reports, and other materials as he deems necessary
20 to discharge his responsibilities for metropolitan devel-
21 opment, and to assist the President in coordinating the
22 metropolitan development efforts of all Federal agen-
23 cies; and

24 (2) all Federal agencies which are engaged in

1 administering programs related to metropolitan develop-
2 ment, or which otherwise perform functions relating
3 thereto, shall, to the maximum extent practicable, con-
4 sult with and seek advice from all other significantly
5 affected Federal departments and agencies in an effort
6 to assure fully coordinated programs.

7 METROPOLITAN EXPEDITERS

8 SEC. 203. Upon the request of one or more duly author-
9 ized local officials and after consultation with local govern-
10 mental authorities in a metropolitan area, the Secretary may
11 appoint a metropolitan expediter for such area whenever he
12 finds a need for the services specified in this section. The
13 metropolitan expediter shall provide information, data, and
14 assistance to local authorities and private individuals and
15 entities within the metropolitan area, and to all relevant
16 Federal departments and agencies, with respect to all pro-
17 grams and activities conducted within such metropolitan area
18 by the Department of Housing and Urban Development,
19 and with respect to other public and private activities and
20 needs within such metropolitan area which relate to the
21 programs and activities of the Department.

22 COORDINATION OF FEDERAL AIDS IN METROPOLITAN AREAS

23 SEC. 204. (a) All applications made after June 30,
24 1967, for Federal loans or grants to assist in carrying out
25 open-space land projects or for the planning or construction

1 of hospitals, airports, libraries, water supply and distribution
2 facilities, sewerage facilities and waste treatment works,
3 highways, transportation facilities, and water development
4 and land conservation projects within any metropolitan area
5 shall be submitted for review—

6 (1) to any areawide agency designated to per-
7 form metropolitan or regional planning for the area with-
8 in which the assistance is to be used, and which is, to
9 the greatest practicable extent, composed of or respon-
10 sible to the elected officials of the units of general local
11 government within whose jurisdiction such agency is
12 authorized to engage in such planning, and

13 (2) if made by a special purpose unit of local
14 government, to the unit or units of general local govern-
15 ment with authority to operate in the area within which
16 the project is to be located.

17 (b) (1) Except as provided in paragraph (2) of this
18 subsection, each application shall be accompanied (A)
19 by the comments and recommendations with respect to
20 the project involved by the areawide agency and gov-
21 erning bodies of the units of general local government to
22 which the application has been submitted for review,
23 and (B) by a statement by the applicant that such com-
24 ments and recommendations have been considered prior
25 to formal submission of the application. Such comments

1 shall include information concerning the extent to which the
2 project is consistent with comprehensive planning developed
3 or in the process of development for the metropolitan
4 area or the unit of general local government, as the case
5 may be, and the extent to which such project contributes
6 to the fulfillment of such planning. The comments and
7 recommendations and the statement referred to in this sec-
8 tion shall, except in the case referred to in paragraph (2)
9 of this subsection, be reviewed by the agency of the Federal
10 Government to which such application is submitted for
11 the sole purpose of assisting it in determining whether the
12 application is in accordance with the provisions of Federal
13 law which govern the making of the loans or grants.

14 (2) An application for a Federal loan or grant need
15 not be accompanied by the comments and recommendations
16 and the statements referred to in paragraph (1) of this sub-
17 section, if the applicant certifies that a plan or description
18 of the project, meeting the requirements of such rules and
19 regulations as may be prescribed under subsection (c), or
20 such application, has lain before an appropriate areawide
21 agency or instrumentality or unit of general local govern-
22 ment for a period of sixty days without comments or recom-
23 mendations thereon being made by such agency or instru-
24 mentality.

25 (3) The requirements of paragraphs (1) and (2)

1 shall also apply to any amendment of the application which,
2 in light of the purposes of this title, involves a major change
3 in the project covered by the application prior to such
4 amendment.

5 (c) The Bureau of the Budget, or such other agency as
6 may be designated by the President, is hereby authorized to
7 prescribe such rules and regulations as are deemed appropri-
8 ate for the effective administration of this section.

9 GRANTS TO ASSIST IN PLANNED METROPOLITAN

10 DEVELOPMENT

11 SEC. 205. (a) The Secretary is authorized to make
12 supplementary grants to applicant State and local public
13 bodies and agencies carrying out, or assisting in carrying
14 out, metropolitan development projects meeting the require-
15 ments of this section.

16 (b) Grants may be made under this section only for
17 metropolitan development projects in metropolitan areas
18 for which it has been demonstrated, to the satisfaction of the
19 Secretary, that—

20 (1) metropolitanwide comprehensive planning and
21 programing provide an adequate basis for evaluating

22 (A) the location, financing, and scheduling of individ-
23 ual public facility projects (including, but not limited
24 to hospitals and libraries; sewer, water, and sewage
25 treatment facilities; highway, mass transit, airport, and

1 other transportation facilities; and recreation and other
2 open-space areas) whether or not federally assisted; and
3 (B) other proposed land development or uses, which
4 projects or uses, because of their size, density, type, or
5 location, have public metropolitanwide or interjurisdic-
6 tional significance;

7 (2) adequate metropolitanwide institutional or
8 other arrangements exist for coordinating, on the basis
9 of such metropolitanwide comprehensive planning and
10 programing, local public policies and activities affecting
11 the development of the area; and

12 (3) public facility projects and other land develop-
13 ment or uses which have a major impact on the develop-
14 ment of the area are, in fact, being carried out in accord
15 with such metropolitanwide comprehensive planning
16 and programing.

17 (c) (1) Where the applicant for a grant under this sec-
18 tion is a unit of general local government, it must demon-
19 strate to the satisfaction of the Secretary that, taking into
20 consideration the scope of its authority and responsibilities
21 it is adequately assuring that public facility projects and
22 other land development or uses of public metropolitanwide
23 or interjurisdictional significance are being, and will be,
24 carried out in accord with metropolitan planning and pro-

1 graming meeting the requirements of subsection (b). In
2 making this determination the Secretary shall give special
3 consideration to whether the applicant is effectively assisting
4 in, and conforming to, metropolitan planning and program-
5 ing through (A) the location and scheduling of public
6 facility projects, whether or not federally assisted; and (B)
7 the establishment and consistent administration of zoning
8 codes, subdivision regulations, and similar land-use and
9 density controls.

10 (2) Where the applicant for a grant under this section
11 is not a unit of general local government, both it and the unit
12 of general local government having jurisdiction over the
13 location of the project must meet the requirements of this
14 subsection.

15 (d) In making the determinations required under this
16 section, the Secretary shall obtain, and give full considera-
17 tion to, the comments of the body or bodies (State or local)
18 responsible for comprehensive planning and programing for
19 the metropolitan area.

20 (e) No grant shall be made under this section with re-
21 spect to a metropolitan development project for which a Fed-
22 eral grant has been made or a contract of assistance has been
23 entered into, under the legislation referred to in paragraph
24 (2) of section 208, prior to February 21, 1966, or more than

1 one year prior to the date on which the Secretary has made
2 the determinations required under this section with respect to
3 the applicant and to the area in which the project is located:
4 *Provided*, That in the case of a project for which a contract
5 of assistance under the legislation referred to in paragraph
6 (2) of section 208 has been entered into after June 30,
7 1967, no grant shall be made under this section unless an
8 application for such grant has been made on or before the
9 date of such contract.

10 EXTENT OF GRANT

11 SEC. 206. (a) A grant under section 205 shall not
12 exceed (1) 20 per centum of the cost of the project for
13 which the grant is made; nor (2) the Federal grant made
14 with respect to the project under the legislation referred to
15 in paragraph (2) of section 208. In no case shall the
16 total Federal contributions to the cost of such project be
17 more than 80 per centum. Notwithstanding any other pro-
18 vision of law, including requirements with respect to non-
19 Federal contributions, grants under section 205 shall be
20 eligible for inclusion (directly or through refunds or credits)
21 as part of the financing for such projects: *Provided*, That
22 projects or activities on the basis of which assistance is pro-
23 vided under section 105 (c) shall not be eligible for assist-
24 ance under section 205.

25 (b) There are authorized to be appropriated for grants

1 under section 205 not to exceed \$25,000,000 for the fiscal
2 year ending June 30, 1967, and not to exceed \$50,000,000
3 for the fiscal year ending June 30, 1968. Appropriations
4 authorized under this section shall remain available until
5 expended.

6 CONSULTATION AND CERTIFICATION

7 SEC. 207. In carrying out his authority under section
8 205, including the issuance of regulations, the Secretary shall
9 consult with the Department of the Interior; the Department
10 of Health, Education, and Welfare; the Department of
11 Commerce; and the Federal Aviation Agency with respect
12 to metropolitan development projects assisted by those de-
13 partments and agencies; and he shall, for the purpose of
14 section 206, accept their respective certifications as to the
15 cost of those projects and the amount of the non-Federal
16 contribution paid or to be paid to that cost.

17 DEFINITIONS

18 SEC. 208. As used in this title—

19 (1) “Metropolitan development” means all projects or
20 programs for the acquisition, use, and development of open
21 space land; and the planning and construction of hospitals,
22 libraries, airports, water supply and distribution facilities,
23 sewerage facilities and waste treatment works, transporta-
24 tion facilities, highways, water development and land con-
25 servation, and other public works facilities.

1 (2) "Metropolitan development project" means a proj-
2 ect assisted or to be assisted under section 702 of the
3 Housing and Urban Development Act of 1965; title II of the
4 Library Services and Construction Act; section 606 of the
5 Public Health Service Act; section 8 of the Federal Water
6 Pollution Control Act; section 120 (a) of title 23, United
7 States Code; section 9 of the Federal Airport Act; section 3
8 of the Urban Mass Transportation Act of 1964; title VII
9 of the Housing Act of 1961; section 5 (e) of the Land and
10 Water Conservation Fund Act of 1965; or section 101
11 (a) (1) of the Public Works and Economic Development
12 Act of 1965 (for a project of a type which the Secretary
13 determines to be eligible for assistance under the other pro-
14 visions listed above).

15 (3) "State" means any State of the United States, the
16 District of Columbia, the Commonwealth of Puerto Rico,
17 any territory or possession of the United States, or an agency
18 or instrumentality of any of the foregoing.

19 (4) "Metropolitan area" means a standard metro-
20 politan statistical area as established by the Bureau of the
21 Budget, subject however to such modifications and exten-
22 sions as the Secretary may determine to be appropriate for
23 the purposes of this title.

24 (5) "Comprehensive planning" includes the following,
25 to the extent directly related to area needs or needs of a unit

1 of general local government, (A) preparation, as a guide
2 for long-range development, of general physical plans with
3 respect to the pattern and intensity of land use and the pro-
4 vision of public facilities, including transportation facilities;
5 (B) programming of capital improvements based on a de-
6 termination of relative urgency; (C) long-range fiscal plans
7 for implementing such plans and programs; and (D) pro-
8 posed regulatory and administrative measures which aid in
9 achieving coordination of all related plans of the departments
10 or subdivisions of the governments concerned and intergov-
11 ernmental coordination of related planned activities among
12 the State and local governmental agencies concerned.

13 (6) "Hospital" means any public health center or gen-
14 eral, tuberculosis, mental, chronic disease, and other type of
15 hospital and related facilities, such as laboratories, outpatient
16 departments, nurses' home and training facilities, and central
17 service facilities normally operated in connection with hos-
18 pitals, but does not include any hospital furnishing primarily
19 domiciliary care.

20 (7) "Areawide agency" means an official State or
21 metropolitan or regional agency empowered under State or
22 local laws or under an interstate compact or agreement to
23 perform comprehensive planning in an area; an organiza-
24 tion of the type referred to in section 701 (g) of the Housing

1 Act of 1954; or such other agency or instrumentality as
 2 may be designated by the Governor (or, in the case of
 3 metropolitan areas crossing State lines, any one or more of
 4 such agencies or instrumentalities as may be designated by
 5 the Governors of the States involved) to perform such
 6 planning.

7 (8) "Special purpose unit of local government" means
 8 any special district, public-purpose corporation, or other
 9 limited-purpose political subdivision of a State, but shall not
 10 include a school district.

11 (9) "Unit of general local government" means any city,
 12 county, town, parish, village, or other general-purpose po-
 13 litical subdivision of a State.

14 (10) "Secretary" means the Secretary of Housing and
 15 Urban Development.

16 STATE LIMITATION

17 SEC. 209. Grants made under section 205 for projects in
 18 any one State shall not exceed in the aggregate 15 per
 19 centum of the aggregate amount of funds authorized to be
 20 appropriated, pursuant to section 206 (b).

1 TITLE III—URBAN INFORMATION AND TECH-
2 NICAL ASSISTANCE SERVICES

3 PURPOSE

4 SEC. 301. It is the purpose of this title to assist States
5 and metropolitan area agencies to make available informa-
6 tion and data on urban needs and assistance programs and
7 activities through centers established for such purpose, and
8 to provide technical assistance through such centers to small
9 communities with respect to the solution of urban problems.

10 GRANT AUTHORITY

11 SEC. 302. (a) The Secretary is authorized to make
12 grants to States and metropolitan-area agencies to help
13 finance programs for the assembly, correlation, and dissemi-
14 nation of information and data needed for improving, coor-
15 dinating, and more effectively utilizing governmental and
16 other programs and activities available for the solution of lo-
17 cal urban problems and to provide technical assistance to
18 small communities with respect to the solution of such prob-
19 lems. Activities aided by such grants shall include—

1 (1) the planning and establishment of urban in-
2 formation and technical assistance centers;

(2) the assembly, correlation, and dissemination of urban physical, social, and economic development information and data through such centers for the purpose of informing local governments, organizations, and individuals of the availability and status of Federal, State, and local programs and other resources and data for the solution of urban problems; and

(3) providing, through such centers, technical assistance with respect to the solution of urban problems to any small community requesting such assistance.

13 (b) A program assisted under this section shall—

(1) specify the information and technical assistance activities to be carried on and justify the needs for and costs of such activities; and

(2) represent substantially increased or improved activities on the part of the applicant State or metropolitan-area agency.

20 EXTENT OF ACTIVITIES

SEC. 303. (a) An urban information and technical assistance center established by a metropolitan-area agency under this title shall be directed primarily to the provision of (1) informational services of general metropolitanwide utility, and (2) informational services and technical assist-

1 ance of utility to the communities within that metropolitan
2 area.

3 (b) An urban information and technical assistance
4 center established by a State under this title shall be directed
5 primarily to the provision of (1) informational services of
6 general statewide utility, and (2) informational services and
7 technical assistance of utility to communities not within
8 metropolitan areas for which information centers have been
9 established under this title.

10 AMOUNT OF GRANT

11 SEC. 304. (a) A grant under this section shall not
12 exceed 50 per centum of the cost of the activities carried
13 on under an approved urban information and technical assist-
14 ance program.

15 (b) No grant shall be made under this title to assist
16 in assembling data, or providing information, to be used
17 primarily in the day-to-day operations of State or local gov-
18 erning bodies and agencies.

19 COOPERATION AND COORDINATION

20 SEC. 305. (a) Federal departments and agencies shall
21 cooperate with States and metropolitan-area agencies in pro-
22 viding information to assist in carrying out the purpose of
23 this title.

24 (b) In the administration of this title, the Secretary

1 shall seek to ensure the greatest practicable cooperation and
2 coordination as between the various urban information and
3 technical assistance centers established under this title.

4 DEFINITIONS

5 SEC. 306. As used in this title—

6 (1) “State” means any State of the United States, the
7 Commonwealth of Puerto Rico, the Virgin Islands, or an
8 agency or instrumentality designated by the chief executive
9 of any of the foregoing, or a statewide agency or instru-
10 mentality of its political subdivisions designated by such
11 chief executive.

12 (2) “Metropolitan area” means a standard metropolitan
13 statistical area as established by the Bureau of the Budget,
14 subject however to such modifications and extensions as the
15 Secretary may determine to be appropriate.

16 (3) “Metropolitan-area agency” means (A) an organi-
17 zation or body composed of public officials which the Secre-
18 tary determines to be representative of the political jurisdic-
19 tions encompassing a metropolitan area; or (B) where no
20 such organization exists and can qualify for a grant under this
21 title, a public body or agency (i) designated by the govern-
22 ing body of that political jurisdiction within the area which
23 contains the largest population, according to the most recent
24 decennial census, and (ii) concurred in by other local politi-
25 cal jurisdictions which, together with the designating juris-

1 diction, contain at least two-thirds of the population of the
2 area.

3 (4) "Small community" means any municipality or
4 other political subdivision of a State having a population of
5 twenty-five thousand or less.

6 (5) "Secretary" means the Secretary of Housing and
7 Urban Development.

8 APPROPRIATIONS

9 SEC. 307. There are authorized to be appropriated for
10 the purpose of carrying out the provisions of this title not
11 to exceed \$5,000,000 for the fiscal year ending June 30,
12 1967, and not to exceed \$10,000,000 for the fiscal year end-
13 ing June 30, 1968. Appropriations authorized under this
14 section shall remain available until expended.

15 TITLE IV—MISCELLANEOUS

16 STUDY CONCERNING RELIEF OF HOMEOWNERS IN

17 PROXIMITY TO AIRPORTS

18 SEC. 401. Section 1113 of the Housing and Urban
19 Development Act of 1965 is amended—

20 (1) by inserting "(a)" after "SEC. 1113.";

21 (2) by striking out "one year after the date of the
22 enactment of this Act" and inserting in lieu thereof "six
23 months after the date of the enactment of the Demon-
24 stration Cities and Metropolitan Development Act of
25 1966"; and

1 (3) by adding at the end thereof the following new
2 subsection:

3 “(b) There is authorized to be appropriated the sum
4 of \$100,000 to carry out subsection (a).”

Passed the Senate August 19, 1966.

Attest:

EMERY L. FRAZIER,

Secretary.

AN ACT

To assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes.

AUGUST 22, 1966

Referred to the Committee on Banking and Currency

Aug. 31, 1966

Agreed to the conference report on S. 3052, to provide for a coordinated national safety program through financial assistance to the States to accelerate highway traffic safety programs. pp. 20463-6

13. INTEREST RATES. The Rules Committee reported a resolution for the consideration of H. R. 14026, to prohibit insured banks from issuing negotiable interest-bearing or discounted notes, certificates of deposit, or other evidences of indebtedness. p. 20459
Rep. Patman urged support of H. R. 14026, "the only low interest bill pending" rather than H. R. 17255 "which will be offered as a substitute." pp. 20451, 20534-5
14. PEACE CORPS. Passed as reported S. 3418, to further amend the Peace Corps Act, as amended. This bill will now be sent to the President. H. R. 16574, a similar bill, was tabled. pp. 20482-7
15. LOANS. The Agriculture Committee voted to report (but did not actually report) H. R. 13669, to amend title III of the Bankhead-Jones Farm Tenant Act so as to authorize rural-renewal loans to be made for recreation facilities, and H. R. 9151, to permit release of valueless mortgage liens. p. D834
16. DEMONSTRATION CITIES. The Banking and Currency Committee voted to report (but did not actually report) S. 3708, the demonstration cities and metropolitan development bill. p. D834
17. FISH PROTEIN. A subcommittee of the Merchant Marine and Fisheries Committee approved for full committee S. 2720, authorizing the Secretary of the Interior to engage in programs to develop practicable means for the production of fish protein concentrate. p. D834
18. WATERSHEDS. Received from the Public Works Committee work plans for numerous watershed projects. p. 20449
19. PERSONNEL. Rep. Morse inserted the testimony of Massachusetts' Lieutenant Governor in support of the proposed Intergovernmental Personnel Act. pp. 20504-5
20. INTERGOVERNMENTAL RELATIONS. Rep. Conable commended "partnership government" as meaning "Federal contribution to the cost of a local project of sound standard" but stated "recently things have not been going well with partnership government." pp. 20509-10
21. COTTON. Rep. Abernethy urged that "through all the mechanisms available we limit the flow of cotton textiles into this country" and "shift to an auction system, to sell to the world on a highest-bid basis, at least 5 million bales of American cotton annually." pp. 20510-12
21. INFLATION. Rep. Bingham expressed concern about the rising cost of living and suggested several steps that should be taken to combat inflation. p. 20536

ITEMS IN APPENDIX

22. PRICE CONTROLS. Extension of remarks of Rep. Wilson, Calif., inserting an article and stating that it "makes clear that wage and price controls are a virtual certainty after the November elections." p. A4610

23. FOOD PRICES. Extension of remarks of Rep. Rumsfeld stating that the American housewife deserves some sort of an award for patience and stamina in the face of "ever-increasing" food prices, and inserting an article on this subject. p. A4615
24. CONSUMERS. Extension of remarks of Rep. Helstoski favoring a Dept. of Consumers to provide coordination of the administration of consumer services. p. A4617
25. FARM LABOR. Extension of remarks of Rep. Roybal stating that the "idyllic picture we paint of farm life blinds us to the drudgery of farmwork and to the miserable poverty of farmworkers." pp. A4617-8
26. FOREST SERVICE. Extension of remarks of Rep. Johnson, Calif., commending the "spirit of cooperation in which the Forest Service completed action on the recommendations of the joint management review program..." pp. A4619-20

BILLS INTRODUCED

27. MARKETING. H. R. 17463 by Rep. Hagen of Calif. and H. R. 17464 by Rep. Olson & Minn., to amend the Agricultural Adjustment Act, as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended; to Agriculture Committee.
28. DISASTER RELIEF. H. R. 17454 by Rep. Walker of New Mexico, to provide additional assistance for areas suffering a major disaster; to Public Works Committee.

HIGHLIGHTS: House passed child nutrition bill. House committee reported bill to permit sale of grain storage facilities. House agreed to conference report on foreign aid authorization bill. Sen. Proxmire urged completion of action on school milk program.

SENATE

- 1. CONTAINERS.** Passed as reported S. 17, to repeal certain acts setting standards for containers for fruits and vegetables. pp. 20653-4
- 2. LABELING.** Passed as reported S. 3298, to amend the Federal Hazardous Substances Labeling Act to ban hazardous toys and articles intended for children, and other articles so hazardous as to be dangerous in the household regardless of labeling, and to apply to unpackaged articles intended for household use. pp. 20654-9

3. TARIFFS. Passed without amendment H. R. 12328, to extend for three years the duty-free treatment of certain extracts suitable for tanning (p. 20650); and passed without amendment H. R. 12461, to continue until Sept. 5, 1969, the suspension of duty on certain istle (pp. 20650-1). These bills will now be sent to the President.
4. TRAFFIC SAFETY. Agreed to the conference report on S. 3052, to provide for a coordinated national safety program through financial assistance to the States to accelerate traffic safety programs. This bill will now be sent to the President. pp. 20701, 20668
5. GUAM. Passed without amendment S. 2979, to extend coverage of the State Technical Services Act of 1965 to the territory of Guam. p. 20702
6. WATERSHEDS. Sen. Randolph inserted a list of various watershed projects approved by the Public Works Committee. pp. 20649-50
7. WATER POLLUTION. Sens. Randolph and Hartke expressed concern about the pollution of Lake Michigan during dredging by the Corps of Engineers. pp. 20668, 20681-2
8. RECREATION. Sen. Jackson inserted President Johnson's remarks at Burlington, Vt., praising the development of recreational facilities in the U. S. and stating that "we are winning our fight for conservation..." pp. 20672-3
9. SCHOOL MILK. Sen. Proxmire urged the completion of action on the school milk program before Congress adjourns. p. 20679
10. ADJOURNMENT. Agreed that upon completion of business the Senate would adjourn until Fri., at which time the Senate adjourn with no transaction of business until Tues., Sept. 6. p. 20663

HOUSE

11. CHILD NUTRITION. Passed S. 3467, the child nutrition bill, with an amendment to substitute the language of a similar bill, H. R. 13361 which was passed earlier with amendments. H. R. 13361 was tabled (pp. 20734-54). An amendment by Rep. Findley to omit the breakfast program was rejected 52-95 (pp. 20751-3). For provisions of this bill see Digest 110.
Rep. Gonzalez expressed the "need for centralization of administration of child feeding programs." pp. 20789-90
12. DEMONSTRATION CITIES. The Banking and Currency Committee reported with amendment S. 3708, the demonstration cities and metropolitan development bill (H. Rept. 1931). p. 20805
13. RECLAMATION. Received the conference report on S. 254, to authorize the Secretary of the Interior to construct, operate, and maintain the Tualatin Federal reclamation project, Oreg. (H. Rept. 1932). p. 20715
14. FOREIGN CURRENCIES. The Ways and Means Committee reported S. 801, to improve the balance of payments position of the United States by permitting the use of reserved foreign currencies in lieu of dollars for current expenditures (H. Rept. 1954). p. 20805

DEMONSTRATION CITIES AND METROPOLITAN DEVELOPMENT ACT OF 1966

SEPTEMBER 1, 1966.—Committed to the Committee of the Whole House on the State of the Union and ordered to be printed

Mr. PATMAN, from the Committee on Banking and Currency,
submitted the following

R E P O R T

[To accompany S. 3708]

The Committee on Banking and Currency, to whom was referred the bill (S. 3708) to assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes, having considered the same, report favorably thereon with an amendment and recommend that the bill, as amended, do pass.

The amendment is as follows: Strike out all after the enacting clause and insert the matter which appears in italic type in the bill herewith reported to the House.

WHAT THE BILL, AS AMENDED, WOULD DO

Title I of the bill as amended by the committee would establish a new city demonstration program of Federal grants and technical assistance to help provide the incentive and the financial means for a city to plan and carry out a program for rebuilding and restoring entire sections or neighborhoods of slum and blight and to improve the general welfare of the people in such areas.

The demonstration city approach places maximum dependence upon the locality and its officials to plan and carry out the program. The Federal Government will help with technical and financial assistance, but it will be limited to those cities presenting imaginative and effective ways of dealing with the physical and social problems of slum and blighted areas.

The financial assistance will be in two forms—planning assistance and program assistance. Planning assistance will be on an 80 percent Federal grant basis with the city making up the other 20 percent of cost. For this purpose the bill authorizes an appropriation of \$12 million a year for each of the 2 fiscal years 1967 and 1968.

The program assistance would provide supplementary financial aid to cities to carry out activities in addition to those already provided under existing Federal law. The supplementary aid will be computed in each case on a formula related to local contributions to Federal programs involved in the project. Under the committee bill the program assistance for any project would be a maximum of 80 percent of the total non-Federal contributions made on all projects under existing Federal law which are being carried out as part of the city demonstration program. The supplemental grant could not be used to reduce local expenditures on existing projects or activities or to reduce the local effort for similar activities. The bill calls for a 2-year authorization of appropriations of \$400 million for fiscal 1968 and \$500 million for fiscal 1969. The 2-year authorization is consistent with administration estimates for a 5-year program.

Under this title, the urban renewal grant authority would be increased by \$250 million to be used for projects included within a city demonstration program.

Title II calls for improved coordination of Federal activities in metropolitan areas, requires minimum standards of planning and coordination by local governments in such areas, and authorizes supplementary Federal grants to State and local public bodies for metropolitan development projects as incentives for adequate metropolitanwide comprehensive planning and adherence to such planning. The supplementary grant would be authorized only for those metropolitan areas which have met standards for comprehensive planning on a metropolitanwide basis. The grant would be made to the public body sponsoring the metropolitan development project. It would amount to a maximum of 20 percent of the cost of the project. In no case could the total grant (the basic grant plus the supplementary grant) exceed 80 percent of the project cost nor could the supplementary grant exceed the basic grant.

The benefits of this title are for projects in a standard metropolitan statistical area, which is defined by the Bureau of the Budget as the area in and around a city of 50,000 population or more. The authorization of appropriations under the bill is a maximum of \$25 million for fiscal year 1967 and \$50 million for fiscal year 1968.

Title III contains a number of amendments to the FHA programs. One section extends eligibility for the preferential terms under FHA section 203 extended to veterans in last year's Housing Act to include veterans who have used their VA entitlement.

Another section authorizes financing at an interest rate of 3 percent under FHA section 221(d)(3) for the acquisition and rehabilitation of housing by nonprofit groups for resale to families of very low income. Among other provisions, this title would also reactivate on a limited basis the armed services housing program (Capehart), and would authorize an additional 5,000 units of off-base section 810 rental housing for the military. This title would also liberalize the FHA cooperative housing program by raising per-unit mortgage ceilings, increasing the amount of supplementary financing which can be in-

sured, and making improvements in the cooperative housing insurance fund.

Title IV extends FHA mortgage insurance for land development to include financing for new communities. The limit on the amount of land development mortgages would be increased from \$10 million to \$25 million outstanding and mortgages financing new communities would be eligible for FNMA special assistance.

Title V authorizes FHA mortgage insurance to finance the construction and equipment of buildings to be used as group medical practice facilities. Insured loans would be limited to 90 percent of value, a maximum maturity of 25 years, and a maximum interest rate of 6 percent.

Title VI provides new programs of grant and loan assistance for the preservation of historic structures.

Title VII provides for the crediting of certain local expenditures as a local grant-in-aid under the urban renewal program.

Title VIII contains amendments to the rural housing programs administered by the Farmers Home Administration, including an increase from \$1,000 to \$1,500 in the maximum amount of a loan, grant, or combined loan and grant for repairs and improvements to owner-occupied dwellings which are necessary to make them safe and sanitary.

Title IX contains a number of miscellaneous provisions, including limited authorization for FNMA construction loans for FHA cooperative housing and FHA 221(d)(3) projects. The title also contains amendments to clarify and improve mortgage and financial relief for homeowners who are placed in economic difficulty because of the closing of Federal installations or military bases.

BACKGROUND OF THE BILL

During the period February 28 to March 25, the Subcommittee on Housing held 4 weeks of hearings on housing and urban development legislation including the administration proposed bills, H.R. 12341 (demonstration cities program), H.R. 12946 (Urban Development Act), H.R. 13064 (housing and urban development amendments), H.R. 9256 (group medical practice facilities), and other pending bills in the housing and urban development field.

Expert and detailed testimony was received on all phases and aspects of the proposed legislation. The subcommittee heard detailed testimony from the Secretary of Housing and Urban Development and his top assistants, and the Under Secretary of HEW testified on the group medical practice facilities bill. Many other witnesses reflecting the viewpoints of the homebuilding, real estate, and mortgage lending industries, labor organizations, civic groups, mayors, cooperative groups, and others provided the committee with the benefit of their knowledge and their recommendations.

While the testimony covered all aspects of the housing and urban development legislation under consideration, there was considerable emphasis on President Johnson's proposed demonstration cities program. This proposal received the enthusiastic support of the Nation's mayors speaking both through their national organizations, the U.S. Conference of Mayors and the National League of Cities, and through the testimony of many individual mayors. It is also heartily endorsed

by the AFL-CIO, the National Association of Home Builders, and spokesmen for planners, housing, and civic groups.

The Subcommittee on Housing met in executive session on August 25 and recommended a draft omnibus bill to the full committee by a rollcall vote of 9 to 1. The draft bill which emerged from the subcommittee incorporated the main features of the administration proposed bills (H.R. 12341, H.R. 12946, H.R. 13064, and H.R. 9256), as well as improving and perfecting amendments.

The subcommittee recommended bill was in the form of an amendment to S. 3708 which passed the Senate on August 19. The subcommittee bill included provisions from S. 3708 as well as S. 3711, a general housing bill, and various House bills. The full Committee on Banking and Currency met on the bill in executive session on August 30 and 31 and September 1 and adopted the subcommittee recommendations with several amendments and substituted the recommendations as a committee amendment to S. 3708. The bill was then ordered reported by a rollcall vote of 23 to 8.

MAJOR PROVISIONS OF THE BILL

TITLE I—COMPREHENSIVE CITY DEMONSTRATION PROGRAMS

Title I of the bill would establish a new program of Federal assistance to help cities plan, administer, and carry out coordinated physical and social renewal programs to improve the environment and the general welfare of people living in slum and blighted areas of cities of all sizes in all parts of the country.

THE PROBLEM

The great problems confronting the Nation's cities are well known. Slums and blight are widespread. There are over 7 million homes in urban areas that are run down or deteriorated. More than 3 million do not have adequate plumbing or hot and cold running water. In many of our central cities entire sections and neighborhoods are in need of major surgery to overcome decay.

Increasingly the old, the poor, and the underprivileged are concentrated in these slum and blighted areas of the central city. As slums and blight spread, crime, delinquency, want, and disease follow. While the need for city services grows, the city's ability to provide these services is impaired by the very blight that creates the demand.

More blight, greater demand for city services, decreasing revenues to meet the demand—that is the descending spiral confronting many American cities.

Significantly, the independent efforts of cities to help themselves are in large measure self-defeating. The more determined the city's effort to raise funds to meet the need for increased services, the more likely that effort drives its affluent citizens to the nearby suburbs. Similarly, the greater tax burden the city places on industry within its borders, the less its opportunity to attract and hold the industry and commerce its economy requires. So the city becomes, increasingly, a home for the economically deprived, those least able to bear the cost of municipal services.

Our cities have made great efforts to cope with their problems. Between 1954 and 1963, municipalities increased their tax revenues by 43 percent, and local government indebtedness increased by 119 percent. With the limited sources of revenue available to them, the cities have waged a heroic battle against problems which are overwhelming them.

But resources needed to solve the problems of slum and blight, ignorance and disease, poverty and despair, crime and delinquency, cannot come from city taxes alone. We must bring to bear national resources. The city plays a critical role in American life. The success of the city in providing the physical and social framework through which millions of poor and disadvantaged Americans are prepared to participate fully in the Nation's life is a vital national concern.

We have a long tradition of Federal assistance to our cities. Initially this assistance emphasized physical renewal. We have learned that physical renewal alone cannot eliminate the hardcore causes of urban poverty and blight. In recent years Congress has developed programs of social renewal and imaginative new approaches to the problems of poverty, disease, ignorance, and despair. But these programs have not been coordinated adequately.

By means of the comprehensive city demonstration programs authorized by title I of this bill, Federal programs of physical and social assistance to our cities can be meshed and coordinated in a comprehensive effort. Through a comprehensive city demonstration program the full arsenal of existing Federal grant-in-aid programs can be brought to bear on urban problems. This should make possible an interaction and focusing of existing Federal grant-in-aid programs which heretofore have often been lacking.

Title I of the committee bill is designed to carry out President Johnson's recommendations for city demonstration programs expressed in his message of January 26, 1966. The bill reported by the committee places additional emphasis on local initiative in developing new and imaginative ways of dealing with the physical and social problems of slum and blighted areas. The bill reported by the committee also stresses the need for cooperation and coordination by Federal departments and agencies in the administration of comprehensive city demonstration programs.

In his message to the Congress recommending the demonstration cities program, the President said:

From the experience of three decades, it is clear to me that American cities require a program that will—

Concentrate our available resources—in planning tools, in housing construction, in job training, in health facilities, in recreation, in welfare programs, in education—to improve the conditions of life in urban areas.

Join together all available talent and skills in a coordinated effort.

Mobilize local leadership and private initiative, so that local citizens will determine the shape of their new city * * *.

The demonstration cities program authorized by title I of the bill would make it possible for cities of all sizes, and in all sections of the country, to undertake such a program.

COMPREHENSIVE CITY DEMONSTRATION PROGRAM

A "comprehensive city demonstration program" is a locally prepared and scheduled program for rebuilding or restoring entire sections and neighborhoods of slum and blighted areas by the concentrated and coordinated use of all available Federal aids together with local private and governmental resources. It will include citywide aids and resources necessary to improve the general welfare of the people living or working in these areas. It will make it possible to treat the social needs of people in the slums in conjunction with physical rehabilitation.

This is to be a local program, planned and carried out by local people and based on local judgment as to the city's needs and its order of priorities in meeting these needs.

The assistance provided by title I of the bill would help cities of all sizes and in all sections of the country to plan, develop, and carry out such comprehensive city demonstration programs. It would encourage the cities to focus and coordinate projects and activities for which assistance is now available under existing Federal programs with other public and private actions to provide the most effective and economic concentration of Federal, State, local, and private efforts to improve the quality of urban life.

FEDERAL ASSISTANCE PROVIDED

Federal funds would cover 80 percent of the cost of planning and developing comprehensive city demonstration programs. Federal grants would also pay 80 percent of the cost of administering every project or activity which is included as part of these programs (but not the cost of administering any project or activity for which Federal financial assistance is provided under an existing grant-in-aid program).

In addition, two types of Federal assistance would be available to help finance projects or activities that are included as part of an approved comprehensive city demonstration program.

First, to the extent such projects or activities are eligible for assistance under an existing Federal grant-in-aid program, they may be financed under that program. This bill contemplates that existing Federal grant-in-aid programs—and funds now available for those programs—will be utilized, where feasible, in carrying out projects or activities that, though part of a comprehensive city demonstration program, are eligible for assistance under existing grant-in-aid programs.

It is expected that the demonstration cities program will stimulate a new and sharper focusing of activities assisted under existing grant-in-aid programs and far greater coordination in their use. More effective use of existing grant-in-aid programs by cities is a key goal of the demonstration cities program.

The fact that a particular project or activity, eligible for assistance under an existing Federal grant-in-aid program, is undertaken as part of a comprehensive city demonstration program will in no way affect its eligibility requirements for assistance under the existing grant-in-aid program. The city will apply to the agency which administers the grant-in-aid program and the application will be subject to all the

existing rules, regulations, and priorities governing that grant-in-aid program.

Second, special grants, supplementing the assistance available under existing grant-in-aid programs, would be provided under the demonstration cities program to—

(1) Assist cities to provide their required share of the cost of projects or activities that are part of the demonstration program and are funded under existing Federal grant-in-aid programs, and

(2) Provide funds to carry out other non-federally-assisted projects or activities (including projects or activities of the type eligible for Federal assistance under existing grant-in-aid programs) undertaken as part of the demonstration program.

The amount of this special—supplemental—demonstration cities grant would be up to 80 percent of the total non-Federal contributions required to be made to all projects or activities assisted by existing Federal grant-in-aid programs which are carried out as part of a comprehensive city demonstration program.

The required non-Federal contribution to every project or activity carried out in connection with an approved comprehensive city demonstration program, and funded under an existing Federal grant-in-aid program, would serve as a base for computing the special supplemental grant under the demonstration cities program. It does not matter whether or not the Federal commitment to assist in financing the particular project or activity under an existing grant-in-aid program occurred sometime before the comprehensive city demonstration program is approved. So long as the activity financed by the existing grant-in-aid program is closely related to the physical and social problems in the area or areas of the city covered by the demonstration program and can reasonably be expected to have a noticeable effect upon such problems, and is carried out in connection with the approved city demonstration program, the non-Federal contribution to that project or activity can serve as a base for the grant computed under the demonstration cities program.

The bill would require that the specific amount of any grant take into account the number and intensity of the economic and social pressures in the sections or neighborhoods involved—such as those involving or resulting from population density, poverty levels, unemployment rate, public welfare participation, educational levels, health and disease characteristics, crime and delinquency rate, and degree of substandard and dilapidated housing.

USE OF SUPPLEMENTAL GRANT PROVIDED FOR DEMONSTRATION PROGRAMS

The supplemental grant funds authorized to be paid to comprehensive city demonstration programs are not “earmarked” for any one specific project or activity carried out as part of the demonstration program. After the amount of the supplemental grant funds available to the city is established under the formula in the bill, the total amount will be available to the city to be used for any project or activity included as part of an approved comprehensive city demonstration program.

MAINTENANCE OF EFFORT

The supplemental grant funds authorized by the bill to be provided for comprehensive city demonstration programs are not to be used for the general administration of local governments, or as a substitute for local funds being used, or already obligated, to rebuild and restore slum and blighted areas and provide community facilities and services to their residents. Accordingly, the bill requires as a condition to receiving assistance for an approved comprehensive city demonstration program, that the city not reduce, during the period an approved program is carried out, its prior level of aggregate expenditures for projects or activities similar to those being assisted under the demonstration program. In addition, supplemental grant funds authorized by the bill may not be used to replace non-Federal contributions obligated, prior to the filing of the application for a grant for planning the demonstration program, to be spent for a project or activity which is included within a comprehensive city demonstration program but for which Federal financial assistance is being provided under an existing Federal grant-in-aid program.

In other words, for the purpose of determining the amount of the supplemental grant funds which may be paid to help carry out the comprehensive city demonstration program, every non-Federal contribution made, or obligated, to a federally assisted project or activity which is carried out in connection with the demonstration program, may be counted as part of the base of non-Federal contributions upon which the supplemental grant is calculated. However, these supplemental grant funds may not be used to replace non-Federal contribution made or obligated to the federally assisted project or activity included within the demonstration program prior to the filing of the application for a grant for planning the demonstration program.

PREPARING A COMPREHENSIVE CITY DEMONSTRATION PROGRAM

A. City demonstration agency

The Federal assistance authorized by the demonstration cities program would be provided to a "city demonstration agency." The "city demonstration agency" may be the city, county, or any local public agency established or designated by the local governing body, including one or more municipalities, counties, or other public bodies having general governmental powers, to administer the comprehensive city demonstration program.

The city demonstration agency, therefore, may be a public agency created for the purpose of administering the demonstration program or it may be an existing local public agency assigned this responsibility. A very wide range of administrative arrangements is permissible so long as the structure serving as the city demonstration agency constitutes a public body which is subject to the control of the local governing body.

Whatever the administrative organization of the city demonstration agency, it must have the endorsement and support of the elected officials of the city and the agency must have sufficient power and authority to undertake the overall administration of the demonstration program.

This does not mean that the city demonstration agency must assume operational control of all projects and activities which are a part of the

local demonstration program. The city demonstration agency could utilize the capabilities of other local public and private bodies and agencies. For example, to the extent urban renewal activities are a part of the demonstration, the existing urban renewal agency would carry out such projects. School boards would continue to direct educational activities in the demonstration area. The function of the city demonstration agency would be to obtain the cooperation of all participants and receive their agreement to a concentrated and coordinated effort.

B. Planning and developing the city demonstration program

The city demonstration agency would apply to the Secretary of Housing and Urban Development for a grant to pay 80 percent of the cost of planning and developing the comprehensive city demonstration program. The application for this grant must have the approval of the local governing body of the city and would show in broad and general terms the nature and seriousness of the city's problems and the outlines of what the city intends to do. Before he makes a grant to plan a comprehensive city demonstration program, the Secretary of Housing and Urban Development must determine that there exist (1) administrative machinery through which coordination of all related planning activities of local agencies can be achieved, and (2) evidence that the necessary cooperation of agencies engaged in related local planning can be obtained.

The bulk of the effort during the planning and development period would be spent in refining the program elements of the initial proposal and developing their interrelationships, working out organizational arrangements, and scheduling and budgeting program activities. The Secretary of Housing and Urban Development stated that the planning and development period will generally not require more than 6 to 8 months, and perhaps less time. Much information in terms of needs identification will already be available. Many cities in a position to qualify as a demonstration city will already have undertaken a community renewal program, will have a community action agency which will have already collected data on social problems and needs, and will have a well-developed physical master plan and capital improvements program.

Completed plans for comprehensive city demonstration programs would be reviewed by the Secretary of Housing and Urban Development to determine that they satisfy the statutory criteria for demonstration programs.

Demonstration programs need not be limited to a single geographically delineated demonstration area in which slum and blight are to be removed or arrested. Rather, there may be several such areas of varying sizes in the city.

In addition, a wide variety of activities that serve the demonstration program, no matter where located, may be included in the demonstration. For example, a hospital or vocational school which serves the needs of residents of slum and blighted areas may be a part of the city's program though constructed in a section of the community not requiring clearance or rehabilitation treatment.

Grant funds provided under this legislation will, therefore, be available for certain communitywide activities, and the cities will be expected to study the effect and impact of their programs with a view to the well-being of the entire community.

CONTENT OF DEMONSTRATION PROGRAM

To qualify for assistance under title I of the bill, a city must be prepared to embark on major new undertakings addressed to major urban problems. The demonstration cities program is designed to help those cities willing to face up to their responsibilities, willing and able to bring together all the public and private bodies whose joint action is necessary to solve their problems, willing to fully commit their energy and resources, and willing to undertake actions which will have widespread and substantial effects on the social and physical structure of the city.

A demonstration program must meet the following criteria:

First, the physical and social problems in the area of the city covered by the program must be such that a comprehensive city demonstration program is necessary to improve the physical environment, increase the supply of adequate housing for low- and moderate-income people and provide educational and social services vital to the public health and welfare.

This requirement is designed to assure that the area selected by the city has physical and social problems the solution of which require the degree of concentrated and coordinated public investment provided by a comprehensive city demonstration program. At least a part of the area should consist of what would generally be regarded as hard-core slums in which low-income families are concentrated. It must be administered with sufficient flexibility to permit a city to concentrate its program in those neighborhoods in which the city believes there exist the best opportunities for helping its disadvantaged people and receiving maximum economic and social returns on its investment.

Second, the demonstration program must be of sufficient magnitude (1) to make a substantial impact on the social and physical problems and to remove or arrest blight and decay in entire sections or neighborhoods; (2) to contribute to the sound development of the entire city; (3) to make marked progress in reducing social and educational disadvantages, ill health, underemployment, and enforced idleness; and (4) to provide educational, health, and social services necessary to serve the poor and disadvantaged in the area, widespread citizen participation in the program, maximum employment opportunities for residents of the area in all phases of the program, and enlarged opportunities for work and training.

These criteria will require a demonstration program to deal with sections or neighborhoods which contain a substantial percentage—as much as 15 to 20 percent—of the substandard dwelling units in the city. They will require that the program include the social components necessary to serve the substantial percentage of the cities' poverty households, welfare families, illiterates, and unemployed who reside in the sections or neighborhoods covered by the demonstration program.

Many of the educational and social services which must be part of the demonstration program can be provided under community action programs supported by the Office of Economic Opportunity, and educational and other programs supported by the Department of Health, Education, and Welfare. The development of job skills, and on-the-job training can be provided with the assistance available under the program of the Department of Labor. Opportunities for

employing residents in the program can be provided through appropriate arrangements with lending institutions, private construction firms, and labor unions involved in the rehabilitation and construction activities that are part of the program.

Third, the program, including rebuilding or restoration, must contribute to a well-balanced city with a substantial increase in the supply of standard housing of low and moderate cost, maximum opportunities in the choice of housing accommodations for all citizens of all income levels, adequate public facilities (including those needed for education, health and social services, recreation, and transportation), commercial facilities adequate to serve the residential areas, and ease of access between the residential areas and centers of employment.

Existing Federal grant-in-aid programs can be utilized to help fulfill the requirement of these criteria. For example, the existing Federal grant-in-aid program for neighborhood facilities can help in the provision of physical facilities needed to house many social services and the existing mass transit program may finance needed transportation facilities. The Elementary and Secondary Education Act may provide needed educational services.

These criteria are designed to assure that the demonstration area is not treated as a special enclave apart from the rest of the city. What is done in the demonstration area must be regarded as a part of the overall improvement of the city. A "well-balanced city" is one which contains a mixture of the facilities and services needed to serve the diverse groups living and working in the city. It implies a variety of housing types, sizes, and prices to provide an adequate range of choice for all who want to live in the city. It implies adequate and convenient commercial facilities to serve the needs of the residents. It implies adequate job opportunities and a transportation system to permit ready movement between residence and shopping and working areas. It implies adequate public facilities, including parks and other recreational facilities. In sum, a "well-balanced city" is one which provides the full range of services and opportunities which any citizen can expect as a part of city living.

The substantial increase in the supply of low- and moderate-cost housing required by these criteria will generally involve use of the public housing program and the rent supplement program, as well as a substantial amount of rehabilitation of existing housing. Clearance of structures will play a significant part in many demonstration programs, and considerable new construction of low-income housing will be necessary. However, a great amount of rehabilitation and reconstruction in the area will be essential to provide sufficient additional low-income housing and minimize dislocation of families and businesses.

Very often, rehabilitation and improvement of substandard and deteriorating units can make them suitable. Some units require relatively minor repairs; others require considerable rehabilitation. In some instances rehabilitation can be carried on without any displacement of occupants. In many areas temporary relocation in the neighborhood can be arranged, and in some instances relocation to another neighborhood will be necessary.

Fourth, the city's program must be more than a statement of goals. It must be a definite plan of action. Projects and activities to be undertaken must be scheduled and ready for initiation within a reasonably short period of time. In addition, the criteria require that

(1) the local governing body has approved the program and, where appropriate, application for assistance under the program; (2) adequate local resources are, or will be, available for the completion of the program as scheduled; (3) agencies whose cooperation is necessary to the success of the program have indicated their intent to furnish such cooperation; (4) administrative machinery is available at the local level for carrying out the program on a consolidated and coordinated basis; (5) local laws, regulations, and other requirements are, or can be expected to be, consistent with the objectives of the program; (6) the demonstration program include a plan for relocating individuals, families, business concerns, and nonprofit organizations displaced or to be displaced in carrying out the program; and (7) the demonstration program be consistent with comprehensive planning for the entire urban or metropolitan area.

These criteria require that a local proposal for a demonstration program indicates both the resources currently available and those resources which can reasonably be expected to be available during the course of carrying out the demonstration.

Agencies whose cooperation is necessary to the success of the program will be expected to make reasonable commitments to the extent such commitments are feasible. Obviously, a school board could not commit itself to the construction of a school if such construction were dependent upon a future bond election. However, cooperating agencies will be expected to pledge their support of the program and their intent to carry out necessary actions to the fullest extent they can.

No specific administrative structure is necessary to meet the requirements of the criteria. The city is free to devise its own administrative machinery and it is likely that few administrative structures will be exactly the same. All that will be required is that the machinery devised be adequate to carry out the program on a concentrated and coordinated basis and that sufficient authority and power exist to assure that the demonstration program can be carried out as proposed.

The relocation plan required by the criteria must provide concrete evidence that there will be available for families who are displaced decent, safe, and sanitary housing within their economic means. In addition, adequate provision must be made for assistance and relocation payments to families, business concerns, and nonprofit organizations displaced as a consequence of a city demonstration program. The relocation activities are to be coordinated, to the maximum extent feasible, with the contemplated increase in the housing supply for the entire city in order to assure the availability of decent, safe, and sanitary housing for people of low and moderate income.

The relocation provisions included in the demonstration cities program would make available to those displaced by any activity undertaken as part of a demonstration program relocation aids and benefits as liberal as those now provided in the urban renewal program. Where relocation payments authorized in existing Federal programs utilized in connection with the demonstration program are less than now authorized in the urban renewal program, demonstration grant funds will supplement the relocation payments authorized in these existing programs to make up the difference.

The requirements imposed by the criteria with respect to comprehensive planning recognize that central cities are the economic and cultural cores of larger urban or metropolitan areas. Their activities affect the entire urban or metropolitan area. And the cities, in turn,

are affected by activities undertaken in the entire area. No element of rational urban development is more important than the carrying on of sound comprehensive planning for entire urban and metropolitan areas. Cities will be expected to continue to cooperate with other governmental bodies in the metropolitan area to assure and promote sound community growth.

Fifth, the comprehensive city demonstration program must meet such additional requirements as the Secretary may establish to carry out the purposes of the program authorized by title I of the bill.

This customary general provision has two purposes: (1) To serve as a base for procedural requirements which would be inappropriate for inclusion in legislation; and (2) to permit the closing of unforeseen loopholes. The committee does not intend that this provision be used to impose substantive criteria unrelated to those prescribed in the bill.

ACTIONS EXPECTED OF THE SECRETARY

The bill requires that in implementing the demonstration program, the Secretary of Housing and Urban Development shall—

(1) Emphasize local initiative in the planning, development, and implementation of comprehensive city demonstration programs;

(2) Insure, in conjunction with other appropriate Federal departments and agencies and at the direction of the President, maximum coordination of Federal assistance provided in connection with this title, prompt response to local initiative, and maximum flexibility in programing, consistent with the requirements of law and sound administrative practice; and

(3) Encourage city demonstration agencies to (A) enhance neighborhoods by applying a high standard of design, (B) maintain, as appropriate, natural and historic sites and distinctive neighborhood characteristics, and (C) make maximum possible use of new and improved technology and design, including cost reduction techniques.

The committee wishes to stress that the demonstration program is based on local initiative, and local responses to local problems. The bill requires, and the committee intends, that a city's comprehensive demonstration program be planned, developed, and carried out by local people. The character and content of the program must be based on local judgment as to the city's needs.

The committee is aware that the demonstration program will require far more effective coordination of existing Federal programs than has been achieved in the past. The committee expects the Secretary to utilize his existing authority to assure that cities' comprehensive demonstration programs are not disrupted by a failure to coordinate activities under existing Federal grant-in-aid programs.

Massive rebuilding and restoration programs provide unique opportunities for applying the fruits of our technological advances to the home building and rehabilitation industries. The committee expects the secretary to require maximum use of such advances in the construction and rehabilitation of homes and buildings. In addition, the committee expects the Secretary to encourage city demonstration agencies to make greater efforts to make new and existing structures as attractive as possible.

PARTICIPATION IN THE PROGRAM

The ultimate success of this new program rests upon the ability of local people to assess their own most pressing problems and devise their own solutions to those problems. The cities themselves, by their actions, will determine which of them participate in this program. Those cities which can concentrate their resources, identify their problem areas, and develop sound imaginative solutions will be the first to qualify.

But all cities will benefit from the solutions to urban problems developed through the demonstration cities approach. Your committee is confident that every city will ultimately use this "total attack" approach to solve its urban problems.

The committee intends that the assistance provided by title I of the bill be given to cities of all sizes and in all parts of the country. This will enable the program to demonstrate the wide range of methods available to deal with the diversity of problems that face cities of all sizes throughout the country.

The committee expects the Secretary to take into account the special needs of smaller cities that do not ordinarily have the staff of technicians and experts which would enable them to move quickly under a program of this nature. In reviewing the content of a proposed demonstration program of the smaller cities, the committee expects that the Secretary will understand that, because of their small size and particular circumstances, many cities do not have all of the problems to which the criteria in title I of this bill are directed. The committee expects that the demonstration program of a smaller city will be deemed adequate to meet the criteria of title I of this bill if the program proposed is of such magnitude and includes such social services and activities, as are appropriate to its size and particular circumstances.

ADDITIONAL URBAN RENEWAL GRANT AUTHORITY

During the hearings on the bill as introduced, it became clear that the urban renewal program would be the principal existing Federal grant-in-aid program utilized in connection with cities' demonstration programs. Fears were expressed by a number of witnesses that cities participating in the demonstration program would drain off large amounts of existing urban renewal grant authorization.

The committee believed that additional urban renewal authorization was justified to assure that the demonstration cities program would not use a disproportionate amount of existing urban renewal grant authority to the detriment of cities which do not participate in the program, particularly small towns. To avoid this the bill authorizes \$250 million in new additional urban renewal grant authority which would be available after July 1, 1967, for urban renewal projects which are identified and scheduled to be carried out as one of the projects or activities included within approved city demonstration programs.

The committee wishes to stress, however, that the comprehensive city demonstration program is not intended to be used simply as a means of accelerating urban renewal projects. The program is designed to place in better balance social and physical renewal programs aimed at meeting the needs of people living in slum and blighted areas.

Your committee also wishes to make very clear its intent that the demonstration cities program will not in any way change the flow of funds, as among cities, under existing grant-in-aid programs. The demonstration cities program does not provide any priority in the use of existing Federal grant-in-aid programs for cities which participate in the demonstration program. The demonstration cities program contemplates that the funds that would normally flow to participating cities from existing grant-in-aid programs, plus the additional—supplemental—grant funds authorized by title I of this bill, will finance the demonstration programs.

COST OF THE PROGRAM

The administration proposed an open end authorization for appropriations of the sums necessary to carry out the demonstration program.

The President's message transmitting the program to the Congress indicated recommended appropriations, over a 5-year period, totaling over \$2.3 billion.

Title I of the bill reported by the committee would authorize appropriations of not to exceed \$12 million for financial assistance for planning comprehensive programs for the fiscal year ending June 30, 1967, and an equal amount for the fiscal year ending June 30, 1968. The committee believes that \$12 million would be adequate to finance planning by 60 to 70 cities which is the estimated number of participants contemplated in the first year of the program. The committee desired to authorize planning funds for those additional cities which may be ready to begin planning demonstration programs during fiscal 1968.

For the purpose of providing the supplemental grants needed to carry out the comprehensive demonstration programs planned by the cities, the committee has authorized to be appropriated not to exceed \$400 million for the fiscal year ending June 30, 1968, and not to exceed \$500 million for the fiscal year ending June 30, 1969. The committee believes that these authorizations are adequate to fund this program over the next 2 years. The funds authorized are consistent with the expenditure estimates provided by the administration.

During this period, the committee and the Congress will have an opportunity to evaluate the experience under this program. If it is as successful as the committee expects it to be, the committee and the Congress can provide—on the basis of plans submitted by the cities, the progress of activities under demonstration programs being carried out, and the budgetary situation existing at the time—a continued reasonable annual rate of funding for this program.

The committee wishes to stress that (except for \$12 million for planning demonstration programs) the funds authorized by title I of this bill cannot be spent until after July 1, 1967.

PREVAILING WAGE REQUIREMENTS

All projects included within a comprehensive city demonstration program and assisted under an existing grant-in-aid program are subject to those provisions in the statute authorizing the existing grant-in-aid program which require the payment of wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor.

In addition, title I of the bill requires that all laborers and mechanics employed by contractors or subcontractors on projects, the construction, rehabilitation, repair, or alteration of which is assisted with Federal funds provided under the demonstration cities program (and which are not subject to any other provision of Federal law imposing labor standards) shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor. Projects which are not assisted under an existing Federal grant-in-aid program, other than the demonstration cities program, and involving the construction, rehabilitation, alteration, or repair of residential property, are subject to the labor standards provisions of title I of the bill only if such residential property is designed for use for eight or more families.

TITLE II—PLANNED METROPOLITAN DEVELOPMENT

BACKGROUND

Today, 125 million Americans—two-thirds of our total population—live in metropolitan areas. Twenty years from now we will have added, according to conservative estimates, 54 million people to our metropolitan population, the great bulk of them in suburban areas.

Federal, State, and local governments will be spending, over this period, billions of dollars for basic services for these areas—for highways and other forms of transportation, parks, sewer and water systems, and the other community facilities for which supplementary grants would be provided. Careful and effective planning can greatly reduce the capital costs of these services and can, in addition, make great contributions to our goal of a suitable living environment for every American family.

Evolution of Federal planning policies

During the past 17 years, the Federal Government has increasingly supported planned urban development.

Under the Housing Act of 1949, slum clearance and urban redevelopment projects were required to be consistent with local plans for the municipality as a whole.

The Housing Act of 1954 established the citywide "workable program" requirement for the expanded urban renewal program, for public housing, and for renewal-related FHA housing programs. The emphasis was placed on total community effort. Planning became an integral workable program element to help guide citywide growth and improvement.

The 1954 act also created the "section 701" urban planning assistance program. Grants were made available to help prepare the comprehensive plans required for local workable programs and renewal activities. Assistance was also provided for metropolitan planning activities, as distinct from citywide planning.

The first requirement for metropolitanwide planning as a condition to Federal assistance was applied to the open-space land program under the Housing Act of 1961. Next, the Federal-Aid Highway Act Amendments of 1962 established the requirement for metropolitan areawide transportation planning carried on cooperatively by States and local communities. In 1964 and 1965 new programs with areawide planning requirements were established to assist such activities

as mass transportation, the provision of basic water and sewer facilities, and land development for subdivisions and neighborhoods.

These requirements have resulted in an increased tempo of metropolitan planning. Much of the planning is, however, still directed toward meeting the specific Federal planning requirements and has not resulted in effective overall planned development. Furthermore, only a few metropolitan areas have developed arrangements to effectively coordinate actions to implement local planning. The proposed new program is needed to encourage the many divergent public bodies in metropolitan areas to overcome these defects.

The proposed new program under title II would meet this problem through better coordination of Federal assistance, minimum requirements for local planning and coordination under existing Federal grant-in-aid programs, and through its special incentives for multipurpose planning and for areawide implementation of plans. It would provide incentive grants only when planning and implementation are found to be satisfactory for all major developments within the area.

PRINCIPAL PROVISIONS OF THE TITLE

Cooperation between Federal agencies

Section 202 of the bill would help assure that all Federal programs related to metropolitan development are carried out in a coordinated manner by specifically authorizing the Secretary of Housing and Urban Development to obtain from other Federal agencies statistical data, program reports, and other material needed to carry out the metropolitan area responsibilities of the Department. Federal agencies carrying out metropolitan area programs would also be directed, to the maximum extent practicable, to consult with and seek advice from all other significantly affected Federal agencies.

These provisions would be of special importance in connection with the functions of the new "metropolitan expeditors" described below. They must, in order effectively to assist localities within metropolitan areas, be able to act as a clearinghouse for general information and advice with regard to all metropolitan area programs, rather than just those of HUD. It will be very important that the other Federal agencies having program responsibilities within such areas work closely with them.

It is not intended, however, that these provisions change the present arrangements for HUD reimbursement of other Federal agencies in providing special materials or other services. Rather, it is intended to emphasize that other agencies are to cooperate fully in providing such services, consistent with their own authority and responsibilities.

Metropolitan expeditors

Section 203 of the bill would authorize the Secretary of Housing and Urban Development, upon the request of authorized local officials and after consultation with local governmental authorities, to appoint for any metropolitan area a "metropolitan expeditor" to provide information, data, and assistance to local authorities, organizations, and persons and to relevant Federal agencies with respect to the Department's programs and activities and other related activities and needs in the area.

Under this authority the expeditor, acting through a staff as necessary, would provide detailed information about, and continued liaison with, programs of the Department of Housing and Urban Development. He would also provide general information with respect to programs of other Federal and State agencies, but his function with respect to such programs would be only as a clearinghouse. The other agencies themselves would be responsible for providing more detailed information and continuing liaison, as part of their own program operations.

The expeditor would also provide information and assistance with respect to other related public and private activities in the area. For example, he could work with local government officials to help resolve conflicts between the planning and programing of federally assisted and other local projects. However, his services would be provided only on local request and his role would be entirely advisory. In no way would he impose Federal control over local decisions affecting urban development.

Coordination of Federal aids in metropolitan areas

Section 204 of the bill would require that all applications for Federal loans or grants to assist in carrying out projects for open-space land, hospitals, airports, libraries, water supply and distribution facilities, sewerage facilities and waste treatment works, highways, transportation facilities, or water development and land conservation within any metropolitan area must, after June 30, 1967, be submitted for review and comments by a metropolitanwide comprehensive planning agency which is, to the greatest extent practicable, responsible to the elected officials of the general local governments. It would further require that such an application by a special purpose unit of local government must also be submitted to any affected general local governments.

The comments would be required to include information concerning the relationship of the proposed project to local and metropolitanwide comprehensive planning. The Federal agency to which the application is submitted would not be required to follow these local comments. It would use them only to assist in determining whether the application is in accord with the provisions of its own enabling legislation.

It should be noted that section 204 of the bill establishes a policy under which the areawide planning agency members will be "composed of and responsible to the elected officials" of the local units of general government. This will help to assure that the planning agencies are familiar with local needs and desires and with the practical problems involved in adopting areawide plans. It will also help to assure that such plans, once adopted, actually guide the activities of local governments within the area.

The legislation does not establish this policy in the form of an absolute requirement, but only one to be carried out "to the greatest practicable extent." The membership of existing metropolitan planning bodies in fact varies widely. In some cases, some members are appointed at the State, rather than the local, level. In others, certain State officials, such as the highway commissioner, are ex officio members. Also, some areas have found it desirable to provide for planning agency representation from transit authorities or other local special-purpose units of Government. It would not be appropriate for the Federal Government, in administering this policy, to attempt to

dictate the exact composition or method of appointment of areawide planning bodies.

Proposed new grant program for planned metropolitan development

Sections 205 through 207 of the bill would authorize, within the Department of Housing and Urban Development, a new program of supplementary grants to localities and other public bodies in metropolitan areas as an additional Federal incentive for effective metropolitan planning and development, as recommended by the President.

The proposed grants would supplement existing Federal assistance to programs for transportation facilities (including mass transit, roads, and airports), water and sewer facilities, recreation and other openspace areas, specialized library facilities, and hospital and medical facilities. Grants would be for up to 20 percent of the cost of such projects.

Eligibility of metropolitan areas

Before supplemental grants can be made for projects in a particular metropolitan area, it will have to be shown that (1) metropolitanwide comprehensive planning and programing provide an adequate basis for the location and scheduling of public facilities and land developments of metropolitanwide or interjurisdictional public significance; (2) adequate areawide arrangements exist to carry out such planned and coordinated development; and (3) public facility projects (whether federally aided or not) and other land developments having a major impact on the development of the area are in fact being carried out in accord with comprehensive planning and programing.

Eligibility of applicant

Not all localities or other public bodies in an eligible metropolitan area could receive supplemental grant assistance under the program. An applicant public body would have to show that public facility projects and other activities over which it has jurisdiction and which are of interjurisdictional or areawide significance are being carried out in accord with the metropolitan planning and programing. The objective would be to further areawide and interjurisdictional coordination where that is needed.

Special attention would be given to whether the applicant is effectively assisting in, and conforming to, metropolitan planning and programing through the location and scheduling of its public facility projects and its establishment and consistent administration of zoning codes, subdivision regulations, and similar land-use and density controls.

This requirement could not, of course, be applied directly to a sewer district or other special-purpose body. If the applicant is not a county, municipality, or other general-purpose government, then the general-purpose government having jurisdiction over the location of the project would also have to qualify under the program.

Role of areawide comprehensive planning agency

The metropolitanwide comprehensive planning agency would be expected to assist materially in making these necessary determinations of eligibility. It would provide comments on the consistency of assisted development projects with areawide planning and programing. It would also report on the overall status of the area's development activity, as it relates to carrying out areawide planning and programing.

Programs receiving supplemental grants

Applicants under 10 Federal grant programs would be eligible to receive supplemental assistance under the new program:

(1) Grants for basic water and sewer facilities, administered by the Department of Housing and Urban Development under the Housing and Urban Development Act of 1965;

(2) Grants for the construction of libraries, administered by the Department of Health, Education, and Welfare under title II of the Library Services and Construction Act;

(3) Grants for the construction and modernization of hospitals and other medical facilities, administered by the Department of Health, Education, and Welfare under the Public Health Services Act (Hill-Burton Act);

(4) Grants for construction of sewage treatment works, administered by the Department of Interior under the Federal Water Pollution Control Act;

(5) Grants for highway construction (Federal-aid primary and secondary systems and urban extensions, but not the Interstate System) administered by the Department of Commerce;

(6) Grants for airport development, administered by the Federal Aviation Agency under the Federal Airport Act;

(7) Grants for urban mass transportation facilities and equipment, administered by the Department of Housing and Urban Development under the Urban Mass Transportation Act of 1964;

(8) Grants for acquisition and development of open space, for beautification and improvement, or for historic preservation, administered by the Department of Housing and Urban Development under the Housing Act of 1961 (the historic preservation provisions would be added to the 1961 act by title VI of this bill);

(9) Grants for the acquisition and development of lands and waters for recreation purposes, administered by the Department of the Interior under the Land and Water Conservation Fund Act of 1965; and

(10) Grants for public works and facilities in redevelopment areas, administered by the Department of Commerce under the Public Works and Economic Development Act of 1965 (but only if they involve works or facilities of a type which the Secretary of Housing and Urban Development determines to be eligible under items (1) through (9)).

The supplemental assistance provided under this bill is directly keyed to critical types of development projects for which there has already been Federal recognition of need and a commitment to assist in meeting these needs. The supplemented programs all play key roles in well-planned metropolitan development. Transportation facilities, water and sewer systems, and recreation and open-space areas are especially important in knitting together metropolitan regions and helping to shape their growth. A highway or a rapid transit line, for example, can open large areas for suburban development, and influence the scheduling and location of other public facilities to serve such development. Similarly, the location of water and sewer lines and of parks and other open-space areas can greatly affect local subdivisions and other development. If planned inconsistently, these projects can distort urban growth, and one project can greatly reduce, or even negate, the benefits expected from another.

The other programs supplemented by the bill have, in general, less influence in metropolitan growth. However, for them also, areawide development planning and programing is of special importance. Thus, the large capital investments, and the degree of specialization involved in hospital facilities, make them particularly dependent on effective areawide planning for proper scheduling, location, and coordination.

Limitations on grants

A supplemental grant could not exceed 20 percent of project cost. Thus, projects under an eligible program with a 50-percent grant level could receive a total of 70 percent in Federal support.

However, in no case could total Federal contributions exceed 80 percent. Under the mass transportation program, for example, Federal grants could be raised from 66⅔ percent only to a maximum of 80 percent, and not 86⅔ percent.

Also, the grant supplement could in no case exceed the basic grant amount.

Furthermore, no activities are to receive supplemental assistance under both this program and the comprehensive demonstration cities program, under title I of this bill.

Effect on basic grant programs

The supplemental grants provided under the new program would not affect the basic grant programs themselves, which would continue in full force and effect. The new program would merely increase the Federal share of the cost of development projects meeting the standards of metropolitan coordination set out in the bill. In this way, the proposed grants would reward State and local governments which have actually reached, and provide encouragement for others to reach, a high level of metropolitan planning and arrangements for coordinated development.

The amount of a supplementary grant would be based on a certification, by the Federal agency having responsibility for the basic program, of the cost of the assisted projects and of the amount of non-Federal contributions. These certifications and other aspects of administering their own programs will remain under the full control of the individual Federal agencies.

Authorization for appropriations

The title would authorize grant appropriations of up to \$25 million for fiscal year 1967 and \$50 million for fiscal year 1968.

TITLE III—FHA INSURANCE OPERATIONS

Below market interest rate financing of sales housing for low-income individuals and families

Homeownership is a fundamental goal of our national housing policy. Through legislation extending back to the early 1930's, millions of American families have been able to achieve this goal who could not otherwise afford it. In spite of this, there are still many families whose incomes fall just short of the level needed to buy homes of their own. A major deterrent to homeownership is the extremely heavy burden of financing costs which in many cases amount to more than the cost of the home itself. The committee has included a provision in the bill, section 310, which would offer on an experimental

basis, FHA financing to low income families at the same 3-percent interest rate now available to rental and cooperative projects for moderate income families and to housing for the elderly. This financing would be available in neighborhoods which consist largely of deteriorating or substandard housing and could be used only if the housing is rehabilitated to bring it up to an adequate level. Through this approach, there is an immediate public benefit when the housing is rehabilitated and the neighborhood improved, and there is the further benefit of making homeownership possible for deserving families.

The program would enable low-income individuals and families to buy rehabilitated homes with as low as \$200 downpayments and with FHA-insured mortgages bearing below-market interest rates. FHA-insured below-market interest rate mortgages would also finance the purchase of the housing by nonprofit organizations and its rehabilitation by those organizations for resale to the low-income individuals and families. The Federal National Mortgage Association would assist in the financing of the housing by commitments to purchase and purchase of the mortgages under its special assistance program. Under existing law the maximum interest rate on the mortgages would be 3 percent per annum.

The program is designed to enable highly motivated families to buy their own homes rather than subsidizing their renting of a house or apartment. It is patterned after programs being carried out in St. Louis and a few other cities, and is based on the premise that homeownership can play a large part in the conservation of neighborhoods and the prevention of the growth of blight and slums.

Under the bill, mortgages aggregating not more than \$20 million in outstanding balances at any one time could be insured by FHA where the mortgagor is a nonprofit organization financing the purchase and rehabilitation of deteriorating or substandard housing for resale to low-income home purchasers. The housing must consist of five or more single-family dwellings. They can be detached, semi-detached, or row construction. The mortgage would bear interest at the rate permitted for below-market rental housing under the FHA section 221(d)(3) program (currently 3 percent per annum), and could be amortized in accordance with such terms as the Secretary of Housing and Urban Development may prescribe. The amount of the mortgage could not exceed the appraised value of the property plus the estimated cost of rehabilitation. The mortgage would provide for the release of the individual dwellings from the lien of the mortgage when the dwellings are sold.

A nonprofit mortgagor must demonstrate to the satisfaction of the Secretary that the property to be rehabilitated is (1) located in a neighborhood which is sufficiently stable and contains public facilities and amenities that would support long-term values, or (2) that the rehabilitation to be carried out by the mortgagor, plus private and public activities in the neighborhood, will be of such scope and quality as to give reasonable promise that a stable environment will be created in the neighborhood.

The nonprofit mortgagor would be required to agree that after the housing is rehabilitated it will offer to sell the dwellings to individuals or families who have incomes below the maximum amount that would permit them to be eligible (in their area) for rent supplements under the Housing and Urban Development Act of 1965. Under

that act, the income cannot exceed the maximum amount permitted in the area for occupancy of federally aided low-rent public housing.

Purchase of the dwellings by the low-income purchasers would be with FHA-insured mortgages bearing the same low interest rate as the mortgage given by the nonprofit organization selling the housing. The downpayment would be not less than \$200, which could be applied in whole or in part toward closing costs. The purchase price would be that portion of the unpaid balance of the nonprofit organization's mortgage covering the property which is allocable to the individual dwelling being sold.

Upon sale of a dwelling by the nonprofit organization, the dwelling would be released from the lien of the mortgage given by the nonprofit organization for financing the purchase and rehabilitation of the housing.

A mortgage given by a home purchaser under the program would be required to contain a provision that if the purchaser does not continue to occupy the housing, the interest rate will increase to the highest rate permitted by FHA under the section 221 program at the time the commitment was issued to insure the mortgage of the nonprofit organization which rehabilitated the housing. However, the increase in interest rate would not be applicable if the home purchaser sells the property to another purchaser who is either (1) the nonprofit organization from which he purchased, (2) the local housing authority of the area, or (3) another low-income purchaser approved by the Secretary.

The Davis-Bacon prevailing wage requirements would apply to undertakings of more than eight units. Donated labor and the labor of the prospective homeowner would be exempt.

Pending sale of individual dwellings, a nonprofit organization could operate them as rental housing, with rentals regulated by the FHA in the same manner as the below market 221(d)(3) rental housing.

Provision is also made for full or partial waiver by FHA of the payment of premiums for mortgage insurance under the new program.

FHA financing for veterans

The new liberal mortgage insurance program for housing for veterans authorized by the Housing and Urban Development Act of 1965 would be made available to a veteran even though he has previously received a VA direct, guaranteed, or insured home loan. Under this program a veteran can purchase a home with an FHA-insured mortgage with no downpayment required on the first \$15,000 of the value of the home, a 10-percent downpayment on the value of the home over \$15,000, but not in excess of \$20,000, and 15 percent downpayment on the value in excess of \$20,000. Your committee sees no reason why the benefits of this liberal form of FHA financing should be denied to veterans who previously used their GI entitlement.

Cooperative housing

The FHA cooperative housing program would be liberalized in four respects:

1. The per family unit limitations on the amount of a cooperative housing mortgage would be increased by \$2,500.

2. The amount of a supplemental insured loan could be larger where the loan finances improvements of community facilities for an existing cooperative housing project. Under present law, an insured supplemental loan is limited to an amount which, when added to the out-

standing mortgage indebtedness on the property, creates a total outstanding indebtedness which does not exceed the original principal obligation of the mortgage. Under the amendment, a supplemental loan for improvements or facilities could be up to 97 percent of the value of the improvements and facilities, so long as the total outstanding indebtedness does not exceed the limits imposed under the law on the original mortgage financing the housing.

3. Compliance with prevailing wage requirements applicable to the construction of multifamily housing could be waived where families who will occupy the housing donate their labor in order to lower their housing costs.

4. Certain technical obstacles would be removed to the transfer of insurance of management-type FHA cooperative housing insured mortgages to insurance on a mutual basis.

Mortgage limits—Low income housing

In order to enable the FHA home mortgage insurance program for low- and moderate-income families [sec. 221(d)(2)] to be more operative under present increased housing costs, the limit on the amount of an insured mortgage would be increased from \$11,000 to \$12,500 in the case of a single-family dwelling, and from \$18,000 to \$20,000 in the case of a two-family dwelling.

Waiver of deduction of insurance benefits when multifamily mortgage is assigned

Another provision in the bill would help mortgagors of FHA multifamily housing projects who, in spite of good management, are in default on their mortgages. Under this provision, FHA could, in cases of assignments of mortgages in default, waive all or part of the 1 percent deduction from insurance benefits it pays the mortgagee. Under the present law, because of this deduction from insurance benefits when a mortgage is assigned to FHA rather than being foreclosed, many mortgagees may exercise their option to foreclose, since the 1 percent deduction in the case of assignment may be greater than the cost of foreclosing. This results in foreclosures in cases where the mortgagors could, if given more time, through good management, restore their mortgages to a current condition. Mortgagees would be more willing to assign the mortgages rather than foreclose if the deduction from insurance benefits in cases of assignment is waived in whole or in part. If a mortgage is assigned to FHA, FHA can permit the mortgagor to continue operating the project and in some cases help the mortgagor to cure the default in the mortgage. This would be a benefit not only to the mortgagor, but also to the FHA.

Reactivation of Capehart armed services housing program

There is a pressing need in many communities for additional housing for servicemen and their families in connection with military bases. Unfortunately, budgetary restrictions limit the amount of funds available for direct military construction of this housing. To meet this need, the bill would revive the program of FHA mortgage insurance to finance housing for the Armed Forces (popularly known as the Capehart program). Because this program employs private capital, it can provide this much needed housing without strain on the Federal budget. The bill would authorize financing for 60,000 such units over the next 3 years with a maximum average amount of \$17,500 per

dwelling unit. The maximum interest rate on these loans would be 5½ percent.

Increase in units insurable under section 810 program

Section 810 of the Housing Act of 1961 authorized a limited program of FHA mortgage insurance for private offbase rental housing for service personnel. In 1963 legislation was enacted requiring line-item authorization in military construction bills for this housing. This year the House Committee on Armed Services reported legislation repealing that requirement and included the following statement in its report (H. Rept. 1763).

As indicated above, the proposed new section would eliminate the requirement for line-item authorization. In this connection, it should be noted that section 810 is presently limited to 5,000 units. The committee has been informed that all of these units have been allocated by FHA; approximately 3,500 to the Department of Defense and the balance to NASA and AEC. The committee proposes to request the Banking and Currency Committee to consider increasing the numerical ceiling now imposed on the 810 program so that the Department of Defense may effectively use this program again to meet some of its family housing needs.

The Committee on Banking and Currency concurs that this program can be helpful in meeting the pressing need for housing at military bases and NASA and AEC installations and the bill would increase the limit on this program from 5,000 units to 10,000 units.

TITLE IV—LAND DEVELOPMENT AND NEW COMMUNITIES

During the 1st session of the 89th Congress, the committee reported favorably on a new program of FHA mortgage insurance for privately financed land development which the Congress subsequently enacted as part of the Housing and Urban Development Act of 1965. That program, embodied in title X of the National Housing Act, has as its principal aim providing a stimulus to the production of an adequate supply of properly planned and improved residential sites. It also was based on a recognition of the need to provide a meaningful approach toward avoiding the wasteful disorganization which unfortunately has been the mark of much recent metropolitan land development. Since enactment of the program, the committee has observed with interest the attention the program has gained throughout the country.

Title IV of the bill is focused on extending mortgage insurance and other assistance to facilitate the development of entire new communities, and on strengthening and improving the title X FHA land development program.

Mortgage insurance for new communities

The bill would add a new provision to the existing FHA land development program under title X of the National Housing Act which would authorize the approval of a category of "new communities" for which sites could be acquired and improved with the aid of FHA mortgage insurance.

The concept of "new communities" is not unique, and many successful new town or community developments are already well

underway. Despite the difficulties in securing adequate financial backing for these projects on reasonable terms, a number of large developers have undertaken the development of well-planned new communities.

The work of developing new communities across this Nation has been and will continue to be the proper responsibility of the private sector—the mortgage banking community, land developers, the building industry, and others. It should be clearly understood that the new authority contained in the bill is in no way directed toward supplanting these successful efforts, but only toward encouraging more participation and activity by builders and developers in new community development through the availability of FHA mortgage insurance.

The Subcommittee on Housing has heard detailed testimony on the proposed program of land insurance for new communities from the Secretary of Housing and Urban Development and from numerous other witnesses reflecting many differing viewpoints. After carefully evaluating all aspects of the proposal, your committee is persuaded that the new communities provisions of this bill would be instrumental in encouraging well-planned land developments on the scale necessary to move toward orderly metropolitan growth. As future population increases occur in metropolitan areas, the bulk of these increases will take place outside the central cities, in suburbs and new communities. Action is clearly needed now to meet the demands of rapid population growth and rapid urbanization in the immediate future.

New communities under the bill would consist of land developments meeting all other requirements under existing title X, and satisfying certain special requirements under the new provision added to title X. Developments would be eligible for approval if the Secretary of Housing and Urban Development determined they will, in view of their size and scope, make a substantial contribution to the sound and economic growth of the area in which they are located, in the following forms:

- (1) Substantial economies, made possible through large-scale development, in the provision of improved residential sites;
- (2) Adequate housing for those who would be employed in the community or the surrounding area;
- (3) Maximum accessibility from the new residential sites to industrial or other employment centers, and commercial, recreational, and cultural facilities in or near the community; and
- (4) Maximum accessibility to any major central city in the area.

In the committee's view, it is clear that there are substantial problems involved in carrying forward land development for new communities on any sizable basis. Except in selected circumstances, developments cannot ordinarily approach the scale or scope necessary to assure overall economic success. For this reason, many economies which otherwise might have resulted—to the building industry, the consumer and the locality—have not been realized.

Under the bill, developments will be planned so as to assure a broad range of urban facilities and services. New communities will more readily provide nearby industrial, commercial, civic, and recreational facilities, minimizing transportation costs and efforts. They will also provide a fuller range of housing as to both the range of incomes to be served, and as to design. FHA credit assistance for these large-

scale developments will promote long-range economies in the use of our land resources, permit greater flexibility in the private housing market, and, above all, assure a greater range of choice for the home-buying public.

The new community might be served by several schools, a hospital, churches, and other community facilities. New towns, with appropriate planning, could enjoy permanent open space, natural water resources forests parks and recreation areas.

One factor which would be considered in approving a development as a new community, is its maximum accessibility to any major central city in the area. Special emphasis would be placed on maintaining close relationship between new communities and nearby major central cities.

One important purpose of the land development program enacted last year was to encourage the participation of small builders. This emphasis applies particularly with respect to new communities, and section 403 of the bill contains a clarifying amendment to this end.

The availability of FHA mortgage insurance under the new authority is especially intended to permit smaller land developers and smaller local homebuilders, as well as local mortgage lenders, to participate in the land development program. Small- and medium-sized builders will be better able, under this legislation, to obtain lots at reasonable prices on which to build houses in new communities. An increasingly important segment of tomorrow's housing market will thereby be opened to them, to the benefit both of the builders and of the new communities themselves.

One of the most persistent problems of small builders is the difficulty of securing a steady supply of reasonably priced improved building lots. They simply do not have the cash or credit facilities or even the time needed to undertake a land purchase and land improvement program to supply them with an even flow of good building sites in well-planned large subdivisions or in attractive new communities. The homebuilding industry as a whole is finding it increasingly important to market houses on the basis that the entire neighborhood or the entire new community will provide unusual attractions for the homebuyer. This trend in the industry toward large-scale planned development becomes increasingly apparent every building season.

The program of FHA mortgage insurance for land development for new communities can be helpful to small builders in a number of ways. For example, under this program the small builder can join with other small builders to acquire and jointly develop a site commensurate with their combined needs and capacities for several years of home construction. The ability to pool equity and the eligibility of fees for professional services under the FHA-insured land development mortgage will enable the small builders to retain competent technical land development staff for the operation. Each builder, however, can retain his individual building and sales operation with respect to his own lots within the larger project.

Another way in which small builders may participate is by purchasing the desired number of contiguous lots from land developers who are

not themselves homebuilders. Without the benefit of FHA credit assistance, such land developers are often forced to obtain credit backing or other participation from large- or medium-sized homebuilders in order to enable the land developers to obtain the funds with which to prepare sites in a large development. In the case of large new communities, even more extensive backing or participation is required from large homebuilder organizations. In return for such backing or other participation, the land developer must normally make firm commitments to the participating homebuilders under which the latter will have first choice of the best blocks of improved lots, thus leaving random and inferior lots, if any, to smaller builders. The availability of FHA mortgage insurance will in very many cases make it unnecessary for land developers to make such advance commitments to large- and medium-size builders. Instead, the land developer can carry the site preparation stage with the insured FHA mortgage loan; sell lots on the free market; and thereby make additional improved lots available to smaller builders.

Benefits which will accrue to smaller builders, however, will not be at the expense of medium-size and larger builders. Increased availability of credit for rational and orderly development is intended to result in increasing the supply of improved building lots at cheaper prices for all builders.

Longer mortgage maturities would be authorized for new communities under the bill. Under existing law, FHA-insured land development mortgages are limited to a maximum maturity of 7 years, except that longer maturities are permitted in the case of privately owned water or sewerage systems. Under the bill, this exception would be extended to land developments for new communities.

Other provisions affecting new communities

FNMA special assistance.—FHA-insured land development mortgages under title X are presently eligible and would continue to be eligible for FNMA purchase under its regular secondary market program. However, since the principal aim of the new authority provided in the bill is to encourage new community land developments of necessary and appropriate scale and scope, the Federal National Mortgage Association would be authorized, if needed, to purchase new community land development mortgages at the more generous terms allowable under FNMA's special assistance program. This provision will be particularly helpful during periods such as the present, when mortgage funds are in short supply.

Urban planning grants.—The bill would make available urban planning grants, under the present program of urban planning assistance, to official governmental planning agencies for areas where new communities are to be developed with mortgage insurance assistance. Such Federal grants to local planning agencies are presently available for metropolitan areas, depressed areas, and federally impacted areas.

Public facilities.—New communities would be eligible for public facilities provided by municipalities or other political subdivisions, with the assistance of loans under the public facility loan program. The population limit (50,000) on the political jurisdiction eligible to receive public facility loans would be waived in the case of public facilities serving new communities within jurisdictions whose total population would otherwise make them ineligible to receive such loans.

Increased maximum mortgage amounts for FHA-aided land development

The bill also broadens the scope of the overall existing FHA land development program by increasing from \$10 million to \$25 million the maximum outstanding mortgage amount permitted for a single development. This increase will provide the type of financial flexibility necessary to assure sufficient credit assistance for very large developments, whether they are well-planned subdivisions or entire new communities.

TITLE V. MORTGAGE INSURANCE FOR GROUP PRACTICE FACILITIES

Title V of the bill amends the National Housing Act to add a new title XI, authorizing the Secretary of Housing and Urban Development to insure mortgages on facilities for the group practice of medicine, dentistry, and optometry. (The terms "medicine" and "medical" as used in the new title XI include physicians who are duly licensed doctors of medicine or doctors of osteopathy.) The interest rate on mortgages insured under the program could not exceed 6 percent and the Secretary of Housing and Urban Development would be authorized to fix premium charges up to 1 percent of the principal obligation outstanding at any time, to cover the costs of administration and the risk of default. An insurable mortgage under the new program would be limited to 90 percent of the estimated value of the facility after construction or rehabilitation (with a maximum mortgage amount of \$5 million), and would have a maximum maturity of 25 years.

These new provisions would carry out the recommendations of both President Kennedy and President Johnson that the Federal Government guarantee the repayment of loans for the construction or rehabilitation of group practice facilities in order to ameliorate the problems of securing long-term financing for these facilities, which typically have high initial capital requirements.

Group practice is one demonstrated way of reducing hospital utilization, and of making more efficient use of scarce manpower and expensive diagnostic equipment. The demands for health care in this country are increasing rapidly, from \$27 billion in 1960 to approximately \$40 billion last year, with private spending for personal health care in 1965 alone amounting to more than \$26.1 billion—about 6.1 percent of personal consumption expenditures. The costs of health care are also increasing; the cost of hospital care has risen 5 to 7 percent a year for the past 20 years. The scarcity of health manpower has required congressional action several times in recent years, with new laws giving Federal support to the training of doctors, dentists, and other highly trained professionals. Even with these efforts, the ratio of physicians to population is expected to remain about the same over the next decade. The trend toward specialization has severely reduced the number of doctors available for general practice. The preventive diagnostic care which group practice can provide is one answer to the gradual disappearance of the family physician. Moreover, continuous common recordkeeping by all of the members of the group practice, and "one stop medicine" are distinct advantages to the patient.

Recently, on June 23, 1966, the House passed a bill to provide Federal aid for the training of personnel at the technological and technical levels in the health occupations, such as medical technolo-

gists, dental hygienists, X-ray technicians, and others. These middle-level and subprofessional staff workers are in very short supply even with the present demands for services, and the prospect is that the shortages will continue for some time into the future. In a group practice, the services of these personnel are shared by the physicians in the group, with the result that fewer technicians are required for the number of patients who receive care.

New methods of providing payment for hospital care—the increasing amount of private insurance coverage incident to employment, and public programs such as medicare—will result in more people who need services being able to make their demands effective. If the existing supply of health facilities and manpower is not to be overtaxed, it is important to make every attempt to reduce unnecessary hospital utilization. Evidence was presented to the committee that experience under the Federal employees health benefits program has demonstrated that hospital utilization rates are significantly lower among those persons who obtain their medical services through group practices. Every day of needless hospitalization avoided is an important saving to the consumer with hospital costs now averaging \$42 a day in the United States. It is important, too, as one way to stretch the existing supply of health care facilities, if we are to succeed in making the best in health care available to all in this country who need it.

As the techniques of diagnosis and treatment become more complex, the cost of equipment becomes a more significant factor in the cost of providing medical care. Just as there is clearly efficiency in sharing technical and subprofessional staff, such as nurses, laboratory and X-ray technicians, there is an equally obvious efficiency in the sharing of expensive machinery, such as laboratory and X-ray equipment.

Doctors in group practice can see more patients per week. And at the same time, the committee was told, doctors in group practice are better able to maintain their skills at the highest levels, because they share responsibility for patient care with their colleagues, and it is easier for them to participate in continuing education programs. As the practice of medicine continues to change rapidly, this is an especially important advantage to the patient.

The need to provide mortgage insurance was demonstrated not only by the shortages of health resources and the efficiencies of group practice, but also by cases of established need in which group practices have been unable to secure adequate long-term financing. The reluctance of many lenders may be attributable to the fact that a group practice facility is not always readily convertible to other uses. On the other hand, the committee heard evidence that individual doctors and dentists generally have good credit ratings and are able to obtain financing for individual practices. The committee therefore included an amendment to provide that mortgage insurance would only be available where a showing is made that the loan could not be obtained on comparable terms without mortgage insurance.

To insure that the advantages of group practice are in fact realized through the construction of the facilities insured under this title, the bill requires that a medical, dental, or optometric group engage in group practice as their principal professional activity and as a group responsibility; that they engage in the coordinated practice of their profession, share common expenses, medical and other records, and

substantial portions of the equipment and the professional, technical, and administrative staffs. A medical or dental group could operate either on a prepayment basis or on a fee-for-service basis, so long as these organizational requirements of group practice were met.

The bill applies the prevailing wage requirement of the Davis-Bacon Act to construction aided by mortgage insurance under this new title, and would require payment of wages at time and one-half rates for work in excess of 8 hours per day or 40 hours per week.

TITLE VI—PRESERVATION OF HISTORIC STRUCTURES

Need for this title

As the Special Committee on Historical Preservation (composed of top Government officials and distinguished private individuals) has pointed out:

The United States is a nation and a people on the move. It is in an era of mobility and change. Every year 20 percent of the population moves from its place of residence. The result is a feeling of rootlessness combined with a longing for those landmarks of the past which give us a sense of stability and belonging.

These same dynamic forces in our society are constantly threatening our historic and architectural resources as they shape and reshape the faces of our cities.

The recent report of that Committee, endorsed by its members from both Houses of the Congress, convincingly details both the extent and the urgency of need for more Federal assistance to localities for historic and architectural preservation. The legislative proposals in this title of the bill are based on the recommendations in that report.

PRESERVATION OF HISTORIC STRUCTURES AS PART OF URBAN RENEWAL PROJECTS

The bill amends the urban renewal law (title I of the Housing Act of 1949) to (1) provide for recognition of historic and architectural preservation in urban renewal plans, and (2) authorize preservation activities (and planning therefor) as eligible urban renewal project costs.

The majority of our historic and architecturally valuable properties are located within our cities. There they are under increasing danger of destruction from those twin forces of growth and decay which the President has warned are converging on our cities. The urban renewal program has actively encouraged and assisted in preservation activities; yet, to succeed in its efforts, it must have better tools with which to work. The committee believes that section 601, in conjunction with section 602 of the committee bill, will provide the needed tools.

Under section 601 a local urban renewal agency (LPA) could, as part of an urban renewal project, relocate historic or architecturally significant structures within or outside the project, whether or not the structures were owned by the LPA. This expands the authorization which the Housing and Urban Development Act of 1965 provided for relocation of historic structures. It authorizes relocation only within

urban renewal projects and disposition only to public bodies or non-profit organizations. The proposed increased authority would considerably facilitate the preservation of structures threatened with demolition because of other urban renewal project activities and needs.

This section also authorizes an LPA to acquire and restore properties of historic or architectural significance. This authority could be used in conjunction with the existing authority of LPA's to dispose of properties at prices that reflect special historic or architectural covenants placed upon them by the LPA. Such covenants can vary from requiring maintenance of an historic facade on a building to be otherwise used as a private residence, to requiring restoration and maintenance of an entire property as a museum.

Thus, local public agencies could acquire historic structures, restore them, and sell them to purchasers agreeing to maintain them. On the other hand, LPA's could acquire historic structures and sell them to purchasers who agree both to restore and maintain them.

The language of this section specifies the intent to assist in the preservation of structures of architectural as well as historic significance. The committee also recognizes that land and areas, as well as structures, may have special value meriting recognition and protection in urban renewal projects.

LOCAL GRANT-IN-AID CREDIT FOR RELOCATION AND RESTORATION OF STRUCTURES

Section 602 of the bill amends the urban renewal law (title I of the Housing Act of 1949) to authorize local grant-in-aid credit for certain expenditures by localities and other public bodies for historic and architectural preservation. Credit would be given only for expenditures equivalent to those which local public agencies could themselves incur as part of project activities. Such expenditures include relocation and restoration of historic and architecturally significant properties, in accordance with approved urban renewal plans. However, it would be necessary, as appropriate, to allocate restoration costs between those necessary for preservation and those needed for the proposed continued use of such properties.

GRANTS TO NATIONAL TRUST FOR HISTORIC PRESERVATION TO COVER RESTORATION COSTS

Section 603 of the bill would establish a separate program of grants to the National Trust for Historic Preservation for restoration of structures of historic or architectural value. These grants would be in addition to the proposed grants to the National Trust under S. 3035, as now under consideration by the House. Unlike those grants, they would not be limited to 50 percent of project cost, but, on the other hand, they could not be used for acquisition or maintenance. It is intended that they provide assistance only for properties which the National Trust has obtained without Federal assistance and which it agrees to maintain, after restoration, for historic purposes.

Grants under this section could not exceed \$90,000 per structure; appropriations as necessary would be authorized for the program.

URBAN PLANNING GRANTS FOR SURVEYS OF HISTORIC STRUCTURES

Section 604 of the bill amends the comprehensive urban planning program (sec. 701 of the Housing Act of 1954) to authorize the Secretary to make two-thirds grants to assist a city, other municipality, or county in making a survey of properties of historic or architectural value. Such surveys would identify properties and private information necessary to the development of a balanced and effective local historic preservation program. Grants would, preferably, be made to local agencies undertaking such surveys as part of a local comprehensive planning program. However, where no agency is qualified and willing to undertake adequate surveys, the grant could be made directly to the local public body itself, without population limitation.

Cities with less than 50,000 population are eligible for similar assistance under existing law, but only as part of a comprehensive planning program. The committee believes that the pressing need for historic and architectural preservation justifies these proposed exceptions to the general section 701 limitations on assistance.

Section 701 prohibits assistance for detailed restoration plans and cost estimates of specific projects. Such activities would instead be included as part of projects assisted under the urban renewal and historic preservation grant sections of this title of the bill.

LOANS FOR ACQUISITION AND REHABILITATION OF HISTORIC STRUCTURES

Section 605 of the bill would amend the rehabilitation loan program, under section 312 of the Housing Act of 1964, to authorize loans to tenants and present or prospective owners of structures of historic or architectural value, to finance necessary acquisition or restoration. As in the present program, the loans would be made at 3-percent interest, and would be available if financing was not otherwise available on comparable terms. The loan would have to be an acceptable risk, taking into consideration, among other factors, the need for the proposed restoration, and could be made outside as well as inside an urban renewal area. The loans would generally cover the cost of rehabilitation, with a \$10,000 per unit limit in the case of residential property and a \$50,000 limit in the case of nonresidential property.

The committee feels the need to assure that adequate loan assistance, as well as grant assistance, is available for historic and architectural preservation. The proposed loan program is an experimental one, many details of which will need to be worked out as experience is gained. It is intended, particularly, that the Secretary be given wide discretion as to the availability of these loans to private individuals, as well as to nonprofit and public bodies.

However, the Secretary should establish certain guidelines to assure that structures receive loan assistance only to the extent that they are made available for public benefit and enjoyment after restoration. This does not mean that structures must, in every case, be fully open to the public. It may be desirable, for example, to provide some loan assistance for acquisition and restoration of properties where the main public purpose is preservation of the facade of a building. In such cases, however, the loan assistance should not exceed that necessary to assure preservation of the facade, and should not, for example, finance extensive interior remodeling unless a public purpose is manifest.

GRANTS FOR HISTORIC PRESERVATION

New grant program

Section 606 of the bill amends title VII of the Housing Act of 1961 to authorize the Secretary of Housing and Urban Development to make grants to States and local public bodies for the acquisition, restoration, and improvement of areas, sites, and structures of historic or architectural value in urban areas. Grants could not exceed 50 percent of the cost of assisted activities, which would have to be in accord with the comprehensively planned development of the locality.

The present open-space land and urban beautification programs under title VII can already provide some assistance for historic preservation, but this is limited by the nature of both programs. The urban beautification program can enhance the setting of publicly owned historic structures, but it cannot assist in basic acquisition or restoration activities. The open-space land program can help acquire sites of historic value, but it cannot provide additional assistance for acquiring historic structures to the extent that such structures add to the cost of the land.

Furthermore, open-space land must be predominantly undeveloped. This is particularly restrictive of historic preservation activities in our larger cities—the very areas where such activities are most urgently needed.

The Secretary of Housing and Urban Development would establish general criteria to guide local determinations with respect to proposed historic preservation projects. However, it is not intended that these criteria be so detailed as to substitute national for local judgment. There is a wide divergence of opinion as to degrees of historic or architectural value. The separate historic or architectural value of structures in an urban area is only one aspect of the complex question of what structures should be preserved. Factors such as surrounding land use, density, and architectural continuity may be of decisive importance. Comprehensive local planning is the proper context for a locality to determine the areas and structures which it wishes to preserve.

In this program, and in its other historic preservation activities, the Department must, of course, coordinate its activities closely with those of other agencies concerned with historic preservation, particularly those of the Department of the Interior. For this purpose, the National Register proposed to be compiled by the Department of the Interior would be of considerable assistance.

Accordingly, subsection (h) of section 606 would require that the Secretary make grants under the proposed new historic preservation grant program, the proposed section 701 grants for detailed historic surveys, or the proposed special historic preservation authority in connection with urban renewal projects only in accord with criteria comparable to those used in establishing the National Register. Since the National Register will be greatly expanded under the provisions of S. 3035, this requirement will take effect only after 3 years from enactment of this bill.

The committee does not at this time, however, intend that inclusion on the National Register be a prerequisite for assistance under these programs. The question of what historic or architectural preservation activities localities should carry on is an issue of judgment which must be determined primarily by the localities themselves, subject to general

Federal guidelines. How successfully a federally established list of specific sites and properties can assist in such local determinations will largely depend on the assistance given by the localities concerned to the Department of the Interior.

In establishing comparable criteria for these local assistance programs, the Secretary of HUD should, therefore, take into account whatever objective standards of historic and architectural importance are established for purposes of the National Register. He should also take into account the need to leave to the localities the final determinations of values and priorities and the assistance that can and should be extended to the localities. As the Special Committee on Historic Preservation noted in its findings:

Those who treasure a building for its pleasing appearance or local sentiment do not find it less important because it lacks "proper" historic credentials.

While no assistance would be provided directly to individuals or private organizations, public bodies receiving Federal assistance could work closely with private organizations and individuals to provide for continued maintenance and use of assisted properties. The only restriction on the use of properties would be that their historic character must be protected permanently for public enjoyment. The committee urges, in order to minimize the Federal and local public cost of assisted activities, that development easements or other less-than-fee-simple interests be acquired whenever appropriate.

Similarly, compatible continuing private or public use of properties should be encouraged. For example, it may be both most appropriate and most economical to provide for permanent protection only of the facade of a building or group of buildings, while they continue in private ownership and use.

Historic areas, as well as specific structures, would be eligible for acquisition, restoration, and improvement. Such areas are often of more historic interest than even a number of separate buildings. Also, they can have far more effect on the local pattern of land uses than can separate buildings.

Thus, a grant might help both to preserve a number of buildings in an area and to provide special street lighting, signs, and other improvements needed for preserving its historic character. However, it is contemplated that extensive areawide projects be conducted only in slum and blighted areas, where the necessary large expenditures can be better justified by serving a double purpose.

In areawide projects, maximum use should also be made of other Federal urban assistance programs—including, in addition to urban renewal, the code enforcement, open space and urban beautification programs.

The bill does not provide any separate authorization of funds for the proposed historic and architectural preservation grants. The authorization for this new program will be derived from the existing authorization for activities under title VII of the Housing Act of 1961, which also includes open space and urban beautification activities.

The Housing Act of 1965 increased to \$310 million the authorization for grants under title VII of the 1961 act. This authorization is already fully justified in connection with projected open-space and urban beautification activities over the next several years. However, it is difficult at this time to determine the extent of additional funding

which will be required for the proposed new preservation activities. A start can be made on this new program without additional funding. This committee expects to recommend appropriate program levels for the proposed new activities as soon as experience can be gained as to the extent of need through actual program operations.

Increased demonstration grant authority

Section 606 of the bill also extends the demonstration provisions of title VII of the 1961 act. The present law authorizes special 90-percent grants for urban beautification demonstration projects which have special value in developing and demonstrating new and improved methods and material. The new legislation would provide equivalent authority for open-space and historic preservation demonstrations.

With respect to historic preservation the new authority could, for example, assist in developing new techniques for financing preservation activities, establishing historic zoning, or undertaking areawide historic rehabilitation programs.

With respect to the open-space program, the new authority would be particularly valuable in encouraging new techniques to bridge the gap between traditional regulation on the one hand and outright purchase of the open space on the other. Outright acquisition is very expensive in urban areas, and traditional zoning activities are poorly suited to control haphazard urban growth. Several alternative techniques have been proposed; but they need to be tested on a small scale, in a variety of controlled situations.

TITLE VII—URBAN RENEWAL

LOCAL GRANTS-IN-AID

The committee has received considerable evidence that department regulations and existing law are too restrictive in the treatment of certain public facilities which, while providing a citywide benefit, are at the same time important to the specific urban renewal projects. Therefore, the bill authorizes for grant-in-aid credit 25 percent of the cost of public facilities for cultural, exhibition, civic, or municipal purposes if such facilities are located within, adjacent to, or in the immediate vicinity of the project and are found to contribute materially to the objectives of the urban renewal plan.

Public facilities intended for cultural, exhibition, or civic purposes serve as centers of attraction for people from the entire urban area and bring a vitality to the project area as well as to a large surrounding area. In creating that vitality, they serve urban renewal objectives and are equally important from the standpoint of serving the project area and creating an appropriate environment.

The provision recommended by the committee assigns a 25-percent apportioned benefit for facilities which serve civic or municipal purposes which are within, adjacent to, or in the immediate vicinity of one or more urban renewal projects. This apportionment would continue to recognize that while such facilities do serve the project area in some measure, they also serve a much broader need. It was felt that a 25-percent fixed apportionment of benefits between the project and the city as whole provided a reasonable measure of the extent which such facilities generally serve several objectives.

Expect insofar as this provision accords special treatment to public facilities for cultural, exhibition, civic, and municipal purposes, the

usual rules applicable to noncash grants-in-aid shall continue to apply, including the timing requirements with respect to the date of commencement of construction in relationship to the Federal recognition of the urban renewal project and the authorization of a contract for loan or capital grant. The aggregate percentage of benefit accorded any one such facility shall not exceed 25 percent of its cost irrespective of the number of urban renewal projects in its immediate vicinity.

AIR RIGHTS SITES IN URBAN RENEWAL PROJECTS

The bill authorizes the use of air rights sites in urban renewal areas for industrial development. The covering over and proper use of the air rights above highways, railway rights-of-way, subway tracks, bridge and tunnel entrances, or other similar facilities which have a blighting influence on the surrounding area can be a productive function of the urban renewal program. In the Housing Act of 1964, the Congress authorized the carrying out of such projects and including therein the costs involved in the construction of foundations and platforms necessary for the proper use of the air rights. In that authorization, the use of these air rights was limited to the development of housing for families of low and moderate income.

Experience has shown that the maintenance of a proper economic base of a community can be just as important to the welfare of low- and moderate-income families as the construction of housing for their needs. In many of our cities, jobs are disappearing at a rapid rate as industry moves out to the countryside in an effort to find plant sites adequate to their needs. It is altogether appropriate to use the urban renewal process to assist in the provision of industrial sites needed for employment while at the same time eliminating blighting influences on the city. Through the extension of the air rights provisions to permit their use for industrial development when the area of the air rights site is unsuitable for use for low- and moderate-income housing, we will be contributing toward this goal.

URBAN RENEWAL PROJECTS SHOULD PROVIDE HOUSING FOR FAMILIES OF LOW AND MODERATE INCOME

The committee wishes to reemphasize strongly its concern that urban renewal be used more extensively for the provision of sites for the housing of families of low and moderate incomes. We are aware of the significant progress which has been made under the leadership of the present Secretary toward achieving this goal. However, we are still not satisfied that there is enough emphasis on utilizing the urban renewal program to increase the supply of housing for low and moderate income families.

In recent years, the Congress has provided special incentives to permit the sale of land in urban renewal areas at prices which would permit such housing to be built. The committee expects the Secretary to establish as his goal the use of a substantial portion of the urban renewal funds for the carrying out of projects in which the bulk of the land will be used for the provision of housing for families of low and moderate income. We will also expect the Secretary to consider the extent to which projects will contribute toward the provision of housing for low and moderate income families as one of the indicators of urgency of need in the approval of new projects.

TITLE VIII—RURAL HOUSING

Authority to buy new homes

Section 801 of the bill would amend the Housing Act of 1949 to permit the purchase of newly constructed homes. Many families are interested in buying new buildings but under the existing law only dwellings and farm service buildings that have been previously occupied may be bought with loan funds.

The need for better housing in rural America is great. A third of our population lives on farms, in the open country and in small rural towns with populations of not more than 5,500. This third of the population has half of the substandard housing in the Nation. Housing credit always has been scarce in rural areas and in recent months has been even more difficult to obtain.

The authority to buy older homes has proved to be an effective means of providing housing for rural families at a reasonable cost. It has been particularly useful in connection with low-income families. But it has become increasingly clear that restricting the authority to the purchase of previously occupied buildings is an impediment to carrying out the rural housing program most effectively.

Broadening title V of the Housing Act of 1949 to permit making loans to buy newly constructed homes would enable many families who cannot get credit from other sources to obtain adequate, modest housing with less delay and difficulty than they now encounter in planning, contracting, and building. It also would encourage local builders to participate more extensively in the rural housing program. This would be an economic stimulant to the local economy by offering market outlets for materials and employment to local residents. Local builders in small towns customarily build several houses a year with the prospect of selling them. Such builders could build houses with the expectation of selling them to families who might obtain loans from the Farmers Home Administration.

As with all houses financed with rural housing loans, finished homes would have to meet Farmers Home Administration standards. In no case would a loan be made in excess of the appraised value of the property as determined by the Farmers Home Administration.

Use of cosigners for title V loans

Section 802 would permit the use of a cosigner on any rural housing loan where the applicant does not have sufficient repayment ability. Under existing law, cosigners may be used only for elderly applicants whose income is too low to provide reasonable assurance of being able to repay the loan.

The housing needs among the low-income rural families are particularly acute. More than half of the rural families who in 1960 had incomes of less than \$3,000 were living in houses that were dilapidated or lacked complete plumbing. Their personal incomes are not adequate to provide necessary assurance that the loan payments will be met. This problem of low-income families with poor housing in rural areas could be helped considerably if they could use cosigners to compensate for income deficiency.

With the proposed amendment, many low-income families will be able to obtain loans to repair, improve, or even buy a home of their own. Without the amendment, such families would have to continue to live in substandard housing.

Increase in maximum assistance under section 504 of the 1949 act

Section 803 would increase the maximum assistance available under section 504 of title V of the Housing Act of 1949 from \$1,000 to \$1,500. Under section 504, loans and grants or combination loans and grants not exceeding \$1,000 may now be made to families with extremely low incomes to help them make essential repairs to the homes they own. If the family has enough income to repay a small loan to make minor improvements such as patching or replacing a roof, making the house weathertight, or providing a safe and sanitary water supply, such a loan may be made. In case the family does not have enough income to repay such a loan, they may qualify for a grant to make minimum essential improvements so as to remove hazards to the health and safety of the family and the community.

The \$1,000 maximum limit on assistance under section 504 was established in 1962. Building costs have increased substantially since then. Furthermore, experience has shown that the \$1,000 often is inadequate to make the necessary repairs to a rural dwelling to enable the family to have even minimum shelter. Another consideration is that the Housing and Urban Development Act of 1965 authorized grants in amounts up to \$1,500 to certain urban families. Raising the maximum amount of assistance available under section 504 to this level for low-income rural families would help give them equality of opportunity with urban families to improve their housing.

Extension of purposes of direct loans for rental housing

Under section 515 of the Housing Act of 1949 rental housing for elderly persons and families of low or moderate income may be financed with direct loans to nonprofit corporations and consumer cooperatives under subsection (a). Rental housing for any rural elderly persons and families may be financed with insured loans to applicants in general under subsection (b).

The bill would expand section 515 of the 1949 act so as to include cooperative housing and to permit direct loans for housing for non-elderly rural residents of low income and insured loans for housing for nonelderly rural residents of moderate income.

The rental housing loan program under section 515 has demonstrated its effectiveness in meeting housing needs of elderly rural families, and the committee believes it should be extended to low-income and moderate-income families in all age groups.

There are many persons under 62 in rural America with low or moderate incomes whose housing needs can best be met by economically constructed rental housing operated on a sound basis. These include families who because of personal preference or lack of sufficient income are unable to maintain a privately owned home. Some are young families who are trying to become established and who have not reached their maximum level of earning. Others are persons who have passed their earning peak but are not yet 62 years old and do not have sufficient income to purchase a decent home of their own.

About 96 percent of the houses in rural areas are one-unit structures. In 1960, 70 percent of the rural families with incomes of less than \$3,000 who were renting houses were living in homes that were dilapidated or lacked plumbing. Making rental housing available to all age groups should help many of these low-income families have a decent home in which to live.

Many elderly persons and families in rural areas who now own and occupy their own homes find them too large or too isolated or too physically burdensome to maintain. They would prefer to live in more compact quarters near food markets, doctors' offices, drugstores, and other necessary facilities. But after years of homeownership they are reluctant to commit themselves to rental housing. In other age groups families who for financial, physical, or other reasons would seek multiple-unit housing in preference to the ownership and maintenance of separate dwellings are reluctant to turn to rental housing if there is an alternative. For all these families, both the elderly and the nonelderly, cooperative housing can combine the traditional incentives and rewards of homeownership with the economies and other advantages of rental housing.

The bill would also permit section 515 loans to nonprofit corporations and consumer cooperatives to include funds to pay nonprofit consultants' fees for assistance to such borrowers. In many rural localities the elderly and the nonelderly of low or moderate income may not be able to obtain urgently needed housing except through the means of a section 515 loan to a nonprofit corporation or a consumer cooperative. However, the technical advice and assistance indispensable to forming such organizations and enabling them to qualify for loans and comply with zoning, construction, and other requirements often cannot be made available unless a way is found to pay the necessary cost. Fees payable from loan funds would be limited to fees which are charged for services rendered by qualified consulting organizations operating on a nonprofit basis and are approved by the lending agency.

Substitution of expiration date for annual volume limit for insuring rural housing loans to low or moderate income families

Section 517(a) of the Housing Act of 1949 limits to \$300 million the amount of new rural housing loans to low or moderate income families that may be insured annually, without limit as to time. The bill would remove the annual limit and provide instead a cutoff date of October 1, 1969. This would make this insured rural housing loan program consistent with the insured loans under section 515(b) of the 1949 act and with the urban housing loan programs which expire on that date.

TITLE IX—MISCELLANEOUS

Construction financing for FHA cooperative and section 221 housing

The current mortgage market has made it increasingly difficult to obtain construction financing at reasonable interest rates and reasonable service charges for cooperative housing and nonprofit rental housing for low-income families.

The bill would assist in the provision of construction financing for such housing by authorizing the Federal National Mortgage Association to make FHA-insured advances during construction of the housing where the mortgagors are cooperatives or nonprofit organizations, and the mortgages financing the housing are to be insured by FHA under its cooperative housing (sec. 213) program or its section 221(d) (3) program for low-income housing. This would include the below-market (d)(3) housing. FNMA advances would be made in cases where it has made commitments to purchase the mortgages. The advances would be limited to 95 percent of the construction financing.

The lending institutions providing the balance of the construction advances would handle all servicing and processing work through the

FHA final insurance endorsement, as FNMA is not staffed to perform those functions.

A provision has been included to require approval by the Secretary of HUD of the reasonableness of the fee to be paid to a participating mortgagee to insure that such fee will not be out of proportion to the services rendered by it and the extent of its participation in the advances.

FNMA standby commitment

The bill will permit the Federal National Mortgage Association to make advance commitments at or about the market price prevailing when the commitment is issued. Up to now such advance commitments could be issued only on a standby basis at a price substantially below secondary market prices.

In view of the critical condition in the mortgage market decisive action should be taken to make possible home construction and home financing. Before undertaking the development of a project, the builder must know that he has a source of financing and the terms on which financing is available. The amendment will accomplish that result.

Use of open-space grants for development of existing open-space land

Provisions of this title will remove an undesirable restriction on the authority of the Secretary to assist in the development of land under the open-space grant program. Present law authorizes him to make up to 50 percent grants for the development of open-space areas with—for example—access roads, landscaping, and basic recreation facilities. However, such grants may now be made only for the development of open-space land which has itself been acquired with a grant under the program.

There is an urgent need for increasing the accessibility and usability of open-space land in our urban areas, as well as to acquire additional land in advance of urban development. Land acquired under the open space program generally forms only a small part of the land suitable for such improvement. The present restriction on development grants thus tends to prevent Federal assistance for open-space development from being based on actual local needs and priorities. Therefore the bill would authorize the use of Federal matching grants under the open-space program for the development and improvement of open-space land whether or not it was acquired under this program.

Use of open space grants for high cost land

Recently the committee learned of a grant made by the Department of Housing and Urban Development under the open-space program, to a suburban community whose residents have one of the highest median incomes of any community in the country, for the acquisition of extremely expensive land adjoining proposed community tennis courts. While such a grant may technically conform to the requirements of the open-space legislation, it is clearly not within the purposes contemplated by the Congress when it authorized and appropriated funds for this program. It is not our intention that large sums of money be used for the purchase of expensive land to increase recreational opportunities for a limited number of high income families.

The committee seriously considered amending the open-space land program to forbid the making of such grants to wealthy communities. Reluctantly, it was persuaded that such an approach would be largely unworkable. However, the committee does wish to instruct the

Secretary that it does not want to hear again of any similar grants being made. Without adopting any unnecessarily rigid legislation, we will expect the Secretary to consider the relative need for the open-space land proposed to be acquired and its price. Where the acquisition of high cost land is proposed, the Secretary should give most careful consideration to the number of people who will benefit from the proposed purchase.

Applying advances in technology to housing and urban development

This title authorizes a program of research and studies to test and demonstrate new and improved techniques and methods of applying technological advances to housing construction, rehabilitation and maintenance, and urban development activities. The provisions of the title would direct the Secretary of Housing and Urban Development to encourage and promote the acceptance and application of modern techniques and methods of constructing, rehabilitating, and maintaining housing, as well as the application of technological advances to urban development activities, by all segments of the housing industry, communities, industries engaged in urban development activities, and the general public. Considerable technological advances are being made by private industry and State and local governments both with respect to the cost and quality of home construction and with respect to meeting the complex problems of urban development. Constant experimentation is being carried on in such areas as housing design, materials, and construction techniques, and in making our urban centers safer, healthier, and more attractive places in which to live.

The problem is not a lack of technological progress. Rather, it is that these continuing advances in technique are often slow to be applied. Builders are reluctant to risk making major changes in designs or materials for fear of adverse market reaction. The home buyer does not readily accept deviations from traditional housing design or materials. Communities that could benefit enormously from the application of such new urban techniques as large-scale centralized treatment of wastes or new methods of intracity transportation are often slow to move along these lines.

The program authorized by this bill will not involve basic research to develop technological improvements. It is designed to encourage and assist industry to continue to reduce the cost and improve the quality of housing and urban development activities through the application of existing advances in technology created by private research and development efforts. The program will be carried out by the Secretary directly, through contracts with public or private bodies or agencies, or by working agreements with other departments or agencies of the Federal Government. The bill authorizes appropriations of such sums as may be necessary to carry out the program.

Payments with respect to certain homes at or near military bases ordered to be closed

The Housing and Urban Development Act of 1965 included a provision designed to protect servicemen and other employees at military bases ordered to be closed by the Department of Defense from suffering a loss in value on their homes. The Department of Defense objected to the terms of that provision and failed to request an appropriation to put it into effect. Instead the Department recommended new legislation to meet this problem. The committee has considered those recommendations and incorporated them in modified form in this bill.

The bill would authorize the Secretary of Defense to acquire the homes of servicemen and other employees at military bases who are transferred or whose employment is terminated as a result of the closing at a price equal to 90 percent of the value just prior to the announcement of the closing. In the case of those who have already sold their homes or been foreclosed on or who sell their homes in the future, the Department of Defense would be authorized to make a cash payment equal to the difference between fair market value at the time of sale or foreclosure and 95 percent of the preclosing value. The committee feels that this higher ratio in the case of cash payment is well justified to help meet the expenses entailed in the sale and the advantage that the Government will not be forced to take over the property in such cases.

Appropriations for property acquisition could be made only as specifically authorized in military construction authorization acts, and moneys could be spent from the fund established to carry out the section only to the extent provided in appropriation acts. This section also repeals section 108 of the Housing and Urban Development Act of 1965, which it replaces.

In taking this action, the committee feels that it is providing well-warranted protection to servicemen and other employees at closed military bases who have suffered a loss for reasons beyond their own control and it further feels that the Secretary of Defense should request an appropriation to carry out the will of Congress.

Hydrology research for urban development

The bill provides new authority for the Secretary of Housing and Urban Development to conduct studies, investigations, research, and demonstrations to develop and improve all aspects of the science and technology of urban hydrology having reference to storm drainage systems for urban and metropolitan areas. The authority would be carried out through contracts with public or private bodies and agencies, or by working agreements with other Federal departments or agencies.

Under the new program, the Secretary will evaluate the studies, investigations, research, and demonstrations authorized, and will make available the information resulting from these activities through publications and other appropriate means. A report will be submitted annually to the President and to the Congress concerning the activities financed under the program, with such recommendations as the Secretary deems desirable for additional legislation to develop the science of urban hydrology and its application.

One of the most significant and urgent economic and technical needs in urban development is to minimize direct and indirect storm water losses and to reduce the need for future storm drainage control expenditures. The responses of urban areas to the problems of rainfall and water runoff, the definition of potential flood hazards and their probability, the approaches to proper design of storm drainage and storm water protection facilities, as well as the economic, financial, and legal needs and considerations in urban drainage and urban flood control design, are presently ill defined. For this reason, the committee is of the opinion that improved design techniques and procedures will be necessary for appropriate areawide urban and metropolitan planning, for minimizing future urban storm damages and urban storm water control expenditures, and for fostering conservation practices in industrial and domestic urban use of water. The new authority provided is intended to (1) stimulate a coordinated

research and development program to develop and improve all aspects of the science and technology of urban hydrology having reference to storm drainage systems for urban and metropolitan areas, (2) provide the means for evaluation of the studies, investigations, research, and demonstrations undertaken, and (3) make available, through publications and other appropriate means, information resulting from the studies, investigations, research, and demonstrations undertaken. The bill authorizes appropriations of such sums as may be necessary to carry out the program.

Code enforcement under urban renewal

The Housing and Urban Development Act of 1965 authorized new assistance for intensive code enforcement under the urban renewal program. This provision is aimed primarily at areas where code enforcement can arrest developing blight or restore neighborhoods with a minimum of reliance on outright clearance. That provision recognized that it would not be economic for a city to require substantial expenditures by private owners to bring deteriorating homes up to full code standards in cases where demolition under the urban renewal program or for other reasons was imminent. It has come to the attention of the committee that this has been interpreted by the Department to deny code enforcement assistance in blighted areas where eventual clearance appears likely even though such action may be some years away. Meantime, the housing continues to be substandard and may even deteriorate further, working a serious hardship on the occupants. The committee feels that this provision should be interpreted to provide the limited aid involved in code enforcement projects in such cases so that the housing will provide at least minimum decent conditions in the period while further action is being considered or planned.

Small business act

The bill amends section 8 of the Small Business Act to enable the Small Business Administration to permit members of the Service Corps of Retired Executives (SCORE) and similar cooperating nonprofit groups the use of its available office facilities and related materials and services.

Section 8(b)(1) of the Small Business Act authorizes the Small Business Administration to provide advice and counsel to small firms on matters in connection with Government procurement, and on the policies, principles and practices of good management; and to cooperate with voluntary nonprofit organizations in this activity.

It is unclear, however, whether SBA may permit such cooperating groups the use of its office facilities and related materials and services. This has proved particularly troublesome in the case of the SCORE program, under which SBA has established a Service Corps of Retired Executives to help provide management counseling to small firms. These SCORE members volunteer their services in helping SBA provide necessary management assistance to small firms as contemplated under the Small Business Act. However, the program has been hampered by doubts concerning the scope of SBA's authority to aid such volunteers. This amendment should thus significantly enhance SBA's ability to encourage such private groups to provide assistance to small firms.

The committee does not intend that SBA's facilities, materials, and services be made available under the amendment to individuals or groups attempting to influence legislation before the Congress or engaged in lobbying activities.

SECTION-BY-SECTION SUMMARY OF THE BILL AS REPORTED

Short title

The first section provides that the bill may be cited by its short title—the “Demonstration Cities and Metropolitan Development Act of 1966.”

TITLE I—COMPREHENSIVE CITY DEMONSTRATION PROGRAMS

Section 101. Findings and declaration of purpose

This section sets forth the findings of Congress that improving the quality of urban life constitutes our most critical domestic problem, and that cities do not have the resources needed to deal effectively with this problem without additional Federal assistance in improving their physical environment, increasing the housing supply for low- and moderate-income people, and providing vital services.

It further states that it is the purpose of title I to provide additional assistance to enable cities of all sizes to plan, develop, and carry out programs to rebuild or revitalize large slum and blighted areas and expand and improve public programs and services in those areas, and to accomplish these objectives through the most effective and economical concentration and coordination of Federal, State, and local public and private activities and programs.

Section 102. Basic authority

This section authorizes the Secretary of Housing and Urban Development to make grants and provide technical assistance to enable city demonstration agencies to plan, develop, and carry out comprehensive city demonstration programs.

Section 103. Eligibility for assistance

Subsection (a) provides that a comprehensive city demonstration program is eligible for financial assistance to carry out the program only if certain specific criteria are met, including requirements that—

(1) physical and social problems in the area of the city justify a comprehensive city demonstration program to carry out the purposes of the title;

(2) the program is of sufficient magnitude to make a substantial impact on the physical and social problems and to remove or arrest blight and decay in entire sections or neighborhoods, to contribute to the sound development of the entire city, and to make marked progress in reducing social and educational disadvantages, ill health, underemployment, and enforced idleness;

(3) the program, including rebuilding or restoration, will contribute toward a well-balanced city, with a substantial increase in the supply of standard housing of both low and moderate cost; and

(4) local administrative procedures are available for carrying out the program on a consolidated and coordinated basis; local

laws, regulations, and other requirements are or can be expected to be consistent with the objectives of the program; the projects and activities involved will be initiated reasonably soon; adequate local resources are or will be available; private initiative and enterprise will be utilized to the fullest extent possible; a relocation plan meeting the requirements of the Secretary exists; the local governing body has approved the program; agencies whose cooperation is necessary to the success of the program have indicated their intent to furnish such cooperation; the program is consistent with comprehensive planning in the entire urban or metropolitan area; and the locality will continue to maintain at least the same level of expenditures for activities similar to those being assisted.

Subsection (b) provides that, in implementing title I, the Secretary shall (1) emphasize local initiative, (2) insure maximum coordination of Federal assistance and (3) encourage city demonstration agencies to enhance neighborhoods by applying a high standard of design, maintain neighborhood characteristics, and make maximum use of new and improved technology and design, including cost reduction techniques.

Subsection (c) provides that the preparation of demonstration city programs should, to the maximum extent feasible, include systematic comparative analyses of the costs and benefits of alternative courses of action and establish programming systems to assure effective use of such analyses.

Section 104. Financial assistance for planning comprehensive city demonstration programs

Subsection (a) authorizes the Secretary to make grants to, or enter into contracts with, city demonstration agencies to pay 80 percent of the costs of planning and developing comprehensive city demonstration programs.

Subsection (b) provides that such financial assistance may be provided only if (1) the application for the assistance has been approved by the local governing body of the city, and (2) the Secretary has determined that administrative machinery exists through which coordination of all related planning activities of local agencies can be achieved.

Section 105. Financial assistance for approved comprehensive city demonstration programs

Subsection (a) authorizes the Secretary to approve comprehensive city demonstration programs if, after review of plans, he determines that the plans satisfy the criteria for such programs set forth in section 103 of the bill.

Subsection (b) authorizes the Secretary to make grants to, and enter into contracts with, city demonstration agencies to pay 80 percent of the costs of administering comprehensive city demonstration programs.

Subsection (c) provides in addition that, in order to assist the city to carry out the projects or activities included within an approved comprehensive city demonstration program, the Secretary may make grants to the city demonstration agency of not to exceed 80 percent of the aggregate amount of non-Federal contributions required to be made by the locality to all projects or activities assisted by Federal grant-in-aid programs carried out in connection with such comprehensive city demonstration program. The amount of non-Federal con-

tribution required for each such project or activity would be certified to the Secretary by the Federal department or agency administering the grant-in-aid program, and the Secretary would be required to accept such determination in computing the amount of any grant made under this section.

Subsection (d) requires that grant funds provided under subsection (c) be used for projects or activities assisted under a Federal grant-in-aid program which are part of an approved comprehensive city demonstration program, or for other projects or activities undertaken as part of such demonstration program; and if used for projects or activities assisted under a Federal grant-in-aid program, such funds shall be credited toward the required non-Federal contribution to such projects or activities.

Section 106. Technical assistance

This section authorizes the Secretary to provide technical assistance to city demonstration agencies to assist such agencies in planning, developing, and administering comprehensive city demonstration programs.

Section 107. Relocation requirements and payments

Subsection (a) requires that a comprehensive city demonstration program include a relocation plan, for all displaced people and businesses, which meets the relocation standards prescribed in the urban renewal law and assures the availability of adequate housing before people are displaced, and which requires, to the maximum extent feasible, the coordination of relocation activities with increases in the supply of standard housing suitable for displaced families.

Subsection (b) requires relocation payments as provided in the urban renewal law.

Section 108. Continued availability of Federal grant-in-aid program funds

This section provides that (subject only to laws hereafter enacted expressly in limitation of this section) funds appropriated for a Federal grant-in-aid program which are reserved for any projects or activities assisted under such program and undertaken in connection with an approved comprehensive city demonstration program will remain available until expended.

Section 109. Consultation

This section requires the Secretary, in carrying out the provisions of the title, including the issuance of regulations, to consult with other Federal departments and agencies administering grant-in-aid programs.

Section 110. Labor standards

This section provides that the prevailing wage provisions of the Davis-Bacon Act shall apply to projects which are federally assisted under title I if they are not otherwise subject to the provisions of Federal law imposing labor standards on federally assisted construction. Such requirements, however, are to apply to residential property only if such property is designed for residential use for eight or more families.

Section 111. Appropriations

Subsection (a) authorizes, for planning grants and administrative expenses under section 104 (and technical assistance under section

106), appropriations of \$12 million for the fiscal year 1967 and \$12 million for the fiscal year 1968.

Subsection (b) authorizes, for grants and contracts to assist approved comprehensive city demonstration programs under section 105, for technical assistance under section 106, and for relocation assistance under section 107, including related administrative expenses, appropriations of \$400 million for fiscal year 1968 and \$500 million for fiscal year 1969.

Subsection (c) provides that these appropriations shall remain available until expended.

Section 112. Definitions

This section defines terms used in title I. A Federal grant-in-aid program is a program of Federal financial assistance other than loans (and other than assistance under this title). A city demonstration agency is a city, county, or any local public agency established or designated as such by the local governing body of that city or county. A city is any municipality (or two or more municipalities acting jointly), or any county or other public body (or two or more acting jointly) having general governmental powers. A local agency may be a State agency or instrumentality providing services and resources to a city or locality, and local resources include those so provided.

Section 113. Grant authority for urban renewal projects which are part of approved comprehensive city demonstration programs

This section authorizes \$250 million in additional urban renewal grant authority, to be available after July 1, 1967. This additional authority would be limited to urban renewal projects which are identified and scheduled to be carried out as projects or activities included within an approved comprehensive city demonstration program.

Section 114. State limit

This section provides that grants made under section 105 for demonstration programs in any one State shall not exceed in the aggregate 15 percent of the aggregate amount of funds authorized to be appropriated under section 111 (a) and (b).

TITLE II—PLANNED METROPOLITAN DEVELOPMENT

Section 201. Findings and declaration of purpose

Subsection (a) sets forth the findings of Congress (1) that the welfare of the Nation is directly dependent on the effective organization and functioning of its metropolitan areas; (2) that it is essential that metropolitan areas prepare, keep current, and actually carry out comprehensive plans and programs for their orderly physical development; (3) that these areas are especially handicapped by the complexity and scope of governmental services required, the multiplicity of political jurisdictions and agencies involved, and the inadequacy of the operational and administrative arrangements available for cooperation among them; and (4) that present requirements for area-wide planning and programing in connection with various Federal programs have materially assisted in the solution of metropolitan problems, but that additional participation and cooperation is needed from the States and localities in perfecting and carrying out such areawide efforts.

Subsection (b) declares that the purpose of title II is to provide additional encouragement and assistance to States and localities through supplementary grants for certain federally assisted development projects for making effective comprehensive metropolitan planning and programming.

Section 202. Cooperation between Federal agencies

This section authorizes the Secretary of Housing and Urban Development to call upon other Federal agencies for data and other materials he needs to carry out his metropolitan development responsibilities and to assist the President in coordinating the metropolitan development efforts of other agencies. It also directs all Federal agencies engaged in metropolitan programs, in order to assure full coordination of such programs, to consult with and seek advice from all other significantly affected Federal agencies to the maximum extent practicable.

Section 203. Metropolitan expeditors

This section authorizes the Secretary of Housing and Urban Development, upon request of authorized local officials and after consultation with local governmental authorities, to appoint for any metropolitan area a "metropolitan expediter" to provide information, data, and assistance to local authorities, organizations, and persons and to relevant Federal agencies with respect to the Department's programs and activities and other related activities and needs in the area.

Section 204. Coordination of Federal aids in metropolitan areas

Subsection (a) requires that, after June 30, 1967, all applications for Federal loans or grants to assist in carrying out projects for open-space land, hospitals, airports, libraries, water supply and distribution facilities, sewerage facilities and waste treatment works, highways, transportation facilities, or water development and land conservation within any metropolitan area shall be submitted for review to an agency which is designated to perform metropolitan or regional planning for the area within which the assistance is to be used and which is, to the greatest extent practicable, composed of or responsible to the elected officials of the general local governments. It further requires that, if such an application is made by a special purpose unit of local government, it must also be submitted to the general local government with authority to operate in the area within which the project is to be located.

Subsection (b) requires each such application to be accompanied by (1) the comments and recommendations of the areawide agency and the units of general local government to which the application has been submitted for review, and (2) a statement by the applicant that such comments and recommendations have been considered prior to formal submission of the application.

The application, however, need not be so accompanied if the applicant certifies that a plan or description of the project has lain before an appropriate areawide agency or instrumentality or general local government for 60 days without comments or recommendations thereon having been made.

Section 205. Grants to assist in planned metropolitan development

Subsection (a) authorizes the Secretary of Housing and Urban Development to make supplementary grants to State and local public

bodies and agencies carrying out metropolitan development projects meeting the requirements of this section.

Subsection (b) provides that grants may be made under this section only for projects in metropolitan areas for which it has been demonstrated, to the satisfaction of the Secretary, that—

(1) metropolitanwide comprehensive planning and programing provide an adequate basis for evaluating—

(A) the location, financing, and scheduling of individual public facility projects whether or not federally assisted; and

(B) other proposed land development or uses, where such projects or uses—because of their size, density, type, or location—have public metropolitanwide or interjurisdictional significance;

(2) adequate metropolitanwide institutional or other arrangements exist for coordinating local public development policies and activities affecting the development of the area; and

(3) public facility projects, and other land development or uses (public or private) which have a major impact on the development of the area, are in fact being carried out in accord with such metropolitanwide comprehensive planning and programing.

Subsection (c) requires that the applicant for a grant under this section must demonstrate that it is adequately assuring that public facility projects and other land development or uses of public metropolitanwide or interjurisdictional significance are being actually carried out in accord with metropolitan planning and programing meeting the requirements of subsection (b).

Subsection (d) requires the Secretary, in making the determinations required under this section, to obtain and give full consideration to the comments of the State or local bodies responsible for comprehensive planning and programing for the metropolitan area.

Subsection (e) provides that no grant may be made under this section with respect to a project for which a Federal grant has been made or a contract of assistance has been entered into (1) before February 21, 1966 (the date of first submission of the legislation to the Congress), or (2) more than 1 year before the Secretary makes the required determinations with respect to the applicant and the area in which the project is located. It further provides that, with respect to a project for which a contract of assistance is entered into after June 30, 1967, no grant may be made under this section unless an application for the grant has been made on or before the date of such contract.

Section 206. Extent of grant

Subsection (a) limits a grant under section 205 to the least of (1) 20 percent of project cost, or (2) the amount of the basic Federal grant to the project. In no case can total Federal contributions exceed 80 percent of project cost.

No grants could be provided for projects or activities on the basis of which assistance is provided under a comprehensive city demonstration program under title I of the bill.

Subsection (b) authorizes grant appropriations of up to \$25 million for fiscal year 1967 and up to \$50 million for fiscal year 1968.

Section 207. Consultation and certification

This section requires the Secretary (1) in issuing regulations and otherwise carrying out his authority under section 205, to consult with

the Departments of the Interior, Commerce, and Health, Education, and Welfare and the Federal Aviation Agency with respect to metropolitan development projects assisted by them; and (2) for the purpose of determining grant amounts, to accept their respective certifications as to the cost of those projects and the amount of the non-Federal contribution paid or to be paid to that cost.

Section 208. Definitions

This section defines certain terms used in title II of the bill, including the following:

(1) "Metropolitan development" means all projects or programs for the acquisition, use, and development of open space land; and the planning and construction of hospitals, libraries, airports, water supply and distribution facilities, sewerage facilities and waste treatment works, transportation facilities, highways, water development and land conservation, and other public works facilities.

(2) "Metropolitan development project" (as used in sections 205 and 207) means a project assisted under the following specified Federal programs:

(a) Grants for basic water and sewer facilities, administered by the Department of Housing and Urban Development under section 702 of the Housing and Urban Development Act of 1965;

(b) Grants for library facilities, administered by the Department of Health, Education, and Welfare under title II of the Library Services and Construction Act;

(c) Grants for hospital and medical facilities, administered by the Department of Health, Education, and Welfare under section 606 of the Public Health Services Act;

(d) Grants for construction of sewage treatment works, administered by the Department of the Interior under section 8 of the Federal Water Pollution Control Act;

(e) Grants for highway construction (Federal-aid primary and secondary systems and urban extensions, but not the Interstate System) administered by the Department of Commerce under section 120(a) of title 23, United States Code;

(f) Grants for airport development, administered by the Federal Aviation Agency under section 12 of the Federal Airport Act;

(g) Grants for urban mass transportation facilities and equipment, administered by the Department of Housing and Urban Development under section 3 of the Urban Mass Transportation Act of 1964;

(h) Grants for acquisition and development of open-space land, for urban beautification and improvement, or for historic preservation, administered by the Department of Housing and Urban Development under title VII of the Housing Act of 1961 (the historic preservation provisions would be added to title VII by title VI of the bill);

(i) Grants for acquisition and development of lands and waters for recreational purposes, administered by the Department of the Interior under section 5(e) of the Land and Water Conservation Fund Act of 1965; and

(j) Grants for public works and facilities in redevelopment areas, administered by the Department of Commerce under section 101(a)(1) of the Public Works and Economic Development Act of 1965 (but only if they involve works or facilities of a type

which the Secretary determines to be eligible under one of the programs listed in pars. (a) through (i) above).

Section 209. State limit

This section provides that grants made under section 205 for projects in any one State shall not exceed in the aggregate 15 percent of the aggregate amount of funds authorized to be appropriated pursuant to section 206(b).

TITLE III—FHA INSURANCE OPERATIONS

Section 301. FHA mortgage financing for veterans

This section amends section 203(b) of the National Housing Act (FHA's regular residential mortgage insurance program) to provide that the special liberal terms for veterans enacted in 1965 (100 percent loan-to-value ratio up to \$15,000, 90 percent from \$15,000 to \$20,000, and 85 percent over \$20,000) will be available to a veteran even though he has previously received a VA direct, guaranteed, or insured home loan.

Section 302. Cooperative housing insurance fund

Subsections (a) and (b) amend section 213 (m) and (n) of the National Housing Act to make changes facilitating the administration of FHA's new mutual cooperative management housing insurance fund. These changes would permit mortgagees to use FHA's general insurance fund debentures for paying premiums on cooperative housing mortgages transferred to the cooperative fund and to use cooperative fund debentures issued on transferred mortgages for the payment of general fund premiums, and would permit the transfer of cooperative mortgages to the new mutual fund without the mortgagee's consent.

Subsection (c) amends section 213 (k) and (l) of the act to direct the transfer to the new fund of the specific net assets attributable to the insurance transferred to that fund, and to remove the provision requiring (before payment of any dividend) the repayment of any general funds transferred to the new fund.

Section 303. Mortgage limits for cooperative housing

This section amends section 213(b) of the National Housing Act to increase by \$2,500 per family unit the existing limitations (including the special limitations for elevator-type structures) which apply in determining the maximum amount of an insurable mortgage under FHA's cooperative housing program.

Section 304. Supplementary financing for cooperative housing

This section amends section 213(j) of the National Housing Act to permit insurance of supplementary loans financing improvements and community facilities provided in connection with existing FHA-insured cooperative housing, with amounts up to 97 percent of the value of such improvements and facilities, even though financing to that extent would increase the mortgage indebtedness above the original mortgage amount (so long as it would not increase such indebtedness above the statutory maximum).

Section 305. Mortgage limits under section 220 sales housing mortgage insurance program

This section amends section 220(d)(3)(A) of the National Housing Act to lower the required downpayment on section 220 sales housing

by reducing from 25 to 20 percent the increment of such downpayment attributable to the portion of replacement cost above \$20,000, making the section 220 program consistent in this respect with the section 203(b) program. It also extends to the section 220 sales housing program a special liberalized loan-to-replacement-cost ratio for veterans (100 percent of the first \$15,000, 90 percent of the next \$5,000, and 15 percent of all over \$20,000), in the manner already provided under section 203(b).

Section 306. Mortgage limits for homes under section 221(d)(2)

This section amends section 221(d)(2) of the National Housing Act to increase, from \$11,000 to \$12,500 in the case of a single-family dwelling and from \$18,000 to \$20,000 in the case of a two-family residence, the maximum mortgage amount for dwellings of this kind under FHA's mortgage insurance program for moderate-income and displaced families.

Section 307. Nondwelling facilities in section 221 projects in urban renewal areas

This section amends section 221(f) of the National Housing Act to broaden the class of nondwelling facilities which can be included in a project in an urban renewal area covered by a mortgage insured under section 221, where the mortgagor waives his right to make a profit on any commercial and community facilities so included. The additional nondwelling facilities must be found to be desirable and consistent with the urban renewal plan, and to contribute to the economic feasibility of the project (giving due consideration to its possible effect on other local business enterprises); and in any case the project must remain predominantly residential.

Section 308. Single occupants in section 221(d)(3) housing

This section amends section 221(f) of the National Housing Act to permit up to 10 percent of the units in an FHA section 221(d)(3) project to be occupied by nonelderly single persons. Existing law permits occupancy by a single person who is 62 years of age or over, or who is handicapped.

Section 309. Insurance of mortgages under section 221 to finance purchase and rehabilitation by nonprofit organizations of housing for resale to low-income purchasers

Subsection (a) adds to section 221 of the National Housing Act a new subsection (h), authorizing the insurance of mortgages (not exceeding \$20 million outstanding at any one time) executed by private nonprofit organizations to finance the purchase and rehabilitation of deteriorating or substandard housing for resale to low-income purchasers (i.e., individuals and families having incomes below the maximum with which they could qualify under the rent supplements program). To be eligible for insurance under the new program, a mortgage would have to cover property or properties containing five or more single-family dwellings of detached, semidetached, or row construction (whether or not on the same or contiguous property). The mortgage amount could not exceed the appraised value of the property when purchased plus the estimated cost of the proposed rehabilitation; the mortgage would bear interest at the submarket rate provided for section 221(d)(3) mortgages, and would have a maturity determined by the Secretary.

The mortgagor would have to agree to sell the rehabilitated dwellings to low-income purchasers, whose individual mortgages would also be insured under the new program; each such individual mortgage would be in an amount equal to the portion of the principal mortgage which is allocable to the individual dwelling, would bear interest at the same rate as the principal mortgage, and would have a maturity equal to the remaining maturity of the principal mortgage. The purchaser would pay at least \$200 down which may be applied to closing costs. Upon the sale of an individual dwelling to a low-income purchaser, such dwelling would be released from the lien of the principal mortgage; the insurance of the principal mortgage would be terminated when all such dwellings had been sold, without payment of any adjusted premium charge, and until that time the dwellings remaining unsold would be held and operated by the nonprofit mortgagor as though they were rental units in a section 221(d)(3) submarket-interest-rate project. The low-income purchaser must be buying the dwelling for his own occupancy; if he does not continue to occupy the property, the submarket rate would terminate and the interest rate would rise to the highest permissible section 221 rate, unless he has resold the property to the original nonprofit mortgagor or has sold it to the local public housing agency or to another approved low-income purchaser.

Subsection (b) makes conforming amendments to section 221(g) of the act (relating to payment of insurance).

Subsection (c) amends section 221(f) of the act to authorize full or partial waiver of the mortgage insurance premium to assist low- and moderate-income families to obtain housing through the new section 221 (h) program, the same as is presently authorized for section 221(d)(3) mortgages.

Subsection (d) amends section 305(h) of the act to authorize FNMA special assistance for mortgages insured under the new section 221(h) program, the same as is presently authorized for section 221(d)(3) mortgages.

Section 310. Application of Davis-Bacon Act to cooperative housing projects insured under section 221 (d)(3) and (d)(4) and mortgages insured under section 221(h)(1)

This section amends section 212(a) of the National Housing Act to make the prevailing wage provisions of the Davis-Bacon Act applicable to work performed under blanket mortgages (financing purchase and rehabilitation by nonprofit organizations of housing for resale to low-income purchasers) which are insured under the new section 221(h)(1) program (added by sec. 310 of the bill) and which cover property including more than 8 dwellings. It permits the waiver of such provisions, however, where the prospective owners or others voluntarily donate their services without compensation in order to lower costs. (The prevailing wage provisions of the Davis-Bacon Act would under the amendment to section 212(a) specifically be made to apply to rehabilitation rather than construction in the case of the new section 221(h) program, as those provisions generally apply to rehabilitation as well as construction in the case of the existing FHA insurance programs specified in section 212(a).)

This section also permits the waiver of the prevailing wage provisions of the Davis-Bacon Act (otherwise applicable under existing law) in cases involving the construction of cooperative housing projects

covered by mortgages insured under section 221 (d)(3) and (d)(4) to enable the low-income families and others who will occupy the projects to lower their housing costs by donating their services without compensation in the construction.

Section 311. Waiver of deduction on assignment of property to Secretary in lieu of foreclosure

This section adds to title V of the National Housing Act a new section 523, authorizing the Secretary to waive the 1-percent deduction from insurance benefits which is generally made when the mortgagee under a multifamily housing or land development mortgage in default assigns the mortgage to the Secretary instead of foreclosing and then conveying title.

Section 312. Armed services housing mortgage insurance program

This section amends section 803 of the National Housing Act to reactivate the armed services housing ("Capehart") program and extend it until October 1, 1969, authorizing an additional \$1,050 million in mortgage insurance covering an additional 60,000 family housing units, with a maximum average of \$17,500 per unit and a maximum interest rate of 5½ percent.

Section 313. Increase in units insurable under section 810 program

This section amends section 810(i) of the National Housing Act to increase from 5,000 to 10,000 the maximum number of dwelling units which may be covered by outstanding mortgages and commitments under FHA's program of insurance for off-base rental housing for the military.

TITLE IV—LAND DEVELOPMENT AND NEW COMMUNITIES

This title expands the FHA mortgage insurance program for privately financed land development under title X of the National Housing Act (which was enacted as part of the Housing and Urban Development Act of 1965), authorizing the Secretary to approve "new communities" for which certain special aids would be available and increasing the maximum outstanding mortgage amount permitted under the title X program.

Section 401. Mortgage insurance for new communities

This section adds to title X of the National Housing Act a new section 1004, authorizing the Secretary of Housing and Urban Development to approve a category of "new communities" for mortgage insurance under title X. These would consist of land developments, satisfying all other requirements under the title, which meet the special requirements of the new section. (Subsequent sections of this title of the bill would authorize longer mortgage maturities and FNMA special assistance for this category of land development which would not be available to land developments, even though very extensive, which are not approved as meeting the special requirements.)

A development would be eligible for approval as a new community if the Secretary determines that it will, in view of its size and scope, make a substantial contribution to the sound and economic growth of the area within which it is located in the form of—

- (1) substantial economies, made possible through large-scale development, in the provision of improved residential sites;

(2) adequate housing to be provided for those who would be employed in the community or the surrounding area;

(3) maximum accessibility from the new residential sites to industrial or other employment centers and commercial, recreational, and cultural facilities in or near the community; and

(4) maximum accessibility to any major central city in the area.

The objectives and planning criteria for the existing land development program would also be applicable with respect to new communities. The Secretary would, under already-enacted provisions of title X, review the site development plan to determine that it is consistent with overall comprehensive plans or planning actually being carried out for the area in which the community is to be located.

Section 402. Mortgage amount and term

Subsection (a) amends section 1002(c) of the National Housing Act to increase from \$10 to \$25 million the maximum mortgage amount permitted at any one time for a single land development mortgage under title X in order to making possible sufficient credit assistance for very large developments including new communities or very large subdivisions.

Subsection (b) amends section 1002(d) of the act to exempt new communities approved by the Secretary from the 7-year maximum mortgage maturity generally applicable under existing law to mortgages under the land development program. Such an exemption is already provided in the case of privately owned water or sewerage systems.

Section 403. Encouragement of small builders

This section amends the present section 1004 of the National Housing Act (redesignated sec. 1005) to make it clear that the present requirements for encouraging broad participation by builders in the land development program are intended particularly to encourage participation by small builders.

Section 404. Water and sewerage facilities

This section amends the present section 1005 of the National Housing Act (redesignated sec. 1006) to require that in the case of a new community approved by the Secretary the land shall be served after its development by public systems for water and sewerage which are consistent with other existing or prospective systems in the area or by privately or cooperatively owned systems (including reasonable extensions thereto) which are approved by the Secretary and are regulated in a manner acceptable to him. However, in the case of sewerage systems, if it is necessary to develop a new system it must be a public system unless the Secretary determines that public ownership of a new system is not feasible, in which case the land may be served by an adequate privately or cooperatively owned new system but only under the following conditions:

(1) the Secretary finds the system consistent with other existing or prospective systems within the area;

(2) the system will be regulated during the period of such private or cooperative ownership in a manner acceptable to the Secretary with respect to user rates and charges, capital structure, methods of operation, and rate of return; and

(3) the Secretary receives assurances satisfactory to him with respect to eventual public ownership and operation of the system

and with respect to the conditions and terms of any sale or transfer.

Section 405. FNMA special assistance for new communities

This section amends section 302(b) of the National Housing Act to make FHA-insured mortgages with respect to new communities eligible for purchase by the Federal National Mortgage Association under its special assistance program. FHA-insured land development mortgages are now eligible for FNMA purchase under its secondary market program.

Section 406. Urban planning grants

This section amends section 701(a) of the Housing Act of 1954 to make urban planning grants thereunder available to official governmental planning agencies for areas where new communities are to be developed with mortgage insurance assistance under the new program established by title IV of the bill. (Federal grants to local planning agencies for such planning are now available for metropolitan areas, depressed areas, and federally impacted areas.)

Section 407. Public facility loans

This section amends section 202 of the Housing Amendments of 1955 to waive the population limit (50,000) on the political jurisdictions eligible to receive public facility loans thereunder in the case of public facilities serving new communities within such jurisdictions.

TITLE V—MORTGAGE INSURANCE FOR GROUP PRACTICE FACILITIES

Section 501. Purpose

This section states that it is the purpose of title V to assure the availability of credit on reasonable terms to assist in the construction and equipment of facilities for the group practice of medicine, optometry, or dentistry.

Section 502. Establishment of program.

Subsection (a) adds to the National Housing Act a new title XI, providing mortgage insurance for group practice facilities. The new title provides as follows:

Section 1101. Insurance of mortgages

Subsection (a) authorizes the Secretary of Housing and Urban Development to insure group practice facility mortgages, and make commitments to insure such mortgages, until October 1, 1969.

Subsection (b) requires that the mortgagor (which must be a "group practice unit or organization") and the mortgagee be approved by the Secretary, and that the mortgage cover property to be constructed or rehabilitated for use as a "group practice facility". It also prohibits insurance of any mortgage unless the applicant shows inability to obtain the mortgage loan on comparable terms without such insurance.

Subsection (c) limits an insurable mortgage to 90 percent of the estimated value of the facility after construction or rehabilitation (with a maximum mortgage amount of \$5 million), and provides for a maximum maturity and interest rate of 25 years and 6 percent.

Subsection (d) makes the Secretary's insurance contracts conclusive evidence of eligibility, and incontestable in the hands of an approved mortgagee except for fraud or misrepresentation.

Subsection (e) requires the mortgagor to agree to use the property as a group practice facility as long as the insured mortgage is outstanding.

Subsection (f) requires the mortgagor and mortgagee to keep such records and make such reports as the Secretary may require, and to permit examination of their records by the Secretary.

Section 1102. Premiums

This section authorizes the Secretary to fix premiums of not more than 1 percent, payable in cash or debentures, for mortgage insurance under the program, and to impose appropriate charges for analysis, appraisal, and inspection as well as an adjusted premium charge in case of prepayment.

Section 1103. Payment of insurance benefits

This section provides for payment of insurance benefits under the new program (from the general insurance fund) in the same manner as under FHA's section 207 regular rental housing program.

Section 1104. Regulations

This section authorizes the Secretary to prescribe the regulations necessary to carry out the new program, after consulting with the Secretary of Health, Education, and Welfare on the health and medical matters involved.

Section 1105. Administration

Subsection (a) authorizes the Secretary to provide technical assistance in planning and constructing group practice facilities, at the request of persons operating or planning the operation of such facilities.

Subsection (b) authorizes the Secretary, in order to avoid unnecessary duplication, to use (and pay for) existing services and facilities of other Federal agencies under agreements with the heads of such agencies.

Section 1106. Definitions

This section defines the principal terms used in the new title XI, including "group practice facility," "medical or dental group," "group practice unit or organization," "non-profit organization," "State," "mortgage," "mortgagee," and "mortgagor."

A "group practice facility" is a facility for the provision (by a medical or dental group) of medical (including osteopathic), optometric, or dental care and treatment for ambulatory patients, under the supervision of appropriately licensed professional personnel.

A "medical or dental group" is an association or group of physicians (including osteopathic physicians), optometrists, or dentists who undertake the coordinated practice of their profession in one or more group practice facilities, sharing overhead expenses, records, equipment, and staff, and who

make available at least such health services as may be required by the regulations prescribed under section 1104.

A "group practice unit or organization" can be (A) a private nonprofit agency or organization which will make a group practice facility available to a medical or dental group, (B) a private nonprofit agency or organization providing comprehensive medical, optometric, or dental care to members or subscribers primarily on a group practice prepayments basis, or (C) a medical or dental group.

Subsection (b) of this section of the bill amends section 227 of the National Housing Act to require cost certification in the case of group practice facility mortgages insured under the new program.

Section 503. Labor standards

This section amends section 212(a) of the National Housing Act to require compliance with the prevailing wage provisions of the Davis-Bacon Act in the construction of group practice facilities financed with mortgages insured under the new program. It also requires payment of time and a half for work performed in the construction of these facilities in excess of 8 hours in a day or 40 hours in a week.

Section 504. Amendments to other Federal laws

Subsection (a)(1) amends section 5136 of the Revised Statutes to exempt national banks, with respect to their dealings in and purchases of insured title XI mortgages, from certain restrictions and limitations which would otherwise apply.

Subsection (a)(2) amends section 24 of the Federal Reserve Act to permit national banks to make insured title XI loans without regard to certain restrictions and limitations which would otherwise apply.

Subsection (b) amends section 304 of the Trust Indenture Act of 1939 to exempt securities issued under an insured title XI mortgage from the requirements of that act (and from the Securities Act of 1933).

Subsection (c) amends section 263 of the Bankruptcy Act to make that act inapplicable to creditors under an insured title XI mortgage.

TITLE VI—PRESERVATION OF HISTORIC STRUCTURES

Section 601. Preservation of historic structures as part of urban renewal projects

This section amends section 110 of the Housing Act of 1949 to specify that an urban renewal plan shall provide information on proposed historic and architectural preservation activities; that the acquisition and restoration of real property within the urban renewal area to promote historic and architectural preservation may, where necessary for that purpose, be an urban renewal project activity; and that the relocation (within or outside a project area) and restoration of properties of historic or architectural value will also be eligible as an urban renewal project activity.

Section 602. Local grant-in-aid credit for relocation and restoration of historic structures

This section amends section 110(d) of the Housing Act of 1949 to authorize "local grant-in-aid" credit for assistance provided by a public

body in relocation and restoration activities related to properties of architectural or historic value.

Section 603. Grants to National Trust for Historic Preservation to cover restoration costs

This section authorizes the Secretary of Housing and Urban Development to make grants from funds appropriated therefor, in amounts up to \$90,000 per structure, to the National Trust for Historic Preservation to cover the cost of restoring structures of historic or architectural value which such Trust will maintain for historic purposes.

Section 604. Urban planning grants for surveys of historic structures

This section amends section 701 of the Housing Act of 1954 by adding a new subsection (h), authorizing the Secretary of Housing and Urban Development to make grants to assist cities, other municipalities, and counties in making surveys (in accordance with criteria comparable to those used by the Secretary of the Interior for the National Register) of structures and sites determined to be of historic or architectural value in order to identify such structures and sites, determine the cost of their rehabilitation and restoration, and provide related information. Such a grant, which could be in an amount up to two-thirds of the cost of the survey involved, would be made to the appropriate planning agency as presently provided for or (if no such agency is qualified and willing to receive and use the grant for such survey) directly to the city or municipality.

Section 605. Loans for acquisition and rehabilitation of historic structures

This section amends section 312 of the Housing Act of 1964 to authorize loans, under the present 3-percent, 20-year rehabilitation loan program, to the owners or tenants of structures of historic or architectural value both within and outside urban renewal areas to finance their rehabilitation (and to other persons to finance the acquisition of such structures for the purpose of rehabilitation). The maximum amount of such a loan would be \$10,000 in the case of a residence and \$50,000 in the case of nonresidential property, as under existing law.

Section 606. Grants for historic preservation

Subsection (a) amends the heading of title VII of the Housing Act of 1961 to refer to grants for historic preservation as well as those for open-space land and urban beautification.

Subsection (b) amends section 701 of the 1961 act to state that there is need for timely action to preserve and restore areas, sites, and structures of historic or architectural value.

Subsection (c) states that title VII of the 1961 act may be used to assist in preserving areas and properties of historic or architectural value by their acquisition, improvement, and restoration.

Subsection (d) amends section 702(e) of the 1961 act to require consultation and exchange of information (including current listings on the proposed National Register) between the Secretary of Housing and Urban Development and the Secretary of the Interior in connection with historic preservation grants.

Subsections (e) and (f) amend sections 706 and 708 of the 1961 act to authorize \$10 million for 90 percent grants for demonstration projects in historic preservation or open-space activities, as well as in urban beautification.

Subsection (g) adds provisions to the 1961 act to authorize the Secretary of Housing and Urban Development to make up to 50 percent grants to States and local public bodies for the acquisition, restoration, or improvement of areas, sites, and structures of historic or architectural value in urban areas in accord with the comprehensively planned development of the locality.

Subsection (h) provides that no grants for historic preservation may be made under the proposed new urban renewal, urban planning, or open space and urban beautification programs, beginning 3 years after the date of enactment, except in accord with criteria which the Secretary establishes as comparable to those used in connection with the National Register which is to be maintained by the Secretary of the Interior under legislation presently pending in the House.

TITLE VII—URBAN RENEWAL

Section 701. Local grants-in-aid

This section amends section 110(d) of the Housing Act of 1949 to authorize the Secretary of HUD to count as a local grant-in-aid credit 25 percent of expenditures for a publicly owned facility, the construction of which was begun not earlier than 3 years prior to the date of enactment of the bill, if such facility is to be used for cultural, exhibition, civic, or municipal purposes, is in or near the urban renewal project, contributes materially to the objectives of the urban renewal plan, and is not otherwise eligible as a local grant-in-aid.

Section 702. Air rights sites in urban renewal projects

This section amends section 110 (c)(1) and (c)(7) of the Housing Act of 1949 to permit air rights sites in urban renewal projects to be used for industrial development if determined to be unsuitable for use for low- and moderate-income housing. It also permits the cost of construction of foundations and platforms for air rights industrial sites to be counted as part of gross project cost.

Section 703. Application of Davis-Bacon Act to multifamily housing construction in urban renewal areas

This section requires compliance with the prevailing wage provisions of the Davis-Bacon Act in the construction of any multifamily housing (not already subject to Federal laws imposing similar standards) in the redevelopment of an urban renewal area, as a condition of any Federal assistance to the urban renewal project.

TITLE VIII—RURAL HOUSING

Section 801

This section amends section 501(a) of the Housing Act of 1949 to remove the present requirement that existing farm and nonfarm rural dwellings and farm service buildings purchased with rural housing loans must have been "previously occupied."

Section 802

This section amends section 502(a) of the Housing Act of 1949 to permit the Secretary of Agriculture to accept a comaker in the case of any applicant for a rural housing loan under title V of such act who is deficient in repayment ability. Present law permits comakers only in the case of loans made to the elderly.

Section 803

This section amends section 504 of the Housing Act of 1949 to increase from \$1,000 to \$1,500 the maximum amount of a loan, grant, or combined loan and grant for repairs and improvements to owner-occupied rural dwellings or farm service buildings which are necessary to make them safe and sanitary.

Section 804

This section amends section 515 of the Housing Act of 1949 to expand the purposes of direct loans to private nonprofit corporations and consumer cooperatives under that section to include rental housing for the low-income rural nonelderly. Under present law such loans are restricted to housing for the rural elderly of low or moderate income.

Section 805

Subsection (a) amends section 515 of the Housing Act of 1949 to make cooperative housing eligible for direct or insured rural housing loans; under present law loans under section 515 may be made to consumer cooperatives, but only for the purpose of "rental" housing.

Subsection (b) amends section 515(b) of such act to make insured rural housing loans available for housing for the rural nonelderly who have moderate incomes, as well as for the rural elderly (to whom existing law is restricted).

Subsection (c) amends section 515(d)(4) of such act to permit fees and charges paid by nonprofit corporations or consumer cooperatives for the services of nonprofit consulting organizations and foundations to be included as part of the development cost of housing financed with rural housing loans or loan insurance.

Section 806

This section amends section 517(a) of the Housing Act of 1949 to remove the existing \$300 million annual ceiling on new loans insured for families with low or moderate incomes and substitute an expiration date of October 1, 1969, thus making this insured rural housing loan program consistent with the section 515 insured loan program and with the urban housing programs which under present law expire on that date.

TITLE IX—MISCELLANEOUS

Section 901. Housing for the elderly or handidapped

This section makes a change in the effective date of the 3-percent ceiling on the interest rate applicable to elderly or handicapped housing loans which was enacted by section 105 of the Housing and Urban Development Act of 1965. Under this change, the 3-percent ceiling would apply not only to loans made on or after the date of enactment of the 1965 act but also to loans made before such date if the construction involved was not begun before such date and was not completed prior to application for the benefits of such ceiling.

Section 902. Low-rent housing in private accommodations for displaced families—Term of lease

This section amends section 23(d) of the U.S. Housing Act of 1937 to provide that the term of the contract between the local public housing agency and the owner of housing to be used under the new program of low-rent housing in private accommodations enacted in

1965 (which is limited to 36 months under existing law) may be as long as 60 months where such agency determines that the housing is needed for displaced families.

Section 903. Application of Davis-Bacon Act to low-rent housing projects consisting of privately built housing

This section amends section 16(2) of the U.S. Housing Act of 1937 to require compliance with the prevailing wage provisions of the Davis-Bacon Act in the construction of privately owned structures to be used as low-rent housing (except under the sec. 23 program) in cases where an agreement that the structure will be so used is entered into by the local agency and the builder or sponsor before construction begins. In addition, payment of time and a half would be required for work performed in such cases in excess of 8 hours in a day or 40 hours in a week.

Section 904. Assistance for housing in Alaska

This section authorizes the appropriation of \$10 million for loans and grants to the State of Alaska (or an agency thereof) for the provision of housing and related facilities for Alaskan natives otherwise not able to afford such housing. Grants cannot exceed 75 percent of the aggregate cost of the housing and related facilities to be constructed under an approved program. Cost of a dwelling unit (including related facilities) cannot exceed an average of \$7,500 per dwelling unit.

Section 905. FNMA participation in FHA-insured construction financing

This section adds to section 305 of the National Housing Act a new subsection (i), authorizing the Federal National Mortgage Association to participate (up to 95 percent) in making FHA-insured advances during construction on a section 213 cooperative housing mortgage, or a section 221(d)(3) mortgage executed by a cooperative (including an investor-sponsor), a nonprofit corporation, or a mortgagor qualified under section 221(e), which it has issued a commitment to purchase, with the private mortgagee (whose fee would be approved by the Secretary of HUD as to reasonableness) doing all the administrative work of servicing and processing.

Section 906. FNMA standby commitments

This section amends section 304(a) of the National Housing Act to eliminate the requirement that FNMA's advance commitments to purchase mortgages in its secondary market operations be issued only at specified prices.

Section 907. Planning grants for research on State statutes affecting local governments

This section amends section 701(b) of the Housing Act of 1954 to permit section 701 planning grant funds to be used, under the demonstration program (for which 5 percent of such funds are set aside), for grants to assist in studies and research on needed revisions in those State statutes which create, govern, or control local governmental operations.

Section 908. Public facility loans

This section adds to section 202 of the Housing Amendments of 1955 a new subsection (f), making section 202(c) restrictions and

limitations inapplicable to assistance to municipalities for specific projects for cultural centers.

Section 909. Use of open-space grants for development of existing open-space land

This section amends sections 701 and 702 of the Housing Act of 1961 to authorize Federal grants under the open-space land program for the development and redevelopment of existing open-space land, as well as of land acquired under such program for development as open-space land.

Section 910. Applying advances in technology to housing and urban development

This section authorizes the Secretary of Housing and Urban Development to encourage and assist the housing industry to reduce the cost and improve the quality of housing by the application to housing and urban development of advances in technology relating to (1) design, (2) construction and rehabilitation methods, (3) manufacturing processes, (4) materials and products, and (5) building components.

Five million dollars for fiscal 1967 and \$10 million for fiscal 1968 would be authorized to be appropriated for this program. The section also authorizes funds appropriated to remain available until expended.

Section 911. Urban environmental studies

This section directs the Secretary of Housing and Urban Development, in order to improve understanding of the environmental conditions necessary for the well-being of an urban society, to conduct studies, surveys, research, and analyses (directly, or by such advisory committees as he may establish, or by 2-year contracts with public or private agencies, or by working agreement with other Federal agencies) to document and define urban environmental factors which must be controlled or eliminated, and to establish a coordinated system of collecting, evaluating, disseminating, and utilizing information and data on urban ecological research.

Section 912. Mortgage relief for certain homeowners

This section contains a series of clarifying amendments to section 107 of the Housing and Urban Development Act of 1965, the provision which authorizes the FHA and the VA to make mortgage payments where the mortgagor is unable to make the payments as a result of the closing of a Federal installation. In addition, the specified period for making such payments would be extended from 1 to 2 years, or until the mortgagor notifies the FHA or the VA that he is able to resume payments, or until he ceases to be a "distressed mortgagor," whichever occurs earliest.

Section 913. Acquisition of certain properties situated at or near military bases which have been ordered to be closed

This section authorizes the Secretary of Defense (1) to acquire, for 90 percent of its preclosing value, housing situated at or near a military base or installation which has been ordered to be closed where such housing is owned by a serviceman or other Federal employee whose employment or service there will be terminated by such closing, and (2) as an alternative to make cash payments, in amounts

equal to the difference between the fair market value of the housing involved at the time of the sale or foreclosure and 95 percent of its preclosing fair market value, in similar situations (including situations where the housing has already been sold at a loss or taken by foreclosure). Appropriations for property acquisition could be made only as specifically authorized in military construction authorization acts, and moneys could be spent from the fund established to carry out the section only to the extent provided in appropriation acts. This section also repeals section 108 of the Housing and Urban Development Act of 1965, which it replaces.

Section 914. College housing

This section amends section 404(b)(4) of the Housing Act of 1950 to make eligible for college housing loans State authorities established for the purpose of providing housing for students or faculties in private educational institutions.

Section 915. Study concerning relief of homeowners in proximity to airports

This section extends until 6 months after the enactment of the bill the time allowed the Secretary of Housing and Urban Development for reporting the results of his study (provided for in sec. 1113 of the Housing and Urban Development Act of 1965) concerning relief of homeowners who reside in the vicinity of airports. It also authorizes appropriation of the specific sum of \$100,000 for this study.

Section 916. Hydrology research for urban development

This section authorizes the Secretary of Housing and Urban Development, in order to help urbanized areas deal more effectively with their increasingly severe storm drainage problems, to conduct studies, investigations, research, and demonstrations (by contracts with public or private agencies and working agreements with other Federal agencies) to develop and improve the science and technology of urban hydrology, and to evaluate such studies, investigations, research, and demonstrations and make publicly available the information resulting therefrom.

Section 917. Quarters and facilities for Federal home loan banks and the Federal Home Loan Bank Board

Subsection (a) amends section 12 of the Federal Home Loan Bank Act to permit Federal home loan banks, with the prior approval of the Federal Home Loan Bank Board, to purchase or construct appropriate quarters for the conduct of their banking business.

Subsection (b) amends section 18 of such act to authorize the Board, utilizing the services of the General Services Administration, to acquire a site in the District of Columbia and construct thereon suitable buildings and facilities for the Board and its agencies (including the Federal Savings and Loan Insurance Corporation).

Section 918. Small Business Act

This section amends section 8(b) of the Small Business Act, which authorizes SBA to provide advice and counsel to small business firms, to permit members of nonprofit groups which cooperate with SBA to use available office facilities and related materials and services.

Section 919. Use of certain lands for civil defense purposes

This section amends section 2 of the act of August 10, 1949, to provide that a portion of the tract of land conveyed to the State of Maryland pursuant to that act may be used for civil defense purposes (instead of or in addition to National Guard purposes) without causing the land to revert to the United States.

Section 920. Mortgage insurance for land development—Clarifying amendments

This section amends section 1001(d) of the National Housing Act to perfect the title X FHA mortgage insurance program for land development by adding clarifying language including “steam, gas, and electric lines and installations” and “industrial uses.”

Section 921. Miscellaneous and technical amendments

Subsection (a) repeals the existing requirement (in sec. 106(d) of the Housing Act of 1949) that contracts under the urban renewal law which exceed \$1,000 may be made only after advertising for bids; such contracts would accordingly become subject to the general Federal law, which imposes the requirement of advertising only where the amount of the contract exceeds \$2,500.

Subsections (b), (c), (d), (e), (f), and (g) make amendments which are technical or clerical in nature. (Subsecs. (e) and (g) include amendments reflecting the new title XI of the National Housing Act which would be added by title VI of the bill.)

Subsection (h) reenacts and amends section 102(h) of the Housing Amendments of 1955 (which in effect had been repealed by the recent law that established the Department of Housing and Urban Development) to reenact the directive contained in that provision for the appointment of a Special Assistant for Cooperative Housing. This section of the bill adds to the duties of such assistant the cooperative housing programs under section 221(d)(3) of the National Housing Act and cooperatives receiving rent supplements under section 101 of the Housing and Urban Development Act of 1965.

CHANGES IN EXISTING LAW MADE BY THE BILL, AS REPORTED

In compliance with clause 3 of rule XIII of the Rules of the House of Representatives, changes in existing law made by the bill, as reported, are shown as follows (existing law proposed to be omitted is enclosed in black brackets, new matter is printed in italic, existing law in which no change is proposed is shown in roman):

NATIONAL HOUSING ACT

[Public Law 479, 73d Congress, 48 Stat. 1246, 12 U.S.C. 1701 et seq.]

AN ACT to encourage improvement in housing standards and conditions, to provide a system of mutual mortgage insurance, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "National Housing Act."

TITLE I—HOUSING RENOVATION AND MODERNIZATION

CREATION OF FEDERAL HOUSING ADMINISTRATION

SECTION 1. The President is authorized to create a Federal Housing Administration, all of the powers of which shall be exercised by a Federal Housing Commissioner (hereinafter referred to as the "Commissioner"), who shall be appointed by the President, by and with the advice and consent of the Senate.

In order to carry out the provisions of this title and titles II, III, V, VI, VII, VIII, IX, [and X] *X and XI*, the Commissioner may establish such agencies, accept, and utilize such voluntary and uncompensated services, utilize such Federal officers and employees, and, with the consent of the State such State and local officers and employees, and appoint such other officers and employees as he may find necessary, and may prescribe their authorities, duties, responsibilities, and tenure and fix their compensation, without regard to the provisions of other laws applicable to the employment or compensation of officers or employees of the United States. The Commissioner may delegate any of the functions and powers conferred upon him under this title and titles II, III, V, VI, VII, VIII, IX, [and X] *X, and XI*, to such officers, agents, and employees as he may designate or appoint, and may make such expenditures (including expenditures for personal services and rent at the seat of government and elsewhere, for law books and books of reference, and for paper, printing, and binding) as are necessary to carry out the provisions of this title and titles II, III, V, VI, VII, VIII, IX, [and X] *X, and XI*, without regard to any other provisions of law governing the expenditure of public funds. All such compensation, expenses, and allowances shall be paid out of funds made available by this Act: *Provided*, That notwithstanding any other provisions of

law except provisions of law hereafter enacted expressly in limitation hereof, all expenses of the Federal Housing Administration in connection with the examination and insurance of loans or investments under any title of this Act, all properly capitalized expenditures, and other necessary expenses not attributable to general overhead in accordance with generally accepted accounting principles shall be considered nonadministrative and payable from funds made available by this Act, except that, unless made pursuant to specific authorization by the Congress therefor, expenditures made in any fiscal year pursuant to this proviso, other than the payment of insurance claims and other than expenditures (including services on a contract or fee basis, but not including other personal services) in connection with the acquisition, protection, completion, operation, maintenance, improvement, or disposition of real or personal property of the Administration acquired under authority of this Act, shall not exceed 35 per centum of the income received by the Federal Housing Administration from premiums and fees during the preceding fiscal year:

The Commissioner shall, in carrying out the provisions of this title and titles II, III, V, VI, VII, VIII, IX, [and X] X, and XI, be authorized, in his official capacity, to sue and be sued in any court of competent jurisdiction, State or Federal.

* * * * *

TITLE II—MORTGAGE INSURANCE

* * * * *

INSURANCE OF MORTGAGES

SEC. 203. (a) * * *

(b) To be eligible for insurance under this section a mortgage shall—

(1) Have been made to, and be held by, a mortgagee approved by the Commissioner as responsible and able to service the mortgage properly.

(2) Involve a principal obligation (including such initial service charges, appraisal, inspection, and other fees as the Commissioner shall approve) in an amount not to exceed \$30,000 in the case of property upon which there is located a dwelling designed principally for a one-family residence; or \$32,500 in the case of a two-family residence (whether or not such one- or two-family residence may be intended to be rented temporarily for school purposes); or \$32,500 in the case of a three-family residence; or \$37,500 in the case of a four-family residence; and (except as provided in the next to the last sentence of this paragraph) not to exceed an amount equal to the sum of (i) 97 per centum (but, in any case where the dwelling is not approved for mortgage insurance prior to the beginning of construction unless the construction of the dwelling was completed more than one year prior to the application for mortgage insurance or the dwelling was approved for guaranty, insurance, or direct loan under chapter 37 of title 38, United States Code, prior to the beginning of construction, 90 per centum) of \$15,000 of the appraised value of the property, as of the date the mortgage is accepted for insurance, (ii) 90 per centum of such value in excess of \$15,000 but not in excess of \$20,000, and (iii) 80 per centum of such value in excess of \$20,000. [If the mortgagor is a veteran who has not received any direct, guaranteed, or insured

loan under laws administered by the Veterans' Administration for the purchase, construction, or repair of a dwelling (including a farm dwelling) which was to be owned and occupied by him as his home,] *If the mortgagor is a veteran*, and the mortgage to be insured under this section covers property upon which there is located a dwelling designed principally for a one-family residence, the principal obligation may be in an amount equal to the sum of (i) 100 per centum of \$15,000 of the appraised value of the property as of the date the mortgage is accepted for insurance, (ii) 90 per centum of such value in excess of \$15,000 but not in excess of \$20,000, and (iii) 85 per centum of such value in excess of \$20,000. As used herein, the term "veteran" means any person who served on active duty in the Armed Forces of the United States for a period of not less than 90 days (or is certified by the Secretary of Defense as having performed extra-hazardous service), and who was discharged or released therefrom under conditions other than dishonorable.

* * * * *

LABOR STANDARDS

SEC. 212. (a) The Commissioner shall not insure under section 207 or section 210 of this title, or under section 608 of title VI, pursuant to any application for insurance filed subsequent to the effective date of this section, or under section 213 of this title, or under title VIII pursuant to any application filed subsequent to sixty days after the date of enactment of the Housing Act of 1950, or under section 803 or 810 of title VIII, or under section 908 of title IX, a mortgage or investment which covers property on which there is or is to be placed a dwelling or dwellings, or a housing project, the construction of which was or is to be commenced subsequent to such date, unless the principal contractor files a certificate or certificates (at such times, in course of construction or otherwise, as the Commissioner may prescribe) certifying that the laborers and mechanics employed in the construction of the dwelling or dwellings or the housing project involved have been paid not less than the wages prevailing in the locality in which the work was performed for the corresponding classes of laborers and mechanics employed on construction of a similar character, as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a—276a-5), prior to the beginning of construction and after the date of the filing of the application for insurance. The provisions of this section shall also apply to the insurance of any loan or mortgage under section 220 or section 233 which covers property on which there is located a dwelling or dwellings designed principally for residential use for twelve or more families. The provisions of this section shall apply to the insurance under section 221 of any mortgage described in subsection [(d)(3), or (d)(4)] *(d)(3) or (d)(4) and (deeming the term "construction" as used in the first sentence of this subsection to mean rehabilitation) of any mortgage described in subsection (h)(1) which covers property on which there is located a dwelling or dwellings designed principally for residential use for more than 8 families; except that compliance with such provisions may be waived by the Secretary—*

(1) with respect to mortgages described in such subsection (d)(3) or (d)(4), in cases or classes of cases where laborers or mechanics (not otherwise employed at any time in the construction of the project) volun-

tarily donate their services without compensation for the purpose of lowering their housing costs in a cooperative housing project and the Secretary determines that any amounts saved thereby are fully credited to the cooperative undertaking the construction, and

(2) with respect to mortgages described in such subsection (h)(1) in cases or classes of cases where prospective owners of such dwellings voluntarily donate their services without compensation, or other persons (not otherwise employed at any time in the rehabilitation of the property) voluntarily donate their services without compensation, and the Secretary determines that any amounts saved thereby are fully credited to the non-profit organization undertaking the rehabilitation.

The provisions of this section shall also apply to the insurance of any mortgage under section 231 or 232 except that compliance with such provisions may be waived by the Commissioner in cases or classes of cases where laborers or mechanics, not otherwise employed at any time on the project, voluntarily donate their services without full compensation for the purpose of lowering the costs of construction and the Commissioner determines that any amounts thereby saved are fully credited to the nonprofit corporation, association, or other organization undertaking the construction. The provisions of this section shall also apply to the insurance of any mortgage under section 234(d). The provisions of this section shall also apply to insurance under title X with respect to laborers and mechanics employed in land development financed with the proceeds of any mortgage insured under that title. *The provisions of this section shall also apply to the insurance of any mortgage under title XI; and each laborer or mechanic employed on any facility covered by a mortgage insured under such title shall receive compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in any workweek in excess of eight hours in any workday or forty hours in the workweek, as the case may be.*

* * * * *

COOPERATIVE HOUSING INSURANCE

SEC. 213. (a) * * *

(b) To be eligible for insurance under this section a mortgage on any property or project of a corporation or trust of the character described in paragraph numbered (1) of subsection (a) of this section shall involve a principal obligation in an amount—

(1) * * *

(2) not to exceed, for such part of the property or project as may be attributable to dwelling use (excluding exterior land improvements as defined by the Commissioner. **[\$9,000]** \$11,500 per family unit without a bedroom, **[\$12,500]** \$15,000 per family unit with one bedroom, **[\$15,000]** \$17,500 per family unit with two bedrooms, **[\$18,500]** \$21,000 per family unit with three bedrooms, and **[\$21,000]** \$23,500 per family unit with four or more bedrooms, and not to exceed 97 per centum of the amount which the Commissioner estimates will be the replacement cost of the property or project when the proposed physical improvements are completed: *Provided*, That as to projects to consist of elevator-type structures the Commissioner may, in his discretion, increase the dollar amount limitations per family unit to not to exceed **[\$10,500]** \$13,000 per family unit without a bedroom, **[\$15,000]** \$17,500 per family unit with one bedroom, **[\$18,000]** \$20,500 per

family unit with two bedrooms, **[\$22,500]** \$25,000 per family unit with three bedrooms, and **[\$25,500]** \$28,000 per family unit with four or more bedrooms, as the case may be, to compensate for the higher costs incident to the construction of elevator-type structures of sound standards of construction and design: *Provided further*, That the Commissioner may, by regulation, increase any of the foregoing dollar amount limitations contained in this paragraph by not to exceed 45 per centum in any geographical area where he finds that cost levels so require. *Provided further*, That in the case of a mortgagor of the character described in paragraph (3) of subsection (a) the mortgage shall involve a principal obligation in an amount not to exceed 90 per centum of the amount which the Commissioner estimates will be the replacement cost of the property or project when the proposed physical improvements are completed: *And provided further*, That upon the sale of a property or project by a mortgagor of the character described in paragraph (3) of subsection (a) to a nonprofit cooperative ownership housing corporation or trust within two years after the completion of such property or project the mortgage given to finance such sale shall involve a principal obligation in an amount not to exceed the maximum amount computed in accordance with this subsection without regard to the preceding proviso.

* * * * *

(j)(1) * * *

(2) To be eligible for insurance under this subsection, a supplementary cooperative loan shall—

(A) be limited to an amount which, when added to the outstanding mortgage indebtedness on the property, creates a total outstanding indebtedness which does not exceed the original principal obligation of the mortgage; *except that, in the case of improvements or additional community facilities, the outstanding indebtedness may be increased by an amount equal to 97 per centum of the amount which the Secretary estimates will be the value of such improvements or facilities, and the new outstanding indebtedness may exceed the original principal obligation of the mortgage if such new outstanding indebtedness does not exceed the limitations imposed by subsection (b);*

(B) have a maturity satisfactory to the Commissioner but not to exceed the remaining term of the mortgage;

(C) be secured in such manner as the Commissioner may require;

(D) contain such other terms, conditions, and restrictions as the Commissioner may prescribe; and

(E) represent the obligation of a borrower of the character described in paragraph (1) of subsection (a).

(k) There is hereby created a Cooperative Management Housing Insurance Fund (hereinafter referred to as the "Management Fund"). The Management Fund shall be used by the Commissioner as a revolving fund for carrying out the provisions of this section with respect to mortgages or loans insured, on or after the date of the enactment to this subsection, under subsections (a)(1), (a)(3) (if the project is acquired by a cooperative corporation), (i), and (j). The Management Fund shall also be used as a revolving fund for mortgages, loans, and commitments transferred to it pursuant to subsection (m).

[The Commissioner is directed to transfer to the Management Fund from the General Insurance Fund established pursuant to section 519 such amount as the Commissioner determines to be necessary and appropriate.**]** *The Secretary is directed to transfer to the Management Fund from the General Insurance Fund an amount equal to the total of the premium payments theretofore made with respect to the insurance of mortgages and loans transferred to the Management Fund pursuant to subsection (m) minus the total of any administrative expenses theretofore incurred in connection with such mortgages and loans, plus such other amounts as the Secretary determines to be necessary and appropriate.* General expenses of the operation of the Federal Housing Administration relating to mortgages or loans which are the obligation of the Management Fund may be charged to the Management Fund.

(l) The Commissioner shall establish in the Management Fund, as of the date of the enactment of this subsection, a General Surplus Account and a Participating Reserve Account. The aggregate net income thereafter received or any net loss thereafter sustained by the Management Fund, in any semiannual period, shall be credited or charged to the General Surplus Account or the Participating Reserve Account or both in such manner and amounts as the Commissioner may determine to be in accord with sound actuarial and accounting practice. Upon termination of the insurance obligation of the Management Fund by payment of any mortgage or loan insured under this section, and at such time or times prior to such termination as the Commissioner may determine, the Commissioner is authorized to distribute to the mortgagor or borrower a share of the Participating Reserve Account in such manner and amount as the Commissioner shall determine to be equitable and in accordance with sound actuarial and accounting practice: *Provided*, That in no event shall the amount of the distributable share exceed the aggregate scheduled annual premiums of the mortgagor or borrower to the year of payment of the share less the total amount of any share or shares previously distributed by the Commissioner to the mortgagor or borrower: *And provided further*, That in no event may a distributable share be distributed until any funds transferred from the General Insurance Fund to the Management Fund **[**pursuant to subsection (k) or (o)**]** *pursuant to subsection (o)* have been repaid in full to the General Insurance Fund. No mortgagor, mortgagee, borrower, or lender shall have any vested right in a credit balance in any such account or be subject to any liability arising out of the mutuality of the Management Fund. The determination of the Commissioner as to the amount to be paid by him to any mortgagor or borrower shall be final and conclusive.

(m) The Commissioner is authorized to transfer to the Management Fund commitments for insurance issued under subsections (a)(1), (i), and (j) prior to the date of the enactment of this subsection, and to transfer to the Management Fund the insurance of any mortgage or loan insured prior to the date of the enactment of this subsection under subsection (a)(1), (a)(3) (if the project is acquired by a cooperative corporation), (i) or (j) **[**, but only in cases where the consent of the mortgagee or lender to the transfer is obtained or a request by the mortgagee or lender for the transfer is received by the Commissioner within such period of time after the date of the enactment of this subsection as the Commissioner shall prescribe**]**: *Provided*, That the insurance of any mortgage or loan shall not be transferred under the provisions of this subsection if on the date of the enactment of this

subsection the mortgage or loan is in default and the mortgagee or lender has notified the Commissioner in writing of its intention to file an insurance claim. Any insurance or commitment not so transferred shall continue to be an obligation of the General Insurance Fund.

(n) Notwithstanding the limitations contained in other provisions of this Act, premium charges for mortgages or loans [insured under this section and sections 207, 231, and 232] *the insurance of which is the obligation of either the Management Fund or the General Insurance Fund* may be payable in debentures issued in connection with mortgages or loans transferred to the Management Fund or in connection with mortgages or loans insured pursuant to commitments transferred to the Management Fund, as provided in subsection (m) of this section. *Premium charges on the insurance of mortgages or loans transferred to the Management Fund or insured pursuant to commitments transferred to the Management Fund may be payable in debentures which are the obligation of either the Management Fund or of the General Insurance Fund.*

* * * * *

REHABILITATION AND NEIGHBORHOOD CONSERVATION HOUSING INSURANCE

SEC. 220. (a) The purpose of this section is to aid in the elimination of slums and blighted conditions and the prevention of the deterioration of residential property by supplementing the insurance of mortgages under sections 203 and 207 of this title with a system of loan and mortgage insurance designed to assist the financing required for the rehabilitation of existing dwelling accommodations and the construction of new dwelling accommodations where such dwelling accommodations are located in an area referred to in paragraph (1) of subsection (d) of this section.

(b) The Commissioner is authorized, upon application by the mortgagee, to insure, as hereinafter provided, any mortgage (including advances during construction on mortgages covering property of the character described in paragraph (3)(B) of subsection (d) of this section) which is eligible for insurance as hereinafter provided, and, upon such terms and conditions as he may prescribe to make commitments for the insurance of such mortgages prior to the date of their execution or disbursement thereon.

(c) As used in this section, the terms "mortgage," "first mortgage," "mortgagee," "mortgagor," "maturity date," and "State" shall have the same meaning as in section 201 of this Act.

(d) To be eligible for insurance under this section a mortgage shall meet the following conditions:

(1) The mortgaged property shall—

(A) be located in (i) the area of a slum clearance and urban redevelopment project covered by a Federal-aid contract executed or a prior approval granted, pursuant to title I of the Housing Act of 1949 before the effective date of the Housing Act of 1954, or (ii) an urban renewal area (as defined in title I of the Housing Act of 1949, as amended) in a community respecting which the Housing and Home Finance Administrator has made the certification to the Commissioner provided for by section 101(c) of the Housing Act of 1949, as amended, or (iii) the area of an urban renewal project assisted under section 111 of the Housing Act of 1949, as

amended, or (iv) an area in which a program of concentrated code enforcement activities is being carried out pursuant to section 117 of the Housing Act of 1949: *Provided*, That, in the case of an area within the purview of clause (i) or (ii) of this subparagraph, a redevelopment plan or an urban renewal plan (as defined in title I of the Housing Act of 1949, as amended), as the case may be, has been approved for such area by the governing body of the locality involved and by the Housing and Home Finance Administrator and the Administrator has certified to the Commissioner that such plan conforms to a general plan for the locality as a whole and that there exist the necessary authority and financial capacity to assure the completion of such redevelopment or urban renewal plan: *And provided further*, That, in the case of an area within the purview of clause (iii) of this subparagraph, an urban renewal plan (as required for projects assisted under such section 111) has been approved for such area by such governing body and by the Administrator, and the Administrator has certified to the Commissioner that such plan conforms to definite local objectives respecting appropriate land uses, improved traffic, public transportation, public utilities, recreational and community facilities, and other public improvements, and that there exist the necessary authority and financial capacity to assure the completion of such urban renewal plan, and

(B) meet such standards and conditions as the Commissioner shall prescribe to establish the acceptability of such property for mortgage insurance under this section.

(2) The mortgaged property shall be held by—

(A) a mortgagor approved by the Commissioner, and the Commissioner may in his discretion require such mortgagor to be regulated or restricted as to rents or sales, charges, capital structure, rate of return and methods of operation, and for such purpose the Commissioner may make such contracts with and acquire for not to exceed \$100 stock or interest in any such mortgagor as the Commissioner may deem necessary to render effective such restriction or regulations. Such stock or interest shall be paid for out of the General Insurance Fund and shall be redeemed by the mortgagor at par upon the termination of all obligations of the Commissioner under the insurance; or

(B) by Federal or State instrumentalities, municipal corporate instrumentalities of one or more States, or limited dividend or redevelopment or housing corporations restricted by Federal or State laws or regulations of State banking or insurance departments as to rents, charges, capital structure, rate of return, or methods of operation.

(3) The mortgage shall—

(A) (i) involve a principal obligation (including such initial service charges, appraisal, inspection, and other fees as the Commissioner shall approve) in an amount not to exceed \$30,000 in the case of property upon which there is located a dwelling designed principally for a one-family residence; or \$32,500 in the case of a two-family residence; or \$32,500 in the case of a three-family residence; or \$37,500 in the case of a four-family residence; or in the case of a dwelling designed principally for residential use for more than four families (but not exceeding such additional number of family units as the Commissioner

may prescribe) \$37,500 plus not to exceed \$7,000 for each additional family unit in excess of four located on such property; and not to exceed an amount equal to the sum of (1) 97 per centum (but, in any case where the dwelling is not approved for mortgage insurance prior to the beginning of construction, unless the construction of the dwelling was completed more than one year prior to the application for mortgage insurance, 90 per centum) of \$15,000 of the Commissioner's estimate of replacement cost of the property, as of the date the mortgage is accepted for insurance, (2) 90 per centum of such replacement cost in excess of \$15,000 but not in excess of \$20,000, (3) **[75 per centum]** 80 per centum of such replacement cost in excess of \$20,000: *Provided*, That in the case of properties other than new construction, the foregoing limitations upon the amount of the mortgage shall be based upon the sum of the estimated cost of repair and rehabilitation and the Commissioner's estimate of the value of the property before repair and rehabilitation rather than upon the Commissioner's estimate of the replacement cost: *Provided further*, That if the mortgagor is a veteran and the mortgage to be insured under this section covers property upon which there is located a dwelling designed principally for a one-family residence, the principal obligation may be in an amount equal to the sum of (1) 100 per centum of \$15,000 of the Commissioner's estimate of replacement cost of the property as of the date the mortgage is accepted for insurance, (2) 90 per centum of such replacement cost in excess of \$15,000 but not in excess of \$20,000, and (3) 85 per centum of such replacement cost in excess of \$20,000. As used herein, the term "veteran" means any person who served on active duty in the Armed Forces of the United States for a period of not less than ninety days (or is certified by the Secretary of Defense as having performed extra-hazardous service), and who was discharged or released therefrom under conditions other than dishonorable;

HOUSING FOR MODERATE INCOME AND DISPLACED FAMILIES

SEC. 221. (a) * * *

* * * * *

(d) To be eligible for insurance under this section, a mortgage shall—

(1) * * *

(2) be secured by property upon which there is located a dwelling conforming to applicable standards prescribed by the Commissioner under subsection (f) of this section, and meeting the requirements of all State laws, or local ordinances or regulations, relating to the public health or safety, zoning, or otherwise, which may be applicable thereto, and shall involve a principal obligation (including such initial service charges, appraisal, inspection, and other fees as the Commissioner shall approve) in an amount (A) not to exceed (i) **[\$11,000]** \$12,500 in the case of a property upon which there is located a dwelling designed principally for a single-family residence, (ii) **[\$18,000]** \$20,000 in the case of a property upon which there is located a dwelling designed principally for a two-family residence, (iii) \$27,000 in the case of a

property upon which there is located a dwelling designed principally for a three-family residence, or (iv) \$33,000 in the case of a property upon which there is located a dwelling designed principally for a four-family residence; *Provided*, That a mortgage secured by property upon which there is located a dwelling designed principally for a two-, three-, or four-family residence shall not be insured under this section except in the case of a dwelling for occupancy by a family displaced from an urban renewal area or as a result of governmental action:

Provided further, That the Commissioner may increase the foregoing amounts to not to exceed \$15,000, \$25,000, \$32,000, and \$38,000, respectively, in any geographical area where he finds that cost levels so require; and (B) not to exceed the appraised value of the property (as of the date the mortgage is accepted for insurance): *Provided*, That (i) if the mortgagor is the owner and an occupant of the property at the time of insurance, (1) in the case of a family displaced from an urban renewal area or as a result of Government action, he shall have paid on account of the property at least \$200 in the case of a single-family dwelling, \$400 in the case of a two-family dwelling, \$600 in the case of a three-family dwelling, and \$800 in the case of a four-family dwelling, or (2) in the case of any other family, he shall have paid on account of the property at least 3 per centum of the Commissioner's estimate of its acquisition cost; which amount in either instance may include amounts to cover settlement costs and initial payments for taxes, hazard insurance, mortgage insurance premium, and other prepaid expenses; or (ii) in the case of repair and rehabilitation, the amount of the mortgage shall not exceed the sum of the estimated cost of repair and rehabilitation and the Commissioner's estimate of the value of the property before repair and rehabilitation, except that in no case involving refinancing shall such mortgage exceed such estimated cost of repair and rehabilitation and the amount (as determined by the Commissioner required to refinance existing indebtedness secured by the property: *Provided further*, That nothing contained herein shall preclude the Commissioner from issuing a commitment to insure, and insuring a mortgage pursuant thereto, where the mortgagor is not the owner and an occupant of the property, if the property is to be built or acquired and repaired or rehabilitated for sale, and the insured mortgage financing is required to facilitate the construction, or the repair or rehabilitation, of the dwelling and to provide financing pending the subsequent sale thereof to a qualified owner who is also an occupant thereof, but in such instances the mortgage shall not exceed 85 per centum of the appraised value; or

* * * * *

(f) *The property or project shall comply with such standards and conditions as the Commissioner may prescribe to establish the acceptability of such property for mortgage insurance and may include such commercial and community facilities as the Commissioner deems adequate to serve the occupants: Provided, That in the case of any such property or project located in an urban renewal area, the provisions of section 220(d)(3)(B) (iv) shall apply with respect to the nondwelling facilities which may be included in the mortgage if the mortgagor waives the right to receive dividends on its equity investment in the portion thereof devoted to community and shopping facilities.*

A property or project covered by a mortgage insured under the provisions of subsection (d)(3) or (d)(4) shall include five or more family units. The Commissioner is authorized to adopt such procedures and requirements as he determines are desirable to assure that the dwelling accommodations provided under this section are available to families displaced from urban renewal areas or as a result of governmental action. Notwithstanding any provision of this Act, the Commissioner, in order to assist further the provision of housing for low and moderate-income families, in his discretion and under such conditions as he may prescribe, may insure a mortgage which meets the requirements of subsection (d)(3) of this section as in effect after the date of enactment of the Housing Act of 1961, *or which meet the requirements of subsection (h), with no premium charge, with a reduced premium charge, or with a premium charge for such period or periods during the time the insurance is in effect as the Commissioner may determine, and there is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, such amounts as may be necessary to reimburse the General Insurance Fund for any net losses in connection with such insurance. No mortgage shall be insured under this section after October 1, 1969, except pursuant to a commitment to insure before that date, or except a mortgage covering property which the Commissioner finds will assist in the provision of housing for families displaced from urban renewal areas or as a result of governmental action. Any person who is sixty-two years of age or over, or who is a handicapped person within the meaning of section 202 of the Housing Act of 1959, shall be deemed to be a family within the meaning of the terms "family" and "families" as those terms are used in this section. Low- and moderate-income persons who are less than 62 years of age shall be eligible for occupancy of dwelling units in a project financed with a mortgage insured under subsection (d)(3), but not more than 10 per centum of the dwelling units in any such project shall be available for occupancy by such persons.*

(g) The mortgage shall be entitled to receive the benefits of the insurance as hereinafter provided—

(1) as to mortgages meeting the requirements of paragraph (2) of subsection (d) of this section *or paragraph (5) of subsection (h) of this section*, as provided in section 204(a) of this Act with respect to mortgages insured under section 203, and the provisions of subsections (b), (c), (d), (e), (f), (g), (h), (j), and (k) of section 204 of this Act shall be applicable to such mortgages insured under this section, except that all references therein to the Mutual Mortgages Insurance Fund or the Fund shall be considered to refer to the General Insurance Fund and all references therein to section 203 shall be construed to refer to this section; or

(2) as to mortgages meeting the requirements of paragraph (3) or (4) of subsection (d) of this section *or paragraph (1) of subsection (h) of this section*, as provided in section 207 (g) of this Act with respect to mortgages insured under said section 207, and the provisions of subsections (h), (i), (j), (k), and (l) of section 207 of this Act shall be applicable to such mortgages insured under this section; or

(3) as to mortgages meeting the requirements of this section which are insured or initially endorsed for insurance on or after the date of enactment of the Housing Act of 1961, notwithstand-

ing the provisions of paragraphs (1) and (2) of this subsection, the Commissioner in his discretion, in accordance with such regulations as he may prescribe, may make payments pursuant to such paragraphs in cash or in debentures (as provided in the mortgage insurance contract), or may acquire a mortgage loan that is in default and the security therefor upon payment to the mortgagee in cash or in debentures (as provided in the mortgage insurance contract) of a total amount equal to the unpaid principal balance of the loan plus any accrued interest and any advances approved by the Commissioner and made previously by the mortgagee under the provisions of the mortgage, and after the acquisition of any such mortgage by the Commissioner the mortgagee shall have no further rights, liabilities, or obligations with respect to the loan or the security for the loan. The appropriate provisions of sections 204 and 207 relating to the issuance of debentures shall apply with respect to debentures issued under this paragraph, and the appropriate provisions of sections 204 and 207 relating to the rights, liabilities, and obligations of a mortgagee shall apply with respect to the Commissioner when he has acquired an insured mortgage under this paragraph, in accordance with and subject to regulations (modifying such provisions to the extent necessary to render their application for such purposes appropriate and effective) which shall be prescribed by the Commissioner, except that as applied to mortgages so acquired (A) all references in section 204 to the Mutual Mortgage Insurance Fund or the Fund shall be construed to refer to the General Insurance Fund, and (B) all references in section 204 to section 203 shall be construed to refer to this section. If the insurance is paid in cash, there shall be added to such payment an amount equivalent to the interest which the debentures would have earned, computed to a date to be established pursuant to regulations issued by the Commissioner.

(4) In the event any mortgage insured under this section is not in default at the expiration of twenty years from the date the mortgage was endorsed for insurance, the mortgagee shall, within a period thereafter to be determined by the Commissioner, have the option to assign, transfer, and deliver to the Commissioner the original credit instrument and the mortgage securing the same and receive the benefits of the insurance as hereinafter provided in this paragraph, upon compliance with such requirements and conditions as to the validity of the mortgage as a first lien and such other matters as may be prescribed by the Commissioner at the time the loan is endorsed for insurance. Upon such assignment, transfer, and delivery the obligation of the mortgage to pay the premium charges for insurance shall cease, and the Commissioner shall, subject to the cash adjustment provided herein, issue to the mortgagee debentures having a total face value equal to the amount of the original principal obligation of the mortgage which was unpaid on the date of the assignment, plus accrued interest to such date. Debentures issued pursuant to this paragraph shall be issued in the same manner and subject to the same terms and conditions as debentures issued under paragraph (1) of this subsection, except that the debentures issued pursuant to this paragraph shall be dated as of the date the mortgage is assigned to the Commissioner, shall mature ten years after such date, and shall gear interest from such date at the going Federal rate determined at the

time of issuance. The term "going Federal rate" as used herein means the annual rate of interest which the Secretary of the Treasury shall specify as applicable to the six-month period (consisting of January through June or July through December) which includes the issuance date of such debentures, which applicable rate for each six-month period shall be determined by the Secretary of the Treasury by estimating the average yield to maturity, on the basis of daily closing market bid quotations or prices during the month of May or the month of November, as the case may be, next preceding such six-month period, on all outstanding marketable obligations of the United States having a maturity date of eight to twelve years from the first day of such month of May or November (or, if no such obligations are outstanding, the obligation next shorter than eight years and the obligation next longer than twelve years, respectively, shall be used), and by adjusting such estimated average annual yield to the nearest one-eighth of 1 per centum. The Commissioner shall have the same authority with respect to mortgages assigned to him under this paragraph as contained in section 207(k) and section 207(l) as to mortgages insured by the Commissioner and assigned to him under section 207 of this Act.

(h)(1) In addition to mortgages insured under the other provisions of this section, the Secretary is authorized, upon application by the mortgagee, to insure under this subsection as hereinafter provided any mortgage (including advances under such mortgage during rehabilitation) which is executed by a nonprofit organization to finance the purchase and rehabilitation of deteriorating or substandard housing for subsequent resale to low-income home purchasers and, upon such terms and conditions as the Secretary may prescribe, to make commitments for the insurance of such mortgages prior to the date of their execution or disbursement thereon.

(2) To be eligible for insurance under paragraph (1) of this subsection a mortgage shall—

(A) be executed by a private nonprofit corporation or association approved for purposes of this subsection by the Secretary, for the purpose of financing the purchase of property (comprising one or more tracts or parcels, whether or not contiguous) upon which there is located deteriorating or substandard housing consisting of five or more single-family dwellings of detached, semi-detached, or row construction and of rehabilitating such dwellings with a view to subsequent resale as hereinafter provided;

(B) be secured by the property which is to be purchased and rehabilitated with the proceeds thereof;

(C) be in a principal amount not exceeding the appraised value of the property at the time of its purchase under the mortgage plus the estimated cost of the rehabilitation;

(D) bear interest (exclusive of premium charges for insurance and service charge, if any) at the rate in effect under the proviso in subsection (d)(5) at the time of execution;

(E) provide for complete amortization (subject to paragraph (5)(E)) by periodic payments within such term as the Secretary may prescribe; and

(F) provide for the release of individual single-family dwellings from the lien of the mortgage upon the sale of the rehabilitated dwellings in accordance with paragraph (5).

(3) No mortgage shall be insured under paragraph (1) unless the mortgagor shall have demonstrated to the satisfaction of the Secretary

that (A) the property to be rehabilitated is located in a neighborhood which is sufficiently stable and contains sufficient public facilities and amenities to support long-term values, or (B) the rehabilitation to be carried out by the mortgagor plus its related activities and the activities of other owners of housing in the neighborhood, together with actions to be taken by public authorities, will be of such scope and quality as to give reasonable promise that a stable environment will be created in the neighborhood.

(4) The aggregate principal balance of all mortgages insured under paragraph (1) and outstanding at any one time shall not exceed \$20,000,000.

(5)(A) No mortgage shall be insured under paragraph (1) unless the mortgagor enters into an agreement (in form and substance satisfactory to the Secretary) that it will offer to sell the dwellings involved, upon completion of their rehabilitation, to individuals or families (hereinafter referred to as "low-income purchasers") determined by the Secretary to have incomes below the maximum amount specified (with respect to the area involved) in section 101(c)(1) of the Housing and Urban Development Act of 1965.

(B) The Secretary is authorized to insure under this paragraph mortgages executed to finance the sale of individual dwellings to low-income purchasers as provided in subparagraph (A). Any such mortgage shall—

(i) be in a principal amount equal to that portion of the unpaid balance of the principal mortgage covering the property (insured under paragraph (1)) which is allocable to the individual dwelling involved; and

(ii) bear interest at the same rate as the principal mortgage, and provide for complete amortization by periodic payments within a term equal to the remaining term (determined without regard to subparagraph (E)) of such principal mortgage.

(C) The price for which any individual dwelling is sold to a low-income purchaser under this paragraph shall be the amount of the mortgage covering the sale as determined under subparagraph (B), except that the purchaser shall in addition thereto be required to pay on account of the property at the time of purchase such amount (which shall not be less than \$200, but which may be applied in whole or in part toward closing costs) as the Secretary may determine to be reasonable and appropriate in the circumstances.

(D) Upon the sale under this paragraph of any individual dwelling, such dwelling shall be released from the lien of the principal mortgage, and such mortgage shall thereupon be replaced by an individual mortgage insured under this paragraph to the extent of the portion of its unpaid balance which is allocable to the dwelling covered by such individual mortgage. Until all of the individual dwellings in the property covered by the principal mortgage have been sold, the mortgagor shall hold and operate the dwellings remaining unsold at any given time as though they constituted rental units in a project covered by a mortgage which is insured under subsection (d)(3) (and which receives the benefits of the interest rate provided for in the proviso in subsection (d)(5)).

(E) Upon the sale under this paragraph of all of the individual dwellings in the property covered by the principal mortgage, and the release of all individual dwellings from the lien of the principal mortgage, the insurance of the principal mortgage shall be terminated and no adjusted premium charge shall be charged by the Secretary upon such termination.

(F) Any mortgage insured under this paragraph shall contain a provision that if the low-income mortgagor does not continue to occupy

the property, the interest rate shall increase to the highest rate permissible under this section and the regulations of the Secretary effective at the time of commitment for insurance of the principal mortgage; except that the increase in interest rate shall not be applicable if the property is sold and the purchaser is (i) the nonprofit organization which executed the principal mortgage, (ii) a public housing agency having jurisdiction under the United States Housing Act of 1937 over the area where the dwelling is located, or (iii) a low-income purchaser approved for the purposes of this paragraph by the Secretary.

MISCELLANEOUS HOUSING INSURANCE

SEC. 223. (a) Notwithstanding any of the provisions of this title, and without regard to limitations upon eligibility contained in section 203, 207, 213, 220, 221, 222, 231, 232, or 233 the Commissioner is authorized, upon application by the mortgagee, to insure or make commitments to insure under section 203, 207, 213, 220, 221, 222, 231, 232, or 233 of this title any mortgage—

* * * * *

[(8) executed in connection with the sale by the Commissioner of any housing acquired pursuant to section 108 of the Housing and Urban Developing Act of 1965.]

(8) executed in connection with the sale by the Government of any housing acquired pursuant to section 915 of the Demonstration Cities and Metropolitan Development Act of 1966.

* * * * *

BUILDER’S COST CERTIFICATION

SEC. 227. Notwithstanding any other provisions of this Act, no mortgage covering new or rehabilitated multifamily housing or *a property or project described in title XI* shall be insured under this Act unless the mortgagor has agreed (a) to certify, upon completion of the physical improvements on the mortgaged property or project and prior to final endorsement of the mortgage, either (i) that the approved percentage of actual cost (as those terms are herein defined) equaled or exceeded the proceeds of the mortgage loan or (ii) the amount by which the proceeds of the mortgage loan exceeded such approved percentage of actual cost, as the case may be, and (b) to pay forthwith to the mortgagee, for application to the reduction of the principal obligation of such mortgage, the amount, if any, certified to be in excess of such approved percentage of actual cost. Upon the Commissioner’s approval of the mortgagor’s certification as required hereunder, such certification shall be final and incontestable, except for fraud or material misrepresentation on the part of the mortgagor. As used in this section—

(a) The term “new or rehabilitated multifamily housing” means a project or property approved for mortgage insurance prior to the construction or the repair and rehabilitation involved and covered by a mortgage insured or to be insured (i) under section 207, (ii) under section 213 with respect to any property or project of a corporation or trust of the character described in paragraph numbered (1) of subsection (a) thereof or with respect to any property or project of a

mortgagor of the character described in paragraph (3) of subsection (a) thereof, (iii) under section 220 if the mortgage meets the requirements of paragraph (3)(B) of subsection (d) thereof, (iv) under section 221 if the mortgage meets the requirements of paragraph (3) or paragraph (4) of subsection (d) thereof, (v) under section 231, (vi) under section 233 if the mortgage meets the requirements of [subsection (b)(2)] subsection (b), (vii) under section 810 if the mortgage meets the requirements of subsection (f), or (viii) under section 234(d);

* * * * *

TITLE III—FEDERAL NATIONAL MORTGAGE ASSOCIATION

* * * * *

CREATION OF ASSOCIATION

SEC. 302. (a) * * *
(b) For the purposes set forth in section 301 and subject to the limitations and restrictions of this title, the Association is authorized, pursuant to commitments or otherwise, to purchase, lend (under section 304) on the security of, service, sell, or otherwise deal in any mortgages which are insured under the National Housing Act or title V of the Housing Act of 1949, or which are insured or guaranteed under the Servicemen's Readjustment Act of 1944 or chapter 37 of title 38, United States Code: *Provided*, That (1) no mortgage may be purchased at a price exceeding 100 per centum of the unpaid principal amount thereof at the time of purchase, with adjustments for interest and any comparable items; (2) the Association may not purchase any mortgage, except a mortgage insured under title V of the Housing Act of 1949, if it is offered by, or covers property held by, a State, territorial, or municipal instrumentality; and (3) the Association may not purchase any mortgage under section 305, except a mortgage insured under section 220 or title VIII, *or under title X with respect to a new community approved under section 1004 thereof*, or insured under section 213 and covering property located in an urban renewal area, or a mortgage covering property located in Alaska, Guam, or Hawaii, if the original principal obligation thereof exceeds or exceeded \$17,500 for each family residence or dwelling unit covered by the mortgage (plus an additional \$2,500 for each such family residence or dwelling unit which has four or more bedrooms). Notwithstanding the provisions of clause (3) in the preceding sentence, the Association may purchase a mortgage under section 305 with an original principal obligation that exceeds \$17,500 per dwelling unit if the mortgage (1) is a below-market interest rate mortgage insured under section 221(d) (3), and (2) covers property which has the benefit of local tax abatement in an amount determined by the Federal Housing Commissioner to be sufficient to make possible rentals not in excess of those that would be approved by the Commissioner if the mortgage amount did not exceed \$17,500 per dwelling unit and if local tax abatement were not provided. For the purposes of this title, the terms "mortgages" and "home mortgages" shall be inclusive of any mortgages or other loans insured under any of the provisions of the National Housing Act or title V of the Housing Act of 1949.

* * * * *

SECONDARY MARKET OPERATIONS

SEC. 304. (a)(1) To carry out the purposes set forth in paragraph (a) of section 301, the operations of the Association under this section shall be confined, so far as practicable, to mortgages which are deemed by the Association to be of such quality, type, and class as to meet, generally, the purchase standards imposed by private institutional mortgage investors and the Association shall not purchase any mortgage insured or guaranteed prior to the effective date of the Housing Act of 1954. In the interest of assuring sound operation, the prices to be paid by the Association for mortgages purchased in its secondary market operations under this section, should be established, from time to time, within the range of market prices for the particular class of mortgages involved, as determined by the Association. The volume of the Association's purchases and sales, and the establishment of the purchase prices, sale prices, and charges or fees, in its secondary market operations under this section, should be determined by the Association from time to time, and such determinations should be consistent with the objectives that such purchases and sales should be effected only at such prices and on such terms as will reasonably prevent excessive use of the Association's facilities, and that the operations of the Association under this section should be within its income derived from such operations and that such operations should be fully self-supporting. [Notwithstanding any other provision of this section, advance commitments to purchase mortgages in secondary market operations under this section shall be issued only at prices which are sufficient to facilitate home financing, but which are sufficiently below the price then offered by the Association for immediate purchase to prevent excessive sales to the Association pursuant to such commitments.]

* * * * *

SPECIAL ASSISTANCE FUNCTIONS

Sec. 305. (a) * * *

* * * * *

(e) Notwithstanding any other provision of this Act, the Association is authorized to enter into advance commitment contracts and purchase transactions which do not exceed \$200,000,000 outstanding at any one time, if such commitments or transactions relate to mortgages with respect to which the Federal Housing Commissioner shall have issued pursuant to section 213 either a commitment to insure or a statement of eligibility; but such commitments in any one State shall not exceed \$20,000,000 outstanding at any one time: *Provided*, That (1) of the total amount of advance commitment contracts and purchase transactions authorized by this subsection, the amount of \$50,000,000 shall be available solely for commitments or purchases of mortgages where the management or sales-type cooperative involved is certified by the Federal Housing Commissioner as a consumer cooperative, and (2) of the commitments in any one State, not more than \$15,000,000 shall be outstanding at any one time for mortgages with respect to cooperative projects which are not of the type described in clause (1) of this proviso. On and after the date of enactment of the Housing Act of 1959, the Association is authorized to enter into advance commitment contracts and purchase transactions (in addition to those authorized by the preceding sentence) relating to mortgages with

respect to which the Federal Housing Commissioner shall have issued pursuant to section 213 a commitment to insure or a statement of eligibility, without regard to any of the limitations contained in the preceding sentence; except that the total amount of the additional advance commitment contracts and purchase transactions authorized by this sentence which may be outstanding at any one time shall not exceed \$25,000,000, of which the amount of \$12,500,000 shall be available solely for commitments or purchases of mortgages where the management or sales-type cooperative involved is certified by the Federal Housing Commissioner as a consumer cooperative and the amount of \$12,500,000 shall be available solely for commitments or purchases of mortgages where the cooperative involved is a builder-sponsor cooperative. Without regard to any of the limitations of this subsection except the total amount of authorizations available, the Association is authorized to enter into advance commitment contracts and purchase transactions on **[supplementing]** *supplementary* cooperative loans with respect to which the Federal Housing Commissioner shall have issued, pursuant to section 213(j), either a commitment to insure or a statement of eligibility; but such commitments and purchases shall be made solely where there is a management-type cooperative involved which is certified by the Federal Housing Commissioner as a consumer cooperative.

* * * * *

(h) Notwithstanding clause (2) of section 302(b) and any provision of this Act which is inconsistent with this subsection, the Association is authorized (subject to Presidential action as provided in subsection (a), as limited by subsection (c)) to purchase pursuant to commitments or otherwise, and to service, sell, or otherwise deal in, mortgages insured under the provision of **[section 221(d)(3)]** *sections 221 (d)(3) and 221 (h)* of this Act.

(i) *In any case where the Association makes a commitment to purchase under this section (1) a mortgage insured under section 213, or (2) a mortgage insured under section 221(d)(3) and executed by a cooperative (including an investor-sponsor), a private nonprofit corporation or association, or a mortgagor qualified under section 221(e), such commitment may provide for participation by the Association in the making of insured advances on the mortgage during construction. Such participation shall be limited to 95 per centum of the amount of each of the advances involved, and the mortgagee providing the balance of such amount shall perform all necessary servicing and processing of such advances until the final insurance endorsement of the mortgage.*

The Secretary of Housing and Urban Development shall approve the reasonableness of the fee to be paid a participating mortgagee, taking into account its services and the extent of its participation in the advances.

* * * * *

BOARD OF DIRECTORS

SEC. 308. **[a]** The Association shall have a Board of Directors consisting of five persons, one of whom shall be the Housing and Home Finance Administrator as Chairman of the Board, and four of whom shall be appointed by said Administrator from among the officers or employees of the Association, of the immediate office of said Administrator, or (with the consent of the head of such department or agency) of any other department or agency of the Federal Govern-

ment. The board of directors shall meet at the call of its chairman, who shall require it to meet not less often than once each month. Within the limitations of law, the board shall determine the general policies which shall govern the operations of the Association. The chairman of the board shall select and effect the appointment of qualified persons to fill the offices of president and vice president, and such other offices as may be provided for in the bylaws, with such executive functions, powers, and duties as may be prescribed by the bylaws or by the board of directors, and such persons shall be the executive officers of the Association and shall discharge all such executive functions, powers, and duties. The members of the board, as such, shall not receive compensation for their services.

* * * * *

TITLE V—MISCELLANEOUS

* * * * *

PENALTIES

SEC. 512. Notwithstanding any other provision of law, the Commissioner is authorized to refuse the benefits of participation (either directly as an insured lender or as a borrower, or indirectly as a builder, contractor, or dealer, or salesman or sales agent for a builder, contractor or dealer) under title I, II, VI, VII, VIII, **[or IX]** IX, X, or XI of this Act to any person or firm (including but not limited to any individual, partnership, association, trust, or corporation) if the Commissioner has determined that such person or firm (1) has knowingly or willfully violated any provision of this Act or of title III of the Servicemen's Readjustment Act of 1944, as amended, or of chapter 37 of title 38, United States Code, or of any regulation issued by the Commissioner under this Act or by the Administrator of Veterans' Affairs under said title III, or chapter 37, or (2) has, in connection with any construction, alteration, repair or improvement work financed with assistance under this Act or under said title III, or chapter 37, or in connection with contracts or financing relating to such work, violated any Federal or State penal statute, or (3) has failed materially to properly carry out contractual obligations with respect to the completion of construction, alteration, repair, or improvement work financed with assistance under this Act or under title III of the Servicemen's Readjustment Act of 1944, as amended, or of chapter 37 of title 38, United States Code. Before any such determination is made any person or firm with respect to whom such a determination is proposed shall be notified in writing by the Commissioner and shall be entitled, upon making a written request to the Commissioner to a written notice specifying charges in reasonable detail and an opportunity to be heard and to be represented by counsel. Determinations made by the Commissioner under this section shall be based on the preponderance of the evidence. For the purposes of compliance with this section the Commissioner notice of a proposed determination under this section shall be considered to have been received by the interested person or firm if the notice is properly mailed to the last known address of such person or firm.

* * * * *

WAIVER OF DEDUCTION ON ASSIGNMENT OF PROPERTY TO SECRETARY
IN LIEU OF FORECLOSURE

SEC. 523. Notwithstanding any other provision of this Act, from and after the date of the enactment of the Housing and Urban Development Act of 1966, the Secretary, under such terms and conditions as he may approve, may waive all or a part of the 1 per centum deduction otherwise made from insurance benefits with respect to multifamily housing or land development mortgages assigned to him, where the assignment is made at his request in lieu of foreclosure of the mortgage.

* * * * *

TITLE VIII—ARMED SERVICES HOUSING MORTGAGE INSURANCE

* * * * *

SEC. 803. (a) In order to assist in relieving the acute shortage and urgent need for family housing which now exists at or in areas adjacent to military installations because of uncertainty as to the permanency of such installations and to increase the supply of necessary family housing accommodations for personnel at such installations, the Commissioner is authorized, upon application of the mortgagee, to insure mortgages (including advances on such mortgages during construction) which are eligible for insurance as hereinafter provided, and, upon such terms as the Commissioner may prescribe, to make commitments for so insuring such mortgages prior to the date of their execution or disbursement thereon: *Provided*, That the aggregate amount of principal obligations of all mortgages insured under this title (except mortgages insured pursuant to the provisions of this title in effect prior to the enactment of the Housing Amendments of 1955) shall not exceed **[\$2,300,000,000]** *\$3,350,000,000*: *And provided further*, That the limitation in section 217 of this Act shall not apply to this title: *And provided further*, That no more mortgages shall be insured under this section after October 1, **[1962]** *1969*, except pursuant to a commitment to insure before such date, and not more than **[twenty-eight thousand]** *eighty-eight thousand* family housing units shall be contracted for after June 30, 1959, pursuant to any mortgage insured under this section after such date.

(b) To be eligible for insurance under this title a mortgage shall meet the following conditions:

(1) The mortgaged property shall be held by a mortgagor approved by the Commissioner. The Commissioner may, in his discretion, require such mortgagor to be regulated or restricted as to capital structure, and methods of operation. The Commissioner may make such contracts with, and acquire for not to exceed \$100 stock or interest, in any such mortgagor, as the Commissioner may deem necessary to render effective such restriction or regulation. Such stock or interest shall be paid for out of the General Insurance Fund, and shall be redeemed by the mortgagor at par upon the termination of all obligations of the Commissioner under the insurance.

(2) The mortgaged property shall be designed for use for residential purposes by personnel of the armed services and situated at or near a military installation, and the Secretary or his designee shall have certified that there is no intention, so far as can reasonably be foreseen, to substantially curtail the personnel assigned or to be assigned to such installation, and (i) shall have determined that for reasons of

safety, security, or other essential military requirements, it is necessary that the personnel involved reside in public quarters (*Provided, however,* That for the purposes of this subsection housing covered by a mortgage insured, or for which a commitment to insure has been issued under section 803 prior to the enactment of the "Housing Amendments of 1955" may be considered the same as available quarters), and (ii) with the approval of the Commissioner, shall have determined that adequate housing is not available for such personnel at reasonable rentals within reasonable commuting distance of the installation and that the mortgaged property will not, so far as can reasonably be foreseen, substantially curtail occupancy in existing housing covered by mortgages insured under this Act. The housing accommodations shall comply with such standards and conditions as the Commissioner may prescribe to establish the acceptability of such property for mortgage insurance, except that the certification of the Secretary of Defense or his designee shall (for purposes of mortgage insurance under this title) be conclusive evidence to the Commissioner of the existence of the need for such housing. However, if the Commissioner does not concur in the housing needs as certified by the Secretary, the Commissioner may require the Secretary to guarantee the General Insurance Fund against loss with respect to the mortgage covering such housing. The Commissioner shall report to the Committees on Banking and Currency of the Senate and the House of Representatives each instance in which he has required the Secretary to guarantee the General Insurance Fund, with reasons therefor. There are hereby authorized to be appropriated such sums as may be necessary to provide for payment to meet losses arising from such guaranty.

(3) The mortgage shall involve a principal obligation in an amount—

(A) not to exceed the amount which the Commissioner estimates will be the replacement cost of the property or project when the proposed improvements are completed (the cost of the property or project as such term is used in this paragraph may include the cost of the land, the physical improvements, and utilities within the boundaries of the property or project);

(B) not to exceed an average of **[\$16,500]** \$17,500 per family unit for such part of such property or project (including ranges, refrigerators, shades, screens, and fixtures) as may be attributable to dwelling use: *Provided*, That the replacement cost of the property or project as determined by the Commissioner, including the estimated value of any usable utilities within the boundaries of the property or project where owned by the United States and not provided for out of the proceeds of the mortgage, shall not exceed an average of **[\$16,500]** \$17,500 per family unit: *Provided further*, That should the financing of housing to be constructed pursuant to a single invitation for bids be accomplished by two or more mortgages, the principal obligation of any single mortgage may exceed an average of **[\$16,500]** \$17,500 per family unit if the sum of the principal obligations of all mortgages for such housing does not exceed an average of **[\$16,500]** \$17,500 per family unit: *And provided further*, That subject to the limitations of this paragraph no family unit included in any mortgaged property shall be contracted for after the date of enactment of the Military Contruction Act of 1960 if the cost of such unit exceeds \$19,800; and

(C) not to exceed the bid of the eligible bidder with respect to the property or project under section 403 of the Housing Amendments of 1955.

The mortgage shall provide for complete amortization by periodic payments within such terms as the Commissioner shall prescribe, but not to exceed thirty years from the beginning of amortization of the mortgage, and shall bear interest (exclusive of premium charges for insurance) at not to exceed **[4½ per centum]** *5½ per centum* per annum of the amount of the principal obligation outstanding at any time. The Commissioner may consent to the release of a part or parts of the mortgaged property from the lien of the mortgage upon such terms and conditions as he may prescribe and the mortgage may provide for such release. The property or project may include such nondwelling facilities as the Commissioner deems adequate to serve the occupants.

* * * * *
SEC. 810. (a) * * *

* * * * *
(i) The aggregate number of dwelling units (including all units in multifamily projects or individual dwellings) covered by outstanding commitments to insure and mortgages insured under this section shall at no time exceed **[five thousand]** *ten thousand* dwelling units.
* * * * *

TITLE X—MORTGAGE INSURANCE FOR LAND
DEVELOPMENT

DEFINITIONS

SEC. 1001. As used in this title—
(a) the term “mortgage” means a lien or liens on real estate in fee simple, or on a leasehold (1) under a lease for not less than ninety-nine years which is renewable, or (2) under a lease having a period of not less than fifty years to run from the date the mortgage was executed;
(b) the term “first mortgage” includes such classes of first liens as are commonly given to secure advances (including but not limited to advances during construction) on, or the unpaid purchase price of, real estate under the laws of the State in which the real estate is located, together with the credit instrument or instruments, if any, secured thereby, and may be in the form of trust mortgages or mortgage indentures or deeds of trusts securing notes, bonds, or other credit instruments;
(c) the terms **[“mortgage”]** *“mortgagee”, “mortgagor”,* and “State” have the same meaning as in section 207 of this Act;
(d) the term “improvements” means waterlines and water supply installations, sewerlines and **[sewerage disposal installations,]** *sewage disposal installations, steam, gas, and electric lines and installations,* roads, streets, curbs, gutters, sidewalks, storm drainage facilities, and other installations or work, whether on or off the site, which the Commissioner deems necessary or desirable to prepare land primarily for residential and related uses or to

provide facilities for public or common use[; but such term]. *Related uses may include industrial uses, with sites for such uses to be in proper proportion to the size and scope of the development. The term “improvements” shall not include any building unless it is (1) a building which is needed in connection with a water supply or sewage disposal installation, or a steam, gas, or electric line or installation, or (2) a building, other than a school, which is to be owned and maintained jointly by the property owners; and*

(e) the term “land development” means the process of making, installing, or constructing improvements.

BASIC CONDITIONS FOR INSURANCE

SEC. 1002. (a) * * *

* * * * *

(c) The principal obligation of the mortgage shall (1) not exceed 75 per centum of the Commissioner’s estimate of the value of the property upon completion of the land development, and (2) not exceed the sum of 50 per centum of the Commissioner’s estimate of the value of the land before development and 90 per centum of his estimate of the cost of such development. The outstanding principal obligations of mortgages involving a single land development undertaking, as defined by the Commissioner, shall at no time exceed **[\$10,000,000]** *\$25,000,000.*

(d) The mortgage shall—

(1) **[have a maturity not to exceed seven years or such longer maturity as the Commissioner deems reasonable in the case of a privately owned system for water or sewerage, and contain repayment provisions satisfactory to the Commissioner]** *contain repayment provisions satisfactory to the Secretary and have a maturity not to exceed seven years, or such longer maturity as the Secretary deems reasonable (A) in the case of a privately owned system for water or sewerage, and (B) in the case of a new community approved under section 1004;*

(2) bear interest at a rate satisfactory to the Commissioner, and such interest shall be exclusive of premium charges for mortgage insurance and such service charges and fees as may be approved by the Commissioner; and

(3) contain such terms and provisions with respect to protection of the security, payment of taxes, delinquency charges, prepayment, additional and secondary liens, and other matters as the Commissioner may in his discretion prescribe.

* * * * *

NEW COMMUNITIES

SEC. 1004. (a) *New communities consisting of developments, satisfying all other requirements under this title, may be approved under this section by the Secretary for mortgage insurance if they meet the requirements of subsection (b) of this section.*

(b) *A development shall be eligible for approval as a new community if the Secretary determines it will, in view of its size and scope, make a*

substantial contribution to the sound and economic growth of the area within which it is located in the form of—

(1) substantial economies, made possible through large-scale development, in the provision of improved residential sites;

(2) adequate housing to be provided for those who would be employed in the community or the surrounding area;

(3) maximum accessibility from the new residential sites to industrial or other employment centers and commercial, recreational, and cultural facilities in or near the community; and

(4) maximum accessibility to any major central city in the area.

SEC. [1004] 1005. The Commissioner shall adopt such requirements as he deems necessary in land development covered by mortgages insured under this title to encourage the maintenance of a diversified local homebuilding industry, broad participation by builders, particularly small builders, and the inclusion of a proper balance of housing for families of moderate or low income.

WATER AND SEWERAGE FACILITIES

[SEC. 1005. After development of the land it shall be served by public systems for water and sewerage which are consistent with other existing or prospective systems within the area, except that the Commissioner may approve an adequate privately or cooperatively owned system which will be regulated in a manner acceptable to him with respect to user rates and charges, capital structure, methods of operation, rate of return, and conditions and terms of any sale or transfer.]

SEC. 1006. After development of the land it shall be served by public systems for water and sewerage which are consistent with other existing or prospective systems within the area, except that—

(a) in the case of systems for water, the land may be served by privately or cooperatively owned systems which are consistent with other existing or prospective systems within the area; are approved as adequate by the Secretary; and are regulated in a manner acceptable to him with respect to user rates and charges, capital structure, methods of operation, rate of return, and conditions and terms of any sale or transfer; and

(b) in the case of systems for sewerage, the land may be served by—

(1) existing privately or cooperatively owned systems (including reasonable extensions thereto) which are approved as adequate by the Secretary and are regulated in a manner acceptable to him; or

(2) if it is necessary to develop a new system and the Secretary determines that public ownership of such a system is not feasible, an adequate privately or cooperatively owned new system (A) which he finds consistent with other existing or prospective systems within the area, (B) which will be regulated, during the period of such ownership, in a manner acceptable to him with respect to user rates and charges, capital structure, methods of operation, and rate of return, and (C) regarding which he receives assurances, satisfactory to him, with respect to eventual public ownership and operation of the system and with respect to the conditions and terms of any sale or transfer.

TITLE XI—MORTGAGE INSURANCE FOR GROUP PRACTICE FACILITIES

INSURANCE OF MORTGAGES

SEC. 1101. (a) *The Secretary is authorized (1) to insure mortgages (including advances on such mortgages during construction), upon such terms and conditions as he may prescribe, in accordance with the provisions of this title, and (2) to make commitments for the insuring of such mortgages prior to the date of their execution or disbursement thereon. No mortgage shall be insured under this title after October 1, 1969, except pursuant to a commitment to insure issued before that date.*

(b) *To be eligible for insurance under this title, the mortgage shall (1) be executed by a mortgagor that is a group practice unit or organization, approved by the Secretary, (2) be made to and held by a mortgagee approved by the Secretary as responsible and able to service the mortgage properly, and (3) cover a property or project which is approved for mortgage insurance prior to the beginning of construction or rehabilitation and is designed for use as a group practice facility which the Secretary finds will be constructed in an economical manner, will not be of elaborate or extravagant design or materials, and will be adequate and suitable for carrying out the purposes of this title. No mortgage shall be insured under this title unless it is shown to the satisfaction of the Secretary that the applicant would be unable to obtain the mortgage loan without such insurance on terms comparable to those specified in subsection (c).*

(c) *The mortgage shall—*

(1) *not exceed \$5,000,000;*

(2) *not exceed 90 per centum of the amount which the Secretary estimates will be the value of the property or project when construction*

or rehabilitation is completed. The value of the property may include the land and the proposed physical improvements, equipment, utilities within the boundaries of the property, architects' fees, taxes, and interest accruing during construction or rehabilitation, and other miscellaneous charges incident to construction or rehabilitation and approved by the Secretary;

(3) have a maturity satisfactory to the Secretary but not to exceed twenty-five years, and provide for complete amortization of the principal obligation by periodic payments within such term as the Secretary shall prescribe; and

(4) bear interest (exclusive of premium charges for insurance, and service charges if any) at a rate of not to exceed 5 per centum per annum of the amount of the principal obligation outstanding at any time, or not to exceed such rate (not in excess of 6 per centum per annum) as the Secretary finds necessary to meet the mortgage market.

(d) Any contract of insurance executed by the Secretary under this title shall be conclusive evidence of the eligibility of the mortgage for insurance, and the validity of any contract for insurance so executed shall be incontestable in the hands of an approved mortgagee from the date of the execution of such contract, except for fraud or misrepresentation on the part of such approved mortgagee.

(e) Each mortgage insured under this title shall contain an undertaking (in accordance with regulations prescribed under this title and in force at the time the mortgage is approved for insurance) to the effect that, except as authorized by the Secretary and the mortgages, the property will be used as a group practice facility until the mortgage has been paid in full or the contract of insurance otherwise terminated.

(f) No mortgage shall be insured under this title unless the mortgagor and the mortgagee certify (1) that they will keep such records relating to the mortgage transaction and indebtedness, to the construction of the facility covered by the mortgage, and to the use of such facility as a group practice facility as are prescribed by the Secretary at the time of such certification, (2) that they will make such reports as may from time to time be required by the Secretary pertaining to such matters, and (3) that the Secretary shall have access to and the right to examine and audit such records.

PREMIUMS

SEC. 1102. The Secretary shall fix premium charges for the insurance of mortgages under this title, but such charges shall not be more than 1 per centum per annum of the amount of the principal obligation of the mortgage outstanding at any time, without taking into account delinquent payments or prepayments. In addition to the premium charge, the Secretary is authorized to charge and collect such amounts as he may deem reasonable for the analysis of a proposed project and the appraisal and inspection of the property and improvements. Where the principal obligation of any mortgage accepted for insurance under this title is paid in full prior to the maturity date, the Secretary is authorized to require the payment by the mortgagee of an adjusted premium charge. This charge shall be in such amount as the Secretary determines to be equitable, but not in excess of the aggregate amount of the premium charges that the mortgagee would otherwise have been required to pay if the mortgage had continued to be insured until the maturity date. Where such prepayment occurs, the Secretary is authorized to refund to the mortgagee for the account of the mortgagor all, or such portion as he shall determine

to be equitable, of the current unearned premium charges theretofore paid. Premium charges fixed under this section shall be payable by the mortgagee either in cash, or in debentures which are the obligation of the General Insurance Fund at par plus accrued interest, at such times and in such manner as may be prescribed by the Secretary.

PAYMENT OF INSURANCE BENEFITS

SEC. 1103. The mortgagee shall be entitled to receive the benefits of the insurance under this title in the manner provided in subsection (g) of section 207 with respect to mortgages insured under that section. For such purpose the provisions of subsections (g), (h), (i), (j), (k), (l), and (n) of section 207 shall apply to mortgages insured under this title and all references in such subsections to section 207 shall be deemed to refer to this title.

REGULATIONS

SEC. 1104. The Secretary shall prescribe such regulations as may be necessary to carry out this title, after consulting with the Secretary of Health, Education, and Welfare with respect to any health or medical aspects of the program under this title which may be involved in such regulations.

ADMINISTRATION

SEC. 1105. (a) At the request of individuals or organizations operating or contemplating the operation of group practice facilities (as defined in section 1106(1)), the Secretary may provide or obtain technical assistance in the planning for and construction of such facilities.

(b) With a view to avoiding unnecessary duplication of existing staffs and facilities of the Federal Government, the Secretary is authorized to utilize available services and facilities of any agency of the Federal Government in carrying out the provisions of this title, and to pay for such services and facilities, either in advance or by way of reimbursement, in accordance with an agreement between the Secretary and the head of such agency.

DEFINITIONS

SEC. 1106. For the purposes of this title—

(1) The term "group practice facility" means a facility in a State for the provision of preventive, diagnostic, and treatment services to ambulatory patients (in which patient care is under the professional supervision of persons licensed to practice medicine or surgery in the State or, in the case of optometric care or treatment, is under the professional supervision of persons licensed to practice optometry in the State, or, in the case of dental diagnosis or treatment, is under the professional supervision of persons licensed to practice dentistry in the State) and which is primarily for the provision of such health services by a medical or dental group.

(2) The term "medical or dental group" means a partnership or other association or group of persons licensed to practice medicine or surgery in the State, or of persons licensed to practice optometry in the State, or of persons licensed to practice dentistry in the State, or of any combination of such persons, who, as their principal professional activity and as a group responsibility, engage or undertake to engage in the coordinated practice of their profession primarily in one or more group practice facilities, and who (in this connection) share common overhead expenses (if and to the extent such expenses are paid by members of the group),

medical and other records, and substantial portions of the equipment and the professional, technical, and administrative staffs, and which partnership or association or group is composed of at least such professional personnel and makes available at least such health services as may be provided in regulations prescribed under this title.

(3) The term "group practice unit or organization" means—

(A) a private nonprofit agency or organization undertaking to provide, directly or through arrangements with a medical or dental group, comprehensive medical care, optometric care, or dental care, or any combination thereof, which may include hospitalization, to members or subscribers primarily on a group practice prepayments basis;

(B) a private nonprofit agency or organization established for the purpose of improving the availability of medical, optometric, or dental care in the community or having some function or functions related to the provision of such care, which will, through lease or other arrangement, make the group practice facility with respect to which assistance has been requested under this title available to a medical or dental group for use by it; or

(C) a medical or dental group.

(4) The term "nonprofit organization" means a corporation, association, foundation, trust, or other organization no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual except, in the case of an organization the purposes of which include the provision of personal health services to its members or subscribers or their dependents under a plan of such organization for the provision of such services to them (which plan may include the provision of other services or insurance benefits to them), through the provision of such health services (or such other services or insurance benefits) to such members or subscribers or dependents under such plan.

(5) The term "State" includes the Commonwealth of Puerto Rico, Guam, the Virgin Islands, American Samoa, and the District of Columbia.

(6) The term "mortgage" means a first mortgage on real estate in fee simple, or on the interest of either the lessor or lessee thereof (A) under a lease for not less than ninety-nine years which is renewable, or (B) under a lease having a period of not less than fifty years to run from the date the mortgage was executed. The term "first mortgage" means such classes of first liens as are commonly given to secure advances (including but not limited to advances during construction) on, or the unpaid purchase price of, real estate under the laws of the State in which the real estate is located, together with the credit instrument or instruments, if any, secured thereby, and any mortgage may be in the form of one or more trust mortgages or mortgage indentures or deeds of trust, securing notes, bonds, or other credit instruments, and, by the same instrument or by a separate instrument, may create a security interest in initial equipment, whether or not attached to the realty.

(7) The term "mortgagee" means the original lender under a mortgage, and his or its successors and assigns, and includes the holders of credit instruments issued under a trust mortgage or deed of trust pursuant to which such holders act by and through a trustee named therein.

(8) The term "mortgagor" means the original borrower under a mortgage and his or its successors and assigns.

UNITED STATES HOUSING ACT OF 1937

[Public Law 412, 75th Congress, 50 Stat. 888; 42 U.S.C. 1401 et seq.]

* * * * *

SEC. 16. In order to protect labor standards—

(1) * * *

(2) Any contract for loans, annual contributions, capital grants, sale, or lease pursuant to this Act shall contain a provision requiring that not less than the salaries or wages prevailing in the locality, as determined or adopted (subsequent to a determination under applicable State or local law) by the Authority, shall be paid to all architects, technical engineers, draftsmen, and technicians, employed in the development and to all maintenance laborers and mechanics employed in the administration of the low-rent housing or slum-clearance project involved; and shall also contain a provision that not less than the wages prevailing in the locality, as predetermined by the Secretary of Labor pursuant to the Davis-Bacon Act (49 Stat. 1011), shall be paid to all laborers and mechanics employed in the development of the project involved (*including a project for the use of privately built housing in any case, other than under the authority of section 23 of the Act, where the public housing agency and the builder or sponsor enter into an agreement for such use before construction is commenced*), and that each such laborer or mechanic shall receive compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in any workweek in excess of eight hours in any workday or forty hours in the workweek, as the case may be; and the Authority shall require certification as to compliance with the provisions of this paragraph prior to making any payment under such contract.

* * * * *

LOW-RENT HOUSING IN PRIVATE ACCOMMODATIONS

SEC. 23. * * *

* * * * *

(d) To the extent of contracts for annual contributions entered into by the Authority with a public housing agency under section 10(e), such agency may enter into contracts with the owners of structures containing dwelling units approved under subsection (c) for the use of such units in accordance with this section. Each such contract with an owner shall provide (with respect to any unit) that—

(1) the selection of tenants for such unit shall be the function of the owner, subject to the provisions of the contract between the Authority and the agency;

(2) the rental and other charges to be received by the owner shall be negotiated and agreed to by the agency and the owner, and the rental and other charges to be paid by the tenant shall be determined in accordance with the standards applicable to units in low-rent housing projects assisted under the other provisions of this Act;

(3) the agency shall have the sole right to give notice to vacate, with the owner having the right to make representations to the agency for termination of a tenancy;

(4) maintenance and replacements (including redecoration) shall be in accordance with the standard practice for the building

concerned, as established by the owner and agreed to by the agency; and

(5) the agency and the owner shall carry out such other appropriate terms and conditions as may be mutually agreed to by them.

Each contract between a public housing agency and an owner entered into under this subsection shall be for a term of not less than twelve months nor more than thirty-six months (*except that it may be for a term of up to sixty months in any case in which the public housing agency determines that the housing to be leased thereunder is needed for displaced families*), and shall be renewable by such agency and owner at the expiration of such term.

HOUSING ACT OF 1949

[Public Law 171, 81st Congress; 63 Stat. 413; 42 U.S.C. 1441 (1946 ed., Supp. III)]

* * * * *

TITLE I—SLUM CLEARANCE AND URBAN RENEWAL

* * * * *

CAPITAL GRANTS

SEC. 103. (a) * * *

(b) The Administrator may, with the approval of the President, contract to make grants under this title aggregating not to exceed \$4,700,000,000, which amount shall be increased by \$675,000,000 on the date of the enactment of the Housing and Urban Development Act of 1965, by \$725,000,000 on July 1, 1966, and by \$750,000,000 on July 1 in each of the years 1967 and 1968.

In addition to the authority to make grants provided in the first sentence of this subsection, the Secretary may contract to make grants under this title, on or after July 1, 1967, in an amount not to exceed \$250,000,000: Provided, That the authority to contract to make grants provided by this sentence shall be exercised only with respect to an urban renewal project which is identified and scheduled to be carried out as one of the projects or activities included within an approved comprehensive city demonstration program assisted under the provisions of section 105(c) of the Demonstration Cities and Metropolitan Development Act of 1966.

Such grants shall not be used for major long-term capital improvement; shall not exceed two-thirds of the cost, as determined or estimated by the Administrator of the project for which the grant is made; and shall be subject to such other terms and conditions as he may prescribe. The Administrator is authorized, notwithstanding the provisions of section 3648 of the Revised Statutes, as amended, to make advance or progress payments on account of any grant contracted to be made pursuant to this section. The faith of the United States is solemnly pledged to the payment of all grants contracted for under this title, and there are hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, the amounts necessary to provide for such payments: *Provided, That any amounts so appropriated shall also be available for repaying to the Secretary of the Treasury, for application to notes of the Administrator the principal amounts of any funds advanced to local public agencies*

under this title which the Administrator determines to be uncollectible because of the termination of activities for which such advances were made, together with the interest paid or accrued to the Secretary (as determined by him) attributable to notes given by the Administrator in connection with such advances, but all such repayments shall constitute a charge against the authorization to make contracts for grants contained in this section: *Provided further*, That no such determination of the Administrator shall be construed to prejudice the rights of the United States with respect to any such advance.

* * * * *

LOCAL DETERMINATIONS

SEC. 105. Contracts for loans or capital grants shall be made only with a duly authorized local public agency and shall require that—

* * * * *

(f) *All laborers and mechanics employed by contractors or subcontractors in the construction of any multifamily housing (as defined for purposes of this subsection by the Secretary of Housing and Urban Development or his designee) which may be involved in the redevelopment of the urban renewal area, and which is not subject to the provisions of section 212 of the National Housing Act or to other provisions of Federal law imposing similar standards, will be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a—276a-5). No contract for loan or capital grant shall be entered into under this title with respect to an urban renewal area whose redevelopment will involve the construction of such housing without first obtaining adequate assurance that the labor standards imposed by the preceding sentence (or, in the case of housing which is subject to the provisions of section 212 of the National Housing Act or to other provisions of Federal law imposing similar standards, the labor standards imposed by such provisions) will be maintained upon the construction work. The Secretary of Labor shall have, with respect to the labor standards specified in this subsection, the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 132z-15), and section 2 of the Act of June 13, 1934, as amended (48 Stat. 948; 40 U.S.C. 276c).*

GENERAL PROVISIONS

SEC. 106. (a) * * *

* * * * *

[(d) Section 3709, as amended, of the Revised Statutes shall not apply to any contract for services or supplies on account of any property acquired pursuant to this title if the amount of such contract does not exceed \$1,000.]

* * * * *

DEFINITIONS

SEC. 110. The following terms shall have the meanings, respectively, ascribed to them below, and, unless the context clearly indicates otherwise, shall include the plural as well as the singular number:

(a) “Urban renewal area” means a slum area or a blighted, deteriorated, or deteriorating area in the locality involved which the Administrator approves as appropriate for an urban renewal project.

(b) "Urban renewal plan" means a plan, as it exists from time to time, for an urban renewal project, which plan (1) shall conform to the general plan of the locality as a whole and to the workable program referred to in section 101 hereof and shall be consistent with definite local objectives respecting appropriate land uses, improved traffic, public transportation, public utilities, recreational and community facilities, and other public improvements; and (2) shall be sufficiently complete to indicate, to the extent required by the Administrator for the making of loans and grants under this title, such land acquisition, *historic and architectural preservation*, demolition and removal of structures, redevelopment, improvements, and rehabilitation as may be proposed to be carried out in the urban renewal area, zoning and planning changes, if any, land uses, maximum densities, and building requirements.

(c) "Urban renewal project" or "project" may include undertakings and activities of a local public agency in an urban renewal area for the elimination and for the prevention of the development or spread of slums and blight, and may involve slum clearance and redevelopment in an urban renewal area, or rehabilitation or conservation in an urban renewal area, or any combination or part thereof, in accordance with such urban renewal plan. Such undertakings and activities may include—

(1) acquisition of (i) a slum area or a deteriorated or deteriorating area, or (ii) land which is predominantly open and which because of obsolete platting, diversity of ownership, deterioration of structures or of site improvements, or otherwise, substantially impairs or arrests the sound growth of the community, or (iii) open land necessary for sound community growth which is to be developed for predominantly residential uses, or (iv) air rights in an area consisting principally of land in highways, railway or subway tracks, bridge or tunnel entrances, or other similar facilities which have a blighting influence on the surrounding area and over which air rights sites are to be developed for the elimination of such blighting influences and for the provision of housing (and related facilities and uses) designed specifically for, and limited to, families and individuals of low or moderate income *or, if the area is found by the local public agency to be unsuitable for use for low or moderate income housing, for use for industrial development: Provided, That the requirement in paragraph (a) of this section that the area be a slum area or a blighted, deteriorated or deteriorating area shall not be applicable in the case of projects under clauses (iii) and (iv) hereof: Provided further, That the aggregate amount of capital grants for projects under clause (iv) shall not exceed 5 per centum of the aggregate amount of grants authorized by this title to be contracted for after the date of enactment of the Housing Act of 1964;*

(2) demolition and removal of buildings and improvements;

(3) installation, construction, or reconstruction of streets, utilities, parks, playgrounds, and other improvements necessary for carrying out in the urban renewal area the urban renewal objectives of this title in accordance with the urban renewal plan;

(4) disposition of any property acquired in the urban renewal area (including sale, leasing or retention by the local public agency itself) at its fair value for uses in accordance with the urban renewal plan or as provided in section 107;

(5) carrying out plans for programs of code enforcement or voluntary repair and rehabilitation of buildings or other improvements in accordance with the urban renewal plan.

(6) acquisition of any other real property in the urban renewal area where necessary to eliminate unhealthful, insanitary or unsafe conditions, lessen density, eliminate obsolete or other uses detrimental to the public welfare, or otherwise to remove or prevent the spread of blight or deterioration, *to promote historic, and architectural preservation*, or to provide land for needed public facilities;

(7) construction of foundations and platforms necessary for the provision on air rights sites of housing (and related facilities and uses) designed specifically for, and limited to, families and individuals of low or moderate income, *or construction of foundations and platforms necessary for the provision of air rights sites for industrial development*;

(8) acquisition and repair or rehabilitation for guidance purposes, and resale by the local public agency, of structures which are located in the urban renewal area and which, under the urban renewal plan, are to be repaired or rehabilitated for dwelling use or related facilities: *Provided*, That the local public agency shall not acquire for such purposes, in any urban renewal area, structures which contain or will contain more than (A) one hundred dwelling units, or (B) 5 per centum of the total number of dwelling units in such area which, under the urban renewal plan, are to be repaired or rehabilitated, whichever is the lesser; **[and]**

[(9) relocating within the project area a structure which the local public agency determines to be of historic value and which will be disposed of to a public body or a private nonprofit organization which will renovate and maintain such structure for historic purposes.]

(9) *relocation within or outside the project area of structures which will be restored and maintained for architectural or historic purposes; and*

(10) *restoration of acquired properties of historic or architectural value.*

Notwithstanding any other provision of this title, (A) no contract shall be entered into for any loan or capital grant under this title for any project which provides for demolition and removal of buildings and improvements unless the Administrator determines that the objectives of the urban renewal plan could not be achieved through rehabilitation of the project area, and (B) not less than 10 per centum of the aggregate amount of (i) grants authorized to be contracted for under this title by the Housing and Urban Development Act of 1965 and subsequent Acts, and (ii) loans authorized to be made under section 312 of the Housing Act of 1964, shall be available for projects assisted with such grants or loans which involve primarily code enforcement and rehabilitation.

For the purposes of this title, the term "project" shall not include (except as provided in paragraphs (7), (8), and (9) above) the construction or improvement of any building, and the term "redevelopment" and derivatives thereof shall mean development as well as redevelopment. For any of the purposes of section 109 hereof, the term "project" shall not include any donations or provisions made as local grants-in-aid and eligible as such pursuant to clauses (2) and (3) of section 110(d) hereof.

Financial assistance shall not be extended under this title with respect to any urban renewal area which is not predominantly residential in character and which, under the urban renewal plan therefore, is not to be redeveloped for predominantly residential uses: *Provided*, That,

if the governing body of the local public agency determines that the redevelopment of such an area for predominantly nonresidential uses is necessary for the proper development of the community, the Administrator may extend financial assistance under this title for such a project: *Provided further*, That the aggregate amount of capital grants contracted to be made pursuant to this title with respect to such projects after the date of the enactment of the Housing Act of 1959 shall not exceed 30 per centum of the aggregate amount of grants authorized by this title to be contracted for after such date: *And provided further*, That the aggregate amount of capital grants made available under this title with respect to such projects after the date of the enactment of the Housing and Urban Development Act of 1965 may be in an amount not to exceed (in addition to amounts previously available for such projects) 35 per centum of the amount of additional capital grants authorized under this title by such Act.

In addition to all other powers hereunder vested, where land within the purview of clause (1)(ii) or (1)(iii) of the first paragraph of this subsection (whether it be predominantly residential or nonresidential in character) is to be redeveloped for predominantly nonresidential uses, loans and advances under this title may be extended therefor if the governing body of the local public agency determines that such redevelopment for predominantly nonresidential uses is necessary and appropriate to facilitate the proper growth and development of the community in accordance with sound planning standards and local community objectives and to afford maximum opportunity for the redevelopment of the project area by private enterprise: *Provided*, That loans and outstanding advances to any local public agency pursuant to the authorization of this sentence shall not exceed 2½ per centum of the estimated gross project costs of the projects undertaken under other contracts with such local public agency pursuant to this title.

(d) "Local grants-in-aid" shall mean assistance by a State, municipality, or other public body, or (in the case of cash grants or donations of land or other real property) any other entity, in connection with any project on which a contract for capital grant has been made under this title, in the form of (1) cash grants to defray expenditures within the purview of section 110(e)(1) hereof; (2) donations, at cash value, of land or other real property (exclusive of land in streets, alleys, and other public rights-of-way which may be vacated in connection with the project, or of air rights over streets, alleys, and other public rights-of-way) in the urban renewal area, and demolition, removal, or other work or improvements in the urban renewal area, at the cost thereof, of the types described in [clause (2) and clause (3)] clauses (2), (3), (9), and (10) of the second sentence of section 110(c); and (3) the provision, at their cost, of public buildings or other public facilities (other than publicly owned housing and revenue producing public utilities the capital cost of which is wholly financed with local bonds or obligations payable solely out of revenues derived from service charges) which are necessary for carrying out in the area the urban renewal objectives of this title in accordance with the urban renewal plan: *Provided*, That in any case where, in the determination of the Administrator, any park, playground, public building, or other public facility is of direct benefit both to the urban renewal area and to other areas, and the approximate degree of the benefit to such other areas is estimated by the Administrator at 20 per centum or more of

the total benefits, the Administrator shall provide that, for the purpose of computing the amount of the local grants-in-aid for the project, there shall be included only such portion of the cost of such facility as the Administrator estimates to be proportionate to the approximate degree of the benefit of such facility to the urban renewal area: *Provided further, That any publicly owned facility, the construction of which was begun not earlier than three years prior to the date of enactment of the Demonstration Cities and Metropolitan Development Act of 1966, shall be deemed to benefit an urban renewal project or projects to the extent of 25 per centum of the total benefits of such facility, if such facility (A) is used, or is to be used, by the public predominately for cultural, exhibition, civic, and municipal purposes; (B) is located within, adjacent to, or in the immediate vicinity of such urban renewal project or projects; (C) is found to contribute materially to the objectives of the urban renewal plan or plans for such project or projects; and (D) is not otherwise eligible as a local grant-in-aid:*

And provided further, That for the purpose of computing the amount of local grants-in-aid under this section 110(d) with respect to any project covered by a Federal-aid contract under this title, the estimated cost (as determined by the Administrator) of parks, playgrounds, public buildings, or other public facilities may be deemed to be the actual cost thereof if (i) the construction or provision thereof is not completed at the time of final disposition of land in the project to be acquired and disposed of under the urban renewal plan, and (ii) the Administrator has received assurance satisfactory to him that such park, playground, public building, or other public facility will be constructed or completed when needed and within a time prescribed by him: And provided further, That in any case where a public facility furnished as a local grant-in-aid is financed in whole or in part by special assessments against real property in the project area acquired by the local public agency as part of the project, an amount equal to the total special assessments against such real property (or, in the case of a computation pursuant to the proviso immediately preceding, the estimated amount of such total special assessments) shall be deducted from the cost of such facility for the purpose of computing the amount of the local grants-in-aid for the project. With respect to any demolition or removal work, improvement or facility for which a State, municipality, or other public body has received or has contracted to receive any grant or subsidy from the United States, or any agency or instrumentality thereof, the portion of the cost thereof defrayed or estimated by the Administrator to be defrayed with such subsidy or grant shall not be eligible for inclusion as a local grant-in-aid.

Notwithstanding any other provision of this subsection, no donation or provision of a public improvement or public facility of a type falling within the purview of this subsection shall be deemed to be ineligible as a local grant-in-aid for any project solely on the basis that the construction of such improvement or facility was commenced without notification to the Administrator or prior to Federal recognition of such project, if such construction was commenced not more than three years prior to the authorization by the Administrator of a contract for loan or capital grant for the project.

Where a project in any municipality includes an area affected by an underground mine fire or by a coal mine subsidence and where it is necessary in such project to remove any underlying coal deposits in

order to stabilize the soil or to control the underground mine fire, then any royalties received by the project from the removal and sale of such coal deposits shall be credited to the project as a local grant-in-aid made by such municipality.

* * * * *

TITLE V—FARM HOUSING

SEC. 501. (a) The Secretary of Agriculture (hereinafter referred to as the "Secretary") is authorized, subject to the terms and conditions of this title, to extend financial assistance, through the Farmers Home Administration, (1) to owners of farms in the United States and in Puerto Rico and the Virgin Islands, to enable them to construct, improve, alter, repair, or replace dwellings and other farm buildings on their farms, and to purchase [previously occupied] buildings and land constituting a minimum adequate site, in order to provide them, their tenants, lessees, share croppers, and laborers with decent, safe, and sanitary living conditions and adequate farm buildings as specified in this title, and (2) to owners of other real estate in rural areas for the construction, improvement, alteration, or repair of dwellings, related facilities, and farm buildings and to rural residents for such purposes and for the purchase of [previously occupied] buildings and the purchase of land constituting a minimum adequate site, in order to enable them to provide dwelling and related facilities for their own use and buildings adequate for their farming operations, and (3) to elderly persons who are or will be the owners of land in rural areas for the construction, improvement, alteration, or repair of dwellings and related facilities, the purchase of [previously occupied] dwellings and related facilities and the purchase of land constituting a minimum adequate site, in order to provide them with adequate dwellings and related facilities for their own use.

* * * * *

LOANS FOR HOUSING AND BUILDINGS ON ADEQUATE FARMS

SEC. 502. (a) If the Secretary determines that an applicant is eligible for assistance as provided in section 501 and that the applicant has the ability to repay in full the sum to be loaned, with interest, giving due consideration to the income and earning capacity of the applicant and his family from the farm and other sources, and the maintenance of a reasonable standard of living for the owner and the occupants of said farm, a loan may be made by the Secretary to said applicant for a period of not to exceed thirty-three years from the making of the loan with interest, in the case of applicants described in clauses (1) and (2) of section 501(a), at a rate not to exceed 5 per centum per annum on the unpaid balance of principal, and, in the case of applicants described in clause (3) of section 501(a) and applicants under sections 503 and 504, at a rate not to exceed 4 per centum per annum on such unpaid balance. Loans made or insured under this title shall be conditioned on the borrower paying such fees and other charges as the Secretary may require. [In cases of applicants who are elderly persons, the] *The* Secretary may accept the personal liability of any person with adequate repayment ability who will cosign the applicant's note to compensate for any deficiency in the applicant's repayment ability.

* * * * *

OTHER SPECIAL LOANS AND GRANTS FOR MINOR IMPROVEMENTS
TO FARM HOUSING AND BUILDINGS

SEC. 504. (a) In the event the Secretary determines that an eligible applicant cannot qualify for a loan under the provisions of sections 502 and 503 and that repairs or improvements should be made to a farm dwelling occupied by him, in order to make such dwelling safe and sanitary and remove hazards to the health of the occupant, his family, or the community, and that repairs should be made to farm buildings in order to remove hazards and make such buildings safe, the Secretary may make a grant or a combined loan and grant, to the applicant to cover the cost of improvements or additions, such as repairing roofs, providing toilet facilities, providing a convenient and sanitary water supply, supplying screens, repairing or providing structural supports, or making other similar repairs or improvements. No assistance shall be extended to any one individual under this subsection in the form of a loan, grant or combined loan and grant in excess of **[\$1,000]** \$1,500. Any portion of the sums advanced to the borrower treated as a loan shall be secured and be repayable in accordance with the principles and conditions set forth in this title. Sums made available by grant may be made subject to the conditions set out in this title for the protection of the Government with respect to contributions made on loans by the Secretary.

(b) In order to encourage adequate family-size farms the Secretary may make loans under this section and section 503 to any applicant whose farm needs enlargement or development in order to provide income sufficient to support decent, safe, and sanitary housing and other farm buildings, and may use the funds made available under clause (b) of section 513 for such purposes.

* * * * *

DIRECT AND INSURED LOANS TO PROVIDE HOUSING AND RELATED
FACILITIES FOR ELDERLY PERSONS AND FAMILIES IN RURAL AREAS

SEC. 515. (a) The Secretary is authorized to make loans to private nonprofit corporations and consumer cooperatives to provide rental or cooperative housing and related facilities for elderly persons and elderly families of low or moderate income or other persons and families of low income in rural areas, in accordance with terms and conditions substantially identical with those specified in section 502; except that—

- (1) no such loan shall exceed the development cost or the value of the security, whichever is less;
- (2) such loans shall bear interest at rates determined by the Secretary, not to exceed the maximum rate provided in section 202(a)(3) of the Housing Act of 1959; and
- (3) such a loan may be made for a period of up to fifty years from the making of the loan.

There is authorized to be appropriated not to exceed \$50,000,000, which shall constitute a revolving fund to be used by the Secretary in carrying out this subsection.

(b) The Secretary is authorized to insure and make commitments to insure loans made to any individual, corporation, association, trust, or partnership to provide rental or cooperative housing and related facilities for elderly persons and elderly families or other persons and families of moderate income in rural areas, in accordance with terms

and conditions substantially identical with those specified in section 502; except that—

(1) no such loan shall exceed \$300,000 or the development cost or the value of the security, whichever is least;

(2) such loans shall bear interest at rates determined by the Secretary, not to exceed the maximum rate provided in section 203(b)(5) of the National Housing Act;

(3) provide for complete amortization by periodic payments within such term as the Secretary may prescribe;

(4) for insuring such loans, the Secretary shall utilize the Agricultural Credit Insurance Fund subject to all the provisions of section 309 and the second and third sentences of section 308 of the Consolidated Farmers Home Administration Act of 1961, including the authority in section 309(f)(1) of that Act to utilize the insurance fund to make, sell, and insure loans which could be insured under this subsection; but the aggregate of the principal amounts of such loans made by the Secretary and not disposed of shall not exceed \$10,000,000 outstanding at any one time; and the Secretary may take liens running to the United States though the notes may be held by other lenders; and

(5) no loan shall be insured under this subsection after October 1, 1969.

(c) No loans shall be made or insured under subsection (a) or (b) unless the Secretary finds that the construction involved will be undertaken in an economical manner and will not be of elaborate or extravagant design or materials.

(d) As used in this section—

(1) the term “housing” means new or existing housing suitable for dwelling use by [elderly persons or elderly families] *occupants eligible under this section*;

(2) the term “related facilities” includes cafeterias or dining halls, community rooms or buildings, appropriate recreation facilities, and other essential service facilities;

(3) the term “elderly persons” means persons who are 62 years of age or over; and the term “elderly families” means families the head of which (or his spouse) is 62 years of age or over; and

(4) the term “development cost” means the costs of constructing, purchasing, improving, altering, or repairing new or existing housing and related facilities and purchasing and improving the necessary land, including necessary and appropriate fees and charges approved by the Secretary. *Such fees and charges may include payments to qualified consulting organizations or foundations which operate on a nonprofit basis and which render services or assistance to nonprofit corporations or consumer cooperatives who provide housing and related facilities.*

(e) Amounts made available pursuant to section 513 of this Act shall be available for administrative expenses incurred under this section.

*

*

*

*

*

*

*

INSURED RURAL HOUSING LOANS

SEC. 517. (a) The Secretary may insure loans meeting the requirements of section 502, and may make loans in accordance with the re-

quirements of such section to be sold and insured; except that such loans shall—

(1) if the borrowers are persons of low or moderate income (as defined by the Secretary), (A) not exceed amounts necessary to provide adequate housing, modest in size, design, and cost (as determined by the Secretary, and (B) bear interest at a rate not to exceed 5 per centum per annum[, and (C) not exceed in the aggregate \$300,000,000 of new loans made or insured in any one fiscal year; and]; *but no loan under this paragraph shall be insured or made after October 1, 1969, except pursuant to a commitment entered into before that date; and*

(2) if the borrowers are persons other than those described in clause (1), bear interest and provide for insurance or service charges at rates comparable to the combined rate of interest and premium charges in effect under section 203 of the National Housing Act, as determined by the Secretary.

* * * * *

TITLE IV—HOUSING FOR EDUCATIONAL INSTITUTIONS

* * * * *

DEFINITIONS

SEC. 404. For the purposes of this title, the following terms shall have the meanings, respectively, ascribed to them below:

(a) "Housing" means (1) new structures suitable for dwelling use, including single-room dormitories and apartments, and (2) dwelling facilities provided by rehabilitation, alteration, conversion, or improvement of existing structures which are otherwise inadequate for the proposed dwelling use.

(b) "Educational institution" means (1)(A) any educational institution which offers, or provides satisfactory assurance to the Administrator that it will offer within a reasonable time after completion of a facility for which assistance is requested under this title, at least a two-year program acceptable for full credit toward a baccalaureate degree (including any public educational institution, or any private educational institution no part of the net earnings of which inures to the benefit of any private shareholder or individual), or (B) any public educational institution which (i) is administered by a college or university which is accredited by a nationally recognized accrediting agency or association, (ii) offers technical or vocational instruction, and (iii) provides residential facilities for some or all of the students receiving such instruction, (2) any hospital operating a school of nursing beyond the level of high school approved by the appropriate State authority, or any hospital approved for internships by recognized authority, if such hospital is either a public hospital or a private hospital, no part of the net earnings of which inures to the benefit of any private shareholder or individual, (3) any corporation (no part of the net earnings of which inures to the benefit of any private shareholder or individual) (A) established for the sole purpose of providing housing or other educational facilities for students or

students and faculty of one or more institutions included in clause (1) of this subsection without regard to their membership in or affiliation with any social, fraternal, or honorary society or organization, and (B) upon dissolution of which all title to any property purchased or built from the proceeds of any loan secured under this title will pass to such institution (or to any one or more of such institutions) unless it is shown to the satisfaction of the Administrator that such property or the proceeds from its sale will be used for some other nonprofit educational purpose, (4) any agency, public authority, or other instrumentality of any State established for the purpose of providing or financing housing or other educational facilities for students or faculty of any [public] educational institution included in clause (1) of this subsection, but nothing herein contained shall require an institution included in clause (1) of this subsection to obtain loans through any instrumentality included in this clause of this subsection, and (5) any nonprofit student housing cooperative corporation established for the purpose of providing housing for students or students and faculty of any institution included in clause (1) of this subsection.

In the case of any loan made under section 401 to a corporation described in clause (3) of this subsection which was not established by the institution or institutions for whose students or students and faculty it would provide housing, or to a student housing cooperative corporation described in clause (5) of this subsection, the Administrator shall require that the note securing such loan be cosigned by such institution (or by any one or more of such institutions: *Provided*, That where the law of any State in effect on the date of enactment of the Housing Act of 1964 prevents the institution or institutions, for whose students or students and faculty the housing is to be provided, from cosigning the note, the Administrator shall require the corporation and the proposed project to be approved by such institution (or by any one or more of such institutions) in lieu of such cosigning.

TITLE VII—URBAN PLANNING AND RESERVE OF PLANNED PUBLIC WORKS

URBAN PLANNING

SEC. 701. (a) In order to assist State and local governments in solving planning problems resulting from the increasing concentration of population in metropolitan and other urban areas, including smaller communities; to facilitate comprehensive planning for urban development, including coordinated transportation systems, on a continuing basis by such governments; and to encourage such governments to establish and improve planning staffs, the Administrator is authorized to make planning grants to—

(1) State planning agencies, or (in States where no such planning agency exists) to agencies or instrumentalities of State government designated by the Governor of the State and accept-

able to the Administrator as capable of carrying out the planning functions contemplated by this section, for the provision of planning assistance to (A) cities and other municipalities having a population of less than 50,000 according to the latest decennial census, and counties without regard to population: *Provided*, That grants shall be made under this paragraph for planning assistance to counties having a population of 50,000 or more, according to the latest decennial census, which are within metropolitan areas, only if (i) the Administrator finds that planning and plans for such county will be coordinated with the program of comprehensive planning, if any, which is being carried out for the metropolitan area of which the county is a part, and (ii) the aggregate amount of the grants made subject to this proviso does not exceed 15 per centum of the aggregate amount appropriated, after the date of enactment of the Housing Act of 1964, for the purposes of this section, (B) any group of adjacent communities, either incorporated or unincorporated, having a total population of less than 50,000 according to the latest decennial census and having common or related urban planning problems, (C) cities, other municipalities, and counties, referred to in paragraph (3) of this subsection and areas referred to in paragraph (4) of this subsection, and (D) Indian reservations;

(2) official State, metropolitan, and regional planning agencies, or other agencies and instrumentalities designated by the Governor (or Governors in the case of interstate planning) and acceptable to the Administrator, empowered under State or local laws or interstate compact to perform metropolitan or regional planning;

(3) cities, other municipalities, and counties which (A) are situated in areas designated by the Secretary of Commerce under section 5 of the Area Redevelopment Act as redevelopment areas or (B) have suffered substantial damage as a result of a catastrophe which the President, pursuant to section 2(a) of "An Act to authorize Federal assistance to States and local governments in major disasters, and for other purposes" has determined to be a major disaster;

(4) to official governmental planning agencies for areas where rapid urbanization has resulted or is expected to result from the establishment or rapid and substantial expansion of a Federal installation or *for areas where rapid urbanization is expected to result on land developed or to be developed as a new community approved under section 1004 of the National Housing Act*;

(5) State planning agencies for State and interstate comprehensive planning (as defined in subsection (d)) and for research and coordination activity related thereto;

(6) metropolitan and regional planning agencies, with the approval of the State planning agency or (in States where no such planning agency exists) of the Governor of the State, for the provision of planning assistance within the metropolitan area or region to cities, other municipalities, counties, groups of adjacent communities, or Indian reservations described in clauses (A), (B), (C), and (D) of paragraph (1) of this subsection;

(7) to official governmental planning agencies for any area where there has occurred a substantial reduction in employment opportunities as the result of (A) the closing (in whole or in part)

of a Federal installation, or (B) a decline in the volume of Government orders for the procurement of articles or materials produced or manufactured in such area;

(8) tribal planning councils or other tribal bodies designated by the Secretary of the Interior for planning for an Indian reservation to which no State planning agency or other agency or instrumentality is empowered to provide planning assistance under clause (D) of paragraph (1) above; and

(9) the Appalachian Regional Commission, established by the Appalachian Regional Development Act of 1965, for comprehensive planning for the Appalachian region as defined by section 403 of such Act.

Planning assisted under this section shall, to the maximum extent feasible, cover entire urban areas having common or related urban development problems. The Administrator shall encourage cooperation in preparing and carrying out plans among all interested municipalities, political subdivisions, public agencies, and other parties in order to achieve coordinated development of entire areas. To the maximum extent feasible, pertinent plans and studies already made for areas shall be utilized so as to avoid unnecessary repetition of effort and expense. Planning which may be assisted under this section includes the preparation of comprehensive urban transportation surveys, studies, and plans to aid in solving problems of traffic congestion, facilitating the circulation of people and goods in metropolitan and other urban areas and reducing transportation needs. Funds available under this section shall be in addition to and may be used jointly with funds available for planning surveys and investigations under other Federally-aided programs, and nothing contained in this section shall be construed as affecting the authority of the Secretary of Commerce under section 307 of title 23, United States Code.

(b) A planning grant made under this section shall not exceed two-thirds of the estimated cost of the work for which the grant is made: *Provided*, That such a grant may be in an amount not exceeding three-fourths of such estimated cost to an official governmental planning agency for an area described in subsection (a)(7), or for planning being carried out for a city, other municipality, county, group of adjacent communities, or Indian reservation in an area designated by the Secretary of Commerce as a redevelopment area under section 5 of the Area Redevelopment Act, (or under any Act supplementary thereto) to States participating in planning for Appalachian regional programs, for expenses incurred in the course of such planning, or to the Appalachian Regional Commission. All grants made under this section shall be subject to terms and conditions prescribed by the Administrator. No portion of any grant made under this section shall be used for the preparation of plans for specific public works. The Administrator is authorized, notwithstanding the provisions of section 3648 of the Revised Statutes, as amended, to make advance or progress payments on account of any grant made under this section. There is hereby authorized to be appropriated not exceeding \$230,000,000, to carry out the purposes of this section and any amounts so appropriated shall remain available until expended: *Provided*, That not to exceed 5 per centum of any funds so appropriated may be used by the Administrator for studies, research, and demonstration projects, undertaken independently or by contract, for the development and improvement of techniques and methods for

comprehensive planning and for the advancement of the purposes of this section, *and for grants to assist in the conduct of studies and research relating to needed revisions in State statutes which create, govern, or control local governments and local governmental operations.*

(c) The Administrator is authorized, in areas embracing several municipalities or other political subdivisions, to encourage planning on a unified metropolitan basis and to provide technical assistance for such planning and the solution of problems relating thereto.

(d) It is the further intent of this section to encourage comprehensive planning, including transportation planning, for States, cities, counties, metropolitan areas, urban regions, and Indian reservations and the establishment and development of the organizational units needed therefor. The Administrator is authorized to provide technical assistance to State and local governments and their agencies and instrumentalities, and to Indian tribal bodies, undertaking such planning and, by contract or otherwise, to make studies and publish information on related problems. In extending financial assistance under this section, the Administrator may require such assurances as he deems adequate that the appropriate State and local agencies are making reasonable progress in the development of the elements of comprehensive planning. Comprehensive planning, as used in this section, includes the following, to the extent directly related to urban needs: (1) preparation, as a guide for long-range development, of general physical plans with respect to the pattern and intensity of land use and the provision of public facilities, including transportation facilities, together with long-range fiscal plans for such development; (2) programming of capital improvements based on a determination of relative urgency, together with definitive financing plans for the improvements to be constructed in the earlier years of the program; (3) coordination of all related plans of the departments or subdivisions of the government concerned; (4) intergovernmental coordination of all related planned activities among the State and local governmental agencies concerned; and (5) preparation of regulatory and administrative measures in support of the foregoing.

(e) In the exercise of his function of encouraging comprehensive planning by the States, the Administrator shall consult with those officials of the Federal Government responsible for the administration of programs of Federal assistance to the States and municipalities for various categories of public facilities.

(f) The consent of the Congress is hereby given to any two or more States to enter into agreements or compacts, not in conflict with any law of the United States, for cooperative efforts and mutual assistance in the comprehensive planning for the physical growth and development of interstate, metropolitan, or other urban areas, and to establish such agencies, joint or otherwise, as they may deem desirable for making effective such agreements and compacts.

(g) In addition to the planning grants authorized by subsection (a), the Administrator is further authorized to make grants to organizations composed of public officials whom he finds to be representative of the political jurisdictions within a metropolitan area or urban region for the purpose of assisting such organizations to undertake studies, collect data, develop regional plans and programs, and engage in such other activities as the Administrator finds necessary or desirable for the solution of the metropolitan or regional problems in such areas or regions. To the maximum extent feasible, all grants under this sub-

section shall be for activities relating to all the developmental aspects of the total metropolitan area or, urban region, including, but not limited to, land use, transportation, housing, economic development, natural resources development, community facilities, and the general improvement of living environments. A grant under this subsection shall not exceed two-thirds of the estimated cost of the work for which the grant is made.

(h) *In addition to the other grants authorized by this section, the Secretary is authorized to make grants to assist any city, other municipality, or county in making a survey of the structures and sites in such locality which are determined by its appropriate authorities to be of historic or architectural value. Any such survey shall be designed to identify the historic structures and sites in the locality, determine the cost of their rehabilitation or restoration, and provide such other information as may be necessary or appropriate to serve as a foundation for a balanced and effective program of historic preservation in such locality. The aspects of any such survey which relate to the identification of historic and architectural values shall be conducted in accordance with criteria found by the Secretary to be comparable to those used in establishing the National Register maintained by the Secretary of the Interior under other provisions of law; and the results of each such survey shall be made available to the Secretary of the Interior. A grant under this subsection shall not exceed two-thirds of the cost of the survey for which it is made, and shall be made to the appropriate agency or entity specified in paragraphs (1) through (9) of subsection (a) or, if there is no such agency or entity which is qualified and willing to receive the grant and provide for its utilization in accordance with this subsection, directly to the city, other municipality, or county involved.*

MORTGAGE INSURANCE

SEC. 102. * * *

* * * * *

(h) In the performance of, and with respect to, the functions, powers, and duties vested in him by section 213 of the National Housing Act, [as amended, the Commissioner,] *section 221(d)(3) of the National Housing Act, and section 101 of the Housing and Urban Development Act of 1965 (insofar as the provisions of such sections relate to cooperative housing), the Secretary of Housing and Urban Development notwithstanding the provisions of any other law, shall appoint a Special Assistant for Cooperative Housing, and provide the Special Assistant with adequate staff, whose sole responsibility will be to expedite operations under such [section] sections and to eliminate obstacles to the full utilization of such [section] sections under the direction and supervision of the Commissioner. The person so appointed shall be fully sympathetic with the purposes of such [section] sections.*

* * * * *

FEDERAL LOANS

SEC. 202. (a) * * *

(b) The powers granted in subsection (a) of this section shall be subject to the following restrictions and limitations:

(1) No financial assistance shall be extended under this section unless the financial assistance applied for is not otherwise available on reasonable terms, and all securities and obligations purchased and all loans made under this section shall be of such sound value or so secured as reasonably to assure retirement or repayment, and such loans may be made either directly or in cooperation with banks or other lending institutions through agreements to participate or by the purchase of participations or otherwise.

(2) No securities or obligations shall be purchased, and no loans shall be made, including renewals or extensions thereof, which have maturity dates in excess of forty years. Subject to such maximum maturity, the Administrator in his discretion may provide for the postponement of the payment of interest on not more than 50 per centum of any financial assistance extended to an applicant under this section for a period up to ten years where (A) such assistance does not exceed 50 per centum of the development cost of the project involved, and (B) it is determined by the Administrator that such applicant will experience above-average population growth and the project would contribute to orderly community development, economy, and efficiency; and any amounts so postponed shall be payable with interest in annual installments during the remaining maturity of such assistance.

(3) Financial assistance extended under this section shall bear interest at a rate determined by the Administrator which shall be not more than the higher of (A) 3 per centum per annum, or (B) the total on one-half of 1 per centum per annum added to the rate of interest paid by the Administrator on funds obtained from the Secretary of the Treasury as provided in section 203(a).

(4) No financial assistance shall be extended under clause (1) of subsection (a) of this section (A) to any municipality or other political subdivision having a population of fifty thousand or more (one hundred fifty thousand or more in the case of a community situated in an area designated as a redevelopment area under the Area Redevelopment Act or any Act supplementary thereto) according to the most recent decennial census, or; (B) to any public agency or instrumentality serving one or more municipalities, political subdivisions, or unincorporated areas in one or more States, unless each municipality, political subdivision, or unincorporated area to be served by the specific public work or facility for which assistance is sought under this section has a population less than the applicable figure under clause (A) according to such census. This paragraph shall not apply to any financial assistance to be extended under subsection (a) of this section for the purpose of financing any project for public works or facilities (i) in a community in or near which is located a research or development installation of the National Aeronautics and Space Administration, or (ii) to be initiated or accelerated as the result of a grant-in-aid from an allocation made by the President under section 9 of the Public Works Acceleration Act, or (iii) *to be provided in connection with the establishment of a new community approved under section 1004 of the National Housing Act.*

*

*

*

*

*

*

*

(f) *The restrictions and limitations set forth in subsection (c) of this section shall not apply to assistance to municipalities, other political subdivisions and instrumentalities of one or more States, and Indian tribes, for specific projects for cultural centers, including but not limited to, museums, art centers and galleries, and theaters and other physical facilities for the performing arts, which would be of cultural, educational, and informational value to the communities and areas where the centers would be located.*

HOUSING ACT OF 1961

[Public Law 87-70]

* * * * *

[TITLE VII—OPEN SPACE LAND AND URBAN BEAUTIFICATION AND IMPROVEMENT]

TITLE VII—OPEN-SPACE LAND, URBAN BEAUTIFICATION, AND HISTORIC PRESERVATION

FINDINGS AND PURPOSE

SEC. 701. (a) The Congress finds that a combination of economic, social, governmental, and technological forces have caused a rapid expansion of the Nation's urban areas, which has created critical problems of service and finance for all levels of government and which, combined with a rapid population growth in such areas, threatens severe problems of urban and suburban living, including the loss of valuable open-space land in such areas, for the preponderant majority of the Nation's present and future population.

(b) The Congress further finds that there is an urgent need both for the additional provision of parks and other open-space areas in the developed portions of the Nation's urban areas, *for the development and redevelopment of existing parks and other open space*, and for greater and better coordinated local efforts to beautify and improve open space and other public land throughout urban areas to facilitate their increased use and enjoyment by the Nation's urban population.

(c) *The Congress further finds that there is a need for timely action to preserve and restore areas, sites, and structures of historic or architectural value in order that these remaining evidences of our past history and heritage shall not be lost or destroyed through the expansion and development of the Nation's urban areas.*

[(c)] (d) It is the purpose of this title to help curb urban sprawl and prevent the spread of urban blight and deterioration, to encourage more economic and desirable urban development, *to assist in preserving areas and properties of historic or architectural value*, and to help provide necessary recreational, conservation, and scenic areas by assisting State and local governments in taking prompt action to (1) provide, preserve, and develop open-space land which is essential to the proper long-range development and welfare of the Nation's urban areas, in accordance with plans for the allocation of such land for open-space uses, [and (2)] (2) *acquire, improve, and restore areas, sites, and structures of historic or architectural value*, and (3) beautify and improve open-space and other public urban land, in accordance with programs

to encourage and coordinate local public and private efforts toward this end.

GRANTS FOR PRESERVATION AND DEVELOPMENT OF OPEN-SPACE LAND

SEC. 702. (a) In order to encourage and assist in the timely acquisition and development of land to be used as permanent open-space land, as defined herein, the Housing and Home Finance Administrator (hereinafter referred to as the "Administrator") is authorized to enter into contracts to make grants to States and local public bodies to help finance the acquisition of title to, or other permanent interests in, such land, and the development, for open-space uses, of land acquired under this title, *or the development or redevelopment, for open-space uses, of existing open-space land.* The amount of any such grant shall not exceed 50 per centum of the total cost, as approved by the Administrator, of such acquisition and development *or such development or redevelopment.* The faith of the United States is pledged to the payment of all grants contracted for under this title.

(b) The Administrator may enter into contracts to make grants under this title aggregating not to exceed \$310,000,000: *Provided,* That of such sum the Administrator may contract to make grants under section 705 aggregating not to exceed \$64,000,000, and grants under section 706 aggregating not to exceed \$36,000,000. There are hereby authorized to be appropriated, out of any moneys in the Treasury not otherwise appropriated, the amounts necessary to provide for the payment of such grants as well as to carry out all other purposes of this title. All funds so appropriated shall remain available until expended.

(c) No grants under this title shall be used to defray ordinary State or local governmental expenses, or to help finance the acquisition by a public body of land located outside the urban area for which it exercises (or participates in the exercise of) responsibilities consistent with the purpose of this title.

(d) The Administrator may set such further terms and conditions for assistance under this title as he determines to be desirable.

[(e) The Administrator shall consult with the Secretary of the Interior on the general policies to be followed in reviewing applications for grants. To assist the Administrator in such review, the Secretary of the Interior shall furnish him appropriate information on the status of recreational planning for the areas to be assisted with the grants. The Administrator shall provide current information to the Secretary from time to time on significant program developments.]

(e) The Secretary shall consult with the Secretary of the Interior on the general policies to be followed in reviewing applications for grants under this title. To assist the Secretary in such review, the Secretary of the Interior shall furnish him (1) appropriate information on the status of national and statewide recreation and historic preservation planning as it affects the areas to be assisted with such grants, and (2) the current listing of any districts, sites, buildings, structures, and objects significant in American history, architecture, archeology, and culture which may be contained on a National Register maintained by the Secretary of the Interior pursuant to other provisions of law. The Secretary shall provide current information to the Secretary of the Interior from time to time on significant program developments.

* * * * *

GRANTS FOR URBAN BEAUTIFICATION AND IMPROVEMENT

SEC. 706. The Administrator is authorized to enter into contracts to make grants, as herein provided, to States and local public bodies to assist in carrying out local programs for the greater use and enjoyment of open-space and other public land in urban areas. The Administrator shall establish criteria for such programs to assure that each program (1) represents significant and effective efforts, involving all available public and private resources, for the beautification of such land and its improvement for open-space uses; and (2) is important to the comprehensively planned development of the locality. Grants made under this section shall not exceed 50 per centum of the amount by which the cost of the activities carried on by an applicant during a fiscal year under an approved program exceeds its usual expenditures for comparable activities [Provided, That, notwithstanding any other provision of this section, the Administrator may use not to exceed \$5,000,000 of the sum authorized for contracts under this section for the purpose of entering into contracts to make grants in amounts not to exceed 90 per centum of the cost of activities which he determines have special value in developing and demonstrating new and improved methods and materials for use in carrying out the purposes of this section].

* * * * *

TECHNICAL ASSISTANCE, STUDIES, AND PUBLICATION OF INFORMATION

SEC. 708. (a) In order to carry out the purpose of this title the Administrator is authorized to provide technical assistance to State and local public bodies and to undertake such studies and publish such information, either directly or by contract, as he shall determine to be desirable.

(b) The Administrator is authorized to use during any fiscal year not to exceed \$50,000 of the funds available for grants under this title to undertake such studies and publish such information. Nothing contained in this section shall limit any authority of the Administrator under any other provision of law.

(c) *Notwithstanding any other provision of this title, the Secretary may use not to exceed \$10,000,000 of the sum authorized for contracts under this title for the purpose of entering into contracts to make grants in amounts not to exceed 90 per centum of the cost of activities which he determines have special value in developing and demonstrating new and improved methods and materials for use in carrying out the purposes of this title.*

GRANTS FOR HISTORIC PRESERVATION

SEC. 709. *The Secretary is authorized to enter into contracts to make grants to States and local public bodies to assist in the acquisition of title to or other permanent interests in areas, sites, and structures of historic or architectural value in urban areas, and in their restoration and improvement for public use and benefit, in accord with the comprehensively planned development of the locality. The amount of any such grant shall not exceed 50 per centum of the total cost, as approved by the Secretary, of the assisted activities. The remainder of such cost shall be provided from non-Federal sources.*

DEFINITIONS

- SEC. [709] 710. As used in this title—
- (1) The term “open-space land” means any undeveloped or predominantly undeveloped land in an urban area which has value for (A) park and recreational purposes, (B) conservation of land and other natural resources, or (C) historic or scenic purposes.
- (2) The term “urban area” means any area which is urban in character, including those surrounding areas which, in the judgment of the Administrator form on economic and socially related region, taking into consideration such factors as present and future population trends and patterns of urban growth, location of transportation facilities and systems, and distribution of industrial, commercial, residential, governmental, institutional, and other activities.
- (3) The term “State” means any of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, and Guam.
- (4) The term “open-space uses” means any use of open-space land for (A) park and recreational purposes, (B) conservation of land and other natural resources, or (C) historic or scenic purposes.

HOUSING ACT OF 1964

[Public Law 88-560]

* * * * *

TITLE III—URBAN RENEWAL

* * * * *

[REHABILITATION LOANS] LOANS FOR REHABILITATION OR HISTORIC PRESERVATION

SEC. 312.(a) (1) To assist rehabilitation in an urban renewal area or an area in which a program of concentrated code enforcement activities is being carried out pursuant to section 117 of the Housing Act of 1949 and thereby reduce the need for demolition and removal of structures, the Housing and Home Finance Administrator is hereby authorized, through the utilization of local public and private agencies where feasible, to make loans as herein provided to the owners or tenants of property in such area to finance rehabilitation required to make the property conform to applicable code requirements or to carry out the objectives of the urban renewal plan for the area. [No loan shall be made under this section unless the Administrator finds (1) that the applicant is unable to secure the necessary funds from other sources upon comparable terms and conditions, and (2) the loan is an acceptable risk taking into consideration the need for the rehabilitation, the security available for the loan, and the ability of the applicant to repay the loan.]

(2) To assist in the preservation of historic structures both within and outside of urban renewal areas, the Secretary is also authorized under this section to make loans to the owners or tenants of structures which are determined in accordance with regulations prescribed by him to be of historic or architectural value to finance the rehabilitation or restoration of such structures, and to make loans to other persons to finance the

acquisition and rehabilitation or restoration by them of structures which are determined in accordance with such regulations to be of historic or architectural value.

(3) *No loan shall be made under this section unless the Secretary finds (A) that the applicant is unable to secure the necessary funds from other sources upon comparable terms and conditions, and (B) the loan is an acceptable risk, taking into consideration the security available for the loan, the ability of the applicant to repay the loan, and the need for the rehabilitation or restoration involved.*

(4) *Nothing in this section shall prevent a person from receiving a loan under this section with respect to property in connection with which he receives a grant under section 115 of the Housing Act of 1949, if and to the extent that such person is otherwise eligible to receive such loan under this section.*

(b) For the purposes of this section—

(1) the term “rehabilitation” means the improvement or repair of a structure or facilities in connection with a structure, and may include the provision of such sanitary or other facilities as are required by applicable codes [or the urban renewal plan] *or the urban renewal plan, if any to be provided by the owner or tenant of the property;*

(2) the term “urban renewal area” means a slum area or a blighted, deteriorated, or deteriorating area as defined in section 110(a) of the Housing Act of 1949;

(3) the term “tenant” means a person or organization who is occupying a structure under a lease having a period to run at the time a [rehabilitation loan] *loan is made under this section of not less than the term of the loan; and*

(4) the term “Administrator” means the Housing and Home Finance Administrator.

(c) A [rehabilitation loan] *loan made under this section shall be subject to the following limitations:*

(1) *The loan shall be subject to such terms and conditions as may be prescribed by the Administrator.*

(2) *The term of the loan may not exceed twenty years or three-fourths of the remaining economic life of the structure after rehabilitation, whichever is less.*

(3) *The loan shall bear interest at such rate as the Administrator determines to be appropriate but not to exceed 3 per centum per annum of the amount of the principal outstanding at any time, and the Administrator may prescribe such other charges as he finds necessary, including service charges and appraisal, inspection, and other fees.*

(4) *The amount of the loan may not exceed—*

(A) *in the case of residential property, the amount of a loan which could be insured by the Federal Housing Commissioner under section 220 (h) of the National Housing Act: Provided, That, within the limitations otherwise applicable on the amount of a loan under such section the loan may exceed [the cost of rehabilitation] the cost of rehabilitation, restoration, or acquisition and restoration in order to include an amount approved by the Administrator to refinance existing indebtedness secured by such property if such refinancing is necessary to enable the applicant to amortize, with a monthly payment of not more*

than 20 per centum of his average monthly income, such loan and any other indebtedness secured by his property; and

(B) in the case of nonresidential property, whichever of the following is the least: \$50,000, or [the cost of rehabilitation] *the cost of rehabilitation, restoration, or acquisition and restoration* or an amount which when added to any outstanding indebtedness related to the property securing the loan creates a total outstanding indebtedness that the Administrator determines could be reasonably secured by a first mortgage on the property

(5) A loan shall be secured as determined by the Administrator.

(d) There is authorized to be appropriated not to exceed \$100,-000,000 for each fiscal year which shall constitute a revolving fund to be used by the Administrator in carrying out this section. All moneys in such revolving fund shall be available for necessary expenses of serving loans made pursuant to this section, including reimbursement or payment for services and facilities of the Federal National Mortgage Association and of any public or private agency for the servicing of such loans.

(e) In the performance of, and with respect to, the functions, powers, and duties vested in him by this section, the Administrator shall have (in addition to any authority otherwise vested in him) the functions, powers, and duties set forth in section 402 of the Housing Act of 1950 (except subsection (c)(2)).

(f) The Administrator is authorized to delegate to or use as his agent any Federal or local public or private agency or organization to the extent he determines appropriate and desirable to carry out the objectives of this section in the area involved.

(g) The Administrator is authorized to issue such rules and regulations and impose such requirements and conditions (in addition to those specified in this section) as he determines to be desirable to carry out the objectives of this section, including limitations on the amount of a loan and restrictions on the use of the property involved.

(h) No loan shall be made under the authority of this section after October 1, 1969, except pursuant to a contract, commitment, or other obligation entered into pursuant to this section before that date.

* * * * *

HOUSING AND URBAN DEVELOPMENT ACT OF 1965

[Public Law 89-117]

TITLE I—SPECIAL PROVISIONS FOR DISADVANTAGED PERSONS

* * * * *

DIRECT LOANS TO PROVIDE HOUSING FOR THE ELDERLY OR HANDICAPPED

SEC. 105. (a) Section 202(a)(4) of the Housing Act of 1959 is amended by striking out “\$350,000,000” and inserting in lieu thereof “\$500,000,000”.

(b)(1) [Effective with respect to loans made on or after the date of the enactment of this Act, section] *Section* 202 (a)(3) of such Act is amended by striking out “the higher of (A) 2¾ per centum per annum, or” and inserting in lieu thereof “the lower of (A) 3 per centum per annum, or”.

(2) The interest rate provided by the amendment made in paragraph (1) shall be applicable (A) with respect to any loan made on or after August 10, 1965, and (B) with respect to any loan made prior to such date if construction of the housing or related facilities to be assisted by such loan was not commenced prior to such date, and not completed prior to the filing of an application for the benefits of such interest rate.

* * * * *

**[MORTGAGE RELIEF FOR HOMEOWNERS WHO ARE UNEMPLOYED AS THE
RESULT OF THE CLOSING OF A FEDERAL INSTALLATION]**

[SEC. 107. (a) For the purposes of this section—

[(1) The term “mortgage” means a mortgage which (A) is insured under the National Housing Act, or (B) secures a home loan guaranteed or insured under the Servicemen’s Readjustment Act of 1944 or chapter 37 of title 38, United States Code.

[(2) The term “Federal mortgage agency” means—

[(A) the Federal Housing Commissioner when used in connection with mortgages insured under the National Housing Act, and

[(B) the Administrator of Veterans’ Affairs when used in connection with mortgages securing home loans guaranteed or insured under the Servicemen’s Readjustment Act of 1944 or chapter 37 or title 38, United States Code.

[(3) The term “distressed mortgagor” means an individual who—

[(A) is unemployed, although willing to work, as the result of the closing (in whole or in part) of a Federal installation, and

[(B) is the owner-occupant of a dwelling upon which there is a mortgage securing a loan which is in default because of the inability of such individual to make payments of principal and/or interest under such mortgage.

[(b)(1) Any distressed mortgagor, for the purpose of avoiding foreclosure of his mortgage, may apply to the appropriate Federal mortgage agency for a determination that suspension of his obligation to make payments of principal and/or interest under such mortgage during a temporary period is necessary in order to avoid such foreclosure.

[(2) Upon receipt of an application made under this subsection by a distressed mortgagor, the Federal mortgage agency shall issue to such mortgagor a certificate of moratorium if it determines, after consultation with the interested mortgagee, that—

[(A) the mortgagor is not in default with respect to any condition or covenant of the mortgage other than that requiring the payment of installments of principal and/or interest under the mortgage, and

[(B) such action is the only available means whereby a foreclosure of such mortgage can be avoided.

[(3) Prior to the issuance to any distressed mortgagor of a certificate of moratorium under paragraph (2), the Federal mortgage agency shall require such mortgagor to enter into a binding agreement under which he will be required to make payments to such agency, after the expiration of such certificate, in an aggregate amount equal to the amount paid by such agency on behalf of such mortgagor as provided in subsection (c). The manner and time in which such payments shall

be made shall be determined by the Federal mortgage agency having due regard to the purposes sought to be achieved by this section.

[(4) Any certificate of moratorium issued under this subsection shall expire on whichever of the following dates is the earliest—

[(A) one year from the date on which such certificate is issued;

[(B) thirty days after the date on which the mortgagor to whom such certificate is issued ceases to be a distressed mortgagor as defined in subsection (a); or

[(C) the date on which such mortgagor becomes in default with respect to any condition or covenant in his mortgage other than that requiring the payment by him of installments of principal and/or interest under the mortgage.

[(c)(1) Whenever a Federal mortgage agency issues a certificate of moratorium to any distressed mortgagor with respect to any mortgage, it shall transmit to the mortgagee a copy of such certificate, together with a notice stating that, while such certificate is in effect, such agency will assume the obligation of such mortgagor to make payments of principal, and, if so specified in the certificate, of interest, under the mortgage.

[(2) Payments made by any Federal mortgage agency pursuant to a certificate of moratorium issued under this section with respect to the mortgage of any distressed mortgagor shall include, in addition to the payments referred to in paragraph (1), an amount equal to the unpaid principal and interest charges which had accrued under such mortgage prior to the issuance of such certificate and subsequent to the date on which such mortgagor became a distressed mortgagor as defined in subsection (a).

[(3) While any certificate of moratorium issued under this section is in effect with respect to the mortgage of any distressed mortgagor, no further payments of principal, and, if so specified in the certificate, of interest, under the mortgage shall be required of such mortgagor, and no action (legal or otherwise) shall be taken or maintained by the mortgagee to enforce or collect such payments. Upon the expiration of such certificate, the mortgagor shall again be liable for the payment of all amounts due under the mortgage in accordance with its terms.

[(4) Each Federal mortgage agency shall give prompt notice in writing to the interested mortgagor and mortgagee of the expiration of any certificate of moratorium issued by it under this section.

[(d) The Federal mortgage agencies are authorized to issue such individual and joint regulations as may be necessary to carry out this section and to insure the uniform administration thereof.

[(e) There shall be in the Treasury (1) a fund which shall be available to the Federal Housing Commissioner for the purpose of extending financial assistance in behalf of distressed mortgagors as provided in subsection (c), and (2) a fund which shall be available to the Administrator of Veterans' Affairs for the same purpose. The capital of each such fund shall consist of such sums as may, from time to time, be appropriated thereto, and any sums so appropriated shall remain available until expended. Receipts arising from the programs of assistance under subsection (c) shall be credited to the fund from which such assistance was extended. Moneys in either of such funds not needed for current operations, as determined by the Federal Housing Commissioner, or the Administrator of Veterans' Affairs, as the case may be, shall be invested in bonds or other obligations of the United States, or paid into the Treasury as miscellaneous receipts.]

MORTGAGE RELIEF FOR CERTAIN HOMEOWNERS

SEC. 107. (a) For the purposes of this section—

(1) The term "mortgage" means a mortgage which (A) is insured under the National Housing Act, or (B) secures a home loan guaranteed or insured under the Servicemen's Readjustment Act of 1944 or chapter 37 of title 38, United States Code.

(2) The term "Federal mortgage agency" means—

(A) the Secretary of Housing and Urban Development when used in connection with mortgages insured under the National Housing Act, and

(B) the Administrator of Veterans' Affairs when used in connection with mortgages securing home loans guaranteed or insured under the Servicemen's Readjustment Act of 1944 or chapter 37 of title 38, United States Code.

(3) The term "distressed mortgagor" means an individual who—

(A) was employed by the Federal Government at, or was assigned as a serviceman to, a military base or other Federal installation and whose employment or service at such base or installation was terminated subsequent to November 1, 1964, as the result of the closing (in whole or in part) of such base or installation; and

(B) is the owner-occupant of a dwelling situated at or near such base or installation and upon which there is a mortgage securing a loan which is in default because of the inability of such individual to make payments due under such mortgage.

(b)(1) Any distressed mortgagor, for the purpose of avoiding foreclosure of his mortgage, may apply to the appropriate Federal mortgage agency for a determination that suspension of his obligation to make payments due under such mortgage during a temporary period is necessary in order to avoid such foreclosure.

(2) Upon receipt of an application made under this subsection by a distressed mortgagor, the Federal mortgage agency shall issue to such mortgagor a certificate of moratorium if it determines, after consultation with the interested mortgagee, that such action is necessary to avoid foreclosure.

(3) Prior to the issuance to any distressed mortgagor of a certificate of moratorium under paragraph (2), the Federal mortgage agency, the mortgagor, and the mortgagee shall enter into a binding agreement under which—

(A) the mortgagor will be required to make payments to such agency, after the expiration of such certificate, in an aggregate amount equal to the amount paid by such agency on behalf of such mortgagor as provided in subsection (c), together with interest thereon at a rate not to exceed the rate provided in the mortgage; the manner and time in which such payments shall be made to be determined by the Federal mortgage agency having due regard for the purposes sought to be achieved by this section; and

(B) the Federal mortgage agency will be subrogated to the rights of the mortgagee to the extent of payments made pursuant to such certificate, which rights, however, shall be subject to the prior right of the mortgagee to receive the full amount payable under the mortgage.

(4) Any certificate of moratorium issued under this subsection shall expire on whichever of the following dates is the earliest—

(A) two years from the date on which such certificate was issued;

(B) thirty days after the date on which the mortgagor gives notice in writing to the Federal mortgage agency that he is able to resume his obligation to make payments due under his mortgage; or

(C) thirty days after the date on which the Federal mortgage agency determines that the mortgagor to whom such certificate was issued has ceased to be a distressed mortgagor as defined in subsection (a)(3).

(c)(1) Whenever a Federal mortgage agency issues a certificate of moratorium to any distressed mortgagor with respect to any mortgage, it shall transmit to the mortgagee a copy of such certificate, together with a notice stating that, while such certificate is in effect, such agency will assume the obligation of such mortgagor to make payments due under the mortgage.

(2) Payments made by any Federal mortgage agency pursuant to a certificate of moratorium issued under this section with respect to the mortgagee of any distressed mortgagor may include, in addition to the payments referred to in paragraph (1), an amount equal to the unpaid payments under such mortgage prior to the issuance of such certificate, plus a reasonable allowance for foreclosure costs, actually paid by the mortgagee if a foreclosure action was dismissed as a result of the issuance of a moratorium certificate. Payments by the Federal mortgage agency may also include payments of taxes and insurance premiums on the mortgaged property as deemed necessary when these items are not provided for through payments to a tax and insurance account held by the interested mortgagor.

(3) While any certificate of moratorium issued under this section is in effect with respect to the mortgage of any distressed mortgagor, no further payments due under the mortgage shall be required of such mortgagor, and no action (legal or otherwise) shall be taken or maintained by the mortgagee to enforce or collect such payments. Upon the expiration of such certificate, the mortgagor shall again be liable for the payment of all amounts due under the mortgage in accordance with its terms.

(4) Each Federal mortgage agency shall give prompt notice in writing to the interested mortgagor and mortgagee of the expiration of any certificate of moratorium issued by it under this section.

(d) The Federal mortgage agencies are authorized to issue such individual and joint regulations as may be necessary to carry out this section and to insure the uniform administration thereof.

(e) There shall be in the Treasury (1) a fund which shall be available to the Secretary of Housing and Urban Development for the purpose of extending financial assistance in behalf of distressed mortgagors as provided in subsection (c) and for paying administrative expenses incurred in connection with such assistance, and (2) a fund which shall be available to the Administrator of Veterans' Affairs for the same purpose, except administrative expenses. The capital of each such fund shall consist of such sums as may, from time to time, be appropriated thereto, and any sums so appropriated shall remain available until expended. Receipts arising from the programs of assistance under subsection (c) shall be credited to the fund from which such assistance was extended. Moneys in either of such funds not needed for current operations, as determined by the Secretary of Housing and Urban Development, or the Administrator of Veterans' Affairs, as the case may be, shall be invested in bonds or other obligations of the United States, or paid into the Treasury as miscellaneous receipts.

(f) Section 1816 of title 38, United States Code, is amended by inserting "(a)" before the text of such section, and by adding at the end thereof a new subsection as follows:

"(b) With respect to any loan made under section 1811 which has not been sold as provided in subsection (g) of such section, if the Administrator finds, after there has been a default in the payment of any installment of principal or interest owing on such loan, that the default was due to the fact that the veteran who is obligated under the loan has become unemployed as the result of the closing (in whole or in part) of a Federal installation, he shall (1) extend the time for curing the default to such time as he determines is necessary and desirable to enable such veteran to complete payments on such loan, including an extension of time beyond the stated maturity thereof, or (2) modify the terms of such loan for the purpose of changing the amortization provisions thereof by recasting, over the remaining term of the loan, or over such longer period as he may determine, the total unpaid amount then due with the modification to become effective currently or upon the termination of an agreed-upon extension of the period for curing the default."

[ACQUISITION OF CERTAIN PROPERTIES SITUATED AT OR NEAR MILITARY BASES WHICH HAVE BEEN ORDERED TO BE CLOSED

[SEC. 108. (a) The Secretary of Defense is authorized to acquire title to any property, improved with a one- or two-family dwelling, which is situated at or near a military base or installation which the Department of Defense has, subsequent to November 1, 1964, ordered to be closed in whole or in part, if he determines—

[(1) that the owner of such property is, or has been, employed or performing military service, at such base or installation;

[(2) that the closing of such base or installation, in whole or in part, has required or will require the termination of such owner's employment or service at such base or installation; and

[(3) that as the result of the actual or pending closing of such base or installation there is no present market for the sale of such property upon reasonable terms and conditions.

[(b) The purchase price of any property which is situated at or near a military base or installation and is acquired under this section shall be equal to an amount determined by the Secretary of Defense to be the average price at which properties, similar in size, construction, condition, and location to that of the property to be acquired, were sold during a representative period, as determined by the Secretary, prior to the announcement of the intention of the Department of Defense to close all or part of such base or installation.

[(c) The title to any property acquired under this section shall be free and clear of any outstanding liens or encumbrances and shall conform to such requirements as the Secretary of Defense shall by regulation require. Such regulations shall also prescribe the terms and conditions under which payments may be made under this section, and decisions by the Secretary regarding such payments, and the terms and conditions under which the same are approved or disapproved, shall be final and conclusive and shall not be subject to judicial review.

[(d) Properties acquired under this section shall be transferred to the Federal Housing Commissioner, and the Federal Housing Com-

missioner shall have power to deal with, rent, renovate, or sell for cash or credit any properties so transferred. Receipts from the management or sale of any such properties may be utilized by the Commissioner to defray expenses arising in connection with the management of such properties, and any part of such receipts not required for such expenses shall be covered into the Treasury as miscellaneous receipts.

[(e) * * *

[(f) Such sums as may be necessary to carry out the provisions of this section are hereby authorized to be appropriated, and any sums so appropriated shall remain available until expended.]

* * * * *

TITLE XI—MISCELLANEOUS

* * * * *

STUDY CONCERNING RELIEF OF HOMEOWNERS IN PROXIMITY TO AIRPORTS

SEC. 1113. (a) The Housing and Home Finance Administrator shall undertake a study to determine feasible methods of reducing the economic loss and hardship suffered by homeowners as the result of the depreciation in the value of their properties following the construction of airports in the vicinity of their homes, including a study of feasible methods of insulating such homes from the noise of aircraft. Findings and recommendations resulting from such study shall be reported to the President for transmission to The Congress at The earliest practicable date, but in no event later than [one year after the date of the enactment of this Act] *six months after the date of the enactment of the Demonstration Cities and Metropolitan Development Act of 1966.*

(b) *There is authorized to be appropriated the sum of \$100,000 to carry out subsection (a).*

* * * * *

SECTION 5136 OF THE REVISED STATUTES

SEC. 5136. Upon duly making and filing articles of association and an organization certificate a national banking association shall become, as from the date of the execution of its organization certificate, a body corporate, and as such, and in the name designated in the organization certificate, it shall have power—

* * * * *

Seventh. To exercise by its board of directors or duly authorized officers or agents, subject to law, all such incidental powers as shall be necessary to carry on the business of banking; by discounting and negotiating promissory notes, drafts, bills of exchange, and other evidences of debt; by receiving deposits; by buying and selling exchange, coin, and bullion; by loaning money on personal security; and by obtaining, issuing and circulating notes according to the provisions of this chapter. The business of dealing in securities and stock by the association shall be limited to purchasing and selling such securities and stock without recourse, solely upon the order, and for the account of, customers, and in no case for its own account, and the association shall not underwrite any issue of securities or stock: *Provided*, That the association may purchase for its own account invest-

ment securities under such limitations and restrictions as the Comptroller of the Currency may by regulation prescribe. In no event shall the total amount of the investment securities of any one obligor or maker, held by the association for its own account, exceed at any time 10 per centum of its capital stock actually paid in and unimpaired and 10 per centum of its unimpaired surplus fund, except that this limitation shall not require any association to dispose of any securities lawfully held by it on August 23, 1935. As used in this section the term "investment securities" shall mean marketable obligations, evidencing indebtedness of any person, copartnership, association, or corporation in the form of bonds, notes and/or debentures commonly known as investment securities under such further definition of the term "investment securities" as may by regulation be prescribed by the Comptroller of the Currency. Except as hereinafter provided or otherwise permitted by law, nothing herein contained shall authorize the purchase by the association for its own account of any shares of stock of any corporation. The limitations and restrictions herein contained as to dealing in, underwriting and purchasing for its account, investment securities shall not apply to obligations of the United States, or general obligations of any State or of any political subdivision thereof, or obligations issued under authority of the Federal Farm Loan Act, as amended, or issued by the thirteen banks for co-operatives of any of them or the Federal Home Loan Banks, or *obligations which are insured by the Secretary of Housing and Urban Development under title XI of the National Housing Act* or obligations which are insured by the Federal Housing Administrator pursuant to section 1713 of this title, if the debentures to be issued in payment of such insured obligations are guaranteed as to principal and interest by the United States, or obligations, participations, or other instruments of or issued by the Federal National Mortgage Association, or such obligations of any local public agency (as defined in section 1460(h) of Title 42) as are secured by an agreement between the local public agency and the Housing and Home Finance Administrator in which the local public agency agrees to borrow from said Administrator, and said Administrator agrees to lend to said local public agency monies in an aggregate amount which (together with any other monies irrevocably committed to the payment of interest on such obligations) will suffice to pay, when due, the interest on and all installments (including the final installment) of the principal of such obligations, which monies under the terms of said agreement are required to be used for such payments, or such obligations of a public housing agency (as defined in the United States Housing Act of 1937, as amended) as are secured either (1) by an agreement between the public housing agency and the Public Housing Administration in which the public housing agency agrees to borrow from the Public Housing Administration and the Public Housing Administration agrees to lend to the public housing agency, prior to the maturity of such obligations (which obligations shall have a maturity of not more than eighteen months), monies in an amount which (together with any other monies irrevocably committed to the payment of interest on such obligations) will suffice to pay the principal of such obligations with interest to maturity thereon, which monies under the terms of said agreement are required to be used for the purpose of paying the principal of and the interest on such obligations at their maturity, or (2) by a pledge of annual contributions under an annual contributions

contract between such public housing agency and the Public Housing Administration if such contract shall contain the covenant by the Public Housing Administration which is authorized by section 1421a(b) of Title 42, and if the maximum sum and the maximum period specified in such contract pursuant to section 1421a(b) of Title 42 shall not be less than the annual amount and the period for payment which are requisite to provide for the payment when due of all installments of principal and interest on such obligations: *Provided*, That in carrying on the business commonly known as the safe-deposit business the association shall not invest in the capital stock of a corporation organized under the law of any State to conduct a safe-deposit business in an amount in excess of 15 per centum of the capital stock of the association actually paid in and unimpaired and 15 per centum of its unimpaired surplus. The limitations and restrictions herein contained as to dealing in and underwriting investment securities shall not apply to obligations issued by the International Bank for Reconstruction and Development or the Inter-American Development Bank which are at the time eligible for purchase by a national bank for its own account, nor to bonds, notes and other obligations issued by the Tennessee Valley Authority: *Provided*, That no association shall hold obligations issued by any of said organizations as a result of underwriting, dealing, or purchasing for its own account (and for this purpose obligations as to which it is under commitment shall be deemed to be held by it) in a total amount exceeding at any one time 10 per centum of its capital stock actually paid in and unimpaired and 10 per centum of its unimpaired surplus fund.

* * * * *

SECTION 24 OF THE FEDERAL RESERVE ACT

LOANS ON FARM LANDS

SEC. 24. Any national banking association may make real estate loans secured by first liens upon improved real estate, including improved farmland and improved business and residential properties. A loan secured by real estate within the meaning of this section shall be in the form of an obligation or obligations secured by a mortgage, trust deed, or other instrument upon real estate, which shall constitute a first lien on real estate in fee simple or, under such rules and regulations as may be prescribed by the Comptroller of the Currency, on a leasehold under a lease which does not expire for at least 10 years beyond the maturity date of the loan, and any national banking association may purchase any obligation so secured when the entire amount of such obligation is sold to the association. The amount of any such loan hereafter made shall not exceed 50 per centum of the appraised value of the real estate offered as security and no such loan shall be made for a longer term than five years; except that (1) any such loan may be made in an amount not to exceed 66⅔ per centum of the appraised value of the real estate offered as security and for a term not longer than ten years if the loan is secured by an amortized mortgage, deed of trust, or other such instrument under the terms of which the installment payments are sufficient to amortize 40 per centum or more of the principal of the loan within a period of not more than ten years (2) any such loan may be made in an amount not to exceed 66⅔ per centum of the appraised value of the real estate

offered as security and for a term not longer than twenty years if the loan is secured by an amortized mortgage, deed of trust, or other such instrument under the terms of which the installment payments are sufficient to amortize the entire principal of the loan within a period of not more than twenty years, and (3) any such loan may be made in an amount not to exceed 80 per centum of the appraised value of the real estate offered as security and for a term not longer than twenty-five years if the loan is secured by an amortized mortgage, deed of trust, or other such instrument under the terms of which the installment payments are sufficient to amortize the entire principal of the loan within the period ending on the date of its maturity, and (4) the foregoing limitations and restrictions shall not prevent the renewal or extension of loans heretofore made and shall not apply to real estate loans which are insured under the provisions of sections 1707—1715, 1715b—1715r, 1736—1746a, 1748—1748h, 1706c of this title, or subchapter X of chapter 13 of this title or which are insured by the Secretary of Agriculture pursuant to sections 1001—1005d of title 7, or sections 590r to 590x-3 of title 16, or sections 1471—1484 of title 42, or *which are insured by the Secretary of Housing and Urban Development pursuant to title XI of the National Housing Act*, and shall not apply to real estate loans which are fully guaranteed or insured by a State, or by a State authority for the payment of the obligations of which the faith and credit of the State is pledged, if under the terms of the guaranty or insurance agreement the association will be assured of repayment in accordance with the terms of the loan. Notwithstanding the foregoing limitations and restrictions in this section, any national banking association may make loans for land development which are secured by mortgages insured under title X of the National Housing Act. No such association shall make such loans in an aggregate sum in excess of the amount of the capital stock of such association paid in an unimpaired plus the amount of its unimpaired surplus fund, or in excess of 70 per centum of the amount of its time and savings deposits, whichever is the greater. Any such association may continue hereafter as heretofore to receive time and savings deposits and to pay interest on the same, but the rate of interest which such association may pay upon such time deposits or upon savings or other deposits shall not exceed the maximum rate authorized by law to be paid upon such deposits by State banks or trust companies organized under the laws of the State in which such association is located.

Any national banking association may make real estate loans secured by first liens upon forest tracts which are properly managed in all respects. Such loans shall be in the form of an obligation or obligations secured by mortgage, trust deed, or other such instrument; and any national banking association may purchase any obligation so secured when the entire amount of such obligation is sold to the association. The amount of any such loan shall not exceed 60 per centum of the appraised fair market value of the growing timber, lands, and improvements thereon offered as security and the loan shall be made upon such terms and conditions as to assure that at no time shall the loan balance exceed 60 per centum of the original appraised total value of the property then remaining. No such loan shall be made for a longer term than three years; except that any such loan may be made for a term not longer than fifteen years if the loan is secured by an amortized mortgage, deed of trust, or other such instrument under the

terms of which the installment payments are sufficient to amortize the principal of the loan within a period of not more than fifteen years and at a rate of at least 6½ per centum per annum. All such loans secured by first liens upon forest tracts shall be included in the permissible aggregate of all real estate loans prescribed in the preceding paragraph, but no national banking association shall make forest-tract loans in an aggregate sum in excess of 50 per centum of its capital stock paid in and unimpaired plus 50 per centum of its unimpaired surplus fund.

Loans made to finance the construction of industrial or commercial buildings and having maturities of not to exceed twenty-four months where there is a valid and binding agreement entered into by a financially responsible lender to advance the full amount of the bank's loan upon completion of the buildings and loans made to finance the construction of residential or farm buildings and having maturities of not to exceed twenty-four months, shall not be considered as loans secured by real estate within the meaning of this section but shall be classed as ordinary commercial loans whether or not secured by a mortgage or similar lien on the real estate upon which the building or buildings are being constructed: *Provided*, That no national banking association shall invest in, or be liable on, any such loans in an aggregate amount in excess of 100 per centum of its actually paid-in and unimpaired capital plus 100 per centum of its unimpaired surplus fund. Notes representing loans made under this section to finance the construction of residential or farm buildings and having maturities of not to exceed nine months shall be eligible for discount as commercial paper within the terms of section 343 of this title if accompanied by a valid and binding agreement to advance the full amount of the loan upon the completion of the building entered into by an individual, partnership, association, or corporation acceptable to the discounting bank.

Loans made to established industrial or commercial businesses (a) which are in whole or in part discounted or purchased or loaned against as security by a Federal Reserve bank under the provisions of section 352a of this title, (b) for any part of which a commitment shall have been made by a Federal Reserve bank under the provisions of said section, (c) in the making of which a Federal Reserve bank participates under the provisions of said section, or (d) in which the Reconstruction Finance Corporation or the Housing and Home Finance Administrator cooperates or purchases a participation under the provisions of the Reconstruction Finance Corporation Act, as amended, or of section 1701g or 1701g—1 of this title, shall not be subject to the restrictions or limitations of this section upon loans secured by real estate. Loans in which the Small Business Administration cooperates through agreements to participate on an immediate or deferred basis under the Small Business Act shall not be subject to the restrictions or limitations of this section imposed upon loans secured by real estate. Home improvement loans which are insured under the provisions of section 1709(k) or 1715(h) of this title may be made without regard to the first lien requirements of this section.

Loans made to manufacturing and industrial businesses where the association looks for repayment out of the operations of the borrower's business, relying primarily on the borrower's general credit standing and forecast of operations, with or without other security, but wishes to take a mortgage on the borrower's real estate as a precaution

against contingencies, shall not be considered as real estate loans within the meaning of this section but shall be classed as ordinary commercial loans.

* * * * *

SECTION 304(a) OF THE TRUST INDENTURE ACT OF 1939

EXEMPTED SECURITIES AND TRANSACTIONS

SEC. 304. (a) The provisions of this title shall not apply to any of the following securities:

(1) any security other than (A) a note, bond, debenture, or evidence of indebtedness, whether or not secured, or (B) a certificate of interest or participation in any such note, bond, debenture, or evidence of indebtedness, or (C) a temporary certificate for, or guarantee of, any such note, bond, debenture, evidence of indebtedness, or certificate;

(2) any certificate of interest or participation in two or more securities having substantially different rights and privileges, or a temporary certificate for any such certificate;

(3) any security which, prior to or within six months after the enactment of this title, has been sold or disposed of by the issuer or bona fide offered to the public, but this exemption shall not apply to any new offering of any such security by an issuer subsequent to such six months;

(4) any security exempted from the provisions of the Securities Act of 1933, as heretofore amended, by paragraph (2), (3), (4), (5), (6), (7), (8), or (11) of subsection 3(a) thereof;

(5) any security issued under a mortgage indenture as to which a contract of insurance under the National Housing Act is in effect; and any such security shall be deemed to be exempt from the provisions of the Securities Act of 1933 to the same extent as though such security were specifically enumerated in section 3(a)(2) of such Act;

(6) any note, bond, debenture, or evidence of indebtedness issued or guaranteed by a foreign government or by a subdivision, department, municipality, agency, or instrumentality thereof;

(7) any guarantee of any security which is exempted by this subsection;

(8) any security which has been or is to be issued otherwise than under an indenture, but this exemption shall not be applied within a period of twelve consecutive months to more than \$250,000 aggregate principal amount of any securities of the same issuer; **[or]**

(9) any security which has been or is to be issued under an indenture which limits the aggregate principal amount or securities at any time outstanding thereunder to \$1,000,000 or less, but this exemption shall not be applied within a period of thirty-six consecutive months to more than \$1,000,000 aggregate principal amount of securities of the same issuer **[.]** ; or

(10) any security issued under a mortgage or trust deed indenture as to which a contract of insurance under title XI of the National Housing Act is in effect; and any such security shall be

deemed to be exempt from the provisions of the Securities Act of 1933 to the same extent as though such security were specifically enumerated in section 3(a)(2), as amended, of the Securities Act of 1933 (15 U.S.C. 77c(a)(2)).

In computing the aggregate principal amount of securities to which the exemptions provided by paragraphs (8) and (9) may be applied, securities to which the provisions of sections 305 and 306 would not have applied, irrespective of the provisions of these paragraphs, shall be disregarded.

SECTION 263 OF THE BANKRUPTCY ACT

SEC. 263. Nothing contained in this chapter shall be deemed to affect or apply to the creditors of any corporation under a mortgage insured pursuant to the National Housing Act and Acts amendatory thereof and supplementary thereto. *Nothing contained in this chapter shall be deemed to affect or apply to the creditors of any corporation under a mortgage insured pursuant to title XI of the National Housing Act.*

* * * * *

SECTIONS 12 AND 18 OF THE FEDERAL HOME LOAN BANK ACT

INCORPORATION OF BANKS, AND CORPORATE POWERS

SEC. 12. The directors of each Federal Home Loan Bank shall, in accordance with such rules and regulations as the board may prescribe, make and file with the board at the earliest practicable date after the establishment of such bank, an organization certificate which shall contain such information as the board may require. Upon the making and filing of such organization certificate with the board, such bank shall become, as of the date of the execution of its organization certificate, a body corporate, and as such an in its name as designated by the board it shall have power to adopt, alter, and use a corporate seal; to make contracts; to purchase or lease and hold or dispose of such real estate as may be necessary or convenient for the transaction of its business [but no bank building shall be bought or erected to house any such bank, nor shall any such bank make any lease] *but, except with the prior approval of the board, no bank building shall be bought or erected to house any such bank, or leased by such bank under any lease,* for such purpose which has a term of more than ten years; to sue and be sued, to complain, and to defend, in any court of competent jurisdiction, State, or Federal; to select, employ, and fix the compensation of such officers, employees, attorneys, and agents as shall be necessary for the transaction of its business, subject to the approval of the board; to define their duties, require bonds of them and fix the penalties thereof, and to dismiss at pleasure such officers, employees, attorneys, and agents; and, by its board of directors, to prescribe, amend, and repeal by-laws, rules, and regulations governing the manner in which its affairs may be administered; and the powers granted to it by law may be exercised and enjoyed to the approval of the board. The president of a Federal Home Loan Bank may also be a member of the board of

directors thereof, but no other officer, employee, attorney, or agent of such bank, who receives compensation, may be a member of the board of directors. Each such bank shall have all such incidental powers, not inconsistent with the provisions of this Act, as are customary and usual in corporations generally.

* * * * *

ADMINISTRATIVE EXPENSES

SEC. 18. (a) There is hereby authorized to be appropriated the sum of not to exceed \$300,000 for salaries, travel and subsistence expenses, rents, printing and binding, furniture and equipment, law books, books of reference, periodicals, newspapers, maps, contract stenographic reporting services, telephone and telegraph services, and all other necessary expenses of the board, together with expenses preliminary to the organization and establishment of the banks created hereunder, until the end of the fiscal year 1933.

(b) The board shall have power to levy semiannually upon the Federal Home Loan Banks, and they shall pay, on such equitable basis as the board shall determine, an assessment sufficient in its judgment to provide for the payment of its estimated expenses for the half year succeeding the levying of each such assessment, beginning with the second half of the calendar year 1933. All expenses of the board incurred in carrying out the provisions of this Act, as determined by it, beginning July 1, 1933, shall be paid from the proceeds of such assessments, and if any deficiency shall occur in such fund at any time between such semiannual assessments the board shall have power to make an immediate assessment against the banks to cover such deficiency on the same basis as the original assessment. If any surplus shall remain from any assessment after the expiration of the semiannual period for which it was levied, such surplus may be deducted from the next following assessment. *Such assessments may include such amounts as the board may deem advisable for carrying out the provisions of subsection (c) of this section.*

(c)(1) *The board, utilizing the services of the Administrator of General Services (hereinafter referred to as the "Administrator"), and subject to any limitation hereon which may hereafter be imposed in appropriation Acts, is hereby authorized—*

(A) *to acquire, in the name of the United States, real property in the District of Columbia, for the purposes set forth in this subsection;*

(B) *to construct, develop, furnish, and equip such buildings thereon and such facilities as in its judgment may be appropriate to provide, to such extent as the board may deem advisable, suitable and adequate quarters and facilities for the board and the agencies under its administration or supervision;*

(C) *to enlarge, remodel, or reconstruct any of the same; and*

(D) *to make or enter into contracts for any of the foregoing.*

(2) *The board may require of the respective banks, and they shall make to the board, such advances of funds for the purposes set out in paragraph (1) as in the sole judgment of the board may from time to time be advisable. Such advances shall be in addition to the assessments authorized in subsection (b) and shall be apportioned by the board among the banks in proportion to the total assets of the respective banks, determined in such manner and as of such times as the board may prescribe. Each such advance shall bear interest at the rate of 4½ per centum per*

annum from the date of the advance and shall be repaid by the board in such installments and over such period, not longer than twenty-five years from the making of the advance, as the board may determine. Payments of interest and principal upon such advances shall be made from receipts of the board or from other sources which may from time to time be available to the board. The obligation of the board to make any such payment shall not be regarded as an obligation of the United States. To such extent as the board may prescribe any such obligation shall be regarded as a legal investment for the purposes of subsections (g) and (h) of section 11 and for the purposes of section 16.

(3) The plans and designs for such buildings and facilities and for any such enlargement, remodeling, or reconstruction shall, to such extent as the chairman of the board may request, be subject to his approval.

(4) Upon the making of arrangements mutually agreeable to the board and the Administrator, which arrangements may be modified from time to time by mutual agreement between them and may include but shall not be limited to the making of payments by the board and such agencies to the Administrator and by the Administrator to the board, the custody, management, and control of such buildings and facilities and of such real property shall be vested in the Administrator in accordance therewith. Until the making of such arrangements such custody, management, and control, including the assignment and allotment and the reassignment and reallocation of building and other space, shall be vested in the board.

(5) Any proceeds (including advances) received by the board in connection with this subsection, and any proceeds from the sale or other disposition of real or other property acquired by the board under this subsection, shall be considered as receipts of the board, and obligations and expenditures of the board and such agencies in connection with this subsection shall not be considered as administrative expenses. As used in this subsection, the term "property" shall include interests in property.

(6) With respect to its functions under this subsection the board shall (A) annually prepare and submit a budget program as provided in title I of the Government Corporation Control Act with regard to wholly owned Government corporations, and for purposes of this sentence, the terms "wholly owned Government corporations" and "Government corporations", wherever used in such title, shall include the board, and (B) maintain an integral set of accounts which shall be audited annually by the General Accounting Office in accordance with the principles and procedures applicable to commercial corporate transactions as provided in such title, and no other audit, settlement, or adjustment shall be required with respect to transactions under this subsection or with respect to claims, demands, or accounts by or against any person arising thereunder. Except as otherwise provided in this subsection or by the board, the provisions of this subsection and the functions thereby or thereunder subsisting shall be applicable and exercisable notwithstanding and without regard to the Act of June 20, 1938 (D.C. Code, secs. 5-413-5-428), except that the proviso of section 16 thereof shall apply to any building constructed under this subsection, and section 306 of the Act of July 30, 1947 (61 Stat. 584), or any other provision of law relating to the construction alteration, repair, or furnishing of public or other buildings or structures or the obtaining of sites therefor, but any person or body in whom any such function is vested may provide for delegation or redelegation of the exercise of such function.

(7) No obligation shall be incurred and no expenditure, except in liquidation of obligation, shall be made pursuant to the first two sub-

paragraphs of paragraph (1) of this subsection if the total amount of all obligations incurred pursuant thereto would thereupon exceed \$13,200,000 or such greater amount as may be provided in an appropriation Act or other law.

* * * * *

SECTION 8(b) OF THE SMALL BUSINESS ACT

(b) It shall also be the duty of the Administration and it is hereby empowered, whenever it determines such action is necessary—

(1)(A) to provide technical and managerial aids to small-business concerns, by advising and counseling on matters in connection with Government procurement and property disposal and on policies, principles, and practices of good management, including but not limited to cost accounting, methods of financing, business insurance, accident control, wage incentives, and methods engineering, by cooperating and advising with voluntary business, professional, educational, and other nonprofit organizations, associations, and institutions and with other Federal and State agencies, by maintaining a clearinghouse for information concerning the managing, financing, and operation of small-business enterprises, by disseminating such information, and by such other activities as are deemed appropriate by the Administration; and

(2)(B) *to allow an individual or group of persons cooperating with it in furtherance of the purposes of subparagraph (A) to make such use of its office facilities and related materials and services as it deems appropriate;* to make a complete inventory of all productive facilities of small-business concerns or to arrange for such inventory to be made by any other governmental agency which has the facilities. In making any such inventory, the appropriate agencies in the several States may be requested to furnish an inventory of the productive facilities of small-business concerns in each respective State if such an inventory is available or in prospect;

(3) to coordinate and to ascertain the means by which the productive capacity of small-business concerns can be most effectively utilized;

(4) to consult and cooperate with officers of the Government having procurement or property disposal powers, in order to utilize the potential productive capacity of plants operated by small-business concerns;

(5) to obtain information as to methods and practices which Government prime contractors utilize in letting subcontracts and to take action to encourage the letting of subcontracts by prime contractors to small-business concerns at prices and on conditions and terms which are fair and equitable;

(6) to determine within any industry the concerns, firms, persons, corporations, partnerships, cooperatives, or other business enterprises which are to be designated "small-business concerns" for the purpose of effectuating the provisions of this Act. To carry out this purpose the Administrator, when requested to do so, shall issue in response to each such request an appropriate certificate certifying an individual concern as a "small-business concern" in accordance with the criteria expressed in this Act. Any such certificate shall be subject to revocation when the concern covered thereby ceases to be a "small-business concern".

Offices of the Government having procurement or lending powers, or engaging in the disposal of Federal property or allocating materials or supplies, or promulgating regulations affecting the distribution of materials or supplies, shall accept as conclusive the Administration's determination as to which enterprises are to be designated "small-business concerns", as authorized and directed under this paragraph;

(7) to certify to Government procurement officers, and officers engaged in the sale and disposal of Federal property, with respect to the competency, as to capacity and credit, of any small-business concern or group of such concerns to perform a specific Government contract. In any case in which a small-business concern or group of such concerns has been certified by or under the authority of the Administration to be a competent Government contractor with respect to capacity and credit as to a specific Government contract, the officers of the Government having procurement or property disposal powers are directed to accept such certification as conclusive, and are authorized to let such Government contract to such concern or group of concerns without requiring it to meet any other requirement with respect to capacity and credit;

(8) to obtain from any Federal department, establishment, or agency engaged in procurement or in the financing of procurement or production, such reports concerning the lettering of contracts and subcontracts and the making of loans to business concerns as it may deem pertinent in carrying out its functions under this Act;

(9) to obtain from any Federal department, establishment, or agency engaged in the disposal of Federal property such reports concerning the solicitation of bids, time of sale, or otherwise as it may deem pertinent in carrying out its functions under this Act

(10) to obtain from suppliers of materials information pertaining to the method of filling orders and the bases for allocating their supply, whenever it appears that any small business is unable to obtain materials from its normal sources;

(11) To make studies and recommendations to the appropriate Federal agencies to insure that a fair proportion of the total purchases and contracts for property and services for the Government be placed with small-business enterprises, to insure that a fair proportion of Government contracts for research and development be placed with small-business concerns, to insure that a fair proportion of the total sales of Government property be made to small-business concerns, and to insure a fair and equitable share of materials, supplies, and equipment to small-business concerns;

(12) to consult and cooperate with all Government agencies for the purpose of insuring that small-business concerns shall receive fair and reasonable treatment from such agencies;

(13) to establish such small business advisory boards and committees truly representative of small business as may be necessary to achieve the purposes of this Act; and

(14) to provide at the earliest practicable time such information and assistance as may be appropriate, including information concerning eligibility for loans under section 7(b)(3), to local public agencies (as defined in section 110(h) of the Housing Act of 1949) and to small-

business concerns to be displaced by federally aided urban renewal projects in order to assist such small-business concerns in reestablishing their operations.¹⁶

SECTION 2 OF THE ACT OF AUGUST 10, 1949

SEC. 2. [The land] (a) *Except as provided in subsection (b) of this section, the land* authorized to be conveyed by the first section of this Act shall be used by the grantee for purposes of a site for a National Guard Armory and for training the National Guard or for other military purposes, and the conveyance of such land shall contain the express condition that if the grantee shall fail or cease to use such land for such purposes, or shall alienate or attempt to alienate such land, title thereto shall, at the option of the United States, revert to the United States.

(b) *The Secretary of Housing and Urban Development shall execute the necessary instrument or instruments to provide that a certain portion of land, not to exceed two acres, on the easterly side of the land described in the first section of this Act, as more particularly determined and designated by the Secretary of the Army, may be used for civil defense or other emergency preparedness purposes or the purposes stated in subsection (a) and that such use shall not cause the reverter clause set forth herein to become operable.*

MINORITY VIEWS

DEMONSTRATION CITIES

“TOO MUCH * * * WHEN THE COST IS HIGHEST”

The investments you are making in your cities are vital to our future. We would like to complete them all at once. But if we attempt to do too much, too soon, we will end by accomplishing less by borrowing our money, by issuing bonds when the cost of money is at the highest point in several years—when costs are skyrocketing and materials and skilled labor are scarce * * *. I ask you to go home and get out your lead pencil—and take a good hard look at your next quarterly budget expenditures.

(President Lyndon B. Johnson before the National Legislative Conference, National League of Cities, March 31, 1966.)

This amendment denies the leadership of the House in many of its particulars. It would still produce not so much an *omnibus* housing bill as an *ominous* housing. If passed, it will still give away much of the national legislative controls belonging to the Congress and also those local controls which belong to the communities of the Nation. It will use the power of the Federal purse to first stultify the local knowledge essential to the working of a much needed demonstration city program, and, second, to ratify the mistakes, faulty planning, and misleading promises of the Department which has insisted on its proposals in the face of their manifest impossibilities.

The minority wants a program for our cities which will stress an increase in decent housing for citizens with low and moderate incomes. For the past several years minority members of this committee have introduced bills to turn the present housing and urban renewal program in this direction. The minority welcomes the change in attitude indicated by the demonstrations cities program. But it insists on a program which is free of the misconceptions in planning which characterize the legislation as first offered by the administration.

The minority endorses the concept of demonstration cities, its breadth, and its sweep as revealed in the findings and declaration of purpose. The minority, however, cannot endorse the specifics which follow these findings and declaration of purpose because they not only are faulty but also they endanger existing programs in the housing field upon which communities, families, and individuals are depending.

It is the position of the minority that no amount of face saving is worth the havoc that would be caused by a program conceived in wishful thinking, based on half truths, and executed with more pride than skill. The minority believes this doubly true since the promises made in behalf of this bill are far in excess of any possible performance.

HIGH HOPES AND LONG SHOT ODDS

The Department has shamefully lobbied for this legislation, stressing to the individual Members of Congress that any city is *eligible* to participate in the city demonstration program. The plain fact of the matter is that of the hundreds and thousands of cities in the country, perhaps a high of 50 or less can expect to participate in the program. The chances of any city participating under the conditions of S. 3708 are at best a 20-to-1 shot during the supposed 2-year life of the program.

To avoid calling a spade a spade, the Department first spoke of spending \$2.3 billion on demonstration city inducements, and then at the last moment covertly slipped in an additional \$600 million authorization for urban renewal in demonstration cities exclusively. Why? Because Department officials were made to face their own faulty arithmetic by knowledgeable Congressmen.

This bill now calls for \$1.15 billion. It could well be 30 times \$1.15 billion, or more if the Department means to do what it has led the city officials of the United States to believe it can and will do.

This is the great danger of the program as proposed—that it will be used as a political “lure” to entice political support in the hope of generous Federal bequests. If this is allowed to happen, then a potentially valuable effort will be tragically compromised. The myriad problems confronting our cities desperately need to be solved. To do so will require the best in engineering and economic thinking—not the juggled arithmetic put forward by the Department as its panacea.

It has become increasingly obvious to most that almost all of our older and larger cities are faced with physical, social, and economic blight which threaten their continued viability and the well-being of adjacent communities. These cities contain substantial investments, the preservation of which is in the interest of our total economic and social life. These areas must be carefully identified and worked into a demonstration city program. But to hold out as bait, the hope that Federal funds for this purpose may be made available to every nook and cranny of the United States, is neither the part of sense nor honesty.

The country can neither afford such an operation, nor staff it, the Bureau of the Budget and the Department of Housing and Urban Development to the contrary notwithstanding. HUD has trouble coordinating its own programs and their newly arising problems. How can it hope to coordinate those of other departments and agencies as well?

PLAN NOW—PAY LATER

The departmental proponents of demonstration cities are saying we are only planning now and it does not have to cost much.

The trouble is the Department's brain trusters were elaborately casual, not to say careless, in their planning. This is in a pattern. The medicare advocates, trying to slip one more idea into an overloaded program for the elderly, were perfectly willing to do so even at the risk of making the entire program unworkable. The same practice is now at work again.

We are once again faced with the situation where our ivory-tower specialists in the Department, secure and isolated in their cloistered retreats, made their paper research calculations, read the latest news

dispatches on violent demonstrations, and too hastily produced a solution—ideal in concept, but short on practicality and void of impact intelligence

The net result was that they came before the Congress in March asking for \$2.3 billion for demonstration cities, and were back seeking an additional \$600 million more for their same flimsy plans by June. The Congress and the country deserves better thinking.

The cost of the program as passed by the Senate is \$1.15 billion. This is supposed to run only 2 years. Expenditures have been estimated at \$500 to \$600 million annually. Testimony, however, taken from only 11 of the 16 mayors who appeared before the House subcommittee, put their needs, in terms of a demonstration city program, at over \$8 billion. Since the Department is talking in terms of 50 or 60 or 70 cities, while carefully encouraging all cities to think of themselves as "eligible," the program if it is to work will require much more than what we are asked to authorize.

COORDINATOR OF FEDERAL ACTIVITIES

There are 43 programs which HUD thinks could be included in a city demonstration program. Of these 43 programs, 10 are within HUD, 25 within HEW, 2 each in the Departments of Agriculture, Commerce, and Labor, and the Office of Economic Opportunity. The HUD programs are urban renewal, neighborhood facilities, mass transit, open space, urban beautification, water and sewer facilities, community renewal, code enforcement, demolition grants, and low rent public housing, a list indicating the extent of the Department's intrusion into community life which it obviously hopes to expand.

The last named of the HUD programs, low rent public housing, is already a completely federally funded program. Consequently, it would be a natural conclusion that it would not be possible for it to obtain additional Federal funds for its direct operation. Under the demonstration cities program, however, it can.

Inquiry on this point, the transfer of funds within the various programs covered by any city's demonstration plan, was made during the hearings and the possibility was denied by the Department at that time. Now this same transfer of funds is presented by the agency as one of the more flexible advantages of the program. As the operation is explained by Department officials, all of the local contributions that any of the programs included in the demonstration city plan are required to make under present law are added together to obtain a grand total. Of this total, 80 percent is turned over to the demonstration city agency to use as it sees fit. The agency may even use the funds for a program which did not contribute to the 80-percent grant, because it is already completely funded federally—so long as the program is included in the demonstration city plan. Thus, low rent public housing, which makes only a theoretical contribution, could have its subsidy payments increased under the proposed formula if the demonstration city so desires.

THE CHOSEN FEW

Another largely overlooked fact is what would happen to the big contributor, urban renewal. Figures from the Department indicate that 60 percent of the funds made available under the demonstration

cities program will flow to urban renewal operations. Dr. Weaver says the demonstration cities program will be spending \$400 million a year. Sixty percent of that will be \$240 million. This is the 80-percent new Federal contribution of the local urban renewal share. The city still has to contribute 20 percent, which would be \$60 million. Added to the \$240 million, that gives us the one-third local contribution of \$300 million for urban renewal. The additional two-thirds that the Federal Government still has to put up for the urban renewal operation proper amounts then to \$600 million. Available for urban renewal use as of July 1, 1967: \$750 million. From this \$750 million, \$600 million will be available for a few demonstration cities, presently said to be 50, although it well could be less, leaving \$125 million for the more than 600 other cities who are active urban renewal applicants.

There are 595 cities in the country that have populations of 30,000 and over, and hence are eligible for membership in the U.S. Conference of Mayors. The National League of Cities, which has no population limits, has a membership of over 13,000. To protect the nondemonstration cities, which obviously will be in the majority, there is in the bill a provision proposing to add \$250 million for the exclusive use of urban renewal projects in demonstration cities. This, however, despite the explanation that it was to be a one-time authorization good for the entire 2-year life of the program, is by our previous calculations only enough to last a year. If the urban renewal use of demonstration city funds goes above 60 percent—as it well may—the \$250 million may be wiped out in much less than a year.

If this is intended as a 2-year authorization, it is too little to avoid the harm that could be done to nondemonstration cities. If it is intended to be a biennial appropriation, the Congress should know it to insure proper understanding of just what this program entails in the way of expenditures and where it is heading. Anything else is too expensive a price to pay for the Department's lack of prior planning.

This late addition of a specific authorization of \$250 million for demonstration city urban renewal projects exclusively is proof of the completely unrealistic approach to the impact possibilities of the bill. The urban renewal program, by inference and admission, will command the majority of the funds authorized. Subsection (2) of section 103 of the amendment, which sets up the conditions which any city must fulfill, have major reference to such matters as the *arrest of blight and decay, development of the city, maximum opportunities for employing residents of the demonstration area in all phases of the program, relocation plans, maximum opportunity for choice of housing accommodations by all citizens, etc.* This spells out urban renewal activities on a large scale and was confirmed by the Secretary in testimony before the subcommittee and elsewhere.

The significance of this for the nondemonstration cities becomes even more apparent when it is known that the \$725 million authorization made available on July 1, 1966, will shortly be exhausted by the Department's backlog of applications. In other words, in less than 2 months, if the Department's processing holds up, the authorization for fiscal 1967 will be used up.

Under the demonstration cities formula, this makes a bad matter worse.

How bad the formula is becomes even more apparent when it is remembered that there are 407 urban renewal projects, as of the end of 1965, which are operating under the one-fourth local, three-fourths Federal formula. These are the cities which are either under a certain size, in depressed areas, or did their planning at their own expense. Obviously, the Congress thought the municipalities falling into any one of these three categories deserved more favorable terms from the Urban Renewal Administration.

Equally obvious is that 80 percent of one-fourth is a lot less than 80 percent of one-third. Thus, the demonstration cities formula goes a long way here to wipe out the previous intent of Congress.

The foregoing may be a little hard to grasp because of the fact that the demonstration cities formula applies only to the local one-third or one-fourth contribution that the city makes. Generally there is a tendency to overlook the fact that this is only a part of the urban renewal operation and that under the demonstration cities formula a part twice or thrice as large can be triggered, obligating a majority of the funds, possibly all of them, that are available under urban renewal for the exclusive use of a few communities chosen as demonstration cities.

COSTS

Regardless of the above, one fact stands out: If this bill passes in its present form, \$500 million a year, minimum, would be spent for the next 2 years for not more than 50 of the cities of the United States—the cities to be determined by the Secretary of HUD.

The Congress must face up to the fact that HUD officials from the Secretary on down, with billions of dollars at their disposal, will have more power over urban and suburban life than any mayor or Governor in the country.

FEDERAL-METRO GOVERNMENT

Thus we seek to recapture control of the use of land, most of which the Government has already given to people.—

Dr. ROBERT C. WEAVER.

We agree with the findings and declaration of purpose of title II (grants to assist in planned metropolitan development).

We agree that "the welfare of the Nation and of its people is directly dependent upon the sound and orderly development and the effective organization and functioning of the metropolitan areas in which two-thirds of its people live and work."

We agree that "the continuing rapid growth of these areas makes it essential that they prepare, keep current, and carry out comprehensive plans and programs for their orderly physical development * * *."

We concur in the view that "metropolitan areas are especially handicapped in this task by the complexity and scope of governmental services required in such rapidly growing areas * * *." Moreover, we agree with the President's observation in his message of January 26, 1966, accompanying this bill, that "the absence of cooperation between contiguous areas is wasteful. It is also blind to the reality of urban life." The President further mentioned: "What happens in the central city, or the suburbs, is certain to affect the quality of life in the other."

We do not agree, however, that title II of this bill is the proper means of achieving these objectives.

MORE INVOLVED THAN COST

During this inflationary period we might be expected to base our objections to the proposed "metro" development title of this bill on the basis of budgetary considerations alone.

Secretary Weaver suggested in his testimony that the first-year cost would be about \$25 million for just a dozen metropolitan areas. He further estimated that within 5 years about 75 metropolitan areas, embracing a combined population of around 60 million, might qualify for supplemental grants under the metro title of the bill. Projecting this estimate, we therefore assume that within a relatively short time the 231 officially designated metropolitan areas throughout the country would require approximately \$500 million per year in additional Federal grants if title II were enacted. In short, it is clear that we are talking about a multi-billion-dollar program which gets its foot in the door with a purportedly "modest" authorization.

Clearly, it would be easy to make a case on budgetary impact alone. But we would rather not, for to do so would be to avoid the real issues involved in this far-reaching proposal—issues that would confront us long after budgetary considerations might fade from view.

NEW LEVEL OF GOVERNMENT

The proposed metro development title of this bill would serve to divide the country into new Federal community development districts—a new administrative or political unit that would look to the Federal Government rather than the States, cities, and other localities for guidance. Title II would place the shadow of HUD over every metropolitan area in our country. Virtually every local governmental decision of any magnitude, in areas accepting supplemental Federal aid, would be subject to review by the Secretary of HUD.

This, more than any other proposal ever to come before our committee, drastically would reshape our Federal form of government.

HASTY CONSIDERATION BY COMMITTEE

In many respects, we regret that the proposed demonstration cities program as provided in title I has so dominated the consideration of this bill. Because of this, entirely too little attention has been paid to the metro government proposal. Every Member of the House should be aware of the questions raised by the language of this title. The following will attempt to point out just a few.

Section 205(b) of the bill says:

Grants may be made under this section only for metropolitan development projects in metropolitan areas for which it has been demonstrated, to the satisfaction of the Secretary, that—

(1) metropolitanwide comprehensive planning and programing provide an adequate basis for evaluating (A) the location, financing, and scheduling of individual public facility projects (including but not limited to, hospitals and libraries; sewer, water, and sewage treatment facilities; highway, mass transit, airport, and other transportation facilities; and recreation and other open-space areas) *whether or not federally assisted* [italic

supplied]; and (B) other proposed land development or uses, which projects or uses, because of their size, density, type, or location, have public metropolitanwide or interjurisdictional significance;

(2) adequate metropolitanwide institutional or other arrangements exist for coordinating, on the basis of such metropolitanwide comprehensive planning and programing, local public policies and activities affecting the development of the area; and

(3) public facility projects and other land development or uses which have a major impact on the development of the area are, in fact, being carried out in accord with such metropolitanwide comprehensive planning and programing.

SATISFACTION GUARANTEED

Accordingly, before approving "incentive grants" the Secretary must be satisfied that the metropolitan planning affecting the applicant State and local public body or agency evaluate the location, financing, and scheduling of individual public facility projects, *whether or not such projects are federally assisted*. Consequently, Secretary Weaver and his successors would have substantial control over local metropolitanwide location, financing, and scheduling of any public facility projects that have areawide impact.

Which projects would have areawide impact? We don't know. The bill makes no attempt to tell us. They could include hospital, library and highway projects, mass transit, sewage, water, and other large-scale Federal-aid projects. On the other hand, the Secretary could impose his judgment over the location, scheduling, and financing of local parking facilities, traffic control equipment, municipal buildings, recreation parks, and even local public school facilities.

It could be contended by the Department of HUD that virtually any one of these types of locally financed projects could have metropolitanwide impact. Indeed, the language of the bill itself in section 205(b)(1) suggests that they would be included in the Secretary's consideration of additional Federal aid incentive grants.

Furthermore, according to the language of the bill, it is difficult to conceive of any type of local project that would not have to meet with the Secretary's "satisfaction" for metropolitan planning prior to receiving additional Federal grants. According to the bill "other proposed land development or uses, which projects or uses, because of their size, density, type, or location, have public metropolitanwide or interjurisdictional significance" would have to meet the criteria established by the Secretary. If this language doesn't embrace practically every normal function of local government, we don't know what does.

During the hearings, the Secretary of HUD denied that title II of the bill is aimed at creating metro governments throughout our country. Yet, contrary to his testimony, the bill would encourage through incentive grants "metropolitanwide institutional or other arrangements" for "coordinating, on the basis of such metropolitanwide comprehensive planning and programing, local public policies and activities affecting the development of the area." If this isn't

the clearest definition of what constitutes the ultimate in metro government, we wish the Secretary would tell us what is.

LET THE PEOPLE DECIDE

This brings us to an important point, and one upon which our opposition hinges. We are not at this point in a position to cast a final judgment as to the need for creation of metro governments to solve our growing urban problems. Under our Constitution, it seems to us this is something that should be decided by the people within those metropolitan jurisdictions. We all know that there have been hundreds of local referendums on the metro question. As a matter of fact, this happens to be one of the most controversial local issues to have come to the surface in decades. In only a few instances have the people voted to embrace this concept of government—and then on only a limited scale.

As controversial as metro already is at the local level, we feel that it would be far more so if those who support metropolitan planning and/or government were also asked if they would further support the metro concept under the direction and supervision of the Federal Government. That the Federal Government and specifically the Department of HUD would dominate any such new governmental relationship is made clear by the language of the bill. Section 205(c) states:

Where the applicant for a grant under this section is a unit of general local government, it must demonstrate to the satisfaction of the Secretary that, taking into consideration the scope of its authority and responsibilities it is adequately assuring that public facility projects and other land development or uses of public metropolitanwide or interjurisdictional significance are being, and will be, carried out in accord with metropolitan planning and programing meeting the requirements of subsection (b). In making this determination the Secretary shall give special consideration to whether the applicant is effectively assisting in, and conforming to, metropolitan planning and programing through (A) the location and scheduling of public facility projects, whether or not federally assisted; and (B) the establishment and consistent administration of zoning codes, subdivision regulations, and similar land-use and density controls.

THE FEDERAL ZONING BOARD

We think it is particularly interesting that the Secretary "shall give special consideration" to those applicants for additional Federal grants who effectively are assisting in and conforming to metropolitan planning and programing through "the establishment and consistent administration of zoning codes, subdivision regulations, and similar land-use and density controls."

In his "special consideration," how far could the Secretary's powers go?

What constitutes "consistent administration" of zoning codes? Consistent with what?

Does this mean that the Secretary would only grant incentive Federal aid to those communities whose zoning codes, subdivision regula-

tions, and similar land-use and density controls are administered locally in a manner consistent with the views of Federal planning officials? We think the question answers itself. In this particular case, the language of the bill is entirely too explicit in its intent.

If the Congress decides to grant to the Secretary of HUD the power to determine the disposition of additional billions of Federal aid on the basis of whether or not applicant communities are administering their zoning codes in a manner consistent with Federal planning, then Federal-metro government will be a reality.

Those who fear the concept of metro government because of "downtown" dominance will wake up and find that their fears were misplaced. Under the Federal-Metro concept, all true power will reside not with the city, but with the Secretary of HUD.

COME UP AND SEE ME SOMETIME

In answer to a question from Congressman Widnall during the hearings as to the degree of Federal-metro government suggested by the language of the bill, Secretary Weaver said:

This is a supplemental grant given to those who voluntarily decide that they want to cooperate in order to get a metropolitanwide approach. If they do not want it, they certainly do not have to do it, and many of them will not do it.

What the Secretary was referring to was the old tried and true carrot-and-stick approach of sections 205, 206, and 207. In an effort to achieve the goals of so-called metropolitanwide planning under the guidance of the Federal Government, communities would be given an opportunity to receive an extra dividend of 20 percent of cost of a project, providing they meet the conditions set forth in the bill.

These extra dividends in Federal aid were carefully chosen for their far-reaching impact on basic water and sewage facility programs, the Public Health Service Act, the Library Services and Construction Act, the Federal Water Pollution Control Act, Federal Airport Act grants, urban mass transit grants, land and water conservation fund grants, Federal-aid ABC highway grants, as well as the Public Works and Economic Development Act grants. Most of these programs currently are on a 50-50 matching basis. To the communities that agreed to enter into metropolitanwide planning and that satisfied the requirements imposed by the Secretary of HUD, these 50-50 funds would be increased by at least 20 percent, up to a maximum of 80 percent Federal aid.

FEALTY OVER NEEDS

We particularly object to the fact that these added incentives for areawide planning would in no way be based upon the needs of the communities in relation to the needs of others. Where metropolitan areawide planning already is in a relatively advanced stage for one reason or another, the rewards could be substantial. On the other hand, the areas of most critical need might very well be the last to receive these additional Federal grants-in-aid.

To cite just one Federal-aid program that drastically would be affected by title II, we need only look at the so-called ABC Federal-aid highway program. Over a period of more than 10 years, the Committees on Public Works and Ways and Means have developed

a formula for financing this multi-billion-dollar program. The 50-percent Federal share comes from the highway trust fund entirely out of user tax receipts. The Congress has for many years rejected the idea of non-highway-user payments for highway-user needs. Yet, in this bill, we completely would destroy the delicate balance that has been achieved between highway-user and non-highway-user groups.

We would for the first time destroy the concept of the highway-user trust fund which has served us so well since 1956. Moreover, your committee has done so without any consultation whatsoever with the two committees which have handled this program since its inception. This same criticism equally would apply to the other Federal-aid programs mentioned above.

It would be a mistake for the Congress on such a broad scale to abandon the concept of Federal aid based upon local needs, and replace it with a system of grants in aid based on fealty.

One final point on the language of the bill. The bill doesn't even tell us which areas would be eligible. Neither the language of the bill nor the legislative history of the measure give any indication as to what the Secretary should or would consider "appropriate" as a "modification" or an "extension" of standard metropolitan areas as we know them. Section 208(4) defines an eligible metropolitan area as being a "standard metropolitan statistical area as established by the Bureau of the Budget, subject however to such modifications and extensions as the Secretary may determine to be appropriate."

Presumably, through the grant of additional Federal funds he could urge the creation of a metropolitan area extending from Boston to Richmond, holding out as an inducement 70- to 80-percent Federal aid as opposed to the traditional 50-percent Federal contribution for an imposing array of huge Federal grant-in-aid programs. The urge for creation of such a new metropolitan area by Federal planners would be irresistible. But we are confident the people residing in this rapidly growing area would not want to have the Federal Government determine for them such purely local matters as zoning, subdivision regulations, and similar land-use and density controls.

REASONABLE SOLUTION

At the outset, we said that we agreed with the basic findings and purposes and the need for additional metropolitan planning. S. 561, passed unanimously last year by the Senate and currently before the House Committee on Government Operations, addresses itself to the need for comprehensive planning of land use for resident, commercial, industrial, and other purposes and other facets of urban development. Under that bill, areawide metropolitan or regional planning would be required as a prerequisite for a broad range of Federal grant-in-aid projects. The difference is that S. 561 would require this comprehensive planning as a condition for grants as presently constituted. Moreover, it would rely on commonsense and good will to persuade local governing bodies to accept planning decisions; it would not be mandatory. S. 3708, on the other hand, would require areawide planning as a condition of increasing the Federal share without regard to needs, and local governing bodies would have to accept the planning decisions.

Earlier this year, in his budget message, the President asked that the Congress speedily enact S. 561. We heartily concur. Passage of

S. 561 would encourage comprehensive metropolitanwide area planning at the local and State levels—precisely where such plans should originate. Title II of S. 3708, on the other hand, makes clear that such metropolitanwide plans would be under the thumb of the Secretary of HUD, leading inevitably to the creation of Federal-Metro government throughout our Nation.

Furthermore, we note that urban planning grants under section 701 of the Housing Act of 1954, involving \$31.1 million, have been approved for 408 metropolitan and regional areas as well as 88 projects involving \$12.3 million for statewide agencies. Secretary Weaver's testimony did not give a report on the results of these. Before approving an entirely new metropolitan planning grant program to be superimposed over the existing one, the Congress should first evaluate past experience under the existing program.

DON'T CALL US; WE'LL CALL YOU

Section 202 of this title (cooperation between Federal agencies) would insure that the Secretary of HUD would be authorized to—

call upon other Federal agencies to supply such statistical data, program reports, and other materials as he deems necessary to discharge his responsibilities for metropolitan development * * *.

It further asks that—

all Federal agencies which are engaged in administering programs related to metropolitan development, or which otherwise perform functions relating thereto, shall to the maximum extent practicable, consult with and seek advice from all other significantly affected Federal departments and agencies in an effort to assure fully coordinated programs.

Section 203 further authorizes the Secretary to appoint "metropolitan expeditors" for each metropolitan area which he finds needs and desires it. The metropolitan expeditor would—

provide information, data, and assistance to local authorities and private individuals and entities within the metropolitan area, and to all relevant Federal departments and agencies, with respect to all programs and activities conducted within such metropolitan area by the Department of Housing and Urban Development, and with respect to other public and private activities and needs within such metropolitan area which relate to the programs and activities of the Department.

The language of this title makes clear the effort by the Department of HUD to take unto itself vast discretionary controls over virtually every other department and agency of the Federal Government.

With the power to increase substantially the Federal share of already multibillion-dollar Federal-aid grants to States and localities for highways, water pollution, libraries, hospitals, sewage, airport, and recreation programs, we can only imagine the powers implicit in title II. Furthermore, the bureaucratic jurisdictional disputes that likely would arise would be mammoth.

We realize that the growth of several Federal-aid programs has brought with it a degree of Federal control. Many of us have already expressed varying degrees of displeasure with some of these controls. However, when a community seeks out the Federal Government to pay 50 percent or more of the cost of a local project, it must expect at least some direction from Washington. But to draw together a vast collection of these Federal-aid programs and place over them a second layer of Federal control over purely local matters such as zoning and subdivision regulations would far exceed the proper role of the Federal Government in our society.

LORELEI BECKONS

You will be urged to support title II, to disregard warnings of unprecedented Federal controls over purely local matters such as zoning and subdivision regulations on the basis that all this is a quid pro quo for substantial Federal incentive grants. You will be assured by proponents, "If local communities don't want to comply, they don't have to ask for the supplementary Federal grants."

Perhaps. However, a few years following enactment, the rewards for compliance available under title II suddenly would become *penalties for noncompliance*. Incentives of today will become the penalties of tomorrow. Today's incentives will be tomorrow's penalties.

And when local communities are penalized for failure to comply with Federal-metro standards, the die will have been cast.

You Can FIGHT CITY HALL

To whom would the people turn to exert their proper voice in local and even metropolitan government?

To whom would they protest a zoning decision or the location of a Federal-aid highway? To an appointed metropolitan counsel? To the Federal metropolitan expediter? To the Secretary of HUD?

Certainly not to their local town council or to their mayor—or their Representative in Congress.

We will not assert our displeasure with title II with the hackneyed warning that these are powers that might be entrusted to Secretary Weaver, but not to his future successors in office. On the contrary, we will be bold enough to say that they should not be entrusted to *any* Secretary of HUD, including the incumbent.

After several months' consideration, the Subcommittee on Housing in its wisdom at one point had decided to delete title II from the housing bill. Unfortunately, various pressures were exerted by the Department of Housing and Urban Development and this and other sections of the bill were restored and reported favorably by your committee.

We urge the House to strike title II in its entirety. To do otherwise would be to impose a broad new form of government upon millions of Americans who, we are certain, would overwhelmingly reject Federal-metro government.

Section 108 of the present bill keeps authorized funds, once appropriated, available past the point of the termination of the program as listed. (To be remembered here is the fact that as of January 31, 1966, there were \$7.6 billion urban renewal funds authorized since

1949. Of this \$7.6 billion, \$5.6 billion has been committed but only \$1.5 billion spent.) The demonstration city program could take some time to move to an end, undoubtedly at great expense, possible never.

The HUD Secretary, with the possibility of coordinating 10 of his own programs with 33 others of other departments and agencies, is required to consult with those departments and agencies prior to making any grants under the bill. All he has to do is consult. *The consultation is not binding in any particular.*

This brings up section 103, subsection (b) of the amendment. This is the usual "boilerplate" which is said to give the Secretary flexibility in issuing regulations, etc. It also gives the Secretary the power to do just as he wishes.

All of this should alarm any community wishing to preserve its independence. They should not be deceived by the provisions that require local governing body approval. In all cases, the Secretary still has the power to decide whether the demonstration city applicant has the necessary administrative machinery to implement the program. This provision can be easily used to shut out small cities desiring to be included in the demonstration city program.

The minority's point is that the program as proposed in the new administration bill is *narrow, limited and expensive, but unplanned as regards existing programs.* To do the job as it should be done, we need planning not so much on the local level as we do on the national level. We cannot afford planning that has overlooked impact possibilities, that jeopardizes the operation of existing programs, that is subject to such political manipulation as to threaten whole communities with economic coercion.

Once again, this is not so much an *omnibus* housing bill as it is an *ominous* housing bill. The country needs the first, not the second.

BANKER'S BONANZA

Tucked away in title IX, the "Miscellaneous" title of the bill, is a provision in section 905 which would put the Federal National Mortgage Association in the lending business. At present, FNMA's operations are confined to providing a secondary market for FHA- and VA-insured mortgages.

Under this new provision, FNMA could participate up to 95 percent in making construction loans for cooperative housing under FHA section 213, or housing for moderate income and displaced families under FHA section 221(d)(3) in cases in which FNMA has issued a commitment to purchase the mortgage upon completion of construction.

In construction lending on FHA-insured advances, a banker or other lender engaging in such financing usually obtains a 5½-percent interest return on funds advanced, and charges servicing and processing fees amounting to 2 percent of the total amount of the funds advanced. The loans are made for a period of 6 to 18 months depending upon the nature of the project.

The maximum mortgage amount under FHA section 213 is \$25 million, and under FHA section 221(d)(3) the maximum is \$12.5 million. Assuming the maximum mortgage amount of \$25 million and a 2-percent servicing fee, this means that a construction lender could put up \$1,250,000, obtain \$23,750,000 from FNMA and collect a servicing fee of \$500,000 on the \$25 million construction loan. To this would be added the \$34,375 of interest he would collect on the \$1,250,-

000 of his own funds that he had advanced in the transaction over a 1-year period. The \$534,375 return on a \$1,250,000 investment is indeed an outrageous bonanza for a banker or other construction lender. The gross return on the lender's investment is 42.5 percent.

This is carrying the high interest policies of this administration too far. The provision should be stricken from the bill and FNMA confined to its established secondary mortgage market operations.

SUPPLEMENTAL VIEWS OF CONGRESSMAN WILLIAM B. WIDNALL

We are told that the proposed Demonstration Cities Act would help the poor and disadvantaged in our restless cities. For the past 17 years we have been told that slum clearance and urban renewal would do likewise. Now we are told, by Secretary Weaver himself, that urban renewal has never lived up to its promise. And yet, instead of improving upon the multibillion-dollar program already in existence—urban renewal—and regearing it to meet the true housing needs of our urban populations, we are handed still another huge program.

My efforts over the past several years to change this deplorable situation with respect to the urban renewal program have more often than not been met with the statement by HUD that urban renewal cannot be tampered with for fear of losing flexibility. Flexibility for what? Do they mean the kind of flexibility that has constructed luxury high rise apartments and promoted commercial downtown renewal at the expense of the low- and moderate-income citizens left behind in the ghettos? Do they mean the kind of flexibility that has fostered the explosive situations in city after city that we face this summer?

We are told that, whatever the problems of urban renewal in the past, since 1961 residential renewal has been emphasized. Yet a Library of Congress study using HUD data shows that the following major cities have had the following high percentages of funds approved for nonresidential, commercial projects in the last 5 years: Atlanta, 97 percent; Baltimore, 77 percent; Boston, 62 percent; Chicago, 60 percent; Cleveland, 49 percent; New York, 56 percent; Philadelphia, 75 percent.

Speaking for myself, my patience with the present trends in urban renewal has about come to an end. If a city qualifies for demonstration city assistance, then why should it be permitted to continue at the same time with residential urban renewal projects completely inconsistent with the goals set forth for the new program? And why should only demonstration projects in demonstration cities be required to produce "a substantial increase in the supply of standard housing of low and moderate cost and result in marked progress in serving the poor and disadvantaged people living in slum and blighted areas"? Do we need a 6-year demonstration program to prove that in both the few demonstration cities and the thousand other urban centers not so designated there is a need for improvements in the quantity and quality of housing in low- and moderate-income residential areas?

During the executive committee session on this bill, I offered an amendment to the urban renewal laws—an amendment that in no way would have affected the demonstration cities program. Instead, it would have set a priority in the existing multibillion-dollar urban renewal program emphasizing the needs of those with low and moderate means, using the language quoted above from the demonstration cities bill itself. It was rejected on a straight party line vote. The reason? Flexibility.

I shall offer this same amendment when the bill reaches the floor. For my part, I view the proposed Demonstration Cities Act as a unique opportunity for the Congress. It can provide a test of the sincerity of those who desire its enactment. If they want demonstration cities, then let them first put their urban renewal house in order. Let them restrict urban renewal grants to those cities who are interested in housing the poor instead of accommodating the rich. Had we kept our urban renewal program on the right track all these years, possibly millions of our citizens of all races and backgrounds would not be living in fear for their very lives and properties this summer.

WILLIAM B. WIDNALL.

SUPPLEMENTAL VIEWS OF CONGRESSMAN PAUL A. FINO

According to the census, there are about 60 Members of this House who represent entirely urban districts. I am one of them. So when I oppose this bill, I oppose it as a Representative from a 100 percent urban New York City constituency. What is more, I am representing my constituency's wishes. Not one of my constituents has written to me in support of this bill, but scores have written to protest the way it would give Secretary Weaver and U.S. Education Commissioner Howe *dictatorial* powers over city living patterns.

THREAT TO NEIGHBORHOOD SCHOOLS

My people know what Dr. Weaver wants this control for. He wants to control zoning, location of rent supplement housing, and other facets of so-called "open occupancy". They know why Commissioner Howe likes this bill. It will give him the tools to undermine the neighborhood school in the name of "racial balance". School districts are to be run from suburbs to slums, says Mr. Howe. My constituents say "No". They have asked me to fight for the neighborhood school. I offered two amendments in committee to take away the power Secretary Weaver gets in the bill to kill the neighborhood school. My amendments were rejected. The administration does not want anything to get in the way of its plans to end the neighborhood school.

NINETY-SIX BILLION DOLLARS AID IN LAST 10 YEARS HAS FAILED

I have heard a lot of talk about the need to head off the "explosion" of the ghettos. This administration ought to stop tossing out incendiary promises. Senator Ribicoff said recently that \$96 billion has been spent by the Federal Government in our cities over the last 10 years. And now \$1 billion spent during a 2-year period is going to perform miracles. This is obvious demagoguery on the part of the administration. All this bill is *really* designed to do is force Federal control on our cities; to make them accept Federal social criteria straight from the backroom social planners down at HUD or the Office of Education.

PRESIDENT ADMITS BILL IS A "SLEEPER"

President Johnson has referred to this bill as his "sleeper". At a White House strategy meeting, he told key leaders that this bill contained "sleeper" provisions that would give him massive powers over our cities. The President noted that the program would eventually require "upwards of \$100 billion". This is not my figure. It is the President's. At the present, he wants control, pure and simple, but a vote for this program is a vote to set up a \$100 billion program *simultaneously* with the string of Asian "brush-fire" wars the President expects to fight because of Asian "poverty". These grandiose

Presidential plans already have the United States on the financial and foreign policy rocks.

COMMISSARS ARE COMING

Let me say that when the President wants control, he wants it, and there will be nothing "voluntary" as it says in the bill, about the commissar-like "expeditors" he plans to send into the cities. Let me quote the President: "I will see that Federal expeditors are appointed in all the major cities."

BILL CALLED TROJAN HORSE

James J. Kilpatrick, writing in the Washington Star, has called this bill a "Trojan Horse" and has said that if the people knew what was in it, they would "hang its sponsors." Perhaps his language is a bit extreme, but let me suggest that you read sections 103 and 205 for yourself.

Because little has been written about the real meaning behind the legalisms and verbiage of the bill, I have prepared the following outline of the key sections of the bill, and I have included some pertinent quotes from appropriate officials regarding the way some of the language is to be implemented.

ANALYSIS AND EXPLANATION

A. DEMONSTRATION CITIES (TITLE I OF THE CMNIBUS BILL)

1. The idea here is to give qualifying cities bonuses of up to 80 percent of the non-Federal contribution regarding certain Federal-aid programs if the cities in question will submit to Federal planning and social criteria.

(a) For example assume a city has three types of urban development-connected federally aided projects going on, all carrying Federal grants of 50 percent. Under this bill, the Federal Government can give bonus payments of up to 80 percent of the remaining 50 percent (the non Federal share). So the Federal Government can offer to pay 90 percent of the total cost of these Federal-aid projects instead of just 50 percent if the city will submit to the Federal criteria. On top of its original 50 percent payment the Federal Government will make a lump sum payment of a further 40 percent.

2. This being the case, the guts of the "demonstration cities" program are the *criteria* that cities *must* submit to in order to qualify as "demonstration cities".

(a) The Federal Government can afford to be tough because if Congress sets up this program, Federal aid will be concentrated in "demonstration cities" and others will be left out, so there is an indirect "carrot" as well as a "direct" carrot. Most cities will be left out, since there will be only 50 "demonstration cities."

(b) Cities get to be "demonstration cities" by submitting a "plan" *which includes projected conformity with and compliance to listed Federal criteria*. In other words, only those cities promising to do what the Federal Government says will get on board the program which the Federal Government hopes to make into its vehicle of funding urban areas. Other cities which balk at

the social criteria will see Federal dollars being monopolized by subservient "demonstration cities".

(c) By passing this bill, Congress would be putting an economic pistol to the heads of our cities—all in the name of social coercion.

3. The Federal criteria to which a city must agree to submit are detailed in section 103 of the proposed bill.

(a) Among the criteria in section 103.2 is a requirement that the plan include "educational services * * * for the disadvantaged."

(b) This can only be seen in the light of the philosophy and announced programs of Harold Howe, U.S. Education Commissioner. So I include the following excerpts from the statements of Mr. Howe.

In the August 12 Wall Street Journal, a banner headline proclaimed "Federal Officials Now Favor End to Tradition of Neighborhood School" and talked of Commissioner Howe's plans to redraw New York City school districts and bus children to achieve racial "balance." Norman Hearn, a Howe aid, is quoted as favoring the busing of white children for purposes of ending "racial imbalance," calling it "quality education."

In a May 3 speech at Columbia University, Commissioner Howe ridiculed the suburban way of life and told an audience of social planners that "if I have my way, the suburban school districts will be gerrymandered so that they reach into the inner city and take in some of the slums." Slum districts would also be gerrymandered so that some suburban children had to attend school in slum districts. Mr. Howe went on to say that "if I have my way, schools will be built for the primary purpose of social and economic integration."

In Chicago on May 13, the Commissioner said he is contemplating some "drastic" steps to get the results he wants. On June 18, Mr. Howe said that after he whips the southern school officials into line, he intends to take aim on those "fortunate white families who flee to the suburbs to escape integrated schools." Such racism is a stain on the Federal Government, particularly as Mr. Howe is out to violate constitutional rights as upheld by the Supreme Court and set forth by the Congress as amendments to both the 1946 and 1966 Civil Rights Acts.

4. Also included among the Federal criteria is one declaring that maximum housing opportunities must be made available to all income groups. Section 103(3).

(a) This means "economic integration"—the language of the prior bill the administration imposed on an unwilling Subcommittee on Housing (H.R. 15890) included specific language requiring economic integration (sec. 103.7). Only the language, and not the spirit, of the new bill has been changed.

(b) Let no one think that this section aims at simply providing low-income housing. A bipartisan amendment offered to the original bill to require that a certain portion of urban renewal be mandated to be for low and middle-income housing was defeated at the orders of the administration. This amendment *would* have provided low-income housing.

(c) All the administration and Secretary Weaver care about is economic integration, pure and simple. Not low-income housing per se. Not any more than with rent supplements. As a matter

of fact, section 103(3) is designed to give the Secretary power to force rent supplement housing on cities in neighborhoods where they don't want it as part of the price of the "demonstration" aid package.

(d) Under section 103(4) of the proposed bill, which requires that local laws or regulations must be, or can be expected to be, consistent with the objectives of the program, Secretary Weaver can insist that any housing, public housing, housing loan or open occupancy regulations, procedures or codes be changed to meet his demands as part of the "demonstration" aid package. Dr. Weaver can draw up local "civil rights" laws.

5. A further Federal criterion to be imposed upon "demonstration" cities is their compliance with Secretary Weaver's and Commissioner Howe's opinions as to what their laws, regulations, school district regulations and zoning codes ought to be like.

(a) The reference is to section 103(4). For a city to be eligible, it must show in the plan it submits that "local laws, regulations, and other requirements are, or can be expected to be, consistent with the objectives of the program." The objectives of the program, of course, would be determined by Dr. Weaver for the HUD programs involved and by Commissioner Howe for the education programs. This would give Dr. Weaver the power to redraw local regulations, codes, and ordinances.

6. Just in case they forgot any standards, the Federal planners have put a section in the bill giving Secretary Weaver carte blanche to insist on further criteria.

7. Section 105 provides for Federal financial aid to approved "demonstration city" programs up to 80 percent of the aggregate non-Federal contributions cities would normally be required to make in connection with urban development-related Federal aid programs. The amount to be spent for this purpose is \$900 million over a 2-year period. Since this is a much smaller amount than the HUD social planners wanted, Federal aid programs in other cities will be starved in order to concentrate resources in the handful of "demonstration cities" to make the program look like it has accomplished more than would be expected of \$900 million over 2 years; *\$900 million over 2 years will not impose any results except social coercion of the people of the cities*; \$96 billion in Federal aid programs has gone into our cities in the last 10 years, according to Senator Ribicoff. What is \$900 million in 2 years going to buy but a chance for Dr. Weaver and Dr. Howe to experiment?

8. This program is not aimed at meeting the needs of the tense ghettos—that is only propaganda. Nowhere in the bill is there a section giving precedence in "demonstration city" grants to high-tension neighborhoods suffering the most extreme socioeconomic pressure. This sensible amendment, proposed in the House Banking and Currency Committee by our colleagues Ashley, Reuss, and Moorhead, was rejected by the administration. The administration wants to play with other neighborhoods where it can implement Dr. Howe's school ideas and Dr. Weaver's rent supplement economic integration ideas.

9. The program *still* provides for a *commissar* to be sent by the Federal Government. Under section 203, a city can "request" Dr. Weaver to send a "metropolitan expediter." Presumably any city

that wants to be a "demonstration city" will make good and sure to "request" a Federal "expediter" in its submitted plan.

B. METROPOLITAN PLANNING ("DEMONSTRATION SUBURBS" BILL—TITLE II OF THE OMNIBUS BILL)

1. Section 204 of this far-reaching title provides for a "metro-government" to be set up in metropolitan areas through which "all applications for Federal loans or grants to assist in carrying out projects for open-space land, hospitals, airports, libraries, water supply and distribution facilities, sewerage facilities, waste treatment works, highways, transportation facilities, or water development and land conservation within *any metropolitan area*" must be submitted. What else can this "Federal review board" be called but a "metro-government?"

2. Section 205 provides for Federal bonus grants to the "metroarea" communities to supplement the regular Federal aid grant share for related projects *if the metrogovernment draws up metroarea wide plans to require recipient communities to accept certain Federal criteria*—this is the "demonstration suburbs" bill. Metroarea communities *have* to set up a metrogovernment. If they let it dictate Federal social and planning criteria to them, then those communities will get 20 percent Federal aid bonuses. If the communities restrain the metrogovernment from handing away their sovereignty, then the Federal Government will doubtless *deny* the aid requests which must be channeled through the metrogovernment.

3. The criteria that the metropolitan communities will have to accept via their metrogovernments to get Federal aid include:

(a) Secretary Weaver approved "location, financing and scheduling of individual public facility projects, whether or not federally assisted." This means that Secretary Weaver could tell communities where they have to build—and how they have to finance—any kind of publicly assisted facility. He can make airport grants hostages for areawide school districting mixing slum children with suburban children in schools paid for (Federal criteria include financing) by high taxing of the suburbs. All this because he would have control—through his "metrogovernment"—of the location and financing of schools and other publicly assisted facilities as a de facto condition of Federal aid.

(b) "Land development or uses"—zoning. The Federal aid bonus would be contingent upon zoning land the way Dr. Weaver wants it zoned.

4. To give you a better idea of what the administration has in mind for the "metro" idea, let me quote from a July 3 Washington Post article capsuling a program which emerged at the White House conference called to fulfill these rights.

Essentially, the idea is that the Federal Government must provide the lever for Negroes to crack the suburbs.

The way to do it? Put all the Federal funds for housing, schools, antipoverty programs into one bag. To get the money, local officials would be required to draw up plans on a metropolitanwide basis.

Suburbs would be asked to build scattered low-income housing and work out areawide plans for school integration.

5. No doubt the "metro-governments" will ultimately be *the* local governments of the United States and the only people who will care about the State boundaries are the mapmakers. Metro-governments will be like the French "departments"—local administrative regional offices of the Central Government. Federal aid will be granted or withheld by the local "commissar". What really disturbs me are the ideas that an all-powerful Federal Government seems prepared to implement.

* * *

I urge you to vote to strike titles I and II from the bill. There is much to be said for a blueprint to rebuild our cities, but Congress ought to insist that this one be scrapped and one drawn up that doesn't put Dr. Weaver and Education Commissioner Howe in the saddle in every courthouse and at the head of the table at every town meeting or board of education meeting in America.

PAUL A. FINO.

SEPARATE VIEWS OF REPRESENTATIVE SEYMOUR HALPERN ON PROPOSED AMENDMENT TO S. 3708

While I am concerned with some of the broad descriptions embodied within certain sections of the proposed amendment, I feel the seriousness of the urban ills which plague our cities warrants consideration of the massive programs outlined in this critical legislation. Such programs are necessarily broad in scope, and, at first, general in description.

I do feel that the machinery involved in the intergovernmental administration of urban aid projects might, indeed, be more specifically explained so that costs and initial confusion can be kept to a minimum.

Though I do have reservations, I believe the demonstration cities program is desperately needed to spur rehabilitation of blighted areas of our cities. The problems of urban areas are enormous; it is estimated that New York City alone will need three demonstration projects to help it deal with its rundown neighborhoods. The special needs of our cities—in which, it is estimated, three-fourths of us will live by 1970—call for the physical and social reform provided through the demonstration cities program. The problems are urgent; the program should begin immediately.

Certainly, broad powers and programs need to be adequately monitored. I am convinced that such control is inherent in the specified authorizations of \$12 million in planning funds for each of the next 2 years in addition to grant funds of \$400 million for fiscal 1968 and \$500 million for fiscal 1969.

I believe the amounts of the authorizations are justified. Only through this kind of financial contribution can we begin to say we are fulfilling our commitment to this huge segment of the population.

It is doubtful, in my mind, whether Federal officials will seek to impose limited financial appropriations and programs on areas not seeking such help, when many other cities are, at the same time, asking for such aid. The local voice, I am certain, will be heard and heeded.

I believe that consultation between Federal agencies involved in urban development programs, provided for in the amendment, will concentrate resources and bring about more immediate, more effective, and more efficient urban improvement than under presently disjointed programs. Moreover, the demonstration cities program supplements such programs; it does not detract from their goals.

The metropolitan planning title will serve to decentralize and speed administration of federally aided urban projects. "Metropolitan expeditors" will be appointed to only those local areas which ask for them.

I am particularly pleased with several sections of the legislation. Section 911 would direct the Secretary of Housing and Urban Development to conduct research to determine the root causes of urban problems. This may in the future allow us to substitute that "ounce of cure" for the sum we must now spend to correct these conditions.

Section 914 will amend the Housing Act of 1950 to allow State authorities to borrow funds for student and faculty housing construction in private colleges. This will, I hope, help alleviate the college crush we are now witnessing.

Section 915 would authorize an appropriation of \$100,000 for study of possible relief of homeowners who live near airports. This research would try to discover what ought to be done about the claims of homeowners concerning problems of noise and nuisance associated with residential areas near airports. Study of this problem is long overdue.

I am also pleased to note the inclusion of several amendments I proposed which perfect the administration of cooperative housing insurance payment programs. I trust they will receive the wholehearted support of Congress, in keeping with the widespread endorsement they already have earned. Approval of the amendments would be a congressional vote of confidence in this commendable segment of American middle-income housing.

SEYMOUR HALPERN.

ADDITIONAL VIEWS OF REPRESENTATIVE FLORENCE P. DWYER

The myriad weaknesses of the committee-reported amendment to the Senate bill are comprehensively discussed in the minority views, with which I generally concur.

What is so objectionable to me about the administration proposals, especially in title I, is the fact that while they recognize the real need to mobilize all available assistance to help central cities restore new life and hope to their blighted neighborhoods, they seek to exploit the increasing awareness of these needs to enact a program based on inadequate planning, devoid of effective standards, and designed to expand enormously the powers of the Secretary of Housing and Urban Development.

This is the kind of hastily drawn legislation to which the Senate majority leader was obviously referring when he said, at the close of the first session of this Congress, that the second session would have to devote much of its time to correcting the inadequacies of legislation passed last year.

It is a truism to say that if the job of helping cities and metropolitan areas solve their problems is worth doing—and I believe it urgently needs doing—then it is worth doing well. But this is a truism that seems to have escaped the administration in its single-minded rush to get something on the statute books.

The concept of the demonstration cities program is a most attractive and promising one. If the program could be revised to eliminate its objectionable features and if this avowedly experimental program could be limited to a half dozen qualifying cities, then I would support it.

But, the administration seems to be asking Congress to authorize the Department of Housing and Urban Development to spend an undetermined number of billions of dollars for the purpose of permitting the Secretary to control the planning and development of those cities which want and can obtain the money. I believe there are better ways of achieving our desired objectives.

In any program for rebuilding the urban areas of the country, the urban renewal program will play a central role. Yet, there is probably more popular antagonism toward this program today than ever before—the result, in part, both of misunderstanding about the nature and operation of the program and of dissatisfaction with specific projects which were improperly designed and poorly administered.

In order to help restore public confidence in the urban renewal program, I offered an amendment to the pending bill during subcommittee and full committee consideration which would require the holding of a public referendum on proposed urban renewal projects in communities with populations of 150,000 or less. Although this amendment was rejected, as similar amendments which I offered to housing bills in 2 prior years were also rejected, I believe there is growing recognition among Members that a referendum requirement

could stimulate better performance, and so I intend to offer the amendment when the bill comes to the House floor.

This is not an anti-urban-renewal amendment. I have supported urban renewal legislation throughout my service in Congress, and I believe that, wisely administered, the program can make increased contributions toward the rehabilitation of urban communities.

All too often, however, the people of a community have been the missing ingredient in urban renewal. The people have a right to know and to participate in making the community's decision about urban renewal, and urban renewal needs the enlightened understanding of the community. Urban renewal is a unique program in that it uses public funds and the power of eminent domain with which to force private owners to sell their property for resale to other private owners. This fact, plus the communitywide impact of urban renewal projects, especially in smaller communities, requires the involvement of the people in the process of rebuilding their own cities—an objective recognized as fundamental in urban redevelopment legislation.

Yet, in community after community, local development agencies positively discourage citizen interest and participation and function in ways more appropriate to boards of directors of private corporations, thereby inviting some of the public opposition they have encountered.

By giving the people the right to make the decision on an urban renewal project, yes or no, the referendum I propose would (a) provide the means and the incentive for the people to involve themselves in and inform themselves about the community's redevelopment plans, and (b) motivate the planners to take the people into their confidence, to provide meaningful information, and to do as careful and effective a job as possible of advance planning of the project in anticipation of the referendum. This kind of care, and planning, and the knowledge that an unhappy people can kill the project can make the difference between good urban renewal and bad.

To many who have experienced it, urban renewal has not been an unmixed blessing. And the lower down the income scale these people have been, the more they have been hurt. The low-income worker, the struggling small businessman, the family on relief—all have been badly hurt, especially in attempting to relocate their homes and businesses, when individual urban renewal projects were deficient in planning or implementation. The record is discouragingly full of documented reports of hardship, dislocation, disruption, higher rents, vacant land, Negro removal, new slums, the unnecessary destruction of viable neighborhoods, and a host of other ills resulting directly from badly planned and mishandled projects.

Smaller communities have been especially vulnerable to such unfortunate experiences with urban renewal due in part to the lack of adequately trained and experienced professional staff and to their relatively poor bargaining position vis-a-vis potential commercial developers. Moreover, in communities with populations of 150,000 or less, a single urban renewal project has a much more direct and immediate impact on the community as a whole than similar projects have in larger cities. For these reasons, plus the prohibitive cost of repeated referendums in larger cities having active urban renewal programs involving many individual projects, I have limited my amendment to smaller communities.

To my knowledge, only two significant objections have been raised to the referendum requirement: First, the theoretical one that a

referendum interferes with the concept of representative government in which elected local officials have the responsibility of making urban renewal decisions, and second, the practical one that most communities would defeat urban renewal referendums.

Neither objection is convincing, in my judgment. The country has a long history of submitting public questions to a referendum, including such issues as State constitutional amendments, local school budgets, bond issues, etc., as well as urban renewal in certain States and localities. No discernible damage to the principle of representative government has resulted. Nor, judging from the record during the past 3 years of urban renewal, bond issue and related questions submitted to local referendums, do communities invariably reject them. Of 60 such referendums, 30 have received majorities and 30 have been defeated.

It is a question of trusting the people. As they do in other elections, people tend to vote on the merits of a referendum issue as they see them. I am confident that, given a sound urban renewal plan and the expectation of a competent job of administration, the people will vote accordingly.

In view of the fact that the present bill includes an authorization of \$250 million for urban renewal, over and above existing authorizations, this is an appropriate opportunity to strengthen the urban renewal program by giving the people the right to participate in decisions that have such a fundamental impact on the future of their communities.

Two final observations about this legislation should be made. First, title II, dealing with planned metropolitan development, has been greatly improved. By removing objectionable features which would have forced local communities to abdicate their decisionmaking responsibilities in favor of a regional planning body as a condition of eligibility for supplemental Federal program grants, and by replacing these with provisions very similar to spirit and effect to provisions of my Intergovernmental Cooperation Act, now pending before another committee, the revised version of this bill could make a most constructive contribution to better planning and greater cooperation among local communities which share related problems.

Second, I am greatly heartened by the committee's decision to remove from the bill the thoroughly unjustified collection of special exceptions—or special subsidies—for local projects which would otherwise not qualify as local grants-in-aid in connection with local urban renewal programs. As I emphasized to the committee, in support of my motion to strike these projects from the bill, and as the Department of Housing and Urban Development has since confirmed, these special projects could cost the urban renewal program more than \$750 million, more than its total authorization for the current fiscal year, bring the program to an immediate halt, prevent other communities from participating, sacrifice residential housing in favor of luxury projects like stadiums and cultural centers, and threaten to destroy one of the Federal Government's most important tools in the effort to rebuild our urban communities. On the other hand, however, the possible effect of the committee's changes to section 701 should be thoroughly studied prior to House consideration of the bill.

FLORENCE P. DWYER.

ADDITIONAL VIEWS OF REPRESENTATIVE BILL BROCK

The minority has stated a factual case in opposition to this legislation, and I concur. However, I feel that additional attention should be directed to the section relating to "Demonstration Cities."

Federal specific grant programs have in many instances aroused my opposition in the past either because I felt they were unwarranted, wasteful, incompetently drawn, debilitated local responsibility through excessive controls, or resulted in an unwise reallocation of funds to projects with less than top priority.

Even so, never did I imagine this Government would have to resort to the device of subsidizing people to take a subsidy as this section does. The tactic is inconceivable, the method of implementation is incredible.

Should a particular subsidy be insufficient, it is hypocritical to hide an additional increase in this bill rather than amend the basic program. Should these subsidies not be insufficient, then it becomes patently clear that the motivation of this bill is founded upon a basic lack of faith in local government and represents solely a stronger device to control it.

Regardless of this, it is politically easy for an individual Member to say a particular bill will relieve problems in his area and ignore its long-range implications. We must not take this easy way on the "Demonstration Cities" title.

Thus, knowing the normal tendency of Members to depend upon their colleagues on the committee in complicated legislation, may I simply urge you in at least this one instance to take 5 or 10 minutes from an obviously overworked schedule and read the first 15 pages of H.R. 15890.

When the bill says that "the Congress further finds and declares that cities, of all sizes, do not have adequate resources to deal effectively with the critical problems facing them," pause for a quiet moment and ask yourself "why"? Do you honestly believe that all local and State officials of these United States are either inefficient, incompetent, or corrupt? Do you honestly believe that they don't care, that they are not doing the best possible job with the resources available for the people in their area? Is it not true that sooner or later in our American political system those who might fall into the above categories will ultimately be found out by the people and fired for their failure?

If this be so, then is it not possible that our local communities are in troubled waters because we in Washington have preempted their tax base, have vitiated their ability to respond to the needs of their own people? Can we honestly say that subsidizing subsidies in order to impose even more control and assume even more local responsibilities reflects a sincere effort on the part of this Congress to redress these problems? When are we going to face up to the basic issue—that of

expanding the tax base so that public servants in the courthouse can really serve the public?

When the demonstration cities bill was originally considered, its legislative language said "the purpose of this title is to provide the additional financial aid needed to enable cities to participate more effectively in existing Federal assistance programs". The language of the amendment to the Senate bill is not quite the same, but the intent and the thrust of it are no different.

Would it not be the essence of responsible self-evaluation to ask ourselves, "Where have we failed?" If after decades of massive Federal specific grant programs we come finally to the conclusion that our cities cannot effectively utilize many of these programs, is it not time to pause and reevaluate our past efforts?

When the bill takes four pages just to list those areas in which national controls and standards must be substituted for local judgment and initiative, doesn't this ring a small bell? If our local communities are unable or unwilling to establish reasonable criteria, as this language implies, then perhaps we had best reexamine the root structure of America. This Nation can be no stronger than each citizen's "hometown." If we doubt their responsiveness, and I do not, then we must also pause briefly to wonder, "Where lies the future of our Federal system?" Certainly it is also fair to ask whether Federal assumption of local responsibility is part of the solution or part of the problem.

Sooner or later we must face up to the question of the viability of our system in modern America. This is the most basic problem of all, and I, for one, am not afraid to seek the answer. We, in this Nation must continuously address ourselves to the overall political complex of interrelated and interdependent, city, county, State, and Federal Governments. If we will appraise our current effectiveness, and based upon this appraisal make a decision as to future governmental composition, then I don't fear those solutions which may be forthcoming.

But let us not in the name of political expediency or financial crisis direct our attention to the symptoms only. If we, in our haste to act, destroy the existing structure without giving sufficient thoughts, and taking sufficient steps, to replace it—then we will have failed those who will direct the Nation tomorrow.

Yes, we are politicians, but as successful politicians, we have accepted a responsibility. It is time we had the integrity to stand or fall based upon how well we meet this responsibility. Should our job become more important to us than the institution we call America, then we will cease to earn the title of a great, or even a free, society.

I don't ask you to defeat this bill and then forget the problem. It should be defeated, but only with eyes open and minds excited over the challenge our action affords. I ask you to seize upon a unique opportunity to focus the enormous intellectual talents of this Congress and this Nation upon the total Federal system, its tax base and its makeup, its strengths, and its weaknesses, fully aware of the impact its formulation will have on the future of freedom.

BILL BROCK.

INDIVIDUAL VIEWS OF CONGRESSMAN BURT L. TALCOTT

I generally concur with the minority views and the additional views of Representative Florence P. Dwyer relating to the proposal to require a referendum in the urban renewal approval procedure.

Much more should be said, but time does not permit.

The Congress, all local and State officials, and all citizens of the United States should be forewarned of the proposal for "New Communities"—title IV of this bill. It could be the most devastating encroachment by the Federal central bureaucracy upon the functions of local government, private enterprise, and individual freedom yet concocted by the Federal planners.

"FEDERAL SUBURBS" AND "GOVERNMENT TOWNS"

"Satisfactory to the *Secretary*," "as the *Secretary* deems reasonable," "if the *Secretary* determines," "approved by the *Secretary*," "regulated in a manner acceptable to *him*," "which *he* finds consistent," "meeting criteria established by the *Secretary*," "the *Secretary* shall adopt such requirements as *he* deems necessary."

What is a "new town," or a "new community," as the Department calls it?

There is no adequate definition except as may exist in the Department's mind. If this legislation is enacted into law, new communities will be whatever the Secretary of HUD says they will be. In proof of this is the language of the proposed departmental legislation: "satisfactory to the *Secretary*," "as the *Secretary* deems reasonable," "if the *Secretary* determines," "approved by the *Secretary*," "regulated in a manner acceptable to *him*," "which *he* finds consistent," "meeting criteria established by the *Secretary*," "the *Secretary* shall adopt such requirements as *he* deems necessary," etc. The phraseology is repetitious.

This proposed legislation is something that the Congress has not been willing to consider despite three prior recommendations by the Department. It does provide a considerable subsidy for selected large entrepreneurs, an ill-concealed "bailout" operation for a favored few, but this is not legislation in the public interest. The ideas on which the new town legislative proposals are based are yet to be proven and the new town experiments to date have been well characterized as "oversized subdivisions with oversized problems."

The "new towns" as proposed and as they presently exist are also not a lesson in democracy. The kindest definition of them from a political standpoint is that they are "benevolent dictatorships," so run by their developers in a mixture of self-preservation and self-interest. The Department is proposing, possibly unthinkingly, that the title of dictator rests better with the Secretary than with the

developers. This gives believers in our present political system a poor choice from which to make a bad decision.

All of the "new towns" currently in existence are fighting desperately to establish an economic base. They need it to breathe life into their moribund communities which have learned that they cannot exist on dreams alone and must have dollars to go with those dreams and dollars in large figures. Consequently, most of the "new towns" developers are at Washington's door, hat in hand, looking for some form of Government subsidy. Preferably, this subsidy should adopt the disguise which would have the Government establish one of its multipurpose bureaus within the new town's city limits. This, of course, would just increase the further unnecessary investment of public funds, but no one other than the Federal Government seems to have the large amounts of money that are necessary to make one of these artificial communities work.

Since considerable sums of money are necessary to make a new town go, it follows that those living there must bring it with them. So we have the paradox of the Department talking in terms of building low- and moderate-income housing within the new community that desperately needs heavy taxpayments just to maintain itself. New streets, sewers, and water facilities cost money, particularly in these days of the inflated dollars, and particularly when a developer or the Government has made the arbitrary decision that a town will be built here.

Obviously, artificial communities such as are conceived under this proposed title of the bill are going to be under Government domination, direct and indirect, for a long time to come if the new towns are going to be propped up and kept going. Administrative authority is going to be the guiding principle and for the first time we are going to have our people told where to live and under what conditions. But there probably is no other control possible if these are going to be rubberstamped "new towns" put down wherever the Government decides it has an economic, political, or personal reason.

At any rate, judging from the difficulties encountered by such communities to date, the risks are great and the benefits are nebulous.

But why are we building new towns? To take care of our burgeoning population?

That is the best answer to date, but not one that is satisfying to the country's mayors and councilmen, all of them in a constant struggle to *rebuild* and *maintain* their existing cities. They see, with considerable reality, "new towns" as a threat to their tax base, as an overly hungry contender for Federal funds, support, and preference.

The mayors and councilmen are struggling for industry, citizens, and a better way of life for the people within their communities. They already have the competition of the suburbs, which grew naturally. Now, they are faced with the Government rubberstamping whole new, expensive, artificial communities in their vicinity which will feed upon them, but contribute nothing to their continued existence.

The National Association of Homebuilders put it differently. They said they were against the Government destroying the system of private ownership of land.

The proposal has so much and so many against it that it is amazing to me that it could be proposed at such an unlimited and costly expense to the taxpayers. If the benefits were for the many, we

could understand the Department's stand. But they are for the few. If the history of new towns was extensive and marked with success, we could understand the Department's adamant stand. But the history is a spotty one of financial failure and heavy subsidy. If the solutions to the apparent problems were at hand, we could envision some compromise. But no solutions have been sought, the proponents do not even admit of the obvious problems existing.

I do not think the Government can afford the millions that are required to be expended while the Department's thinking matures.

The so-called new towns or new communities can only sap the vitality of established towns and communities. The subsidized new towns will be parasitic—sucking revenues from other communities for artificial sustenance and making the preservation and revitalization of our established communities more difficult.

These new "government towns" or "Federal suburbs" will have all the disadvantages of old "company towns" or military posts. Those who live near a large military base can easily appreciate living on the post and having your town "regulated in a manner satisfactory to the Secretary of DOD." What difference, if any, would there be in another Federal town "regulated in a manner acceptable to the Secretary of HUD"?

The "HUD towns" would certainly sap the neighboring conventional "civilian" towns more than the present military "DOD towns."

Persons can and would prefer to build and own their own homes; citizens of a community can and would prefer to build and own their own towns.

There are many better, more effective and more practicable methods for the Federal Government to assist local governments with their chronic problems. Local officials have the talent, experience, concern, and scrutiny to solve their local problems—whether educational or purely governmental. Local municipalities lack only the funds to finance necessary projects. Local tax sources—property and sales—are overburdened and saturated. The income tax should be used for these purposes. The Federal Government has usurped the income tax source—and has the collection machinery well oiled.

The Federal Government should share income tax revenues with the individual States for education and such local governmental purposes as are proposed in this bill.

Special Federal categorical subsidies and subventions for a myriad local purposes are inequitable, extravagant, wasteful, and mediocre.

My bill, H.R. 10717, provides a Federal revenue sharing plan for educational purposes. It is the soundest proposal yet for improving our elementary and secondary education system. A similar proposal of Federal tax sharing with the States for local governmental purposes would be a better, more effective, less expensive, and more acceptable method for solving the governmental problems of our local communities.

I urge approval of an amendment to require a public referendum to approve urban renewal projects and an amendment to delete title IV proposing "government towns" and Federal cities.

BURT L. TALCOTT.

ADDITIONAL VIEWS OF REPRESENTATIVE DEL CLAWSON

In supporting the minority views in opposition to this bill, I concur particularly with those arguments which expressly reveal the wide variety of programs, the numerous Federal agencies involved and the overlapping implementation of the federally supported projects. Most significant, I feel are the statistics on the amount of money appropriated, the projects approved but not begun, the volume of authorized yet unencumbered funds. The most dramatic statistic perhaps is that used in the report which indicates that as of January 1, 1966, the figure for urban renewal funds authorized since 1949 stood at \$7.6 billion. Of this \$7.6 billion, \$5.6 billion is committed and only \$1.5 billion actually spent.

The Federal Government spreads before the cities not a buffet or banquet but a bewildering Lucullan feast of aid. But aside from the questionable proposals that build project on project and overlap program with program, where is the logic in authorizing and appropriating additional funds when billions are yet unspent and other authorized billions are yet to be committed? Why not permit a breathing spell to see what we have done and where we are going? Place the burden upon those agencies and departments involved in the numerous programs to do the job assigned to them and give an accounting of their performance before launching upon a series of new and untried programs that could very possibly result in failure for both the new and the old. It is conceivable that employees could not be hired in numbers sufficient to perform efficiently the total job that is contemplated in this bill while continuing to carry out those functions and complete the projects currently in the pipeline.

If the presently authorized billions were put to work how many employees would be added to the Federal payroll and just how adequate (with the value of the 1966 dollar) would the funds appropriated in the 1950's prove to do the job for which they were originally intended?

Unless an attempt is made to resolve some of these basic questions passage of this bill will merely supply some finishing touches to an inverse pyramid of overlapping Federal programs which must finally topple of its own weight and imbalance.

In connection with the criticisms outlined above, Members of the House might be interested in reading the following story that appeared in the Washington Daily News of July 14, 1966. Because of the current extremely tight credit market, it further fortifies my opposition to a broad new Federal spending program at this critical time.

[From the Washington Daily News, Thursday, July 14, 1966]

BANKS BACK OFF RENEWAL LOANS

(By William Steif, Scripps-Howard staff writer)

The U.S. Treasury has just been socked with an unexpected \$44.7 million expense because of the first refusal of private banks to finance urban renewal loans.

As a result, slum clearance in some cities may be slowed.

The cities draw on proceeds of the loans occasionally to pay for their urban renewal work.

BIDS OPENED

Bids were opened this week on \$106,445,000 worth of federally guaranteed, short-term notes. Government financial experts running the bidding were shocked to find they had sold only \$61,683,000 worth of the tax-exempt notes—and at a record high interest rate of 4.11 percent. The prior month \$102,883,000 worth of notes sold out at 3.57 percent interest.

When there are no buyers for the 6-month to 1-year notes the Treasury, by law, must step in and pay off the obligations. This never happened before in the 13 years that cities' urban renewal notes have been sold on a regular basis.

About \$1.5 billion in this type of debt is outstanding. Every month some of it is refinanced through sale of the notes.

"We have had no trouble selling them," one official said today. "The only reason for this failure is that there is absolutely no loose money around."

He said between \$100 million and \$150 million in such notes would be up for sale in August and "we could have the same experience."

Officials in the Housing and Urban Development Department conceded that when interest rates soar as high as they are today, costs of urban renewal projects rise substantially. This may cause a number of cities to defer slum clearance. The cities pay a third of the public costs of urban renewal and the United States pays two-thirds.

Delays in urban renewal eventually could balance off the current drain on the Treasury, although city renewal programs would suffer.

HUD officials said new notes will be offered for sale later this year in place of the \$44,762,000 worth of unsold notes. The plan is to shorten the terms—almost half of the unsold notes were 1-year obligations—and to break the new notes into smaller denominations, so that small local banks can bid on them. Until now, giant banks such as California's Bank of America and New York's First National City have been the chief purchasers.

* * *

The record when the Treasury next tried to market urban renewal bonds on August 16, 1966, was worse; \$75.2 million of a total of \$129.8 million were not sold, when offered.

DEL CLAWSON.

INDIVIDUAL VIEW OF CONGRESSMAN CHESTER L. MIZE

There is—in my opinion—enough legislation on the books at present in the fields of renewal, housing, transportation, education, economic opportunity, and related programs—to make the demonstration cities program—absolutely unnecessary.

Under the bill, the Federal Government would have to make additional billions of dollars available to help selected cities undertake rehabilitation programs in a single demonstration area in the city. In the first year a modest \$12 million is available for planning—but the bulk of the money to be provided over the next 2 years to carry out the plans would exceed a billion. One of the leading members of the Housing subcommittee—stated that it would be impossible to accurately estimate the total cost of the program.

The main thrust of the bill is to combine traditional slum clearance programs such as urban renewal with a wide variety of social welfare programs. It is just another example of piling on additional programs to existing programs to accomplish the same objectives. Why don't we stop adding new legislation in the field of housing—and urban development—and give existing legislation an opportunity to achieve their objective—before initiating additional efforts. Furthermore—with budget deficit facing us—this is the kind of thing that should be eliminated by not starting it.

CHESTER L. MIZE.

Union Calendar No. 886

89TH CONGRESS
2D SESSION

S. 3708

[Report No. 1931]

IN THE HOUSE OF REPRESENTATIVES

AUGUST 22, 1966

Referred to the Committee on Banking and Currency

SEPTEMBER 1, 1966

Reported with an amendment, committed to the Committee of the Whole House on the State of the Union, and ordered to be printed

[Strike out all after the enacting clause and insert the part printed in italic]

AN ACT

To assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*
3 That this Act may be cited as the "Demonstration Cities
4 and Metropolitan Development Act of 1966".

1 TITLE I—COMPREHENSIVE CITY DEMONSTRA-
2 TION PROGRAMS

3 FINDINGS AND DECLARATION OF PURPOSE

4 SEC. 101. The Congress hereby finds and declares that
5 improving the quality of urban life is the most critical do-
6 mestic problem facing the United States. The persistence
7 of widespread urban slums and blight, the concentration of
8 persons of low income in older urban areas, and the unmet
9 needs for additional housing and community facilities and
10 services arising from rapid expansion of our urban popula-
11 tion have resulted in a marked deterioration in the quality
12 of the environment and the lives of large numbers of our
13 people while the Nation as a whole prospers.

14 The Congress further finds and declares that cities, of
15 all sizes, do not have adequate resources to deal effectively
16 with the critical problems facing them, and that Federal
17 assistance in addition to that now authorized by the urban
18 renewal program and other existing Federal grant-in-aid
19 programs is essential to enable cities to plan, develop, and
20 conduct programs to improve their physical environment,
21 increase their supply of adequate housing for low- and mod-
22 erate-income people, and provide educational and social
23 services vital to health and welfare.

24 The purposes of this title are to provide additional finan-

1 eial and technical assistance to enable cities of all sizes (with
2 equal regard to the problems of small as well as large cities)
3 to plan, develop, and carry out locally prepared and sched-
4 uled comprehensive city demonstration programs containing
5 new and imaginative proposals to rebuild or revitalize large
6 slum and blighted areas; to expand housing, job, and income
7 opportunities; to reduce dependence on welfare payments; to
8 improve educational facilities and programs; to combat dis-
9 ease and ill health; to reduce the incidence of crime and de-
10 linquency; to enhance recreational and cultural opportunities;
11 to establish better access between homes and jobs; and gen-
12 erally to improve living conditions for the people who live
13 in such areas; and to accomplish these objectives through the
14 most effective and economical concentration and coordina-
15 tion of Federal, State, and local public and private efforts
16 to improve the quality of urban life.

17 BASIC AUTHORITY

18 SEC. 102. The Secretary of Housing and Urban De-
19 velopment (hereinafter referred to as the "Secretary") is
20 authorized to make grants and provide technical assistance,
21 as provided by this title, to enable city demonstration agen-
22 cies (as defined in section 112(2)) to plan, develop, and
23 carry out comprehensive city demonstration programs in ac-
24 cordance with the purposes of this title.

ELIGIBILITY FOR ASSISTANCE

SEC. 103. (a) A comprehensive city demonstration program is eligible for assistance under sections 105 and 107 only if—

(1) physical and social problems in the area of the city covered by the program are such that a comprehensive city demonstration program is necessary to carry out the policy of the Congress as expressed in section 101;

(2) the program is of sufficient magnitude to make a substantial impact on the physical and social problems and to remove or arrest blight and decay in entire sections or neighborhoods; to contribute to the sound development of the entire city; to make marked progress in reducing social and educational disadvantages, ill health, underemployment, and enforced idleness; and to provide educational, health, and social services necessary to serve the poor and disadvantaged in the area; widespread citizen participation in the program, maximum opportunities for employing residents of the area in all phases of the program, and enlarged opportunities for work and training;

(3) the program, including rebuilding or restoration, will contribute to a well-balanced city with a substantial increase in the supply of standard housing of

low and moderate cost, maximum opportunities in the choice of housing accommodations for all citizens of all income levels, adequate public facilities (including those needed for education, health and social services, transportation and recreation), commercial facilities adequate to serve the residential areas, and ease of access between the residential areas and centers of employment;

(4) the various projects and activities to be undertaken in connection with such programs are scheduled to be initiated within a reasonably short period of time; adequate local resources are, or will be, available for the completion of the program as scheduled, and, in the carrying out of the program, the fullest utilization possible will be made of private initiative and enterprise; administrative machinery is available at the local level for carrying out the program on a consolidated and coordinated basis; substantive local laws, regulations, and other requirements are, or can be expected to be, consistent with the objectives of the program; there exists a relocation plan meeting the requirements of the regulations referred to in section 107; the local governing body has approved the program and, where appropriate, applications for assistance under the program; agencies whose cooperation is necessary to the success of the program have indicated their intent to furnish such coopera-

tion; the program is consistent with comprehensive planning in the entire urban or metropolitan area; and the locality will maintain, during the period an approved comprehensive city demonstration program is being carried out, a level of aggregate expenditures for activities similar to those being assisted under this title which is not less than the level of aggregate expenditures for such activities prior to initiation of the comprehensive city demonstration program; and

~~(5)~~ the program meets such additional requirements as the Secretary may establish to carry out the purposes of this title.

~~(b)~~ In implementing this title the Secretary shall--

~~(1)~~ emphasize local initiative in the planning, development, and implementation of comprehensive city demonstration programs;

~~(2)~~ insure, in conjunction with other appropriate Federal departments and agencies and at the direction of the President, maximum coordination of Federal assistance provided in connection with this title, prompt response to local initiative, and maximum flexibility in programing, consistent with the requirements of law and sound administrative practice; and

~~(3)~~ encourage city demonstration agencies to ~~(A)~~ enhance neighborhoods by applying a high standard of

design, (B) maintain, as appropriate, natural and historic sites and distinctive neighborhood characteristics, and (C) make maximum possible use of new and improved technology and design, including cost reduction techniques.

FINANCIAL ASSISTANCE FOR PLANNING COMPREHENSIVE
CITY DEMONSTRATION PROGRAMS

SEC. 104. (a) The Secretary is authorized to make grants to, and to contract with, city demonstration agencies to pay 80 per centum of the costs of planning and developing comprehensive city demonstration programs.

(b) Financial assistance will be provided under this section only if (1) the application for such assistance has been approved by the local governing body of the city, and (2) the Secretary has determined that there exist (A) administrative machinery through which coordination of all related planning activities of local agencies can be achieved, and (B) evidence that necessary cooperation of agencies engaged in related local planning can be obtained.

FINANCIAL ASSISTANCE FOR APPROVED COMPREHENSIVE
CITY DEMONSTRATION PROGRAMS

SEC. 105. (a) The Secretary is authorized to approve comprehensive city demonstration programs if, after review of the plans, he determines that such plans satisfy the criteria for such programs set forth in section 103.

(b) The Secretary is authorized to make grants to, and to contract with, city demonstration agencies to pay 80 per centum of the cost of administering approved comprehensive city demonstration programs, but not the cost of administering any project or activity assisted under a Federal grant-in-aid program.

(c) To assist the city to carry out the projects or activities included within an approved comprehensive city demonstration program, the Secretary is authorized to make grants to the city demonstration agency of not to exceed 80 per centum of the aggregate amount of non-Federal contributions otherwise required to be made to all projects or activities assisted by Federal grant-in-aid programs (as defined in section 112(1)) which are carried out in connection with such demonstration program: *Provided*, That no Federal grant-in-aid program shall be considered to be carried out in connection with such demonstration program unless it is closely related to the physical and social problems in the area of the city covered by the program and unless it can reasonably be expected to have a noticeable effect upon such problems. The specific amount of any such grant shall take into account the number and intensity of the economic and social pressures in the sections or neighborhoods involved, such as those involving or resulting from population density, poverty levels, unemployment rate, pub-

1 lie welfare participation, educational levels, health and dis-
 2 ease characteristics, crime and delinquency rate, and degree
 3 of substandard and dilapidated housing. The amount of
 4 non-Federal contribution required for each project in a
 5 Federal grant-in-aid program shall be certified to the Secere-
 6 tary by the Federal department or agency (other than the
 7 Department of Housing and Urban Development) admin-
 8 istering such program, and the Secretary shall accept such
 9 certification in computing the grants hereunder.

10 ~~(d)~~ Grant funds provided to assist projects and activ-
 11 ities included within an approved comprehensive city demon-
 12 stration program pursuant to subsection ~~(c)~~ of this section
 13 shall be made available to assist new and additional projects
 14 and activities not assisted under a Federal grant-in-aid pro-
 15 gram. To the extent such funds are not necessary to support
 16 fully such new and additional projects and activities, they
 17 may be used and credited as part or all of the required non-
 18 Federal contribution to projects or activities, assisted under
 19 a Federal grant-in-aid program, which are part of an ap-
 20 proved comprehensive city demonstration program. Such
 21 grant funds, however, shall not be used—

22 ~~(1)~~ for the general administration of local govern-
 23 ments; or

24 ~~(2)~~ to replace non-Federal contributions in any

1 federally aided project or activity included in an ap-
2 proved comprehensive city demonstration program, if
3 prior to the filing of an application for assistance under
4 section 104 an agreement has been entered into with
5 any Federal agency obligating such non-Federal con-
6 tributions with respect to such project or activity.

7 **TECHNICAL ASSISTANCE**

8 **SEC. 106.** The Secretary is authorized to undertake such
9 activities as he determines to be desirable to provide, either
10 directly or by contracts or other arrangements, technical
11 assistance to city demonstration agencies to assist such agen-
12 cies in planning, developing, and administering compre-
13 hensive city demonstration programs.

14 **RELOCATION REQUIREMENTS AND PAYMENTS**

15 **SEC. 107.** (a) A comprehensive city demonstration
16 program shall include a plan for the relocation of individuals,
17 families, business concerns, and nonprofit organizations dis-
18 placed or to be displaced in the carrying out of such pro-
19 gram. The relocation plan shall be consistent with regu-
20 lations prescribed by the Secretary to assure that (1) the
21 provisions and procedures included in the plan meet relo-
22 cation standards equivalent to those prescribed under sec-
23 tion 105(e) of the Housing Act of 1949 with respect to
24 urban renewal projects assisted under title I of that Act,
25 and (2) relocation activities are coordinated to the maxi-

1 to the maximum extent feasible with the increase in the supply of decent,
2 safe, and sanitary housing for families and individuals of low
3 or moderate income, as provided under the comprehensive
4 city demonstration program, or otherwise, in order to best
5 maintain the available supply of housing for all such families
6 and individuals throughout the city.

7 ~~(b)(1)~~ To the extent not otherwise authorized under
8 any Federal law, financial assistance extended to a city
9 demonstration agency under section 105 shall include grants
10 to cover the full cost of relocation payments, as herein de-
11 fined. Such grants shall be in addition to other financial
12 assistance extended to such agency under section 105.

13 ~~(2)~~ The term "relocation payments" means payments
14 by a city demonstration agency to a displaced individual,
15 family, business concern, or nonprofit organization which
16 are made on such terms and conditions and subject to such
17 limitations ~~(to the extent applicable, but not including the~~
18 date of displacement) as are provided for relocation pay-
19 ments, at the time such payments are approved, by sections
20 114 ~~(b), (c), (d), and (e)~~ of the Housing Act of 1949
21 with respect to projects assisted under title I thereof.

22 ~~(c)~~ Subsection ~~(b)~~ shall not be applicable with respect
23 to any displacement occurring prior to the date of the enact-
24 ment of this Act.

1 CONTINUED AVAILABILITY OF FEDERAL GRANT-IN-AID
2 PROGRAMS

3 SEC. 108. Notwithstanding any other provision of law,
4 unless hereafter enacted expressly in limitation of the pro-
5 visions of this section, funds appropriated for a Federal
6 grant-in-aid program which are reserved for any projects or
7 activities assisted under such grant-in-aid program and un-
8 dertaken in connection with an approved comprehensive city
9 demonstration program shall remain available until expended.

10 CONSULTATION

11 SEC. 109. In carrying out the provisions of this title,
12 including the issuance of regulations, the Secretary shall
13 consult with other Federal departments and agencies ad-
14 ministering Federal grant-in-aid programs. The Secretary
15 shall consult with each Federal department and agency
16 affected by each comprehensive city demonstration program
17 before entering into a commitment to make grants for such
18 program under section 105.

19 LABOR STANDARDS

20 SEC. 110. (a) All laborers and mechanics employed
21 by -contractors -or -subcontractors in the -construction, re-
22 habilitation, alteration, or repair of projects which—

23 ~~(1)~~ are federally assisted in whole or in part under
24 this title and

1 ~~(2)~~ are not otherwise subject to section 212 of the
 2 National Housing Act, section 16~~(2)~~ of the United
 3 States Housing Act of 1937, section 109 of the Housing
 4 Act of 1949, or any other provision of Federal law
 5 imposing labor standards on federally assisted construc-
 6 tion,
 7 shall be paid wages at rates not less than those prevailing
 8 on similar construction in the locality as determined by the
 9 Secretary of Labor in accordance with the Davis-Bacon
 10 Act, as amended ~~(40 U.S.C. 276a-276a-5)~~: *Provided*, That
 11 this section shall apply to the construction, rehabilitation,
 12 alteration, or repair of residential property only if such resi-
 13 dential property is designed for residential use for eight or
 14 more families. No financial assistance shall be extended to
 15 any such projects unless adequate assurance is first obtained
 16 that these labor standards will be maintained upon the con-
 17 struction work.

18 ~~(b)~~ The Secretary of Labor shall have, with respect
 19 to labor standards specified in subsection ~~(a)~~, the authority
 20 and functions set forth in Reorganization Plan Numbered
 21 14 of 1950 ~~(15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 133z-~~
 22 ~~15)~~, and section 2 of the Act of June 13, 1934, as amended
 23 ~~(48 Stat. 948; 40 U.S.C. 276e)~~, and the Contract Work
 24 Hours Standards Act ~~(76 Stat. 357)~~.

APPROPRIATIONS

2 SEC. 111. (a) There are authorized to be appropriated,
3 for the purpose of financial assistance and administrative
4 expenses under section 104, not to exceed \$12,000,000 for
5 the fiscal year ending June 30, 1967, and not to exceed
6 \$12,000,000 for the fiscal year ending June 30, 1968.

7 ~~(b)~~ There are authorized to be appropriated, for the
8 purpose of financial assistance and administrative expenses
9 under sections 105, 106, and 107, not to exceed \$400,000,—
10 000 for the fiscal year ending June 30, 1968, and not to
11 exceed \$500,000,000 for the fiscal year ending June 30,
12 1969.

13 ~~(c)~~ Appropriations authorized under this section shall
14 remain available until expended.

DEFINITIONS

16 ~~SEC. 112~~ As used in this title—

(1) ~~“Federal grant-in-aid program” means a program~~
of Federal financial assistance other than loans and other
than the assistance provided by this title.

20 ~~(2)~~ "City demonstration agency" means the city, the
21 county, or any local public agency established or designated
22 by the local governing body of such city or county to adminis-
23 ter the comprehensive city demonstration program.

24 ~~(3) "City" means any municipality (or two or more~~

1 municipalities acting jointly); or any county or other public
 2 body (or two or more acting jointly) having general govern-
 3 mental powers.

4 (4) "Local" agencies include State agencies and in-
 5 strumentalities providing services or resources to a city or
 6 locality, and "local" resources include those provided to a
 7 city or locality by a State or its agency or instrumentality.

8 GRANT AUTHORITY FOR URBAN RENEWAL PROJECTS
 9 WHICH ARE PART OF APPROVED COMPREHENSIVE
 10 CITY DEMONSTRATION PROGRAMS

11 SEC. 113. Section 103(b) of the Housing Act of 1949
 12 is amended by inserting after the first sentence the follow-
 13 ing new sentence: "In addition to the authority to make
 14 grants provided in the first sentence of this subsection, the
 15 Secretary may contract to make grants under this title, on or
 16 after July 1, 1967, in an amount not to exceed \$250,000,-
 17 000: *Provided*, That the authority to contract to make
 18 grants provided by this sentence shall be exercised only
 19 with respect to an urban renewal project which is identified
 20 and scheduled to be carried out as one of the projects or
 21 activities included within an approved comprehensive city
 22 demonstration program assisted under the provisions of sec-
 23 tion 105(e) of the Demonstration Cities and Metropolitan
 24 Development Act of 1966".

STATE LIMITATION

SEC. 114. Grants made under section 105 for projects in any one State shall not exceed in the aggregate 15 per centum of the aggregate amount of funds authorized to be appropriated under section 111.

TITLE II—PLANNED METROPOLITAN

DEVELOPMENT

FINDINGS AND DECLARATION OF PURPOSE

SEC. 201. (a) The Congress hereby finds that the welfare of the Nation and of its people is directly dependent upon the sound and orderly development and the effective organization and functioning of the metropolitan areas in which two-thirds of its people live and work.

It further finds that the continuing rapid growth of these areas makes it essential that they prepare, keep current, and carry out comprehensive plans and programs for their orderly physical development with a view to meeting efficiently all their economic and social needs.

It further finds that metropolitan areas are especially handicapped in this task by the complexity and scope of governmental services required in such rapidly growing areas, the multiplicity of political jurisdictions and agencies involved, and the inadequacy of the operational and administrative arrangements available for cooperation among them.

It further finds that present requirements for areawide

1 planning and programing in connection with various Federal
2 programs have materially assisted in the solution of metro-
3 politan problems; but that greater coordination of Federal
4 programs and additional participation and cooperation are
5 needed from the States and localities in perfecting and
6 carrying out such efforts.

7 (b) It is the purpose of this title to provide, through
8 greater coordination of Federal programs and through sup-
9 plementary grants for certain federally assisted develop-
10 ment projects; additional encouragement and assistance to
11 States and localities for making comprehensive metropolitan
12 planning and programing effective.

13 COOPERATION BETWEEN FEDERAL AGENCIES

14 SEC. 202. In order to insure that all Federal programs
15 related to metropolitan development are carried out in a
16 coordinated manner—

17 (1) the Secretary is authorized to call upon other
18 Federal agencies to supply such statistical data; pro-
19 gram reports; and other materials as he deems necessary
20 to discharge his responsibilities for metropolitan devel-
21 opment; and to assist the President in coordinating the
22 metropolitan development efforts of all Federal agen-
23 cies; and

24 (2) all Federal agencies which are engaged in

administering programs related to metropolitan development, or which otherwise perform functions relating thereto, shall, to the maximum extent practicable, consult with and seek advice from all other significantly affected Federal departments and agencies in an effort to assure fully coordinated programs.

METROPOLITAN EXPEDITERS

~~SEC. 203.~~ Upon the request of one or more duly authorized local officials and after consultation with local governmental authorities in a metropolitan area, the Secretary may appoint a metropolitan expediter for such area whenever he finds a need for the services specified in this section. The metropolitan expediter shall provide information, data, and assistance to local authorities and private individuals and entities within the metropolitan area, and to all relevant Federal departments and agencies, with respect to all programs and activities conducted within such metropolitan area by the Department of Housing and Urban Development, and with respect to other public and private activities and needs within such metropolitan area which relate to the programs and activities of the Department.

COORDINATION OF FEDERAL AIDS IN METROPOLITAN

AREAS

~~SEC. 204.~~ (a) All applications made after June 30, 1967, for Federal loans or grants to assist in carrying out

1 open-space land projects or for the planning or construction
2 of hospitals, airports, libraries, water supply and distribution
3 facilities, sewerage facilities and waste treatment works,
4 highways, transportation facilities, and water development
5 and land conservation projects within any metropolitan area
6 shall be submitted for review—

7 (1) to any areawide agency designated to per-
8 form metropolitan or regional planning for the area with-
9 in which the assistance is to be used, and which is, to
10 the greatest practicable extent, composed of or respon-
11 sible to the elected officials of the units of general local
12 government within whose jurisdiction such agency is
13 authorized to engage in such planning, and

14 (2) if made by a special purpose unit of local
15 government, to the unit or units of general local govern-
16 ment with authority to operate in the area within which
17 the project is to be located.

18 (b) (1) Except as provided in paragraph (2) of this
19 subsection, each application shall be accompanied (A)
20 by the comments and recommendations with respect to
21 the project involved by the areawide agency and gov-
22 erning bodies of the units of general local government to
23 which the application has been submitted for review,
24 and (B) by a statement by the applicant that such com-
25 ments and recommendations have been considered prior

1 to formal submission of the application. Such comments
2 shall include information concerning the extent to which the
3 project is consistent with comprehensive planning developed
4 or in the process of development for the metropolitan
5 area or the unit of general local government, as the case
6 may be, and the extent to which such project contributes
7 to the fulfillment of such planning. The comments and
8 recommendations and the statement referred to in this sec-
9 tion shall, except in the case referred to in paragraph (2)
10 of this subsection, be reviewed by the agency of the Federal
11 Government to which such application is submitted for
12 the sole purpose of assisting it in determining whether the
13 application is in accordance with the provisions of Federal
14 law which govern the making of the loans or grants.

15 ~~(2)~~ An application for a Federal loan or grant need
16 not be accompanied by the comments and recommendations
17 and the statements referred to in paragraph (1) of this sub-
18 section, if the applicant certifies that a plan or description
19 of the project, meeting the requirements of such rules and
20 regulations as may be prescribed under subsection (c), or
21 such application, has lain before an appropriate areawide
22 agency or instrumentality or unit of general local govern-
23 ment for a period of sixty days without comments or recom-
24 mendations thereon being made by such agency or instru-
25 mentality.

~~(3)~~ The requirements of paragraphs ~~(1)~~ and ~~(2)~~ shall also apply to any amendment of the application which, in light of the purposes of this title, involves a major change in the project covered by the application prior to such amendment.

~~(c)~~ The Bureau of the Budget, or such other agency as may be designated by the President, is hereby authorized to prescribe such rules and regulations as are deemed appropriate for the effective administration of this section.

GRANTS TO ASSIST IN PLANNED METROPOLITAN DEVELOPMENT

SEC. 205. ~~(a)~~ The Secretary is authorized to make supplementary grants to applicant State and local public bodies and agencies carrying out, or assisting in carrying out, metropolitan development projects meeting the requirements of this section.

~~(b)~~ Grants may be made under this section only for metropolitan development projects in metropolitan areas for which it has been demonstrated, to the satisfaction of the Secretary, that—

~~(1)~~ metropolitanwide comprehensive planning and programing provide an adequate basis for evaluating ~~(A)~~ the location, financing, and scheduling of individual public facility projects (including, but not limited to hospitals and libraries; sewer, water, and sewage

1 treatment facilities; highway, mass transit, airport, and
2 other transportation facilities; and recreation and other
3 open-space areas) whether or not federally assisted; and
4 (B) other proposed land development or uses, which
5 projects or uses, because of their size, density, type, or
6 location, have public metropolitanwide or interjurisdic-
7 tional significance;

8 (2) adequate metropolitanwide institutional or
9 other arrangements exist for coordinating, on the basis
10 of such metropolitanwide comprehensive planning and
11 programing, local public policies and activities affecting
12 the development of the area; and

13 (3) public facility projects and other land develop-
14 ment or uses which have a major impact on the develop-
15 ment of the area are, in fact, being carried out in accord
16 with such metropolitanwide comprehensive planning
17 and programing.

18 (c) (1) Where the applicant for a grant under this sec-
19 tion is a unit of general local government, it must demon-
20 strate to the satisfaction of the Secretary that, taking into
21 consideration the scope of its authority and responsibilities
22 it is adequately assuring that public facility projects and
23 other land development or uses of public metropolitanwide
24 or interjurisdictional significance are being, and will be,
25 carried out in accord with metropolitan planning and pro-

1 graming meeting the requirements of subsection (b). In
 2 making this determination the Secretary shall give special
 3 consideration to whether the applicant is effectively assisting
 4 in, and conforming to, metropolitan planning and program-
 5 ing through (A) the location and scheduling of public
 6 facility projects, whether or not federally assisted; and (B)
 7 the establishment and consistent administration of zoning
 8 codes, subdivision regulations, and similar land-use and
 9 density controls.

10 (2) Where the applicant for a grant under this section
 11 is not a unit of general local government, both it and the unit
 12 of general local government having jurisdiction over the
 13 location of the project must meet the requirements of this
 14 subsection.

15 (d) In making the determinations required under this
 16 section, the Secretary shall obtain, and give full considera-
 17 tion to, the comments of the body or bodies (State or local)
 18 responsible for comprehensive planning and programming for
 19 the metropolitan area.

20 (e) No grant shall be made under this section with re-
 21 spect to a metropolitan development project for which a Fed-
 22 eral grant has been made or a contract of assistance has been
 23 entered into, under the legislation referred to in paragraph
 24 (2) of section 208, prior to February 21, 1966, or more than

1 one year prior to the date on which the Secretary has made
2 the determinations required under this section with respect to
3 the applicant and to the area in which the project is located:
4 *Provided*, That in the case of a project for which a contract
5 of assistance under the legislation referred to in paragraph
6 (2) of section 208 has been entered into after June 30,
7 1967, no grant shall be made under this section unless an
8 application for such grant has been made on or before the
9 date of such contract.

10 EXTENT OF GRANT

11 SEC. 206. (a) A grant under section 205 shall not
12 exceed (1) 20 per centum of the cost of the project for
13 which the grant is made; nor (2) the Federal grant made
14 with respect to the project under the legislation referred to
15 in paragraph (2) of section 208. In no case shall the
16 total Federal contributions to the cost of such project be
17 more than 80 per centum. Notwithstanding any other pro-
18 vision of law, including requirements with respect to non-
19 Federal contributions, grants under section 205 shall be
20 eligible for inclusion (directly or through refunds or credits)
21 as part of the financing for such projects: *Provided*, That
22 projects or activities on the basis of which assistance is pro-
23 vided under section 105(c) shall not be eligible for assist-
24 ance under section 205.

25 (b) There are authorized to be appropriated for grants

under section 205 not to exceed \$25,000,000 for the fiscal year ending June 30, 1967, and not to exceed \$50,000,000 for the fiscal year ending June 30, 1968. Appropriations authorized under this section shall remain available until expended.

CONSULTATION AND CERTIFICATION

SEC. 207. In carrying out his authority under section 205, including the issuance of regulations, the Secretary shall consult with the Department of the Interior; the Department of Health, Education, and Welfare; the Department of Commerce; and the Federal Aviation Agency with respect to metropolitan development projects assisted by those departments and agencies; and he shall, for the purpose of section 206, accept their respective certifications as to the cost of those projects and the amount of the non-Federal contribution paid or to be paid to that cost.

DEFINITIONS

SEC. 208. As used in this title—

(1) "Metropolitan development" means all projects or programs for the acquisition, use, and development of open space land; and the planning and construction of hospitals, libraries, airports, water supply and distribution facilities, sewerage facilities and waste treatment works, transportation facilities, highways, water development and land conservation, and other public works facilities.

1 ~~(2)~~ "Metropolitan development project" means a proj-
 2 ect assisted or to be assisted under section 702 of the
 3 Housing and Urban Development Act of 1965; title II of the
 4 Library Services and Construction Act; section 606 of the
 5 Public Health Service Act; section 8 of the Federal Water
 6 Pollution Control Act; section 120(a) of title 23, United
 7 States Code; section 9 of the Federal Airport Act; section 3
 8 of the Urban Mass Transportation Act of 1964; title VII
 9 of the Housing Act of 1961; section 5(e) of the Land and
 10 Water Conservation Fund Act of 1965; or section 101
 11 ~~(a)(1)~~ of the Public Works and Economic Development
 12 Act of 1965 ~~(for a project of a type which the Secretary~~
 13 ~~determines to be eligible for assistance under the other pro-~~
 14 ~~visions listed above).~~

15 ~~(3)~~ "State" means any State of the United States, the
 16 District of Columbia, the Commonwealth of Puerto Rico,
 17 any territory or possession of the United States, or an agency
 18 or instrumentality of any of the foregoing.

19 ~~(4)~~ "Metropolitan area" means a standard metro-
 20 politan statistical area as established by the Bureau of the
 21 Budget, subject however to such modifications and exten-
 22 sions as the Secretary may determine to be appropriate for
 23 the purposes of this title.

24 ~~(5)~~ "Comprehensive planning" includes the following,
 25 to the extent directly related to area needs or needs of a unit

1 of general local government, ~~(A)~~ preparation, as a guide
 2 for long-range development, of general physical plans with
 3 respect to the pattern and intensity of land use and the pro-
 4 vision of public facilities, including transportation facilities;
 5 ~~(B)~~ programming of capital improvements based on a de-
 6 termination of relative urgency; ~~(C)~~ long-range fiscal plans
 7 for implementing such plans and programs; and ~~(D)~~ pro-
 8 posed regulatory and administrative measures which aid in
 9 achieving coordination of all related plans of the departments
 10 or subdivisions of the governments concerned and intergov-
 11 ernmental coordination of related planned activities among
 12 the State and local governmental agencies concerned.

13 ~~(6)~~ "Hospital" means any public health center or gen-
 14 eral, tuberculosis, mental, chronic disease, and other type of
 15 hospital and related facilities, such as laboratories, outpatient
 16 departments, nurses' home and training facilities, and central
 17 service facilities normally operated in connection with hos-
 18 pitals, but does not include any hospital furnishing primarily
 19 domiciliary care.

20 ~~(7)~~ "Areawide agency" means an official State or
 21 metropolitan or regional agency empowered under State or
 22 local laws or under an interstate compact or agreement to
 23 perform comprehensive planning in an area; an organiza-
 24 tion of the type referred to in section 701-(g) of the Housing

1 Act of 1954; or such other agency or instrumentality as
 2 may be designated by the Governor (or, in the case of
 3 metropolitan areas crossing State lines, any one or more of
 4 such agencies or instrumentalities as may be designated by
 5 the Governors of the States involved) to perform such
 6 planning.

7 (8) "Special purpose unit of local government" means
 8 any special district, public-purpose corporation, or other
 9 limited-purpose political subdivision of a State, but shall not
 10 include a school district.

11 (9) "Unit of general local government" means any city,
 12 county, town, parish, village, or other general purpose po-
 13 litical subdivision of a State.

14 (10) "Secretary" means the Secretary of Housing and
 15 Urban Development.

16 STATE LIMITATION

17 SEC. 209. Grants made under section 205 for projects in
 18 any one State shall not exceed in the aggregate 15 per
 19 centum of the aggregate amount of funds authorized to be
 20 appropriated, pursuant to section 206(b).

1 TITLE III URBAN INFORMATION AND TECH-
2 NICAL ASSISTANCE SERVICES

3 PURPOSE

4 SEC. 301. It is the purpose of this title to assist States
5 and metropolitan area agencies to make available informa-
6 tion and data on urban needs and assistance programs and
7 activities through centers established for such purpose, and
8 to provide technical assistance through such centers to small
9 communities with respect to the solution of urban problems.

10 GRANT AUTHORITY

11 SEC. 302. (a) The Secretary is authorized to make
12 grants to States and metropolitan area agencies to help
13 finance programs for the assembly, correlation, and dissemi-
14 nation of information and data needed for improving, coor-
15 dinating, and more effectively utilizing governmental and
16 other programs and activities available for the solution of lo-
17 cal urban problems and to provide technical assistance to
18 small communities with respect to the solution of such prob-
19 lems. Activities aided by such grants shall include—

(1) the planning and establishment of urban information and technical assistance centers;

(2) the assembly, correlation, and dissemination of urban physical, social, and economic development information and data through such centers for the purpose of informing local governments, organizations, and individuals of the availability and status of Federal, State, and local programs and other resources and data for the solution of urban problems; and

(3) providing, through such centers, technical assistance with respect to the solution of urban problems to any small community requesting such assistance.

(b) A program assisted under this section shall—

(1) specify the information and technical assistance activities to be carried on and justify the needs for and costs of such activities; and

(2) represent substantially increased or improved activities on the part of the applicant State or metropolitan-area agency.

EXTENT OF ACTIVITIES

SEC. 303. (a) An urban information and technical assistance center established by a metropolitan-area agency under this title shall be directed primarily to the provision of (1) informational services of general metropolitanwide utility, and (2) informational services and technical assist-

1 ance of utility to the communities within that metropolitan
2 area.

3 ~~(b)~~ An urban information and technical assistance
4 center established by a State under this title shall be directed
5 primarily to the provision of ~~(1)~~ informational services of
6 general statewide utility, and ~~(2)~~ informational services and
7 technical assistance of utility to communities not within
8 metropolitan areas for which information centers have been
9 established under this title.

10 AMOUNT OF GRANT

11 SEC. 304. ~~(a)~~ A grant under this section shall not
12 exceed 50 per centum of the cost of the activities carried
13 on under an approved urban information and technical assist-
14 ance program.

15 ~~(b)~~ No grant shall be made under this title to assist
16 in assembling data, or providing information, to be used
17 primarily in the day-to-day operations of State or local gov-
18 erning bodies and agencies.

19 COOPERATION AND COORDINATION

20 SEC. 305. ~~(a)~~ Federal departments and agencies shall
21 cooperate with States and metropolitan-area agencies in pro-
22 viding information to assist in carrying out the purpose of
23 this title.

24 ~~(b)~~ In the administration of this title, the Secretary

1 shall seek to ensure the greatest practicable cooperation and
 2 coordination as between the various urban information and
 3 technical assistance centers established under this title.

4 DEFINITIONS

5 SEC. 306. As used in this title—

6 (1) "State" means any State of the United States, the
 7 Commonwealth of Puerto Rico, the Virgin Islands, or an
 8 agency or instrumentality designated by the chief executive
 9 of any of the foregoing, or a statewide agency or instru-
 10 mentality of its political subdivisions designated by such
 11 chief executive.

12 (2) "Metropolitan area" means a standard metropolitan
 13 statistical area as established by the Bureau of the Budget,
 14 subject however to such modifications and extensions as the
 15 Secretary may determine to be appropriate.

16 (3) "Metropolitan-area agency" means (A) an organi-
 17 zation or body composed of public officials which the Secre-
 18 tary determines to be representative of the political jurisdic-
 19 tions encompassing a metropolitan area; or (B) where no
 20 such organization exists and can qualify for a grant under this
 21 title, a public body or agency (i) designated by the govern-
 22 ing body of that political jurisdiction within the area which
 23 contains the largest population, according to the most recent
 24 decennial census, and (ii) concurred in by other local politi-

1 eal jurisdictions which, together with the designating juris-
 2 diction, contain at least two-thirds of the population of the
 3 area.

4 (4) "Small community" means any municipality or
 5 other political subdivision of a State having a population of
 6 twenty-five thousand or less.

7 (5) "Secretary" means the Secretary of Housing and
 8 Urban Development.

9 APPROPRIATIONS

10 SEC. 307. There are authorized to be appropriated for
 11 the purpose of carrying out the provisions of this title not
 12 to exceed \$5,000,000 for the fiscal year ending June 30,
 13 1967, and not to exceed \$10,000,000 for the fiscal year end-
 14 ing June 30, 1968. Appropriations authorized under this
 15 section shall remain available until expended.

16 TITLE IV—MISCELLANEOUS

17 STUDY CONCERNING RELIEF OF HOMEOWNERS IN

18 PROXIMITY TO AIRPORTS

19 SEC. 401. Section 1113 of the Housing and Urban
 20 Development Act of 1965 is amended—

21 (1) by inserting "(a)" after "SEC. 1113.";

22 (2) by striking out "one year after the date of the
 23 enactment of this Act" and inserting in lieu thereof "six

1 months after the date of the enactment of the Demon-
 2 stration Cities and Metropolitan Development Act of
 3 1966"; and

4 ~~(3)~~ by adding at the end thereof the following new
 5 subsection:

6 ~~"(b)~~ There is authorized to be appropriated the sum
 7 of \$100,000 to carry out subsection ~~(a).~~"

8 *That this Act may be cited as the "Demonstration Cities and*
 9 *Metropolitan Development Act of 1966".*

10 *TITLE I—COMPREHENSIVE CITY DEMON-*
 11 *STRATION PROGRAMS*

12 *FINDINGS AND DECLARATION OF PURPOSE*

13 *SEC. 101. The Congress hereby finds and declares that*
 14 *improving the quality of urban life is the most critical do-*
 15 *mestic problem facing the United States. The persistence*
 16 *of widespread urban slums and blight, the concentration of*
 17 *persons of low income in older urban areas, and the unmet*
 18 *needs for additional housing and community facilities and*
 19 *services arising from rapid expansion of our urban popula-*
 20 *tion have resulted in a marked deterioration in the quality*
 21 *of the environment and the lives of large numbers of our*
 22 *people while the Nation as a whole prospers.*

23 *The Congress further finds and declares that cities, of*
 24 *all sizes, do not have adequate resources to deal effectively*
 25 *with the critical problems facing them, and that Federal*

1 assistance in addition to that now authorized by the urban
2 renewal program and other existing Federal grant-in-aid
3 programs is essential to enable cities to plan, develop, and
4 conduct programs to improve their physical environment,
5 increase their supply of adequate housing for low- and mod-
6 erate-income people, and provide educational and social
7 services vital to health and welfare.

8 The purposes of this title are to provide additional finan-
9 cial and technical assistance to enable cities of all sizes (with
10 equal regard to the problems of small as well as large cities)
11 to plan, develop, and carry out locally prepared and sched-
12 uled comprehensive city demonstration programs containing
13 new and imaginative proposals to rebuild or revitalize large
14 slum and blighted areas; to expand housing, job, and income
15 opportunities; to reduce dependence on welfare payments; to
16 improve educational facilities and programs; to combat dis-
17 ease and ill health; to reduce the incidence of crime and de-
18 linquency; to enhance recreational and cultural opportunities;
19 to establish better access between homes and jobs; and gen-
20 erally to improve living conditions for the people who live
21 in such areas, and to accomplish these objectives through the
22 most effective and economical concentration and coordination
23 of Federal, State, and local public and private efforts to
24 improve the quality of urban life.

BASIC AUTHORITY

SEC. 102. *The Secretary of Housing and Urban Development (hereinafter referred to as the "Secretary") is authorized to make grants and provide technical assistance, as provided by this title, to enable city demonstration agencies (as defined in section 112(2)) to plan, develop, and carry out comprehensive city demonstration programs in accordance with the purposes of this title.*

ELIGIBILITY FOR ASSISTANCE

SEC. 103. (a) *A comprehensive city demonstration program is eligible for assistance under sections 105 and 107 only if—*

(1) *physical and social problems in the area of the city covered by the program are such that a comprehensive city demonstration program is necessary to carry out the policy of the Congress as expressed in section 101;*

(2) *the program is of sufficient magnitude to make a substantial impact on the physical and social problems and to remove or arrest blight and decay in entire sections or neighborhoods; to contribute to the sound development of the entire city; to make marked progress in reducing social and educational disadvantages, ill health, underemployment, and enforced idleness; and to provide educational, health, and social services neces-*

sary to serve the poor and disadvantaged in the area, widespread citizen participation in the program, maximum opportunities for employing residents of the area in all phases of the program, and enlarged opportunities for work and training;

(3) the program, including rebuilding or restoration, will contribute to a well-balanced city with a substantial increase in the supply of standard housing of low and moderate cost, maximum opportunities in the choice of housing accommodations for all citizens of all income levels, adequate public facilities (including those needed for education, health and social services, transportation, and recreation), commercial facilities adequate to serve the residential areas, and ease of access between the residential areas and centers of employment;

(4) the various projects and activities to be undertaken in connection with such programs are scheduled to be initiated within a reasonably short period of time; adequate local resources are, or will be, available for the completion of the program as scheduled, and, in the carrying out of the program, the fullest utilization possible will be made of private initiative and enterprise; administrative machinery is available at the local level for carrying out the program on a consolidated and coordinated basis; substantive local laws, regulations, and other re-

quirements are, or can be expected to be, consistent with the objectives of the program; there exists a relocation plan meeting the requirements of the regulations referred to in section 107; the local governing body has approved the program and, where appropriate, applications for assistance under the program; agencies whose cooperation is necessary to the success of the program have indicated their intent to furnish such cooperation; the program is consistent with comprehensive planning for the entire urban or metropolitan area; and the locality will maintain, during the period an approved comprehensive city demonstration program is being carried out, a level of aggregate expenditures for activities similar to those being assisted under this title which is not less than the level of aggregate expenditures for such activities prior to initiation of the comprehensive city demonstration program; and

(5) the program meets such additional requirements as the Secretary may establish to carry out the purposes of this title.

(b) In implementing this title the Secretary shall—

(1) emphasize local initiative in the planning, development, and implementation of comprehensive city demonstration programs;

(2) insure, in conjunction with other appropriate Federal departments and agencies and at the direction of the President, maximum coordination of Federal assistance provided in connection with this title, prompt response to local initiative, and maximum flexibility in programing, consistent with the requirements of law and sound administrative practice; and

(3) encourage city demonstration agencies to (A) enhance neighborhoods by applying a high standard of design, (B) maintain, as appropriate, natural and historic sites and distinctive neighborhood characteristics, and (C) make maximum possible use of new and improved technology and design, including cost reduction techniques.

(c) The preparation of demonstration city programs should include to the maximum extent feasible (1) the performance of analyses that provide explicit and systematic comparisons of the costs and benefits, financial and otherwise, of alternative possible actions or courses of action designed to fulfill urban needs; and (2) the establishment of programing systems designed to assure effective use of such analyses by city demonstration agencies and by other government bodies.

1 *FINANCIAL ASSISTANCE FOR PLANNING COMPREHENSIVE*
2 *CITY DEMONSTRATION PROGRAMS*

3 *SEC. 104. (a) The Secretary is authorized to make*
4 *grants to, and to contract with, city demonstration agencies*
5 *to pay 80 per centum of the costs of planning and develop-*
6 *ing comprehensive city demonstration programs.*

7 *(b) Financial assistance will be provided under this*
8 *section only if (1) the application for such assistance has*
9 *been approved by the local governing body of the city, and*
10 *(2) the Secretary has determined that there exist (A) ad-*
11 *ministrative machinery through which coordination of all*
12 *related planning activities of local agencies can be achieved,*
13 *and (B) evidence that necessary cooperation of agencies*
14 *engaged in related local planning can be obtained.*

15 *FINANCIAL ASSISTANCE FOR APPROVED COMPREHENSIVE*
16 *CITY DEMONSTRATION PROGRAMS*

17 *SEC. 105. (a) The Secretary is authorized to approve*
18 *comprehensive city demonstration programs if, after review*
19 *of the plans, he determines that such plans satisfy the criteria*
20 *for such programs set forth in section 103.*

21 *(b) The Secretary is authorized to make grants to, and*
22 *to contract with, city demonstration agencies to pay 80 per*
23 *centum of the cost of administering approved comprehensive*
24 *city demonstration programs, but not the cost of adminis-*

1 *tering any project or activity assisted under a Federal grant-*
2 *in-aid program.*

3 *(c) To assist the city to carry out the projects or activ-*
4 *ities included within an approved comprehensive city dem-*
5 *onstration program, the Secretary is authorized to make*
6 *grants to the city demonstration agency of not to exceed*
7 *80 per centum of the aggregate amount of non-Federal*
8 *contributions otherwise required to be made to all projects*
9 *or activities assisted by Federal grant-in-aid programs (as*
10 *defined in section 112(1)) which are carried out in connec-*
11 *tion with such demonstration program: Provided, That no*
12 *Federal grant-in-aid program shall be considered to be car-*
13 *ried out in connection with such demonstration program*
14 *unless it is closely related to the physical and social problems*
15 *in the area of the city covered by the program and unless*
16 *it can reasonably be expected to have a noticeable effect*
17 *upon such problems. The specific amount of any such grant*
18 *shall take into account the number and intensity of the*
19 *economic and social pressures in the sections or neighbor-*
20 *hoods involved, such as those involving or resulting from*
21 *population density, poverty levels, unemployment rate, pub-*
22 *lic welfare participation, educational levels, health and dis-*
23 *ease characteristics, crime and delinquency rate, and degree*
24 *of substandard and dilapidated housing. The amount of*

1 *non-Federal contribution required for each project in a*
2 *Federal grant-in-aid program shall be certified to the Secre-*
3 *tary by the Federal department or agency (other than the*
4 *Department of Housing and Urban Development) admin-*
5 *istering such program, and the Secretary shall accept such*
6 *certification in computing the grants hereunder.*

7 *(d) Grant funds provided pursuant to subsection (c)*
8 *of this section shall be used for projects or activities assisted*
9 *under a Federal grant-in-aid program which are under-*
10 *taken as part of an approved comprehensive city demonstra-*
11 *tion program, or for other projects or activities undertaken*
12 *as part of such demonstration program. If used for proj-*
13 *ects or activities assisted under a Federal grant-in-aid pro-*
14 *gram which are undertaken as part of such demonstration*
15 *program, funds provided pursuant to subsection (c) shall*
16 *be credited as part or all of the required non-Federal con-*
17 *tribution to such projects or activities. Such grant funds,*
18 *however, shall not be used—*

19 *(1) for the general administration of local govern-*
20 *ments; or*

21 *(2) to replace non-Federal contributions in any*
22 *federally aided project or activity included in an ap-*
23 *proved comprehensive city demonstration program, if*
24 *prior to the filing of an application for assistance under*
25 *section 104 an agreement has been entered into with*

any Federal agency obligating such non-Federal contributions with respect to such project or activity.

TECHNICAL ASSISTANCE

SEC. 106. The Secretary is authorized to undertake such activities as he determines to be desirable to provide, either directly or by contracts or other arrangements, technical assistance to city demonstration agencies to assist such agencies in planning, developing, and administering comprehensive city demonstration programs.

RELOCATION REQUIREMENTS AND PAYMENTS

SEC. 107. (a) A comprehensive city demonstration program shall include a plan for the relocation of individuals, families, business concerns, and nonprofit organizations displaced or to be displaced in the carrying out of such program. The relocation plan shall be consistent with regulations prescribed by the Secretary to assure that (1) the provisions and procedures included in the plan meet relocation standards equivalent to those prescribed under section 105(c) of the Housing Act of 1949 with respect to urban renewal projects assisted under title I of that Act, and (2) relocation activities are coordinated to the maximum extent feasible with the increase in the supply of decent, safe, and sanitary housing for families and individuals of low or moderate income, as provided under the comprehensive city demonstration program, or otherwise, in order to best

1 maintain the available supply of housing for all such families
2 and individuals throughout the city.

3 (b)(1) To the extent not otherwise authorized under
4 any Federal law, financial assistance extended to a city
5 demonstration agency under section 105 shall include grants
6 to cover the full cost of relocation payments, as herein de-
7 fined. Such grants shall be in addition to other financial
8 assistance extended to such agency under section 105.

9 (2) The term "relocation payments" means payments
10 by a city demonstration agency to a displaced individual,
11 family, business concern, or nonprofit organization which
12 are made on such terms and conditions and subject to such
13 limitations (to the extent applicable, but not including the
14 date of displacement) as are provided for relocation pay-
15 ments, at the time such payments are approved, by section
16 114 (b), (c), (d), and (e) of the Housing Act of 1949
17 with respect to projects assisted under title I thereof.

18 (c) Subsection (b) shall not be applicable with respect
19 to any displacement occurring prior to the date of the enact-
20 ment of this Act.

21 CONTINUED AVAILABILITY OF FEDERAL GRANT-IN-AID

22 PROGRAM FUNDS

23 SEC. 108. Notwithstanding any other provision of law,
24 unless hereafter enacted expressly in limitation of the pro-
25 visions of this section, funds appropriated for a Federal

1 *grant-in-aid program which are reserved for any projects or*
2 *activities assisted under such grant-in-aid program and un-*
3 *dertaken in connection with an approved comprehensive city*
4 *demonstration program shall remain available until expended.*

5 *CONSULTATION*

6 *SEC. 109. In carrying out the provisions of this title,*
7 *including the issuance of regulations, the Secretary shall*
8 *consult with other Federal departments and agencies ad-*
9 *ministering Federal grant-in-aid programs. The Secretary*
10 *shall consult with each Federal department and agency*
11 *affected by each comprehensive city demonstration program*
12 *before entering into a commitment to make grants for*
13 *such program under section 105.*

14 *LABOR STANDARDS*

15 *SEC. 110. (a) All laborers and mechanics employed*
16 *by contractors or subcontractors in the construction, re-*
17 *habilitation, alteration, or repair of projects which—*

18 *(1) are federally assisted in whole or in part under*
19 *this title and*

20 *(2) are not otherwise subject to section 212 of the*
21 *National Housing Act, section 16(2) of the United*
22 *States Housing Act of 1937, section 109 of the Housing*
23 *Act of 1949, or any other provision of Federal law*
24 *imposing labor standards on federally assisted construc-*
25 *tion,*

1 shall be paid wages at rates not less than those prevailing
 2 on similar construction in the locality as determined by the
 3 Secretary of Labor in accordance with the Davis-Bacon
 4 Act, as amended (40 U.S.C. 276a—276a-5): Provided,
 5 That this section shall apply to the construction, rehabilitation,
 6 alteration, or repair of residential property only if such resi-
 7 dential property is designed for residential use for eight or
 8 more families. No financial assistance shall be extended to
 9 any such projects unless adequate assurance is first obtained
 10 that these labor standards will be maintained upon the con-
 11 struction work.

12 (b) The Secretary of Labor shall have, with respect
 13 to the labor standards specified in subsection (a), the author-
 14 ity and functions set forth in Reorganization Plan Numbered
 15 14 of 1950 (15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 133z-
 16 15), and section 2 of the Act of June 13, 1934, as amended
 17 (48 Stat. 948; 40 U.S.C. 276c), and the Contract Work
 18 Hours Standards Act (76 Stat. 357).

19 APPROPRIATIONS

20 SEC. 111. (a) There are authorized to be appropriated,
 21 for the purpose of financial assistance and administrative
 22 expenses under sections 104 and 106, not to exceed \$12,000,000
 23 for the fiscal year ending June 30, 1967, and not to exceed
 24 \$12,000,000 for the fiscal year ending June 30, 1968.

25 (b) There are authorized to be appropriated, for the

1 purpose of financial assistance and administrative expenses
 2 under sections 105, 106, and 107, not to exceed \$400,000,-
 3 000 for the fiscal year ending June 30, 1968, and not to
 4 exceed \$500,000,000 for the fiscal year ending June 30,
 5 1969.

6 (c) Appropriations authorized under this section shall
 7 remain available until expended.

8 DEFINITIONS

9 SEC. 112. As used in this title—

10 (1) “Federal grant-in-aid program” means a program
 11 of Federal financial assistance other than loans and other
 12 than the assistance provided by this title.

13 (2) “City demonstration agency” means the city, the
 14 county, or any local public agency established or designated
 15 by the local governing body of such city or county to adminis-
 16 ter the comprehensive city demonstration program.

17 (3) “City” means any municipality (or two or more
 18 municipalities acting jointly) or any county or other public
 19 body (or two or more acting jointly) having general govern-
 20 mental powers.

21 (4) “Local” agencies include State agencies and in-
 22 strumentalities providing services or resources to a city or
 23 locality, and “local” resources include those provided to a
 24 city or locality by a State or its agency or instrumentality.

1 GRANT AUTHORITY FOR URBAN RENEWAL PROJECTS
2 WHICH ARE PART OF APPROVED COMPREHENSIVE
3 CITY DEMONSTRATION PROGRAMS

4 SEC. 113. Section 103(b) of the Housing Act of 1949
5 is amended by inserting after the first sentence the follow-
6 ing new sentence: "In addition to the authority to make
7 grants provided in the first sentence of this subsection, the
8 Secretary may contract to make grants under this title, on or
9 after July 1, 1967, in an amount not to exceed \$250,000,-
10 000: Provided, That the authority to contract to make
11 grants provided by this sentence shall be exercised only
12 with respect to an urban renewal project which is identified
13 and scheduled to be carried out as one of the projects or
14 activities included within an approved comprehensive city
15 demonstration program assisted under the provisions of sec-
16 tion 105(c) of the Demonstration Cities and Metropolitan
17 Development Act of 1966."

18 STATE LIMIT

19 SEC. 114. Grants made under section 105 for projects
20 in any one State shall not exceed in the aggregate 15 per
21 centum of the aggregate amount of funds authorized to be
22 appropriated under section 111.

*TITLE II—PLANNED METROPOLITAN
DEVELOPMENT*

FINDINGS AND DECLARATION OF PURPOSE

SEC. 201. (a) The Congress hereby finds that the welfare of the Nation and of its people is directly dependent upon the sound and orderly development and the effective organization and functioning of the metropolitan areas in which two-thirds of its people live and work.

It further finds that the continuing rapid growth of these areas makes it essential that they prepare, keep current, and carry out comprehensive plans and programs for their orderly physical development with a view to meeting efficiently all their economic and social needs.

It further finds that metropolitan areas are especially handicapped in this task by the complexity and scope of governmental services required in such rapidly growing areas, the multiplicity of political jurisdictions and agencies involved, and the inadequacy of the operational and administrative arrangements available for cooperation among them.

It further finds that present requirements for areawide planning and programing in connection with various Federal

1 *programs have materially assisted in the solution of metro-*
2 *politan problems, but that greater coordination of Federal*
3 *programs and additional participation and cooperation are*
4 *needed from the States and localities in perfecting and carry-*
5 *ing out such efforts.*

6 *(b) It is the purpose of this title to provide, through*
7 *greater coordination of Federal programs and through sup-*
8 *plementary grants for certain federally assisted develop-*
9 *ment projects, additional encouragement and assistance to*
10 *States and localities for making comprehensive metropolitan*
11 *planning and programing effective.*

12 *COOPERATION BETWEEN FEDERAL AGENCIES*

13 *SEC. 202. In order to insure that all Federal programs*
14 *related to metropolitan development are carried out in a co-*
15 *ordinated manner—*

16 *(1) the Secretary is authorized to call upon other*
17 *Federal agencies to supply such statistical data, pro-*
18 *gram reports, and other materials as he deems necessary*
19 *to discharge his responsibilities for metropolitan devel-*
20 *opment, and to assist the President in coordinating the*
21 *metropolitan development efforts of all Federal agen-*
22 *cies; and*

23 *(2) all Federal agencies which are engaged in*
24 *administering programs related to metropolitan develop-*
25 *ment, or which otherwise perform functions relating*

thereto, shall, to the maximum extent practicable, consult with and seek advice from all other significantly affected Federal departments and agencies in an effort to assure fully coordinated programs.

METROPOLITAN EXPEDITERS

SEC. 203. Upon the request of one or more duly authorized local officials and after consultation with local governmental authorities in a metropolitan area, the Secretary may appoint a metropolitan expediter for such area whenever he finds a need for the services specified in this section. The metropolitan expediter shall provide information, data, and assistance to local authorities and private individuals and entities within the metropolitan area, and to all relevant Federal departments and agencies, with respect to all programs and activities conducted within such metropolitan area by the Department of Housing and Urban Development, and with respect to other public and private activities and needs within such metropolitan area which relate to the programs and activities of the Department.

COORDINATION OF FEDERAL AIDS IN METROPOLITAN

AREAS

SEC. 204. (a) All applications made after June 30, 1967, for Federal loans or grants to assist in carrying out open-space land projects or for the planning or construction of hospitals, airports, libraries, water supply and distribution

1 facilities, sewerage facilities and waste treatment works,
2 highways, transportation facilities, and water development
3 and land conservation projects within any metropolitan area
4 shall be submitted for review—

5 (1) to any areawide agency which is designated to per-
6 form metropolitan or regional planning for the area with-
7 in which the assistance is to be used, and which is, to
8 the greatest practicable extent, composed of or respon-
9 sible to the elected officials of the units of general local
10 government within whose jurisdiction such agency is
11 authorized to engage in such planning, and

12 (2) if made by a special purpose unit of local
13 government, to the unit or units of general local govern-
14 ment with authority to operate in the area within which
15 the project is to be located.

16 (b)(1) Except as provided in paragraph (2) of this
17 subsection, each application shall be accompanied (A)
18 by the comments and recommendations with respect to
19 the project involved by the areawide agency and gov-
20 erning bodies of the units of general local government to
21 which the application has been submitted for review,
22 and (B) by a statement by the applicant that such com-
23 ments and recommendations have been considered prior
24 to formal submission of the application. Such comments
25 shall include information concerning the extent to which the

1 project is consistent with comprehensive planning developed
2 or in the process of development for the metropolitan
3 area or the unit of general local government, as the case
4 may be, and the extent to which such project contributes
5 to the fulfillment of such planning. The comments and
6 recommendations and the statement referred to in this para-
7 graph shall, except in the case referred to in paragraph (2)
8 of this subsection, be reviewed by the agency of the Federal
9 Government to which such application is submitted for
10 the sole purpose of assisting it in determining whether the
11 application is in accordance with the provisions of Federal
12 law which govern the making of the loans or grants.

13 (2) An application for a Federal loan or grant need
14 not be accompanied by the comments and recommendations
15 and the statements referred to in paragraph (1) of this sub-
16 section, if the applicant certifies that a plan or description
17 of the project, meeting the requirements of such rules and
18 regulations as may be prescribed under subsection (c), or
19 such application, has lain before an appropriate areawide
20 agency or instrumentality or unit of general local govern-
21 ment for a period of sixty days without comments or recom-
22 mendations thereon being made by such agency or instru-
23 mentality.

24 (3) The requirements of paragraphs (1) and (2)
25 shall also apply to any amendment of the application which,

1 *in light of the purposes of this title, involves a major change*
 2 *in the project covered by the application prior to such*
 3 *amendment.*

4 *(c) The Bureau of the Budget, or such other agency as*
 5 *may be designated by the President, is hereby authorized to*
 6 *prescribe such rules and regulations as are deemed appropri-*
 7 *ate for the effective administration of this section.*

8 *GRANTS TO ASSIST IN PLANNED METROPOLITAN*

9 *DEVELOPMENT*

10 *SEC. 205. (a) The Secretary is authorized to make*
 11 *supplementary grants to applicant State and local public*
 12 *bodies and agencies carrying out, or assisting in carrying*
 13 *out, metropolitan development projects meeting the require-*
 14 *ments of this section.*

15 *(b) Grants may be made under this section only for*
 16 *metropolitan development projects in metropolitan areas*
 17 *for which it has been demonstrated, to the satisfaction of the*
 18 *Secretary, that—*

19 *(1) metropolitanwide comprehensive planning and*
 20 *programing provide an adequate basis for evaluating*
 21 *(A) the location, financing, and scheduling of individ-*
 22 *ual public facility projects (including but not limited*
 23 *to hospitals and libraries; sewer, water, and sewage*
 24 *treatment facilities; highway, mass transit, airport, and*
 25 *other transportation facilities; and recreation and other*

1 *open-space areas) whether or not federally assisted; and*
2 *(B) other proposed land development or uses, which*
3 *projects or uses, because of their size, density, type, or*
4 *location, have public metropolitanwide or interjurisdic-*
5 *tional significance;*

6 *(2) adequate metropolitanwide institutional or*
7 *other arrangements exist for coordinating, on the basis*
8 *of such metropolitanwide comprehensive planning and*
9 *programing, local public policies and activities affecting*
10 *the development of the area; and*

11 *(3) public facility projects and other land develop-*
12 *ment or uses which have a major impact on the develop-*
13 *ment of the area are, in fact, being carried out in accord*
14 *with such metropolitanwide comprehensive planning and*
15 *programing.*

16 *(c)(1) Where the applicant for a grant under this sec-*
17 *tion is a unit of general local government, it must demon-*
18 *strate to the satisfaction of the Secretary that, taking into*
19 *consideration the scope of its authority and responsibilities,*
20 *it is adequately assuring that public facility projects and*
21 *other land development or uses of public metropolitanwide*
22 *or interjurisdictional significance are being, and will be,*
23 *carried out in accord with metropolitan planning and pro-*
24 *graming meeting the requirements of subsection (b). In*
25 *making this determination the Secretary shall give special*

1 consideration to whether the applicant is effectively assisting
2 in, and conforming to, metropolitan planning and program-
3 ing through (A) the location and scheduling of public
4 facility projects, whether or not federally assisted; and (B)
5 the establishment and consistent administration of zoning
6 codes, subdivision regulations, and similar land-use and
7 density controls.

8 (2) Where the applicant for a grant under this section
9 is not a unit of general local government, both it and the unit
10 of general local government having jurisdiction over the
11 location of the project must meet the requirements of this
12 subsection.

13 (d) In making the determinations required under this
14 section, the Secretary shall obtain, and give full considera-
15 tion to, the comments of the body or bodies (State or local)
16 responsible for comprehensive planning and programing for
17 the metropolitan area.

18 (e) No grant shall be made under this section with re-
19 spect to a metropolitan development project for which a Fed-
20 eral grant has been made or a contract of assistance has been
21 entered into, under the legislation referred to in paragraph
22 (2) of section 208, prior to February 21, 1966, or more than
23 one year prior to the date on which the Secretary has made
24 the determinations required under this section with respect to
25 the applicant and to the area in which the project is located:

1 *Provided, That in the case of a project for which a contract*
2 *of assistance under the legislation referred to in paragraph*
3 *(2) of section 208 has been entered into after June 30,*
4 *1967, no grant shall be made under this section unless an*
5 *application for such grant has been made on or before the*
6 *date of such contract.*

7 **EXTENT OF GRANT**

8 *SEC. 206. (a) A grant under section 205 shall not*
9 *exceed (1) 20 per centum of the cost of the project for*
10 *which the grant is made; nor (2) the Federal grant made*
11 *with respect to the project under the legislation referred to*
12 *in paragraph (2) of section 208. In no case shall the*
13 *total Federal contributions to the cost of such project be*
14 *more than 80 per centum. Notwithstanding any other pro-*
15 *vision of law, including requirements with respect to non-*
16 *Federal contributions, grants under section 205 shall be*
17 *eligible for inclusion (directly or through refunds or credits)*
18 *as part of the financing for such projects: Provided, That*
19 *projects or activities on the basis of which assistance is pro-*
20 *vided under section 105(c) shall not be eligible for assist-*
21 *ance under section 205.*

22 *(b) There are authorized to be appropriated for grants*
23 *under section 205 not to exceed \$25,000,000 for the fiscal*
24 *year ending June 30, 1967, and not to exceed \$50,000,000*
25 *for the fiscal year ending June 30, 1968. Appropriations*

1 authorized under this section shall remain available until
2 expended.

3 *CONSULTATION AND CERTIFICATION*

4 *SEC. 207. In carrying out his authority under section*
5 *205, including the issuance of regulations, the Secretary shall*
6 *consult with the Department of the Interior; the Department*
7 *of Health, Education, and Welfare; the Department of*
8 *Commerce; and the Federal Aviation Agency with respect*
9 *to metropolitan development projects assisted by those de-*
10 *partments and agencies; and he shall, for the purpose of*
11 *section 206, accept their respective certifications as to the*
12 *cost of those projects and the amount of the non-Federal*
13 *contribution paid or to be paid to that cost.*

14 *DEFINITIONS*

15 *SEC. 208. As used in this title—*

16 (1) *“Metropolitan development” means all projects or*
17 *programs for the acquisition, use, and development of open-*
18 *space land; and the planning and construction of hospitals,*
19 *libraries, airports, water supply and distribution facilities,*
20 *sewerage facilities and waste treatment works, transporta-*
21 *tion facilities, highways, water development and land con-*
22 *servation, and other public works facilities.*

23 (2) *“Metropolitan development project” means a proj-*
24 *ect assisted or to be assisted under section 702 of the*
25 *Housing and Urban Development Act of 1965; title II of the*

1 *Library Services and Construction Act; section 606 of the*
 2 *Public Health Service Act; section 8 of the Federal Water*
 3 *Pollution Control Act; section 120(a) of title 23, United*
 4 *States Code; section 12 of the Federal Airport Act; section 3*
 5 *of the Urban Mass Transportation Act of 1964; title VII*
 6 *of the Housing Act of 1961; or section 5(e) of the Land and*
 7 *Water Conservation Fund Act of 1965; or under section 101*
 8 *(a)(1) of the Public Works and Economic Development*
 9 *Act of 1965 (for a project of a type which the Secretary*
 10 *determines to be eligible for assistance under any of the*
 11 *other provisions listed above).*

12 (3) "State" means any State of the United States, the
 13 District of Columbia, the Commonwealth of Puerto Rico,
 14 any territory or possession of the United States, or an agency
 15 or instrumentality of any of the foregoing.

16 (4) "Metropolitan area" means a standard metro-
 17 politan statistical area as established by the Bureau of the
 18 Budget, subject however to such modifications and exten-
 19 sions as the Secretary may determine to be appropriate for
 20 the purposes of this title.

21 (5) "Comprehensive planning" includes the following,
 22 to the extent directly related to area needs or needs of a unit
 23 of general local government: (A) Preparation, as a guide
 24 for long-range development, of general physical plans with
 25 respect to the pattern and intensity of land use and the pro-

1 vision of public facilities, including transportation facilities;
2 (B) programing of capital improvements based on a de-
3 termination of relative urgency; (C) long-range fiscal plans
4 for implementing such plans and programs; and (D) pro-
5 posed regulatory and administrative measures which aid in
6 achieving coordination of all related plans of the departments
7 or subdivisions of the governments concerned and intergov-
8 ernmental coordination of related planned activities among
9 the State and local governmental agencies concerned.

10 (6) "Hospital" means any public health center or gen-
11 eral, tuberculosis, mental, chronic disease, and other type of
12 hospital and related facilities, such as laboratories, outpatient
13 departments, nurses' home and training facilities, and central
14 service facilities normally operated in connection with hos-
15 pitals, but does not include any hospital furnishing primarily
16 domiciliary care.

17 (7) "Areawide agency" means an official State or
18 metropolitan or regional agency empowered under State or
19 local laws or under an interstate compact or agreement to
20 perform comprehensive planning in an area; an organiza-
21 tion of the type referred to in section 701(g) of the Housing
22 Act of 1954; or such other agency or instrumentality as
23 may be designated by the Governor (or, in the case of
24 metropolitan areas crossing State lines, any one or more of
25 such agencies or instrumentalities as may be designated by

1 the Governors of the States involved) to perform such
2 planning.

3 (8) "Special purpose unit of local government" means
4 any special district, public-purpose corporation, or other
5 limited-purpose political subdivision of a State, but shall not
6 include a school district.

7 (9) "Unit of general local government" means any city,
8 county, town, parish, village, or other general-purpose
9 political subdivision of a State.

10 (10) "Secretary" means the Secretary of Housing and
11 Urban Development.

12 STATE LIMIT

13 SEC. 209. Grants made under section 205 for projects
14 in any one State shall not exceed in the aggregate 15 per
15 centum of the aggregate amount of funds authorized to be
16 appropriated pursuant to section 206(b).

17 TITLE III—FHA INSURANCE OPERATIONS

18 FHA MORTGAGE FINANCING FOR VETERANS

19 SEC. 301. The next to last sentence of section 203(b)
20 (2) of the National Housing Act is amended by striking
21 out "If the mortgagor is a veteran who has not received any
22 direct, guaranteed, or insured loan under laws administered
23 by the Veterans' Administration for the purchase, construc-
24 tion, or repair of a dwelling (including a farm dwelling)
25 which was to be owned and occupied by him as his home,"

1 *and inserting in lieu thereof the following: "If the mortgagor*
 2 *is a veteran,".*

3 *COOPERATIVE HOUSING INSURANCE FUND*

4 *SEC. 302. (a) Section 213(m) of the National Hous-*
 5 *ing Act is amended by striking out " , but only in cases where*
 6 *the consent of the mortgagee or lender to the transfer is ob-*
 7 *tained or a request by the mortgagee or lender for the trans-*
 8 *fer is received by the Commissioner within such period of*
 9 *time after the date of the enactment of this subsection as the*
 10 *Commissioner shall prescribe".*

11 *(b) Section 213(n) of such Act is amended—*

12 *(1) by striking out "insured under this section and*
 13 *sections 207, 231, and 232" and inserting in lieu thereof*
 14 *"the insurance of which is the obligation of either the*
 15 *Management Fund or the General Insurance Fund";*
 16 *and*

17 *(2) by adding at the end thereof the following new*
 18 *sentence: "Premium charges on the insurance of mort-*
 19 *gages or loans transferred to the Management Fund or*
 20 *insured pursuant to commitments transferred to the Man-*
 21 *agement Fund may be payable in debentures which are*
 22 *the obligation of either the Management Fund or the*
 23 *General Insurance Fund."*

24 *(c)(1) The fourth sentence of section 213(k) of such*
 25 *Act is amended to read as follows: "The Secretary is di-*

1 rected to transfer to the Management Fund from the Gen-
 2 eral Insurance Fund an amount equal to the total of the
 3 premium payments theretofore made with respect to the
 4 insurance of mortgages and loans transferred to the Manage-
 5 ment Fund pursuant to subsection (m) minus the total of
 6 any administrative expenses theretofore incurred in connec-
 7 tion with such mortgages and loans, plus such other amounts
 8 as the Secretary determines to be necessary and appropriate.”

9 (2) The second proviso in section 213(l) of such Act
 10 is amended by striking out “pursuant to subsection (k) or
 11 (o)” and inserting in lieu thereof “pursuant to subsection
 12 (o)”.

13 MORTGAGE LIMITS FOR COOPERATIVE HOUSING

14 SEC. 303. Section 213(b)(2) of the National Housing
 15 Act is amended—

16 (1) by striking out “\$9,000”, “\$12,500”, “\$15,-
 17 000”, “\$18,500”, and “\$21,000” in the matter preced-
 18 ing the first proviso and inserting in lieu thereof “\$11,-
 19 500”, “\$15,000”, “\$17,500”, “\$21,000”, and “\$23-
 20 500”, respectively; and

21 (2) by striking out “\$10,500”, “\$15,000”, “\$18,-
 22 000”, “\$22,500” and “\$25,500” in the first proviso
 23 and inserting in lieu thereof “\$13,000”, “\$17,500”,
 24 “\$20,500”, “\$25,000”, and “\$28,000”, respectively.

1 SUPPLEMENTARY FINANCING FOR COOPERATIVE HOUSING

2 SEC. 304. Section 213(j)(2)(A) of the National
 3 Housing Act is amended by adding at the end thereof the
 4 following: "except that, in the case of improvements or
 5 additional community facilities, the outstanding indebted-
 6 ness may be increased by an amount equal to 97 per centum
 7 of the amount which the Secretary estimates will be the
 8 value of such improvements or facilities, and the new out-
 9 standing indebtedness may exceed the original principal
 10 obligation of the mortgage if such new outstanding indebt-
 11 edness does not exceed the limitations imposed by subsec-
 12 tion (b);".

13 MORTGAGE LIMITS UNDER SECTION 220 SALES HOUSING
 14 MORTGAGE INSURANCE PROGRAM

15 SEC. 305. (a) Section 220(d)(3)(A)(i) of the Na-
 16 tional Housing Act is amended by striking out "(3) 75 per
 17 centum of such replacement cost in excess of \$20,000" and
 18 inserting in lieu thereof "(3) 80 per centum of such replace-
 19 ment cost in excess of \$20,000".

20 (b) Section 220(d)(3)(A)(i) of such Act is further
 21 amended by adding before the semicolon at the end thereof
 22 the following: ": Provided further, That if the mortgagor is
 23 a veteran and the mortgage to be insured under this section
 24 covers property upon which there is located a dwelling de-
 25 signed principally for a one-family residence, the principal

1 obligation may be in an amount equal to the sum of (1) 100
 2 per centum of \$15,000 of the Commissioner's estimate of
 3 replacement cost of the property, as of the date the mortgage
 4 is accepted for insurance, (2) 90 per centum of such replace-
 5 ment cost in excess of \$15,000 but not in excess of \$20,000,
 6 and (3) 85 per centum of such replacement cost in excess
 7 of \$20,000. As used herein, the term 'veteran' means any
 8 person who served on active duty in the Armed Forces of
 9 the United States for a period of not less than ninety days
 10 (or is certified by the Secretary of Defense as having per-
 11 formed extra-hazardous service), and who was discharged
 12 or released therefrom under conditions other than dis-
 13 honorable".

14 MORTGAGE LIMITS FOR HOMES UNDER SECTION 221(d)(2)

15 SEC. 306. Section 221(d)(2)(A) of the National
 16 Housing Act is amended by striking out "\$11,000" and
 17 "\$18,000" and inserting in lieu thereof "\$12,500" and
 18 "\$20,000", respectively.

19 NONDWELLING FACILITIES IN SECTION 221 PROJECTS IN
 20 URBAN RENEWAL AREAS

21 SEC. 307. Section 221(f) of the National Housing Act
 22 is amended by inserting before the period at the end of the
 23 first sentence the following: " : Provided, That in the case of
 24 any such property or project located in an urban renewal

1 area, the provisions of section 220(d)(3)(B)(iv) shall ap-
 2 ply with respect to the nondwelling facilities which may be
 3 included in the mortgage if the mortgagor waives the right to
 4 receive dividends on its equity investment in the portion there-
 5 of devoted to community and shopping facilities”.

6 SINGLE OCCUPANTS IN SECTION 221(d)(3) HOUSING

7 SEC. 308. Section 221(f) of the National Housing Act
 8 is amended by adding at the end thereof the following new
 9 sentence: “Low- and moderate-income persons who are
 10 less than 62 years of age shall be eligible for occupancy of
 11 dwelling units in a project financed with a mortgage insured
 12 under subsection (d)(3), but not more than 10 per centum
 13 of the dwelling units in any such project shall be available
 14 for occupancy by such persons.”

15 INSURANCE OF MORTGAGES UNDER SECTION 221 TO
 16 FINANCE PURCHASE AND REHABILITATION BY NON-
 17 PROFIT ORGANIZATIONS OF HOUSING FOR RESALE TO
 18 LOW-INCOME PURCHASERS

19 SEC. 309. (a) Section 221 of the National Housing
 20 Act is amended by adding at the end thereof the following
 21 new subsection:

22 “(h)(1) In addition to mortgages insured under the
 23 other provisions of this section, the Secretary is authorized,
 24 upon application by the mortgagee, to insure under this sub-
 25 section as hereinafter provided any mortgage (including

1 advances under such mortgage during rehabilitation) which
2 is executed by a nonprofit organization to finance the pur-
3 chase and rehabilitation of deteriorating or substandard
4 housing for subsequent resale to low-income home purchasers
5 and, upon such terms and conditions as the Secretary may
6 prescribe, to make commitments for the insurance of such
7 mortgages prior to the date of their execution or disburse-
8 ment thereon.

9 “(2) To be eligible for insurance under paragraph (1)
10 of this subsection, a mortgage shall—

11 “(A) be executed by a private nonprofit corpora-
12 tion or association approved for purposes of this subsec-
13 tion by the Secretary, for the purpose of financing the
14 purchase of property (comprising one or more tracts or
15 parcels, whether or not contiguous) upon which there
16 is located deteriorating or substandard housing consisting
17 of five or more single-family dwellings of detached, semi-
18 detached, or row construction and of rehabilitating such
19 dwellings with a view to subsequent resale as hereinafter
20 provided;

21 “(B) be secured by the property which is to be
22 purchased and rehabilitated with the proceeds thereof;

23 “(C) be in a principal amount not exceeding the
24 appraised value of the property at the time of its pur-

1 *chase under the mortgage plus the estimated cost of the*
2 *rehabilitation;*

3 *“(D) bear interest (exclusive of premium charges*
4 *for insurance and service charge, if any) at the rate in*
5 *effect under the proviso in subsection (d)(5) at the*
6 *time of execution;*

7 *“(E) provide for complete amortization (subject*
8 *to paragraph (5)(E)) by periodic payments within*
9 *such term as the Secretary may prescribe; and*

10 *“(F) provide for the release of individual single-*
11 *family dwellings from the lien of the mortgage upon*
12 *the sale of the rehabilitated dwellings in accordance*
13 *with paragraph (5).*

14 *“(3) No mortgage shall be insured under paragraph*
15 *(1) unless the mortgagor shall have demonstrated to the*
16 *satisfaction of the Secretary that (A) the property to be*
17 *rehabilitated is located in a neighborhood which is suf-*
18 *ficiently stable and contains sufficient public facilities and*
19 *amenities to support long-term values, or (B) the rehabili-*
20 *tation to be carried out by the mortgagor plus its related*
21 *activities and the activities of other owners of housing in*
22 *the neighborhood, together with actions to be taken by*
23 *public authorities, will be of such scope and quality as to*
24 *give reasonable promise that a stable environment will be*
25 *created in the neighborhood.*

1 “(4) The aggregate principal balance of all mortgages
2 insured under paragraph (1) and outstanding at any one
3 time shall not exceed \$20,000,000.

4 “(5)(A) No mortgage shall be insured under para-
5 graph (1) unless the mortgagor enters into an agreement
6 (in form and substance satisfactory to the Secretary) that
7 it will offer to sell the dwellings involved, upon com-
8 pletion of their rehabilitation, to individuals or families
9 (hereinafter referred to as ‘low-income purchasers’) deter-
10 mined by the Secretary to have incomes below the maximum
11 amount specified (with respect to the area involved) in sec-
12 tion 101(c)(1) of the Housing and Urban Development
13 Act of 1965.

14 “(B) The Secretary is authorized to insure under this
15 paragraph mortgages executed to finance the sale of indi-
16 vidual dwellings to low-income purchasers as provided in
17 subparagraph (A). Any such mortgage shall—

18 “(i) be in a principal amount equal to that portion
19 of the unpaid balance of the principal mortgage covering
20 the property (insured under paragraph (1)) which is
21 allocable to the individual dwelling involved; and

22 “(ii) bear interest at the same rate as the prin-
23 cipal mortgage, and provide for complete amortization
24 by periodic payments within a term equal to the re-

1 *maining term (determined without regard to subpara-*
2 *graph (E)) of such principal mortgage.*

3 *“(C) The price for which any individual dwelling is*
4 *sold to a low-income purchaser under this paragraph shall*
5 *be the amount of the mortgage covering the sale as deter-*
6 *mined under subparagraph (B), except that the purchaser*
7 *shall in addition thereto be required to pay on account of*
8 *the property at the time of purchase such amount (which*
9 *shall not be less than \$200, but which may be applied*
10 *in whole or in part toward closing costs) as the Secretary*
11 *may determine to be reasonable and appropriate in the*
12 *circumstances.*

13 *“(D) Upon the sale under this paragraph of any indi-*
14 *vidual dwelling, such dwelling shall be released from the lien*
15 *of the principal mortgage, and such mortgage shall there-*
16 *upon be replaced by an individual mortgage insured under*
17 *this paragraph to the extent of the portion of its unpaid*
18 *balance which is allocable to the dwelling covered by such*
19 *individual mortgage. Until all of the individual dwellings in*
20 *the property covered by the principal mortgage have been*
21 *sold, the mortgagor shall hold and operate the dwellings re-*
22 *maining unsold at any given time as though they constituted*
23 *rental units in a project covered by a mortgage which is*
24 *insured under subsection (d)(3) (and which receives the*

1 *benefits of the interest rate provided for in the proviso in*
2 *subsection (d)(5)).*

3 “(E) *Upon the sale under this paragraph of all of the*
4 *individual dwellings in the property covered by the prin-*
5 *cipal mortgage, and the release of all individual dwellings*
6 *from the lien of the principal mortgage, the insurance of*
7 *the principal mortgage shall be terminated and no adjusted*
8 *premium charge shall be charged by the Secretary upon*
9 *such termination.*

10 “(F) *Any mortgage insured under this paragraph shall*
11 *contain a provision that if the low-income mortgagor does*
12 *not continue to occupy the property the interest rate shall*
13 *increase to the highest rate permissible under this section*
14 *and the regulations of the Secretary effective at the time of*
15 *commitment for insurance of the principal mortgage; except*
16 *that the increase in interest rate shall not be applicable if*
17 *the property is sold and the purchaser is (i) the nonprofit*
18 *organization which executed the principal mortgage, (ii) a*
19 *public housing agency having jurisdiction under the United*
20 *States Housing Act of 1937 over the area where the dwelling*
21 *is located, or (iii) a low-income purchaser approved for the*
22 *purposes of this paragraph by the Secretary.”*

23 “(b)(1) *Section 221(g)(1) of such Act is amended*
24 *by inserting after “paragraph (2) of subsection (d) of this*

1 section" the following: "or paragraph (5) of subsection (h)
2 of this section".

3 (2) Section 221(g)(2) of such Act is amended by in-
4 serting after "paragraph (3) or (4) of subsection (d) of
5 this section" the following: "or paragraph (1) of subsection
6 (h) of this section".

7 (c) Section 221(f) of such Act is amended by inserting
8 after "Housing Act of 1961," in the fourth sentence "or
9 which meet the requirements of subsection (h),".

10 (d) Section 305(h) of such Act is amended by striking
11 out "section 221(d)(3)" and inserting in lieu thereof "sec-
12 tions 221(d)(3) and 221(h)".

13 APPLICATION OF DAVIS-BACON ACT TO COOPERATIVE
14 HOUSING PROJECTS INSURED UNDER SECTION 221
15 (d)(3) AND (d)(4) AND MORTGAGES INSURED UNDER
16 SECTION 221(h)(1)

17 SEC. 310. The third sentence of section 212(a) of the
18 National Housing Act is amended by striking out "subsection
19 (d)(3) or (d)(4)." and inserting in lieu thereof "subsection
20 (d)(3) or (d)(4) and (deeming the term 'construction'
21 as used in the first sentence of this subsection to mean rehabil-
22 itation) of any mortgage described in subsection (h)(1)
23 which covers property on which there is located a dwelling
24 or dwellings designed principally for residential use for

1 more than eight families; except that compliance with such pro-
 2 visions may be waived by the Secretary—

3 “(1) with respect to mortgages described in such
 4 subsection (d)(3) or (d)(4), in cases or classes of
 5 cases where laborers or mechanics (not otherwise em-
 6 ployed at any time in the construction of the project)
 7 voluntarily donate their services without compensation
 8 for the purpose of lowering their housing costs in a
 9 cooperative housing project and the Secretary determines
 10 that any amounts saved thereby are fully credited to the
 11 cooperative undertaking the construction, and

12 “(2) with respect to mortgages described in such
 13 subsection (h)(1), in cases or classes of cases where
 14 prospective owners of such dwellings voluntarily donate
 15 their services without compensation, or other persons
 16 (not otherwise employed at any time in the rehabilitation
 17 of the property) voluntarily donate their services with-
 18 out compensation, and the Secretary determines that
 19 any amounts saved thereby are fully credited to the
 20 nonprofit organization undertaking the rehabilitation.”

21 **WAIVER OF DEDUCTION ON ASSIGNMENT OF PROPERTY TO**
 22 **SECRETARY IN LIEU OF FORECLOSURE**

23 **SEC. 311.** Title V of the National Housing Act is
 24 amended by adding at the end thereof the following new
 25 section:

1 “WAIVER OF DEDUCTION ON ASSIGNMENT OF PROPERTY
2 TO SECRETARY IN LIEU OF FORECLOSURE

3 “SEC. 523. Notwithstanding any other provision of this
4 Act, from and after the date of the enactment of the Housing
5 and Urban Development Act of 1966, the Secretary, under
6 such terms and conditions as he may approve, may waive
7 all or a part of the 1 per centum deduction otherwise made
8 from insurance benefits with respect to multifamily housing
9 or land development mortgages assigned to him, where the
10 assignment is made at his request in lieu of foreclosure of
11 the mortgage.”

12 ARMED SERVICES HOUSING MORTGAGE INSURANCE
13 PROGRAM

14 SEC. 312. (a) Section 803(a) of the National Housing
15 Act is amended—

16 (1) by striking out “\$2,300,000,000” and inserting
17 in lieu thereof “\$3,350,000,000”;

18 (2) by striking out “October 1, 1962” and inserting
19 in lieu thereof “October 1, 1969”; and

20 (3) by striking out “twenty-eight thousand” and
21 inserting in lieu thereof “eighty-eight thousand”.

22 (b) Section 803(b) of such Act is amended—

23 (1) by striking out “\$16,500” each place it ap-
24 pears in paragraph (3)(B) and inserting in lieu thereof
25 “\$17,500”; and

(2) by striking out “ $4\frac{1}{2}$ per centum” in the sentence following paragraph (3)(C) and inserting in lieu thereof “ $5\frac{1}{2}$ per centum”.

INCREASE IN UNITS INSURABLE UNDER SECTION 810

PROGRAM

SEC. 313. Section 810(i) of the National Housing Act is amended by striking out “five thousand dwelling units” and inserting in lieu thereof “ten thousand dwelling units”.

TITLE IV—LAND DEVELOPMENT AND NEW COMMUNITIES

MORTGAGE INSURANCE FOR NEW COMMUNITIES

SEC. 401. Title X of the National Housing Act is amended by inserting after section 1003 the following new section 1004 and redesignating the remaining sections accordingly:

“NEW COMMUNITIES

“SEC. 1004. (a) New communities consisting of developments, satisfying all other requirements under this title, may be approved under this section by the Secretary for mortgage insurance if they meet the requirements of subsection (b) of this section.

“(b) A development shall be eligible for approval as a new community if the Secretary determines it will, in

1 view of its size and scope, make a substantial contribution
2 to the sound and economic growth of the area within which
3 it is located in the form of—

4 “(1) substantial economies, made possible through
5 large-scale development, in the provision of improved
6 residential sites;

7 “(2) adequate housing to be provided for those
8 who would be employed in the community or the sur-
9 rounding area;

10 “(3) maximum accessibility from the new residen-
11 tial sites to industrial or other employment centers and
12 commercial, recreational, and cultural facilities in or
13 near the community; and

14 “(4) maximum accessibility to any major central
15 city in the area”.

16 MORTGAGE AMOUNT AND TERM

17 SEC. 402 (a) Section 1002(c) of the National Housing
18 Act is amended by striking out “\$10,000,000” and insert-
19 ing in lieu thereof “\$25,000,000”.

20 (b) Section 1002(d)(1) of such Act is amended to
21 read as follows:

22 “(1) contain repayment provisions satisfactory to
23 the Secretary and have a maturity not to exceed seven
24 years, or such longer maturity as the Secretary deems
25 reasonable (A) in the case of a privately owned system

for water or sewerage, and (B) in the case of a new community approved under section 1004;”.

ENCOURAGEMENT OF SMALL BUILDERS

SEC. 403. The section of the National Housing Act redesignated as section 1005 by section 401 of this Act is amended by inserting “particularly small builders,” after “broad participation by builders,”.

WATER AND SEWERAGE FACILITIES

SEC. 404. The section of the National Housing Act redesignated as section 1006 by section 401 of this Act is amended to read as follows:

“WATER AND SEWERAGE FACILITIES

“SEC. 1006. After development of the land it shall be served by public systems for water and sewerage which are consistent with other existing or prospective systems within the area, except that—

“(a) in the case of systems for water, the land may be served by privately or cooperatively owned systems which are consistent with other existing or prospective systems within the area; are approved as adequate by the Secretary; and are regulated in a manner acceptable to him with respect to user rates and charges, capital structure, methods of operation, rate of return, and conditions and terms of any sale or transfer; and

1 “(b) in the case of systems for sewerage, the land
2 may be served by—

3 “(1) existing privately or cooperatively owned
4 systems (including reasonable extensions thereto)
5 which are approved as adequate by the Secretary
6 and are regulated in a manner acceptable to him;
7 or

8 “(2) if it is necessary to develop a new system
9 and the Secretary determines that public ownership
10 of such a system is not feasible, an adequate pri-
11 vately or cooperatively owned new system (A) which
12 he finds consistent with other existing or prospective
13 systems within the area, (B) which will be regu-
14 lated, during the period of such ownership, in a man-
15 ner acceptable to him with respect to user rates and
16 charges, capital structure, methods of operation, and
17 rate of return, and (C) regarding which he receives
18 assurances, satisfactory to him, with respect to even-
19 tual public ownership and operation of the system
20 and with respect to the conditions and terms of any
21 sale or transfer.”

1 *FEDERAL NATIONAL MORTGAGE ASSOCIATION SPECIAL*

2 *ASSISTANCE FOR NEW COMMUNITIES*

3 *SEC. 405. Section 302(b) of the National Housing Act*
4 *is amended by inserting after "or title VIII," in the proviso*
5 *the following: "or under title X with respect to a new com-*
6 *munity approved under section 1004 thereof,".*

7 *URBAN PLANNING GRANTS*

8 *SEC. 406. Section 701(a)(4) of the Housing Act of*
9 *1954 is amended by inserting before the semicolon at the*
10 *end thereof the following: ", or for areas where rapid urbani-*
11 *zation is expected to result on land developed or to be devel-*
12 *oped as a new community approved under section 1004*
13 *of the National Housing Act"'.*

14 *PUBLIC FACILITY LOANS*

15 *SEC. 407. Section 202(b)(4) of the Housing Amend-*
16 *ments of 1955 is amended by adding before the period at*
17 *the end of the second sentence the following: ", or (iii) to*
18 *be provided in connection with the establishment of a new*
19 *community approved under section 1004 of the National*
20 *Housing Act"'.*

*TITLE V—MORTGAGE INSURANCE FOR
GROUP PRACTICE FACILITIES*

PURPOSE

SEC. 501. It is the purpose of this title to assure the availability of credit on reasonable terms to units or organizations engaged in the group practice of medicine, optometry, or dentistry, particularly those in smaller communities, to assist in financing the construction and equipment of group practice facilities.

ESTABLISHMENT OF PROGRAM

SEC. 502. (a) The National Housing Act is amended by adding at the end thereof the following new title:

*“TITLE XI—MORTGAGE INSURANCE FOR
GROUP PRACTICE FACILITIES*

“INSURANCE OF MORTGAGES

“SEC. 1101. (a) The Secretary is authorized (1) to insure mortgages (including advances on such mortgages during construction), upon such terms and conditions as he may prescribe, in accordance with the provisions of this title, and (2) to make commitments for the insuring of such mortgages prior to the date of their execution or disbursement thereon. No mortgage shall be insured under this title after October 1, 1969, except pursuant to a commitment to insure issued before that date.

“(b) To be eligible for insurance under this title, the

1 mortgage shall (1) be executed by a mortgagor that is
2 a group practice unit or organization, approved by the Sec-
3 retary, (2) be made to and held by a mortgagee ap-
4 proved by the Secretary as responsible and able to service
5 the mortgage properly, and (3) cover a property or project
6 which is approved for mortgage insurance prior to the be-
7 ginning of construction or rehabilitation and is designed for
8 use as a group practice facility which the Secretary finds
9 will be constructed in an economical manner, will not be of
10 elaborate or extravagant design or materials, and will be
11 adequate and suitable for carrying out the purposes of this
12 title. No mortgage shall be insured under this title unless
13 it is shown to the satisfaction of the Secretary that the
14 applicant would be unable to obtain the mortgage loan
15 without such insurance on terms comparable to those speci-
16 fied in subsection (c).

17 “(c) The mortgage shall—

18 “(1) not exceed \$5,000,000;

19 “(2) not exceed 90 per centum of the amount
20 which the Secretary estimates will be the value of the
21 property or project when construction or rehabilitation
22 is completed. The value of the property may include
23 the land and the proposed physical improvements, equip-
24 ment, utilities within the boundaries of the property,

1 architects' fees, taxes, and interest accruing during con-
2 struction or rehabilitation, and other miscellaneous
3 charges incident to construction or rehabilitation and
4 approved by the Secretary;

5 “(3) have a maturity satisfactory to the Secretary
6 but not to exceed twenty-five years, and provide for
7 complete amortization of the principal obligation by
8 periodic payments within such term as the Secretary
9 shall prescribe; and

10 “(4) bear interest (exclusive of premium charges
11 for insurance, and service charges if any) at a rate of
12 not to exceed 5 per centum per annum of the amount of
13 the principal obligation outstanding at any time, or not
14 to exceed such rate (not in excess of 6 per centum per
15 annum) as the Secretary finds necessary to meet the
16 mortgage market.

17 “(d) Any contract of insurance executed by the Secre-
18 tary under this title shall be conclusive evidence of the
19 eligibility of the mortgage for insurance, and the validity of
20 any contract for insurance so executed shall be incontestable
21 in the hands of an approved mortgagee from the date of the
22 execution of such contract, except for fraud or misrepresenta-
23 tion on the part of such approved mortgagee.

24 “(e) Each mortgage insured under this title shall con-
25 tain an undertaking (in accordance with regulations pre-

1 scribed under this title and in force at the time the mortgage
2 is approved for insurance) to the effect that, except as
3 authorized by the Secretary and the mortgagee, the prop-
4 erty will be used as a group practice facility until the
5 mortgage has been paid in full or the contract of insurance
6 otherwise terminated.

7 “(f) No mortgage shall be insured under this title
8 unless the mortgagor and the mortgagee certify (1) that
9 they will keep such records relating to the mortgage trans-
10 action and indebtedness, to the construction of the facility
11 covered by the mortgage, and to the use of such facility as
12 a group practice facility as are prescribed by the Secretary
13 at the time of such certification, (2) that they will make
14 such reports as may from time to time be required by the
15 Secretary pertaining to such matters, and (3) that the
16 Secretary shall have access to and the right to examine and
17 audit such records.

18 “PREMIUMS

19 “SEC. 1102. The Secretary shall fix premium charges
20 for the insurance of mortgages under this title, but such
21 charges shall not be more than 1 per centum per annum
22 of the amount of the principal obligation of the mortgage
23 outstanding at any time, without taking into account delin-
24 quent payments or prepayments. In addition to the pre-
25 mium charge, the Secretary is authorized to charge and col-

1 lect such amounts as he may deem reasonable for the analysis
2 of a proposed project and the appraisal and inspection of
3 the property and improvements. Where the principal obli-
4 gation of any mortgage accepted for insurance under this
5 title is paid in full prior to the maturity date, the Secretary
6 is authorized to require the payment by the mortgagee of
7 an adjusted premium charge. This charge shall be in such
8 amount as the Secretary determines to be equitable, but not
9 in excess of the aggregate amount of the premium charges
10 that the mortgagee would otherwise have been required to
11 pay if the mortgage had continued to be insured until the
12 maturity date. Where such prepayment occurs, the Secre-
13 tary is authorized to refund to the mortgagee for the account
14 of the mortgagor all, or such portion as he shall determine
15 to be equitable, of the current unearned premium charges
16 theretofore paid. Premium charges fixed under this section
17 shall be payable by the mortgagee either in cash, or in de-
18 bentures which are the obligation of the General Insurance
19 Fund at par plus accrued interest, at such times and in such
20 manner as may be prescribed by the Secretary.

21 "PAYMENT OF INSURANCE BENEFITS

22 "SEC. 1103. The mortgagee shall be entitled to receive
23 the benefits of the insurance under this title in the manner
24 provided in subsection (g) of section 207 with respect to
25 mortgages insured under that section. For such purpose the

1 provisions of subsections (g), (h), (i), (j), (k), (l), and
2 (n) of section 207 shall apply to mortgages insured under
3 this title and all references in such subsections to section
4 207 shall be deemed to refer to this title.

5 "REGULATIONS

6 "SEC. 1104. The Secretary shall prescribe such regu-
7 lations as may be necessary to carry out this title, after con-
8 sulting with the Secretary of Health, Education, and Wel-
9 fare with respect to any health or medical aspects of the
10 program under this title which may be involved in such
11 regulations.

12 "ADMINISTRATION

13 "SEC. 1105. (a) At the request of individuals or orga-
14 nizations operating or contemplating the operation of group
15 practice facilities (as defined in section 1106(1)), the Sec-
16 retary may provide or obtain technical assistance in the
17 planning for and construction of such facilities.

18 "(b) With a view to avoiding unnecessary duplication
19 of existing staffs and facilities of the Federal Government,
20 the Secretary is authorized to utilize available services and
21 facilities of any agency of the Federal Government in carry-
22 ing out the provisions of this title, and to pay for such serv-
23 ices and facilities, either in advance or by way of reimburse-
24 ment, in accordance with an agreement between the Secre-
25 tary and the head of such agency.

“DEFINITIONS

“SEC. 1106. For the purposes of this title—

“(1) The term ‘group practice facility’ means a facility in a State for the provision of preventive, diagnostic, and treatment services to ambulatory patients (in which patient care is under the professional supervision of persons licensed to practice medicine or surgery in the State or, in the case of optometric care or treatment, is under the professional supervision of persons licensed to practice optometry in the State, or, in the case of dental diagnosis or treatment, is under the professional supervision of persons licensed to practice dentistry in the State) and which is primarily for the provision of such health services by a medical or dental group.

“(2) The term ‘medical or dental group’ means a partnership or other association or group of persons licensed to practice medicine or surgery in the State, or of persons licensed to practice optometry in the State, or of persons licensed to practice dentistry in the State, or of any combination of such persons, who, as their principal professional activity and as a group responsibility, engage or undertake to engage in the coordinated practice of their profession primarily in one or more group practice facilities, and who (in this connection) share common overhead expenses (if and to the extent such expenses are paid by members of the group), medical and other records, and substantial portions of the

1 *equipment and the professional, technical, and administra-*
2 *tive staffs, and which partnership or association or group is*
3 *composed of at least such professional personnel and makes*
4 *available at least such health services as may be provided*
5 *in regulations prescribed under this title.*

6 “(3) The term ‘group practice unit or organization’
7 means—

8 “(A) a private nonprofit agency or organization
9 undertaking to provide, directly or through arrange-
10 ments with a medical or dental group, comprehensive
11 medical care, optometric care, or dental care, or any
12 combination thereof, which may include hospitalization,
13 to members or subscribers primarily on a group practice
14 prepayments basis;

15 “(B) a private nonprofit agency or organization
16 established for the purpose of improving the availability
17 of medical, optometric, or dental care in the community
18 or having some function or functions related to the
19 provision of such care, which will, through lease or
20 other arrangement, make the group practice facility
21 with respect to which assistance has been requested under
22 this title available to a medical or dental group for use
23 by it; or

24 “(C) a medical or dental group.

1 “(4) The term ‘nonprofit organization’ means a corpo-
2 ration, association, foundation, trust, or other organization
3 no part of the net earnings of which inures, or may lawfully
4 inure, to the benefit of any private shareholder or individual
5 except, in the case of an organization the purposes of which
6 include the provision of personal health services to its mem-
7 bers or subscribers or their dependents under a plan of such
8 organization for the provision of such services to them
9 (which plan may include the provision of other services
10 or insurance benefits to them), through the provision of
11 such health services (or such other services or insurance
12 benefits) to such members or subscribers or dependents
13 under such plan.

14 “(5) The term ‘State’ includes the Commonwealth of
15 Puerto Rico, Guam, the Virgin Islands, American Samoa,
16 and the District of Columbia.

17 “(6) The term ‘mortgage’ means a first mortgage on
18 real estate in fee simple, or on the interest of either the
19 lessor or lessee thereof (A) under a lease for not less than
20 ninety-nine years which is renewable, or (B) under a lease
21 having a period of not less than fifty years to run from the
22 date the mortgage was executed. The term ‘first mortgage’
23 means such classes of first liens as are commonly given to
24 secure advances (including but not limited to advances dur-
25 ing construction) on, or the unpaid purchase price of, real

1 estate under the laws of the State in which the real estate is
 2 located, together with the credit instrument or instruments,
 3 if any, secured thereby, and any mortgage may be in the
 4 form of one or more trust mortgages or mortgage indentures
 5 or deeds of trust, securing notes, bonds, or other credit in-
 6 struments, and, by the same instrument or by a separate in-
 7 strument, may create a security interest in initial equipment,
 8 whether or not attached to the realty.

9 “(7) The term ‘mortgagee’ means the original lender
 10 under a mortgage, and his or its successors and assigns, and
 11 includes the holders of credit instruments issued under a
 12 trust mortgage or deed of trust pursuant to which such
 13 holders act by and through a trustee named therein.

14 “(8) The term ‘mortgagor’ means the original bor-
 15 rower under a mortgage and his or its successors and
 16 assigns.”

17 (b) The first sentence of section 227 of such Act is
 18 amended by inserting after “new or rehabilitated multifamily
 19 housing” the following: “or a property or project described
 20 in title XI”.

21 LABOR STANDARDS

22 SEC. 503. Section 212(a) of the National Housing
 23 Act is amended by adding at the end thereof the following
 24 new sentence: “The provisions of this section shall also

1 *apply to the insurance of any mortgage under title XI;*
 2 *and each laborer or mechanic employed on any facility cov-*
 3 *ered by a mortgage insured under such title shall receive*
 4 *compensation at a rate not less than one and one-half times*
 5 *his basic rate of pay for all hours worked in any workweek*
 6 *in excess of eight hours in any workday or forty hours in the*
 7 *workweek, as the case may be."*

8 *AMENDMENTS TO OTHER FEDERAL LAWS*

9 *SEC. 504. (a)(1) The sixth sentence of paragraph*
 10 *"Seventh" of section 5136 of the Revised Statutes, as*
 11 *amended (12 U.S.C. 24), is amended by inserting after*
 12 *"Federal Home Loan Banks," the following: "or obliga-*
 13 *tions which are insured by the Secretary of Housing and*
 14 *Urban Development under title XI of the National Housing*
 15 *Act".*

16 *(2) The third sentence of the first paragraph of section*
 17 *24 of the Federal Reserve Act, as amended (12 U.S.C.*
 18 *371), is amended by inserting after "or sections 1471-1484*
 19 *of title 42," the following: "or which are insured by the*
 20 *Secretary of Housing and Urban Development pursuant to*
 21 *title XI of the National Housing Act,".*

22 *(b) Subsection (a) of section 304 of the Trust Inden-*
 23 *ture Act of 1939 (15 U.S.C. 77ddd) is amended by striking*
 24 *out the word "or" at the end of paragraph (8); by striking*
 25 *out the period at the end of paragraph (9) and inserting in*

1 *lieu thereof a semicolon and the word "or"; and by adding*
 2 *after paragraph (9) a new paragraph as follows:*

3 *"(10) any security issued under a mortgage or*
 4 *trust deed indenture as to which a contract of insurance*
 5 *under title XI of the National Housing Act is in effect;*
 6 *and any such security shall be deemed to be exempt from*
 7 *the provisions of the Securities Act of 1933 to the same*
 8 *extent as though such security were specifically enumer-*
 9 *ated in section 3(a)(2), as amended, of the Securities*
 10 *Act of 1933 (15 U.S.C. 77c(a)(2))."*

11 *(c) Section 263 of chapter X of the Bankruptcy Act*
 12 *(11 U.S.C. 663) is amended by adding at the end thereof*
 13 *the following: "Nothing contained in this chapter shall be*
 14 *deemed to affect or apply to the creditors of any corporation*
 15 *under a mortgage insured pursuant to title XI of the National*
 16 *Housing Act."*

17 *TITLE VI—PRESERVATION OF HISTORIC*
 18 *STRUCTURES*

19 *PRESERVATION OF HISTORIC STRUCTURES AS PART OF*
 20 *URBAN RENEWAL PROJECTS*

21 *SEC. 601. (a) Section 110(b) of the Housing Act of*
 22 *1949 is amended by inserting "historic and architectural*
 23 *preservation," after "land acquisition,".*

24 *(b) Section 110(c)(6) of such Act is amended by*

1 inserting "to promote historic and architectural preserva-
 2 tion," after "deterioration,".

3 (c) Section 110(c) of such Act is further amended
 4 by striking out "and" at the end of clause (8), and by
 5 striking out clause (9) and inserting in lieu thereof the
 6 following:

7 " (9) relocation within or outside the project area
 8 of structures which will be restored and maintained for
 9 architectural or historic purposes; and
 10 " (10) restoration of acquired properties of historic
 11 or architectural value."

12 LOCAL GRANT-IN-AID CREDIT FOR RELOCATION AND
 13 RESTORATION OF HISTORIC STRUCTURES

14 SEC. 602. Clause (2) of section 110(d) of the Housing
 15 Act of 1949 is amended by striking out "clause (2) and
 16 clause (3)" and inserting in lieu thereof "clauses (2), (3),
 17 (9), and (10)".

18 GRANTS TO NATIONAL TRUST FOR HISTORIC
 19 PRESERVATION TO COVER RESTORATION COSTS

20 SEC. 603. (a) The Secretary of Housing and Urban
 21 Development is authorized to make grants to the National
 22 Trust for Historic Preservation, on such terms and conditions
 23 and in such amounts (not exceeding \$90,000 with respect to
 24 any one structure) as he deems appropriate, to cover the
 25 costs incurred by such Trust in renovating or restoring

1 structures which it considers to be of historic or architectural
 2 value and which it has accepted and will maintain (after
 3 such renovation or restoration) for historic purposes.

4 (b) There are authorized to be appropriated such sums
 5 as may be necessary for the grants to be made under sub-
 6 section (a).

7 URBAN PLANNING GRANTS FOR SURVEYS OF HISTORIC
 8 STRUCTURES

9 SEC. 604. Section 701 of the Housing Act of 1954 is
 10 amended by adding at the end thereof the following new
 11 subsection:

12 “(h) In addition to the other grants authorized by this
 13 section, the Secretary is authorized to make grants to assist
 14 any city, other municipality, or county in making a survey
 15 of the structures and sites in such locality which are deter-
 16 mined by its appropriate authorities to be of historic or
 17 architectural value. Any such survey shall be designed to
 18 identify the historic structures and sites in the locality,
 19 determine the cost of their rehabilitation or restoration, and
 20 provide such other information as may be necessary or ap-
 21 propriate to serve as a foundation for a balanced and effective
 22 program of historic preservation in such locality. The as-
 23 pects of any such survey which relate to the identification
 24 of historic and architectural values shall be conducted in
 25 accordance with criteria found by the Secretary to be com-

1 *parable to those used in establishing the National Register*
 2 *maintained by the Secretary of the Interior under other*
 3 *provisions of law; and the results of each such survey*
 4 *shall be made available to the Secretary of the Interior.*
 5 *A grant under this subsection shall not exceed two-thirds of*
 6 *the cost of the survey for which it is made, and shall be*
 7 *made to the appropriate agency or entity specified in para-*
 8 *graphs (1) through (9) of subsection (a) or, if there is*
 9 *no such agency or entity which is qualified and willing to*
 10 *receive the grant and provide for its utilization in accordance*
 11 *with this subsection, directly to the city, other municipality,*
 12 *or county involved."*

13 *LOANS FOR ACQUISITION AND REHABILITATION OF*
 14 *HISTORIC STRUCTURES*

15 *SEC. 605. (a) Section 312(a) of the Housing Act of*
 16 *1964 is amended by inserting "(1)" after "(a)", by strik-*
 17 *ing out the second sentence, and by adding at the end thereof*
 18 *the following new paragraphs:*

19 *"(2) To assist in the preservation of historic structures*
 20 *both within and outside of urban renewal areas, the Secre-*
 21 *tary is also authorized under this section to make loans to*
 22 *the owners or tenants of structures which are determined in*
 23 *accordance with regulations prescribed by him to be of his-*
 24 *toric or architectural value to finance the rehabilitation or*
 25 *restoration of such structures, and to make loans to other*

1 persons to finance the acquisition and rehabilitation or res-
 2 toration by them of structures which are determined in
 3 accordance with such regulations to be of historic or archi-
 4 tectural value.

5 “(3) No loan shall be made under this section unless
 6 the Secretary finds (A) that the applicant is unable to secure
 7 the necessary funds from other sources upon comparable
 8 terms and conditions, and (B) the loan is an acceptable
 9 risk, taking into consideration the security available for the
 10 loan, the ability of the applicant to repay the loan, and the
 11 need for the rehabilitation or restoration involved.

12 “(4) Nothing in this section shall prevent a person
 13 from receiving a loan under this section with respect to
 14 property in connection with which he receives a grant under
 15 section 115 of the Housing Act of 1949, if and to the
 16 extent that such person is otherwise eligible to receive such
 17 loan under this section.”

18 (b)(1) The heading of section 312 of such Act is
 19 amended to read as follows:

20 “LOANS FOR REHABILITATION OR HISTORIC
 21 PRESERVATION”.

22 (2) Section 312(b)(1) of such Act is amended by
 23 striking out “or the urban renewal plan” and inserting in
 24 lieu thereof “, or the urban renewal plan if any,”.

25 (3) Section 312(b)(3) of such Act is amended by

1 striking out "rehabilitation loan" and inserting in lieu
2 thereof "loan".

3 (4) So much of section 312(c) of such Act as precedes
4 paragraph (1) thereof as amended by striking out "rehabili-
5 tation loan" and inserting in lieu thereof "loan".

6 (5) Section 312(c)(4) of such Act is amended by
7 striking out "the cost of rehabilitation" in subparagraphs
8 (A) and (B) and inserting in lieu thereof in each instance
9 "the cost of the rehabilitation, restoration, or acquisition and
10 restoration".

11 GRANTS FOR HISTORIC PRESERVATION

12 SEC. 606. (a) The heading of title VII of the Hous-
13 ing Act of 1961 is amended to read as follows:

14 "TITLE VII—OPEN-SPACE LAND, URBAN
15 BEAUTIFICATION, AND HISTORIC PRES-
16 ERVATION".

17 (b) Section 701 of such Act is amended by redesignig-
18 nating subsection (c) as subsection (d), and by inserting
19 after subsection (b) a new subsection as follows:

20 "(c) The Congress further finds that there is a need
21 for timely action to preserve and restore areas, sites, and
22 structures of historic or architectural value in order that
23 these remaining evidences of our past history and heritage
24 shall not be lost or destroyed through the expansion and
25 development of the Nation's urban areas."

1 (c) Section 701(d) of such Act (as redesignated by
2 subsection (b) of this section) is amended—

3 (1) by inserting after “urban development,” the
4 following: “to assist in preserving areas and properties
5 of historic or architectural value,”; and

6 (2) by striking out “and (2)” and inserting in lieu
7 thereof “(2) acquire, improve, and restore areas, sites,
8 and structures of historic or architectural value,
9 and (3)”.

10 (d) Section 702(e) of such Act is amended to read as
11 follows:

12 “(e) The Secretary shall consult with the Secretary
13 of the Interior on the general policies to be followed in re-
14 viewing applications for grants under this title. To assist the
15 Secretary in such review, the Secretary of the Interior shall
16 furnish him (1) appropriate information on the status of
17 national and statewide recreation and historic preservation
18 planning as it affects the areas to be assisted with such grants,
19 and (2) the current listing of any districts, sites, buildings,
20 structures, and objects significant in American history,
21 architecture, archeology, and culture which may be contained
22 on a National Register maintained by the Secretary of the
23 Interior pursuant to other provisions of law. The Secretary
24 shall provide current information to the Secretary of the

1 *Interior from time to time on significant program develop-*
 2 *ments.”*

3 *(e) Section 706 of such Act is amended by striking out*
 4 *the proviso.*

5 *(f) Section 708 of such Act is amended by inserting*
 6 *“(a)” after “SEC. 708.”, by inserting “(b)” before “The”*
 7 *in the second paragraph, and by adding at the end thereof*
 8 *a new subsection as follows:*

9 *“(c) Notwithstanding any other provision of this title,*
 10 *the Secretary may use not to exceed \$10,000,000 of the sum*
 11 *authorized for contracts under this title for the purpose of*
 12 *entering into contracts to make grants in amounts not to ex-*
 13 *ceed 90 per centum of the cost of activities which he deter-*
 14 *mines have special value in developing and demonstrating*
 15 *new and improved methods and materials for use in carry-*
 16 *ing out the purposes of this title.”*

17 *(g) Title VII of such Act is amended by redesignating*
 18 *section 709 as section 710, and by adding after section 708*
 19 *a new section as follows:*

20 *“GRANTS FOR HISTORIC PRESERVATION*

21 *“SEC. 709. The Secretary is authorized to enter into*
 22 *contracts to make grants to States and local public bodies to*
 23 *assist in the acquisition of title to or other permanent in-*
 24 *terests in areas, sites, and structures of historic or architec-*
 25 *tural value in urban areas, and in their restoration and im-*

1 *provement for public use and benefit, in accord with the*
 2 *comprehensively planned development of the locality. The*
 3 *amount of any such grant shall not exceed 50 per centum of*
 4 *the total cost, as approved by the Secretary, of the assisted*
 5 *activities. The remainder of such cost shall be provided*
 6 *from non-Federal sources.”*

7 *(h) Commencing three years after the date of the enact-*
 8 *ment of this Act, no grant shall be made (except pursuant*
 9 *to a contract or commitment entered into less than three*
 10 *years after such date) under section 709 of the Housing*
 11 *Act of 1961 or section 701(h) of the Housing Act of 1954,*
 12 *or under section 103 of the Housing Act of 1949 to the extent*
 13 *that it is to be used for historic or architectural preservation,*
 14 *except with respect to districts, sites, buildings, structures, and*
 15 *objects which the Secretary of Housing and Urban Develop-*
 16 *ment finds meet criteria comparable to those used in establish-*
 17 *ing the National Register maintained by the Secretary of the*
 18 *Interior pursuant to other provisions of law.*

19 *TITLE VII—URBAN RENEWAL*

20 *LOCAL GRANTS-IN-AID*

21 *SEC. 701. Section 110(d) of the Housing Act of 1949*
 22 *is amended by inserting immediately after the colon at the*
 23 *end of the first proviso the following: “Provided further,*
 24 *That any publicly owned facility, the construction of which*
 25 *was begun not earlier than three years prior to the date of*

1 enactment of the Demonstration Cities and Metropolitan De-
 2 velopment Act of 1966, shall be deemed to benefit an urban
 3 renewal project or projects to the extent of 25 per centum of
 4 the total benefits of such facility, if such facility (A) is used,
 5 or is to be used, by the public predominantly for cultural, ex-
 6 hibition, civic, or municipal purposes; (B) is located within,
 7 adjacent to, or in the immediate vicinity of such urban re-
 8 newal project or projects; (C) is found to contribute ma-
 9 terially to the objectives of the urban renewal plan or plans
 10 for such project or projects; and (D) is not otherwise eligible
 11 as a local grant-in-aid:'".

12 AIR RIGHTS SITES IN URBAN RENEWAL PROJECTS

13 SEC. 702. (a) Section 110(c)(1) of the Housing Act
 14 of 1949 is amended by inserting in clause (iv), between the
 15 word "income" and the colon immediately preceding the first
 16 proviso, the following: "or, if the area is found by the local
 17 public agency to be unsuitable for use for low or moderate
 18 income housing, for use for industrial development".

19 (b) Section 110(c)(7) of such Act is amended by in-
 20 serting immediately before the semicolon the following: "
 21 or construction of foundations and platforms necessary for
 22 the provision of air rights sites for industrial development".

23 APPLICATION OF DAVIS-BACON ACT TO MULTIFAMILY 24 HOUSING CONSTRUCTION IN URBAN RENEWAL AREAS

25 SEC. 703. Section 105 of the Housing Act of 1949 is

1 amended by adding at the end thereof the following new
2 subsection:

3 “(f) All laborers and mechanics employed by contrac-
4 tors or subcontractors in the construction of any multifamily
5 housing (as defined for purposes of this subsection by the
6 Secretary of Housing and Urban Development or his
7 designee) which may be involved in the redevelopment of the
8 urban renewal area, and which is not subject to the provisions
9 of section 212 of the National Housing Act or to other pro-
10 visions of Federal law imposing similar standards, will be
11 paid wages at rates not less than those prevailing on similar
12 construction in the locality as determined by the Secretary
13 of Labor in accordance with the Davis-Bacon Act, as
14 amended (40 U.S.C. 276a—276a-5). No contract for loan
15 or capital grant shall be entered into under this title with
16 respect to an urban renewal area whose redevelopment will
17 involve the construction of such housing without first obtain-
18 ing adequate assurance that the labor standards imposed by
19 the preceding sentence (or, in the case of housing which is
20 subject to the provisions of section 212 of the National Hous-
21 ing Act or to other provisions of Federal law imposing
22 similar standards, the labor standards imposed by such pro-
23 visions) will be maintained upon the construction work.
24 The Secretary of Labor shall have, with respect to the labor
25 standards specified in this subsection, the authority and func-

1 *tions set forth in Reorganization Plan Numbered 14 of 1950*
 2 *(15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 133z-15), and sec-*
 3 *tion 2 of the Act of June 13, 1934, as amended (48 Stat.*
 4 *948; 40 U.S.C. 276c)."*

5 TITLE VIII—RURAL HOUSING

6 *SEC. 801. Section 501(a) of the Housing Act of 1949*
 7 *is amended by striking out "previously occupied" wherever*
 8 *it appears.*

9 *SEC. 802. Section 502(a) of the Housing Act of 1949*
 10 *is amended by striking out "In cases of applicants who are*
 11 *elderly persons, the" and inserting in lieu thereof "The".*

12 *SEC. 803. Section 504 of the Housing Act of 1949 is*
 13 *amended by striking out "\$1,000" and inserting in lieu*
 14 *thereof "\$1,500".*

15 *SEC. 804. (a) Section 515(a) of the Housing Act of*
 16 *1949 is amended by inserting after "income" the following:*
 17 *"or other persons and families of low income".*

18 *(b) Section 515(d)(1) of such Act is amended by*
 19 *striking out "elderly persons or elderly families" and insert-*
 20 *ing in lieu thereof "occupants eligible under this section".*

21 *SEC. 805. (a) Subsections (a) and (b) of section 515*
 22 *of the Housing Act of 1949 are each amended by striking*
 23 *out "rental housing" and inserting in lieu thereof "rental or*
 24 *cooperative housing".*

25 *(b) Section 515(b) of such Act is amended by inserting*

1 after "families" the following: "or other persons and families
2 of moderate income".

3 (c) Section 515(d)(4) of such Act is amended by
4 adding at the end thereof the following: "Such fees and
5 charges may include payments to qualified consulting orga-
6 nizations or foundations which operate on a nonprofit basis
7 and which render services or assistance to nonprofit corpora-
8 tions or consumer cooperatives who provide housing and
9 related facilities."

10 SEC. 806. Section 517(a)(1) of the Housing Act of
11 1949 is amended—

12 (1) by inserting "and" before "(B)"; and

13 (2) by striking out ", and (C)" and all that fol-
14 lows and inserting in lieu thereof the following: "; but
15 no loan under this paragraph shall be insured or made
16 after October 1, 1969, except pursuant to a commitment
17 entered into before that date; and".

18 TITLE IX—MISCELLANEOUS

19 HOUSING FOR THE ELDERLY OR HANDICAPPED

20 SEC. 901. Section 105(b) of the Housing and Urban
21 Development Act of 1965 is amended—

22 (1) by inserting "(1)" after "(b)";

23 (2) by striking out "Effective with respect to loans
24 made on or after the date of the enactment of this Act,
25 section" and inserting in lieu thereof "Section"; and

1 (3) by adding at the end thereof a new paragraph
2 as follows:

3 “(2) The interest rate provided by the amendment
4 made in paragraph (1) shall be applicable (A) with respect
5 to any loan made on or after August 10, 1965, and (B) with
6 respect to any loan made prior to such date if construction of
7 the housing or related facilities to be assisted by such loan
8 was not commenced prior to such date, and not completed
9 prior to the filing of an application for the benefits of such
10 interest rate.”

11 LOW-RENT HOUSING IN PRIVATE ACCOMMODATIONS FOR
12 DISPLACED FAMILIES—TERM OF LEASE

13 SEC. 902. Section 23(d) of the United States Housing
14 Act of 1937 is amended by inserting after “thirty-six
15 months” the following: “(except that it may be for a term of
16 up to sixty months in any case in which the public housing
17 agency determines that the housing to be leased thereunder
18 is needed for displaced families)”.

19 APPLICATION OF DAVIS-BACON ACT TO LOW-RENT HOUS-
20 ING PROJECTS CONSISTING OF PRIVATELY BUILT
21 HOUSING

22 SEC. 903. Section 16(2) of the United States Housing
23 Act of 1937 is amended by inserting after “the development
24 of the project involved” the following: “(including a project
25 for the use of privately built housing in any case, other than

1 under the authority of section 23 of this Act, where the
2 public housing agency and the builder or sponsor enter into an
3 agreement for such use before construction or rehabilitation
4 is commenced), and that each such laborer or mechanic
5 shall receive compensation at a rate not less than one and
6 one-half times his basic rate of pay for all hours worked
7 in any workweek in excess of eight hours in any workday
8 or forty hours in the workweek, as the case may be”.

9 ASSISTANCE FOR HOUSING IN ALASKA

10 SEC. 904. (a) The Secretary of Housing and Urban
11 Development (hereinafter referred to as the “Secretary”)
12 is authorized to make loans and grants to the State of Alaska,
13 or any duly authorized agency or instrumentality thereof, in
14 accordance with a statewide program prepared by such
15 State, agency, or instrumentality, and approved by the
16 Secretary, to assist in the provision of housing and related
17 facilities for Alaska natives and other Alaska residents who
18 are otherwise unable to finance such housing and related
19 facilities upon terms and conditions which they can afford.
20 The program shall (1) specify the minimum and maximum
21 standards for such housing and related facilities (not to
22 exceed an average of \$7,500 per dwelling unit); (2) to
23 the extent feasible, encourage the proposed users of such
24 housing and related facilities to utilize mutual and self-help
25 in the construction thereof; and (3) provide experience,

1 *and encourage continued participation, in self-government*
 2 *and individual home ownership.*

3 *(b) Grants under this section shall not exceed 75 per*
 4 *centum of the aggregate cost of the housing and related*
 5 *facilities to be constructed under an approved program.*

6 *(c) There is authorized to be appropriated not to exceed*
 7 *\$10,000,000 to carry out the purposes of this section.*

8 *FEDERAL NATIONAL MORTGAGE ASSOCIATION PARTICI-*
 9 *PATION IN FEDERAL HOUSING ADMINISTRATION-*
 10 *INSURED CONSTRUCTION FINANCING*

11 *SEC. 905. Section 305 of the National Housing Act*
 12 *is amended by adding at the end thereof the following*
 13 *new subsection:*

14 *“(i) In any case where the Association makes a com-*
 15 *mitment to purchase under this section (1) a mortgage in-*
 16 *sured under section 213, or (2) a mortgage insured under*
 17 *section 221(d)(3) and executed by a cooperative (including*
 18 *an investor-sponsor), a private non-profit corporation or as-*
 19 *sociation, or a mortgagor qualified under section 221(e),*
 20 *such commitment may provide for participation by the As-*
 21 *sociation in the making of insured advances on the mortgage*
 22 *during construction. Such participation shall be limited to*
 23 *95 per centum of the amount of each of the advances involved,*
 24 *and the mortgagee providing the balance of such amount shall*
 25 *perform all necessary servicing and processing of such ad-*

1 *vances until the final insurance endorsement of the mortgage.*
 2 *The Secretary of Housing and Urban Development shall*
 3 *approve the reasonableness of the fee to be paid a participat-*
 4 *ing mortgagee, taking into account its services and the extent*
 5 *of its participation in the advances.”*

6 *FEDERAL NATIONAL MORTGAGE ASSOCIATION*

7 *STANDBY COMMITMENTS*

8 *SEC. 906. Section 304(a)(1) of the National Housing*
 9 *Act is amended by striking out the last sentence.*

10 *PLANNING GRANTS FOR RESEARCH ON STATE STATUTES*
 11 *AFFECTING LOCAL GOVERNMENTS*

12 *SEC. 907. Section 701(b) of the Housing Act of 1954*
 13 *is amended by inserting before the period at the end thereof*
 14 *the following: “, and for grants to assist in the conduct of*
 15 *studies and research relating to needed revisions in State*
 16 *statutes which create, govern, or control local governments*
 17 *and local governmental operations”.*

18 *PUBLIC FACILITY LOANS*

19 *SEC. 908. Section 202 of the Housing Amendments of*
 20 *1955 is amended by adding at the end thereof a new subsec-*
 21 *tion as follows:*

22 *“(f) The restrictions and limitations set forth in sub-*
 23 *section (c) of this section shall not apply to assistance to*
 24 *municipalities, other political subdivisions and instrumentali-*
 25 *ties of one or more States, and Indian tribes, for specific*

1 projects for cultural centers, including but not limited to,
 2 museums, art centers and galleries, and theaters and other
 3 physical facilities for the performing arts, which would be of
 4 cultural, educational, and informational value to the com-
 5 munities and areas where the centers would be located.”

6 *USE OF OPEN-SPACE GRANTS FOR DEVELOPMENT OF*
 7 *EXISTING OPEN-SPACE LAND*

8 *SEC. 909. (a) Section 701(b) of the Housing Act of*
 9 *1961 is amended by inserting “, for the development and re-*
 10 *development of existing parks and other open space,” after*
 11 *“the Nation’s urban areas”.*

12 *(b)(1) The first sentence of section 702(a) of such*
 13 *Act is amended by inserting before the period at the end*
 14 *thereof the following: “, or the development or redevel-*
 15 *opment, for open-space uses, of existing open-space land”.*

16 *(2) The second sentence of section 702(a) of such Act*
 17 *is amended by inserting before the period at the end thereof*
 18 *the following: “or such development or redevelopment”.*

19 *APPLYING ADVANCES IN TECHNOLOGY TO HOUSING AND*
 20 *URBAN DEVELOPMENT*

21 *SEC. 910. (a) To encourage and assist the housing*
 22 *industry to continue to reduce the cost and improve the*
 23 *quality of housing by the application to home construction*
 24 *of advances in technology, and to encourage and assist the*
 25 *application of advances in technology to urban development*

1 activities, the Secretary of Housing and Urban Development
2 (hereinafter referred to as the "Secretary") is directed to—

3 (1) conduct research and studies to test and demon-
4 strate new and improved techniques and methods of
5 applying advances in technology to housing construc-
6 tion, rehabilitation, and maintenance, and to urban de-
7 velopment activities; and

8 (2) encourage and promote the acceptance and
9 application of new and improved techniques and methods
10 of constructing, rehabilitating, and maintaining housing,
11 and the application of advances in technology to urban
12 development activities, by all segments of the housing
13 industry, communities, industries engaged in urban de-
14 velopment activities, and the general public.

15 (b) Research and studies conducted under this section
16 shall be designed to test and demonstrate the applicability
17 to housing construction, rehabilitation, and maintenance, and
18 urban development activities, of advances in technology re-
19 lating to (1) design concepts, (2) construction and rehabil-
20 itation methods, (3) manufacturing processes, (4) materials
21 and products, and (5) building components.

22 (c) The Secretary is authorized to carry out the
23 research and studies authorized by this section either directly
24 or by contract with public or private bodies or agencies, or

1 *by working agreement with departments and agencies of the*
2 *Federal Government, as he may determine to be desirable.*
3 *Contracts may be made by the Secretary for research and*
4 *studies authorized by this section for work to continue not*
5 *more than two years from the date of any such contract.*

6 *(d) There are authorized to be appropriated to carry*
7 *out the provisions of this section not to exceed \$5,000,000*
8 *for the fiscal year ending June 30, 1967, and not to exceed*
9 *\$10,000,000 for the fiscal year ending June 30, 1968. All*
10 *funds so appropriated shall remain available until expended.*

11 *(e) Nothing contained in this section shall limit any*
12 *authority of the Secretary under title III of the Housing*
13 *Act of 1948, section 602 of the Housing Act of 1956, or*
14 *any other provision of law.*

15 *URBAN ENVIRONMENTAL STUDIES*

16 *SEC. 911. (a) The Congress finds that, with the ever-*
17 *increasing concentration of the Nation's population in urban*
18 *centers, there has occurred a marked change in the environ-*
19 *mental conditions under which most people live and work;*
20 *that such change is characterized by the progressive substi-*
21 *tution of a highly complex, man-contrived environment for*
22 *an environment conditioned primarily by nature; that the*
23 *beneficent or malignant influence of environment on all liv-*
24 *ing creatures is well recognized; and that much more knowl-*
25 *edge is urgently needed concerning the effect on human*

1 *beings of highly urbanized surroundings. It is the purpose*
2 *of this section to authorize a comprehensive program of re-*
3 *search, studies, surveys, and analyses to improve understand-*
4 *ing of the environmental conditions necessary for the well-*
5 *being of an urban society, and for the intelligent planning*
6 *and development of viable urban centers.*

7 *(b) In order to carry out the purpose of this section,*
8 *the Secretary is authorized and directed to—*

9 *(1) conduct studies, surveys, research, and analy-*
10 *ses with respect to the ecological factors involved in*
11 *urban living;*

12 *(2) document and define urban environmental fac-*
13 *tors which need to be controlled or eliminated for the*
14 *well-being of urban life;*

15 *(3) establish a system of collecting and receiving*
16 *information and data on urban ecological research and*
17 *evaluations which are in process or are being planned*
18 *by public or private agencies, or individuals;*

19 *(4) evaluate and disseminate information pertain-*
20 *ing to urban ecology to public and private agencies or*
21 *organizations, or individuals, in the form of reports or*
22 *otherwise;*

23 *(5) initiate and utilize urban ecological informa-*
24 *tion in urban development projects initiated or assisted*

1 *by the Department of Housing and Urban Development;*
2 *and*

3 *(6) establish through interagency consultation the*
4 *coordinated utilization of urban ecological information in*
5 *projects undertaken or assisted by the Federal Govern-*
6 *ment which affect the growth or development of urban*
7 *areas.*

8 *(c)(1) The Secretary is authorized to establish such*
9 *advisory committees as he deems desirable for the purpose*
10 *of rendering advice and submitting recommendations for*
11 *carrying out the purpose of this section. Such advisory*
12 *committees shall render such advice to the Secretary upon*
13 *his request and may submit such recommendations to the*
14 *Secretary at any time on their own initiative. The Secre-*
15 *tary may designate employees of the Department of Hous-*
16 *ing and Urban Development to assist such committees.*

17 *(2) Members of such advisory committees shall receive*
18 *not to exceed \$100 per day when engaged in the actual*
19 *performance of their duties, in addition to reimbursement for*
20 *travel, subsistence, and other necessary expenses incurred by*
21 *them in the performance of their duties.*

22 *(d) The Secretary is authorized to carry out the studies,*
23 *surveys, research, and analyses authorized by this section*
24 *either directly or by contract with public or private bodies*
25 *or agencies, or by working agreement with departments and*

1 agencies of the Federal Government, as he may determine
 2 to be desirable. Contracts may be made by the Secretary
 3 for work under this subsection to continue not more than
 4 two years from the date of any such contract.

5 (e) There are authorized to be appropriated such sums
 6 as may be necessary to carry out the provisions of this sec-
 7 tion. All funds so appropriated shall remain available until
 8 expended when so provided in appropriation Acts.

9 MORTGAGE RELIEF FOR CERTAIN HOMEOWNERS

10 SEC. 912. That part of section 107 of the Housing
 11 and Urban Development Act of 1965 which precedes sub-
 12 section (f) is amended to read as follows:

13 "MORTGAGE RELIEF FOR CERTAIN HOMEOWNERS

14 "SEC. 107. (a) For the purposes of this section—

15 "(1) The term 'mortgage' means a mortgage which
 16 (A) is insured under the National Housing Act, or
 17 (B) secures a home loan guaranteed or insured under
 18 the Servicemen's Readjustment Act of 1944 or chapter
 19 37 of title 38, United States Code.

20 "(2) The term 'Federal mortgage agency' means—

21 "(A) the Secretary of Housing and Urban
 22 Development when used in connection with mort-
 23 gages insured under the National Housing Act, and

24 "(B) the Administrator of Veterans' Affairs

1 *when used in connection with mortgages securing*
2 *home loans guaranteed or insured under the Service-*
3 *men's Readjustment Act of 1944 or chapter 37*
4 *of title 38, United States Code.*

5 *"(3) The term 'distressed mortgagor' means an*
6 *individual who—*

7 *"(A) was employed by the Federal Govern-*
8 *ment at, or was assigned as a serviceman to, a*
9 *military base or other Federal installation and*
10 *whose employment or service at such base or in-*
11 *stallation was terminated subsequent to November 1,*
12 *1964, as the result of the closing (in whole or*
13 *in part) of such base or installation; and*

14 *"(B) is the owner-occupant of a dwelling sit-*
15 *uated at or near such base or installation and upon*
16 *which there is a mortgage securing a loan which is*
17 *in default because of the inability of such individual*
18 *to make payments due under such mortgage.*

19 *"(b)(1) Any distressed mortgagor, for the purpose of*
20 *avoiding foreclosure of his mortgage, may apply to the*
21 *appropriate Federal mortgage agency for a determination*
22 *that suspension of his obligation to make payments due*
23 *under such mortgage during a temporary period is necessary*
24 *in order to avoid such foreclosure.*

25 *"(2) Upon receipt of an application made under this*

1 subsection by a distressed mortgagor, the Federal mortgage
2 agency shall issue to such mortgagor a certificate of mora-
3 torium if it determines, after consultation with the interested
4 mortgagee, that such action is necessary to avoid foreclosure.

5 “(3) Prior to the issuance to any distressed mortgagor
6 of a certificate of moratorium under paragraph (2), the
7 Federal mortgage agency, the mortgagor, and the mortgagee
8 shall enter into a binding agreement under which—

9 “(A) the mortgagor will be required to make pay-
10 ments to such agency, after the expiration of such cer-
11 tificate, in an aggregate amount equal to the amount
12 paid by such agency on behalf of such mortgagor as
13 provided in subsection (c), together with interest
14 thereon at a rate not to exceed the rate provided in the
15 mortgage; the manner and time in which such payments
16 shall be made to be determined by the Federal mortgage
17 agency having due regard for the purposes sought to
18 be achieved by this section; and

19 “(B) the Federal mortgage agency will be sub-
20 rogated to the rights of the mortgagee to the extent of
21 payments made pursuant to such certificate, which rights,
22 however, shall be subject to the prior right of the mort-
23 gagee to receive the full amount payable under the
24 mortgage.

25 “(4) Any certificate of moratorium issued under this

1 subsection shall expire on whichever of the following dates
2 is the earliest—

3 “(A) two years from the date on which such cer-
4 tificate was issued;

5 “(B) thirty days after the date on which the mort-
6 gator gives notice in writing to the Federal mortgage
7 agency that he is able to resume his obligation to make
8 payments due under his mortgage; or

9 “(C) thirty days after the date on which the Federal
10 mortgage agency determines that the mortgagor to whom
11 such certificate was issued has ceased to be a distressed
12 mortgagor as defined in subsection (a)(3).

13 “(c)(1) Whenever a Federal mortgage agency issues
14 a certificate of moratorium to any distressed mortgagor with
15 respect to any mortgage, it shall transmit to the mortgagee
16 a copy of such certificate, together with a notice stating
17 that, while such certificate is in effect, such agency will
18 assume the obligation of such mortgagor to make payments
19 due under the mortgage.

20 “(2) Payments made by any Federal mortgage agency
21 pursuant to a certificate of moratorium issued under this
22 section with respect to the mortgage of any distressed mort-
23 gator may include, in addition to the payments referred to
24 in paragraph (1), an amount equal to the unpaid payments
25 under such mortgage prior to the issuance of such certificate,

1 *plus a reasonable allowance for foreclosure costs actually*
2 *paid by the mortgagee if a foreclosure action was dismissed*
3 *as a result of the issuance of a moratorium certificate. Pay-*
4 *ments by the Federal mortgage agency may also include*
5 *payments of taxes and insurance premiums on the mortgaged*
6 *property as deemed necessary when these items are not pro-*
7 *vided for through payments to a tax and insurance account*
8 *held by the interested mortgagee.*

9 “(3) *While any certificate of moratorium issued under*
10 *this section is in effect with respect to the mortgage of any*
11 *distressed mortgagor, no further payments due under the*
12 *mortgage shall be required of such mortgagor, and no action*
13 *(legal or otherwise) shall be taken or maintained by the*
14 *mortgagee to enforce or collect such payments. Upon the*
15 *expiration of such certificate, the mortgagor shall again be*
16 *liable for the payment of all amounts due under the mort-*
17 *gage in accordance with its terms.*

18 “(4) *Each Federal mortgage agency shall give prompt*
19 *notice in writing to the interested mortgagor and mortgagee*
20 *of the expiration of any certificate of moratorium issued by*
21 *it under this section.*

22 “(d) *The Federal mortgage agencies are authorized to*
23 *issue such individual and joint regulations as may be neces-*
24 *sary to carry out this section and to insure the uniform*
25 *administration thereof.*

1 “(e) There shall be in the Treasury (1) a fund which
2 shall be available to the Secretary of Housing and Urban
3 Development for the purpose of extending financial assist-
4 ance in behalf of distressed mortgagors as provided in sub-
5 section (c) and for paying administrative expenses incurred
6 in connection with such assistance, and (2) a fund which
7 shall be available to the Administrator of Veterans’ Affairs
8 for the same purpose, except administrative expenses. The
9 capital of each such fund shall consist of such sums as may,
10 from time to time, be appropriated thereto, and any sums
11 so appropriated shall remain available until expended. Re-
12 ceipts arising from the programs of assistance under sub-
13 section (c) shall be credited to the fund from which such
14 assistance was extended. Moneys in either of such funds not
15 needed for current operations, as determined by the Secre-
16 tary of Housing and Urban Development, or the Adminis-
17 trator of Veterans’ Affairs, as the case may be, shall be in-
18 vested in bonds or other obligations of the United States, or
19 paid into the Treasury as miscellaneous receipts.”

20 ACQUISITION OF CERTAIN PROPERTIES SITUATED AT OR
21 NEAR MILITARY BASES WHICH HAVE BEEN ORDERED
22 TO BE CLOSED

23 SEC. 913. (a) Notwithstanding any other provision of
24 law, the Secretary of Defense is authorized to acquire title to,
25 hold, manage, and dispose of, or, in lieu thereof, to reimburse

1 *for certain losses upon private sale of, or foreclosure against,*
2 *any property improved with a one- or two-family dwelling*
3 *which is situated at or near a military base or installation*
4 *which the Department of Defense has, subsequent to Novem-*
5 *ber 1, 1964, ordered to be closed in whole or in part, if he*
6 *determines—*

7 (1) *that the owner of such property is, or has been,*
8 *a Federal employee employed at or in connection with*
9 *such base or installation (other than a temporary*
10 *employee serving under a time limitation) or a service-*
11 *man assigned thereto;*

12 (2) *that the closing of such base or installation,*
13 *in whole or in part, has required or will require the*
14 *termination of such owner's employment or service at*
15 *or in connection with such base or installation; and*

16 (3) *that as the result of the actual or pending*
17 *closing of such base or installation, in whole or in part,*
18 *there is no present market for the sale of such property*
19 *upon reasonable terms and conditions.*

20 (b) *In order to be eligible for the benefits of this section*
21 *such employees or military personnel must be or have been—*

22 (1) *assigned to or employed at or in connection*
23 *with the installation or activity at the time of public*
24 *announcement of the closure action,*

25 (2) *transferred from such installation or activity,*

1 *or terminated as employees as a result of reduction-in-*
2 *force, within six months prior to public announcement*
3 *of the closure action, or*

4 *(3) transferred from the installation or activity*
5 *on an overseas tour unaccompanied by dependents within*
6 *fifteen months prior to public announcement of the*
7 *closure action:*

8 *Provided, That, at the time of public announcement of the*
9 *closure action, or at the time of transfer or termination as*
10 *set forth above, such personnel or employees must—*

11 *(i) have been the owner-occupant of the dwelling, or*

12 *(ii) have vacated the owned dwelling as a result*
13 *of being ordered into on-post housing during a six-*
14 *month period prior to the closure announcement:*

15 *Provided further, That as a consequence of such closure such*
16 *employees or personnel must—*

17 *(i) be required to relocate because of military trans-*
18 *fer or acceptance of employment beyond a normal com-*
19 *muting distance from the dwelling for which compensa-*
20 *tion is sought, or*

21 *(ii) be unemployed, not as a matter of personal*
22 *choice, and able to demonstrate such financial hardship*
23 *that they are unable to meet their mortgage payments and*
24 *related expenses.*

25 *(c) Such persons as the Secretary of Defense may*

1 determine to be eligible under the criteria set forth above
2 shall elect either (1) to receive a cash payment as com-
3 pensation for losses which may be or have been sustained in
4 a private sale or foreclosure, in an amount not to exceed
5 the difference between (A) 95 per centum of the fair market
6 value of their property prior to public announcement of
7 intention to close all or part of the military base or installa-
8 tion and (B) the fair market value of such property at the
9 time of the sale or foreclosure, or (2) to receive, as pur-
10 chase price for their property, an amount not to exceed 90
11 per centum of prior fair market value as such value is deter-
12 mined by the Secretary of Defense, or the amount of the
13 outstanding mortgages. An election to receive a cash pay-
14 ment as compensation for loss sustained in a private sale
15 shall not be effective in any case in which the property at
16 the time of the sale is encumbered by a mortgage loan guar-
17 anteed, insured, or held by a Federal agency unless such
18 mortgage loan is paid or otherwise fully satisfied at or
19 prior to the time such cash payment is made, or is assumed
20 by the purchaser (who must be determined to be satisfactory
21 to such Federal agency in the case of a sale occurring after
22 the date of the enactment of this Act). In the event of
23 foreclosure by mortgagees commenced prior to the one
24 hundred and twentieth day after the date of the enactment

1 of this Act, the Secretary may pay or reimburse for direct
2 costs of foreclosure, including deficiency judgments.

3 (d) There shall be in the Treasury a fund which
4 shall be available to the Secretary of Defense for the purpose
5 of extending the financial assistance provided above. The
6 capital of such fund shall consist of such sums as may, from
7 time to time, be appropriated thereto, and shall consist also
8 of receipts from the management, rental, or sale of properties
9 acquired under this section, which receipts shall be credited to
10 the fund and shall be available, together with funds appro-
11 priated therefor, for purchase or reimbursement purposes as
12 provided above, as well as to defray expenses arising in con-
13 nection with the acquisition, management, and disposal of
14 such properties, including payment of principal, interest, and
15 expenses of mortgages or other indebtedness thereon, and
16 including the cost of staff services and contract services, costs
17 of insurance, and other indemnity. Any part of such receipts
18 not required for such expenses shall be covered into the
19 Treasury as miscellaneous receipts. Properties acquired
20 under this section shall be conveyed to, and acquired in the
21 name of, the United States. The Secretary of Defense shall
22 have the power to deal with, rent, renovate, and dispose of,
23 whether by sales for cash or credit or otherwise, any prop-
24 erties so acquired: Provided, however, That no contract for

1 acquisition, or acquisition, shall be deemed to constitute a
2 contract for or acquisition of family housing units in support
3 of military installations or activities within the meaning of
4 section 406(a) of the Act of August 30, 1957 (42 U.S.C.
5 1594i), nor shall it be deemed a transaction within the
6 contemplation of section 2662 of title 10, United States Code.

7 (e) Payments from the fund created by this section
8 may be made in lieu of taxes to any State or political sub-
9 division thereof, with respect to real property, including
10 improvements thereon, acquired and held under this section.
11 The amount so paid for any year upon such property shall
12 not exceed the taxes which would be paid to the State or
13 subdivision, as the case may be, upon such property if it
14 were not exempt from taxation, and shall reflect such allow-
15 ance as may be considered appropriate for expenditures, if
16 any, by the Government for streets, utilities, or other public
17 services to serve such property.

18 (f) The title to any property acquired under this sec-
19 tion, the eligibility for, and the amounts of, cash payable,
20 and the administration of the preceding provisions of this
21 section, shall conform to such requirements, and shall be
22 administered under such conditions and regulations, as the
23 Secretary of Defense may prescribe. Such regulations shall
24 also prescribe the terms and conditions under which pay-
25 ments may be made and instruments accepted under this

1 section, and all the determinations and decisions made pur-
2 suant to such regulations by the Secretary of Defense re-
3 garding such payments and conveyances and the terms and
4 conditions under which they are approved or disapproved,
5 shall be final and conclusive and shall not be subject to
6 judicial review.

7 (g) The Secretary of Defense is authorized to enter
8 into such agreement with the Secretary of Housing and
9 Urban Development as may be appropriate for the purposes
10 of economy and efficiency of administration of this section.
11 Such agreement may provide authority to the Secretary of
12 Housing and Urban Development and his designee to make
13 any or all of the determinations and take any or all of the
14 actions which the Secretary of Defense is authorized to un-
15 dertake pursuant to the preceding provisions of this section.
16 Any such determinations shall be entitled to finality to the
17 same extent as if made by the Secretary of Defense, and, in
18 event the Secretaries of Defense and Housing and Urban
19 Development so elect, the fund established pursuant to subsec-
20 tion (d) of this section shall be available to the Secretary of
21 Housing and Urban Development to carry out the purposes
22 thereof.

23 (h) Section 223(a)(8) of the National Housing Act
24 is amended to read as follows:

25 “(8) executed in connection with the sale by the

Government of any housing acquired pursuant to section 915 of the Demonstration Cities and Metropolitan Development Act of 1966.”

(i) No funds may be appropriated for the acquisition of any property under authority of this section unless such funds have been specifically authorized for such purpose in a military construction authorization act, and no moneys in the fund created pursuant to subsection (d) of this section may be expended for any purpose except as may be provided in appropriation Acts.

(j) Section 108 of the Housing and Urban Development Act of 1965 is repealed.

COLLEGE HOUSING

SEC. 914. Section 404(b)(4) of the Housing Act of 1950 is amended by striking out “public” immediately before “educational institution”.

STUDY CONCERNING RELIEF OF HOMEOWNERS IN

PROXIMITY TO AIRPORTS

SEC. 915. Section 1113 of the Housing and Urban Development Act of 1965 is amended—

(1) by inserting “(a)” after “SEC. 1113.”;

(2) by striking out “one year after the date of the enactment of this Act” and inserting in lieu thereof “six months after the date of the enactment of the Demonstration Cities and Metropolitan Development Act of 1966”; and

1 (3) by adding at the end thereof the following new
2 subsection:

3 “(b) There is authorized to be appropriated the sum
4 of \$100,000 to carry out subsection (a).”

5 HYDROLOGY RESEARCH FOR URBAN DEVELOPMENT

6 SEC. 916. (a) The Congress finds that there is an
7 increasingly severe impact upon the national economy oc-
8 casioned by storm water damages and costs of storm drainage
9 control in urban and metropolitan areas; that engineering
10 technology directed toward the specialized storm drainage
11 problems of urbanized areas has not kept pace with the
12 growth of drainage problems in such areas; and that effective
13 areawide comprehensive planning requires efficient planning
14 and design of all elements of urban drainage systems.

15 (b) The Secretary of Housing and Urban Development
16 is authorized—

17 (1) by contract with public or private agencies to
18 conduct studies, investigations, research, and demon-
19 strations to develop and improve all aspects of the science
20 and technology of urban hydrology as it relates
21 to storm drainage systems for urban and metropolitan
22 areas and to collection sewers for such areas, and by
23 working agreements with other departments and agen-

1 cies of the Federal Government to conduct studies, in-
2 vestigations, research, and demonstrations to develop
3 and improve all aspects of the science and technology
4 of urban hydrology;

5 (2) to evaluate the studies, investigations, research,
6 and demonstrations authorized by this section; and

7 (3) to make available, through publications and
8 other appropriate means, the information resulting from
9 such studies, investigations, research, and demonstra-
10 tions.

11 (c) The Secretary shall annually submit a report to the
12 President and to the Congress concerning the studies, investi-
13 gations, research, and demonstrations undertaken under this
14 section with such recommendations as he deems desirable for
15 additional legislation to develop the science of urban hydrol-
16 ogy and its application.

17 (d) There are hereby authorized to be appropriated such
18 sums as may be necessary to carry out the provisions of this
19 section.

20 (e) Nothing contained in this section shall limit any
21 authority of the Secretary under title III of the Housing Act
22 of 1948, section 602 of the Housing Act of 1956, or any
23 other provision of law.

1 *QUARTERS AND FACILITIES FOR FEDERAL HOME LOAN*
2 *BANKS AND THE FEDERAL HOME LOAN BANK BOARD*

3 *SEC. 917. (a) The second sentence of section 12 of the*
4 *Federal Home Loan Bank Act (12 U.S.C. 1432) is*
5 *amended by striking out "but no bank building shall be*
6 *bought or erected to house any such bank, nor shall any*
7 *such bank make any lease" and inserting in lieu thereof*
8 *"but, except with the prior approval of the board, no bank*
9 *building shall be bought or erected to house any such bank,*
10 *or leased by such bank under any lease".*

11 *(b) Section 18 of such Act (12 U.S.C. 1438) is*
12 *amended—*

13 *(1) by adding at the end of subsection (b) the*
14 *following new sentence: "Such assessments may include*
15 *such amounts as the board may deem advisable for*
16 *carrying out the provisions of subsection (c) of this*
17 *section." ; and*

18 *(2) by adding at the end thereof the following new*
19 *subsection:*

20 *"(c)(1) The board, utilizing the services of the Ad-*
21 *ministrator of General Services (hereinafter referred to as*
22 *the 'Administrator'), and subject to any limitation hereon*
23 *which may hereafter be imposed in appropriation Acts, is*
24 *hereby authorized—*

25 *"(A) to acquire, in the name of the United States,*

1 *real property in the District of Columbia, for the pur-*
2 *poses set forth in this subsection;*

3 *“(B) to construct, develop, furnish, and equip such*
4 *buildings thereon and such facilities as in its judgment*
5 *may be appropriate to provide, to such extent as the*
6 *board may deem advisable, suitable and adequate quar-*
7 *ters and facilities for the board and the agencies under*
8 *its administration or supervision;*

9 *“(C) to enlarge, remodel, or reconstruct any of the*
10 *same; and*

11 *“(D) to make or enter into contracts for any of the*
12 *foregoing.*

13 *“(2) The board may require of the respective banks, and*
14 *they shall make to the board, such advances of funds for the*
15 *purposes set out in paragraph (1) as in the sole judgment of*
16 *the board may from time to time be advisable. Such ad-*
17 *vances shall be in addition to the assessments authorized in*
18 *subsection (b) and shall be apportioned by the board among*
19 *the banks in proportion to the total assets of the respective*
20 *banks, determined in such manner and as of such times as*
21 *the board may prescribe. Each such advance shall bear*
22 *interest at the rate of $4\frac{1}{2}$ per centum per annum from the*
23 *date of the advance and shall be repaid by the board in such*
24 *installments and over such period, not longer than twenty-*

1 *five years from the making of the advance, as the board may*
2 *determine. Payments of interest and principal upon such*
3 *advances shall be made from receipts of the board or from*
4 *other sources which may from time to time be available to the*
5 *board. The obligation of the board to make any such pay-*
6 *ment shall not be regarded as an obligation of the United*
7 *States. To such extent as the board may prescribe any such*
8 *obligation shall be regarded as a legal investment for the*
9 *purposes of subsections (g) and (h) of section 11 and for*
10 *the purposes of section 16.*

11 “(3) *The plans and designs for such buildings and*
12 *facilities and for any such enlargement, remodeling, or recon-*
13 *struction shall, to such extent as the chairman of the board*
14 *may request, be subject to his approval.*

15 “(4) *Upon the making of arrangements mutually agree-*
16 *able to the board and the Administrator, which arrangements*
17 *may be modified from time to time by mutual agreement*
18 *between them and may include but shall not be limited to the*
19 *making of payments by the board and such agencies to the*
20 *Administrator and by the Administrator to the board, the*
21 *custody, management, and control of such buildings and facil-*
22 *ities and of such real property shall be vested in the Admin-*
23 *istrator in accordance therewith. Until the making of such*
24 *arrangements such custody, management, and control, includ-*
25 *ing the assignment and allotment and the reassignment and*

1 *reallotment of building and other space, shall be vested in*
2 *the board.*

3 *“(5) Any proceeds (including advances) received by*
4 *the board in connection with this subsection, and any pro-*
5 *ceeds from the sale or other disposition of real or other prop-*
6 *erty acquired by the board under this subsection, shall be*
7 *considered as receipts of the board, and obligations and ex-*
8 *penditures of the board and such agencies in connection with*
9 *this subsection shall not be considered as administrative ex-*
10 *penses. As used in this subsection, the term ‘property’ shall*
11 *include interests in property.*

12 *“(6) With respect to its functions under this subsection*
13 *the board shall (A) annually prepare and submit a budget*
14 *program as provided in title I of the Government Corpora-*
15 *tion Control Act with regard to wholly owned Government*
16 *corporations, and for purposes of this sentence, the terms*
17 *‘wholly owned Government corporations’ and ‘Government*
18 *corporations’, wherever used in such title, shall include the*
19 *board, and (B) maintain an integral set of accounts which*
20 *shall be audited annually by the General Accounting Office*
21 *in accordance with the principles and procedures applicable*
22 *to commercial corporate transactions as provided in such*
23 *title, and no other audit, settlement, or adjustment shall be*
24 *required with respect to transactions under this subsection or*

1 with respect to claims, demands, or accounts by or against
2 any person arising thereunder. Except as otherwise pro-
3 vided in this subsection or by the board, the provisions of this
4 subsection and the functions thereby or thereunder subsisting
5 shall be applicable and exercisable notwithstanding and with-
6 out regard to the Act of June 20, 1938 (D.C. Code, secs.
7 5-413—5-428), except that the proviso of section 16 thereof
8 shall apply to any building constructed under this subsection,
9 and section 306 of the Act of July 30, 1947 (61 Stat. 584),
10 or any other provision of law relating to the construction,
11 alteration, repair, or furnishing of public or other buildings
12 or structures or the obtaining of sites therefor, but any person
13 or body in whom any such function is vested may provide for
14 delegation or redelegation of the exercise of such function.

15 “(7) No obligation shall be incurred and no expendi-
16 ture, except in liquidation of obligation, shall be made pur-
17 suant to the first two subparagraphs of paragraph (1) of
18 this subsection if the total amount of all obligations incurred
19 pursuant thereto would thereupon exceed \$13,200,000 or
20 such greater amount as may be provided in an appropriation
21 Act or other law.”

SMALL BUSINESS ACT

SEC. 918. Paragraph (1) of section 8(b) of the Small Business Act is amended by inserting “(A)” after “(1)”, by inserting “and” after “Administration;”, and by adding at the end thereof a new subparagraph as follows:

“(B) to allow an individual or group of persons cooperating with it in furtherance of the purposes of subparagraph (A) to make such use of its office facilities and related materials and services as it deems appropriate;”.

USE OF CERTAIN LANDS FOR CIVIL DEFENSE PURPOSES

SEC. 919. Section 2 of the Act entitled “An Act to provide for the conveyance of a tract of land in Prince Georges County, Maryland, to the State of Maryland for use as a site for a National Guard Armory and for training the National Guard or for other military purposes”, approved August 10, 1949 (63 Stat. 592), is amended by striking out “The land” and inserting in lieu thereof “(a) Except as provided in subsection (b) of this section, the land” and by adding at the end thereof the following new subsection:

“(b) The Secretary of Housing and Urban Develop-

1 *ment shall execute the necessary instrument or instruments*
 2 *to provide that a certain portion of land, not to exceed two*
 3 *acres, on the easterly side of the land described in the first*
 4 *section of this Act, as more particularly determined and*
 5 *designated by the Secretary of the Army, may be used for*
 6 *civil defense or other emergency preparedness purposes or*
 7 *the purposes stated in subsection (a) and that such use*
 8 *shall not cause the reverter clause set forth herein to become*
 9 *operable."*

10 *MORTGAGE INSURANCE FOR LAND DEVELOPMENT—*

11 *CLARIFYING AMENDMENTS*

12 *SEC. 920. Section 1001(d) of the National Housing*
 13 *Act is amended—*

14 *(1) by striking out "sewerage disposal installations,"*
 15 *and inserting in lieu thereof "sewage disposal instal-*
 16 *lations, steam, gas, and electric lines and installa-*
 17 *tions,";*

18 *(2) by striking out the semicolon after "or common*
 19 *use", and inserting in lieu thereof a period and the fol-*
 20 *lowing new sentence: "Related uses may include indus-*
 21 *trial uses, with sites for such uses to be in proper pro-*
 22 *portion to the size and scope of the development.";*

23 *(3) by striking out "but such term" and inserting*
 24 *in lieu thereof: "The term improvements"; and*

25 *(4) by inserting after "sewage disposal installa-*

tion,” in clause (1) the following: “or a steam, gas, or electric line or installation,”.

MISCELLANEOUS AND TECHNICAL AMENDMENTS

SEC. 921. (a) Section 106(d) of the Housing Act of 1949 is repealed.

(b) Section 227(a) of the National Housing Act is amended by striking out “subsection (b)(2)” in clause (vi) and inserting in lieu thereof “subsection (b)”.

(c) The last sentence of section 305(e) of the National Housing Act is amended by striking out “supplementing” and inserting in lieu thereof “supplementary”.

(d) Section 308 of the National Housing Act is amended by striking out “(a)”.

(e) Section 512 of the National Housing Act is amended by striking out “or IX” and inserting in lieu thereof “IX, X, or XI”.

(f) Section 1001(c) of the National Housing Act is amended by striking out “‘mortgage’” and inserting in lieu thereof “‘mortgagee’”.

(g) Section 1 of the National Housing Act is amended by striking out “and X” wherever it appears and inserting in lieu thereof “X, and XI”.

(h) Section 102(h) of the Housing Amendments of 1955 is amended by striking out “section 213 of the National Housing Act, as amended, the Commissioner” and

1 *inserting in lieu thereof "section 213 of the National Hous-*
2 *ing Act, section 221(d)(3) of the National Housing Act,*
3 *and section 101 of the Housing and Urban Development*
4 *Act of 1965 (insofar as the provisions of such sections*
5 *relate to cooperative housing), the Secretary of Housing and*
6 *Urban Development", and by striking out "such section"*
7 *each place it appears and inserting in lieu thereof "such*
8 *sections".*

Passed the Senate August 19, 1966.

Attest:

EMERY L. FRAZIER,

Secretary.

Union Calendar No. 886

89TH CONGRESS
2^D Session

S. 3708

[Report No. 1931]

AN ACT

To assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes.

AUGUST 22, 1966

Referred to the Committee on Banking and Currency

SEPTEMBER 1, 1966

Reported with an amendment, committed to the Committee of the Whole House on the State of the Union, and ordered to be printed

Sept. 22, 1966

commodities. p. D910

Rep. May criticized the packaging and labeling bill and inserted an article which, she stated, "shows that packagers are opposed to this bill" because "it will increase the price consumers pay for packaged goods and that it will decrease consumer choice in the marketplace." pp. 22770-1

18. DISASTER RELIEF. The Public Works Committee voted to report (but did not actually report) S. 1681, the disaster relief bill. p. D910
19. INTERGOVERNMENTAL RELATIONS. The Government Operations Committee reported with amendment H. R. 15335, to amend the act to establish an Advisory Commission on Intergovernmental Relations (H. Rept. 2065). p. 22797
20. RECREATION. The Interior and Insular Affairs Committee reported with amendment S. 1607, to establish the Point Reyes National Seashore, Calif. (H. Rept. 2067). p. 22798
21. RESEARCH. The Interior and Insular Affairs Committee reported with amendment S. 3460, to authorize the Secretary of the Interior to enter into contracts for scientific and technological research (H. Rept. 2068). p. 22798
22. APPROPRIATIONS. Authorized consideration of an appropriation-continuing resolution any time next week. pp. 22750-1
23. FLOOD CONTROL. Passed as reported H. R. 13825, to authorize an agreement for the joint construction by the U. S. and Mexico of an international flood control project for the Tijuana River. pp. 22760-65
24. BANKING. The Banking and Currency Committee voted to report (but did not actually report) H. R. 17899, amended, to strengthen the regulatory and supervisory authority of Federal agencies over insured banks and insured savings and loan associations "in lieu of S. 3158" (p. D909), and the committee was granted until midnight Sept. 24 to file a report (p. 22752).
25. WATER POLLUTION. The Rules Committee "granted an open rule" on H. R. 16076, the Water Pollution Act amendments. p. D910
26. DEMONSTRATION CITIES. The Rules Committee "granted an open rule" on S. 3708, the demonstration cities bill. p. D910
27. TAXATION. The Ways and Means Committee voted to report (but did not actually report) H. R. 17607, to temporarily suspend the investment credit and the application of accelerated depreciation. p. D910
28. CORN. Reps. Michel and Findley commended the policy statement of the Corn Refiners Ass'n. pp. 22752, 22774
29. LEGISLATIVE PROGRAM. Rep. Boggs announced that next week the House will consider the Economic Opportunity Act amendments, the investment credit suspension bill, and the Water Pollution Act amendments. p. 22765
30. ADJOURNED until Mon., Sept. 26. pp. 22765-6

ITEMS IN APPENDIX

31. WATER POLLUTION. Rep. Blatnik inserted Sen. Moss' speech, "You Can't Dilute Our Water Problems." pp. A4901-3
Rep. Stalbaum inserted Sen. Nelson's speech describing provisions of his proposed bills on water pollution. pp. A4906-7
Extension of remarks of Rep. Smith, N. Y., stating that water has become a great national problem and inserting excerpts from the Worthington Report, "Water." pp. A4940-2
32. EXPENDITURES. Extension of remarks of Rep. Pelly objecting to "excessive domestic Government spending." p. A4904
33. FARM PRICES. Extension of remarks of Rep. Quie stating that "earlier this year the Administration unfairly tried to pin the blame for mounting inflation on the farm segment of the economy. How false this charge was has since been exposed." p. A4904
34. CORN. Extension of remarks of Rep. Schmidhauser lauding the Corn Refiners Ass'n research program. p. A4916
35. REORGANIZATION. Rep. Brooks inserted his remarks before a panel discussion on the proposed reorganization of the Congress. pp. A4916-7
36. POVERTY. Extension of remarks of Rep. Fisher criticizing welfare "handouts" and the alleged misuse of food stamps by recipients. pp. A4927-9
37. CONGRESSIONAL ACCOMPLISHMENTS. Extension of remarks of Rep. Collier reporting to his constituents on the accomplishments of the 89th Congress. pp. A4934-6
38. FOOD FOR INDIA. Extension of remarks of Rep. Matsunaga stating that "agricultural technology is hopefully on the threshold of helping to meet India's critical shortage of food", and inserting an article on this subject. p. A4937

BILLS INTRODUCED

39. WATER POLLUTION. H. R. 17915 by Rep. Dingell, to consolidate water quality management and pollution control authorities and functions in the Federal Water Pollution Control Administration; to Government Operations Committee.
40. FARM LABOR. H. R. 17926 by Rep. Gonzalez, to encourage the States to extend coverage under their State unemployment compensation laws to agricultural labor; to Ways and Means Committee.
41. DISASTER RELIEF. H. R. 17930 by Rep. McDowell, to provide additional assistance for areas suffering a major disaster; to Public Works Committee.
42. RECREATION. H. R. 17933 by Rep. Stalbaum, to preserve, protect, develop, restore, and make accessible the lake areas of the Nation by establishing a national lake areas system and authorizing programs of lake and lake areas research; to Interior and Insular Affairs Committee. Remarks of author pp. 22751-

HIGHLIGHTS: Conferees reported food-for-freedom bill. House debated poverty bill. House committee reported investment-tax bill, and Rep. Langen asked exemption of farmers. House committees reported packaging-labeling bill, continuing-appropriations measure, and analysis of CCC corn marketing. Senate passed bill to revise Federal Seed Act. Senate passed bill to permit prepayments of FHA loans.

HOUSE

1. FOOD FOR FREEDOM. Received the conference report on H. R. 14929, the food-for-freedom bill (H. Rept. 2075). The conferees changed the short title of the bill to "Food for Peace Act of 1966" instead of "Food for Freedom" as in the House version. However, this does not change the title of the basic legislation, which remains "Agricultural Trade Development and Assistance Act of 1954." pp. 22833-40

2. POVERTY. Began debate on H. R. 15111, to provide for continuation of the war on poverty. pp. 22803-33
3. TAXATION. The Ways and Means Committee reported with amendment H. R. 17607, to suspend the investment credit and the allowance of accelerated depreciation in the case of certain real property (H. Rept. 2087) (p. 22854). Rep. Langen recommended exemption of farmers from this bill (p. 22843).
4. TARIFF. Rep. Curtis inserted a "progress report" on Kennedy round tariff negotiations. pp. 22843-5
5. POLITICAL ACTIVITIES. Rep. Ashbrook gave answers to questions as to actions which Federal employees are permitted to take under the Hatch Political Activities Act. p. 22845
6. DEMONSTRATION CITIES; ~~EDUCATION; WATER POLLUTION~~. The Rules Committee reported a resolution for consideration of S. 3708, the demonstration cities bill; H. R. 13161, to strengthen and improve education in elementary and secondary schools; and H. R. 16076, to improve and make more effective the Federal Water Pollution Control Act. p. 22854
7. PACKAGING; LABELING. The Interstate and Foreign Commerce Committee reported with amendment H. R. 15440, the fair packaging and labeling bill (H. Rept. 2076). p. 22854
8. BANKING. The Banking and Currency Committee reported with amendment H. R. 17899, to strengthen the regulatory and supervisory authority of Federal agencies over insured banks and insured savings and loans associations, to increase the maximum amount of insured accounts or deposits, etc. (H. Rept. 2077). p. 22854
The Banking and Currency Committee reported S. 1556, to authorize the Federal Reserve Board to delegate certain of its functions (H. Rept. 2079). p. 22854
9. APPROPRIATIONS. The Appropriations Committee reported H. J. Res. 1308, making continuing appropriations for the fiscal year 1967 (H. Rept. 2078). p. 22854
10. CCC CORN. The Small Business Committee submitted a report, "The Effect of Corn Marketing by the Commodity Credit Corporation Upon Small Business" (H. Rept. 2082). p. 22854

SENATE

11. SEEDS. Passed as reported H. R. 15662, to revise the Federal Seed Act. p. 22858
12. LOANS. Passed without amendment H. R. 15510, to authorize the Secretary of Agriculture to hold prepayments made to the Department by insured loan borrowers on Farmers Home Administration loans and transmit them to the holders of the notes in installments. This bill will now be sent to the President. pp. 22858-9
13. LABOR-HEW APPROPRIATION BILL. Began debate on this bill, H. R. 14745. pp. 22857, 22889-902

HIGHLIGHTS: House debated demonstration cities bill, which includes rural-housing amendments. Both Houses agreed to conference report on bill to create Transportation Dept.

HOUSE

1. HOUSING LOANS. Began debate on S. 3708, the demonstration cities bill. pp. 25539-79

As reported by the House committee, this bill includes amendments to the rural housing program to permit purchase of new (as well as used) homes, permit cosignors on any rural housing loan (now limited to elderly low-income), increase from \$1,000 to \$1,500 the limitation on loans and grants for repairs of very low-income families' homes, authorize direct loans for cooperative housing and for non-elderly rural residents of low income and insured loans for

non-elderly rural residents of moderate income, limit to \$300 million the amount of new rural housing loans to low or moderate income families that may be insured annually, without limit as to time. The bill removes the annual limit and provides instead a cutoff date of Oct. 1, 1969

2. TRANSPORTATION. Both Houses agreed to the conference report on H. R. 15693, to create a Department of Transportation. This bill will now be sent to the President. pp. 25588-92, 25506-10
3. APPROPRIATIONS. Received the conference report on H. R. 17637, the military construction appropriation bill (H. Rept. 2275). pp. 25529-30
4. FOREIGN TRADE. The Rules Committee reported H. Res. 1043, to authorize expenses for an investigation of European markets by the Banking and Currency Committee (H. Rept. 2259). p. 25537
5. AIR POLLUTION. Agreed to the conference report on S. 3112, to amend the Clean Air Act. pp. 25538-9
6. FISH AND WILDLIFE. Agreed to the conference report on H. R. 9424, providing for a program of conservation and protection of fish and wildlife which are threatened with extinction. This bill will now be sent to the President. p. 25581
7. APPLES. Rep. May commended the apple industry of Wash. p. 25610
8. EXPENDITURES. Rep. Curtis urged economy in expenditures. pp. 25618-28
9. FOOD FOR PEACE. Rep. Findley spoke in favor of the amendment to bar assistance to those who trade with Cuba. pp. 25628-32
10. FARM PROGRAM. Rep. Olson, Minn., inserted speeches by the Vice President regarding the farm program, etc. pp. 25652-6
Rep. Foley gave a report to constituents, including commendation of the farm program. p. 25660
11. POVERTY; FISH PROTEIN. The conferees reached agreement on H. R. 15111, to extend and amend various poverty programs, and S. 2720, authorizing development of practicable means for production of fish protein concentrate. p. D999

SENATE

12. VETERINARY FACILITIES. Passed as reported S. 3348, to authorize a program for the construction of facilities for the teaching of veterinary medicine and a program of loans for students of veterinary medicine. p. 25485
13. MANPOWER; TRAINING. Passed without amendment H. R. 16715, to make various amendments to the Manpower Development and Training Act. This bill will now be sent to the President. pp. 25490-3
14. EDUCATION. Passed with amendments H. R. 14643, to provide for the strengthening of American educational resources for international studies and research. pp. 25485, 25493-506
15. TOBACCO. Sen. Tydings criticized the Department's denial of the 5-percent export subsidy payment for Maryland tobacco. pp. 25520-1

There was no objection.
The Clerk read the statement.
(For conference report and statement, see proceedings of the House of Oct. 12, 1966.)

Mr. STAGGERS. Mr. Speaker, I move the previous question on the conference report.

The previous question was ordered.
The conference report was agreed to.
A motion to reconsider was laid on the table.

DEMONSTRATION CITIES AND METROPOLITAN DEVELOPMENT ACT

Mr. PEPPER. Mr. Speaker, by direction of the Committee on Rules, I call up the resolution (H. Res. 1023) providing for the consideration of the bill (S. 3708) to assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes, and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. Res. 1023

Resolved, That upon the adoption of this resolution it shall be in order to move that the House resolve itself into the Committee of the Whole House on the State of the Union for the consideration of the bill (S. 3708) to assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes. After general debate, which shall be confined to the bill and shall continue not to exceed six hours, to be equally divided and controlled by the chairman and ranking minority member of the Committee on Banking and Currency, the bill shall be read for amendment under the five-minute rule. It shall be in order to consider without the intervention of any point of order the committee amendment in the nature of a substitute now printed in the bill and such substitute for the purpose of amendment shall be considered under the five-minute rule as an original bill, and read by titles instead of by sections. At the conclusion of such consideration the Committee shall rise and report the bill to the House with such amendments as may have been adopted, and any Member may demand a separate vote in the House on any of the amendments adopted in the Committee of the Whole to the bill or committee amendment in the nature of a substitute. The previous question shall be considered as ordered on the bill and the amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions.

CALL OF THE HOUSE

Mr. HAYS. Mr. Speaker, I make the point of order that a quorum is not present.

The SPEAKER. Evidently a quorum is not present.

Mr. PEPPER. Mr. Speaker, I move a call of the House.

A call of the House was ordered.

The Clerk called the roll, and the following Members failed to answer to their names:

[Roll No. 361]

Abernethy	Frelinghuysen	O'Konski

William D.	O'Brien	

The SPEAKER. On this rollcall, 330 Members have answered to their names, a quorum.

By unanimous consent, further proceedings under the call were dispensed with.

DEMONSTRATION CITIES AND METROPOLITAN DEVELOPMENT ACT

Mr. PEPPER. Mr. Speaker, I yield 30 minutes to the able gentleman from Nebraska [Mr. MARTIN] and, pending that, I yield myself such time as I may consume.

(Mr. PEPPER asked and was given permission to revise and extend his remarks.)

Mr. PEPPER. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 1023, and ask for its immediate consideration.

Mr. Speaker, House Resolution 1023 provides for the consideration of S. 3708, to assist city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in these areas, to improve and amend our housing programs, and for other purposes. The resolution provides an open rule with 6 hours of general debate.

It is most important that we take prompt action on S. 3708. The hour is late, and the bill which we have before us is one of the most important which has come before this Congress.

Mr. Speaker, the other body took affirmative action on S. 3708, and passed that bill on August 19. The bill now before us was referred to the Committee on Banking and Currency on August 22, which promptly reported the bill in the form of an amendment. The bill in-

cludes the provisions of the Senate-passed bill as well as provisions from S. 3711, a general housing bill, and other House bills.

The task which we face today is a critical one; it is to decide whether this Congress can offer the Nation an opportunity to meet squarely the many unresolved problems which now face our urban areas. The President, in his special message to the Congress, succinctly characterized those problems in terms of cities of promise, and cities of hope—where every man has his chance, his opportunity, and the right to live and work and become whatever his ambition and his vision can combine to make him. He has proposed a program to rebuild and renew where there is blight, decay, and ugliness; to restore old communities and bring forth new ones.

The question before us today is the question whether we will make our cities the kind of cities in which all of us can be expected to live with dignity—today, and in the future, or—in the alternative—whether by neglect and delay we are to leave them to their own destiny where they could well decay below tolerable standards.

The legislation before us offers the opportunity, the promise, to make a new beginning in our continuing efforts to enhance the quality of life for all of America's citizens.

The background of S. 3708 is written in terms of many existing program conflicts, program gaps, and a lack of resources. A critical evaluation of this background and an analysis of the shortcomings of existing Federal programs led the President to propose this legislation.

Mr. Speaker, I submit that the need for this important legislation is well documented.

Because S. 3708 incorporates both the demonstration cities and metropolitan development proposals as well as the more general provisions included in the omnibus housing legislation this year, the bill is unavoidably long and somewhat complex. For these reasons, I will attempt to summarize briefly the principal provisions of the bill, leaving a more detailed explanation of its various provisions for the extended general debate which is provided under the rule.

Title I incorporates the administration's proposal for the new city demonstration program to which I have referred, consisting of both Federal financial and technical assistance. The program is designed to assist in providing the financial resources for cities to plan and carry out demonstration programs. These programs will be of sufficient size and scope to result in the rebuilding and restoration of entire sections or neighborhoods of slums and blighted areas. The programs involve more than brick and mortar, however. They will also reduce social and educational disadvantages, ill health, underemployment, and provide opportunities for work and training, in order to improve the general welfare and living conditions of people in these areas.

Under the bill, maximum responsibility will be focused on the locality itself, its people, and its officials. Federal financial and technical assistance will be provided to cities presenting imaginative and effective ways of dealing with both the physical and social problems of slum and underprivileged areas.

Federal funds would cover 80 percent of the cost of planning and developing comprehensive city demonstration programs. An appropriation of \$12 million a year for both fiscal 1967 and fiscal 1968 is provided for this purpose.

In addition, two types of Federal assistance would be available to help finance projects or activities that are included as part of an approved comprehensive city demonstration program.

First, to the extent such projects or activities are eligible for assistance under an existing Federal grant-in-aid program, they may be financed under that program.

Second, special grants, supplementing the assistance available under existing grant-in-aid programs, would be provided under the demonstration cities program to assist cities to provide their required share of the cost of projects or activities that are part of the demonstration program and are funded under existing Federal grant-in-aid programs, and provide funds to carry out other non-federally assisted projects or activities—including projects or activities of the type eligible for Federal assistance under existing grant-in-aid programs—undertaken as part of the demonstration program.

The amount of this special—supplemental—demonstration cities grant would be up to 80 percent of the total non-Federal contributions required to be made to all projects or activities assisted by Federal grant-in-aid programs which are carried out as part of a comprehensive city demonstration program. Under the bill, appropriations of \$400 million for fiscal 1968 and \$500 million for fiscal 1969 would be authorized for this financial assistance.

In addition, title I authorizes an increase of \$250 million in urban renewal grant authority, to be used for projects included in city demonstration programs.

Title II of the bill, the Metropolitan Development title, proposes improved ways and means to coordinate Federal activities in metropolitan areas. It authorizes supplementary Federal grants to both State and local bodies for metropolitan development projects as incentives for comprehensive metropolitan-wide planning and adherence to such planning. The supplementary grant would be conditioned on meeting standards for comprehensive planning on a metropolitan-wide basis. The grant to the public body sponsoring the metropolitan development project would amount to a maximum of 20 percent of the cost of the project, and in no case could the total grant exceed 80 percent of the project cost, nor could the supplementary grant exceed the basic grant. The bill authorizes appropriations of not to exceed \$25 million for fiscal 1967, and \$50 million for fiscal 1968. Assistance provided under title II will be for projects

in a standard metropolitan statistical area, defined by the Bureau of the Budget as the area in and around a city of 50,000 population or more.

Title III deals with a number of amendments to FHA programs. While all of the provisions contained in title III are significant, I will attempt only to touch briefly on certain of the major amendments contained in this title, leaving specific issues for the general debate. One amendment, for example, authorizes the financing at an interest rate of 3 percent under FHA section 221(d)(3) for acquiring and rehabilitating housing by nonprofit groups for resale to families of very low income. Another provision of title III would reactivate on a limited basis the armed services housing program—better known as the Capehart program—and would authorize an additional 5,000 units of off-base section 810 rental housing for the military. Yet another provision included in title III would extend the eligibility for the preferential terms under FHA section 203 extended to veterans in the Housing and Urban Development Act of 1965, to include those veterans who have used their VA entitlement.

Title IV contains a new program to extend FHA mortgage insurance for land development so as to include the financing of entire new large-scale communities. This title would increase from \$10 to \$25 million the limit now provided on land development mortgages and would provide that mortgages for financing these new communities would be eligible for FNMA special assistance.

Title V of the bill would establish a program of mortgage insurance to finance the construction and equipment of buildings which would be used for group medical practice facilities. Such group practice facilities would be those for providing medical—including osteopathic—optometric or dental care and treatment. Under title V, insured loans would be limited to 90 percent of value, a maximum maturity of 25 years, and a maximum interest rate of 6 percent.

Title VI of the bill would authorize several new Federal programs, including grant and loan assistance, designed to assist in the preservation of the Nation's historic structures.

Title VII includes provisions related to the crediting of certain local expenditures as a local grant-in-aid under the terms of the urban renewal program.

Title VIII of the bill would amend the rural housing program administered by the Farmers Home Administration. One amendment would increase from \$1,000 to \$1,500 the maximum amount of a loan, grant or combined loan and grant for repairs and improvements to owner-occupied dwellings which are necessary to make them safe and sanitary.

The last title of the bill, title IX, includes a number of miscellaneous provisions among which is an amendment designed to clarify and improve mortgage and financial relief for those homeowners who have been placed in economic difficulties because of the closing of Federal installations or military basis.

Mr. Speaker, it is my considered opinion that the rule before us is a non-

controversial rule. S. 3708 had support from both sides in the hearings which the Committee on Banking and Currency held and even those who are highly critical of certain of the provisions in the bill supported the rule.

Mr. Speaker, S. 3708 is an extremely important bill. The programs which it would authorize represent what can be a dramatic new step forward, which can provide a significant beginning in solving the critical problems which face our Nation. It represents, in my opinion, a legislative product which has been thoroughly examined, debated and refined. I urge the House to approve this significant legislation.

Mr. Speaker, I include at this point in my remarks a statement by the President at his press conference on October 6 explaining the purpose of this legislation, strongly commending it, and reaffirming his recommendation:

STATEMENT OF PRESIDENT LYNDON B. JOHNSON ON THE DEMONSTRATION CITIES BILL AT HIS PRESS CONFERENCE OF OCTOBER 6, 1966

Question: Mr. President, sir, Monday the House is scheduled to vote on the Demonstration Cities Bill. Title II of that bill, which you are urging Members, I understand, to vote for, provides incentives or, rather, bribes to local communities to do away with their own school systems, to have open housing, and to create educational parks where there would be 25,000 or 35,000 children going to school. This would require busing of children long distances and would also bring about a system to correct racial imbalance.

You are a former school teacher. I wonder if you would tell us why you think doing away with the local school systems, as has been admitted by educators in your Administration would happen—I wonder why you think this would be better?

The PRESIDENT. First, I would not concur with your legal analysis of the bill.

Second, I am glad of the opportunity that you have given me to state that I believe there is no domestic problem that is more critical than the problem of rebuilding our cities and giving our people who live in the cities opportunities to develop as healthy, educated, productive citizens of our society—citizens who have the ability to get and to hold jobs, and to take pride in the place in which they live.

In order to try to get at the root cause of the problems of the cities, I asked a Task Force of bipartisan leaders of this Nation to make a careful study of this measure. Their recommendations are contained in the Demonstration Cities Bill.

Hearings have already been held. The Senate carefully and thoroughly debated the measure and passed it by an overwhelming majority. I do not think they gave to it either the interpretation that you place upon it or the fears that you express.

I do hope that the House will take prompt and favorable action early next week.

As I said in the beginning, and as I would repeat again, I think it is one of the most important pieces of legislation for the good of all American mankind that we can act upon this session.

Mr. Speaker, I include also a statement of a group of leading businessmen urging passage of this administration bill. I take the time to mention these gentlemen because maybe other Members have been subjected, as I have, to a barrage of opposition to this legislation from all over my State and other parts of the country, reflecting a total misunderstanding of the character, purpose, and objectives of the legislation. These are

the types of businessmen who on October 10 issued the following public statement announcing their strong support for this legislation:

STATEMENT OF A GROUP OF LEADING BUSINESSMEN URGING PASSAGE OF DEMONSTRATION CITIES ACT, OCTOBER 10, 1966

The most pressing domestic problem of our time is the problem of the American city. Wherever it is located, whatever its size, the city presents a crucial challenge that will grow as our Nation grows. It is a challenge which reaches each of us. And all of us must join in its solution.

Our cities are being submerged by a rising tide of confluent forces—disease and despair, joblessness and hopelessness, excessive dependence on welfare payments, and the grim threats of crime, disorder and delinquency. These forces flow strongest in the city slums, from whence they spread relentlessly to threaten the quality of life in every quarter.

What can be done to help meet this problem head on?

The response is the Demonstration Cities Act, a keystone and historic program for the cities now before the Congress. Passed by an overwhelming majority in the Senate, the measure is now pending before the House of Representatives.

As responsible and deeply concerned citizens over the future of American cities, we urge prompt passage of this, the single most important domestic proposal before the Congress.

The Demonstration Cities Act is the product of two years of intensive and imaginative work by a bipartisan group in the Nation's leading industrialists and specialists in urban affairs. It authorizes a national program to develop comprehensive plans for rebuilding neglected neighborhoods, and provides federal financing to cover 80% of the cost of the approved pilot or "demonstration" projects submitted by cities of all sizes. Additional assistance is authorized to supplement existing municipal planning programs in all of our cities.

The essentials of the Act are threefold:

First, a basic comprehension that the problems of the city are not made of brick and mortar but of people.

Second, an understanding of the progress that can come from the moving spirit of free and creative community enterprise.

Third, a new flexibility, adapted to local needs, designed to encompass new ideas and shaped to encourage private enterprise and innovation and technological advances in all American cities, large and small.

As businessmen, we are especially mindful of the need to hold down federal expenditures until the immediate threat of inflation is contained. The proposal is a fiscally responsible measure. The funds proposed will move this humane program forward, consistent both with the Nation's economic well-being and with our highest hopes for the future of our cities. In our business judgment, it deserves to be ranked as high on any list of national priorities as any domestic program we know.

America needs the Demonstration Cities Act.

Stephen D. Bechtel, Fred J. Borch, Howard L. Clark, Donald C. Cook, Justin W. Dart, R. Gwin Follis, Henry Ford II, Thomas S. Gates, Jr., Ben W. Heineman, Edgar F. Kaiser, David M. Watson, Jr.

AFFILIATIONS OF BUSINESSMEN SUPPORTING THE DEMONSTRATION CITIES ACT

Stephen D. Bechtel, Chairman, Bechtel Corporation.

Fred J. Borch, President and Chief Executive Officer, The General Electric Company.

Howard L. Clark, President and Chief Executive Officer, American Express Company.

Donald Cook, President, American Electric Power Service Corp.

Justin Dart, President, Rexall Drug and Chemical Company.

R. Gwin Follis, Chairman of the Board, Standard Oil of California.

Henry Ford II, Chairman of the Board and Chief Executive Officer, Ford Motor Company.

Thomas S. Gates, Jr., Chairman of the Board and Chief Executive Officer, Morgan Guaranty Trust Company.

Ben Heineman, Chairman of the Board and Chief Executive Officer, Chicago and North Western Railway.

Edgar F. Kaiser, President, Kaiser Industries Corporation.

David Kennedy, Chairman of the Board and Chief Executive Officer, Continental Illinois National Bank & Trust Company.

Robert Lehman, Chairman of the Board and Chief Executive Officer, Lehman Brothers.

John McCone, Investment Banker.

Cyril J. Magnin, President, Joseph Magnin Company.

Stanley Marcus, President, Neiman-Marcus.

Alfred E. Perlman, President and Chief Administrative Officer, Pennsylvania New York Central Transportation Company.

Herman H. Pevler, President, Norfolk & Western Railway Company.

David Rockefeller, President and Chairman of the Executive Committee, The Chase Manhattan Bank.

Stuart Saunders, Chairman of the Board and Chief Executive Officer, Pennsylvania Railway.

Herbert R. Silverman, Chairman of the Board and Chief Executive Officer, James Talcott, Inc.

Jack I. Straus, Chairman of the Board, R. H. Macy, Inc.

Thomas J. Watson, Jr., Chairman of the Board, International Business Machines Corporation.

Mr. CLARENCE J. BROWN, JR. Mr. Speaker, will the gentleman yield?

Mr. PEPPER. I yield to the gentleman from Ohio.

Mr. CLARENCE J. BROWN, JR. I just came on the floor. Is this a list of members of the President's Club that the gentleman is reading?

Mr. PEPPER. I do not know whether these gentlemen are members of the President's Club. I suspect a good many of them are members of the Republican Boosters Club.

Mr. CLARENCE J. BROWN, JR. I thank the gentleman.

Mr. PEPPER. Mr. Speaker, I would just like to read, if I may an editorial that appeared in the Washington Evening Star of yesterday afternoon, October 12, 1966. It is entitled "Help for Cities":

HELP FOR CITIES

If anyone doubted it before, the Ribicoff hearings proved that no single infusion of federal aid can solve the problems of cities. Congress still has time this session to take at least a step in the right direction, however, with approval of the administration's "demonstration cities" program, on which House debate opens tomorrow.

The bill's principal merit is a novel approach which boils down, essentially, to this: For too long, our cities have been nibbling away at their problems with a multitude of single-purpose programs, nearly all involving substantial amounts of federal aid. The new program proposes to see what can be accom-

plished with concerted attacks on urban blight. In the process, it would drastically increase Federal assistance for a wide spectrum of projects in such fields as housing, welfare, urban renewal, economic opportunity and transportation.

The concept of treating the social and physical symptoms of urban disease as parts of a single problem is thoroughly sound. Indeed, this is precisely the sort of thing toward which the District, quite independently, already is pointing with its Shaw urban renewal project. There are similar projects in central cities throughout the country. And beyond central cities, the bill also recognizes the necessity of metropolitan planning as the basis of orderly urban area development.

The descriptive term, "demonstration," moreover, is apt. The President's initial proposal envisioned a \$2.3 billion program, spread over five years. To meet Senate criticism, the proposal has been cut to \$900 million over three years, with only \$12 million, allotted to planning, for the current fiscal year.

Ironically, since at this point it ranks as the administration's major domestic endeavor of the year, the purposes and scope of the "cities" program have not come through clearly to the public. The concept was originated by an independent task force; President Johnson snapped up the idea quickly, and widely publicized it, before its mechanics had been fully developed.

With the passage of time, however, many of the early uncertainties have been resolved. As approved by the Senate, the bill now is vigorously supported by local officials. This week, it won strong endorsement from the chief executives of 22 major American corporations, including David Rockefeller and Henry Ford II. Inflationary dangers notwithstanding, the businessmen said, the bill is a "fiscally responsible" approach to "the most pressing domestic problem of our time."

We agree. The House should hold firm against the efforts which undoubtedly will be made on the floor this week to defeat the Senate-approved version or, failing that, to mutilate it.

Mr. Speaker, I add only that this bill provides that no project can receive Federal funds unless it originates from and is sponsored by local authorities, local officials, local people.

I have seen, in the districts which I and my distinguished colleague, the gentleman from Florida [Mr. FASCELL], have the honor to represent a magnificent example of this kind of cooperation in the past several months. When it was announced that a second wave of Cuban refugees was to come to Florida, many of our people were concerned about whether we could absorb the impact of those thousands of additional Cuban refugees in our community.

The President told us that the Federal Government would bear a large part of the responsibility for helping our local people carry on this program of giving refuge and sanctuary to these people fleeing from tyrannical communistic persecution. In order to do that the President appointed the Honorable John Gardner, Secretary of Health, Education, and Welfare, to coordinate all the Federal programs that would have anything to do with helping our Greater Miami community to meet the impact of this second wave of Cuban refugees.

Our local citizens responded and named what we call the Dade County Task Force, the head of which was an able and outstanding businessman, John

B. Turner. Bishop Coleman F. Carroll, of the Catholic diocese of Miami was one of the leading sponsors of this task force. Representatives of other denominations in the area, outstanding businessmen, and private citizens cooperated.

The result was that we received the impact of these thousands of new refugees and were able to accommodate our economy to doing so because we had co-operation among public and private people at the local level and between them and the State government and the Federal Government.

That is exactly the sort of program which is envisaged in this legislation.

Mr. HALL. Mr. Speaker, will the gentleman yield?

Mr. PEPPER. I yield to the gentleman from Missouri.

Mr. HALL. I appreciate the gentleman yielding. I rise with neither ax nor scalpel in hand. In my mind there is no attempt to mutilate. In fact, I will not discuss the bill itself, but I rise only to the waiver of points of order in lines 3 and 4 on page 2 of House Resolution 1023. Would the distinguished gentleman from Florida tell the Members of the House again why they are prevented from intervening with a point of order should this rule be adopted?

Mr. PEPPER. The able and distinguished chairman of the House Committee on Banking and Currency requested this waiver of points of order by our Committee on Rules, and I yield to the able chairman of the Committee on Banking and Currency for an explanation of that.

Mr. PATMAN. Mr. Speaker, I thank the gentleman for yielding.

The House Committee on Banking and Currency reported out an entirely new bill in the nature of a substitute. Out of an abundance of precaution we asked for waivers of points of order. We do not know of anything in particular that would be subject to a point of order, but waiving points of order does not cause the House to forgo anything, as the gentleman well knows. Every line of the bill will still be subject to a vote on its merits here on the floor of the House. This is just a matter of expediting the bill. As the gentleman knows, on the Committee on Ways and Means they waive points of order and they have closed rules. I certainly do not believe that the gentleman would object to a bill this large running the risk—

Mr. HALL. If the gentleman will yield further, I certainly do not agree with the distinguished gentleman from Texas that this fails to take away the prerogatives of the individual elected Members of the House, because it does just that. It means we must vote on the whole package of the bill, including the five or more nongermane titles according to the rules of the House that have been put into this bill beyond the first and second titles without the intervention of a point of order which would preclude the further consideration of a bill coming under the jurisdiction, surveillance, and oversight of the Committee on Banking and Currency. So, although there is a 5-minute rule allowed on the substitute, once that substitute

intervenes under this rule and it makes that substitute in order, then no point of order can be brought up against any part of that substitute. This certainly does restrict the prerogatives of the individual Members of the House, and we have had this matter before us on many occasions. I hope that the gentleman will explain whether or not those five titles are germane to the general purport of the so-called demonstration cities bill and the surveillance of the Committee on Banking and Currency. That is the intent of my question, Mr. Speaker.

Mr. PEPPER. May I give my own version of that? The purpose of this bill is primarily to coordinate and focus in a given area where local initiative has invoked such assistance, the various Federal programs. Therefore, if you are to coordinate all of the Federal programs which can be of use, working with local authorities, to eliminate a vast area of slums in a given population center, then, of course, there must be central authority to bring them into cooperation. Due to the fact that we have different programs which were brought together and focused through the Department of Housing and Urban Development here, I daresay there is a remote possibility that someone might say there was a point of order involved in some minor detail. So the able chairman of the Committee on Banking and Currency, out of an abundance of precaution, asked the Committee on Rules to allow a waiver of points of order. That same thing is done by the able chairman of the Committee on Ways and Means because an amendment offered to a tax bill on the floor here might affect some other section of the Internal Revenue Code. We are always requested to give and we do give waivers of points of order in reporting out rules on those matters.

But, Mr. Speaker, this is an open rule, I will say to the able gentleman from Missouri [Mr. HALL] that he will have a full opportunity to offer any amendment he may wish to offer to any part of this legislation.

Mr. HALL. Mr. Speaker, it is absolutely unconscionable to say that this is an open rule and at the same time say that it shall be in order to consider the substitute, without the intervention of any point of order, the committee amendment in the nature of a substitute now printed in the bill.

Mr. Speaker, it is not an open rule.

Mr. PEPPER. That language gives the House of Representatives wider latitude than it would otherwise have.

Mr. HALL. I must say to the distinguished gentleman from Florida [Mr. PEPPER] and to the gentleman from Texas [Mr. PATMAN], I well know that many Committee on Ways and Means bills are brought up for consideration, preventing any intervention of any points of order.

Mr. Speaker, this is done in order not to have to rewrite and cause the printing of the entire act, the statute, the code, or the bill.

But, Mr. Speaker, this does not make my point, a point that I have been bringing up here over the last two sessions of Congress, about the waiver of points of

order with respect to other than tax bills any less valid.

In fact, I do not approve waiving points of order and the prerogatives of the individual Members of this House of Representatives, Members who represent their own constituency even when considering Committee on Ways and Means bills and that committee's procedures.

Mr. Speaker, I want to declare that under what the gentleman said, there are five titles contained herein, titles subject to points of order, because they do involve FHA, FNMA, and others, and it changes the rules in many areas, other than of demonstration cities, over which this committee has the surveillance, the protection and cognizance, if you please, oversight of the Committee on Banking and Currency.

Mr. PATMAN. Mr. Speaker, will the gentleman yield?

Mr. PEPPER. I yield to the gentleman from Texas.

Mr. PATMAN. Mr. Speaker, under the rule, this substitute is to be considered as an original bill, and to any part of this bill one can offer an amendment to it—to strike out any section, any word, any paragraph or any title.

So, Mr. Speaker, the House has full and complete charge and its will can be expressed upon any part of this bill.

Therefore, certainly, no powers of jurisdiction are taken away from this House of Representatives.

Mr. HALL. Mr. Speaker, I full well recognize the difference between the 5-minute rule and the waiver of points of order, and I am sure the distinguished gentleman from Texas [Mr. PATMAN] does likewise.

However, I am sure that some of our authority is removed through the waiver of points of order.

Mr. Speaker, I appreciate the fact that the packed Committee on Rules did not also waive the 5-minute rule or the opportunity to offer amendments at all points after the general discussion has been had upon the bill.

Certainly, Mr. Speaker, I hope that the gentleman in handling the bill will not restrict the time insofar as the 5-minute rule is concerned.

Mr. PATMAN. Certainly not.

Mr. MARTIN of Nebraska. Mr. Speaker, will the gentleman yield to me for a question?

Mr. PEPPER. I yield to the gentleman from Nebraska.

Mr. MARTIN of Nebraska. In respect to this question as to waiving points of order, I believe the facts are that the House Committee on Banking and Currency earlier this year reported out H.R. 15890 and subsequently, there were some changes made in this legislation, and then substituted the Senate bill, a bill which only contained two sections which the Senate bill left in the enacting clause, and under the rules of the House, the last seven sections of the bill, which we have printed before us are not germane to the enacting clause of the Senate bill.

Mr. Speaker, that is why the request was made, and voted, over the objection of the minority, to waive points of order on this legislation.

Mr. PEPPER. Mr. Speaker, I thank the gentleman from Nebraska for those remarks.

Mr. MARTIN of Nebraska. Mr. Speaker, I yield myself 15 minutes.

(Mr. MARTIN of Nebraska asked and was given permission to revise and extend his remarks.)

Mr. MARTIN of Nebraska. Mr. Speaker, as the gentleman from Florida has stated, House Resolution 1023 provides for the consideration of S. 3708, the Demonstration Cities and Metropolitan Development Act of 1966. The rule provides for 6 hours of debate under an open rule which waives points of order against the committee substitute now in the bill. If this waiver were not included in the rule, the last seven titles of the bill would be subject to a point of order as not being germane.

I do not wish to unduly delay consideration of the bill, Mr. Speaker. Therefore, I shall not discuss each title of the bill—and there are nine of them. Most of the controversy surrounding the bill as well as the thrust of the minority views goes to the first two titles. I shall discuss these in some detail.

First, we should be clear that we are not here to consider the Senate-passed bill, only the number remains. S. 3708, as passed by the Senate had two titles—not nine. Even the original two titles have been substantially modified. The Committee on Banking and Currency had originally reported out its version of the program, H.R. 15890. This bill was abandoned supposedly. Actually, what we have before us today is a slightly modified version of that bill, hiding behind the Senate bill number.

Title I establishes a program of demonstration cities. This is a program of Federal grants to selected cities for technical and planning assistance, to help the city plan and carry out a comprehensive program of rebuilding and restoring entire sections of blight within the city.

Federal grants, authorized at \$12 million for each of fiscal years 1967 and 1968 will provide two kinds of assistance—planning and programing.

Planning assistance is on an 80-20 basis. It will provide supplementary financial aid to selected demonstration cities, to assist them in taking advantage of existing Federal programs, such as grants for hospitals, libraries, water treatment and sewage, and I quote, "educational and social services vital to health and welfare." A further purpose of the bill, and again I quote from section 101 is "to improve educational facilities and programs." Such supplemental assistance grants can equal 80 percent of the non-Federal share of the project as determined by existing law. As an example, a 50-50 cost sharing project, included under a title I planning program, could be refunded into a 90-10 project with the Government picking up the lion's share of the cost. These supplemental grants may also be used to reduce the local cost of nonfederally assisted programs, which could include local school construction.

For fiscal 1968, \$400 million is authorized under the bill; \$500 million in fiscal 1969.

Mr. Speaker, apart from other objectionable features, concerned with education generally, title I would be a bad proposal. Since most existing programs covered by this title are actually covered by current urban renewal programs; and since the supplemental grants for selected demonstration cities will enable these selected few to siphon off a much greater than normal amount of the Federal funds available for such programs because of the greatly reduced costs to such cities, a sop has been added by the committee for all the hundreds of other cities who are not selected as demonstration cities. To quiet the natural objections of most of the cities of America, an additional \$250 million has been authorized for the urban renewal program, beginning in fiscal 1968, I might add that according to figures supplied by the Department of Housing and Urban Development, this will not begin to make up the difference. The \$725 million authorized for fiscal year 1967 is all but exhausted; and we are only some 3½ months into the fiscal year, and that sum is about three times the additional amount authorized by the committee to be used beginning in 1968.

Under title I, Federal planning and programing grants would go to existing or created public agencies with authority to undertake citywide planning. Eighty percent of such planning costs could be covered by the Federal grant.

To qualify a city must be prepared to surrender much of its independence. It must, in order to qualify for the supplemental grant program: First, plan comprehensively to provide low- and middle-income housing and improve the educational, social, and health services to a substantial portion of the city, not isolated, small parts of it; second, if necessary—in the Secretary of HUD's opinion, the city must be prepared to change its laws, zoning ordinances, and so forth, to conform to a master plan; third, the city planned program must met, and I quote from section 103, and I quote from the bill itself:

SEC. 103. (a) A comprehensive city demonstration program is eligible for assistance under sections 105 and 107 only if—

(1) physical and social problems in the area of the city covered by the program are such that a comprehensive city demonstration program is necessary to carry out the policy of the Congress as expressed in section 101;

(2) the program is of sufficient magnitude to make a substantial impact on the physical and social problems and to remove or arrest blight and decay in entire sections or neighborhoods; to contribute to the sound development of the entire city; to make marked progress in reducing social and educational disadvantages, ill health, underemployment, and enforced idleness; and to provide educational, health, and social services necessary to serve the poor and disadvantaged in the area, widespread citizen participation in the program, maximum opportunities for employing residents of the area in all phases of the program, and enlarged opportunities for work and training;

I submit, Mr. Speaker, under the terms of the language in the bill itself, it gives the Housing Director in Washington control clear across the waterfront as to the operation of our cities and in all phases of municipal operation.

Mr. Speaker, I have never seen a broader grant of power to an executive department since I have been in Congress. The opponents of this bill have been accused of using scare tactics—well, I for one find a good deal that bothers me in title I, and I believe that section 103, from which I have just quoted, has language in it which can worry any thoughtful Member of this House.

Title II of the bill is the metro-planning title of the bill. It provides a further program of Federal supplemental grants for a metropolitan area which will plan on an areawide basis in such areas as highways, sewer and water treatment facilities, recreation, mass transit, and now I quote from section 203(b):

"Other proposed land development or use, which, because of their size, density, type, or location, have public metropolitan or interjurisdictional significance."

The title provides that the Secretary of Housing and Urban Development, upon the request of local officials, can appoint a Federal expeditor whose function is to provide information and assistance to local authorities concerning Federal programs. The original, administration bill required his appointment. I wonder if any cities qualifying for title II grants will be able to resist "asking" for an expeditor.

A program of supplemental grants is instituted under title II, as an incentive toward metroplanning and development. Authorizations are \$25 million in fiscal 1967 and \$50 million in 1968. They will supplement existing Federal programs and can equal 20 percent of the total project cost.

To qualify for such supplemental grants a metropolitan area must: First, plan areawide for projects with a major impact on the area; second, it must also, and again I quote from the bill, section 205:

GRANTS TO ASSIST IN PLANNED METROPOLITAN DEVELOPMENT

SEC. 205. (a) The Secretary is authorized to make supplementary grants to applicant State and local public bodies and agencies carrying out, or assisting in carrying out, metropolitan development projects meeting the requirements of this section.

(b) Grants may be made under this section only for metropolitan development projects in metropolitan areas for which it has been demonstrated, to the satisfaction of the Secretary, that—

(1) metropolitanwide comprehensive planning and programing provide an adequate basis for evaluating (A) the location, financing, and scheduling of individual public facility projects (including but not limited to hospitals and libraries; sewer, water, and sewage treatment facilities; highway, mass transit, airport, and other transportation facilities; and recreation and other open-space areas) whether or not federally assisted;

You see, it says "including but not limited," and so again, under the terms of the bill itself, it is a complete open end for the Secretary of Housing here in Washington to go in and do anything he wishes in regard to the operation of our cities.

I would like to read to you the definition of a metro area, which is what we

are concerned with in title II. On page 59, line 16, of the bill the following definition appears:

(4) "Metropolitan area" means a standard metropolitan statistical area as established by the Bureau of the Budget, subject however to such modifications and extensions as the Secretary may determine to be appropriate for the purposes of this title.

You know what that will do. That will give the Secretary complete power to lay aside the boundaries of any metropolitan area in the United States, and include in those boundaries under his direction, by edict from the Secretary, all suburban areas which are included in the metropolitan area for this metro planning that we are concerned with in title II. This would give him complete power and jurisdiction to do that.

I might say, Mr. Speaker, that they do lay it on the line. The Department of Housing and Urban Development is out to gain greater control over our cities than anyone would have dreamed; over every facet of our urban life. They do admit it—it is clear in the bill—if it is accomplished we can blame no one but ourselves—they told us what they wanted to do.

Mr. Speaker, I said earlier that those who have opposed this bill have been accused of raising false issues and using scare tactics to gain support for their efforts. I have pointed out, Mr. Speaker, specific language in the bill which should bother every thoughtful Member. This language, standing alone, confirms everything I have said. But Mr. Speaker, there is more, much more to be said concerning S. 3708.

The specter of Federal domination of our education has been raised, along with the death of our neighborhood schools. Proponents have pooh-poohed these attacks by the gentleman from New York. I have not delved fully into all aspects of this particular controversy, Mr. Speaker, but I am aware of certain facts, of which, I believe, Members should be made aware. In February of this year, Secretary Weaver testified before the Banking and Currency Committee that not only could educational planning of school district lines, and locations of new schools be included in areawide planning, but that it was required that such be included.

This can be found on pages 45-46, 52-53, and page 106 of part I of the hearings. The Secretary's testimony is confirmed by language in titles I and II which include educational planning among those items required to be included.

I should note here, Mr. Speaker, that last week, the Rules Committee heard testimony from the Commissioner of Education, Mr. Howe. A speech he delivered in New York on May 3, 1965, was discussed, in which Mr. Howe stated:

Building programs for the future should be planned so that new schools break up rather than continue segregation. The Office of Education will provide federal planning funds for such efforts right now, and if I have my way about it, we will provide construction funds before long. Moreover, with the creation of the new Department of Housing and Urban Development, there is a new Federal tool to help education in the

attack on de facto segregation. Planning for new land use and for housing patterns in the city must go hand in hand with planning for education.

In answer to a direct question, the Commissioner denied any knowledge whatsoever of the language in titles I and II, language directly concerned with area-wide educational planning. That he should be so totally unaware is too much to believe.

Mr. Howe also made light of the draft education bill for 1967, which has made public. He dismissed it as, and I quote, "a very preliminary piece of paper that was used for conversational purposes—but—had no great standing with us in any official sense." I will state to the Members that evidence within the draft document itself refutes that statement most clearly. The document bears the legend "Presented to the Secretary, September 1, 1966"; it has a 5-year authorization projection, down to the dollar, spelled out; names on the document who had worked on it were discovered to be working in such areas as program planning, and legislative drafting for the Office of Education.

Let me read just a brief memo in regard to this legislation from Mr. Howe's Department. This is in regard to title II, section (d) of that proposed bill:

Supplementary grants providing an additional twenty percent of the project cost would be made to projects which fit into metropolitan area plans. This increased federal share would provide an incentive for joint school district planning in metropolitan areas. This proposal is patterned after the proposed supplementary grants for planned metropolitan development contained in Title II of the Senate-passed "Demonstration Cities and Metropolitan Development Act of 1966" (S. 3708). If enacted into law, that legislation could simply be amended to include school construction projects assisted under this proposed program in the definition of an eligible "metropolitan development project."

The SPEAKER pro tempore (Mr. BOLING). The time of the gentleman from Nebraska has again expired.

Mr. MARTIN of Nebraska. Mr. Speaker, I yield myself an additional 5 minutes.

That is a memo from the proposed legislation which was uncovered earlier this year. It is now being considered in the Department of Education as the Elementary and Secondary Education Act for 1967.

Mr. Speaker, these two titles, with authorizations totaling \$1,249 million, constitute a direct Federal attack on the rights of citizens in our urban areas to control their lives as they see fit, and on our neighborhood school system. The attack is direct; it is overt. It aims at nothing less than a remaking of our cities according to a Federal master plan.

The attack on our school system is no less direct. It is inconceivable, despite testimony to the contrary, that Federal Departments do not communicate with each other concerning legislation in which each is so vitally interested.

The other titles in the bill, seven in number, are amendments to current law covering such areas as FHA insurance, the "new towns" concept, the preserva-

tion of historic structures, urban renewal, and rural housing. Some are controversial.

I would just like to mention very briefly section 9 of this bill, Mr. Speaker, which changes the concept and the operation of FNMA which heretofore has been in the secondary housing market. This brings it directly into the primary housing market, because it provides that FNMA may advance up to 95 percent of the funds to builders who are constructing cooperative housing or nonprofit housing. This is the first time that FNMA has been brought directly into the financing field, so it is a complete change in the concept and operation of FNMA in a little noticed section, section 9 of this bill.

I will not dwell on them, Mr. Speaker, I have taken enough of the time of the House in this, the last week before adjournment.

Mr. MADDEN. Mr. Speaker, will the gentleman yield?

Mr. MARTIN of Nebraska. I will be through with my statement in just a moment, and then I will be glad to yield at that time.

I call the attention of the Members to the minority views contained in the report, covering a number of issues I have not discussed here; these will be discussed during general debate.

Mr. Speaker, I am disturbed by this bill, as I have indicated by my remarks. I do not believe that our cities have no problems; no one who has traveled this Nation can believe that. But I do believe that the solution is not found in a program dictated and controlled by Washington. I do not believe our neighborhood school system should be drastically modified under Federal direction. And these are the things S. 3708 will do. Language to accomplish these ends are in the bill. Those who say that such is not intended need only remember the floor debate of last week when we amended the education bill to prevent the Office of Education from continuing to violate both the clear intent of the Congress and the language of the Civil Rights Act of 1964. More housing for low- and middle-income families is needed. I agree with Mr. WIDNALL of New Jersey, that Urban Development funds should not just build expensive, high-rise apartments. I do not believe this bill is the answer. I shall vote against it in the belief that a solution can be found which does not stifle local initiative under Federal directions, which does not require that standardized Federal criteria control the development of our cities until one resembles another, which does not threaten our educational system.

Mr. Speaker, I have one other remark to make and then I will conclude my talk.

We have heard a great deal from the President about restraint. He has called upon both management and labor to use restraint in the negotiation of new wage contracts in order to hold down this great spiral of inflation which has our country in its grips. He has called on the housewives and the men of our families and the households to cut back on their purchases in order to lessen the demand

for goods and thereby hopefully to hold back this price spiral which is gripping us.

Mr. Speaker, the President has failed to mention restraint in Federal expenditures. The President has constantly criticized the legislative branch of our Government in respect to our authorization bills and in respect to our appropriation bills. And, Mr. Speaker, the President made a statement on last Friday, a statement which was widely quoted in the newspapers all over the country, to the effect that he was unable to make a determination in regard to the necessity of a tax increase until after the Congress adjourned, because he did not know how much we were going to appropriate until we finally adjourned.

Mr. Speaker, the President has not requested that the Congress cut back upon authorization.

Well, Mr. Speaker here is an opportunity for the legislative branch of the Government to reassert itself and to say to this country that we are not any longer a rubber stamp of the executive branch of the Government that we are going to stand up on our own feet and vote for this legislation upon its merits and Mr. Speaker here is an opportunity to save the taxpayers of this country \$1.4 billion proposed to be authorized in this program and to call the President of the United States on his criticism of the legislative branch of the Government.

Mr. Speaker, I reserve the balance of my time.

Mr. Speaker, I have no further requests for time.

I will now be glad to yield to the gentleman from Indiana [Mr. MADDEN].

Mr. MADDEN. I thank the gentleman for yielding.

(Mr. MADDEN asked and was given permission to revise and extend his remarks.)

Mr. MADDEN. Mr. Speaker, I want to commend the Banking and Currency Committee for the long days and weeks of committee work they devoted to this complicated and necessary legislation. This bill, if enacted into law, will be a great step forward in solving the slum and blighted areas problem in the cities and metropolitan centers of our Nation. It will provide practical experimentation programs on public facility and other services necessary to improve the general welfare of the people in these areas. This legislation will help with technical and financial assistance to these metropolitan areas that present practical and effective programs dealing with their physical and social problems. This financial aid will be set out in two main categories, to wit: planning assistance and program assistance. Almost total responsibility for the establishment and supervision of these operations will be under control and the responsibility of the elected officials of the local community. Under provisions of the bill program assistance for any project will be a maximum of 80 percent of the total non-Federal contributions made on all projects under existing Federal law which are being carried out as part of the city demonstration program.

The legislation will be of great aid for poor families in providing satisfactory housing with 3 percent interest including veterans' applications and directed especially to the acquisition and rehabilitation of housing by nonprofit groups and organizations. One title of this bill extends FHA mortgage insurance to finance construction and equipment of buildings to be used as group medical practice facilities. Insurance loans would be limited to 90 percent of value with a maximum maturity of 25 years and a maximum interest rate of 6 percent.

Title VII of the bill provides for the crediting of certain local expenditures as a local grant-in-aid under the urban renewal program.

Title VIII contains amendments to the Rural Housing Programs and administered by the Farmers Home Administration, including an increase from \$1,000 to \$1,500 as a maximum amount of a loan grant and a further loan and grant for repairs and improvements to owner-occupied dwellings which are necessary to make the buildings safe and sanitary.

Expert and detailed testimony was received during the hearings on all phases and aspects of this proposed legislation. Leaders of the homebuilding, real estate and mortgage industries testified in favor of this legislation. Labor organizations, civic groups, mayors, cooperative groups and others provided the committee with the benefit of their knowledge and recommendations. There are over 7 million homes in urban areas throughout the Nation that are run down or deteriorated. About 3 million do not have adequate plumbing or hot and cold running water. In many of our cities, entire sections and neighborhoods are in need of major surgery to overcome decay. Our cities have made great efforts to overcome the difficulties which are brought about by the influx of population from rural and smaller towns throughout the Nation. By reason of this great influx of families to the cities in recent years, it is estimated that 70 percent of our population is now centered in the metropolitan areas. Municipalities have had to increase their tax revenues approximately 43 percent and the local municipal government indebtedness has averaged over 120 percent.

If the Federal Government does not cooperate and extend aid to the millions of poor families and especially the multi-millions of schoolchildren, consternation, poverty, lawlessness, and riots are bound to expand and increase as years pass.

Legislation of this type is the greatest insurance not only against crime and juvenile delinquency but the aid in educational facilities will in future years lower our relief rolls, and make millions of taxpayers in the future which might otherwise become relief dependents and nonproducers to our economy.

The gentleman from Florida, Congressman PEPPER, in handling the rule on this legislation, has explained in detail the various complex and intricate provisions and proposals which this bill calls

for. I do hope it passes the Congress by a large majority.

GENERAL LEAVE TO EXTEND

Mr. PATMAN. Mr. Speaker, I ask unanimous consent that all Members participating and speaking on the bill today or on tomorrow in the Committee of the Whole House on the State of the Union, be permitted to revise and extend their remarks and to include extraneous matter.

The SPEAKER pro tempore (Mr. BOLLING). Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. PEPPER. Mr. Speaker, I move the previous question.

The previous question was ordered.

The SPEAKER pro tempore. The question is on the resolution.

The resolution was agreed to.

Mr. PATMAN. Mr. Speaker, I move that the House resolve itself into the Committee of the Whole House on the State of the Union for the consideration of the bill (S. 3708) to assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas.

The motion was agreed to.

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the State of the Union for the consideration of the bill, S. 3708, with Mr. FLOOD in the chair.

The Clerk read the title of the bill.

By unanimous consent, the first reading of the bill was dispensed with.

The CHAIRMAN. Under the rule, the gentleman from Texas [Mr. PATMAN] will be recognized for 3 hours, and the gentleman from New Jersey [Mr. WIDNALL] will be recognized for 3 hours.

Mr. MacGREGOR. Mr. Chairman, a point of order.

The CHAIRMAN. The gentleman from Minnesota will state his point of order.

Mr. MacGREGOR. Mr. Chairman, I make the point of order that a quorum is not present.

The CHAIRMAN. Will the gentleman from Minnesota just be patient until the gentleman from New Jersey [Mr. WIDNALL] arrives?

Mr. MacGREGOR. Mr. Chairman, that was the purpose of my making the point of order, I will say to the distinguished chairman.

The CHAIRMAN. The Chair will state to the gentleman from Minnesota that in the opinion of the Chair, the gentleman from New Jersey [Mr. WIDNALL] will be here shortly. If the gentleman from Minnesota will withdraw his point of order and permit the Chair to make a few observations, while the gentleman from New Jersey [Mr. WIDNALL] is approaching the Chamber.

Mr. MACGREGOR. Mr. Chairman, the Chairman, with my permission, is granted full leave to make any statement which the Chair desires to make. It is always a delight to listen to the gentleman from Pennsylvania.

The CHAIRMAN. The gentleman from Minnesota [Mr. MACGREGOR] is very kind and I agree with the gentleman.

For what purpose does the gentleman from New York [Mr. FINO] rise?

Mr. FINO. Mr. Chairman, in view of the fact that the gentleman from New Jersey [Mr. WIDNALL], the ranking minority member, is not here, and will be delayed for some 15 minutes, may I respectfully suggest that we proceed?

The CHAIRMAN. Yes. The Chair is about to proceed.

The Chair would like to say that for several years he has been presiding over the consideration of this bill in Committee. Last year we had a very long, tough, hard-fought debate. We had no quorum calls, and not once was there a question about order in the Committee. The Chair is very grateful to the Members for that cooperation. The Chair respectfully pleads that they do the same thing this year.

This is October 13. May the Chair say to the gentleman from Texas [Mr. PATMAN] and to the gentleman from New Jersey [Mr. WIDNALL], in absentia for the minute, that the Chair finds little reason for 6 hours of debate, and it hopes and prays we do not have 6 hours of debate on October 13.

Second, this committee is an experienced committee. It is in command of this bill. The Chair is sure that the bona fides and the integrity of the opposition cannot be questioned and everybody will be heard.

Before the curtain goes up on this debate there are certain ground rules the Chair has laid down:

The Chair has asked the Sergeant at Arms—and would like the attention of the employees on this—The Chair has asked the Sergeant at Arms and the Doorkeeper of the House on the Democratic side, and their opposite numbers, to direct all employees of the House to stay off this floor while this bill is before the Committee—all of them, with the exception of one on each side to report to the Members and also has asked the men in charge of the pages in both of these corners to keep them quiet—they make too much noise.

The Chair also asked the telephone people to do the same thing. Everybody has agreed.

This applies to our visitors in the gallery. The Doorkeepers are to instruct them not to whisper or talk in the gallery, and to come and go as quickly as possible.

This is perhaps the most important piece of domestic legislation before the House this year. The Chair suggests we treat it so.

As far as this Tower of Babel over here to my right is concerned, the Chair requests the Sergeant at Arms to keep this aisle completely cleared. Thank you. This must be kept clear. You did this last year, and be very kind again.

Now, for those railbirds in the back—that is a source of great trouble. Will you please get off that rail and go away.

For the Members, there are ample cloakrooms and corridors. We wish you would all stay here and hear the leaders of this bill discuss it pro and con. If you do not want to, please go away. If you must talk, go out in the hall. If you insist upon talking, the Chair will stop the debate until you have finished.

If there is no objection, in the absence of the gentleman from New Jersey [Mr. WIDNALL] the Chair recognizes the distinguished chairman of the Committee on Banking and Currency, the gentleman from Texas [Mr. PATMAN] to open the debate.

Mr. PATMAN. Mr. Chairman, I yield myself such time as I may use.

Mr. Chairman, I rise in support of S. 3708, the Demonstration Cities and Metropolitan Development Act of 1966. It was approved by the Banking and Currency Committee by a vote of 23 to 8.

The President has described America's urban problem as the major domestic crisis of the past quarter of a century. That description is accurate and it embraces cities and towns of all sizes.

Our central cities wrestle with the physical problems of slums and blight. Complicating these are the tangled social problems of densely concentrated, disadvantaged people.

Surrounding the central city, the suburbs are troubled by the problems of an uncoordinated and often wasteful growth.

This is the shape of our present urban problem. Each day it grows in size and complexity. Prompt and effective action is necessary to rehabilitate the physical and social blight, and to provide programs that will coordinate our suburban growth. For the central city and its suburbs, in fact, are one. Programs to solve their problems must recognize this fact.

Here is another dimension of our urban problem. Within the next 35 years, our city population will increase by 100 million people. This means that—in less than 35 years—we must build as much additional urban America as we have yet built in our 350 years on this continent.

This bill before us is designed to meet those challenges.

The Demonstration Cities and Metropolitan Development Act of 1966 provides us with realistic tools for getting started without delay—and for getting the job done.

In the past, we have attempted to solve our city problems as separate and unrelated conditions. This one-program-for-one-problem approach has achieved some solid successes. In the overall, however, the conditions of our cities today is clear proof that "one program for one problem" is not adequate to the need.

Now for the first time, supplemental grants—which do not have a dollar-matching requirement—will make it possible for our cities to make a comprehensive overall approach to rebuilding and rehabilitating their blighted and rundown areas.

One aspect of the demonstration cities

proposal which has been largely overlooked is the stimulus it will give to housing construction and rehabilitation. This is especially important at a time when our great homebuilding industry is in a slump because of the tight mortgage money crisis. The construction and rehabilitation activity engendered by the demonstration cities programs will help take up the slack of the industry's underutilized capacity.

The bill is economical. It provides for the imaginative use of programs that are already funded, and of lessons that are already learned. Its use will also generate large investments of private and municipal capital.

With our troubled central cities, a typical demonstration program may well provide for the coordinated use of urban renewal; the construction of low- and moderate-cost housing; the development of recreation areas; improved transportation to better link homes and jobs; on-the-job training, to relieve unemployment pressures; and day-care and nursing homes to assist working mothers and the elderly. The end result would be one of lasting benefit to the development of the entire city. All of its inhabitants would profit—not just those who live in its blighted areas.

This bill also provides relief for our suburbs—for community planners who are struggling with areawide problems of conflicting codes, uneconomical use of water resources, and a multiplicity of jurisdictional authorities.

The planned metropolitan development title will make supplemental grants available to assist and give incentive to metropolitan planning programs, and—to support a wide variety of urban public projects, provided they are carried out in accord with comprehensive metropolitan planning.

Among the programs which are eligible for its supplemental assistance are those for transportation facilities—mass transit, airports, roads—water and sewage facilities, sewage treatment work, and other open-space projects.

And Mr. Chairman, I deplore the specious arguments being raised in opposition to title II of this bill. Although there is no mention of schools in the title, opponents fancifully hint of future legislation which would tend to force cities to bus school children in order to qualify for the grant program. There are dark implications that the neighborhood school is being threatened. These changes and innuendoes are all fiction and no fact. Both Secretary Weaver and Secretary Gardner have made this crystal clear in letters to the committee. I urge my colleagues not to be diverted by this "red herring" which is really masked opposition to the program itself which is designed to give vitally needed aid for metropolitan development.

Mr. Chairman, there are other desirable features of this important bill before the House. Provisions in Title III of the bill would improve the cooperative housing program, would help veterans to qualify for the special preference loan authorized last year under FHA despite previous use of GI loan entitlement, and would provide a new promising program

to make sales housing available at a 3-percent interest rate to very low income purchasers.

Title IV would extend the FHA financing for subdivisions which we authorized in last year's act to make entire new communities eligible. Many housing and planning experts are convinced of the inevitability of more and more new communities which will relieve some of the land and population pressures which are besetting our larger urban centers. In my judgment we should encourage, through Federal assistance, the growth of new rationally planned communities and towns.

Title V would set up a brandnew program of FHA mortgage insurance to finance the construction and equipment of buildings to be used as group medical practice facilities. The demands for health care are mounting rapidly and we need to provide every facility for the most efficient utilization of our relatively scarce supply of doctors, dentists and other highly trained professionals.

Title VIII contains several important amendments to improve the rural housing programs administered by the Farmers Home Administration.

The Committee on Banking and Currency and its subcommittee on housing has labored long and hard on this legislation. Earlier this year the housing subcommittee held 4 weeks of hearings and witnesses represented and covered every aspect of housing and urban development. They included many mayors who gave vigorous support to the demonstration cities program and other witnesses represented professional planners, home builders, labor organization, civic groups, and so forth. The proposed legislation was reviewed in detail by the full committee and I was particularly pleased with the full participation of every member of our committee in the drafting of the bill now before you.

In our deliberation, the original proposals were significantly moderated and the total dollar amount of the bill substantially reduced. The demonstration cities program as initially recommended contemplated \$2.3 billion in grant money. Working closely with the administration, both in our committee and on the Senate side, this amount has been cut to \$900 million over 2 years. With this compromise, and in view of the urgency of the problems which the bill would deal with, I believe it deserves the support of every Member of the House. The committee amendment now before us was reported by a solid majority of 23 to 8.

Mr. Chairman, the long labors of our committee have produced a bill which contains a number of vital and desirable new and improved programs. They will produce better housing, better cities and suburbs, and more basically—better citizens and better Americans. I call on my colleagues on both sides of the aisle to pass this bill and send it to the President without delay.

I share the views of the Chairman of the Committee of the Whole House on the State of the Union concerning the use of time. I know the Rules Committee granted 6 hours of debate, 3 hours

for each side. Personally, I believe we could get along with much less than that. If the minority is willing to forgo the use of any amount of their time, even half of it or more, our side is willing to yield.

We want to explore this bill fully, and particularly under the 5-minute rule we must have adequate time for the consideration of the different amendments, but I believe if we could get through with the general debate today we could start on the reading of the bill under the 5-minute rule tomorrow and long before sundown tomorrow we could complete the bill, and vote on final passage.

I hope this will be done, because if it is not we will probably face a Saturday session. I do not know of any Member who likes a Saturday session, but if it is necessary we will just have to have one, we are told by the leadership.

I sincerely trust that we can shorten the time of general debate and get under the 5-minute rule as quickly as possible and resolve and actually accomplish the completion of the bill before the end of the day tomorrow in order that we will not be forced into a Saturday session.

The CHAIRMAN. The Chair might say to the gentleman from Texas that the Chair has discussed the problem he just mentioned last with the Republican leaders, and they are very much in agreement. The Chair hopes both agree.

The Chair recognizes the distinguished minority member of the Committee on Banking and Currency, the gentleman from New Jersey [Mr. WIDNALL].

Mr. WIDNALL. Mr. Chairman, I yield myself such time as I may consume.

Mr. HALL. Mr. Chairman, will the gentleman yield?

Mr. WIDNALL. I yield to the gentleman from Missouri.

Mr. HALL. Mr. Chairman, the statement made by the distinguished chairman of the committee handling this bill on the floor and the gentleman in the chair of this Committee of the Whole House on the State of the Union is not meant to preclude going on into the 5-minute rule today, should we accomplish general debate, is it?

Mr. WIDNALL. Is the gentleman asking me that question?

Mr. HALL. I should like to have an expression from all of those who are making depositions about reading the bill and going over until tomorrow. I see no reason why we could not wind up general debate today and then go into the 5-minute rule discussions and start the amendment process.

Mr. WIDNALL. So far as I know, there is no agreement as to what is to take place today. There is a general area of agreement that we want to use all the time necessary to give every Member an opportunity to express himself, but we do feel it might be possible to conclude the general debate before the 6 hours allocated by the Rules Committee are used.

Mr. HALL. I certainly subscribe to that. I want it clearly understood that my only purpose in rising to ask the gentleman to yield was so that we did not circumvent ourselves from doing more

than just reading the initial portion of the bill, for amendment under the 5-minute rule on tomorrow. We could get into that today.

The CHAIRMAN. The Chair might remind the distinguished gentleman from Missouri, a famous surgeon:

Hope springs eternal in the human breast:

The Chair hopes the gentleman is right.

Mr. HALL. The rest of the quote is: Man never is, but always to be, blest.

The CHAIRMAN. The gentleman is so correct.

Mr. WIDNALL. Mr. Chairman, I have had a long time interest in housing, which has dated back to the third year I was in the House of Representatives, when I introduced a bill which I believe established the first Special Housing Subcommittee in the House.

At that time there was concern with what was going on with respect to the building of new homes involving many veterans. In their homes, specifications had not been met and their hopes and aspirations that they had upon obtaining a new home had not been fulfilled. Certainly not by the acquisition of that home because of fraud, waste, and improper inspection that were taking place.

At that time a special subcommittee was selected. President Truman was the President then and the Democrats controlled the House of Representatives. Mr. Rains of Alabama became the ranking subcommittee member, and I was the one on the Republican side. Since that time we have had special housing subcommittees, as we should have had for a long time, because housing is probably the most important legislation, I think, from year to year that we have.

I believe more employment is directly connected with it, outside of the defense industries, than with any other section of our economy. It is more or less a bellwether of our economy and what takes place is something which happily reflects itself in employment and in the betterment of conditions for all Americans.

Mr. Chairman, this bill we have before us today is an omnibus housing bill. Yet I believe most of the mail and telegrams that we are getting or many of our colleagues in Congress are getting are addressed to the demonstration cities bill. The other sections are forgotten and not mentioned. I do not recall that anybody, even including the 22 very fine gentlemen mentioned by the gentleman from Florida [Mr. PEPPER], when he was talking about the rule, referred to the other sections. They referred to the demonstration cities bill and said nothing about the other sections of this omnibus measure we have before us. I am deeply disturbed as a member of this committee and as the ranking minority Member for a number of years at what has been taking place. The original demonstration cities bill that came to the Congress was not something that was written by the House or the Senate. It was something that came up from the administration and was offered to us on a platter to accept.

I think for the RECORD it should be said that the subcommittee had qualms about it. I am talking for both sides of the aisle now. They had qualms as to whether or not it was wise to do it this year and whether or not we should just include planning money or whether or not we should go into any appropriation such as the \$2.3 billion requested for a 6- or 5-year period, which would be broken down to roughly about \$400 million a year. There was considerable dispute. I should not say "dispute," but there was considerable discussion within the subcommittee. I believe it was only yesterday a strong arm was exerted by the administration making sure that every i should be dotted and every t should be crossed and every comma left in the legislation. It was then that we got into the position where we now are. This makes us accept or reject this bill as written and submitted to the Congress.

Now, unfortunately, what we are considering today is far more than a demonstration cities bill. It includes far more. And yet the whole concentrated appeal back home, with the instructions to our mayors to write in and urge your Congressman to support it, is based on an appeal that there is something in it here for you.

And, Mr. Chairman, just remember this, that in the whole of the United States of America, under the census, every municipality of over 2,500 is a city; not New York, not Philadelphia, not Boston, not Chicago, not San Francisco, not Los Angeles, but every municipality of 2,500 is a city. And this is a demonstration cities bill.

Mr. Chairman, it does really just not make sense. We are now talking about \$400 million for 1 year, and \$500 million the next, to put on a demonstration that should be meaningful only to all principal cities of America. And at the same time we hold out to the mayors of other cities of the United States—and that includes cities that are considered to be cities if they have a population of from 2,500 up we tell them—you are going to be a part of the city demonstration program.

Now, Mr. Chairman, for a long time I worked and cooperated with, and had the very wonderful and meaningful cooperation of the majority side under the leadership of the gentleman from Alabama, Mr. Albert Rains, and our now distinguished chairman, the gentleman from Pennsylvania [Mr. BARRETT], whom I believe is a great American and whom I believe is trying to do everything he can to bring out a bill, an omnibus bill, a bill that is designed for the best interests of all the people of the United States.

At first, Mr. Chairman, I thought that this bill, with its preamble and its very meaningful principles and goals and its ideas represented something which everyone could accept, and immediately say, "Let us try it; let us go forward; we are going to do something that is going to be meaningful toward the future of the United States and toward the accomplishment of what we all want and what we all desire."

I desire—very, very badly—the improvement of the hard core city areas

that have slipped into slums and into deterioration, and that are infested with crime and disease as well as the unwholesomeness which now characterizes so many of the cities of America.

Mr. Chairman, as I thought about this more and more through the last 3 weeks, I have become extremely disturbed about the entire idea. I do not honestly believe that it has yet received the thoughtful consideration that it should receive from the administration itself. That administration is now holding a tiger by the tail, if it sets it up in this bill in its present form. And it is implicating our committees in both the House of Representatives and Senate by such orders, as well as by the 22 very fine citizens who recommend passage of the demonstration cities bill.

Mr. Chairman, I cannot see how we can meaningfully do a job, when promises of all kinds are held out, backed by all kinds of propaganda—radio, magazines, newspapers—propaganda—which I would say stems almost entirely from Washington, and not from any other place.

Mr. Chairman, the source is very obvious and there is no question but what it holds out a promise of every kind of project that one could imagine for a city located anywhere in the United States of America. But, Mr. Chairman, those promises just cannot be fulfilled.

Mr. Chairman, permit me to just read something that has just come into my hands, and only this morning.

Mr. Chairman, there are three editorials that were broadcast in New York City by Station WINS on the demonstration cities bill, broadcast over the entire metropolitan area. They have a very powerful impact upon the relations of our citizens, and they requested that all citizens write to their Congressmen telegraph them, and ask them to vote for the demonstration cities bill because it would do certain things.

Let me read from just two of these broadcasts. The second broadcast said in part:

Actually, funds provided by the demonstration cities bill can be used wherever a community can find a legitimate need for them. That could mean highway construction, port improvement, or any number of the other projects every city has wanted to tackle, but has never found the money for.

This is a major news media in the largest city in the world where the information is disseminated, and not just on the occasional hour or half hour. It is purely a news station that repeats this broadcast hour after hour through the day: "Highway construction, port improvement, or any number of other projects every city has wanted to tackle but has never found the money for."

The third broadcast on October 12, yesterday, said:

For each of us who knows first-hand about blighted, rundown big-city neighborhoods, the demonstration cities bill promises a kind of rebuilding that goes beyond bricks and mortar to jobs, education, and housing. What's been holding up passage?

Then it goes on from there, and tells about responsible business leaders, and these are the 22 who have been quoted by

the gentleman from Florida, Congressman PEPPER.

I should like to say that the general manager of that station, Joel Chaseman, does not realize that there are only \$400 million in this bill that is allocated for the first year, and \$500 million for the second year; that under the original proposals of Congress there were 70 cities to be part of the demonstration. This was then cut down to 60, and the New York Times has said recently that it is down to those 35 or 40 cities where demonstrations have been held, with no more than 15 percent of the funds available to any State.

Let me call your attention to this. We had some rather exhaustive hearings on this. We had the mayors of the great cities, and some of the smaller cities in before the House in order to hear what their problems were, and what they needed in order to truly do the job to take care of the massive needs of the cities.

Fifteen percent and \$400 million would mean that New York State could have \$60 million. Mayor Lindsay of New York has said \$10 billion for New York, which he later raised to a \$50 billion figure just for New York City. We had about 17 major cities before the House Subcommittee on Banking and Currency who added up in their testimony, as I recall it, to a figure close to \$10 billion. This was just for their cities—for their immediate needs to put on an adequate and proper demonstration.

I just question seriously what we are holding out to these cities at this point, and if we are sort of kidding every city in the United States with the unreliable promise that they are going to participate and obtain funds of a major nature to help them meet their own cities' needs in the immediate future.

I thought about this in terms of the water and sewage bill which most of us voted for, and which I cosponsored when it came to the floor of the House. There are currently over \$2.8 billion in applications for aid in water and sewage, and probably unquestionably I think they are proper applications, because they are screened pretty well before they go in.

This year there was available in the authorizations the figure of \$200 million to meet the needs of \$2,800 million for water and sewerage facilities for the municipalities of America.

The President has cut that—because he wants cutbacks for budget purposes—to \$100 million to meet the \$2,800 million for sewerage and water, that is certainly urgently needed for our cities because without water people will die and industry will starve and move out to some other place where there is water. Without water employment would go down and without sewerage facilities, tremendous health problems of course would arise.

If you measure the requests under that program of \$2,800 million as against \$200 million requested in the budget this year and the \$100 million it has been cut down to, by the President, what in Heaven's name are you going to do with \$400 million the first year when the major cities of America are actually all bank-

rupt today and are looking to Washington for all the help they possibly can get?

I want to help them. I want to help them seriously, but I just cannot see how we can act upon this intelligently now until we really have first some honest to goodness planning on every level in both the large municipalities and the medium sized and smaller sized municipalities so that we can truly understand and recognize what our problems are. Because these problems cannot be met by just passing a program now that will stifle the individual municipality's initiative. Why? Because every single municipality from 2,500 population up is going to say—"Why should we do the job when we are going to be able to get it out of Washington?"

I think this is a point that should be truly and seriously considered.

I dislike very much to differ with the very able chairman of our subcommittee, the gentleman from Pennsylvania [Mr. BARRETT], because I know how earnestly he has worked on this bill. I know what constructive work he has done and how earnestly he wants to improve conditions not only in his own city but in every city everywhere in America. I, too, want to do the same job. But I do not want to contribute to kidding America by passing a bill that today is going to be phony.

When is the first money under this bill going to be available? Well, \$400 million in the fiscal year 1968, I believe, and \$500 million in fiscal year 1969. I cannot truly see what harm is going to be done if we start, if we try to do a job, just with planning funds and seriously consider everything next year when we can pass on the planning that has been done and reevaluate the whole bill.

I am alarmed by the fact that some of the propaganda that has been put out in support of this bill holds out heaven from heaven for every municipality in the United States with population over 2,500 that wants to do something. We already have urban renewal on the books and this, of course, introduces many problems that demand money in the billions and billions of dollars. More, much more, will be needed for use in a demonstration city.

I think we should seriously try this idea, using major money but concentrate it on six or eight cities and see what happens. Then we can write into legislation the encouragement for the private sector of the economy that will let it do a job side by side with the State and municipality coming together on their joint problems and attacking them together.

We are not in a situation where we have a bottomless pit that is filled with money to do all those things we want to do. We all know we face, whether we like it or not in the next few weeks, a request for money running into the billions of dollars not just for the Vietnam war but also for the supplemental appropriations to provide for other areas of our Government operation in order to cover deficits of their operating programs.

I earnestly suggest to all of you that we listen to the debate and that we do everything that we can fully to understand the bill that is before us. Hear out the best of the pros and the best of the cons, and then arrive at the best solution and the best vote we can cast, not for the future of the great cities but for the future of America, because, after all, when we talk about cities of more than 2,500, we speak of all America. It is all America and not just a few cities that we must be thinking.

Mr. CAHILL. Mr. Chairman, will the gentleman yield?

Mr. WIDNALL. I yield to the gentleman from New Jersey [Mr. CAHILL].

Mr. CAHILL. I thank the gentleman for yielding.

First, I would like to say that I share the gentleman's admiration and appreciation for the contribution that has been made to housing in the United States by the gentleman from Pennsylvania [Mr. BARRETT], and to confirm that the great strides that have been made in the city of Philadelphia are largely due to his personal effort, personal interest, and personal leadership.

I have always, as has the gentleman in the well, subscribed, generally speaking, to what the gentleman from Pennsylvania has advanced as being good for the country in relation to housing. But, in this particular bill the gentleman has anticipated some of the things that I wanted to discuss. My concern is that there is a carrot being held out to literally hundreds of cities in this country, and there is an implied promise, if not an actual commitment, that the Federal Government is going to supply these cities with all the money that they need to do all the things that are necessary to eliminate slum clearance.

I know in my own State and in the gentleman's State that there have been editorials written urging the cities to be ready so that as soon as this legislation is passed and signed into law they can be here in Washington with their applications, so that we can start getting this job done. It is a job that we all recognize must be done. We all understand, I am sure, even those who represent rural communities, that the cities of this country need help.

But these are the questions I am troubled with, and I think some of the people in our State are troubled with:

First of all, if the gentleman will yield for these questions, it is my understanding that for the first year, fiscal 1968, \$400 million would be available.

Mr. WIDNALL. That is correct.

Mr. CAHILL. I understand there would be a limitation of 15 percent on each State. No State could get more than 15 percent of the \$400 million.

Mr. WIDNALL. That is provided in the bill.

Mr. CAHILL. Is there any limitation on an individual city, an individual project? For example, suppose that the city of New York were to submit to the Secretary a plan that was acceptable and, in fact, outstanding in every respect, and was a clear example of what we wanted to do for a city.

Suppose further that that plan called for, as we suggested, in New York City, for \$100 million. Would it be possible for the Secretary to allocate all of the funds available for the State of New York to the city of New York for that one project?

Mr. WIDNALL. As I understand the bill, it could be all allocated to that one city. It would be within the discretion of the Secretary.

Mr. CAHILL. If that one city got all the money that was allocated for that one State, would it then be impossible for any other city in that State to get any money under the bill?

Mr. WIDNALL. Not under this bill.

Mr. CAHILL. They could not get it?

Mr. WIDNALL. They could continue to get some money under the regular urban renewal program if funds were available. I understand the program, however, is heavily oversubscribed at the present time.

Mr. CAHILL. I direct the gentleman's attention to this particular bill. In other words, once the 15 percent has been utilized in a given State, that would end the money in this bill for that State; is that correct?

Mr. WIDNALL. The gentleman is correct.

Mr. CAHILL. The last question I should like to ask is as follows: If that is true, then, is it not entirely possible that only seven States in the United States could participate under this particular program, and it is also possible that one city in each of those States would be able to get all the money?

Therefore, within the realm of this bill there is the possibility that only seven cities in the United States could participate; is that not true?

Mr. WIDNALL. I believe that is very possible. In all fairness, I might say that the administrator, I am sure, would try to make it available to more than seven cities and seven States. But it is very possible under the bill.

Mr. CAHILL. If the administration is sincere as to doing something for the cities under a demonstration cities program, and if it is believed essential that we have planning money and implementing money, why have not these cities been designated in advance, and why has not the administrator limited this to a specific number of cities which he must know have an urgency, rather than to hold out the carrot to all the cities of the Nation?

Mr. WIDNALL. I believe this has been a decision of the administration through the Housing Administrator.

It is very noticeable that since the original proposal came up, when it contained, I would say, information or side remarks that 90 demonstration cities would be selected, it has been scaled down, with the same amount of money, first to 60 and then, as I say, now to 35 or 40.

If this were brought down to size, where it was really meaningful with respect to a few cities in every category—the large, the middle sized, and the small—I would support the legislation. But I still believe it would be wise to

give additional time through planning moneys really to think out a more thoughtful program with respect to exactly what is acceptable or what should be used in order to demonstrate what can be done by a massive attack within a particular city.

Mr. CAHILL. I thank the gentleman.

I should like to personally compliment the gentleman and to say that we in New Jersey feel the gentleman in the well is making and has made one of the great contributions in the Congress of the United States to housing in general in the United States. The gentleman is one of the most knowledgeable and one of the most dedicated Members of the House in this field. I, for one, certainly shall continue to listen with a great deal of interest to the debate as it progresses, and particularly to the recommendations of the gentleman in the well.

I thank the gentleman.

Mr. WIDNALL. I thank the gentleman.

Mr. MULTER. Mr. Chairman, will the gentleman yield on that point?

Mr. WIDNALL. Not just now. I should like to continue my remarks.

Mr. YATES. Mr. Chairman, will the gentleman yield for a question with respect to the letter he sent to the membership?

Mr. WIDNALL. I yield to the gentleman from Illinois.

Mr. YATES. The letter the gentleman sent out struck a most sympathetic note with me, because it has been my impression that the housing programs we have had for our major cities have not taken care of the neighborhoods that have not yet slid or deteriorated or suffered sufficiently to become urban renewal or code enforcement neighborhoods.

I believe the FHA programs have seemed to concentrate primarily on the building of homes in the suburbs. Hundreds of thousands of homes have been built under this program in the suburbs. And high-rise buildings have been constructed in many major cities.

But neighborhoods which need the rehabilitation to maintain their quality, to retain their standards as places in which people can live and bring up their children, are the neighborhoods we want to maintain, in order to prevent a flight from the cities to the suburbs.

It has been my impression, from what I have seen, that something is lacking in the housing program in this respect. Is there anything in the demonstration cities program which would emphasize this kind of rehabilitation?

Mr. WIDNALL. The demonstration cities program hopes to emphasize this, but it would broaden the attack in so many areas by including so many other things that the effect will be diffused with respect to the money that is utilized.

I intend to offer an amendment to section 7 of the bill, which applies to the urban renewal section.

This amendment I was going to speak about just now, says:

"(g) The redevelopment of the urban renewal area, unless such redevelopment is for predominantly nonresidential uses, will provide a substantial number of units of stand-

ard housing of low and moderate cost and result in marked progress in serving the poor and disadvantaged people living in slum and blighted areas."

(b) The amendment made by subsection (a) shall apply only in the case of contracts for loans or capital grants which are made with respect to urban renewal projects undertaken pursuant to urban renewal plans approved after the date of the enactment of this Act.

Let me just read you this, partly in answer to your question, from an editorial in the Cleveland Plain Dealer of August 29, 1966:

LOW MAN ON HOUSING LADDER

It is an article of this country's faith that every American ought to live in a decent home. But every American doesn't, as the abundant slums in big core cities grimly testify.

This is puzzling, because federal housing and home mortgage programs have been growing since the '30s, and \$5.5 billion in federal funds have poured into urban renewal in the past 17 years.

If Washington meant to move the worst-housed citizens into livable homes, we must conclude that federal housing programs keep on missing their mark. Some new, direct approach has to be found.

The first axiom of this problem is that private enterprise cannot provide lower income housing. There is no profit in building or maintaining at a shipshape level any housing for people with slum incomes.

Bottom-income families get some relief through public housing. But between the income ceiling for public housing and the poverty line of \$3,000 a year income for an average-size urban family lie thousands of Americans still miserably housed.

Just above them are those able to buy new homes. They get help from the Federal Housing Administration, because FHA insures banks or other loaning firms against bad mortgages made by home buyers who are not prime risks.

But most FHA homes are in suburbs. That program not only misses the low men on the housing ladder, it helps to extract from city neighborhoods those who are better off. It helps those better taxpayers to escape to the suburbs, aggravating the city's segregation problems and tax poverty.

Urban renewal has not helped the low man either. It has knocked his slum home out from under him and driven him to nearby areas. There, to pay higher rent, he has had to double up and crowd in with other families—which pulls those neighborhoods down too.

Urban renewal has built office buildings, exhibition halls, high-rent apartments, Boy Scout headquarters and colleges and other tax-exempt structures. But it has provided pitifully little low-rent or low-cost housing for the left-out low man.

As of May, 1965, urban renewal in Cleveland had put out \$80 million in loans, grants and expenses—without improving the total of taxable real estate in the city. In fact, it removed some \$2 million from the city tax duplicate.

Slum riots still shake the country. Congress and the President, mayors and social thinkers are gravely reviewing all that the government has done in hopes of salvaging big cities.

The big low-income housing gap stares out of the fabric of national urban policy.

No demonstration cities program or new urban housing program is going to mean much unless its starts energetically to plug that gap.

The worst-housed Americans need a program aimed straight at their special problem. If luxury office buildings, college dor-

mitories and high-rent downtown apartments deserve a subsidy, surely decent shelter for low-income people does too.

What is interesting about this is that this paper has actually turned its position, I believe, with regard to urban renewal. They were one of the papers in Cleveland advocating a review in the community at the time the Hough area was going down, down, and down. I have put this in the RECORD since 1963. This was the riot area. They cleared and bulldozed an area out there to provide housing for low-income citizens, and what happened? They changed it to industrial use and concentrated people in further slums. That has been too often the nature of urban renewal.

Unless we take the urban renewal we are using now that is supposed to be concerned with residential uses predominantly and channel it at least for a couple of years in this direction, then what in heaven's name help are we going to get out of this, either out of urban renewal or out of the demonstration cities? What can we expect if demonstration cities can use this as they please and, as they editorialize, without anybody denying it, for further construction, for new roads, and for whatever they please in the cities.

Where does this leave the person who is having the main problem today in the big cities?

Mr. YATES. Mr. Chairman, will the gentleman yield further?

Mr. WIDNALL. I yield further to the gentleman from Illinois.

Mr. YATES. Mr. Chairman, as I understand the intent of the amendment which the gentleman from New Jersey plans to offer, and based upon what the gentleman just said, it is proposed to be addressed to urban renewal areas.

My question was directed to areas that are not urban renewal areas. They are not code enforcement areas which are deteriorating.

How do we protect them?

Mr. Chairman, how do we maintain those areas?

Mr. Chairman, I know that in the congressional district which it is my honor to represent in Chicago—I know this is representative of most of the big cities—when a neighborhood begins to depreciate and deteriorate, private financial institutions turn the seekers of loans with which to correct these conditions elsewhere.

And, Mr. Chairman, it becomes increasingly more difficult to obtain the funds with which to correct these conditions, primarily because the FHA mortgage is not obtainable.

The question, therefore, which I should like the comments of the gentleman from New Jersey [Mr. WIDNALL], upon is directed to that situation; namely, an area which is located in a good area but one which is threatened with blight, but which has not reached the point of becoming an urban renewal area, or a "code" enforcement area.

Yet, Mr. Chairman, we want to protect these areas.

How are we going to do it?

Should there not be a provision contained in this bill designed to make cer-

tain Federal funds available, if private sources will not provide the funds with which to rehabilitate such a neighborhood?

Mr. WIDNALL. Mr. Chairman, I believe the gentleman has a fine idea. But may I say too, the same as I have talked about some of the other things that have been taking place in the last several years—I do think we have to establish priorities as to spending.

Mr. Chairman, in the United States of America right now there are some areas which require a priority listing with respect to urban renewal, these are the hard-core areas which are located in the big cities, areas which represent true slums, areas which have deteriorated, and areas which have caused serious problems with respect thereto.

Mr. Chairman, how can anyone study in a slum with no lights, no sanitary facilities, 8 to 10 persons in a room, no chairs for a family, and all sorts of things like that?

Mr. Chairman, we have got to understand the need involved herein, but we cannot spread it too thin.

Mr. Chairman, it is still my belief that we should concentrate our efforts as proposed to be contained in this bill—

Mr. YATES. Mr. Chairman, if the gentleman will yield further, I agree with what the gentleman said, that our attention must be directed to the areas which the gentleman from New Jersey has described. But, the fact remains that we still want to protect the areas that are threatened with blight, threatened with the situation which the gentleman from New Jersey has described.

How are we to protect them?

Mr. WIDNALL. Mr. Chairman, I will state to the gentleman from Illinois, that I believe a lot of this can be performed initially on the local level.

Mr. YATES. But, Mr. Chairman, if the gentleman will yield further, one cannot obtain private loans from private lenders.

Mr. WIDNALL. We must encourage that participation locally and we must encourage those who live within the cities to create an incentive to improve the properties involved under "code enforcement."

Mr. SCHEUER. Mr. Chairman, will the gentleman yield?

Mr. WIDNALL. I yield to the gentleman from New York.

Mr. SCHEUER. Mr. Chairman, I believe that my colleague, the gentleman from Illinois [Mr. YATES], is erroneously grouping together the urban renewal program and the code enforcement program.

Mr. Chairman, the fact of the matter is that the code enforcement program is specifically designed to give assistance not to the rockbottom slum areas where you need the bulldozer primarily as a tool with which to correct these situations, but areas that are stable but which are threatened with blight, but which have been saved through the code enforcement program that is currently in Operation HUD, which provides for the protection of those areas which can be

saved, but which areas are threatened with some blight.

Mr. Chairman, under this operation, there is provision for long-term loans, low-interest loans, to individual homeowners that provide for grants of up to \$1,500 to homeowners, provisions that provide grants to cities to provide street lights, repaving, and assistance in the form of grants to sustain certain health standards.

Mr. YATES. Mr. Chairman, I thank the gentleman for pointing out that fact to me. But with these types of programs with reference to urban renewal and with reference to code enforcement both, how could they be consistent?

Mr. SCHEUER. They are different insofar as certain areas of operation are concerned.

Mr. YATES. Well, all right. One is urban renewal and one is code enforcement; they represent different types of areas.

Mr. SCHEUER. Code enforcement is aimed at the stable area which is threatened, but can be saved.

Mr. YATES. That is right, but the fact remains that there are many neighborhoods that do not want to be designated by other people as a "code enforcement neighborhood." They do not like the term being applied to them, but they are deteriorating and perhaps they will change their minds.

Mr. WIDNALL. Mr. Chairman, I would like to say at this point that I have taken more time than I originally intended in this presentation. I would like to conclude by saying that through the years I have worked hard with others of the minority and with the majority members trying to bring out some very meaningful pieces of legislation. I think we have succeeded in many years.

I would like to pay tribute to the other members of the committee on both sides of the aisle for the work that they have done, and the long, arduous hours they have spent in trying to develop the legislation.

In case anybody may think that I am against this as far as cities and urban renewal and the like, let me just say this: that in the legislation that has passed in recent years I believe I have been majorly responsible for the low-interest loans, for the rehabilitation for homes and businesses in urban renewal areas, there is a \$450 million program today in that direction.

I believe New Haven is using this today with great success, and many other cities. The rent certificate plan, which is not the rent supplement plan, the rent certificate plan is, after 1 year of operation, housing thousands of people in the United States, and the applications for help are growing by leaps and bounds. It is a tremendous success, and seems to be very meaningful. Better code enforcement and relocation procedures have been sponsored by me. I sponsored a better break for the exercise of power of property owners who have lost their homes and businesses because of eminent domain. Also, low interest loans for housing, and the low downpayment insured loans for veterans.

I still think that we can do a better job, a far better job next year, by postponing a final decision on the amounts that are involved in the demonstration cities program, and some other parts of this bill.

I urge upon all of the Members, both Democrats and Republicans in this House, to give their full attention to what is in this bill, to the discussion that takes place, and let us come out with a decision that is the very best we can make for the years ahead.

Mr. FARBSTEIN. Mr. Chairman, will the gentleman yield?

Mr. WIDNALL. I yield to the gentleman.

Mr. FARBSTEIN. Mr. Chairman, I have been interested in housing for many, many years, for perhaps 30-odd years. But I understand the gentleman's suggestion is to refine this entire legislation to housing of one type or another.

My question goes to the very core, as I see it, of the legislation.

Mr. WIDNALL. Mr. Chairman, will the gentleman permit me to interrupt him at this point?

Mr. FARBSTEIN. Certainly.

Mr. WIDNALL. My suggestion by amendment is to change only the future use of the urban renewal program, the urban renewal program at least for the immediate future, where the residential program is the one that is being considered, or being approved; that there the emphasis be on low- and moderate-income housing.

I believe that is the same thing the gentleman has talked about in previous sessions of the House.

Mr. FARBSTEIN. Yes, except in connection with this bill, as I interpret the demonstration cities phase, is the fact that housing in and of itself is insufficient.

With new housing, whether it be low- or middle-income housing, you need better streets for one; and second, with relation to, piers and ports—and let us take the Port of New York—we have piers there that need to be refurbished and improved so that the people who work on those piers can live near the piers in the neighboring streets, so as to enable them to go to work there.

Also you need new sewage, you need new water facilities. When you build these new buildings, you need new schools. All of these things are combined into one. When you talk about a demonstration city you do not alone mean housing, but you mean all of these other related items that go along with the building of a house.

Mr. WIDNALL. But you do not solve these problems by creating a new program, you give the money to the existing programs, as in the case of water and sewage. You do not start a new program with a new duplicating agency in Washington, doing the same job, bidding for the business with all the municipalities throughout the United States. This does not make sense to me. In that way we end up with nothing but Federal employees.

Mr. FARBSTEIN. But in metropolitan planning or in demonstration cities,

you want to build a city that will coordinate and cover these various items that are required in order to have a city that is complete in all aspects and phases of city life and development. Therefore, not alone do you have new housing but as I said a moment ago, you have to have these correlative necessities that go to make a good city—a city that will be well balanced, a stable city, one that will provide the schools and provide the means of employment and schools so it would then be unnecessary to bus children. In other words, you need all of these other necessary features that go to make for better living.

Mr. WIDNALL. I cannot dispute the gentleman on what he has just said. All that I can dispute with full fervor is the fact that a hope is being held out in this bill, at least by the communications that are coming into the Members of Congress, to every single municipality in the United States from 2,500 population and on up that you do not have to do the job anymore yourself—just sit back there and wait until your turn comes. When will that be I ask?

If you want to see America deteriorate, then do it on that basis that such hopes are being held out to everybody.

I think what we do should be meaningful and that this should be pinpointed and a few cities should be selected to make the demonstration in that way and put enough money in to do it. You know that \$60 million in New York City is probably just going to improve the waterfront in just a few sections of the city and that is one of the things that you are talking about.

Mr. MULTER. Mr. Chairman, will the gentleman yield?

Mr. WIDNALL. I yield to the gentleman.

Mr. MULTER. I think everyone, both in the Congress as well as outside of the Congress, must agree that the gentleman in the well has always been an ardent supporter of the very basic principle that housing throughout the country must be improved on every level.

However, the colloquy between the gentleman from New Jersey now in the well and the gentleman from New Jersey [Mr. CAHILL] leaves me in somewhat of a quandary. I do not know what it is you intend to recommend. Is the gentleman recommending or saying that he will seek to increase the amount if and when he decides that we should go ahead with a program like this? Shall we increase the amount called for by this bill? Or is the gentleman recommending that the 15 percent limitation per State be eliminated? Or is the gentleman recommending both propositions?

Mr. WIDNALL. I was undecided at first as to the money that was being appropriated in this bill. After giving it a great deal of consideration, I think it would be very wise just to have planning money this time and come back the first of next year and do a better job with a fuller understanding of what we can do.

Mr. MULTER. I think the gentleman used the word "appropriation." Of course, the gentleman realizes that there is no appropriation involved in this bill, but it is an authorization bill.

Mr. WIDNALL. Yes; I understand it is an authorization bill.

Mr. DON H. CLAUSEN. Mr. Chairman, will the gentleman yield?

Mr. WIDNALL. I yield to the gentleman from California.

Mr. DON H. CLAUSEN. I want to associate myself with the remarks, the exceptionally fine remarks, of the gentleman from New Jersey. As usual he has expressed himself in a manner that gains the respect of all Members of the House.

I would like to make just a couple of comments and possibly ask a question or two.

First of all, one thing that I have become increasingly disturbed about is the fact that a number of people of the cities, we all recognize, have problems.

Some feel that the Federal Government has to solve all of their problems. There are two levels of government and certainly we must be able to do something about solving these problems as well as the private sector.

So I would like to ask the gentleman in the well if he could elaborate on how much attention was given to what the private sector could do in solving some of these problems in the big cities?

Mr. WIDNALL. We had someone, and this is again testimony before the committee, who testified as to what they had done in specific areas through an enterprise program. I do not believe all of the people who represented the cities were fully in accord with what was proposed in the demonstration city bill. I will say we did not have the time to go into a full investigation of what you have just suggested. It might be wise to do this and probably would be wise to do it.

I am sure we would be receptive to any concrete suggestions.

Mr. DON H. CLAUSEN. The reason I ask the question is I wonder if the committee for instance has an overall inventory of the needs in these various cities. All we hear is that they will need \$10 million or \$50 million. Somewhere along the line there has to be something in the way of a coordinated effort to determine the full needs. It seems to me with what we are getting into here, I would be unable to support housing legislation. Coming from a forest products producing industry and area, I always have in the past whenever it has been possible for me to do so.

Again we have to look at the other problems that could be created. It seems as though this legislation, and particularly title I, and more importantly in title II, we are actually creating problems that will be expanding, something like the war on poverty, where the expectations of people are brought to a high level, and you cannot produce because of the overwhelming need and the fact that the Federal Government has some limitations on itself.

Mr. WIDNALL. I thank the gentleman for his contribution.

Mr. ASHLEY. Mr. Chairman, will the gentleman yield?

Mr. WIDNALL. I yield to the gentleman from Ohio.

Mr. ASHLEY. I wish to inquire of

the gentleman with respect to one or two points that he made.

First, I am interested in the amendment which the gentleman proposes to offer. I would like to make it clear that that amendment, if I understand correctly, does not relate to title I of the bill.

Mr. WIDNALL. I said that it related to title VII.

Mr. ASHLEY. Absolutely, and that is to the section relating to the general urban renewal program. Is that so?

Mr. WIDNALL. That is so. I believe if we are going to make a meaningful attack on the problems of the cities, we have to do so at the same time, it seems to me, through the urban renewal program. There is no excuse for not permitting such a program to go hand in glove and side by side with other programs that concentrate on other needs. I mean those who are attempting to make a real hardnosed attack on the cancerous sores of the big cities that are causing all the problems today, and which we have neglected so long and in so many ways, know that we cannot do this on a part-time basis by developing a new program, and allowing an old program that has proven its value in so many areas and is doing something that is really meaningful for the people that we want to help, to falter.

Urban renewal was not created for the purpose of building high-rise luxury apartments, cultural centers, stadiums, amphitheatres, and all sorts of structures of that kind. But in recent years—and I have the figures from the agency downtown—in the major cities 51 percent to 90 percent of the funds have gone for other than low-income and moderate-income housing.

Mr. ASHLEY. Do I correctly understand that the amendment of the gentleman from New Jersey would provide that where you have an urban renewal project in a residential area—

Mr. WIDNALL. That is correct, for residential purposes.

Mr. ASHLEY. For residential purposes, there would then be required as a condition for approval that there be a substantial number of units of standard housing for low and moderate cost that would serve the poor and those living in slum areas; that is within the project area; is that correct?

Mr. WIDNALL. That is correct, in the project area.

Mr. ASHLEY. I think that is an amendment which is worthy of consideration. I am sorry it was not presented to the committee in that form, because I think it might well have won approval had it been so presented. If I am not mistaken, it was presented but not in that form before the committee. Is my recollection correct?

Mr. WIDNALL. The original one talked about in the committee was not in that form. Then I made an attempt to correct it to satisfy objections that were raised by Congressman REUSS, who I believe is present on the floor at this time, and I hope that this has corrected that objection.

Mr. ASHLEY. The other point I wanted to ask the gentleman about is with regard to comments that have been

made, if not by the gentleman in the well, by those with whom he was having dialog, that this bill holds out hope for cities; if the cities simply sit back believing that all good things will happen to them, the gentleman, who has worked long and hard on the bill, knows that that is not the way of it. Would not the gentleman agree that it has been made abundantly clear that cities in the first instance will have to supply a prospectus, which will be judged with other prospectuses submitted by other cities, before a determination is made as to which cities will even get a portion of the \$12 million first-year planning money?

Mr. WIDNALL. I believe that is true. What you have just said is abundantly true from my own knowledge as to what has been said before the committee. But what has been said from Washington to urge the telegrams, letters, and other things to come in, shows something that is abundantly untrue, because these things have gone out to mayors all over the country urging their support, and I believe even kits have been sent to them showing what is in it for them if they apply in the right way.

Mr. ASHLEY. Would not the gentleman agree that any mayor who took the trouble to read the bill would have a very good and clear idea of the burden that is placed and the initiative and the responsibility that is placed upon the local communities in this demonstration cities program?

Mr. WIDNALL. I would say "Yes." I would also say the same thing otherwise. If the 22 who got in touch with us would read the bill, they would not be as enthusiastic for it as they say in their message to us.

Mr. ASHLEY. Is the gentleman speaking of the 22 top Republican businessmen who support this bill, at least as announced in the New York Times?

Mr. WIDNALL. I did not understand they were Republicans. I remember one, Mr. Watson of IBM, who is a huge contributor to the gentleman's party.

Mr. ASHLEY. Just to our party?

Mr. WIDNALL. I do not know. Some people give to both. I know some others give only to the gentleman's party.

Mr. CAHILL. Mr. Chairman, will the gentleman yield for a question?

Mr. WIDNALL. I yield to my colleague.

Mr. CAHILL. There has been some criticism, perhaps justified, in recent years, the latest of which appeared in the Reader's Digest, to the effect that a great many programs these days are not originated in the legislative sphere of Government but originate with the Executive. I wonder if the gentleman can tell us whether or not the demonstration cities was the brainchild and product of his legislative committee or was something that was the brainchild and product of the executive branch of the Government?

Mr. WIDNALL. As I understand the background of the legislation, it came to us through the executive branch of the Government. It was certainly not something developed originally by our committee or the committee on the Senate side, to the best of my knowledge.

Mr. CAHILL. I thank the gentleman.

(Mr. WIDNALL asked and was given permission to revise and extend his remarks.)

Mr. PATMAN. Mr. Chairman, I yield such time as he may consume to the gentleman from New York [Mr. MULTER].

(Mr. MULTER asked and was given permission to revise and extend his remarks.)

Mr. MULTER. Mr. Chairman, this is a good bill. It deserves our wholehearted support.

The odd thing about this bill is that its biggest trouble seems to be that it is a good idea—not that it is a bad one. That is an interesting way to get into legislative difficulty.

The "trouble" seems to be that the program is so good that many people think it should be much larger, and be backed with more money than the administration has been asking for. They argue that it is a good program, an urgent program, and it should be more fully funded to do the total job that it proposes to do.

As of now, the main thing we are concerned with is getting the program enacted and underway. We must mount this massive attack on the decaying and disadvantaged areas of our cities. We must develop the methods and the means, the new approaches, and the concerted action of all the resources required.

We are not going to do it all at one time. But let us get started. We will talk about expanding the program as our Federal financial situation permits after its value is proven.

Those who oppose this program do not deny that this is a crucial time for the urban areas in which the great majority of our country's people live. At the current population growth, it is estimated that 80 percent of our citizens will live and work in metropolitan areas 35 years from now.

There can be no question of the need to build and plan soundly for future generations.

Let us look at what has been done in the recent past, so that we can see what tools we have and what additional tools we need for removing physical and social decay from our cities.

During the last 30 years the Federal Government has done much in the areas of housing and urban renewal. The Federal Housing Administration has assisted in the purchase of 8 million single-family dwellings, another 6.7 million families were assisted by the Veterans' Administration, some 605,000 families have been moved from decayed dwellings into public housing where they enjoy improved standards of living, far different and much better than the squalid slums in which they formerly lived.

While we can be proud of these accomplishments, we must admit our efforts have not been enough. The surface has been improved but the basic causes of poverty and slums remain.

Even a quick tour of the dilapidated neighborhoods discloses part of the problem. However, only the physical rot can be seen. The other aspects of urban blight—crime, delinquency, disease, lack of community and recreational facilities, unemployment, poor schools, the

transportation problems—are also there with all their human corrosion and despair. These also must be corrected.

A coordinated attack on all these areas through this bill gives new hope and a new tool—a new weapon, if you will—in our war on poverty. The broad attack on the total urban situation under this proposal attacks these interrelated problems.

The wealth of our society has not spread to all. There are 4 million families in our cities who do not have decent housing. There is a great strain on city facilities such as schools and parks, neighborhood centers, sewers—and even water supplies. The metropolitan areas find increasing strain on their budgets.

The enormity of the problem is obvious. It requires an equally large approach as an answer.

There is a definite need to get started in a big way. But there must be an awareness that there is a financial limit to what we can do in any particular time period. The large-scale reclaiming, which must be accomplished, is more than a 1-year or even a 5-year total program.

Nevertheless, we must work with the financial resources we have available. The Vietnam situation is making itself felt in our economy. The inflationary threat is another factor. We can, however, move ahead in a major way if we once get started.

The \$2.3 billion proposed by the President for supplemental demonstration grants would average some \$400 million annually over the first 6 years of the program. This would be in addition to the funds already being channeled into urban programs.

Secretary Weaver has clearly stated that these added funds would not reduce the funds otherwise available for urban renewal, public housing, or other urban aids. They would, in fact, enhance and complement them. They would provide funds for fresh approaches devised by the cities themselves to fill the gaps in existing programs.

No city can lose by this program—many will gain.

As we move forward with the program, the Congress can set such limits on the pace of the effort as it determines to be wise. The Congress can increase funds as it weighs the over-all situation based on both financial conditions and demonstrated needs.

I want to emphasize this is an authorization only. The appropriations must be justified to and approved by the Congress.

The important thing to remember is that it is vital to move forward now. The problems of urban blight and decay do not stand still; they grow. The time to start the attack on them is now with this bill.

It would be illogical to oppose this far-reaching program because some think it is only half a loaf. The funds that would become available under this bill will get the planning of these projects under way. Program funds to execute these plans can be augmented if and when the Congress deems it to be justified.

The rising cost of welfare services, unemployment and crime and declining property values are all of serious concern to all levels of Government—Federal, State, and local.

Cities large and small can participate in the proposed program. The legislation shows an awareness that big cities have no monopoly on blight.

The idea of this approach is a broad-gage attack and includes going after all of the many causes of blight and social failure.

The primary thrust is aimed at the revitalizing of residential neighborhoods. Higher standards of health, community living and education will be brought about. Training will be given those who need it in order to obtain gainful employment.

The Housing and Urban Development Department will be enabled to provide 90 percent of the cost of planning area projects. It will make available grants to meet 80 percent of the administrative costs, and 100 percent of the actual cost of the program activities which are added to on-going Federal aid programs.

This Nation's cities cannot do the job of revitalization alone. Their renewal problems can be worked out only by the concerted use of Federal, State, and local resources, in a combined venture in the spirit of cooperation that President Johnson has called for.

Aid will be given cities of various size in all parts of the country. The knowledge gained from the initial projects will serve as a source from which to draw experience to alleviate problems of the cities engaged in future planning.

It is not enough to recognize the fact of decaying cities. To delay passage until a larger program is budgetarily possible can only result in making more difficult the solution of the problem and in causing greater suffering and misery for millions of Americans.

The central cities are the cores, economically and culturally, of the large metropolitan areas. What they do affects the entire area.

As Secretary Weaver said in testimony before the Subcommittee on Housing of the House Committee on Banking and Currency:

Only with a total commitment of their energies and resources and the desire and will of their people can the American cities stop the deterioration of their physical environment and the social disorientation of large numbers of disadvantaged minority groups concentrated in low-income ghettos.

This bill will not be a substitute for those Federal programs which aid cities now. They will continue, as Secretary Weaver has stated, at their full funded levels. It will aid in coordinating programs, such as urban renewal, mass transit, antipoverty, and health and welfare, for those cities prepared to expand their fields of action.

It will halt the steady reduction of taxable real estate values caused by blight. Attempts by cities to stamp out blight and increase services by themselves are largely self-defeating. Increased local taxes result in an exodus to the suburbs by the more affluent and greater tax bur-

dens on industry cause it to abandon the cities.

This results in the shaping of the city as a residence for those least able to bear the costs of adequate municipal services. It means less income, fewer jobs and more misery.

President Johnson in proposing this legislation said:

We know that cities can stimulate the best in man, and aggravate the worst.

The choice is simple for the Congress—we can choose progress or decay. We can make our cities a testament to our good judgment. Let that judgment be used now, by passage of this bill without any crippling amendments.

Mr. PATMAN. Mr. Chairman, I yield 5 minutes to the gentlewoman from Missouri [Mrs. SULLIVAN].

Mrs. SULLIVAN. Mr. Chairman, the legislation acted upon over the years by the Subcommittee on Housing has made me proud to be a member of that group, but no bill more so than the one now pending before the House containing, under title I, demonstration cities. Our programs in the field of housing and urban development have made a notable contribution to better living conditions as all of us can see in our own hometowns. However, we on the subcommittee know full well that we have not yet found a complete answer to the problems of slum conditions and poverty. If our experience has taught us anything, it is the need for coordinating the many programs which pass through our committee with other Government programs to assure that a complete job is done. If we have the physical rehabilitation of a slum in one part of the city, while another agency is developing an operation Headstart program somewhere else, neither area can obtain the maximum benefit. We cannot expect full value for the dollars spent on education of young children if they must continue to live in squalor nor can we expect full value from the money invested in rehabilitated housing if the people of the neighborhood are still unemployed or the victims of disease. The demonstration cities program will bring these efforts together and I am confident that the experience we are to gain will show us both how to save money in the long run, while at the same time, do a far more effective job of helping the underprivileged.

Mr. Chairman, I regret that there are still those who are seeking to strike the grant money from this title. The bill now before us already represents a substantial reduction from the original administration proposal which had contemplated a total of \$2.3 billion for the demonstration cities program. In the light of recent economic developments and the rising costs of Vietnam, the committee agreed to a reduction of more than half in the dollar authorization. However, it is vital that we keep these funds in the bill. It would be meaningless to vote for a program without indicating our intention to supply the Federal grant money when the cities are ready to use it. In fact, I am confident that this program will fully justify itself

and that further amounts will be authorized by the Congress in the future.

While most of the controversy over this legislation has centered on the demonstration cities program contained in title I, we should not lose sight of the fact that the committee bill extends to nine titles and makes needed improvements in our whole array of housing and urban development laws. I am particularly pleased that the committee accepted an amendment I proposed to allow the use of the existing authorization for 3-percent loan money for homeownership on a trial basis. Under that provision, non-profit corporations would be able to acquire substandard housing in areas which are now blighted, rehabilitate the housing and offer them for sale to low-income families. I know in my own city that this is greatly needed and that plans are well advanced for the use of this authority with every assurance that it will not only benefit those families who can, by this means, achieve the goal of homeownership, but will also revitalize the whole neighborhood for the benefit of others who live there and for the benefit of the city as a whole.

Mr. Chairman, the provisions of the committee bill will benefit every city and town in this country and I urge all of my colleagues to vote for it.

Mr. WIDNALL. Mr. Chairman, at this time I yield 20 minutes to the gentleman from New York [Mr. FINO].

(Mr. FINO asked and was given permission to revise and extend his remarks.)

Mr. FINO. Mr. Chairman, I rise in opposition to the demonstration cities and metropolitan planning bill.

This is the most far-reaching civil rights bill—however carefully disguised—that the White House has ever proposed. Make no mistake about this bill. It talks about cities. It talks about metropolitan area planning. But after all is said and done, this bill is aimed right at the basic fabric of American life. This piece of legislation—this incredible piece of legislation—has been designed to give Housing Secretary Weaver and U.S. Education Commissioner Howe power to draw up a new kind of guidelines to control American metropolitan housing, educational, and living patterns. Through these proposed guidelines, the planners downtown want to reshape this Nation.

If you are in favor of killing the American concept of the neighborhood school, then vote for this bill.

If you want rent supplement housing in every suburb throughout America, then vote for this bill.

If you want scattered-site public housing in every residential neighborhood, then vote for this bill.

If you want Secretary Weaver drawing up civil rights and open housing ordinances in every American city, then vote for this bill.

If you want suburban real property tax structures redesigned to pay for slum schools, then vote for this bill.

If you want zoning and housing code decisions dictated by Washington social

planners, then, by all means, vote for this bill.

Vote for this bill if you think State, city, and county governments are part of a vanishing way of life.

Vote for this bill if you want to put Education Commissioner Howe and Secretary Weaver at the head of the table in every city hall and board of education in this Nation.

But if you are tired of social planners, tired of Howe and Weaver with their talk of racial balance here, racial balance there, racial balance everywhere, then vote against this bill. Vote against this bill if you believe in the neighborhood school. Vote against this bill if you believe in localities having a right to draw up their own civil rights ordinances. Vote against this bill if you think that the time has come to draw the line and stand up to black power.

Yes—black power. I do not make this accusation lightly. This program is a tool of black power. Even the Washington Post has said so. On August 28, a Post reporter, Nicholas Von Hoffman—and I understand he is no conservative—wrote a long and thoughtful article on the failure of Federal programs in San Francisco. In doing his research, Mr. Von Hoffman talked with a Mr. Herman, the San Francisco City Redevelopment Director. Let me read you what Mr. Herman said, and also Mr. Von Hoffman's comments. All this is from the Washington Post of August 28, the year of our Lord, 1966. And I am quoting:

"This is perhaps the first time in the history of our country that the federal government has decided to finance open and overt revolution," Herman declared on a recent visit to Hunters Point. Herman is dicker-ing with the local black power structure over who will control the demonstration cities program to be put into Hunters Point if Congress completes action on the bill that would bring into existence yet one more system of coordination.

I do not doubt for 1 minute that black power all over the country is looking with gleeful anticipation for the day when black power can feed off demonstration cities money. On Tuesday, I wrote to President Johnson and asked him to withdraw his support from demonstration cities, except for planning funds, until such time as the House Un-American Activities Committee, in its forthcoming riot investigation, or the Justice Department, has time to check fully and make sure that black power is not going to ride the demonstration cities gravy train.

I can just imagine what kind of city demonstrations black power has in mind. They will demonstrate how to burn down shops and loot liquor stores. They will demonstrate how to throw Molotov cocktails at police cars. As for cultural activities, probably they will follow in the footsteps of the Black Arts Repertory Theater in New York City, which got some of Sargent Shriver's carefully administered poverty dollars. Last spring, police raided the Black Arts Theater and found a black nationalist arsenal of shotguns, crossbows, and meatcleavers.

Oh, yes, I can imagine the kind of demonstration program black power has in mind. Demonstration conflagration. Demonstration incineration.

I think that we in Congress owe a great debt of gratitude to the Washington Post for exposing the plans of black power. When you consider that the Post article telling us about how black power planned to use demonstration cities appeared on August 28, it is too bad that the Post editorial of October 4 saying that demonstration cities had nothing to do with civil rights was so badly researched. Actually, in one way or another, the Post has been very helpful in bringing out the truth about this bill.

Now, I would like to turn to the specifics of this legislation. This bill is an incredible power grab. I strongly urge you to read it carefully. Because of time, I am only going to concern myself with the first two titles—"Demonstration Cities" and "Metropolitan Planning."

Let me begin with the "demonstration cities" title. The idea of this program is to coordinate all Federal aid programs within a city and demonstrate the progress that can be made by such an integrated approach. In some ways this does not sound like a bad idea. On top of the coordination, the Federal Government is going to pick up an increased percentage of the cost of federally aided projects. This is the candy or the incentive cities are to be given. The Federal bonus money is being dangled to get the cities to play ball. You know and I know that our cities need money so badly that they will agree to almost anything. Besides, our American cities do not really understand the strings that are attached to this money. Those strings are a mile long if you read the bill carefully.

Section 103 of the "demonstration cities" title spells out what our cities will have to agree to in order to get on the demonstration bandwagon.

Listen on section 103(2). Twice in that paragraph, the bill talks about providing "educational services for the disadvantaged" or reducing "educational disadvantages." I have to laugh when I think of the Washington Post editorial that said the demonstration cities program has "nothing to do with schools." Education is also mentioned in sections 101, 103(3), and 105. I am only referring to where it is mentioned by name.

What do you think Secretary Weaver means by "educational services for the disadvantaged?" Do you think he means low water fountains for short children? I have the feeling that Secretary Weaver thinks a lot like U.S. education Commissioner Harold Howe. I mentioned a list of his ideas last week during the busing debate on the school aid bill, I will mention them again.

Let me mention a list of 15 proposals to serve the "educationally disadvantaged" which appeared in the proposed 1967 equal educational opportunity legislation. The list is very interesting. It

tells us what the administration has in mind for demonstration cities. Here are the key programs: school rezoning, textbook revision, pairing or clustering of schools, busing, educational parks, open enrollment, pressure on parochial schools, suburban-inner city pupil exchange.

At this point, I would like to remind the Members of this House that Education Commissioner Howe can already use Federal funds for all kinds of schemes like pupil exchanges, racial rezoning, textbook revision, busing, educational parks and the like. He can give the States money for such experiments under either title I or title III of the Elementary and Secondary Education Act of 1965.

Now, Mr. Chairman, think about this for a moment. Commissioner Howe can give Federal money for busing, pairing, school district rezoning, and all the other racial balance plans if the city in question asks for it. Along comes the demonstration cities program. What does it do? It says this: The Federal Government will raise the ante for highways, transportation, and so forth, providing that the city comes up with a plan that proposes programs to serve the "educationally disadvantaged." In other words, the demonstration cities program is going to be used to make cities ask for money for the busing, pairing, and other schemes which are supposed to be voluntary. As you can see, this bill is going to make busing, pairing, educational parks, textbook revision, and school redistricting about as voluntary as getting up in the morning.

Let us make no mistake about it.

If you vote for this scheme, you are voting for forced—I repeat forced—school busing, pairing, and redistricting. There is nothing you can do to stop it short of killing the program. The whole concept of both title I and title II of this bill is to use Federal bribes in sewer, highway, transportation, and similar programs as part of a package to force cities to plan housing and schools the Weaver-Howe way. Do you like this? I certainly do not.

Lest you have any doubt that education planning is a required condition of participation in the demonstration cities program, listen to what Dr. Weaver himself told our Housing Subcommittee.

There has been mention made time and time again in newspaper articles that I have been talking through my hat. Well, let us read what Mr. Weaver himself told us and this is the testimony he gave before our subcommittee. Many of us have forgotten it because that was back in February.

This is what he said:

The general criteria for a comprehensive city demonstration program require that the program must provide for educational and social services necessary to serve the poor and disadvantaged in the area.

There is no getting around this one. Dr. Weaver has let the cat out of the bag.

When the omnibus bill was before the Banking and Currency Committee in September, I offered an amendment to prohibit busing of students. The social planners downtown, and they had great influence, told the committee that there was no civil rights in the bill, and so the committee turned down my amendment. Now when I look back on this, I must admit that my amendment was no good. No amendment that prohibits the Federal Government from requiring busing is going to work. Why? Because the Federal Government—that is Drs. Howe and Weaver—is going to use a package of Federal aid bonuses to force our cities to draw up plans for busing educational parks and pairing. Then Drs. Howe and Weaver will smile and say “thank you for volunteering.”

So no busing amendment will work. Not only will it not stop busing, but it would not stop pairing, educational parks, school redistricting and all the other schemes in Dr. Howe's “Equal Educational Opportunity Act.” Now that I know about the proposed bill, I know that no mere amendment will work. Only by torpedoing these coercive bonus aid packages will we stop the Government from forcing cities to suggest busing and school rezoning plans of their own.

Let us take section 103(4) of the bill. It says that a demonstration application must show that “substantive laws, regulations and other requirements are, or may be expected to be, consistent with the objectives of the program.” In other words, no American city that does not have an open occupancy statute need apply for demonstration city status. Not unless they want Secretary Weaver to draw up a local fair housing ordinance for them. I support fair housing, but I do not want Secretary Weaver drawing up the local laws. Do you?

You may think I am being unfair to the Secretary. Let me quote his own words. On page 45 of the Housing Subcommittee hearings, Dr. Weaver said:

The physical rebuilding and restoration of our cities should be accompanied by appropriate actions to narrow the housing gap between the poor and disadvantaged and the rest of the community. Nondiscrimination in any housing assisted under a demonstration program is a legal requirement. In some cities, however, the mere requirement of nondiscrimination will not be sufficient to resolve the manifold problems to which rigid, and often longstanding, patterns of housing segregation have given rise. More affirmative action is needed to eliminate these patterns to reduce the squalid concentrations of racial minorities and the economically deprived, and to assure that equal opportunity in the choice of housing will in fact be available to people of every race and income.

It sounds to me like Dr. Weaver has some tough criteria in mind. He has also implied that he will force demonstration cities to redraw their housing codes, zoning codes and tax structures.

Listen to what he says:

Even though a city demonstration program meets the statutory criteria described, other actions may be expected of the city if new Federal aids are to be provided under this legislation. Consideration will be given to the extent and nature of purely local ac-

tions which encourage more rational and efficient urban development. In preparing their demonstration programs, cities will have to—

First, examine their substantive laws to determine the extent to which those laws impede substantial progress in carrying out their demonstration programs and to take appropriate action, if necessary, to make those laws consistent with the objectives of their programs.

In many localities, the structure of real estate taxes, inadequate and often obsolete housing codes and zoning laws, and artificial restraints on building practices retard the prompt and proper development of the city's physical characteristics. Stimulating local efforts to remove these restrictions can be one of the major benefits of the city demonstration program.

Imagine this. Bragging that “stimulating local governments to change” laws to suit Dr. Weaver can be “one of the major benefits of the city demonstration program.”

I imagine that you realize that housing planning is also part of this program. Besides “demonstration racial balance in the schools,” we are also going to have “demonstration rent supplements” and so forth. Dr. Weaver has talked about how rent supplement housing will be pushed under demonstration cities. He mentioned this specifically in his speech before the Americans for Democratic Action convention in Cleveland this past April.

I urge you to support the amendment which will be offered to cut the demonstration cities program back to planning funds for 1967 only.

This will give us time to plan, as the gentleman from New Jersey [Mr. WIDNALL] indicated, a more positive approach. It will give us time to make sure that none of this money is going to black power to fund a demonstration rioting program, as suggested by the Washington Post article.

I would also like to mention briefly the hypocrisy of this administration's efforts to cope with the urban problem. If Senator RIBICOFF is correct, some \$96 billion has been spent on Federal aid programs in urban areas during the last 10 years. Now who are they kidding when they say that \$1 billion in 2 years is going to save our cities? This \$1 billion, in my opinion, is a needless expenditure. It is waste. It is really designed for two purposes: first, to buy Federal control over the cities, and second, if I am to believe the Washington Post, to give working capital to black power.

Now let us turn to the metro planning title of the bill.

At the risk of repeating what many of you already know, I am going to explain the way the metro mechanism works. I find it hard to believe that the social planners even had the nerve to propose this to Congress.

Let us start with section 204 of the bill. This section requires all metropolitan areas of this country to set up a metro planning agency. I call it a metro government. Read the section yourselves. First, Secretary Weaver defines the metropolitan area, and then the metropolitan area sets up a metro government. The reason for this metro gov-

ernment is twofold—first, it is to plan the location, scheduling and financing of all publicly assisted facilities in the metropolitan area; and second, it is to recommend or not recommend all local Federal aid applications on the basis of conformity to federally dictated facilities planning. I do not believe this House will stomach this. For my part, I find the proposal most incredible.

To recapitulate, section 204 calls for the metro government, and requires all local Federal aid applications to be submitted to the metro government for clearance. Then section 205 tells how the metro government will plan the location and financing of every kind of meaningful public facility in the entire metropolitan area—from housing to airports to schools. Section 205 also tells how Federal money will be used for the planning, just in case anybody gets any ideas that local autonomy exists.

Mr. Chairman, these metro governments are going to be L.B.J.'s local field headquarters. He and Dr. Weaver will run the country through these metro governments.

The CHAIRMAN. The time of the gentleman from New York has expired.

The Chair might point out that the gentlemen from New Jersey has consumed now 85 minutes, and the gentleman from Texas has consumed only 18 minutes. This may not impress the gentleman, but it impresses the Chair.

Mr. WIDNALL. Mr. Chairman, may I answer the Chair by saying there are some people here who really would like to speak on this legislation as fully as possible. I do not want to deny them—and I am sure no other Member of the House wants to deny them—that opportunity.

I do not understand why the other side does not have more who are interested in speaking on this very important legislation.

Mr. BARRETT. Mr. Chairman, will the gentleman yield?

Mr. WIDNALL. I yield to the gentleman.

Mr. BARRETT. I believe we ought to give the gentleman another 5 minutes.

Mr. WIDNALL. I yield the gentleman another 10 minutes.

The CHAIRMAN. The gentleman from New York is recognized for an additional 10 minutes.

Mr. FINO. Mr. Chairman, I should like to repeat that, because it sounds so very nice.

These metro governments are going to be L.B.J.'s local field headquarters. He and Dr. Weaver will run the country through these metro governments. Forget about States. Only the people who make roadmaps will care about States. Governors and mayors will give way to Federal commissars. Local tax boards of assessors might as well fold up. The metro government will control the tax structure. The citizens of a suburb will have their taxes raised to pay for an educational park to be built to serve a slum and suburban mixture. If you do not believe me, read section 205, and think about what the language means—“location, scheduling and financing of any publicly assisted facility.”

As I mentioned earlier, any community in the metropolitan area will be required to make application for Federal aid through the metro government when it applies for aid in 10 programs, ranging from sewer aid to highway aid. Read section 204. It tells how the metro government will judge these requests on the basis of conformity to its metrowide planning. In other words, if Scarsdale or Winnetka, Beverly Hills, or Cedarhurst do not plan their schools and housing to conform with the way the social planners want to spread the inhabitants of the central city around the suburbs, then they will not get sewer money—they will not get highway money. The whole key to the metro concept is that it uses a metropolitanwide aid package to control suburban planning. There is nothing you can do to make it safe.

I think it is interesting to talk about the origins of this tricky little scheme. According to L.B.J.—and for the benefit of those who do not know what L.B.J. stands for, that is the President, Lyndon B. Johnson—according to L.B.J., it was drawn up by some blueribbon panel. A question was asked earlier here about who prepared this legislation. I will assure you of one thing. We did not prepare it. The President told us it was prepared and drawn by some blueribbon panel, but that is not the way the tricky language was drawn up. Not at all. The principal architects of this bill—not the committee, because I am a member of this committee and all of these gentlemen on the floor are, most of them, members of the committee—we got the bill. This bill was prepared by the social planners of Washington. The principal architects of this bill are Secretary Weaver, and two of his aids, Under Secretary Wood, from the Massachusetts Institute of Technology, and Assistant Secretary Haar, from the Harvard Law School. Three very smart men.

This bill was designed with tender loving care to be all but unreadable, and the slickest part of all is the metro title. It is more confusing than the catacombs. It was designed to sneak through a rubberstamp Congress unread, unfathomed, and unquestioned.

I should add at this point that the way the metro government allegedly induces acceptance of its planning is by giving out bonus grants. This everybody admits. Plan the Federal way and you get a bonus grant. What they do not admit is the other side of the coin. If you do not plan the Federal way, if you do not follow their advice and suggestions and adopt them, you just lose the bonus and you get nothing. Not only that, not only do you lose the bonus, but you also lose the Federal aid which ordinarily would have come to you if we did not have this mess in front of us.

Obviously, you have to conform to metro planning to get any Federal grant. Who seriously expects anything else from Harold Howe, the U.S. Commissioner of Education, and Robert Weaver, the Secretary of the Department of Housing and Urban Development, and their new artificial integration zebra-colored guidelines for America?

Mr. Chairman, during the course of my fight against this bill, I have been smeared—by the Washington Post, for example. It has been implied that I am against civil rights. This is an unfortunate thing. I have supported all civil rights measures, including this year's open housing.

What I am against is something that has gone too far—privileges, not rights. And what is worse, a kind of privilege that threatens to undermine the American social and political fabric of local government and neighborhood schools. The time has come to draw the line. I do not mind being the one to try and draw it.

Let me return to the metro title again. Think about what metro means. It means that metro governments will be planning housing, local financing, and education, to say nothing of zoning and housing codes for the whole metropolitan area. They will use this power to plan educational facilities mixing the slums and suburbs at the expense of the suburbs. They will use this power to put rent supplement housing in communities that now have an option to refuse it. This will undermine the Appropriations Committee's local option rider to keep rent supplement housing from being forced on suburbs. Dr. Weaver has said that both housing and relocation must be planned metrowide.

If you have any doubts about metrowide school planning, let me take care of those doubts. The language of the bill provides that all publicly assisted facilities, whether or not federally assisted must be dealt with in metro planning. This clearly includes schools. They are publicly assisted facilities. Even parochial schools will have to clear their location with the metro government. I would imagine, if they get Federal or State help for libraries and laboratory equipment. That would make them publicly assisted facilities. You may have wondered why our Nation's parochial schools were influenced to conduct a nationwide racial census. Now you know.

I can well understand why Dr. Weaver does not want to discuss the educational planning that would come under metro. But he did let the cat out of the bag before our committee. On pages 52–53 of the hearings, he said, in a statement, that education was one of the things that had to be planned on a metropolitan areawide basis before bonus grants would be given.

The Office of Education has been even more blunt. In the Equal Educational Opportunity Act, the planners talk about educational parks being an important part of metropolitanwide planning. They specifically refer to the metro title of the bill before us.

Harold Howe, the Commissioner of Education, has been quite outspoken about metro school planning. Back in May, he said that the new Department of Housing and Urban Development was a "new Federal tool to help education in the attack on de facto segregation." Presumably, he meant this bill. According to the Washington Post, Howe said in a recent speech:

Altering political boundaries or consolidating the educational facilities of a large city would involve major organizational changes—major educational surgery. But I believe that major surgery is required if we are to liberate the children of the slums.

These are Howe's words.

I hope the Members of this House will take Mr. Howe seriously. He means all this about educational surgery to liberate the children of the slums.

Let me read you another Howe quote:

Traditional school boundaries often serve education badly and may have to be changed. New York and New Jersey surrendered state prerogatives to the Port of New York Authority in the interests of improved transportation. If we can make such concessions for transportation, I suggest we can make them for education. We could, for example, alter political boundaries to bring the social, economic and intellectual strengths of the suburbs to bear on the problem of city schools.

As you will note, the Commissioner is just crazy about the metro school idea. You can be sure he will use metro planning to the hilt.

When he testified before the Rules Committee 2 weeks ago, he admitted that his office was studying a lot of plans like rezoning, educational parks, pupil exchange, busing, and so forth.

Then he admitted that the metro planning title of this bill would give communities a real incentive—an understatement if I ever heard one—an incentive plan education on a metrowide basis.

This June, the metro idea was praised by a White House conference including the headmen of all the black power organizations. Let me quote the Washington Post—that great source of information—on why the omnibus housing bill is a big piece of trickery.

Here are the words of the Post:

Essentially, the idea is that the federal government must provide the lever for Negroes to crack the suburbs.

The way to do it? Put all the federal funds for housing, school, anti-poverty programs into one bag. To get the money, local officials would be required to draw up plans on a metropolitanwide basis.

Suburbs would be asked to build scattered low-income housing and work out area-wide plans for school integration.

This is a quote from the July 3 Washington Post article on the White House Conference "To Fulfill These Rights." This conference was attended by the black power leaders of SNICK and CORE, including Floyd McKissack and John Lewis, the predecessor of Stokely Carmichael. The metro idea comes highly recommended. Black power is all for it.

At the proper time, I am going to offer an amendment to kill the metro title. I understand that a secret fan of the metro plan will offer an antibusing amendment to try and undermine my amendment to strike. This antibusing amendment will be a joke. I offered an antibusing amendment in committee, and the administration said it was not relevant. I have come to agree. An antibusing amendment is pointless. It does not do anything. Federal dollars are not to be directly used for educa-

tional scheming. Federal funds in other programs are going to be used to bribe—or effectively coerce—local communities to set up busing schemes or educational parks, via the metro mechanism. I thought an amendment might work before I discovered the truth about metro and about the "Equal Educational Opportunity Act." Now I know that no amendment can clean up metro. The social planners' ambitions for it are just too great.

The whole metro idea pivots on a metrogovernment armed with planning power and the ability to block Federal aid from going to any community that does not subscribe to Federal metroplanning standards. How can you clean up something like that? It is like a rotten tree. You do not bother pruning limbs. You chop it down. That is the only way to deal with metro. Chop it down. If this title is enacted, you will quickly see metrowide school and housing plans being drawn up, which communities will have to accept or else lose Federal aid in a lot of airports and sewer programs.

This we do not need. We do not need metro. As a matter of fact, there is not much of this bill we do need. I would like to close by briefly noting section 911 of this bill. Secretary Weaver and his friends call it the "urban environmental studies" section. You really ought to read this one. It lets Dr. Weaver send teams of experts into urban areas at fees of \$100 per day per person. I imagine the type consultants the Secretary will send in will have good backgrounds in politics. Who knows? They may be doing district profiles for congressional candidates.

So I hope that you will add this boondoggle to the list of programs in this bill that should be scrapped. There are many. Title I, title II, title IV—the \$100-per-day snoopers—all of this. Read the bill carefully. Then you will know why I am opposed to it.

(Mr. MINISH asked and was given permission to extend his remarks at this point in the RECORD.)

Mr. MINISH. Mr. Chairman, I rise to support the demonstration cities and metropolitan development legislation now before us.

Not even a nation as rich as the United States of America can afford the cost of maintaining the blight which scars our urban centers.

Not even a nation as rich as we can afford the burden of millions upon millions of hopeless, jobless, untrained, bitter citizens, who live in our cities' centers.

Not even a nation that has produced entire new technologies, almost at the snap of finger, can hope to stumble its way into providing for the enormous urban growth which will come to pass in the next 30 years.

History judges the nations of the past by their cities—and indeed—it does so today.

By such a yardstick, our cities give us a sorry measure.

Our cities represent an incomprehensibly astronomical investment—three centuries of money and dreams, of the

hopes and toil of millions of people have gone into their building.

Yet—today—over the face of the land—those cities are blighted at their cores, and ringed in by wildweed growths of suburbs.

Our cities are our vital aortas, and we must realize that practically every single large city in the land may quite literally burst wide open, and place our national health in jeopardy.

The cities of my State are a case in point.

In Newark and Trenton, substandard housing represent 8 percent of available units.

In Jersey City almost 15 percent of our total occupied housing is substandard.

These cities are vital to the well-being of New Jersey. Yet, in each of them, we wrestle with the problems of central blight and slums, with angry and discontented people and with the compounding problems of an uncoordinated suburban growth.

To solve our problems, we must have Federal help. Neither the State nor the cities concerned can pay for tackling the total problem, in all of its related aspects.

This State of affairs did not come into being overnight.

Our urban dislocations—and the dislocation of the people who live in these areas—have grown progressively worse for the past 50 years.

We have not kept pace with urban needs. Good intentions and piecemeal efforts have been inadequate. Now we are being called upon to pay the piper.

We must take whatever steps are necessary to provide for a rational and related urban growth, that will meet our present and future urban needs.

Our slums, and the people in them, must be helped now. Our area planners need help in coordinating the growth of our suburbs. And—without any further delay—we must begin to build the urban facilities which will be needed by the additional 100 million people who will live in our metropolitan centers within the next 30 years.

Now, let me comment about money.

The subcommittee has cut this demonstration city budget to a bare \$900 million, and has recommended that the program operate for a 2-year period.

I would have preferred that the budget not have been cut at all, and that the program should have been granted the 6-year life proposed in the original bill.

Skimpy as the budget is to the total need, it will enable a reasonable start on the job at hand.

It does provide reasonable time for those cities who will require its assistance to develop their plans and to enlist the supports they must have to put their programs into being.

I consider it obvious that we cannot continue to rely on our one-problem, one-solution approach to the intricacies of urban growth. The sad conditions of our cities today is proof that this method is appallingly inadequate.

For the first time in my experience, we have been given an urban assistance bill which provides for programs that will en-

able our cities to grasp their total problem, in a related and cogent fashion to assess that problem in all of its aspects; and, to plan and program for its solution, with the full sweep of existing grant-in-aid programs upon which to draw.

This bill provides for the coordinate and compact use of already tested methods. In the main, it will use moneys already funded. It provides solid protection against wasteful overlaps in time, energy, and money.

This is crucial legislation—a vigorous, new approach to problems now nationwide—too long ignored by us and by our cities.

Neither a community or a nation can isolate itself. What is good or bad for individuals or groups is good or bad for the society they compose.

Passage of this act will be a positive step toward the prosperous, democratic and peaceful great society we all desire. To deny it, would be a backward and a disastrous step in a forward-moving age.

It seems to me to be a most reasonable program for attacking our city problems. Therefore, I urge its speedy passage.

Mr. PATMAN. Mr. Chairman, I desire to yield to the fine, able, and distinguished gentleman from Pennsylvania, the gentleman who is chairman of the Subcommittee on Housing of the Committee on Banking and Currency. He is entitled to more credit for this bill than any other Member of the House.

I yield to the Honorable BILL BARRETT of Pennsylvania 20 minutes.

Mr. BARRETT. Mr. Chairman, I am going to take this opportunity to pay my respects to the minority leader here of the committee, Congressman WIDNALL, and I certainly want to thank my very dear and close friend, BILL CAHILL, for the comments that these gentlemen made here this afternoon.

I am quite an admirer of the gentleman who just preceded me. I do want to make an open confession because I am not as wealthy as either one of these three gentlemen, but there is one thing I have, and I have in abundance, and that is love and affection for each of them. This, of course, would never change, regardless of any debate in which we entered.

So I want to say my love and affection is very deep for the previous speaker, because in my remarks I may not altogether agree with what the gentleman has said.

Mr. Chairman, the demonstration cities program is one of the most crucial and critical proposals ever laid before the Congress. I have lived and breathed and slept with this great bill for 10 long and arduous months. The Housing Subcommittee and the full Banking and Currency Committee have devoted a tremendous amount of time to this legislation because we recognize that it offers a ray of hope for the critical problems which confront urban America.

This is a big bill with many important provisions but I am going to talk about the heart of the bill.

Title I, the demonstration cities program, recognizes what all of us on this

floor know. We know that existing Federal aid programs, however successful they may have been in solving specific problems, have not fully come to grips with the grave problems of our cities. This bill seeks to provide the answer. While on the surface the demonstration cities proposal seems to be a complex idea, its concept is essentially simple and straightforward. It tells the cities of our land, both large and small, that they will have very substantial Federal aid in helping them to rebuild and rehabilitate their blighted and rundown areas. It will give them the means, not only for physical rejuvenation, but also for the social and human rehabilitation of large slum neighborhoods.

Here is how it would work. Once an area to be rehabilitated has been selected by local government—and let me emphasize by local and not the Federal Government—a demonstration cities program would use the whole array of existing Federal programs, such as urban renewal, water and sewer, mass transit, vocational training, and war on poverty programs. And then, in addition to those aids, the Department of Housing and Urban Development would be authorized to make an additional grant to the city to be used for any worthwhile program in connection with the demonstration project. This supplemental grant could be used either for entirely new projects which receive no other Federal assistance or could be used to help meet the city's share of regular Federal projects. In effect, Mr. Chairman, it would give our cities and towns the financial muscle to do everything possible to rehabilitate these areas and to improve the environment and the life of the people who live there.

The administration originally proposed a 5-year program calling for \$2.3 billion in supplemental demonstration cities grant funds. The Senate-passed bill contemplates a 2-year program and authorizes \$900 million. And that is what our committee adopted in the bill before us.

In this fiscal year, as well as in the next, the bill would authorize \$12 million to get our cities and towns to begin the necessary planning. The first actual grant authorization would be \$400 million next fiscal year and \$500 million in fiscal 1969. Thus, the immediate budget impact would be only the first year's \$12 million planning.

Because some people feared that the demonstration cities program would drain funds away from the existing urban renewal authorization, our bill provides an additional \$250 million in urban renewal grant funds to be used for projects included in the demonstration cities program.

Mr. Chairman, this is a compassionate and imaginative new program. I know firsthand the problems of the disadvantaged people in our cities and our colleagues know of the despair and misery which they must undergo in their daily life. The demonstration cities proposal is the branch of hope which we can offer to them. It is a program of unlimited potential for good. I pray that the over-

whelming majority of our colleagues on both sides of the aisle will recognize that it is our duty to send this great legislative proposal to the President so that he can put it to work toward the salvation of our cities and the people who live in them.

As a supplement to the demonstration cities program, the bill contains in title II a new incentive supplemental grant program to help our cities and suburbs cope with the growth pains which are afflicting our rapidly expanding metropolitan areas. Mr. Chairman, all of our colleagues know that because of overlapping jurisdictions and the complexity of local problems, that the growth of our metropolitan areas is far from orderly. And we know further that our metropolitan areas are finding extreme difficulty in supplying the facilities needed by rapidly growing communities.

Put simply, title II would give supplemental grants up to 20 percent of the cost on top of existing Federal grant programs for water and sewer systems, airports, transportation, open space programs and the like. It would offer these grants to encourage intelligent and rational metropolitan planning and development so that all local jurisdictions would benefit. This title would not affect any of the existing programs; it would simply add the 20-percent grant incentive on top of them if the metropolitan area met the planning standards in the title.

Mr. Chairman, for reasons I find hard to understand, there are those who oppose this essential new program. But, Mr. Chairman, they do not oppose it on its merits. They do not argue that this type of aid is not desperately needed by our metropolitan areas. They attempt to confuse the issue by implying that somehow, this new Federal aid would be used to bludgeon cities into busing schoolchildren or into the arbitrary redrawing of school districts.

Mr. Chairman, I submit this as one of the reddest herrings ever dragged in the path of a legislative proposal. There is nothing in this program that has anything remotely to do with the busing of schoolchildren. There is nothing remotely in the bill that requires any community to abandon or alter the school system or to redraw the boundary of its school districts. There is nothing in the bill that requires any community to take any action concerning racial balance or racial imbalance in its schools.

Mr. Chairman, this is a false issue raised with the single purpose of defeating the program and I ask my colleagues not to be deceived.

There are other very important and desirable provisions in the bill before us. I will not discuss them in detail. They are all clearly described in the committee report and will be developed in the subsequent debate. You will become thoroughly familiar with them and their merits.

Mr. Chairman, this is a great bill and one in keeping with the exciting challenges of our time. Our cities and towns need this legislation desperately. They need it not only to cope with their present critical situation, but also to

prepare them for the accelerated urban growth which lies ahead. It will produce better housing, better cities and suburbs, and more basically—better citizens and a better America. Let us send it to the President without delay.

Mr. PATMAN. Mr. Chairman, I yield 15 minutes to the gentleman from Wisconsin [Mr. REUSS].

(Mr. REUSS asked and was given permission to revise and extend his remarks.)

Mr. REUSS. Mr. Chairman, this bill tries to come to grips with the appalling problems of our cities. The demonstration cities title would provide the incentive to our cities to rebuild and restore entire neighborhoods of slum and blight. The metropolitan planning title would aid States and localities to provide metropolitanwide comprehensive planning. The new towns title would extend FHA insurance to land developers willing to create whole new communities.

I would have hoped that this dynamic attack on the problems of our cities could have had bipartisan support. But as the debate so far shows, the Democrats are for the bill, the Republicans against. I am old-fashioned enough, however, to believe that floor debate can persuade, and change a nay vote into a yea vote. So, as I turn to the minority side, I try to find words so eloquent that they will change men's minds. I think I have found such words.

Listen to this description of the need for the pending bill:

The cities of America are faced with a major crisis. Crime is increasing. The slums and blighted areas demand immediate attention. Public transportation must be expanded and improved and, all too often, the educational and social services have not kept pace with the growing population. At the same time, the taxes collected by the cities have proved inadequate as urban blight has struck at the property tax base. And many in the upper and middle-income groups who formerly provided leadership and stability have moved to the suburbs, leaving behind those most in need of public services and least able to afford the taxes to support those services.

Could we find a better description of the basic needs of our cities?

Now let us look at the specific problem of our slums at which the demonstration cities program is aimed:

The hard core of present-day poverty consists of city people who dwell outside our affluent, high-education society. Compared to them, the unemployed coal miners in the hollows of West Virginia or the submarginal farmers of Appalachia are a mopping-up operation.

And now some eloquent words which point the need for metropolitan planning:

The Metropolitan issues will not disappear, they will only intensify. If they look impossibly complicated today, and we fail to do something about them, they will look far worse next year. We cannot turn away from them.

If a political party wishes to stay in the game of politics, it must tackle the public problems affecting the most persons. And those problems, today and tomorrow, are centered in the American metropolis.

And finally, here's the case for new towns, succinctly put:

The buildup of suburban areas continues unabated. This is where the majority of American voters—particularly the young ones—expect to live. Thus it is a better answer to plan and develop whole communities—new towns—shaped, defined, protected, and served by systems of transportation over which people easily flow to their multiple destinations.

Have I been as eloquent as I hoped to be? Have I helped to sway Republican votes? I would have been proud to have written these words, but they are not mine. The first quotation is from the House Republican policy committee, issued just the other day. And the rest of the quotations are from the Senate Republican policy committee, put into the CONGRESSIONAL RECORD last August 29 by no less than the senior Senator from Iowa [Mr. HICKENLOOPER].

So I say to the minority, would not you reconsider your opposition? Would not you ponder your own words? Would not you cast a vote for this bill to attack the problems of our cities? Who will be the first convert? Who will make this decision, and declare himself?

Mr. MOORHEAD. Mr. Chairman, will the gentleman yield?

Mr. REUSS. I yield to my colleague from Pennsylvania.

Mr. MOORHEAD. Would the gentleman repeat the source of those quotations? I was listening with great attention to the words he said, but I could not believe what he said as to the authorship of them.

Mr. REUSS. They are beautiful words, wonderful words, and they all came from the Senate and House Republican Committees. In fact, when Senator HICKENLOOPER inserted them on August 29 into the CONGRESSIONAL RECORD he said:

This statement is as beneficial, I believe, to the Democrats as it is to the Republicans.

May I say, never were truer words spoken. So I say to the minority, will you not reconsider your opposition? Will you not ponder the words you have heard and perhaps cast a vote for this bill? If there is a convert on the minority side, I will be delighted to yield to him if he wants to make his decision and declare himself right now.

Hearing none, Mr. Chairman, I now yield to my colleague from New York [Mr. SCHEUER].

Mr. SCHEUER. Mr. Chairman, I would like to ask my distinguished colleague from Wisconsin whether, in view of the deep interest that this Congress has taken in the field of urban environment and design as exemplified in the provisions of the Elementary and Secondary Education Act mandating excellence of architecture and design in all federally assisted school construction, and the Arts and Humanities Act providing for planning studies on the urban environment and the urban plan, and the Highway Beautification Act, this bill before us has anything to say about the excellence of design in the urban environment?

Mr. REUSS. It says, I am glad to answer the gentleman from New York, a great deal about design. The demonstration cities title, section 103(b)(3), re-

quires that the Secretary encourage demonstration projects to help neighborhoods apply a high standard of design. The metropolitan planning section and new towns section also require good design, and section 911, which is the urban environmental studies research section, also stresses design concepts. So you might say that the idea of design is written throughout the entire bill.

Mr. SCHEUER. Do these sections you have referred to, or other language in the bill, refer only to new programs prospectively, or do they apply to the current housing programs that are now in existence? In other words, is there anything that Congress can do to stimulate better design and higher quality in our urban environment, both as to current, and new, programs?

Mr. REUSS. I think the provisions I have just read apply not only to prospective programs but to the existing programs, such as public housing, moderate income housing and urban renewal, now on our books, and the purpose, as I have said, is to encourage excellence in architecture and design across the board in all of our housing programs.

Mr. BARRETT. Mr. Chairman, will the gentleman yield?

Mr. REUSS. I yield to the gentleman from Pennsylvania.

Mr. BARRETT. Is the gentleman not pointing out a special design in the demonstration city for low and moderate and higher-level income housing, housing in the housing structure in order to take care of everyone?

Mr. REUSS. Mr. Chairman, I would agree with the distinguished gentleman from Pennsylvania [Mr. BARRETT]. In fact, all of our experience over the years has indicated that buildings and projects which conform to good architectural design, are the easiest and most economical to maintain.

And, incidentally, in the case of housing developments and schools, good design results in a markedly lower rate of vandalism. I would say good design applies throughout the entire spectrum of city development.

Mr. SCHEUER. Mr. Chairman, will the gentleman yield further?

Mr. REUSS. I yield further to the gentleman from New York.

Mr. SCHEUER. Is it the intent of Congress that all housing and urban renewal programs, both those currently in effect and those prospectively to come into being, will stress quality and excellence in architecture and design?

Mr. REUSS. I believe the gentleman from New York is exactly right. I believe that the General Accounting Office has been mistaken in its criticism of design, where particular projects were built within cost limitations established by Congress.

I recall, for instance, a case out in Marin City, Calif. where one housing project won several national design awards but was criticized by the GAO, also projects in Tennessee and in Hawaii, where the GAO criticized the projects, because they included screening of garbage cans with cinderblock construction, even though all of these projects were

well within applicable Federal cost limitations.

Mr. Chairman, this seemed to me to miss the entire point, especially with reference to a low-income project where garbage would be screened through a low-cost camouflage system, which it seems to me is better economy in the long run.

Mr. Chairman, that is the general concept which is written into this bill.

Mr. SCHEUER. Mr. Chairman, if the gentleman will yield further, on the question of good design and amenities, would it be the intent of this Congress that officials of HUD and the General Accounting Office should actually encourage local housing authorities and private developers of moderate income housing, along with their architects, to use all possible ingenuity, resourcefulness and inventiveness to achieve excellence of architecture design, and amenities, so long as the housing is constructed within the appropriate federally established cost limitations?

Mr. REUSS. It is certainly the intention of the committee insofar as I can determine, and we would expect the executive branch to follow out the general philosophy expressed therein.

Mr. SCHEUER. In other words, it would be the congressional intent that all housing built with Federal assistance should provide not only good shelter for the people living there, but also a positive environmental influence upon the surrounding neighborhood, the kind of influence stemming from fine architecture and design, exciting in form and color, that will fortify and support the local tax values as well as local neighborhood attractiveness and stability so that this would represent good economics as well as good environmental planning and design?

Mr. REUSS. Mr. Chairman, I agree with the gentleman from New York.

Mr. SCHEUER. I thank my distinguished colleague from Wisconsin, for yielding.

Mr. FRASER. Mr. Chairman, will the gentleman yield?

Mr. REUSS. I yield to the gentleman from Minnesota.

Mr. FRASER. Mr. Chairman, I want to say to the gentleman from Wisconsin [Mr. REUSS], that I heard the latter part of the gentleman's statement and I want to commend him for it. I believe the gentleman was bringing to the attention of the committee the fact that statements that have been made by our Republican colleagues and I feel that this represents a very useful contribution. Mr. Chairman, I was out of the Chamber briefly earlier, and I did not know if the gentleman from Wisconsin had had an opportunity to react to many of the comments made by the gentleman from New York [Mr. FINO].

But I want to say to the gentleman from Wisconsin, and then ask a question, that I tried to follow the statement of the gentleman from New York.

I have listened to the gentleman's statement on the floor, and I have looked at the various sections of the bill to which the gentleman has referred, and

I have been not only unable to find anything in there to sustain the claim of the gentleman from New York [Mr. FINO], that there was some kind of plan of forced integration involved in or implied in this legislation.

As I again look at these sections it seems to me that what is being asked is that the communities make an effort to improve educational services to the poor. I cannot conceive of a more worthy objective. I wonder if the gentleman has any opinion as to how the racial issue comes to be injected in this discussion of the bill at this time, when a reading of the bill, even while following the statements of the gentleman from New York, did not seem to sustain any of the claims which he makes.

Mr. REUSS. I agree with the gentleman. I read the bill closely and participated in its formulation, and there is not a syllable or a half syllable in the bill which gives any justification whatever for the contention that the Federal Administrator under the bill could impose any requirement of busing. Where the gentleman from New York received that idea I cannot imagine. Maybe somebody told him it was an omnibus bill, and that somehow led him into this busing fixation.

But you can read the bill from one end to the other and there is not a suggestion anywhere that any such power would be given to the Administrator.

I will state here now, without any equivocation whatever, that this bill does not permit the Secretary of HUD or any other Federal official to condition his aid under the bill upon whether or not the community indulges in busing. Equally, if within the free decision of a local community, the community takes steps to achieve a fair and fuller integration of its students, this, of course, in no way disadvantages the city. But the subject of busing and other methods of school integration is completely absent from the bill.

Mr. FRASER. Mr. Chairman, if the gentleman will yield further?

Mr. REUSS. I yield to the gentleman.

Mr. FRASER. As I understand it, then, the individual local community has complete freedom in attempting to improve the level of education for its children. It is my impression that this is the same purpose that we sought to obtain in other legislation which this body has passed.

I wonder if the gentleman cares to speculate on why there has been this effort made to inject the racial issue into the consideration of this bill? I can conceive of two reasons, one is that there is belief among some people and politicians that there is a so-called backlash attitude which they might take advantage of, and were looking for a vehicle in which to sponsor the issue. Or it may be that they thought by attaching the racial issue to this bill they could defeat the bill, because that was their primary objective, rather than simply attempt to create a political issue, perhaps?

Mr. REUSS. I am prohibited by the rules of this House, and by my own delicacy, from indulging in that kind of speculation.

Mr. FRASER. I thank the gentleman. I am glad that he can support my impression of the bill that this was entirely a phoney issue that has been injected.

The CHAIRMAN. The time of the gentleman from Wisconsin has expired.

Mr. PATMAN. Mr. Chairman, I yield 2 additional minutes to the gentleman from Wisconsin.

Mr. SCHEUER. Mr. Chairman, will the gentleman yield for a unanimous consent request?

Mr. REUSS. I yield to the gentleman.

Mr. SCHEUER. Some moments ago our colleague from New York made reference to a charge against the redevelopment director of the city of San Francisco, Mr. Justin Herman. I have known Mr. Herman professionally over a period of almost 15 years. I find it inconceivable that he could have been involved in the kind of activity which was depicted. He is a wise, prudent, thoughtful and moderate individual. I find the charges totally incredible on their face transparently unworthy of belief. I submit for the RECORD at this point a telegram from Mr. Herman to HUD Secretary Robert C. Weaver.

The material referred to follows:

SAN FRANCISCO, CALIF.,

October 15, 1966.

Dr. ROBERT C. WEAVER,
Secretary, Department of Housing and Urban
Development, Washington, D.C.:

Charges by Nicholas Von Hoffman in the Washington Post of August 28, 1966, that I am dickering with black power to see who will control the demonstration cities program are absolutely without foundation. Mr. Von Hoffman's attributing the constructive work now going on collaboratively between the residents of the Hunters Point area and this agency as negotiations for control are so ridiculous as to be humorous if they were not dealing with the lives and welfare of responsible citizens of Hunters Point who want to change their area from a bitter slum into a decent community for themselves and their children. These people believe in the renewal efforts that are started and they have spoken out for the larger benefits of the demonstration cities program.

They are not negotiating with me for any so-called control nor are they establishing any conditions in their collaborative work as to the control of the demonstration cities program as it may emerge after congressional action. The Hunters Point group who are working with us and also supporting demonstration cities are made of both Negro and white leaders. If there are any quote black power unquote advocates in this group they have certainly been successful in hiding that fact. Further, I am certain that the attitude of the group is that it is unfortunate that the demonstration cities program cannot be realized sooner and on a broader basis than is likely to be the case.

M. JUSTIN HERMAN,
Executive Director.

Mr. BROCK. Mr. Chairman, will the gentleman yield?

Mr. REUSS. I yield to the gentleman from Tennessee.

Mr. BROCK. Mr. Chairman, I might point out, when we are talking about education, and the points that the gentleman raised here, that Secretary Weaver testified before the committee as to the planned program, that the plan of action included education. And when Commissioner Howe was before the committee he testified as follows:

Mr. ANDERSON. Would you concede, Mr. Howe, that the language of this metro planning title—and I assume that you are familiar with it—would you concede that the language of that title and the goals that have been outlined by Secretary Weaver with respect to this bill are very similar to some remarks that are published as having been made by you in a speech at Columbia University? I think that was on the 3d of May of this year?

Let me quote just a couple of sentences from that speech. In that speech—at least as I have it recorded—you said that—

"The busing of pupils to create racial balance is highly controversial, but must be conceded to be helpful in some situations."

And then to quote a little further from the speech you said that—

"The pending programs for the future should be planned so that new schools break up rather than continue segregation. The Office of Education will provide Federal planning funds for such efforts right now and if I have my say about it we will provide construction funds before long—"

And then I call your particular attention to this sentence:

"Moreover, with the creation of the new Department of Housing and Urban Development, there is a new Federal tool to help education in the attack on de facto segregation."

Those were quotes from the speech which you made at Columbia. Wouldn't you agree that the section of this bill that I have just referred to and your thoughts as I have read them here are pretty much in harmony?

Mr. HOWE. I certainly would agree.

Mr. REUSS. Let me answer that one, because this needs to be nailed down now once and for all.

Of course, the bill before us contains the word "education." Of course, in the planning of any city demonstration project, we would want and we would expect the local people to take into account the fact that there are kids in these slum areas, and that the kids ought to go to school, and that they plan good schools for them. But that has nothing to do with bussing or integration or anything of the sort.

All that Mr. Weaver is saying is that educational planning is a part of total planning. Now who can object to that?

As for Mr. Howe, he was not a witness before our committee, and I have been hearing hearsay on hearsay on hearsay about what Mr. Howe said. But what he said relates not to this bill, but to some gleam in somebody's eye about some bill that someday might come before this House. When it does, then we can debate, with relevance to the matter then under discussion, this issue of bussing. But it has no part in the debate today.

Mr. BROCK. I might point out that he was specifically asked about this metro title of this particular bill.

Mr. REUSS. Yes, on the hypothesis that we had in existence a law to compel bussing. If we had in existence a law compelling bussing, then I suppose that could be part of the demonstration city program. But the short answer is: We do not have a law compelling bussing.

The CHAIRMAN. The time of the gentleman has expired.

(Mr. FEIGHAN asked and was given permission to revise and extend his remarks.)

Mr. FEIGHAN. Mr. Chairman, no problem facing the American people today has greater magnitude and impor-

tance than the question of what can be done to save our great cities from deterioration and decay.

Our problem is not only to level eye sore slums with bulldozers, but to provide decent and pleasant surroundings in which our people can live, work, and raise their families.

People are the heart of the urban renewal program.

Any fair-minded observer must admit, a lot of people have been and are being pushed around by the urban renewal policies being pursued in many cities, including my home city of Cleveland.

Thomas Edison, the great inventor who was born at Milan, Ohio, not very far from Cleveland, had a favorite expression. "There's a better way," he would say. "Find it."

There are better ways to revitalize our great cities and cut away the cancerous decay which is now rotting many major areas.

It is the duty of Congress, as well as the administration and the mayors and city councils of the affected communities to seek and find those better ways.

In such a quest, I have endeavored to make a personal study of the urban renewal problem in Cleveland.

This study is being made at my own expense, at no cost to the taxpayers.

Some of the results thus far have astounded me. I sincerely believe that they will amaze the Members of this House, as well as the people of Cleveland and the Nation.

I had hoped to present my report to this House before the final vote on the demonstration cities bill.

Unfortunately, this is not possible. My report will not be ready for presentation for at least 2 or 3 more weeks.

However, I do not wish to delay action on the demonstration cities bill, of which I am a cosponsor.

But I want the record to show that I do not consider this bill the final answer to the huge problem of saving America's cities.

I believe that my report, when presented, will identify certain new directions in which our urban renewal program should be turned—directions which will bring more concern about the welfare and fair treatment of human beings than about buildings.

After this report is completed and made public, I believe that it will become the basis for new legislation that will bring new hope and a brighter future for our cities and for the million of people who live in them.

I will vote "yes" on this demonstration cities bill, which is one of the cornerstones of President Johnson's domestic program.

It is a measure that will accomplish much good.

However, I wish to be recorded as stating that this bill is not the final and complete answer to the problem. To paraphrase Thomas Edison: There is a better way, and we must keep searching until we find it.

Mr. PATMAN. Mr. Chairman, I yield 10 minutes to the gentleman from Ohio [Mr. ASHLEY].

Mr. ASHLEY. Mr. Chairman, I of course rise in support of this very important legislation that is under consideration today.

Happily, Mr. Chairman, there appears to be no great amount of controversy with respect to the need for this legislation.

The organizations which favor the demonstration cities program, organizations that are concerned exclusively with the problems of our American cities, include the following:

The U.S. Conference of Mayors, the National Urban League, National League of Cities, National Housing Conference, National Governors' Council, National Association of Social Workers, National Association of Housing and Redevelopment Officials,

National Association of Home Builders, National Association of County Officials, American Public Health Association, American Institute of Planners, American Institute of Architects.

I might say, Mr. Chairman, this is a capsulized list of the scores of organizations throughout the country that have indicated their favor and approval of the demonstration city program.

I was interested in the comments of the gentleman from Wisconsin [Mr. REUSS] and the excellent quotation that he cited from the Republican Policy Committee statement on Demonstration Cities and Metropolitan Development Act of 1966, which was issued on September 28.

The first sentences of that statement certainly would indicate, not only recognition of the need but approval of the kind of program that we have before us at this time.

The first sentence of that statement reads as follows:

The cities of America are faced with a major crisis, crime is increasing, slums and blighted areas demand immediate attention.

Let us stop there for a moment. What is meant by "immediate attention"? I submit that the majority of the members of the Subcommittee on Housing and the Committee on Banking and Currency have made it clear by the legislation before us what they believe to be "immediate attention." The Republicans, unfortunately, mean something else.

In the concluding paragraph of the Republican policy statement we find them saying this:

Every nonessential spending request must be reduced or deleted in its entirety. The authorizations requested for this program—

Meaning the demonstration city program—

With the exception of the planning funds, should be deferred.

Is this kind of statement, this insistence upon deferring, to be equated with the statement in the opening paragraph, the glittering statement, the glittering demand for "immediate attention"?

I think we must recognize that they are, from one side of their mouths, saying to the American people, "We recognize your need. We know that it requires immediate attention."

But then later, as usual, as always, they are saying, "No, we really can't do it now. We've got to wait. You've got to wait."

Mr. Chairman, I would like to take just a moment to go into the content of the bill before us. Inquiries have been raised as to what exactly constitutes a demonstration cities program. What are the requirements?

If we look carefully at the report, we find that a demonstration cities program must meet five basic requirements:

First, the physical and social problems in the area of the city covered by the program have to be such that a comprehensive demonstration cities program is necessary to improve the physical environment, increase the supply of adequate housing, about which there has been much comment, adequate housing for low- and moderate-income people, and provide educational and social services vital to the public health and welfare.

Is that an unreasonable requirement, Mr. Chairman? I think not.

Second, the demonstration program must be of sufficient magnitude: to make a substantial impact on the social and physical problems and to remove or arrest blight and decay in entire sections or neighborhoods; to contribute to the sound development of the entire city; to make marked progress in reducing social and educational disadvantages, ill health, underemployment, and enforced idleness; and to provide educational, health, and social services necessary to serve the poor and disadvantaged in the area, widespread citizen participation in the program, maximum employment opportunities for residents of the area in all phases of the program, and enlarged opportunities for work and training.

Mr. Chairman, the third requirement is that the program, including rebuilding or restoration, must contribute to a well-balanced city with a substantial increase in the supply of standard housing of low and moderate cost, maximum opportunities in the choice of housing accommodations for all citizens of all income levels, adequate public facilities—including those needed for education, health and social services, recreation, and transportation—commercial facilities adequate to serve the residential areas, and ease of access between the residential areas and centers of employment.

The fourth requirement is that a city's program must be more than a statement of goals. It must be a definite plan of action. Projects and activities to be undertaken must be scheduled and ready for initiation within a reasonably short period of time.

In addition, the criteria require that the local governing body—and this is important—be a part of the program. It has been said, Mr. Chairman, that this is a federally imposed program. Nothing could be further from the truth. It is a local undertaking, locally planned and locally implemented. Naturally, there must be adequate local resources available for completion of the program and the local agencies whose cooperation is necessary for the success of the integrated, cooperative program must have indicated their intent to furnish such cooperation.

There must, also naturally enough, be administrative machinery available, and

there must be a showing of this in the plans submitted by the local planning group in its application for funds.

So, Mr. Chairman, these essentially are the requirements of the program so far as the local community is concerned. This is the content of the program.

We hear opposition. Apparently it is directed to the cost of this program. We all understand, certainly, that our economy is under pressure at this time. If it were not under pressure we would not, by any stretch of the imagination, have delayed the program 1 year, which is in effect what we have done.

What we have said is that in the first year there will be no funds for implementation of the program other than \$12 million in planning grants. It is not until fiscal year 1968 that there will be any funds available for actually carrying out the program.

Of the \$400 million that is to be appropriated in the fiscal year 1968 we can be certain that only a small percent actually will affect our economy.

Mr. FRASER. Mr. Chairman, will the gentleman yield?

Mr. ASHLEY. I yield to the gentleman from Minnesota.

Mr. FRASER. I listened with interest to the gentleman's description of the funding arrangements under this bill. I had had the impression, from reading the bill, that perhaps that was some value in not putting in a large fund for a year, so that plans could go forward, that there was some value in allowing time for planning before money would become available to fund the operative program which might follow as result of the planning.

As I gather from what the gentleman says, in any event, because of other problems we face, such as the Vietnam war and so on, by voting for this bill at least we will not be adding substantially to the level of appropriations required for fiscal year 1967.

Mr. ASHLEY. Yes.

There were two reasons. The first is that most cities, as the gentleman from Minnesota pointed out, will require a period of time to put together a prospectus which, if favorably approved by the Department, would result in a planning grant.

The CHAIRMAN. The time of the gentleman from Ohio has expired.

Mr. PATMAN. Mr. Chairman, I yield the gentleman 4 additional minutes.

Mr. ASHLEY. So the committee felt that the first year would not be wasted if the time were spent by communities in formulating their plans.

At the same time, however, it was made clear to us that there are cities, such as Detroit and Philadelphia and a number of other cities, which so manage their urban affairs and their plans and programming that they are all but prepared at this very moment to go forward.

It was felt by the committee that because of the pressure of our economic circumstances at the present time and in order to establish uniformity, it would be better to allow 1 year planning through the fiscal year 1967.

Mr. FRASER. I thank the gentleman. Mr. RESNICK. Mr. Chairman, will the gentleman yield?

Mr. ASHLEY. I yield to the gentleman from New York.

Mr. RESNICK. I thank the gentleman for yielding.

I should like at this point for this committee to know that I represent a rural area, one of the oldest areas in the United States, the Hudson Valley, which was settled in the 1600's. Our cities are decaying. Even though it is a rural area, we understand the need for demonstration cities.

I should like to read a letter I received from the city of Poughkeepsie, from the mayor of that city. He says:

OCTOBER 7, 1966.

DEAR CONGRESSMAN RESNICK: I understand that the Demonstration City legislation will soon be before the House of Representatives for action.

Poughkeepsie is an old city, as you know, and our Urban Renewal Department is working diligently to overcome our many problems. The Urban Renewal program offers the hope of the future for cities such as Poughkeepsie.

You, of course, know that I was elected on the Republican ticket, and that our party has a majority in the Common Council. We have, however, with the fine cooperation of the minority members, and, with your invaluable interest and assistance, developed a coordinated, bi-partisan program to accomplish what is best for our City.

Poughkeepsie is anxious to be considered for the high honor of becoming a Demonstration City. With the assistance of this program, and our own determination I am certain that we will transform our city into the vibrant community it must become to meet the demand of the future.

I know that you will support this program, and I hope that you will use this letter to gain additional support.

With kindest personal regards, I remain,
Sincerely,

RICHARD W. MITCHELL,
Mayor.

I should just like to point out that this demonstration cities program is wanted by all types of cities, under Republican administrations as well as Democratic administrations.

Mr. BROCK. Mr. Chairman, will the gentleman yield?

Mr. ASHLEY. I yield to the gentleman.

Mr. BROCK. Would the gentleman give me a fair estimate of the odds against getting Poughkeepsie into the demonstration cities program?

Mr. ASHLEY. No, the gentleman would not want to answer the gentleman's question.

Mr. BROCK. Would the gentleman admit that they would be substantial?

Mr. ASHLEY. I will tell you in all truth—and this is what I was going to get to, I will say to my friend—I would find it difficult to believe that the Department in reviewing the plans would, for political considerations, pass over a plan which was truly excellent. I would have to say that to the gentleman. If there were two of equal excellence, then I am not at all certain what other factors might enter into the decision.

Mr. BROCK. I thank the gentleman.

Mr. ASHLEY. Now I would like to conclude, if I might, Mr. Chairman.

Mr. MULTER. Mr. Chairman, will the gentleman yield?

Mr. ASHLEY. Yes. I yield to the gentleman.

Mr. MULTER. I would like to call the attention of the Committee of the Whole to the fact that Poughkeepsie is a city of 35,000 people. Knowing how the housing authorities both of the State of New York are operated as well as those of the various localities, I am sure Poughkeepsie could qualify under this bill if it is enacted.

The CHAIRMAN. The time of the gentleman from Ohio has again expired.

Mr. PATMAN. Mr. Chairman, I yield 1 additional minute to the gentleman from Ohio.

Mr. ASHLEY. Mr. Chairman, to conclude I would like to stress a final point, and that is with respect to local initiative. Local initiative is written throughout this entire measure. There is no persuasion and there is no force on the part of the Federal Government with respect to the demonstration cities program. Cities must be interested in participating. There must be local approval for the planning funds, there must be local implementation, there must be approval on the part of the governing body at each step before the city can go ahead. Nobody is forcing anybody to do anything. The program is no more than an effort for the first time to do what the gentleman from New Jersey [Mr. WIDNALL], has been expressing such hope for in years past; namely, to realize the full hope of our urban renewal program. That hope has not been realized and the reason why it has not is that there has been too great an emphasis on physical rehabilitation and too little recognition of the necessity of combining physical rehabilitation with social rehabilitation. That is what this bill seeks to accomplish, Mr. Chairman.

Mr. PATMAN. Mr. Chairman, I yield such time as he may consume to the gentleman from Michigan [Mr. FARNUM].

(Mr. FARNUM asked and was given permission to revise and extend his remarks.)

Mr. FARNUM. Mr. Chairman, I rise in support of this bill.

I want to give title II of this bill my unqualified support. And I want to tell my distinguished colleagues why.

We have arrived at a crucial juncture in the efforts that the towns, cities, and States of this Nation have been making to understand and to cope with the problems of accelerating urban growth. For a dozen years, since the Housing Act of 1954 provided the first Federal assistance for planning activities, we have seen the steady expansion and refinement of planning programs throughout the country.

Many of these planning activities have been undertaken in response to Federal planning requirements. These requirements are intended to bring about more effective coordination among public works construction programs, such as the Federal-aid interstate highway program, which involve major expenditures

of Federal funds. Still other planning activities have been undertaken by voluntary associations and confederations of elected officials of local governments, who have recognized their metropolitan areas as the primary frame of reference for studying and dealing with an increasing number of their common problems.

We too must recognize this evidence that citizens of our major cities are beginning to understand more and more that the metropolitan area is becoming the working unit for the planning and construction of many of their needed systems of facilities. They now know that metropolitan area coordination of some facilities can be more economical to governments already pressed to meet the demands of intensifying urbanization, and they know that collaboration in such planning can serve their mutual interests and need not result in sacrifice of local authority and initiative.

We need to take advantage of the fact that community of interest in major facilities, ranging from major recreational facilities to highways and mass transportation systems, can serve to unite the creative skills and energies of local governments in collaborative planning and development.

So far, however, most of the actual results of our metropolitan planning activities have been to explore and define the nature of our metropolitan development problems. These plans express the hopes and ambitions—the aspirations—of the cities in the metropolitan areas. They have begun to plan coherently for the development of more than one system of facilities at a time.

It is time now to move in a broad front to apply the technical findings that have emerged from these fundamental planning efforts. This is really the most difficult part of the process of translating public policy into coordinated public and private development activities. Special incentives will be needed to encourage units of local government to take this additional step and realize the potential public benefits of the metropolitan analysis and planning work they have begun.

Title II of the bill before us provides these incentives through supplementary grants for well-coordinated metropolitan planning and programming. It is a logical and indeed an essential addition to the Federal pattern of response to the growing demand for focusing the forces of public and private development in our urbanizing areas in more meaningful ways.

President Johnson put it very well in his message transmitting this legislation to the Congress. He said that these carefully developed plans were all too often "neglected documents." Title II will remove this aura of neglect from development plans, and the result will be a positive step toward a material improvement in the quality of our environment.

This country needs title II. We must give it our resounding approval.

Mr. PATMAN. Mr. Chairman, I yield 7 minutes to the gentleman from Pennsylvania [Mr. MOORHEAD].

(Mr. MOORHEAD asked and was given permission to revise and extend his remarks.)

Mr. MOORHEAD. Mr. Chairman, I rise in support of this legislation, and I particularly wish to associate myself with the concluding remarks of the gentleman from Ohio [Mr. ASHLEY], who talked about urban renewal being expanded in this legislation to include people.

Mr. Chairman, an ancient Greek historian, Thucydides, once said that—

It is men who may a city, not walls or ships.

And, Mr. Chairman, William Shakespeare said:

What is the city, but the people?

Mr. Chairman, the significant thing about this demonstration city title is that it recognizes this ancient concept.

Mr. Chairman, what are the problems of the city but the problems of the people, and who is to solve the problems of the people, if the people themselves do not solve them?

Mr. Chairman, the legislation which we are considering today is designed to help the people of our cities, cities of all sizes, to solve their problems themselves.

Mr. Chairman, urban renewal has been for too long exclusively a bricks and mortar program. Today we are talking about more than physical renewal. We are talking about the renewal of the people who live in these neighborhoods.

Mr. Chairman, if we turn to section 101 which appears on page 35 of the bill, we see the nine purposes as to the legislation contained in the bill. The primary purpose of the bill is placed upon people focus.

The first one is to rebuild and revitalize large slum and blighted areas, and that is a large program.

But, the second one is to expand housing, job and income opportunities.

The third one is to reduce dependence on welfare payments.

The fourth one is to improve educational facilities and programs.

And, Mr. Chairman, let me say that when we improve the educational facilities in one of these slum areas, we reduce the pressure for busing. So that I say to the Members of the Committee of the Whole House on the State of the Union, Mr. Chairman, that this bill will not promote busing, but will actually do the opposite.

Mr. Chairman, the fifth purpose of the bill is to combat disease and ill health.

The sixth purpose of the bill is to reduce the incidence of crime and delinquency.

The seventh purpose of the bill is to enhance recreational and cultural opportunities.

The eighth purpose of the bill is to establish better access between homes and jobs.

The ninth purpose of the bill, and a vital one which really sums all of it up, is to improve living conditions for the people who live in such areas, who live in slum areas.

Obviously, Mr. Chairman, the amount of money authorized under this legislation is not sufficient to cope with the

immensity of the problems which face our cities.

Mr. Chairman, we heard testimony before our committee from at least two big city mayors who said their own cities alone could use far more than the total amount of this bill.

Mr. Chairman, the key word contained in this legislation is "Demonstration."

Mr. Chairman, rather than sit back and wait for our urban problems to overwhelm us, we would use this approach to see if the problems can be solved by this method. We would hope to "demonstrate" that we can.

Mr. Chairman, the challenge of urban problems cannot be avoided. It is too late too look the other way. It is a national problem which can only be solved by the creative partnership of all our people as represented at all levels of our government.

Mr. Chairman, this task cannot be laid aside for a while, while other reforms and other wars are won.

It must be tackled now.

Mr. Chairman, my own city, the city of Pittsburgh, is a "city reborn," because its leaders approached some of its problems with the imagination and resourcefulness contemplated in this legislation. No longer do disastrous floods pour into the heart of the city. No longer does smog hang over Pittsburgh. And, we have rebuilt entire sections of our downtown city. But, as we in Pittsburgh know, the problem of urban decay in our cities—large, medium, and small—is so great today that it cannot be solved by our cities alone.

They need help, and each city's problems add up to one great national problem, which can only be dealt with on a national scale with the Federal Government in partnership with State and local communities.

As Thucydides wrote, "It is men who make a city," it is also men who can remake a city and permit it to soar to the greatness of which our society is capable.

Mr. Chairman, I yield back the balance of my time.

Mr. BARRETT. Mr. Chairman, I yield to the gentleman from Rhode Island [Mr. ST GERMAIN].

Mr. ST GERMAIN. Mr. Chairman, I rise in support of the legislation.

[Mr. ST GERMAIN addressed the Committee. His remarks will appear hereafter in the Appendix.]

(Mr. ST GERMAIN asked and was given permission to revise and extend his remarks.)

Mr. PATMAN. Mr. Chairman, we yield to the minority side.

Mr. BROCK. Mr. Chairman, I yield 10 minutes to the gentlewoman from New Jersey [Mrs. DWYER].

(Mrs. DWYER asked and was given permission to revise and extend her remarks.)

Mrs. DWYER. Mr. Chairman, I shall be as brief as possible in these introductory remarks on the housing legislation before us because I intended to develop my position on specific amendments which I shall offer at an appropriate time.

At present, Mr. Chairman, I number myself among the undecided on this bill—undecided, that is, as to how I shall vote on final passage. As a member of the subcommittee and the full committee which considered the legislation, I know what I like about it and what I dislike. There is a good deal of both. My final position, therefore, will be determined by the amendments which the House accepts or rejects.

This is a significant bill, Mr. Chairman. It deserves its reputation as the most important item in the President's domestic legislative program. For it would deal directly with developments that are changing the shape, for better or worse, of American life: the increasing flow of population to urban and suburban areas, the physical and social decline of older central cities, the widening division of outlook and interest between city and suburb, the growing shortage of housing for people of low and moderate incomes, the increasing restlessness and sense of deprivation on the part of those forced to live in slum areas and the growing violence such conditions have bred.

The bill deals with these conditions, but does it do so in a truly constructive, responsible, and effective way? It is not enough to have an attractive title on a bill, a good concept, or a noble purpose. The legislation must be so drawn as to give promise of making an effective impact on the realities of the problem. We must know what we are doing. And we must do it right. These are basic considerations. However lofty our purpose, it can become a tragic and disillusioning waste of time and money and idealism and humanity if we fail to do the hard, detailed planning and figuring which can make a program successful.

The present bill is most attractive in concept. The idea, for example, of mobilizing Federal, State, and local resources, public and private, in a concentrated effort to improve the physical and social environment of a presently slum neighborhood is undoubtedly the right approach. But I am not convinced the Government has yet mastered the implications of the demonstration cities program, or that it has geared itself to the unprecedented need for interagency coordination on a vastly comprehensive scale, or that it has thought through some of the specific problems that are likely to emerge. Certainly, nothing in the hearings indicated to me that the Department of Housing and Urban Development is prepared to undertake a 2-year commitment of nearly a billion dollars.

As I suggested during the hearings and in my individual views in the committee report, I believe the House has two sound and responsible alternatives at hand. We can either limit the authorization to a small number of demonstration projects—say a half dozen cities of varying sizes—and see how the program develops before committing ourselves all the way. Or we can limit the authorization to planning money, and invite the Department to return in 6 or 8 months with the detailed, practical plans for implementing the program. The Department

itself concedes it must devote its first year exclusively to planning. So we would not be delaying or impeding the program by adopting this alternative approach.

The so-called "new towns" provision of the bill raises questions. Again, I recognize the need to provide for the orderly and planned development of new communities. We have seen too much of the unplanned, unattractive growth of population as it spreads helter-skelter through our diminishing countryside. We must, however, assure ourselves that a "new towns" program will be more than an expensive subsidy to underwrite the activities of land speculators and developers and we must guarantee that such a program does not simply add to the problems of cities by encouraging a further drain of their middle-income families.

I reserve my strongest criticism, Mr. Chairman, for section 701 of title VII, a provision which would destroy much of what the urban renewal program is designed to accomplish, a provision which would skyrocket the cost of urban renewal by billions of dollars, and a provision which would severely handicap the demonstration cities program.

I have detailed many of my objections to this section, Mr. Chairman, in a letter to each of our colleagues which they will find on their desks today. And I shall develop these objections when I offer an amendment, at the appropriate time to strike section 701 from the bill. For the present, let me assure our colleagues that section 701 is equally objectionable whether they support the demonstration cities program or oppose it, that my amendment is nonpartisan and is designed to save the urban renewal program, and that the Secretary of Housing and Urban Development shares my opposition to section 701.

At this point in my remarks, Mr. Chairman, I include the text of my letter to our colleagues in the RECORD:

CONGRESS OF THE UNITED STATES,
HOUSE OF REPRESENTATIVES,
Washington, D.C., October 12, 1966.

DEAR COLLEAGUE: Whether you support S. 3708, the Housing and Urban Development Act of 1966, or the Demonstration Cities and Metropolitan Development bill, or whether you oppose it, I believe you will find that section 701 of the committee-reported bill is dangerous, costly and otherwise extremely objectionable.

At the appropriate time, I intend to offer an amendment to strike section 701 for the following reasons:

It would radically change the character of the urban renewal program—and without benefit of hearings, consideration or discussion in the House.

It would involve additional billions of subsidy, which I would estimate at \$2 billion or more, for public projects which do not qualify for grant-in-aid credit and are not directly related to urban renewal.

It would generate local demands for a proportionate increase in capital grant funds to the point where Congress would be forced either to expand greatly the extent of the present urban renewal program or allow cities which otherwise qualify for urban renewal assistance to go without.

It would distort the basic purpose of urban renewal from satisfying the priority need to eliminate blight and build badly

needed low- and moderate-income housing to primary emphasis on commercial redevelopment.

It would seriously handicap, if not defeat the objective, of the demonstration cities program.

Section 701 would do these things by requiring the Government to provide a non-cash grant-in-aid-credit against the local share of urban renewal costs for 25 percent of the cost of constructing public facilities for cultural, exhibition, civic and municipal purposes.

The practical effect of this section would be to invite the more than 800 communities having active urban renewal projects to take advantage of this opportunity to raid the Treasury and undermine the purpose of urban renewal.

These are strong words and harsh criticism, but they are shared by no less an authority than the Secretary of Housing and Urban Development.

In his letter to Chairman PATMAN of the Banking and Currency Committee, in which he supported my opposition to the 52 special non-cash grant-in-aid exceptions (subsequently struck from the bill by the committee), Secretary Weaver condemned these special credits, or subsidies, "in the strongest possible terms." He said they would have a "devastating" effect on the urban renewal program, make it "completely unmanageable," and bring the program to a halt. He also said the projects would "cripple" the demonstration cities program and "dissipates" funds Congress has authorized to fight slums and blight.

If 52 projects would have had such a destructive impact, one can only imagine the harm that would be done if more than 800 cities utilized this very same kind of subsidy—even at the reduced rate of 25 percent.

In reply to my letter requesting his views on this point, the Secretary made it clear the Department opposes section 701. He agreed the provision would be "costly" and "harmful," would "induce cities to delay projects which provide additional low- and moderate-income housing and undertake instead downtown urban renewal projects which would benefit from the additional credits provided by this provision," and would discourage cities from providing schools and similar public facilities necessary for the proper development of an urban renewal project.

I suggest, therefore, that my amendment to strike section 701 deserves the support both of proponents and opponents of the Administration bill. It will prevent a gigantic raid on the Treasury and avoid severe damage to the urban renewal program and, if enacted, the demonstration cities program.

Sincerely yours,
FLORENCE P. DWYER,
Member of Congress.

Briefly, section 701 would require the Government to provide a noncash grant-in-aid credit against the local share of urban renewal costs for 25 percent of the cost of constructing public facilities for cultural, exhibition, civic or municipal purposes.

The practical effect of this section would be to invite the more than 800 communities having active urban renewal projects to take advantage of the opportunity to raid the Treasury and undermine the purpose of urban renewal.

Section 701 was added to the bill in the Senate. No hearings, discussion, or other consideration was given to this provision in our committee.

Section 701 is directly related to the 52 special exception urban renewal credits which were eliminated by the committee. It would, in fact, restore many of these projects—though at a reduced 25-percent subsidy—and would open the door to hundreds more, even though none of these projects qualify for credit under the urban renewal program and even though none of them are directly related to urban renewal projects.

Secretary Weaver has condemned these projects in—and these are his words—“the strongest possible terms.” He said they would have a “devastating” effect on the urban renewal program, make it “completely unmanageable,” and bring the program to a halt. He also said the projects would “cripple” the demonstration cities program and “dissipate” funds which Congress has authorized to fight slums and blight.

In comments on section 701, which I solicited from the Secretary, he made his Department's opposition very clear. He agreed the provision would be very “costly” and “harmful.” He said it would—and I quote from his letter—“induce cities to delay projects which provide additional low- and moderate-income housing and undertake instead downtown urban renewal projects which would benefit from the additional credits provided by this provision.” It would also, he said, discourage cities from providing schools and similar public facilities necessary for the proper development of an urban renewal project.

In other words, Mr. Chairman, section 701 would inflict on the urban renewal program the most expensive and radical distortion ever proposed.

Each of us know, I feel certain, that the 52 special projects and section 701 represent nothing more than a sophisticated form of “pork barrel” legislation. I urge our colleagues to support my amendment to strike section 701 from the bill.

Directly related to this amendment, Mr. Chairman, is one which our distinguished colleague from New Jersey [Mr. WIDNALL] intends to offer. He proposes to insert language requiring that redevelopment of urban renewal areas for predominantly residential uses “provide a substantial increase in the supply of standard housing of low and moderate cost and result in marked progress in serving the poor and disadvantaged people living in slum and blighted areas.” The language speaks for itself, and I wholeheartedly favor the amendment.

There is one other badly needed amendment to the urban renewal program which I shall offer. The amendment would require the holding of a public referendum on proposed urban renewal projects in communities with populations of 150,000 or less.

I have explained this amendment at some length in my individual views in the committee report and I shall expand on it when I offer the amendment on the floor. What it would do, I believe, would be to restore the human factor to urban renewal, to bring the people of a community into closer accord with the planners, and to encourage planners to take the people more closely into their confidence.

Urban renewal needs the understanding and support of the people it is supposed to serve, and people have a right to know what their Government plans to do with their money and with the power of eminent domain, and they have a right to participate in such decisions.

My amendment would give the people this right, and it would, by doing so, strengthen the urban renewal program.

Mr. BROCK. Mr. Chairman, I yield myself 10 minutes.

The CHAIRMAN. The gentleman from Tennessee is recognized for 10 minutes.

(Mr. BROCK asked and was given permission to revise and extend his remarks.)

Mr. BROCK. Mr. Chairman, it is a little hard to get excited over how many people you are going to influence when you look around at the vacant seats in the House. But I feel very strongly about this bill. I think the gentleman from Pennsylvania said it is one of the most critical pieces of legislation we have considered in this Congress, and I agree.

I also agree with the gentleman from Pennsylvania [Mr. MOORHEAD], who said it is men who make cities, not walls.

This particular bill is one of the most complex and confusing pieces of legislation this Congress has considered in the 4 years I have been serving here, and one of the most far reaching.

Two weeks ago I was talking to a group of highly intelligent constituents, and I tried to explain the provisions of the bill. I thought I had done an adequate job, until after the speech was over. At that time several of my constituents came up to me and said, “Bill, why is it that we need to subsidize just those cities that have had demonstrations? Should not every city be given equal treatment, whether they have had a demonstration or not?”

I found that my eloquence was somewhat lacking in explaining what this bill really does.

The bill goes to one central point. I believe it demonstrates the philosophy that cities cannot exist without specific grant Federal aid programs and, if so, it represents a dramatic change in our approach to the Federal system that we call America. I believe it also demonstrates the striking failure of past specific great Federal aid programs.

This bill provides a subsidy for those who will take existing subsidies. It provides that the Federal Government will pay 80 percent of all planning costs of the city's demonstration program.

Then, in addition, it provides that we will pay up to 80 percent of the non-Federal share of the program—if it will accept the standards, direction, and control which accompany a designation of “demonstration city.”

For example, if an urban renewal program would normally be allocated 75-percent Federal and 25-percent local contribution, and if the city were to accept the designation of a demonstration city, then this bill would provide that the Federal Government would pay 80 percent of the local share of 25 percent, meaning that we would pay 95 percent of the total cost of that program.

This does not deal only with urban renewal. It deals with schools, housing, libraries, airport facilities—virtually every area of city development.

I would ask a very simple question. If it is necessary for Washington to pay 95 percent of the cost of operating our cities, whither goest thou?

Whither goest thou, in this partnership we have called federalism, a partnership between the local community, the State, and the Federal Government? What is the future of our communities as independent partners in a creative society? Without the ability or authority to ascertain their own needs, their own priorities, what is their reason for existence?

The bill would do one thing. It would recognize we have an enormous and a growing problem in our metropolitan areas. The problem will continue to be with us.

But how does the bill propose to attack this problem? It would attack the problem by putting more money into the same programs that, by the bill's own statement, have failed in the past. I question whether this is an honest consideration of the basic problem.

What is the real problem facing our cities? One can find it, whether in Cleveland, Detroit, Pittsburgh, Chattanooga, or New York City. The real problem facing our cities is that, due to inadequate financial resources, and in some instances malapportionment, the central city is decaying. That sets in motion a series of events.

When decay or blight hits the central city, it begins to erode that city like a cancer from within. People of moderate-to-higher income levels leave the city. Businesses move out. What happens? All of a sudden the city finds itself without an adequate tax base, at the very time the need for services is skyrocketing, because the people who need these services are the low-income people who are left in the city. Yet these are the very same people who do not have the financial ability to pay a high property tax or a high sales tax.

The fact is that those are the two taxes on which we have predicated our income base for local and State governments, sales taxes, and property taxes. Yet too rapid expansion of these tax rates can be self-defeating.

It seems to me the problem we should direct ourselves to today is, what are we going to do about providing the local community with the income resources with which to meet the needs of its citizens?

Can we do it with a Federal subsidy going up to 95 percent of the cost of the programs? If we do, is this not an open invitation for the mayor of every city in the United States simply to move his office to Washington, D.C., and leave an attractive secretary in the hometown to answer his mail? What purpose will he have, other than to come hat in hand to the Secretary of HUD or some other agency in Washington and say, “Help my city”? What alternative will he have, other than to say, “If I accept your money I will also accept your direction and your control?”

If that should happen, what will happen to the creativity, to the excitement, to the challenge there is in the local community in America today? If all our programs across the whole width and breadth of America are determined from Washington, where will there be the competition which has created so many solutions which have changed the face of America?

If we in Washington assume the responsibility for paying the bills of our local communities to the extent of 85 or 95 percent, where will there be any challenge for an attractive, intelligent young man to go into public service, when his only function will be to go to Washington and ask for help? He will have no authority to be creative in his own right in solving community problems, and thus why should he serve?

How are we going to get decent people into politics? What is the future of the Federal system if we take the concept that Federal aid in specific grant programs is the only way that cities can exist?

I recognize the problem. I have talked to the mayor of my community at home. We have a marvelous community in Chattanooga. It is progressive, exciting, and vital. Our mayor faces an enormous series of problems. The city is booming. The needs of its people are growing. Yet we have reached the limit of the sales tax. We are at our constitutional limit of 4 percent. We are close to the maximum on the property tax. If we go much higher, we drive out new industry, thus destroying our future tax base because it makes us less competitive with other cities and towns in the area. What is he to do?

I can understand why cities come to us in Washington and say, "We need help. We need it now. We will take any controls or standards or anything if we can just get some help." But is it not a little shortsighted of us to turn our backs on the basic problem, which is that our communities simply do not have adequate tax resources? You cannot tell me our local officials do not care about their people and would not do a job if they had a chance to do so. The problem is they do not have the resources with which to do it. The growing part of the tax base in this country has been eroded by preemption of income taxes by the Federal Government. What can we do about it? Rather than attack the basic disease itself, we come in with another patchwork solution on top of all the old failures and impose another superstructure and series of controls. We say, "Do not think for yourselves, do not be creative or responsive, but let us tell you how to solve your people's needs and your problems will be solved."

The fact of the matter is that local problems have not been solved by this approach in the past, but may have been exaggerated. Unless we attack the basic disease of an inadequate tax base, we will not have a federal system in 10 or 20 or 30 years from now. There will be no partnership. It will be a total superstructure on top with conforming the standard instead of creativity.

The CHAIRMAN. The time of the gentleman from Tennessee has expired.

Mr. HARVEY of Michigan. Mr. Chairman, I yield the gentleman from Tennessee an additional 5 minutes.

Mr. BROCK. I started to say I am sorry that civil rights became a part of this debate because I think the problem goes far beyond civil rights.

I believe sincerely the gentleman from Pennsylvania and the colleague he has on the majority side are just as concerned about the problems of our cities as anybody in the whole Congress. I know it from watching his work. I happen to disagree on this way of solving this problem.

I am deeply concerned that this bill represents a frontal assault on the creative partnership called the federal system, which has existed for 200 years. I am terribly concerned about that. I think it is time that this Congress took a look at this system itself. I think it is time we began to say, "would it be possible for us to extend this revenue base of the income tax to our local communities and States so that they could determine their own priorities and their own programs and so that they could respond to the needs of their people?" I think it is time that we began to consider the possibility of a tax-sharing program so that these communities could go on with the job of creating a truly great society.

Mr. Chairman, I could give you 1,000 arguments against the technical features of this bill. I intend to propose an amendment to it which would strike all except the planning money in title I. I hope that it will be accepted, because I, in all honesty, do not believe that there is a single Member of this House who knows all of the ramifications of this bill.

Mr. Chairman, I do not believe we can go into a \$900 billion program, without taking the time to know what we are doing. The subcommittee decided to limit the bill to planning funds until the last day of its executive session, at which time the position was reversed.

Mr. Chairman, the subcommittee itself was in a position of wanting to have just the \$24 million for planning so that we could structure something that might have some justification and something directed toward the basic problem involved.

But such was not to be, for we were under pressure. This is the administration's No. 1 priority bill.

And, Mr. Chairman, what happened? The screws were turned on. As a result this "independent" legislative brand goes back and accepts the administration bill and says that it saved money by cutting the period of the program from a period of 6 years down to a 2-year program, even though we increased the amount of money for those 2 years.

That just does not make sense.

I hope that this House of Representatives will give great deliberation to what we are doing to the Federal system. I hope that we shall try to examine the basic disease which affects our communities. Let us realize they have no lack of desire to respond to the needs of

the people, only a lack of financial ability.

Mr. Chairman, I believe we must first do that before we can begin consideration of a bill of this type.

Mr. DEL CLAWSON. Mr. Chairman, will the gentleman yield?

Mr. BROCK. I yield to the gentleman from California.

Mr. DEL CLAWSON. Mr. Chairman, I wish to associate myself with the remarks of the gentleman from Tennessee [Mr. Brock] and also to ask the gentleman the question as to how long the Federal Government has been involved in attempting to help remove the blight from our central cities?

Mr. Chairman, does the gentleman know when these programs first started?

Mr. BROCK. I do not honestly know how many years ago, but I know that there are well over 100 programs involved, and if dollars would substitute for men, the problem would have been solved years ago.

Mr. DEL CLAWSON. Mr. Chairman, if the gentleman will yield further, is it not true that the Wagner-Ellender-Taft bill of 1937 started out with a slum clearance program and under that program they began to clear out some of our central city blighted areas?

Mr. BROCK. I believe the gentleman from California is correct.

Mr. DEL CLAWSON. And, Mr. Chairman, if the gentleman will yield further, so we have been continuing this now for several decades, and yet the blight seems to be worse today than it was in the beginning?

Mr. BROCK. That is entirely true.

Mr. DEL CLAWSON. Is this what the gentleman is getting when he is speaking philosophically as well as actually here?

Mr. BROCK. The gentleman is correctly gaging my position.

Mr. Chairman, I believe it is important that we look at that fact—this bill is nothing more than an admission of past failure, and if the programs in the past have failed, why have they failed? Why impose another superstructure upon these failures? Why not study the past and hope to improve in the future?

Mr. DEL CLAWSON. Then, it is really possible that the Federal Government does not have the answer to our local problems. Perhaps we should get into the tax-sharing venture that lies ahead of us and let the people locally involved make their own decisions and solve their own problems?

Mr. BROCK. Mr. Chairman, I agree with the gentleman from California. I believe it is time we asked ourselves some of these questions.

The CHAIRMAN. The time of the gentleman from Tennessee has again expired.

Mr. HARVEY of Michigan. Mr. Chairman, I yield 3 additional minutes to the gentleman from Tennessee.

Mr. BROCK. I think it is time that we asked ourselves as Members of the Federal governmental structure whether we are part of the problem or whether we are part of the answer.

Mr. DEL CLAWSON. I thank the gentleman. I feel the gentleman has hit the nail right on the head.

Mr. MIZE. Mr. Chairman, will the gentleman yield?

Mr. BROCK. I yield to the gentleman from Kansas.

Mr. MIZE. Mr. Chairman, for the life of me I cannot, after having listened to the hearings and being a member of the committee, I still cannot come up with the answer as to where they obtained the figure of \$900 million for a program involving a period of 2 years.

Was it just pulled out of thin air?

Mr. BROCK. Well, I would have to answer, in all candor, to the effect that I believe the figure came about as a result of the budget. I believe that is about what they felt they could stand.

Mr. Chairman, the question that the gentleman from New York [Mr. RESNICK] raised with reference to Poughkeepsie, N.Y., becoming a part of the program, he said:

We are for the bill because we will get Poughkeepsie into it.

Do you not realize every Member of Congress thinks he is going to have a city in this program? Do you not know that the top possible number of cities we can bring in is 50? I do not honestly think we can bring in more than 12 to 24, 1 or 2 dozen.

Who is getting sandbagged around here? Somebody is being lied to.

I think it is incumbent upon us to realize that this bill, with \$900 million in it, would handle only one of the eight projects in New York City alone that Mayor Lindsay testified he needed before the Senate committee. What about the other several thousand communities in America?

Still, we are not attacking the basic problem. We are going to make certain cities qualify under the demonstration cities title, but what is that going to demonstrate? Nothing except that all the cities need more Federal funds. There is not enough money in the Federal Treasury to take care of all our cities. Unless we address ourselves to the revenue base, I think that we are ducking the central issue.

Mr. DEL CLAWSON. Mr. Chairman, will the gentleman yield?

Mr. BROCK. I yield to the gentleman.

Mr. DEL CLAWSON. Mr. Chairman, the gentleman mentioned the city of New York, and Mayor Lindsay's testimony. Does the gentleman recall how much Mayor Lindsay indicated would be necessary to help the buildup of the city of New York alone?

Mr. BROCK. Mayor Lindsay suggested a figure of \$50 billion over the next 10 years.

Mr. DEL CLAWSON. Mayor Lindsay suggested \$50 billion over the next 10 years?

Mr. BROCK. The gentleman is right.

Mr. DEL CLAWSON. If we wanted to start with one city in the New York metropolitan area, we would have to start out with how many billion dollars a year for how many years?

Mr. BROCK. We would have to multiply this bill by 10 or 12 times, because the bill proposes \$400 million the first year, and \$500 million the second year, so it would have to be \$500 million times 10 or 12—and this for 1 city only.

Mr. DEL CLAWSON. For only that one city?

Mr. BROCK. That is right.

Mr. DEL CLAWSON. And then we would not be sure it would be a good demonstration.

Mr. BROCK. It would be a demonstration. But I say that we are not affording the responsibility to the local community governments to bolster their ability to take care of the needs of their people in the manner they see fit.

Mr. DEL CLAWSON. Mr. Chairman, I thank the gentleman for yielding.

Mr. BROCK. Mr. Chairman, I yield back the balance of my time.

Mr. PATMAN. Mr. Chairman, may I inquire of the gentleman from Tennessee [Mr. Brock], whether the minority side has finished? I believe we will finish in about 5 minutes on our side.

Mr. BROCK. Mr. Chairman, if the gentleman will yield, we do not have any requests for additional time.

Mr. PATMAN. Mr. Chairman, I will yield first to the gentleman from Texas [Mr. GONZALEZ] and then I will yield to the gentleman from California [Mr. COHELAN].

At this time I yield 5 minutes to the gentleman from Texas [Mr. GONZALEZ].

Mr. BUCHANAN. Mr. Chairman, will the gentleman yield?

Mr. GONZALEZ. I yield to the gentleman.

(Mr. BUCHANAN asked and was given permission to revise and extend his remarks.)

Mr. BUCHANAN. Mr. Chairman, since the President in his message to Congress January 26, 1966, introduced the demonstration city concept for the first time, much has been said and written for and against it.

No one can deny that the cities of America are faced with a major crisis. Crime, riots, slums, blighted areas, mushrooming welfare rolls, the plight of the schools are only a few of the difficulties facing the cities.

But as serious as these problems may be the administration's plan to use Federal power and Federal tax money to deal with them does not provide the answer. The Demonstration Cities and Metropolitan Development Act of 1966 is not the answer. This omnibus bill may eventually create more problems than it solves.

Too long the policy of our Government has been one of throwing money at its problems with the hope that in so doing those problems would disappear. The Demonstration Cities Act is the epitome of such pecuniary reasoning.

U.S. News & World Report issued an ominous warning which we could well heed in a recent article which stated:

Washington fast is spreading its domain over the cities of America, using Federal tax funds—flowing in ever-increasing amounts—to gain its goals.

Big cities, deep in trouble, beset by mounting civic problems, more and more are looking to the national capital for salvation. States, often mendicants, gradually are being bypassed, even as transmission belts for federal money.

The trend is growing as the White House moves to rescue municipalities with a massive Demonstration Cities program proposed by the President.¹

There are at least four valid reasons why this omnibus bill, as now proposed, should be defeated.

First, it is but another example of increasing Federal control and government by man rather than government by law.

The administration has used the term "creative federalism" in connection with this far-reaching legislation, stating that its intent is not to interfere with local and State affairs but to assist and encourage. But it has been more accurately defined as a "Madison Avenue misnomer for the practice of interjecting the National Government into every conceivable area of human activity under the guise of aid."²

This bill would, in effect, designate the Secretary of Housing and Urban Development as a "super mayor." The provisions of title I place the Secretary of HUD in absolute control of this program. He would have the final authority to select the city and the demonstration project that would receive Federal assistance. Furthermore, such selection would be based upon plans submitted in conformity with requirements that the Secretary has established. The city and program that finally wins the approval of the Secretary of HUD would then be eligible to receive 80 percent of the contribution otherwise required for a Federal grant-in-aid project.

Even the mayor of New York City, the Honorable John Lindsay, stated before the House Subcommittee on Housing that—

A competition among American cities with the fate of the poor at stake is not a very attractive prospect for local officials."³

The demonstration cities plan has been described as "the most ambitious program in the history of urban America and aims at remaking the architectural face of the Nation."⁴ The plan, if carried out as proposed, would result in the loss of local control and a consequent erosion of representative government resulting, finally, in decreased citizen participation.

The cities themselves could be doing more of the job of renewal and rehabilitation. Often big city political leaders have been unwilling to work for structural reforms which could eliminate the basic difficulty of an inadequate tax base.

¹ U.S. News & World Report, March 7, 1966, p. 43.

⁴ U.S. News & World Report, March 7, 1966, p. 45.

This inadequacy, coupled with an over-eagerness on the part of Washington bureaucracy, have resulted in a preemption of the local tax revenues by the Federal Government.

Such was the opinion of the National Association of Real Estate Boards expressed by Mr. Alan L. Ensley in his recent statement concerning this bill:

The fundamental weakness in the bill is that it seeks solely by means of increased Federal grants to induce the cities to do that which they should have been doing in the years when they prevailed upon the Federal government to execute billions of dollars in binding contracts for urban renewal.⁵

Mr. Chairman, it is surely a gross understatement to say that the most dangerous section of this omnibus package is title II, the proposed Metropolitan Development Act. Close scrutiny of this section opens up a virtual Pandora's box. As now proposed, this title would cast the shadow of HUD over every metropolitan area in this country. Almost every local governmental decision in areas accepting supplemental Federal aid would be subject to review by the Secretary of HUD. Consequently, he would have virtual control over the local financing and scheduling of all public facility projects that have areawide impact. Section 203(4) would give the Secretary of HUD authority to urge creation of a metropolitan area of any size. The average citizen and taxpayer would find this to be quite a nightmare.

Title II could become the foundation for such things as school busing, pairing, teacher assignments and creation of Metropolitanwide school districts. It could also be the first step in a concentrated effort to create artificial racial balance by the elimination of neighborhood schools in those areas of our country where Federal planners so determined.

Lyle Wilson in the Washington Daily News has said:

This Title could confer on Federal authorities the power to establish in cooperating urban and suburban areas standards of racial integration in education and housing and, in general, guide lines for community living.⁶

In the same article Wilson declared:

The Government could withhold or distribute Federal bonuses or bribes as urban or suburban communities did or did not comply with Federal standards.⁷

Proposed legislation by the U.S. Office of Education entitled "Equal Educational Opportunity Act of 1967" which could implement this metro title was revealed by my colleagues, Congressmen BILL BROCK, of Tennessee, and PAUL FINO, of New York, on September 13. According to their analysis of the "Equal Educational Opportunity Act of 1967," the following legislation would be proposed to the 90th Congress:

First, metropolitan areawide rezoning of school attendance areas, without regard to existing State or county lines, to compel racial balance in public schools;

Second, busing of suburban school children into city schools, and busing of city pupils to suburban schools at Federal insistence and expense;

Third, complete obliteration of present school district boundary lines, with free transfers between school districts; and

Fourth, Federal subsidies to underwrite the cost of rewriting history books so as to recast the history of racial and religious minorities.⁸

In response to their charges, Secretary of HEW, John W. Gardner, declared that no legislation was to be proposed which would "compel" busing to correct racial imbalance. But, Mr. Chairman, everyone knows that subsidies can be set up in such a way as to amount to compulsion if made a part of a metro-aid package.

James Kilpatrick in the Washington Evening Star just last month wrote that "any doubt that the metro title would be used to achieve school busing and metropolitan school zoning will be dispelled" by the Equal Educational Opportunities Act of 1967 which he referred to as "breath-taking both in its audacity and in its candor."⁹

I agree with the opinion of James C. Hass, executive vice president of the General Improvement Contractors Association, who said in testimony concerning this bill:

It is a superstructure, gigantic, important, grandiose, a duplication and conglomeration of many things we have had before. And if we put it on top of what is not properly functioning now, we are going to have a brand-new 10 gallon hat sitting on an old head that is full of sores. It is going to cover them up, but it is not going to cure them. It may be good for the Fourth of July, but not for the other 364 days of the year. So let's first go through the process of making our existing programs sound.¹¹

Title II is not just a Federal foot in the door of the neighborhood school, the city hall, and the county commission. It is a blueprint for a future Federal takeover. This title, with its fearsome grants of authority and open invitation to executive abuse, must be stricken from the bill.

Second, this bill should be defeated because of necessary defense expenditures in Vietnam and the inflationary threat at home.

President Johnson has called on this Nation and its industry to hold back on nonessential capital improvements. If one segment of our Nation is asked to cut back on capital improvements, all segments, especially the Federal Government, should be expected to do the same. This administration urges everyone else to economize—the housewife to select cheaper cuts of meat, the workman to hold to wage "guide posts," the businessman to review his budget, the manufacturer to restrict his spending. Let us here and now show good faith to all America by cutting Federal spending.

Title II alone calls for \$24 million for

planning for fiscal years 1967 and 1968 and authorizes \$400 million for fiscal 1968 and \$500 million for fiscal 1969. Also, urban renewal funds would be increased by \$250 million to be used exclusively for demonstration city purposes within urban renewal areas.

Currently, we are faced with the rising cost of living and the diminishing purchasing power of the dollar. Billions are being poured into Vietnam already and Hanson W. Baldwin in the New York Times has predicted that we will be called on for a supplemental defense appropriation of about \$10 billion after the November elections.¹²

Walter Heller, former chairman of the President's Council of Economic Advisers, said on September 1 of this year:

Our economy is powerful enough to afford both guns and butter. But it does not follow that we can afford both guns and fat.¹³

Mr. Chairman, much of this legislation may well be fat which could and should be trimmed from the waistline of the Federal budget.

Latest Treasury Department reports set the cost of the war in Vietnam at \$1.286 billion per month.¹⁴ This amounts now to approximately \$12 to \$15 billion per year. If Mr. Baldwin is correct in the aforementioned prediction, I say that we cannot afford the "fat" of this omnibus bill in a time which actually calls for belt tightening and rigid discipline.

Third, certain sections of this bill, especially titles I and II, are marked by vagueness and contradiction. The legislative guidelines in title I are vague because the program itself is imprecise and ill defined. It cannot be made specific until the cities have submitted their plans and recommended specific projects. Congress should refrain from handing over to the Secretary of HUD the broad grants of authority that he has requested until such time as the details and dimensions of the program have been clearly defined and specific guidelines and safeguards have been established.

James Q. Wilson gave adequate warning in the following statement issued earlier this year. It reads:

The major new proposal—for a "Demonstration Cities Program" is harder to evaluate, in part because it is not clear what is to be demonstrated or what relationship it will have to existing urban renewal and public housing programs, and in part because, no matter what is intended at the federal level, the real decisions will probably be made locally and toward a dozen different goals . . . the Demonstration Cities Bill speaks of "guidelines," and "findings," and "authority," but nowhere does it say what will be done. Thus, whatever Congress decides, it seems clear that the real policies will be determined by the administrators, and they are now silent as to their intentions. If the present Congressional situation is any clue, the administrator's silence may suggest that they believe it too risky to reveal in detail their intentions. But if past experience is any guide, that silence probably also means that they haven't figured out what their intentions are.¹⁵

⁶ Wilson, Lyle, "A Demonstration Bill," Washington Daily News, Oct. 5, 1966.

⁷ Ibid.

Fourth, the demonstration cities proposal endows the potential coordinator with too much personal authority. Supposedly, he is to give pertinent information and render useful assistance with respect to the broad array of Federal grant-in-aid programs. But this act could create what is tantamount to a Federal czar appointed by the Secretary of HUD.

Title IV of this omnibus bill which is entitled "Land Development and New Communities," is shot through with such terms as "satisfactory to the Secretary," "as the Secretary declares reasonable," "if the the Secretary determines," "approved as adequate by the Secretary," and "regulated in a manner acceptable to him." In effect, the Secretary with his first lieutenant, the coordinator, could create, in accordance with criteria that he would develop, new towns and cities that would be subject primarily to their direction and control. I ask that this ambitious scheme be stricken from this bill.

Federal planners are talking in terms of breaking down "precincts of power" and "walls of separate jurisdiction" in the Nation.¹⁶ "When we get through," one said, "none of our institutions is likely to be the same."¹⁷

Such talk is frightening, Mr. Chairman.

I call on this distinguished body to heed the words of J. Rubin Clark, Jr., former U.S. Ambassador to Mexico and Under Secretary of State. He has said:

Tyranny has never come to live with any people with a placard on his breast bearing his name. He always comes in deep disguise, sometimes proclaiming an endowment of freedom, sometimes promising help to the unfortunate and downtrodden, not by creating something for those who do not have, but by robbing those who have. But tyranny is always a wolf in sheep's clothing, and he always enters by devouring the whole flesh, saving none.¹⁸

Mr. GONZALEZ. Mr. Chairman, I rise in support of this legislation.

It has been my privilege to serve on the Subcommittee on Housing under the very eminent leadership of Chairman BARRETT, and above all under the expert and experienced leadership of our overall committee chairman, my distinguished and revered colleague the gentleman from Texas [Mr. PATMAN].

Mr. Chairman, I cannot think of a more important legislative program than this one in order to continue with what this bill so eloquently states at the very outset is our No. 1 primary program and problem in the United States. It says:

The Congress hereby finds and declares that improving the quality of urban life is the most critical domestic problem facing the United States.

Those of us who have had the privilege to serve on a local legislative level, as I have on the city council of my native city, and on the State legislative level, as I have been privileged to serve in the State Senate of Texas, and now on this level, realize the importance of this

legislation in order to complement and round out what is needed for fulfillment in the purposes and aims that Congress has well written into law since the thirties.

It has been my privilege to serve in a capacity closely identified with such endeavors as public housing.

While on the city council of the city of San Antonio, it was my privilege to stimulate further the complete amelioration of the difficulties that sometimes arise between governmental entities.

Perhaps I am prejudiced in favor of these programs because it has also been my happy privilege to live in a city that has found the key to developing local State and national programs as a matter of copartnership as the Congress has time and time again maintained that it should be.

It was my privilege to be the author of the urban renewal and slum clearance law enabling legislation in the State of Texas in 1957. Up to that, time for almost some 15 years, the State of Texas has been bypassed in these important programs because it had not enacted enabling legislation.

Then there were the same cries of opposition, the same identical arguments of doom and gloom and fear and dire consequences that I have heard this afternoon against this bill. I heard these same things on the city council in the State senate, and again on many occasions here in the National Congress.

Mr. Chairman, this bill just as any other bill that is considered by a legislative body may not be perfect. But I can assure my colleagues that it does not contain the provisions that have been so distorted in statements I have heard and arguments that I have read to the effect that it would transform a Secretary into a commissar or into a dictator who is willy-nilly out to integrate and enforce the busing of students from one end of the city to the other.

Mr. Chairman, that is impossible under the terms of this bill and under the statutes and laws and constitutional provisions of our States for this to come about as has been so direfully predicted by some of our colleagues here lately.

I am hopeful that when specific amendments are offered that those amendments that are creative and constructive will be given a full hearing and that we will act upon them accordingly.

Mr. Chairman, many thoughtful persons are seriously questioning whether we can afford not to enact the City Demonstrations and Metropolitan Development Act of 1966. In a recent statement, the National Association of Housing and Redevelopment officials asked whether Congress and the administration can reasonably wait for another long hot summer of social unrest, riots, and demonstrations before relief of poor housing conditions can be provided in slum and blighted areas.

Some would explain away the riots that have occurred in our cities on the propensity of certain persons to break the law and the intent of others to incite civil disobedience. What myopic vision it is to look at poor people rioting and not to see the slums, the poverty and the

degradation in which poor people are forced to live.

The Demonstration Cities and Metropolitan Development Act of 1966 is the real antiriot bill of the 89th Congress. It is the only well-considered, well planned, and well-thought-out bill to prevent further riots and to help solve the numerous problems of the cities that has been produced by Congress this year. Those who have bewailed rioting in our cities from New York to Ohio to California, now have an opportunity to do something about them. Those who have grasped the full meaning of the problems facing our cities, now have an opportunity to help solve them.

This bill itself represents a legislative breakthrough to the most serious domestic problems facing America today. American society, beset by all the problems of urbanization, has the wealth and industrial capacity to eliminate poverty. Our main problem has been the inability to marshal our resources and apply our technology in a way which would remove some of the chaotic conditions in the cities and benefit all the people. The job before us is to translate the language of this bill into concrete facts and real progress.

A vote for the Demonstration Cities and Metropolitan Development Act is a vote against riots in the cities. A vote for this bill is a vote for coordination of Federal activities and maximization of their benefits and effects on the local level. A vote for this bill is a vote to eliminate slums, not by simply tearing them down, but by building new housing and rehabilitating existing housing for low income families, and by making available to these facilities the additional facilities and resources necessary to convert a slum into a decent neighborhood.

I consider this program to be the most important domestic legislation to come before Congress in many years. In my opinion, no Member could be considered sympathetic to the plight of urban America who votes against the bill, or who votes to cripple or disable it.

Mr. PATMAN. Mr. Chairman, I yield such time as he may use to the gentleman from Texas [Mr. CASEY].

Mr. CASEY. Mr. Chairman, 300 major American cities will be prohibited by law from participating in two Federal programs if this House passes H.R. 15890, the housing bill, as it is now written.

These cities—all over 10,000 population, and including the major urban areas of Houston and Baltimore—will be prohibited from participating in the Federal program for planned metropolitan growth, and in all likelihood, in the proposed demonstration cities program.

They will be prohibited because they lack zoning ordinances—and this House has been asked to make this a requirement for such participation.

I see no justification for this requirement. We stand now at the crossroads—do we create a Federal Lord Mayor over our cities, telling them what must be done on a local level—or do we continue to permit local self-determination in matters such as this?

Is this House going to tell the people of such cities as Baltimore, Houston, Mobile, Honolulu, Indianapolis, or Chey-

¹⁶ U.S. News & World Report, March 7, 1966.

¹⁷ Ibid.

¹⁸ "An Analysis of Metropolitan Government," Save Our Suburbs: Northeastern Illinois, p. 1.

enne that they cannot participate in this program?

Are we going to tell the people of 28 cities in Texas, 33 cities in California, 24 cities in Illinois, and 23 more cities in Florida that because you exercised your local option in many cases and rejected zoning—you cannot take part in what we deem to be a solution to your urban growth problems?

Again, I state that I see no justification for this requirement.

And when this bill is opened for amendments, Mr. Chairman, it is my intention to strip this requirement from the bill and to propose a substitute which will make these cities eligible for such aid, on an equal footing with all other localities.

We, in this House, were derelict in not acting earlier when the urban renewal program was passed. Because of this, our lack of foresight, all 300 of these cities are already precluded from receiving Federal help on their staggering urban renewal problems. They are not precluded by law, I hasten to point out. No, they are precluded by an edict issued by the Secretary of the Housing and Urban Development Department, who sets zoning as one of the minimum requirements for receiving urban renewal aid.

Is there any doubt, Mr. Chairman, that the Secretary of HUD will also set zoning as his personal requirement to participate in the demonstration cities program? If he requires it in urban renewal—what else will he require under the blanket authority handed to him on page 5, line 12 of H.R. 15890—where it states that the applicant city's program must "meet such additional requirements as the Secretary may establish"?

This is not a local problem, affecting only a handful of cities across the country. I know that it hits 296—but it may be that hundreds of other cities are involved. The list I have, and which is attached, is most incomplete—yet neither the Housing and Urban Development Department, nor the Library of Congress, can provide a complete list of cities in America which do not have zoning ordinances. And those cities I list are from the latest edition of the International City Managers Association Yearbook, and is compiled only from those cities which replied to a questionnaire the association sent out.

When I read the bill and the report—and saw this requirement written into the law—my first thought was of my own area. I knew that Houston would be precluded, for on three separate occasions, the voters have soundly rejected zoning. I wrote our distinguished mayor, Louie Welch, and sent him a copy of the bill, report, and an amendment I proposed which would cure the problem so that if, in the opinion of our city officials, this program was deemed helpful—they would not be precluded from receiving equal consideration.

It was then that I became interested in knowing just how many other cities would also be prohibited from participation, and the answer to me is astounding.

Surely, these 296 cities need help just as much as any area that has adopted rigid zoning codes. Some of us may believe they need even more help, because their problem is compounded. But this philosophy, apparently, does not prevail at HUD. And we in the House have a great opportunity to show that the Federal Government intends to work with local government in solving those problems too big for them or for the respective States to solve alone.

My amendment is not complex. On page 55, line 24, the language in the bill before the House reads:

In making this determination the Secretary shall give special consideration to whether the applicant is effectively assisting in, and conforming to, metropolitan planning and programming through (A) the location and scheduling of public facility projects, whether or not federally assisted; and (B) the establishment and consistent administration of zoning codes, subdivision regulations, and similar land-use and density controls.

My intentions are to offer the following substitute for this language:

In making this determination, the Secretary may give consideration to the applicant's program of metropolitan planning. He may consider the location and scheduling of public facility projects, whether or not federally assisted; and he may consider the applicant's efforts whether successful or not, to establish zoning codes, to consistently administer subdivision regulations or similar land-use and density controls, and to establish and administer a planning commission to chart orderly community growth in the absence of a specific zoning code and zoning commission. In no instance shall lack of a zoning code prohibit applicant from being approved for participation in this program.

Mr. Chairman, in addition to the specific cities listed which would be prohibited from receiving aid under this bill as it is now written, I ask permission to bring to the attention of my colleagues the legal opinion received from a distinguished attorney, Mr. Edward A. Cazares, first assistant city attorney, from the city of Houston.

I earnestly urge my colleagues to join with me in this effort to help those cities—large and small—who are suffering the same problems of explosive growth from the one source that should be available to all on an equal, nondiscriminatory basis.

The material referred to follows:

CITY OF HOUSTON,
August 31, 1966.

The Honorable BOB CASEY,
Congress of the United States,
House of Representatives,
Washington, D.C.

DEAR CONGRESSMAN CASEY: Please forgive me for not writing to you sooner on the matter of your proposed amendment to H.R. 15890 discussed in your letter of July 29 to Mayor Louie Welch. Mayor Welch has referred your letter to us and I want to assure you that your proposed amendment is very much in order and absolutely necessary if the City of Houston is to be permitted to participate in the programs under Title II.

This requirement (B) on line 20 of page 18 would definitely, in my opinion disqualify Houston from participating. It clearly spells out the requirement of a zoning ordinance for eligibility, and you well know the history of Houston's efforts to vote in such an ordi-

nance. I feel very strongly that this will leave us out because of the position which has been taken by HUD on grants that have a "workable program" prerequisite for approval of the grant. While the law makes no mention of a zoning requirement for the "workable program", this requirement has been ordered by administrative regulations. If the Agency or Department has required zoning even where there was no such requirement written into the law, what can be expected where the law clearly requires it?

I might also point out that the authority give to the Secretary for additional requirements under the provision found on line 12, page 5, of Section 103 of Title I could also result in regulations that would deprive Houston from participation under Title I if the Secretary saw fit to also require zoning as under the present situation I mentioned in the previous paragraph.

If the requirement of zoning is written into any law authorizing grants to local governments, Houston, the nation's sixth largest city, as well as many other worthy cities in the nation, will probably never be able to qualify for such needed aid. This would, in my opinion, be very discriminatory against some of our cities.

No qualitative controls over the zoning ordinances are ever required and no provision seems to exist whereby the local situation in a city without zoning can be examined as to how it compares with localities that have zoning.

I very much appreciate the opportunity to express my views on this matter and I hope that you will be able to have your proposed amendment adopted.

Please call on me whenever you feel I may be of service to you.

Yours truly,

EDWARD A. CAZARES,
First Assistant Attorney.

(Mr. HARVEY of Michigan asked and was given permission to revise and extend his remarks.)

Mr. HARVEY of Michigan. Mr. Chairman, I want to use this time to talk about an amendment I intend to make which will strike from the bill the provision which would commit the United States with the taxpayers' money to underwrite the development of new towns.

This proposal was first made in 1964 and was rejected by both the House and Senate Housing Subcommittees. It was recommended again in 1965 and again it was rejected by both the House and Senate Housing Subcommittees. Now in 1966, with admirable perseverance and boundless confidence in the apparently limitless patience of the American taxpayer, the provision is back with us. This time the new towns proposal has advanced a step. It is now part of the pending bill and my amendment, if approved by the House, will return it to the oblivion which it richly deserves.

This "new towns" provision would provide for FHA insurance of a mortgage on a new town for land assembly and site improvement. The maximum mortgage per new town would be \$25 million. The FHA insurance of what is apparently a privately-originated mortgage is nothing more than fiction because under section 405 the Federal National Mortgage Association is authorized to purchase the mortgage at par by drawing upon the Treasury for the money. You need not ask from where the Treasury gets the money.

In order to qualify for this "new town" bonanza, the developer must prepare plans which meet criteria laid down by the Secretary of Housing and Urban Development. In not so subtle language the administration architects of this provision present a master blueprint for the future Federal control of new communities, for the federalization of the cities of tomorrow.

This new towns provision represents an interesting case study in the metamorphosis of a plan to make it more acceptable to an unsuspecting public.

In 1964 the proposal made it clear that in order to qualify for this \$25 million mortgage the new town plans must satisfy the housing boss downtown that: First, it meets the housing and related needs of families with varying incomes; second, it establishes sound land use patterns; third, it encourages the most efficient use of transportation and other areawide facilities; fourth, promotes employment opportunities and future economic growth in the community; and fifth, that the land development shall be consistent with such assurances as the Commissioner may require as to actions to be taken by local public bodies in order to permit the implementation of the new community plan.

In the 1965 proposal the administration's housing bill no longer had a section entitled "new communities." Instead the new towns proposal was almost concealed in a new title involving the land development mortgage insurance. No longer could one see the elaborate criteria of the 1964 provisions but they

were there nevertheless in the general regulatory powers of the Secretary of Housing and Urban Development. So, in 1965 the Housing Subcommittee performed a little surgery, excising from land development insurance the "new towns" proposal.

Now it is 1966 and this time we have the title "new communities" but the broad blueprint for the federalization of new towns present in the 1964 version is disguised by softer language which conditions eligibility on less controversial conditions such as substantial economies in building, adequate housing for those employed in the community, and maximum accessibility to industrial, commercial, recreational, and cultural facilities.

Mr. Chairman, homeowners throughout the Nation are seeing their equities wiped out because of the tight-money situation. Homebuilding is suffering from a disastrous slump because so many homeowners are unable to sell their homes in order to buy new ones. Recently, the Congress enacted a FNMA bill designed to direct money into homebuilding and the residential mortgage market; \$1 billion of this was to be made available through FNMA special assistance. Because of the inflationary and budget impact this \$1 billion has been impounded by the administration. Yet here we have a provision that would authorize FNMA to draw money from the Treasury to underwrite "new towns."

Mr. Chairman, I submit for the benefit of my colleagues, a letter from the National Association of Home Builders in support of my amendment:

NATIONAL ASSOCIATION OF
HOME BUILDERS,

Washington, D.C., October 12, 1966.
The Honorable JAMES HARVEY,
House of Representatives,
Washington, D.C.

DEAR CONGRESSMAN HARVEY: The National Association of Home Builders strongly supports your amendment to S. 3708, the Demonstration Cities and Metropolitan Development Bill of 1966, to eliminate the proposed FHA authority to finance the development of "new communities".

We believe that the present FHA title X land development program is more than adequate for the financing of all but the largest residential developments.

Enclosed for your information is a brief statement of NAHB's position on title IV of S. 3708.

Sincerely,

LARRY BLACKMON, President.

Mr. PATMAN. Mr. Chairman, I yield 5 minutes to the gentleman from California [Mr. COHELAN].

Mr. COHELAN. Mr. Chairman, in my judgment, this legislation to begin a demonstration cities program is the most important new proposal to come before the Congress this year, and I strongly urge its passage.

Today we find 3 out of every 4 Americans living in urban areas. Every year we add another 3 million residents to our urban population. The critical problems of these urban areas then, in a very real sense, are the critical problems facing this country.

Our cities have been at the heart of our progress and development as the leading industrial nation of the world. But our cities have not kept up with

the needs of those who now live in them. Without a substantial new effort—without a concentrated and coordinated attack on basic urban ills—our cities have little hope of meeting the needs of the growing and changing population that will soon inhabit them.

The problems of our cities defy simple definition, just as their solutions defy quick and easy answers. But it is no exaggeration to say that the growing ghettos of our central cities are characterized by poverty, illiteracy, and disease. They are characterized by decay and deterioration; by the pentup anger of people living outside the affluence enjoyed by much of our society.

Our cities are increasingly the home for persons of low income. Slums and blight are widespread. More than 7 million homes in urban areas are run down; community services and facilities are frequently inadequate.

This week 22 chief executives of major American corporations, under the leadership of Edgar F. Kaiser, stated the problem plainly while urging approval of the Demonstration Cities Act:

Our cities are being submerged by a rising tide of confluent forces—disease and despair, joblessness and hopelessness, excessive dependence on welfare payments, and the grim threats of crime, disorder and delinquency.

Cities across our country have made major efforts to meet their problems. As the committee's report notes, between 1954 and 1963 tax revenues increased by 43 percent and municipal indebtedness increased by 119 percent.

But central cities today are caught in a vicious cycle. As blight mounts, the taxable value of the land falls. As new tax burdens are placed on industry, the more likely it is to move to the suburbs. As the need for programs and services increases, the base for supporting them declines. Under these circumstances, Secretary Robert Weaver has pointed out, it is not surprising that the cities with the greatest slum problems have the least capacity for solving them.

Many good Federal programs are already at work which directly benefit our cities—the war on poverty, aid to education, job development, housing, manpower retraining, and others. But each of these programs approaches a single problem with a single weapon. Although they may operate side by side, they are usually indifferent to each other, and sometimes they are even in conflict with each other.

The city of Oakland, in the Seventh District of California, presently has 140 different programs and projects which have some form of Federal funding in their budgets. But the maximum effectiveness of these federally assisted programs can only be achieved through coordination, which does not now exist.

This bill would make that coordination possible. It would help cities to plan, develop and carry out comprehensive city demonstration programs.

It would make it possible to improve and substantially increase the supply of low- and moderate-cost housing in the cities. It would make it possible for cities to concentrate their educational, health, antipoverty, and social service

programs directly on the large numbers of poor and disadvantaged people who live in slum and blighted neighborhoods. Most important, it would make it possible to treat human needs at the same time physical rehabilitation is being carried out.

This legislation would mobilize and coordinate Federal resources, but it would depend on local initiative. And let me make this point very clear, for once again we are hearing the familiar charge by opponents that this is a Federal takeover; that this is a Federal invasion of local responsibilities. We have all heard this before on programs such as education and medicare. It is a familiar, and false, refrain. Let us put it to rest.

This will be a local program making the best possible coordinated use of Federal resources. It will be planned, developed and carried out by local people. Both the character and the content of the program will be based on the judgment of local people as to their own local needs.

And let us also put to rest the equally false and malicious charge that this bill could be used to force the integration of schools in segregated neighborhoods. Nothing in this bill, according to officials at the Department of Housing and Urban Development who have studied the language, could be used to accomplish this purpose.

As the Washington Post pointed out in an editorial on October 4:

If a Congressman really thinks that the cities do not need help, or that the present chaotic organization of Federal programs is sufficient, or that metropolitan planning is socialistic, then he is justified in voting against the bill. He will be profoundly mistaken, but it will be an honest vote. Deliberately to inject the racial issue into the debate, on the other hand, is a transgression of altogether another magnitude. It is an attempt to defeat a bill on specious grounds.

Mr. Chairman, let us consider this bill on its merits, and as we do, let us bear very clearly in mind that this is not just another project. It does not add more tools or measures to those we already have. Rather, it is a plan to use all of our available tools and resources in a concentrated and coordinated way. It is a tool for dealing in a total way with the total problems of slums, ghettos, and blight.

It is the exact opposite of our past piecemeal approach to urban problems;

It launches a comprehensive attack.

It combines human as well as physical renewal.

It focuses all available resources—local, State, Federal, and private enterprise—in areas of planning, housing, transportation, job-training, health facilities, recreation, education, and welfare programs.

It mobilizes all available talent and skills.

Its objective is the total improvement of the lives of the people who inhabit our cities.

This bill would authorize only \$12 million in planning funds for the present fiscal year. Over the next 2-year period, ending June 30, 1969, it would authorize only an additional \$12 million for plan-

ning and \$900 million for supplementary grants.

Two weeks ago, without a dissenting vote, we passed a \$2-billion measure to combat water pollution. There is no question that these funds were needed. But certainly we can approve half this amount to coordinate the attack on the pressing problems of our central cities. If anything, I would suggest that we have set our sights too low.

Mr. Chairman, the slums of our urban areas did not develop overnight. They are the product of generations of social and economic neglect. This bill gives us an opportunity to reverse that course. It should be approved as a wise investment in our cities and the future of the millions of Americans that live in them. For as the report on the Watts riots so prophetically pointed out:

Of what shall it avail our nation if we can place a man on the moon but cannot cure the sickness in our cities?

(Mr. COHELAN asked and was given permission to revise and extend his remarks.)

Mr. GILBERT. Mr. Chairman, I am pleased to voice my support of S. 3708, the demonstration cities bill. I am one of the sponsors of this legislation which I consider a giant step in responding to the needs of our cities. The facts are clear—there is not a single city in this Nation today able to pay, out of its own pocket, for the cost of solving its total urban problem. If the areas of blight and slum which scar America's city-face, and the problems of the people who live within these slums are to be solved, a massive, coordinated effort will be required of all levels of government. It will not be a panacea for all the ills of our cities, but the legislation before us does represent a coordinated and constructive approach—using all available State, local, Federal, and private resources—to tear down the ghettos and rebuild the blighted areas.

The establishment of the Department of Housing and Urban Development last year, which I strongly supported, provided a focal point for a Federal-local partnership, combining local initiative and local solutions with Federal Government financial and technical assistance. The bill before us will mobilize local initiative and leadership with Federal and private resources.

We all know the various aspects of the total problem our cities face: poor housing, inadequate health facilities, unemployment, congestion, filth, delinquency and increased crime rates, insufficient transportation and recreation facilities—to name but a few. Over the past years, we have attempted to cope with these as separate entities, and while we have had some measure of success, we have not been successful enough. The present condition of our cities—their rapid growth and decay—offers proof of that. Fortunately, the successes and lessons of the past have given some clear directions for advancing into the future.

The demonstration cities program provides for the concerted and coordinated use of our wealth of specialized urban assistance programs. It provides

desperately needed financial assistance to our cities. In a functional combination of these, it provides for the use of people-oriented programs, with which simultaneously to attack the human blight that is inseparable from the city blight.

The supplemental grants of this program do not require dollar-matching performance on the part of the urban areas. The grants are "triggers" which will enable our cities, for the first time, to plan coordinated, overall programs that will interweave various grant-in-aid programs to meet their special needs. It will enable our cities to better pay for their share of widened use of such grant-in-aid programs. It provides for the use of new program aspects, which may be vital to their local problems, but which are not presently funded by grants-in-aid.

We cannot afford to lose our enormous investment in our cities. We cannot afford the prohibitive costs of maintaining slums and blight. In my city of New York, we have over a half million people receiving various forms of public welfare, costing the city, State, and Federal Governments more than a half billion dollars annually. Almost 25 percent of the 2½ million households in New York City have an annual income under \$3,000. Over 1½ million of these live in abject poverty. There are more than a quarter of a million slum buildings in the city.

Nothing short of a massive attack is going to recover and rehabilitate our cities. Suffice it to say that our cities cannot finance programs of this scope. City effort to stabilize their tax revenue through increases have only accelerated the exodus of money sources, personal and industrial, to the suburbs. The physical decay of our cities forces city services to become more costly, and those best able to finance and rehabilitate through more taxes simply leave the cities for the suburbs.

Mr. Chairman, the linkage of programs provided in S. 3708, with the use of existing programs such as urban renewal, low- and moderate-cost housing, deserves our support. The end result will be lasting benefits to the entire city and all its inhabitants—not just the disadvantaged who live in the areas of blight. I believe this legislation gives the best answer to the President's demand for an effort "large in scope"—more comprehensive and more concentrated—than any that has gone before us.

Mr. ROSENTHAL. Mr. Chairman, I rise to give my strongest support for S. 3708. It is a necessary, if small, step in the enormous task that faces us if we are to rescue our cities from blight and further deterioration. We need do little more than look around to see that our cities are in crisis.

Experience has taught that urban renewal programs are ineffective unless they tackle the human problems so intimately related to slum conditions. This bill incorporates that lesson by requiring local communities to draw up comprehensive renewal plans, including social welfare and antipoverty programs, in order to be eligible for the demonstration grants. Viable neighborhoods are

not created with brick and mortar alone. To be truly livable, they must have adequate schools, hospitals, parks, and jobs. These are the only guarantees that the neighborhoods will not deteriorate again. This approach is good because it forces the communities themselves to take the initiative, and insures that hard-core slum problems are tackled at their roots.

The \$900 million to be appropriated over 2 years is not much considering the large number of cities which could use such aid. In an editorial on October 11, the Long Island Press commented that—

It really adds up to only a tentative beginning in an attack on what President Johnson rightly diagnoses as the most important domestic problem. Mayor Lindsay figures New York City alone will need \$50 billion over the next 10 years to bring the city to a decent stage of liveability. The mayor of Detroit figures his town would need \$15 billion over the same period and that the national bill could run as high as \$530 billion.

But, hopefully, by making money available only for those neighborhoods which can draw up comprehensive anti-poverty and urban renewal plans, the cities will demonstrate what a concentrated attack on urban blight can accomplish. These demonstration grants are intended to be catalysts for new initiatives and a prelude to a larger attack on this nationwide problem.

But the real importance of this bill lies in its provisions to rationalize and coordinate the multiplicity of Federal programs arrayed against urban blight. By placing Federal urban programs under one umbrella, the bill would give the newly created Department of Housing and Urban Affairs the clear direction it seeks and a much-needed shot in the arm. HUD's influence with the cities will increase proportionately as it speaks with a single, articulate voice.

To cut or defeat this bill at this time would be myopic in the extreme. To those who argue that passage of this bill would add to inflationary pressures, I answer that if we do not arrest the decline of our cities now, the cost will be so much greater later. Even the small appropriation which it provides for could make a significant contribution to a solution for our cities. I therefore urge that we unite in voting for this bill.

Mr. ANNUNZIO. Mr. Chairman, I wish to express my support for S. 3708.

The critical needs to which its provisions are addressed have been graphically described.

I agree completely with the position that, unless remedy is promptly applied, our urban problems may grow beyond control, and distort our national shape, if indeed they do not endanger our national being. I believe that time is of the essence for taking the most effective measures at our command.

Many arguments have been presented in opposition to the affirmative program to remedy the need. Not one of them stands inspection and not one is forthrightly stated.

It has been alleged that the demonstration cities proposal represents only

the wishful thinking of the Department of Housing and Urban Development.

If this were true, I would like to know how the act came by the full endorsement of groups of such high prestige and diverse interests as, to name but a few—the U.S. Conference of Mayors, and the National Farmer's Union; the National Housing Conference, and the Governor's Conference; the Presbyterian Church Office, and the AFL-CIO; the National League of Cities, and the National Association of County Officials; the National Association of Home Builders, and the National Urban League; the American Institute of Architects, and the National Council of Senior Citizens; the United Community Funds & Councils of America, and the American Public Health Association; the National Federation of Settlements and Neighborhood Centers, and the National Conference of Catholic Women; the National Association of Social Workers, and the National Council of Churches; the National Conference of Catholic Charities, and the Cooperative League of the U.S.A.; the National Jewish Welfare Board.

Here is another illogical opposition argument. One part contends that—

Only a limited number of cities can be expected to participate in the program.

In the next breath, the same voices complain that—

Every city is eligible, and eligibility is going to be used as a "lure" to entice political support.

This is truly confusing, since it is impossible that every city be eligible at the same time only a limited number of cities are eligible.

If these antagonists want to limit the program to some small number of cities, they should say so, and declare in advance what cities or cities' types they want to be included.

The hard facts about participation in the program are stated very clearly on page 14 of our committee report:

The ultimate success to this new program rests upon the ability of local people to assess their own most pressing problems and devise their own solutions to those problems. The cities themselves, by their actions, will determine which of them participate in this program. Those cities which can concentrate their resources, identify their problem areas, and develop sound imaginative solutions will be the first to qualify.

But all cities will benefit from the solutions to urban problems developed through the demonstration cities approach. Your committee is confident that every city will ultimately use this "total attack" approach to solve its urban problems.

I hear it argued—that there could be a transfer of funds within the various programs covered by a city's demonstration plan.

This is untrue. Funds appropriated for the purposes of any existing grant-in-aid program are in no way affected by a demonstration city proposal. Again, let me make reference to the clear language of the committee report, as stated in the fifth and sixth paragraphs of the section "Federal assistance provided"—page 6.

It is argued that small cities will be prevented from participating because of the requirement that a demonstration

city applicant have the necessary administrative machinery to carry out a program.

Again, the argument is entirely false. Let me read to you from the section headed "Participation in the program"—

The Committee intends that the assistance provided by Title I of the bill be given to cities of all sizes and in all parts of the country. This will enable the program to demonstrate the wide range of methods available to deal with the diversity of problems that face cities of all sizes throughout the country.

It has been alleged that title V, which provides mortgage insurance for group practice facilities, is unnecessary, because small business loans can be used for this purpose. In reality, however, nonprofit groups cannot qualify for small business loans and therefore have no access to this financing.

It has been argued that the Interstate and Foreign Commerce Committee considered this proposal, and turned it down. The truth, however, is that this committee took no action but referred the matter to the House Banking and Currency Committee which has jurisdiction over mortgage insurance. Hon. WRIGHT PATMAN, the able chairman of the committee, subsequently introduced appropriate legislation which received favorable consideration.

It has been said there is no need for this provision, but nonprofit groups all over America, in telegrams, letters, an personal testimony, overwhelmingly endorsed title V because of the extreme difficulty they have experienced in securing conventional financing.

It has been claimed that title V would be costly to the Government but this charge is unfounded. I want to emphasize that this is a no-cost proposal, because it is only mortgage insurance, and a premium charge would cover both the costs of administration and the risk of default. In essence, title V of the bill before us would allow the Federal Government to insure mortgages for group practice facilities so that they can obtain the necessary financing. Our committee has closed the door to possible abuses by adding a protective clause which requires that mortgage insurance will not be granted unless positive evidence is presented to the effect that conventional financing is unavailable.

A host of other such opposition arguments have been raised. They are alike in their total lack of merit and in the loose manner with which they handle the facts.

The plain facts are these:

There is a vast need for correction of our central-city problems.

The city demonstration program provides our most knowledgeable tool for initiating the comprehensive remedies that are needed.

No meritorious arguments exist to justify our refusal to put it to work.

I urge my fellow Members to support this important and vitally needed proposal.

Mr. HANLEY. Mr. Chairman, I rise in support of S. 3708, the Demonstration Cities and Metropolitan Development Act of 1966. As the Representative of a great and progressive metropolitan area,

I feel deeply that this legislation is in the best interests of the American city.

Mayor Walsh of Syracuse was recently quoted as saying that—

Cities are in trouble all over the country—

And he continued:

If cities are going to survive, we've got to have Federal aid—some type of aid.

The mayor's point is well taken. The homes of 7 million urban families are dilapidated or deteriorated, and most of these homes are concentrated in slum neighborhoods where good schools, open spaces, and adequate health, social, and recreational facilities are lacking. These are the neighborhoods where social and economic decay are most apparent. Crime and delinquency rates are high, the number of school dropouts is high, the number of unemployed and unemployable persons is high, illiteracy and infant mortality rates are high. These neighborhoods are marked by falling tax revenues, business losses and hard core joblessness. In these areas the costs to the city for social services are very high.

There are those who will say that these problems are not the business of the Federal Government. In my judgment these are the problems of all the levels of government, and they should be of special concern to the Federal level because it is the Government with the financial resources of the magnitude needed to do the job. It is obvious to all those who are interested in the problems of cities that the financial resources of municipal government are too hard pressed to do the job.

When Mayor Walsh said that the cities are in trouble, he was indicating the inability of the city to raise the needed revenue. In my judgment, it is ridiculous to think that the cities have something to learn about urban problems from the Federal Government. Local government does not need any advice about the nature of its problems from the Federal Government, nor do the cities have to be reminded about what must be done. The cities already know these things, they know what is wrong and they know better than any other level of government what must be done. To be very blunt, what the cities want from the Federal Government is money, or if you prefer, financial resources.

There is no question but that the cities are receiving grants in aid from the Federal Government, and I cannot let the opportunity go by to state that there is more aid than ever for more programs than ever, and the 89th Congress is responsible for this fact.

The importance of the bill we debate today rests on the recognition that the cities must be given an opportunity to make the best possible use of all the Federal-aid programs aimed at their problems. That opportunity will come with the large, general-purpose supplemental grant envisioned in the demonstration cities program. This Federal grant will be used by the city to help pay its normal share of the costs of the various Federal grants-in-aid programs. And this is precisely what the cities need at this time. The grant can also be used by the city to pay for new and addi-

tional projects and activities which are a part of the total program of demonstration.

The purpose of the program is to demonstrate what can be done through a comprehensive, concentrated, and coordinated attack, making full use of all of the available Federal, State and local resources, both public and private, to revitalize entire blighted areas within a city.

I strongly support the demonstration cities program because it will demonstrate also a long-overdue recognition by the Federal Government of the initiative, the responsiveness, the dedication, and the resourcefulness of modern American municipal government. We want these programs to be planned at the local level and we want them executed by the local level.

Make no mistake about it, I am interested in this program because I believe that it is in the best interests of the citizens I represent. I want to take this opportunity to quote some of the views on the demonstration cities program expressed by government officials in my congressional district. Thomas E. Ward, director of the Syracuse-Onondaga County Office of Economic Development said that if Syracuse participates in the program, "we can jump the gap between the fragmented attack we have today and the total rebuilding program which the demonstration method makes possible." Mr. Ward is quoted as saying that Syracuse could rebuild the 3,000 acres which surround existing urban renewal projects in the city's inner core. In this doughnut-shaped area live more than 80,000 persons, and in 1963 the area contained almost 8,000 substandard units.

As a demonstration project we could, as President Johnson urges, change the total environment of the neighborhoods and provide schools, parks, playgrounds, community centers and access to all the necessary community facilities.

George Schuster, Syracuse's commissioner of urban improvement, was quoted as saying that the demonstration cities program should help local urban renewal and strengthen the five county regional planning program by providing studies of water resources, mass transportation, water and air pollution, and similar problems. R. Spencer Steele, Syracuse's planning commissioner, said that the demonstration cities program looks like a fantastic program which is badly needed. Mayor William Walsh of Syracuse has indicated to Secretary of Housing and Urban Development Weaver that the demonstration cities program, if properly funded, would provide the legislative tools by which Syracuse could demonstrate its ability to virtually eliminate the problems of substandard housing and poverty.

Mr. Chairman, in my judgment, this legislation is of vital importance to the future of American cities. It carries the endorsement of those who know the most about cities, and those who are most interested in solving the problems of cities.

Mr. OTTINGER. Mr. Chairman, I rise in support of S. 3708.

In my supplementary views in the House Banking and Currency Committee report of July 15, 1966, on H.R. 15890, the House version of this measure, I strongly stated my support for the demonstration cities concept. I said:

I wholeheartedly approve of the approach of the demonstration cities program put forward in this bill. The crisis of urban deterioration is enormous and pressing. It is national in scope. A new approach is desperately needed. The demonstration cities program will show whether concentration of existing Federal programs can succeed in eliminating the blight of slums from substantial areas.

I objected, however, to the "blank check" authorizations in that bill, saying:

The bill contains absolutely no limit or guidelines on the amount to be authorized. I don't think the Banking and Currency Committee of the House should write a blank check.

I pressed forcefully for a realistic appraisal of the program and placement of a firm "price tag" on each item.

I am very pleased that the Senate took this same view and in S. 3708 did, in fact, provide a firm price tag for each item.

I am also pleased that the House Banking and Currency Committee, on which I serve, saw fit to adopt the Senate version on September 1, 1966—and that the administration has also changed its views to meet the objections I had advanced.

The bill as reported to the House now eliminates the unlimited "blank check" authorization for the demonstration cities project provided under title I and authorizes an appropriation not to exceed \$400 million for fiscal 1968 and \$500 million for fiscal 1969, in addition to the \$12 million for planning funds authorized in both bills for this year, fiscal 1967.

There are still problems with this authorization. Nowhere is it specified either how many cities will be included or how extensive a program in each city is contemplated. These facts should be known. Yet, it seems to me that this bill offers a reasonable assurance to the cities that a start will be made, without issuing blank checks we could later regret. The authorizations for future years can always be adjusted upward or downward depending upon the results of the plans submitted by cities and upon the national fiscal situation at the time.

It is no secret that many of the urban renewal and related programs have not been a success in the past. Unconscionable profits have often been made on some housing programs. Too often, urban renewal has meant removal of the poor instead of provision of better housing for them. I feel strongly that the demonstration cities program plans should be examined with greatest care to assure their soundness. They should be administered with a firmness and thoroughness that has not always been the case in the past.

The authorization in S. 3708, however, seems sufficiently conservative to assure a start to the program, while reserving for the authorizing committee adequate opportunity to examine each of the pro-

jects for those that are worthy of continuing support.

I am also pleased that the other "blank checks" in the bill, to which I pointed in my supplemental views, have also been eliminated. Thus, metropolitan planned development now carries a \$75 million, 2-year price tag; and the "blank check" for technical research advances is now replaced by a \$15 million, 2-year authorization.

These changes substantially meet my objections to the original House version of this legislation. I therefore feel I can now wholeheartedly support the bill and urge my colleagues to do the same.

Mr. PATMAN. Mr. Chairman, I have no further requests for time, and ask that the Clerk now read.

The CHAIRMAN. Is no further time being requested by the gentleman from New Jersey?

Mr. WIDNALL. No, Mr. Chairman.

The CHAIRMAN. No other time is being requested by the gentleman from Texas?

Mr. PATMAN. That is correct.

The CHAIRMAN. There being no further time requested, the Clerk will read.

Under the rule, the committee substitute now in the bill will be read by titles instead of by section. The Clerk will now read by title the substitute committee amendment, which is printed in the reported bill as an original bill for the purpose of amendment.

The Clerk will read.

The Clerk proceeded to read the bill.

Mr. PATMAN. Mr. Chairman, I ask unanimous consent that further reading of the bill be dispensed with and that it be printed in the RECORD and open for amendment.

Mr. WIDNALL. Mr. Chairman, reserving the right to object, does that mean that if no objection is made tomorrow, the entire bill will be considered as read and open for amendment at any place?

The CHAIRMAN. That is correct, under the request of the gentleman from Texas.

Mr. PATMAN. Mr. Chairman, I ask, as I intended to ask, unanimous consent that further reading of title I be dispensed with, that it be printed in the RECORD, and open for amendment at any point.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas?

Mr. HALL. Mr. Chairman, reserving the right to object, and I think I shall not object to this, may we have a statement from the gentleman in charge of the handling of the bill on the majority side about the intention as far as further activity of the committee is concerned?

Mr. PATMAN. We expect the Committee to rise. A motion will be made that the Committee do now rise, and tomorrow we will start on title I. Any amendments to the title will be germane first.

The CHAIRMAN. That is my understanding. Does the gentleman withdraw his reservation of objection?

Mr. HALL. Mr. Chairman, further reserving the right to object, as I indicated the first time, I will withdraw it in good time. I am wondering why we do not proceed on title I, since it is probably the shank of the evening, as far as the time to which we worked last evening is concerned, and in view of the rush toward adjournment is concerned?

The CHAIRMAN. I may say to the gentleman from Missouri that that is the will of the committee.

Mr. McCORMACK. Mr. Chairman, will the gentleman yield?

Mr. HALL. I am glad to yield to the distinguished Speaker.

Mr. McCORMACK. The gentleman is entitled to complete information. Of course, the rule called for 6 hours of general debate. Due to the fine leadership on both sides—

Mr. HALL. And the cooperation of the Members.

Mr. McCORMACK. And the cooperation of the Members, precisely—I am glad the gentleman said that—apparently all the 6 hours were not used. It was based on that; the belief that the 6 hours would take us rather late into the night—not too late, but late enough. In conference with the minority leader, we agreed that after the general debate had been closed the amendment stage would start tomorrow, with the further agreement or understanding that we would meet at 11 o'clock tomorrow.

I would agree that if we had known it was going to be as early as this I do not believe either one of us would have entered into that understanding, but we were doing so because of our respect for and feeling for the Members of the House.

So, thoroughly agreeing with my friend from Missouri that we did not expect to arrive at this stage at this hour, I believe the House has done a good job today. I am satisfied.

Mr. HALL. Mr. Chairman, I appreciate the words of the Speaker, and I appreciate his leadership. I certainly appreciate what he is trying to do out of comity and commitment to the other Members.

As I said at the beginning, I shall not object.

I wonder if the Speaker or the leadership handling the bill could give us further assurance that we will come to a final conclusion within a reasonable time tomorrow and get some of the rest of our business on the program for the week completed.

Mr. McCORMACK. I am very happy to hear the gentleman from Missouri say that, because I will cooperate in every way possible to get this bill through.

I might also say I discussed with the minority leader the question of meeting at 10 o'clock tomorrow, but some situation arose, which was very proper. I recognized this. In talking with the minority leader I said we would ask for 11 o'clock. I realize it will be by unanimous consent, whether 10 o'clock or 11 o'clock.

If we meet at 11 o'clock, it will be with the understanding that we would dispose of this bill tomorrow.

I might also say, for the information of Members of the House, so that the

Members will be alerted, after the disposition of this bill tomorrow, if it is in order, because of other necessities in connection with the adjournment of the House, we would call up the conference report on the bill to improve the hopes and aspirations of countless millions of Americans in their future lives, known as the antipoverty bill.

Mr. HALL. Mr. Chairman, again I appreciate the portrayal of things to come by the distinguished Speaker, who has in his charge the programing of all business of this House.

There is another bill or two on the program for the week. Do I correctly understand that after we complete this bill tomorrow and the conference report on the antipoverty bill it is planned to adjourn over until Monday?

Mr. McCORMACK. If we complete that tomorrow, I would feel that the Membership of the House had been so cooperative that we should go over until Monday.

Mr. HALL. Mr. Chairman, I gladly withdraw my reservation.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas?

Mr. ARENDS. Mr. Chairman, further reserving the right to object—and of course I shall not object—if I understood the Speaker correctly, it is hoped to take up the conference report on the so-called poverty bill tomorrow?

Mr. McCORMACK. The bill to improve the hopes and aspirations of countless millions of Americans, known as the so-called antipoverty bill.

Mr. ARENDS. That has not been filed as yet.

Mr. McCORMACK. No; but I believe they are going to ask unanimous consent to do so. I hope so.

Mr. ARENDS. That will have to be done by unanimous consent, to have permission to file tonight so that it can be considered tomorrow.

Mr. McCORMACK. It would have to be filed by midnight tonight.

Mr. ARENDS. If unanimous consent were granted to file by midnight tonight, it would be in order tomorrow; otherwise, not.

Mr. McCORMACK. Of course. If anyone objected, he would only be prolonging it and making it more difficult in connection with October 22.

We all have problems. I have my problems. I am trying to cooperate to the fullest extent possible.

Mr. HALL. Mr. Chairman, will the gentleman yield?

Mr. ARENDS. I yield to the gentleman from Missouri.

Mr. HALL. I want to point out that I think everyone is trying to cooperate in this haste for adjournment. I think there has not been but one quorum call today. We have certainly cooperated with Columbus' birthday yesterday and put votes over for the convenience of one Member. I know many people who have canceled trips home this evening, members of the usual T. and T. Club, who will not be able to make accommodations for tomorrow evening. Some of them are going by fast jet on Saturday if time permits in this respect. Certainly the dis-

tinguished Speaker himself will recall we considered en bloc the Private Calendar bills on Tuesday in order to expedite the proceedings of the House, albeit we had not met hardly at all on Monday afternoon of this week. So we must work together and cooperate if we are to adjourn and go home at all. But on the other hand, we must exercise the epitome of programing and using the time we do have if we are to accomplish what we must before we adjourn sine die.

Mr. McCORMACK. I thoroughly agree with the gentleman from Missouri. Again there are certain practical considerations. I have the whole picture to view. I have profound respect and friendship for every one of my colleagues without regard to what side of the aisle they sit on. To the fullest extent humanly possible I try to cooperate with them. Again last Monday we did not expect that the bills would get through as quickly as they did. It was a remarkable exhibition of speed. When I programed them, I reasonably anticipated those bills would probably take considerably longer than they did. However, the Members of the House in their sound judgment disposed of them much quicker than we had expected. Still there are other factors involved.

Mr. HALL. There are other factors, Mr. Chairman. I know about the Committee on the Judiciary, and I have been advised about that. I know about last Monday afternoon. But you do not plumb the depths of our heart with the wellsprings of human consideration that wells up therefrom in order to expedite this adjournment so that we can go home and tell our people the truth about what is going on in Washington.

Mr. McCORMACK. That is true. Might I say that the Speaker and the leadership on both sides would like to leave without being considered one who is dictating or undertaking to dictate. There is a marked difference between leadership and arbitrary action.

Mr. ARENDS. Mr. Chairman, further reserving the right to object, I brought this matter up only for this reason. Many changes have been made in the poverty conference report, and in order that the membership of this House will know and become fully acquainted with what is in the conference report now, we must have some time to consider it. That is the only reason why I bring this up. Tomorrow will apparently be a bad day around here as far as absenteeism is concerned on both sides of the aisle.

Mr. McCORMACK. I hope it will only be on your side.

Mr. ARENDS. I know that.

Mr. McCORMACK. But knowing my friend from Illinois, I approach it with some degree of caution.

Mr. ARENDS. Very well. Thank you.

Mr. Chairman, I withdraw my reservation of objection.

The CHAIRMAN. The reservation of objection is withdrawn.

Since this is the time for talking, may I say for the Chair that I am very grateful to the Committee for the very high level of the debate today and the expedition that was shown here as you promised me it would be. We return now to the

regular order, which is the unanimous-consent request of the gentleman from Texas that further reading of title I of the bill be dispensed with and that it be open for amendment.

Is there objection to the request of the gentleman from Texas?

There was no objection.

Title I is as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Demonstration Cities and Metropolitan Development Act of 1966".

TITLE I— COMPREHENSIVE CITY DEMONSTRATION PROGRAMS

Findings and declaration of purpose

SEC. 101. The Congress hereby finds and declares that improving the quality of urban life is the most critical domestic problem facing the United States. The persistence of widespread urban slums and blight, the concentration of persons of low income in older urban areas, and the unmet needs for additional housing and community facilities and services arising from rapid expansion of our urban population have resulted in a marked deterioration in the quality of the environment and the lives of large numbers of our people while the Nation as a whole prospers.

The Congress further finds and declares that cities, of all sizes, do not have adequate resources to deal effectively with the critical problems facing them, and that Federal assistance in addition to that now authorized by the urban renewal program and other existing Federal grant-in-aid programs is essential to enable cities to plan, develop, and conduct programs to improve their physical environment, increase their supply of adequate housing for low- and moderate-income people, and provide educational and social services vital to health and welfare.

The purposes of this title are to provide additional financial and technical assistance to enable cities of all sizes (with equal regard to the problems of small as well as large cities) to plan, develop, and carry out locally prepared and scheduled comprehensive city demonstration programs containing new and imaginative proposals to rebuild or revitalize large slum and blighted areas; to expand housing, job, and income opportunities; to reduce dependence on welfare payments; to improve educational facilities and programs; to combat disease and ill health; to reduce the incidence of crime and delinquency; to enhance recreational and cultural opportunities; to establish better access between homes and jobs; and generally to improve living conditions for the people who live in such areas, and to accomplish these objectives through the most effective and economical concentration and coordination of Federal, State, and local public and private efforts to improve the quality of urban life.

Basic authority

SEC. 102. The Secretary of Housing and Urban Development (hereinafter referred to as the "Secretary") is authorized to make grants and provide technical assistance, as provided by this title, to enable city demonstration agencies (as defined in section 112 (2)) to plan, develop, and carry out comprehensive city demonstration programs in accordance with the purposes of this title.

Eligibility for assistance

SEC. 103. (a) A comprehensive city demonstration program is eligible for assistance under sections 105 and 107 only if—

(1) physical and social problems in the area of the city covered by the program are such that a comprehensive city demonstration program is necessary to carry out the policy of the Congress as expressed in section 101;

(2) the program is of sufficient magnitude to make a substantial impact on the physical and social problems and to remove or arrest blight and decay in entire sections of neighborhoods; to contribute to the sound development of the entire city; to make marked progress in reducing social and educational disadvantages, ill health, underemployment, and enforced idleness; and to provide educational, health, and social services necessary to serve the poor and disadvantaged in the area, widespread citizen participation in the program, maximum opportunities for employing residents of the area in all phases of the program, and enlarged opportunities for work and training;

(3) the program, including rebuilding or restoration, will contribute to a well-balanced city with a substantial increase in the supply of standard housing of low and moderate cost, maximum opportunities in the choice of housing accommodations for all citizens of all income levels, adequate public facilities (including those needed for education, health and social services, transportation, and recreation), commercial facilities adequate to serve the residential areas, and ease of access between the residential areas and centers of employment;

(4) the various projects and activities to be undertaken in connection with such programs are scheduled to be initiated within a reasonably short period of time; adequate local resources are, or will be, available for the completion of the program as scheduled, and, in the carrying out of the program, the fullest utilization possible will be made of private initiative and enterprise; administrative machinery is available at the local level for carrying out the program on a consolidated and coordinated basis; substantive local laws, regulations, and other requirements are, or can be expected to be, consistent with the objectives of the program; there exists a relocation plan meeting the requirements of the regulations referred to in section 107; the local governing body has approved the program and, where appropriate, applications for assistance under the program; agencies whose cooperation is necessary to the success of the program have indicated their intent to furnish such cooperation; the program is consistent with comprehensive planning for the entire urban or metropolitan area; and the locality will maintain, during the period an approved comprehensive city demonstration program is being carried out, a level of aggregate expenditures for activities similar to those being assisted under this title which is not less than the level of aggregate expenditures for such activities prior to initiation of the comprehensive city demonstration program; and

(5) the program meets such additional requirements as the Secretary may establish to carry out the purposes of this title.

(b) In implementing this title the Secretary shall—

(1) emphasize local initiative in the planning, development, and implementation of comprehensive city demonstration programs;

(2) insure, in conjunction with other appropriate Federal departments and agencies and at the direction of the President, maximum coordination of Federal assistance provided in connection with this title, prompt response to local initiative, and maximum flexibility in programming, consistent with the requirements of laws and sound administrative practice; and

(3) encourage city demonstration agencies to (A) enhance neighborhoods by applying a high standard of design, (B) maintain, as appropriate, natural and historic sites and distinctive neighborhood characteristics, and (C) make maximum possible use of new and improved technology and design, including cost reduction techniques.

(c) The preparation of demonstration city

programs should include to the maximum extent feasible (1) the performance of analyses that provide explicit and systematic comparisons of the costs and benefits, financial and otherwise of alternative possible actions or courses of action designed to fulfill urban needs; and (2) the establishment of programming systems designed to assure effective use of such analyses by city demonstration agencies and by other government bodies.

Financial assistance for planning comprehensive city demonstration programs

SEC. 104. (a) The Secretary is authorized to make grants to, and to contract with, city demonstration agencies to pay 80 per centum of the costs of planning and developing comprehensive city demonstration programs.

(b) Financial assistance will be provided under this section only if (1) the application for such assistance has been approved by the local governing body of the city, and (2) the Secretary has determined that there exist (A) administrative machinery through which coordination of all related planning activities of local agencies can be achieved, and (B) evidence that necessary cooperation of agencies engaged in related local planning can be obtained.

Financial assistance for approved comprehensive city demonstration programs

SEC. 105. (a) The Secretary is authorized to approve comprehensive city demonstration programs if, after review of the plans, he determines that such plans satisfy the criteria for such programs set forth in section 103.

(b) The Secretary is authorized to make grants to, and to contract with, city demonstration agencies to pay 80 per centum of the cost of administering approved comprehensive city demonstration programs, but not the cost of administering any project or activity assisted under a Federal grant-in-aid program.

(c) To assist the city to carry out the projects or activities included within an approved comprehensive city demonstration program, the Secretary is authorized to make grants to the city demonstration agency of not to exceed 80 per centum of the aggregate amount of non-Federal contributions otherwise required to be made to all projects or activities assisted by Federal grant-in-aid programs (as defined in section 112(1)) which are carried out in connection with such demonstration programs: *Provided*, That no Federal grant-in-aid program shall be considered to be carried out in connection with such demonstration program unless it is closely related to the physical and social problems in the area of the city covered by the program and unless it can reasonably be expected to have a noticeable effect upon such problems. The specific amount of any such grant shall take into account the number and intensity of the economic and social pressures in the sections or neighborhoods involved, such as those involving or resulting from population density, poverty levels, unemployment rate, public welfare participation, educational levels, health and disease characteristics, crime and delinquency rate, and degree of substandard and dilapidated housing. The amount of non-Federal contribution required for each project in a Federal grant-in-aid program shall be certified to the Secretary by the Federal department or agency (other than the Department of Housing and Urban Development) administering such program, and the Secretary shall accept such certification in computing the grants hereunder.

(d) Grant funds provided pursuant to subsection (c) of this section shall be used for projects or activities assisted under a Federal grant-in-aid program which are undertaken as part of an approved comprehensive city demonstration program, or for other projects or activities undertaken as

part of such demonstration program. If used for projects or activities assisted under a Federal grant-in-aid program which are undertaken as part of such demonstration program, funds provided pursuant to subsection (c) shall be credited as part or all of the required non-Federal contribution to such projects or activities. Such grant funds, however, shall not be used—

(1) for the general administration of local governments; or

(2) to replace non-Federal contributions in any federally aided project or activity included in an approved comprehensive city demonstration program, if prior to the filing of an application for assistance under section 104 an agreement has been entered into with any Federal agency obligating such non-Federal contributions with respect to such project or activity.

Technical assistance

SEC. 106. The Secretary is authorized to undertake such activities as he determines to be desirable to provide, either directly or by contracts or other arrangements, technical assistance to city demonstration agencies to assist such agencies in planning, developing, and administering comprehensive city demonstration programs.

Relocation requirements and payments

SEC. 107. (a) A comprehensive city demonstration program shall include a plan for the relocation of individuals, families, business concerns, and nonprofit organizations displaced or to be displaced in the carrying out of such program. The relocation plan shall be consistent with regulations prescribed by the Secretary to assure that (1) the provisions and procedures included in the plan meet relocation standards equivalent to those prescribed under section 105(c) of the Housing Act of 1949 with respect to urban renewal projects assisted under title I of that Act, and (2) relocation activities are coordinated to the maximum extent feasible with the increase in the supply of decent, safe, and sanitary housing for families and individuals of low or moderate income, as provided under the comprehensive city demonstration program, or otherwise, in order to best maintain the available supply of housing for all such families and individuals throughout the city.

(b) (1) To the extent not otherwise authorized under any Federal law, financial assistance extended to a city demonstration agency under section 105 shall include grants to cover the full cost of relocation payments, as herein defined. Such grants shall be in addition to other financial assistance extended to such agency under section 105.

(2) The term "relocation payments" means payments by a city demonstration agency to a displaced individual, family, business concern, or nonprofit organization which are made on such terms and conditions and subject to such limitations (to the extent applicable, but not including the date of displacement) as are provided for relocation payments, at the time such payments are approved, by section 114 (b), (c), (d), and (e) of the Housing Act of 1949 with respect to projects assisted under title I thereof.

(c) Subsection (b) shall not be applicable with respect to any displacement occurring prior to the date the enactment of this Act.

Continued availability of Federal grant-in-aid program funds

SEC. 108. Notwithstanding any other provision of law, unless hereafter enacted expressly in limitation of the provisions of this section, funds appropriated for a Federal grant-in-aid program which are reserved for any projects or activities assisted under such grant-in-aid program and un-

dertaken in connection with an approved comprehensive city demonstration program shall remain available until expended.

Consultation

SEC. 109. In carrying out the provisions of this title, including the issuance of regulations, the Secretary shall consult with other Federal departments and agencies administering Federal grant-in-aid programs. The Secretary shall consult with each Federal department and agency affected by each comprehensive city demonstration program before entering into a commitment to make grants for such program under section 105.

Labor standards

SEC. 110. (a) All laborers and mechanics employed by contractors or subcontractors in the construction, rehabilitation, alteration, or repair of projects which—

(1) are federally assisted in whole or in part under this title and

(2) are not otherwise subject to section 212 of the National Housing Act, section 16 (2) of the United States Housing Act of 1937, section 109 of the Housing Act of 1949, or any other provision of Federal law imposing labor standards on federally assisted construction,

shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a—276a-5): *Provided*, That this section shall apply to the construction, rehabilitation, alteration, or repair of residential property only if such residential property is designed for residential use for eight or more families. No financial assistance shall be extended to any such projects unless adequate assurance is first obtained that these labor standards will be maintained upon the construction work.

(b) The Secretary of Labor shall have, with respect to the labor standards specified in subsection (a), the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176; 64 Stat. 1267; 5 U.S.C. 133z-15), and section 2 of the Act of June 13, 1934, as amended (48 Stat. 948; 40 U.S.C. 276c), and the Contract Work Hours Standards Act (76 Stat. 357).

Appropriations

SEC. 111. (a) There are authorized to be appropriated, for the purpose of financial assistance and administrative expenses under sections 104 and 106, not to exceed \$12,000,000 for the fiscal year ending June 30, 1967, and not to exceed \$12,000,000 for the fiscal year ending June 30, 1968.

(b) There are authorized to be appropriated, for the purpose of financial assistance and administrative expenses under sections 105, 106, and 107, not to exceed \$400,000,000 for the fiscal year ending June 30, 1968, and not to exceed \$500,000,000 for the fiscal year ending June 30, 1969.

(c) Appropriations authorized under this section shall remain available until expended.

Definitions

SEC. 112. As used in this title—

(1) "Federal grant-in-aid program" means a program of Federal financial assistance other than loans and other than the assistance provided by this title.

(2) "City demonstration agency" means the city, the county, or any local public agency established or designated by the local governing body of such city or county to administer the comprehensive city demonstration program.

(3) "City" means any municipality (or two or more municipalities acting jointly) or any county or other public body (or two or more acting jointly) having general governmental powers.

(4) "Local" agencies include State agencies and instrumentalities providing services or resources to a city or locality, and "local" resources include those provided to a city or locality by a State or its agency or instrumentality.

Grant authority for urban renewal projects which are part of approved comprehensive city demonstration programs

SEC. 113. Section 103(b) of the Housing Act of 1949 is amended by inserting after the first sentence the following new sentence: "In addition to the authority to make grants provided in the first sentence of this subsection, the Secretary may contract to make grants under this title, on or after July 1, 1967, in an amount not to exceed \$250,000,000: *Provided*, That the authority to contract to make grants provided by this sentence shall be exercised only with respect to an urban renewal project which is identified and scheduled to be carried out as one of the projects or activities included within an approved comprehensive city demonstration program assisted under the provisions of section 105(c) of the Demonstration Cities and Metropolitan Development Act of 1966."

State limit

SEC. 114. Grants made under section 105 for projects in any one State shall not exceed in the aggregate 15 per centum of the aggregate amount of funds authorized to be appropriated under section 111.

Mr. PATMAN. Mr. Chairman, I move that the Committee do now rise.

The motion was agreed to.

Accordingly, the Committee rose; and the Speaker having resumed the chair, Mr. FLOOD, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (S. 3708) to assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes, had come to no resolution thereon.

GENERAL LEAVE TO EXTEND

Mr. PATMAN. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days in which to extend their remarks and to include extraneous matter on the Demonstration Cities and Metropolitan Development Act of 1966.

The SPEAKER. Is there objection to the request of the gentleman from Texas?

There was no objection.

ECONOMIC OPPORTUNITY ACT AMENDMENTS OF 1966

Mr. GIBBONS. Mr. Speaker, I ask unanimous consent that the Committee on Education and Labor have until midnight tonight to file a conference report on H.R. 15111, to provide for continued progress in the Nation's war on poverty.

The SPEAKER. Is there objection to the request of the gentleman from Florida?

Mr. ARENDS. Mr. Speaker, reserving the right to object, I would like to ask if

the gentleman from Florida [Mr. GIBBONS] would at this time delay his request momentarily?

Mr. GIBBONS. I shall be glad to do so.

FUR SEAL ACT OF 1966

Mr. LENNON submitted the following conference report and statement on the bill (S. 2102) to protect and conserve the North Pacific fur seals, and to administer the Pribilof Islands for the conservation of fur seals and other wildlife, and for other purposes.

The conference report and statement follow:

CONFERENCE REPORT (H. REPT. NO. 2274)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 2102) to protect and conserve the North Pacific fur seals, and to administer the Pribilof Islands for the conservation of fur seals and other wildlife, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its disagreement to the amendments of the House numbered 1, 2, 3, 4, 8, 9, 10, and 11, and agree to the same.

Amendment numbered 5: That the Senate recede from its disagreement to the amendment of the House numbered 5 and agree to the same with an amendment as follows: Strike out the matter proposed to be stricken out by the House amendment, insert the matter proposed to be inserted by the House amendment, and on page 10, line 23, of the Senate engrossed bill, immediately after "section" insert: "and the costs of such items, including medical and dental care, shall be charged to the budget of the Secretary of Health, Education, and Welfare".

And the House agree to the same.

Amendment numbered 6: That the Senate recede from its disagreement to the amendment of the House numbered 6 and agree to the same with amendments as follows: Restore the matter proposed to be stricken out by the House amendment and on page 10, line 25, of the Senate engrossed bill, strike out "Surgeon General of the Public Health Service" and insert: "Secretary of Health, Education, and Welfare".

And the House agree to the same.

Amendment numbered 7: That the Senate recede from its disagreement to the amendment of the House numbered 7 and agree to the same with an amendment as follows: Strike out the matter proposed to be stricken out by the House amendment, and in lieu of the matter proposed to be inserted by the House amendment, insert the following: "the title conveyed is inalienable for a period of twenty years from the date of conveyance except upon approval of the Secretary. Any deed issued after twenty years from the date of conveyance shall not require approval of the Secretary."

And the House agree to the same.

Amendment numbered 12: That the Senate recede from its disagreement to the amendment of the House numbered 12 and agree to the same with an amendment as follows: Page 4, beginning in line 1 of the House engrossed amendments, strike out "this Act and to the civil service retirement and disability fund pursuant to section 208 of this Act." and insert in lieu thereof the following: "section 206 of the Fur Seal Act of 1966 and

to the civil service retirement and disability fund pursuant to section 208 of the Fur Seal Act of 1966. In administering the Pribilof Islands fund established by section 407 of the Fur Seal Act of 1966, the Secretary shall consult with the State of Alaska annually."

And the House agree to the same.

ALTON LENNON,
HARLAN HAGEN,
THOMAS DOWNING,
THOMAS M. PELLY,
HASTINGS KEITH,

Managers on the Part of the House.

E. L. BARTLETT,
WARREN G. MAGNUSON,
WINSTON L. PROUTY,

Managers on the Part of the Senate.

STATEMENT

The managers on the part of the House at the conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 2102) to protect and conserve the North Pacific fur seals, and to administer the Pribilof Islands for the conservation of fur seals and other wildlife, and for other purposes, submit the following statement in explanation of the effect of the action agreed upon by the conferees and recommended in the accompanying conference report:

The following House amendments made technical, clerical, clarifying, or conforming changes: 1, 2, 3, 8, 9, 10, and 11. With respect to these amendments the Senate recedes. The remaining House amendments are discussed below:

Amendment No. 4: Section 204(a) of the Senate bill contained a requirement that when the State of Alaska assumed the responsibility for furnishing education to the natives of the Pribilof Islands it also assumed the full cost of educating these natives. Up to now the costs of furnishing such education has been financed from the Pribilof Islands fund. The House amendment would assure that such costs will continue to be paid from the Pribilof Islands fund.

The Senate recedes.

Amendments Nos. 5 and 6: Section 205 of the Senate bill authorized the Surgeon General of the Public Health Service to take over entirely the operation of the Pribilof Islands medical program and intended that the funding of the program be through the regular budget of the Public Health Service rather than charged against the Pribilof Islands fund. The House amendments deleted references to the Surgeon General and substituted references to the Secretary of Health, Education, and Welfare to conform with changes in existing law effected by Reorganization Plan No. 3 of 1966, effective June 25, 1966. The House amendments also deleted as unnecessary the language of the Senate bill relating to the authority of the Surgeon General to contract for medical services. Under the House amendments, the medical program would be funded, as in the past, from the Pribilof Islands fund.

The Senate recedes with amendments which accept the substitution of references to the Secretary of Health, Education, and Welfare in lieu of references to the Surgeon General, but add language making it clear that the costs of the medical program will be charged to the regular budget of the Secretary of Health, Education, and Welfare, and restoring the Senate language relating to the authority of the Secretary to contract for medical services.

Amendment No. 7: Section 206(a) of the Senate bill provided for a method of conveying title to lots in a townsite to natives of the Pribilof Islands for the purpose of

fostering self-sufficiency and encouraging the development of local self-government. Each title so conveyed would be inalienable for a period of ten years from the date of enactment of this legislation except with the approval of the Secretary of the Interior. The House amendment provided that such title would be inalienable forever except with the approval of the Secretary.

The Senate recedes with an amendment which provides that such title will be inalienable for a period of twenty years from the date of conveyance, rather than the date of enactment of this legislation, except with the approval of the Secretary.

Amendment No. 12: Section 408(b) of the Senate bill contained a provision dealing with the manner of determining the net proceeds from sales made under this legislation. The Senate bill enumerated certain cost items, such as payments to municipal corporations established under this legislation, required to be deducted in determining such net proceeds. The House amendment added to the list of cost items to be deducted payments to the civil service retirement and disability fund under this legislation.

The Senate recedes with amendments making technical corrections and adding a requirement that the Secretary of the Interior shall consult annually with the State of Alaska in administering the Pribilof Islands fund established by this legislation.

ALTON LENNON,
HARLAN HAGEN,
THOMAS N. DOWNING,
THOMAS M. PELLY,
HASTINGS KEITH,

Managers on the Part of the House.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Arrington, one of its clerks, announced that the Senate had passed without amendment bills of the House of the following titles:

H.R. 11660. An act relating to interest on income tax refunds made within 45 days after the filing of the tax return, and for other purposes;

H.R. 11782. An act to amend the Internal Revenue Code of 1954 to allow a deduction for additions to a reserve for certain guaranteed debt obligations, and for other purposes;

H.R. 16715. An act to amend the Manpower Development and Training Act of 1962;

H.R. 16774. An act to continue for a temporary period certain existing rules relating to the deductibility of accrued vacation pay; and

H.R. 17190. An act to authorize the establishment and operation by Gallaudet College of a model secondary school for the deaf to serve the National Capital region.

The message also announced that the Senate agrees to the amendments of the House to a bill of the Senate of the following title:

S. 3488. An act to grant the consent of Congress for the States of Virginia and Maryland and the District of Columbia to amend the Washington Metropolitan Area Transit Regulation Compact to establish an organization empowered to provide transit facilities in the National Capital Region and for other purposes and to enact said amendment for the District Columbia.

HIGHLIGHTS: House passed demonstration cities bill including rural-housing amendments. House received conference report on packaging-labeling bill. House committee reported supplemental appropriation bill.

HOUSE

- 1. HOUSING LOANS.** Passed, 178-141, with amendments S. 3708, the proposed Demonstration Cities and Metropolitan Development Act of 1966, which includes amendments to the rural-housing law. House conferees were appointed. Senate conferees have not been appointed. pp. 25857-931, 25951
- 2. PACKAGING AND LABELING.** Received the conference report on S. 985, to prevent the use of unfair or deceptive methods of packaging or labeling of certain consumer commodities (H. Rept. 2286). pp. 25937-40

3. APPROPRIATIONS. The Appropriations Committee reported H. R. 18381, the supplemental appropriation bill (H. Rept. 2284). p. 25996
Agreed to the conference report on H. R. 17637, the military construction appropriation bill. pp. 25933-4
Conferees were appointed on H. R. 17636, the D. C. appropriation bill. Senate conferees have been appointed. p. 25851
Rep. Mahon reviewed congressional action on appropriation requests and inserted a table on this matter. pp. 25980-2
4. CROP-LIVESTOCK ESTIMATES. Rep. Whitten commended the work done under the Department's crop and livestock reporting system. p. 25942
5. EDUCATION. Conferees were appointed on H. R. 14644, to extend and amend the Higher Education Facilities Act. Senate conferees have been appointed. p. 25932
Substitute Republican House conferees were appointed on H. R. 13161, to provide for additional aid to elementary and secondary schools. p. 25932
6. INTEREST RATES. Rep. Patman spoke against high interest rates and Federal Reserve Board policies. pp. 25940-2
7. FARM PROGRAM. Rep. Nelsen inserted the Farm Journal Poll and asked what poll Secretary Freeman is reading. pp. 25949-51
Rep. Langen claimed Secretary Freeman is "antifarmer" and asked that he resign. pp. 25953-4
8. FOOD PRICES. Rep. McVicker gave a program to combat high food prices, especially through consumer resistance. pp. 25992-4
9. INFORMATION. Rep. Morton inserted an article saying the new "freedom of information" law will not protect the public's "right to know" unless the people are vigilant. pp. 25951-3
10. REDWOOD PARK. Rep. Cohelan spoke in favor of establishment of a Redwood National Park. p. 25995
11. TARIFF. The Ways and Means Committee reported without amendment H. R. 13363, to extend the time within which certain requests may be filed under the Tariff Schedules Technical Amendments Act of 1965 (H. Rept. 2281). p. 25996
This Committee also reported without amendment H. R. 16160, to amend the tariff schedules regarding classification of Chinese gooseberries (H. Rept. 2282). p. 25996
12. FARM LOANS. The Agriculture Committee reported with amendments H. R. 9151, to permit release of valueless Farmers Home Administration liens (H. Rept. 2279). p. 25996
13. TAXATION. The Ways and Means Committee voted to report (but did not actually report) H. R. 7030, amended, to allow a farmer to deduct from gross income water assessments levied by irrigation ditch companies, etc. p. D1006
14. LEGISLATIVE PROGRAM. Rep. Boggs announced the legislative program: Mon., Consent Calendar and various bills under suspension of the rules, which he listed; Tues., Private Calendar; Tues. and balance of week, supplemental appropriation bill and other measures, which he listed. pp. 25932-3

bill. The bill now before us is the outgrowth of the Douglas-O'Hara bill of 13 years ago. It is not all that I would have it, but it will save for science, for history, and for future generations a considerable portion of the dunes and give to millions of people in Chicago, as well as in other congested areas of the region, a beautiful seashore for recreation and for relaxation. It has well been worth the 13 years of hard driving work that has gone into the fight, and I am happy to have had the privilege of being a participant in that fight from the onset.

The district that I have the honor to represent lies very close to the dunes. During the 13 years that the project has been before the Congress, I have received thousands of letters from my constituents urging its authorizations. I would say that I have received more mail, all favorable, on this bill than any other one measure.

Too much credit cannot be given the senior Senator from Illinois, who has earned the gratitude of America's millions of nature lovers by his stanch championship over the years of this good measure, at times combating discouraging odds. I deem it one of my greatest honors to have worked with him, introducing in the House the original bill in 1953 that Senator DOUGLAS introduced in the other body.

I am confident that today the House will pass the pending bill, with an amendment extending the area of the seashore and making it joyously acceptable to my constituents.

In conclusion I extend my congratulations to the gentleman from Indiana [Mr. ROUSH] and the gentleman from Arizona [Mr. UDALL] for a masterful job of leadership and convey to them, and their coworkers, expression of the undying appreciation of my constituents.

Mr. REID of New York. Mr. Speaker, we have just passed—with my affirmative vote—H.R. 51, a bill to provide for the establishment of the Indiana Dunes National Lakeshore. I would like to state for the record that had I been present I would also have voted for the amendment to the bill offered by the gentleman from Arizona [Mr. UDALL]. This amendment adds an additional 478 acres and a mile-long stretch of beach to the national lakeshore. It is a vital part of the bill, and I am happy it was adopted before final passage.

Because of the dense fog over Washington this morning, the 9 a.m. plane from LaGuardia—normally a 1-hour trip—did not land at National Airport until almost noon. Therefore, I was not present for the rollcall vote on the Udall amendment—which I strongly support.

GENERAL LEAVE TO EXTEND

Mr. UDALL. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days in which to extend their remarks on the bill just passed.

The SPEAKER. Without objection, it is so ordered.

There was no objection.

AUTHORIZING 30-DAY LEAVE FOR MEMBER OF UNIFORMED SERVICE WHO VOLUNTARILY EXTENDS TOUR OF DUTY

Mr. PRICE. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 15748) to amend title 10, United States Code, to authorize a special 30-day period of leave for a member of a uniformed service who voluntarily extends his tour of duty in a hostile fire area, with an amendment of the Senate thereto, and concur in the Senate amendment.

The Clerk read the title of the bill.

The Clerk read the Senate amendment, as follows:

Page 2, line 10, strike out "title," " and insert "title. The provisions of this subsection shall be effective only in the case of members who extend their required tours of duty on or before June 30, 1968."

The SPEAKER. Is there objection to the request of the gentleman from Illinois?

Mr. HALL. Mr. Speaker, reserving the right to object, will the gentleman from Illinois advise the House that the Senate amendment, as read by the Clerk, is the only change in the bill as passed by the House and that all Senate changes are germane and in accordance with the House rules?

Mr. PRICE. The gentleman is correct.

The Senate amendment has to do with the date change and is the only change in the bill from the version passed by the House previously.

Mr. HALL. Mr. Speaker, I withdraw my reservation of objection.

(Mr. PRICE asked and was given permission to revise and extend his remarks.)

Mr. PRICE. Mr. Speaker, the purpose of H.R. 15748 is to provide men serving in Vietnam an incentive to voluntarily extend their tour of duty. It would provide a 30-day leave, not chargeable to any other leave account, for individuals who voluntarily extend their tour for at least 6 additional months in a hostile fire area. The leave would be at a selected location, which in most cases could be expected to be in the United States, and transportation would be provided at Government expense.

The Senate added one amendment which provides that the authority under the bill would expire on June 30, 1968. The Senate felt that while the legislation is desirable at the present time, the authority should not be in the form of permanent legislation. The authority could always be extended if circumstance necessitates at a later date.

A normal tour of duty at present is 12 months. From the military standpoint, it would be advisable to have longer tours, particularly for individuals in positions of leadership, positions involving close liaison with Vietnamese or other forces, and positions involving civic actions and critical skills. However, an increase in the length of tour would not be equitable except on a voluntary basis. The intent of H.R. 15748 is to provide an

incentive to persons in Vietnam to voluntarily extend their tour of duty.

The SPEAKER. Is there objection to the request of the gentleman from Illinois [Mr. PRICE]?

There was no objection.

The Senate amendment was concurred in.

A motion to reconsider was laid on the table.

DEMONSTRATION CITIES AND METROPOLITAN DEVELOPMENT ACT OF 1966

Mr. PATMAN. Mr. Speaker, I move that the House resolve itself into the Committee of the Whole House on the State of the Union for the further consideration of the bill (S. 3708) to assist comprehensive city demonstration programs for rebuilding slum and blighted areas and for providing the public facilities and services necessary to improve the general welfare of the people who live in those areas, to assist and encourage planned metropolitan development, and for other purposes.

The motion was agreed to.

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the State of the Union for the further consideration of the bill, S. 3708, with Mr. FLOOD in the chair.

The CHAIRMAN. The House is in the Committee of the Whole House on the State of the Union for the further consideration of the bill S. 3708, which the Clerk will report by title.

The Clerk read the title of the bill.

The CHAIRMAN. The Chair might say to the Members, he is not going to pound this gavel. The Chair is going to wait until you settle down or simmer down. The Chair hates to pound the gavel.

Will the gentlemen in the rear get out of the hall and will the gentlemen on the rails get out of the way, please—all of you.

When the Committee rose on yesterday, the Committee had agreed that the further reading of title I of the committee amendment in the nature of a substitute be considered as read and open for amendment at any point.

Let the Chair make this statement. Today is October 14.

The leadership on both sides of the aisle have assured me that they do not want any session on Saturday. I am delighted to hear that and so are you—providing we do our job today.

We are going to run a very tight ship here today because I believe that is the way you want it done.

Yesterday was extraordinary because of your cooperation.

The Chair said he hoped there would be no quorum calls and, believe it or not, there were no quorum calls. So you all had a picnic—and today we have to work.

The Chair wants to extend his compliments to the members of the Committee on Banking and Currency on both sides of the aisle. They command this

bill completely. The Chair especially commends the distinguished chairman of the full committee, the gentleman from Texas [Mr. PATMAN], for his leadership and the distinguished minority leader, the gentleman from New Jersey [Mr. WIDNALL], for his leadership. It was a tough, hard debate on the highest possible level.

Let us set the stage before we take the curtain up.

The Chair has talked with the Sergeant at Arms and the Clerk of the House and to the Doorkeeper. All employees of the House and all attachés of any of the committees except the one on the floor will be off the floor. We do not want to see them or hear them all day—none of them—except one man on each side to report to the Members.

The minority leadership have assured the Chair of the same thing.

The pages in both corners will be permitted to breathe provided they do not breathe too loud.

The telephone operators have been advised of the same thing.

We still have some table hoppers among the membership who run around bending over seats and talking to Members and interfering with this discussion. So far at the present occupant of the chair is concerned, the only person who is going to talk here today is the Member who has the floor and nobody else. The Chair is your friend and he does not want to embarrass you. So if you want to talk to somebody, get off the floor.

For the information of the Committee, under the rule this bill must be read by title and not by section.

Title I is considered as having been read.

Are there any amendments to title I?

AMENDMENT OFFERED BY MR. MULTER

Mr. MULTER. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. MULTER: On page 39, after line 23, add the following new subsection:

"(d) Nothing in this section shall authorize the Secretary to require (or condition the availability or amount of financial assistance authorized to be provided under this title upon) the adoption by any community of a program (1) by which pupils now resident in a school district not within the confines of the area covered by the city demonstration program shall be transferred to a school or school district including all or part of such area, or (2) by which pupils now resident in a school district within the confines of the area covered by the city demonstration program shall be transferred to a school or school district not including a part of such area."

Mr. MULTER. Mr. Chairman, we have had a great deal of debate on and off the floor about what this bill would do. I want to say now that the bill would not do many of the things that have been charged against it. To make sure that no one can misinterpret it, this amendment is being offered to re-emphasize the fact that there is nothing in the bill that has anything to do with compulsory busing or forced busing of children. There is nothing in this bill—and this amendment will make certain that no one can misinterpret the bill or

even infer that it would in any way attempt to affect, destroy, or change the neighborhood school concept.

I am more surprised than most that the argument has been made by our distinguished colleague from New York [Mr. FINO], that this bill does require forced busing. I quote his language: "Forced school busing, pairing, and redistricting."

I say I am more surprised than most because for more than 3 years he and I have stood shoulder to shoulder in New York City in fighting for the continuance of the neighborhood school concept and fighting against compulsory or forced busing of children.

I have in my hand a bill which he introduced earlier this year, H.R. 13048, February 24, 1966, which uses practically the identical language of this bill now before us with reference to educational and recreational facilities.

I am sure that when he introduced that bill he had in mind precisely what we have in mind about this bill now before us. He did not intend then, and we do not intend now, to force busing of children from one area to another or to in any way change the neighborhood school concept.

For years, as long as I have been here—and that goes back to 1947—every time we have brought a bill to the House involving housing we have made it clear that housing is worthless standing alone as four walls. Without educational facilities in the community, without recreational facilities in the community, without industry nearby, housing is useless. It is just four walls. It is a house; it can never be a home.

We make sure that in this bill we have in mind the overall American way of life, which includes not only decent living and decent places in which to live, but all the necessary facilities to make living in a home human and decent and American.

So I repeat that the amendment I have offered to title I makes it eminently clear, so that no one can dispute the fact, there is nothing in this title—and before we get through we will make it just as eminently clear that there is nothing anywhere in the bill—which will require forced busing of children or that will change the neighborhood concept of schools.

Mr. PATMAN. Mr. Chairman, will the gentleman yield?

Mr. MULTER. I am happy to yield to the distinguished chairman of the committee.

Mr. PATMAN. I state to the gentleman that the Members on this side are willing to accept this amendment offered by the gentleman from New York.

Mr. MULTER. I thank the gentleman. I hope the ranking minority member will say as much. I will be glad to yield to him if he is willing to make the same concession.

Obviously, he is not prepared to do so. I urge adoption of the amendment.

(Mr. MULTER asked and was given permission to revise and extend his remarks.)

Mr. FINO. Mr. Chairman, I rise in opposition to the amendment.

Mr. Chairman, I rise in opposition to the red herring or pipsqueak amendment just offered by the gentleman from New York. You cannot cure the "demonstration cities" bill by an antibusing amendment. As the gentleman knows, I offered such an amendment in committee before I discovered the proposed 1967 "racial balance in education" bill. When I offered my amendment, I thought that such an amendment might do the job. As I look back, I admit I must have been naive.

I say "naive" because I thought that an antibusing amendment would be meaningful. Back in committee, the secret friends of busing laughed off my amendment. They said it was irrelevant to the bill. How is it now relevant? It is relevant only because the gentlemen who are planning to scrap the neighborhood school have been caught with their hand in the cookie jar. They know they have been caught. Now they desperately want to pretend to prohibit busing so that they can save the title in order to plan school redistricting, educational parks, coercion of parochial schools, and all the other rotten little ideas that keep popping off Harold Howe's drawing boards. Let me say this about the friend of busing and pairing. They are trying to surrender one trick to save a bag of them.

But think carefully. This amendment does not even prevent busing. It certainly will not prevent the city from being pressured into setting up educational parks or redrawing school district lines. If children are bused to such facilities—and I do not suppose we would want them to walk—then such busing would not be covered by this amendment. That is why this amendment is a farce.

The only reason it is being offered—and remember that the administration was against this amendment before they got caught—is to try and trick this House into voting money for a scheme which will require cities to set up educational parks, revised school districts, and other racial balance schemes in education and housing.

I hope that the gentleman opposed to Commissioner Howe will not vote to tie just one of his fingers so that his hands can remain free. Commissioner Howe's admirers in this House are trying to save his bacon with this amendment. So do not vote to tie one of Commissioner Howe's fingers in order to leave the other nine fingers free. The way to deal with the problem is to cut this title back to planning.

If you do not think that this bill is one of the most dangerous ever drawn, I suggest you reread the letter you received recently from the chairman of the Banking and Currency Committee. He said—and I quote—this program "welds together the full arsenal of Federal physical and social renewal programs in a coordinated, comprehensive total attack on urban problems." This is just the admission I have been seeking. Read the language of the bill and you will know what is going to be attacked. Quiet residential neighborhoods are going to be attacked and made to plan housing with the slums—neighborhood schools are go-

ing to be attacked in the name of educational parks and "quality" education.

No antibusing amendment will blunt this attack. What we must do is cut the bill back to mere planning money so it can be redesigned sensibly. Such an amendment will be offered. Defeat the "pipsqueak" amendment. It is just a trick.

Mr. PATMAN. Mr. Chairman, I move to strike the last word.

(Mr. PATMAN asked and was given permission to revise and extend his remarks.)

Mr. PATMAN. Mr. Chairman, the amendment which has been offered by the gentleman from New York [Mr. MULTER] has the approval of the Members on this side of the aisle. We believe that it completely answers the false propaganda that has been put out with reference to this particular bill during the past few weeks.

Mr. Chairman, the gentleman from New York [Mr. FINO] addressed a letter to the Secretary of the Department of Housing and Urban Development, Dr. Weaver, on October 5, in which he expressed the hope to obtain some encouragement from the testimony of Dr. Weaver in support of the viewpoint to which he has ascribed on this legislation.

But, Mr. Chairman, contrary to receiving any consolation or gratification on his viewpoint, Dr. Weaver points out the fact that he is entirely mistaken about it and in one part of his letter Dr. Weaver did reply to the charges and statements of the gentleman from New York [Mr. FINO]:

The legislation itself makes very clear that it is State and local planning and programming which is being assisted. Local communities, in voluntary cooperation with their neighboring communities in the metropolitan area, will control the content and the programming of their metropolitan planning.

And, in the concluding paragraph, Dr. Weaver says:

I sincerely regret that irrelevant and divisive issues have been injected into the consideration of the demonstration cities and metropolitan development bill—legislation which is of vital concern to the well-being of our Nation's cities. In view of this, I want to take this opportunity to point out that nothing in this legislation would require that any community abandon or alter its neighborhood school system, or set the boundaries of its school districts in any prescribed way, or provide for the busing of schoolchildren.

Mr. Chairman, in view of the unanimous-consent request which was granted yesterday, I shall insert both letters in the RECORD at this point.

CONGRESS OF THE UNITED STATES,

HOUSE OF REPRESENTATIVES,

Washington, D.C., October 5, 1966.

HON. ROBERT C. WEAVER,
Secretary of Housing and Urban Development,
Washington, D.C.

MY DEAR MR. SECRETARY: Regarding the proposed omnibus housing bill, I would appreciate your acknowledgment of several points made regarding this bill.

Would you please confirm the following:

1. That you submitted to the Housing Subcommittee a statement (page 52 of the hearings) which said that one of the considerations of metropolitan planning would be "education, health, and other institutions and services".

2. That you submitted to the Housing Subcommittee a statement (page 45 of the hearings) which said that demonstration city programs must provide for "educational and social services necessary to serve the poor and disadvantaged in the area".

3. That you submitted to the Housing Subcommittee a list of programs to be included in the demonstration program which included 12 programs from the Office of Education.

Your prompt reply would be appreciated.

Sincerely yours,

PAUL A. FINO.

THE SECRETARY OF HOUSING

AND URBAN DEVELOPMENT,

Washington, D.C., October 12, 1966.

HON. PAUL A. FINO,
House of Representatives,
Washington, D.C.

DEAR MR. FINO: I have received your recent letter asking me to confirm three brief portions of the written statement submitted by me to the Housing Subcommittee of the Banking and Currency Committee in support of the administration's housing and urban development legislation:

1. The words taken from my statement and quoted in the paragraph numbered "1." of your letter were used in the context of a full explanation of the provisions of the Administration's legislation authorizing new incentives for effective metropolitan planning and development. These provisions are now contained in title II—the Planned Metropolitan Development Title—of the House-reported bill, S. 3708.

The new incentives for effective metropolitan planning and development consist of supplemental grants which would be available only for Federally-assisted projects of types which generally affect the growth of metropolitan areas. The grants could be made only in metropolitan areas which had established areawide comprehensive planning and programming.

The language you quote is taken from a paragraph which describes the typical elements which would ordinarily be considered in developing metropolitan-wide comprehensive planning and programming. The paragraph in full reads as follows:

"The required metropolitanwide comprehensive planning and programming would include such elements as areawide population and employment forecasts; forecasts of where and under what conditions residential areas, employment centers, and other major land uses will be located throughout the area; and comprehensive short-range programs for the provision of needed facilities and services, taking into account both the needs and financial capabilities of the various communities within the area. Planning and programming would generally cover at least land use; transportation; water, sewer, and other public facilities; housing and relocation; education, health, and other institutions and services; parks, recreation, and other open space; and air and water pollution."

The legislation itself makes very clear that it is State and local planning and programming which is being assisted. Local communities, in voluntary cooperation with their neighboring communities in the metropolitan area, will control the content and the programming of their metropolitan planning.

2. The words taken from my statement and quoted in the paragraph numbered "2." of your letter were used in the context of a full explanation of the characteristics of a comprehensive city demonstration program. The words quoted by you are almost verbatim the words of the statute which requires that a comprehensive city demonstration program "... provide educational, health, and social services necessary to serve the poor and disadvantaged in the area".

The legislation contemplates that the educational, health and social service needs of the poor in slum and blighted areas are to be met while the physical restoration of the area is taking place. We have learned that brick and mortar activities alone are not enough, and that we must deal with the problems of the people who live in the slums as we rebuild and restore the neighborhoods in which they live. But the important fact is that each demonstration city program must be a local program developed in accordance with local policies by local public officials.

3. I am also pleased to confirm, as your letter requests, that I did submit to the Housing Subcommittee a list of Federal grant-in-aid programs (set out in full on page 106 of the published hearings). That list is prefaced by the following paragraph (which also appears on page 106 of the published hearings):

"The programs on the attached list are those Federal grant-in-aid programs deemed most likely to be utilized by a city in developing a city demonstration program 'of sufficient magnitude in both physical and social dimensions' to meet the criteria of the demonstration cities bill. It is not implied that these programs necessarily will or should be used in any one demonstration or that other programs may not also be used."

I sincerely regret that irrelevant and divisive issues have been injected into the consideration of the Demonstration Cities and Metropolitan Development bill—legislation which is of vital concern to the well-being of our Nation's cities. In view of this, I want to take this opportunity to point out that nothing in this legislation would require that any community abandon or alter its neighborhood school system, or set the boundaries of its school districts in any prescribed way, or provide for the bussing of school children.

Sincerely yours,

ROBERT C. WEAVER.

Mr. MULTER. Mr. Chairman, will the gentleman yield?

Mr. PATMAN. I yield to the gentleman from New York.

Mr. MULTER. I thank the distinguished gentleman for yielding to me, and I am very happy to note that the remarks or statement of my distinguished colleague from the Bronx, the gentleman from New York [Mr. FINO], has now turned into a little squeak.

The CHAIRMAN. May the Chair make the observation under the rule of the House you will address your colleague by State. This is not parochial.

Mr. MULTER. Mr. Chairman, I accept the Chairman's suggestion. I will change my reference to the distinguished gentleman from the Bronx to the State of New York and I hope, although I am very proud of Brooklyn, the gentleman will change his reference accordingly.

The CHAIRMAN. I am sure the gentleman will.

Mr. MULTER. So that we will both be referred to as representing the State of New York.

Mr. Chairman, if the distinguished chairman of our committee will continue to yield to me, I would like to make this further observation. I want to call the Members' attention to the fact that the distinguished gentleman from the State of New York [Mr. FINO] has very carefully and nicely evaded the statement I made in support of this amendment that he used in his bill, the identical language of this bill. The gentleman used

in his bill of February 24, 1966—I invite the Members to turn to page 37 of the bill, S. 3708, which we reported on September 1, 1966—and I will refer the Members first to page 36 of that bill and ask the Members to note the identical language—as I read it—identical to that proposed in the bill as introduced by our able colleague from New York State as follows:

The rebuilding or restoration * * * in accordance with the program will contribute to a well balanced city with adequate public facilities (including those needed for transportation, education and recreation).

Continuing reading the language of this bill—and again note the similarity of his language in his bill with that as reported in ours, the identical language:

The program provides for educational and social services necessary—

And so on and so forth.

The CHAIRMAN. The time of the gentleman from Texas has expired.

Mr. PATMAN. Mr. Chairman, I ask unanimous consent for an additional 2 minutes.

The CHAIRMAN. The gentleman from Texas has asked unanimous consent to proceed for an additional 2 minutes.

Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. PATMAN. Mr. Chairman, I yield 2 minutes to the gentleman from New York [Mr. MULTER].

Mr. MULTER. Again continuing to read from the bill introduced by the distinguished gentleman from New York, and pointing out the identical language—the gentleman referred to this part as representing the heart of the bill, word for word:

The program meets such additional requirements as the Secretary may establish to carry out the purposes of this Act.

Mr. FINO. Mr. Chairman, will the gentleman yield?

Mr. MULTER. I will yield to the gentleman in a moment.

The fact of the matter is that there is and was nothing in this bill that affects the busing of children. And in order to eliminate any doubt, and that is the only reason I offered the amendment, so that there will be no question in the minds of anybody—and many have been confused by the statements made on and off the floor about what the bill does, and I can assure every Member on behalf of this committee that there is no requirement for busing in this bill, and there is no attempt to change the neighborhood school concept, and that is the sole purpose for the precise language of my amendment.

The CHAIRMAN. The time of the gentleman from Texas has expired.

Mr. PATMAN. Mr. Chairman, I ask unanimous consent for an additional 2 minutes, so that the gentleman from New York [Mr. MULTER] can yield to the gentleman from New York [Mr. FINO].

The CHAIRMAN. The gentleman from Texas asks unanimous consent for permission to proceed for 2 additional minutes. Is there objection to the request of the gentleman from Texas?

There was no objection.

The CHAIRMAN. The gentleman from Texas is recognized for 2 additional minutes.

Mr. PATMAN. Mr. Chairman, I yield to the gentleman from New York [Mr. MULTER].

Mr. MULTER. Mr. Chairman, I ask unanimous consent that I be permitted to yield to the gentleman from New York [Mr. FINO].

The CHAIRMAN. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. FINO. Mr. Chairman, I thank the gentleman for yielding.

I would like to ask the gentleman from New York, my colleague, to tell the Members of this House the date that this bill was introduced?

Mr. MULTER. The date the gentleman's bill was introduced?

Mr. FINO. Yes.

Mr. MULTER. Certainly. I stated the date before and I will repeat it again—February 24, 1966.

Mr. FINO. Mr. Chairman, that was 6 months or 5 months before I discovered and exposed and unveiled the Equal Educational Opportunity Act of 1967, which was uncovered and unveiled September 14.

Mr. MULTER. Mr. Chairman, I refuse to yield to the gentleman further.

Mr. FINO. I just want the RECORD to show that that bill was introduced before.

Mr. MULTER. Mr. Chairman, I refuse to yield further.

The CHAIRMAN. We will have regular order.

Mr. MULTER. I am sorry.

The CHAIRMAN. The Chair will say that the time is controlled by the gentleman from Texas. What does the gentleman from Texas wish to do?

Mr. PATMAN. Mr. Chairman, I yield to the gentleman from New York.

Mr. MULTER. I thank the gentleman for yielding.

The fact of the matter is that the reference here to a bill of 1967, I repeat again, and as the gentleman from New York knows, we have no such bill here and no such bill has ever been introduced.

I repeat—no bill of 1967 has been introduced. It was a piece of paper that was prepared for discussion purposes only and it has been repudiated by everybody to whom it was submitted except the gentleman from New York to whom it was never submitted.

Mr. FINO. Mr. Chairman, will the gentleman from Texas yield?

Mr. PATMAN. I yield to the gentleman.

Mr. FINO. I would hope that the gentleman from New York would consult and discuss this with members of the Committee on Rules and find out whether the statement he has just made is accurate about repudiating or denying the existence of this proposed legislation.

Mr. MULTER. Mr. Chairman, will the gentleman from Texas yield?

Mr. PATMAN. I yield to the gentleman from New York.

Mr. MULTER. I repeat—the docu-

ment referred to by the gentleman from New York has been repudiated by everybody to whom it was submitted. The testimony before the Committee on Rules sustains what I am saying to this body today.

There is nothing in this bill before us nor was it ever intended that there be anything in this bill before us or in the bill that the gentleman from New York [Mr. FINO] submitted that would affect school busing or the neighborhood school concept.

Mr. CAHILL. Mr. Chairman, will the gentleman from Texas yield?

Mr. PATMAN. I yield to the gentleman.

Mr. CAHILL. I would like to ask this question of the gentleman from Texas. It is my understanding that he has correctly stated the situation that planning is entirely the responsibility of the local authorities. I am correct in that, am I not?

Mr. PATMAN. Yes; you are correct.

Mr. CAHILL. However, who has the responsibility and authority of approving the plans finally and allocating the funds for demonstration cities?

Mr. PATMAN. The Department, of course—Dr. Weaver's Department.

Mr. CAHILL. Now last year—and I would like to ask the gentleman if he will continue to yield—does the gentleman have any expression as to the Secretary's opinion as to the continuation of the neighborhood school concept?

The CHAIRMAN. The time of the gentleman from Texas has again expired.

(At the request of Mr. WAGGONER, Mr. PATMAN was granted 2 additional minutes.)

Mr. PATMAN. Mr. Chairman, I yield further to the gentleman from New Jersey [Mr. CAHILL].

Mr. CAHILL. Mr. Chairman, this is my final question. Does the gentleman from Texas have anything that he can inform the House as to the Secretary's opinion so far as the continuation of the neighborhood school concept?

Mr. PATMAN. He makes it very plain in this letter, I will state, in reply to the letter from the gentleman from New York [Mr. FINO]. He says:

I want to take this opportunity to point out that nothing in this legislation would require that any community abandon or alter its neighborhood school system—

Mr. CAHILL. I recognize that.

Mr. PATMAN. Further:

or set the boundaries of the school district in any prescribed way or provide for busing of schoolchildren.

Mr. CAHILL. I understand that. There is nothing that requires it.

Mr. PATMAN. It is not contemplated.

Mr. CAHILL. My question is this. I think it would be helpful for the House to know about whether the Secretary has any preconceived notions concerning the neighborhood school concept. Because if a program, while it originated with the local authorities, may concede that that is what they want—if it gets to the Secretary's desk it may be something that he does not want and therefore he might disapprove the plan.

What I am trying to find out is what, if you know and if you can tell us, is the Secretary's personal opinion as to the neighborhood school concept?

Mr. PATMAN. His personal opinion is stated here. I believe that is the correct and full way to answer the gentleman's question. The question generally, however, is too iffy—a preconceived notion? I do not suppose anyone could answer that.

But I will state to the gentleman that Dr. Weaver was interrogated by all members—the 33 members of the House Committee on Banking and Currency.

The CHAIRMAN. The time of the gentleman from Texas has again expired.

(Mr. PATMAN was granted 1 additional minute, by unanimous consent, at the request of Mr. CAHILL.)

Mr. PATMAN. Mr. Chairman, I yield to the gentleman from New Jersey [Mr. CAHILL].

Mr. CAHILL. Mr. Chairman, I would appreciate it if the gentleman from Texas would obtain a statement from the Secretary to be included in the RECORD so that all of us will have complete knowledge of what the Secretary's views are in relation to this important subject before we are called upon to vote on it.

Mr. PATMAN. I know what the gentleman is asking. If the gentleman will get the hearings and read them—the hearings of the House committee and the Senate committee, I believe you will find an answer to every question you can think of to ask the Secretary and especially and particularly the questions you have asked here. They are in the hearings. The Members of the other body and the Members of this body have asked the Secretary every question in the world that could be asked along that line and all I ask you to do is to read the hearings.

Mr. CAHILL. I would appreciate it if the learned gentleman, who knows more about it than anyone else in the House, would select the answer to the question from the hearings and insert it in the RECORD.

Mr. ASHLEY. Mr. Chairman, will the gentleman yield?

Mr. PATMAN. I yield to the gentleman from Ohio.

Mr. ASHLEY. This may answer the gentleman's question. I refer to a letter dated September 20, which the chairman referred to a moment ago, from Dr. Weaver to Chairman PATMAN.

The CHAIRMAN. The time of the gentleman from Texas has again expired.

Mr. ASHLEY. Mr. Chairman, I ask unanimous consent that the gentleman from Texas may be permitted to proceed for 1 additional minute.

The CHAIRMAN. Without objection, it is so ordered. The gentleman from Texas is recognized for 1 additional minute.

Mr. PATMAN. Mr. Chairman, I yield to the gentleman from Ohio.

Mr. ASHLEY. The fourth paragraph of this letter, I may say to my friend

from New Jersey, should answer his question. This is what Dr. Weaver said—and may I point out that this letter is dated September 20. He said:

At no time did this Department give any thought to the possibility that this legislation would provide a vehicle for any future program of assistance for school busing. Such a suggestion came to my attention for the first time 10 days ago in a newspaper column, and then again last week when Representatives BROCK and FINO referred to such a proposal originating within the Department of Health, Education, and Welfare. We had no knowledge of any such proposal prior to 10 days ago, and I can categorically state that it in no sense represents the views either of my Department or of the Department of Health, Education, and Welfare, let alone the administration.

I hope that will satisfy the inquiry of the gentleman from New Jersey as to the private and official position of Secretary Weaver about which the gentleman has expressed an interest.

Mr. BROCK. Mr. Chairman, I move to strike the requisite number of words.

The CHAIRMAN. The gentleman from Tennessee is recognized for 5 minutes.

Mr. BROCK. Mr. Chairman, I rise in support of the amendment of the gentleman from New York. I do so with some reluctance, not liking to disagree with my colleague on this side of the aisle, but I think insofar as title I is concerned, this amendment does aptly and completely illustrate the intent of Congress. We do not intend for this money to be used for the transportation of children across district or county lines. I do not think, however, that the amendment would be adequate if applied to title II, as that was the bill to which the gentleman from New York [Mr. FINO] has referred as it relates to the Educational Opportunities Act of 1967, the so-called act of 1967, which I well recognize is no act. It has not been introduced and has no force of law.

I might say to the Members of the Committee that when we are talking about the intention of people who are going to be administering these programs—and the gentleman from New Jersey raised the question—I would like to quote the Commissioner of Education, Mr. Howe, on this point. He said:

Traditional school boundaries often serve education badly and may have to be changed. New York and New Jersey surrendered State prerogatives to form the Port of New York Authority in the interests of improved transportation. If we can make such concessions for transportation, I suggest that we can make them for education. We could, for example, alter political boundaries to bring the social, economic and intellectual strengths of the suburbs to bear on the problem of city schools.

In all honesty, I think the intention of the gentleman from New York is salutary. I support him on this amendment to title I. I do reserve the right to disagree on title II, because in all sincerity I am not sure that this would be adequate as it relates to the metro title, the metropolitan community title.

Mr. MULTER. Mr. Chairman, will the gentleman yield?

Mr. BROCK. I yield to the gentleman from New York.

Mr. MULTER. I am sure the gentleman will agree that what Mr. Howe was referring to when he spoke of port activities, he was talking about the communities doing as they did when they agreed to the port authorities, which necessarily crossed State lines.

I hope the gentleman will also agree that what Mr. Howe is talking about there is that if the communities decided that there must be some change, they would make the change. He did not say that he would require a change.

Mr. BROCK. Let me read a second statement of the Commissioner perhaps to show what he does think he would do. This is Commissioner Howe again:

Altering political boundaries or consolidating the educational facilities of a large city would involve major organizational changes—major educational surgery. But I believe that major surgery is required if we are to liberate the children of the slums.

Mr. MULTER. Mr. Chairman, will the gentleman yield further?

Mr. BROCK. I yield to the gentleman from New York.

Mr. MULTER. That is his personal opinion. I am sure the gentleman will agree there is nothing in this bill that will give him any authority. What we deal with here is the authority of the Department of Housing and Urban Development, of which Secretary Weaver is the head and not Mr. Howe.

Mr. BROCK. Let me say that I fully agree with the gentleman's intention. I understand his point. But I was brought up to believe that this is a government of law and not of men. I do not believe it is within the prerogatives of Congress to worry about the intentions of a particular Commissioner of Education or of a Secretary of HUD or anybody else. I believe we have to write a law which fully spells out the intention of this legislative body.

This bill does not.

The gentleman is correct in saying it does not require racial balance, busing, transportation or any other such vehicle. But it does give him the authority to do so if he should so desire at some point in the future.

That is what I am concerned about.

I do not believe we should have an open-end bill.

That is what my amendment, which will be offered next, I hope, will take of. It will stop this program and leave the planning money until we can see the plans. Then we will know where we are going on this bill.

I do not believe we should legislate based upon what we think the desire of the Secretary of HUD is.

Mr. MULTER. I believe, in general, we are in agreement. That is why I am happy to note the gentleman supports the amendment, to make sure the intent of Congress is expressed.

Mr. BROCK. Certainly.

Mr. MULTER. No matter what anybody says either on or off the floor, we are not in this bill providing for busing

any children or for changing the neighborhood school concept.

Mr. PATMAN. Mr. Chairman, I wonder if we could agree to vote on this particular amendment only at this time.

The CHAIRMAN. Does the gentleman make a motion?

Mr. PATMAN. Mr. Chairman, I ask unanimous consent that the vote be taken on this particular amendment.

The CHAIRMAN. The request should be that all debate on this amendment end in a certain length of time.

Mr. PATMAN. Now, I ask unanimous consent that all debate end now on this particular amendment.

The CHAIRMAN. The gentleman from Texas asks unanimous consent that all debate on this amendment terminate now. Is there objection to the request of the gentleman from Texas?

Mr. WAGGONER. Mr. Chairman, reserving the right to object, I do not propose to speak on this particular amendment, but this request comes rather suddenly. It can be observed that at least one Member of the House apparently desires to speak, and he is entitled to that right.

I withdraw my reservation.

Mr. PATMAN. Mr. Chairman, we want him to speak. The gentleman from New York [Mr. RYAN] apparently wants to speak.

Mr. Chairman, I ask unanimous consent that debate on this amendment conclude in 5 minutes.

The CHAIRMAN. The gentleman from Texas asks unanimous consent that all debate on this amendment end in 5 minutes. Is there objection to the request from the gentleman from Texas?

Mr. ANDERSON of Illinois. Mr. Chairman, reserving the right to object, I do not want 5 minutes, but I would like to have about 2 minutes.

I withdraw my reservation.

Mr. PATMAN. Mr. Chairman, I ask unanimous consent that all debate on this amendment conclude in 10 minutes.

The CHAIRMAN. The gentleman from Texas asks unanimous consent that all debate on this amendment end in 10 minutes.

Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. RYAN. Mr. Chairman, I move to strike the last word.

Mr. MULTER. Mr. Chairman, a parliamentary inquiry.

The CHAIRMAN. The gentleman will state his parliamentary inquiry.

Mr. MULTER. May we know how many Members were standing and how the time will be divided?

The CHAIRMAN. The Chair observed standing the gentleman from New York, the gentleman from California, the gentleman from Pennsylvania, the gentleman from Illinois, and the gentleman from Texas.

Each Member will be recognized for 2 minutes.

The Chair recognizes the gentleman from New York [Mr. RYAN].

(Mr. RYAN asked and was given permission to revise and extend his remarks.)

Mr. RYAN. Mr. Chairman, I am disturbed by this amendment. I oppose it, and I regret that the committee feels compelled to offer such an amendment.

I am disturbed by the tenor of the debate. I feel very strongly that we, on this side of the aisle, should not be on the defensive at all on this question. It is unfortunate that it appears that the gentleman from New York [Mr. FINO] has put this side of the aisle on the defensive.

This bill speaks for itself. It does not require any community to adopt a program involving the transportation of school pupils.

However, efforts of local officials to achieve quality, integrated education should be encouraged and given special consideration. The unique feature of this bill is the concept of a total attack on the problems besetting our cities.

It seems to me that we ought to face the fact that, if we are going to cure the sickness of the ghetto, we have to deal with the problem of de facto segregation. Regardless of that, I was under the impression that the Republicans stood for local self-government and local autonomy. That is exactly what this bill provides. It leaves plans in the hands of the local authorities. It is curious that Republicans would attempt to tie the hands of the local authorities.

There is also another danger to this amendment. It may be characterized or interpreted in some quarters as an "anti-busing amendment." It may be suggested that the House is going on record as opposed to busing. I opposed a similar amendment to the Elementary and Secondary Education Act which was adopted last week for this very same reason. In fact, I was one of five Members of the House to vote against it. There is no logic in writing negatives into these bills. Let us not do anything to discourage local authorities from providing a means for overcoming de facto segregation which exists in the ghetto areas of our urban centers.

Mr. Chairman, this session of Congress has witnessed already too many setbacks for civil rights.

The amendment should be defeated.

The CHAIRMAN. The time of the gentleman from New York [Mr. RYAN] has expired.

The Chair recognizes the gentleman from Illinois [Mr. ANDERSON] for 2 minutes.

(Mr. ANDERSON of Illinois asked and was given permission to revise and extend his remarks.)

Mr. ANDERSON of Illinois. Mr. Chairman, I take this time because I cannot concur in what the gentleman from New York [Mr. MULTER] said, that in the discussion of the document called the Equal Educational Opportunities Act of 1967 before the Committee on Rules it was totally repudiated by the Commissioner of Education, Mr. Howe. I particularly want to call the attention of the committee in this regard to some language on pages 44 and 45 of the hearings before the Committee on Rules on September 29, 1966, where I asked this question of Commissioner Howe:

Can you deny that if we move in this direction and provide these so-called bonus and incentive grants and condition the eligibility of a metropolitan area for these grants on their willingness to go along with this kind of a program—

We were talking about busing—as described in this draft legislation, that, whether the schools or the cities want to or not, they are almost going to be obliged to have to go along with your plans; is that not the effect of what is being accomplished here?

Mr. Howe. I think, if this sort of thing were enacted into law as you suggest, there would be incentives to move in this direction.

I do not have the time, unfortunately, to read all of those hearings to you or to call your attention to all of the language that Commissioner Howe used in his testimony before the Committee on Rules, but I think that the implication is fair and the conclusion is fair that, by holding out the incentives that would be offered under title II, the metro planning section, it is quite clear that the objectives outlined by Commissioner Howe in his draft of the Educational Opportunities Act of 1967 could be accomplished by holding out the carrot of Federal bonuses or grants under the legislation which we are now considering.

The CHAIRMAN. The time of the gentleman from Illinois [Mr. ANDERSON] has expired.

The Chair recognizes the gentleman from California [Mr. HANNA] for 2 minutes.

(Mr. HANNA asked and was given permission to revise and extend his remarks.)

Mr. HANNA. Mr. Chairman, I think one of the significant things in Dr. Weaver's letter was his expression of sincere regret that irrelevant and divisive issues have been injected into the consideration of this bill. I think it is more clear after the amendment of the gentleman from New York [Mr. MULTER] that the concerns about school district boundaries or busing of students that have been here expressed and the statements that have been made relative to opposition to this particular amendment have been made even more irrelevant and certainly no less divisive the issues that are now attempted to be drawn. So I would suggest that what this does is to set very much at ease every Member who might have raised the question, however irrelevant, and it puts very firmly into the legislation the clear, expressed intent of this body. I should think it should have the unanimous approval of all of the persons voting.

The CHAIRMAN. The Chair recognizes the gentleman from Pennsylvania [Mr. BARRETT].

Mr. BARRETT. Mr. Chairman, I ask unanimous consent to yield the time allotted to me to the gentleman from Louisiana [Mr. WAGGONER].

The CHAIRMAN. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

(Mr. WAGGONER asked and was given permission to revise and extend his remarks.)

Mr. WAGGONER. Mr. Chairman, I thank the gentleman from Pennsylvania for yielding to me at this time.

Mr. Chairman, I would like to try to clarify this amendment if clarification indeed is needed. The author of this amendment and the chairman of this committee are on the floor so I ask a question.

Mr. Chairman, I would like to pose this question: Does not the gentleman intend his amendment as offered here today to effectively remove the authority or possibility of the Federal Government or any agent thereof to either grant or deny Federal funds in those demonstration cities projects made possible by this legislation for any city wherein an effort might be made to insist on assignment or busing schoolchildren into districts in order to comply with the desires of any agent of the Federal Government as a criteria or prerequisite for participation in this program?

Mr. Chairman, I accept in good faith this explanation, but I would like to pose this question:

Would the gentleman, or could the gentleman, give the Members of the Committee of the Whole House on the State of the Union his assurance that should some abuse be made as to the intent of this amendment, would the gentleman be willing to bring corrective legislation back through this committee and to the Congress to prevent this abuse?

Mr. MULTER. Mr. Chairman, will the gentleman yield?

Mr. WAGGONNER. I yield to the gentleman from New York.

Mr. MULTER. If, Mr. Chairman, any such contingency should arise I shall be in the forefront of the movement to get such corrective legislation.

Frankly, I cannot possibly foresee how any such thing could occur, our having made it clear that we never intended any such thing to occur under the terms of the bill or is it to be construed.

Mr. Chairman, I do not understand how anyone could get the idea that we could do otherwise but to leave the carrying out of the intent and purposes of this bill entirely to the local authorities, and we do not have nor do we intend to change that in the slightest.

Mr. WAGGONNER. Mr. Chairman, I thank the gentleman from New York for his answer, and I accept his answer in good faith and shall vote for the amendment.

The CHAIRMAN. The Chair recognizes the gentleman from Texas [Mr. GONZALEZ].

(Mr. GONZALEZ asked and was given permission to revise and extend his remarks.)

Mr. GONZALEZ. Mr. Chairman, I rise because I cannot help but sympathize with and share the views expressed by my distinguished colleague, the gentleman from New York [Mr. RYAN]. He has made pertinent and important points.

Mr. Chairman, most of us who serve on this subcommittee know that this bill has been carefully considered for 10 months and that this type of amendment was offered in committee and rejected.

Mr. Chairman, I deplore the fact that we have reached the point where we are

legislating irrelevancy because of the defensive posture assumed by the proponents of the amendment and not because it is necessary.

Mr. Chairman, I yield the balance of my time to the gentleman from New York [Mr. RYAN].

The CHAIRMAN. The gentleman from New York is recognized for 2 minutes.

(Mr. RYAN asked and was given permission to revise and extend his remarks.)

Mr. RYAN. Mr. Chairman, I thank the distinguished gentleman from Texas for yielding.

Mr. Chairman, I certainly think the RECORD should be clear as to the effect of this amendment. And, I refer back to the question that was raised previously by the gentleman from Louisiana [Mr. WAGGONNER].

The gentleman from Louisiana asked in his question if the purpose was not to remove discretionary authority either to grant or deny projects dealing with racial imbalance.

Mr. Chairman, I certainly hope that this is not the purpose of this amendment. The purpose of this amendment, as I understood it to be, was to state the obvious, that nothing in this title required a community to adopt a program involving the transportation of school pupils. I take vehement exception to anyone leaving the inference that the Secretary will not have the authority to approve plans which do seek to overcome racial imbalance.

Mr. MULTER. Mr. Chairman, I did not quite get the import of the gentleman's question. But let us not quibble about this. There is nothing in this bill, there is nothing intended to be in this bill, and we are trying to make it clear that there is nothing intended in this bill to require any compulsory busing or to in any way interfere with the neighborhood school concept. This has always been left to the local authorities and that is where it will remain. The whole concept here is that the local authorities will do the planning in the first instance. That remains and that will always remain. I wish we could stop arguing the question of what the education bill provides and what we did there. We are doing nothing here to amend the education laws.

The CHAIRMAN. The time of the gentleman from New York has expired. There is no further time.

The question is on the amendment offered by the gentleman from New York [Mr. MULTER].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. BROCK

Mr. BROCK. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. Brock: Strike out page 46, line 25, and all that follows down through page 47, line 5.

Page 47, line 5, strike out "(c)" and insert in lieu thereof "(b)".

The CHAIRMAN. The gentleman from Tennessee is recognized for 5 minutes in support of his amendment.

(Mr. BROCK asked and was given permission to revise and extend his remarks.)

Mr. BROCK. Mr. Chairman, the purpose of this amendment and the thrust of it is to postpone the authorization of the \$900 million for the funding of this program. It leaves in the full authorization for the planning money of \$24 million. It simply says that until plans are submitted to the Congress and until we see the import of them and the implication of those plans, we should postpone action on implementing the full demonstration cities program. It strikes \$900 million from title I of the bill.

First, let me say that the minority position throughout the debate, the committee hearings, and our deliberations, was that the plight of the cities was sufficient to warrant the authorization of planning funds.

This was the position of the full subcommittee as I understand it throughout most of our deliberations until the last day when the administration decided that they needed the overall program and the position was reversed.

We thought, however, that we ought to at least have a look into the kind of plans that have been made before we signed a blank check for approximately \$1 billion with no limit as to its future expenditure level.

We stated in the report which is before the House:

But to hold out as bait, the hope that Federal funds for this purpose may be made available to every nook and cranny of the United States, is neither the part of sense nor honesty.

Let me repeat that last sentence because I think this is the thrust of the political problem we face today:

But to hold out as bait, the hope that Federal funds for this purpose may be made available to every nook and cranny of the United States is neither the part of sense nor honesty.

I think we ought to recognize the fact that the staff of HUD has been visiting every undecided Member on this bill telling him the principal city in his district is eligible to be included in the demonstration cities operation. This is true, but it is a classic half-truth. Every city in the country over 2,500 people with any blight in it whatsoever is, of course, eligible.

How many will be chosen? What is the law of probability? I heard the gentleman from New York say he was for this bill because the city of Poughkeepsie was going to be a demonstration city.

I asked the gentleman from Ohio what the odds were against Poughkeepsie being part of this demonstration city program. He refused to answer.

I do not blame him because it is incalculable.

Mr. ASHLEY. Mr. Chairman, will the gentleman yield?

Mr. BROCK. I yield to the gentleman.

Mr. ASHLEY. The gentleman knows that I am in no position as a Member of this body to assess or to respond to a question of that kind—which is a determination which must come from the administration.

Mr. BROCK. I understand the gentleman's position. But I might add that there are several thousand cities in the United States, and if we are fortunate we may have two dozen included in this bill. The most optimistic estimate that I have seen is 50, by the gentleman from Wisconsin. That would mean only one per State and that means that there would be at least 385 Members of this body who were disappointed.

Mr. MacGREGOR. Mr. Chairman, will the gentleman yield?

Mr. BROCK. I yield to the gentleman.

Mr. MacGREGOR. Did I understand correctly that title I vests in the Secretary of HUD exclusive discretionary authority to determine which cities will or will not benefit under this program?

Mr. BROCK. He has absolute and total authority to make this determination.

Mr. ASHLEY. Does he have any more authority in this regard than is vested with respect to the approval of the general urban renewal project applications that come to him?

Mr. BROCK. I would say to the gentleman that his authority is no broader because he has total authority there. But there are no standards in this bill which I consider—and of course this is a personal opinion obviously—which I consider to be adequate criteria in the selection of a demonstration city.

Mr. WELTNER. Mr. Chairman, will the gentleman yield?

Mr. BROCK. I yield to the gentleman.

Mr. WELTNER. Does the gentleman feel that this body, the Congress, should select which cities are to be included as demonstration cities?

Mr. BROCK. The gentleman knows full well what kind of political pork barrel would result from that. My answer is that I do not. I do think we have a responsibility to our constituents and we ought to write in hard, fast, and specific criteria. As the gentleman knows, I am opposed to the concept of the bill. But I do say this:

The CHAIRMAN. The time of the gentleman has expired.

(Mr. BROCK asked and was given permission to proceed for 2 additional minutes.)

Mr. BROCK. I do think if this House is going to pass a bill of this magnitude, with its long-range implications, that we have a major responsibility upon us to insure that that program is going to meet its desired objectives. I do not see that we have any standards on which to make such a judgment. We have no plans submitted. These funds do not start until 1968 anyway—the fiscal year 1968—so why not take the time to let the cities come in and present their plans to us. We have 6 months from January to June of next year in which to pass an authorization for spending under the demonstration cities bill. Why not take this 6 months to study the plans and see what they are going to do for our communities—or to our communities—as the case may be?

Mr. MULTER. Mr. Chairman, will the gentleman yield?

Mr. BROCK. I yield to the gentleman.

Mr. MULTER. Which of the cities under this planning, assuming that your amendment were to prevail, and I must say I hope it does not—but suppose it does—then all we would have is planning money. Which of the cities will come in under for planning money?

Mr. BROCK. With \$24 million you can have a substantial number of cities. In addition, they would have time to plan programs and determine their needs under the demonstration cities bill.

Mr. MULTER. Which cities should have their plans looked at and approved?

Mr. BROCK. Obviously, virtually any city could qualify under the terms of your own bill. The Secretary is going to allow anybody to make a plan.

Mr. MULTER. Then in other words, the city of Poughkeepsie or any other city could come in and say—here is our plan—do you think it is all right?

Mr. BROCK. That is right. The majority of those submitting plans under this particular section are going to get the authorization approved.

Mr. MacGREGOR. Would the elimination of the \$900 million make any difference as to which city is going to come in under this?

Mr. BROCK. No. Every city is equally qualified. This amendment does not stop the study and planning for the implementation of this program. It simply says, let us take our time and let us find out whether the \$400 million is needed.

The CHAIRMAN. The time of the gentleman has expired.

Mr. PATMAN. Mr. Chairman, I rise in opposition to the amendment offered by the gentleman from Tennessee. The gentleman's amendment would strike from the authorization \$900 million for this purpose, \$400 million the year after next, fiscal year 1968, and \$500 million the year after that. During the interim there would be \$24 million—\$12 million for each year—provided for a study and an evaluation of applications that would be put in.

There is a longtime lapse there anyway. The President in his message requested \$2,300 million. We have actually cut it down nearly a billion and a half by reducing it to \$900 million. That is quite a reduction.

If we are going to have any demonstration cities bill at all, certainly this is as small a start as we could think about taking. The gentleman from Tennessee was very frank and forthright about his feeling about the bill. He is against the bill. He is against the concept of demonstration cities. So he is bringing up this amendment now. Members who are for the demonstration cities program should vote against his amendment, and those who are against the demonstration cities program should vote for his amendment.

Mr. Chairman, if title I is passed as a planning only measure I seriously doubt that thoughtful communities will be interested in participating in the program. This amendment is aimed at the vitals of title I.

This is really reaching for the jugular vein to destroy this bill.

Local communities have had some experience with arousing the hopes of their constituents only to find the resources for providing the necessary relief not readily available.

Local communities are not interested in planning comprehensive programs which will arouse the hopes of the disadvantaged if Congress is not prepared to commit the Federal Government to the funding of such plans.

If this authorization is knocked out, certainly the Federal Government will not be in a position to come forward.

It is becoming apparent that local communities intend to do more than plan for the solution of their problems, and it is up to the Federal Government to see to it that their plans are not left to die on the shelf of some local development office.

If we are to arouse the hopes of the local community and its citizens, then we must have the courage to provide the funds necessary to realize those hopes.

Mr. Chairman, Congress must face up to its responsibility to the local communities that have given their support to this measure by authorizing funds for supplemental grants to back up the planning funds authorized elsewhere in the bill. To do less would play a cruel hoax on the critical needs of our Nation's cities and towns.

This amendment just must be voted down if we are to have a demonstration cities bill.

Mr. BROCK. Mr. Chairman, will the gentleman yield?

Mr. PATMAN. I yield to the gentleman from Tennessee.

Mr. BROCK. I thank the gentleman for yielding. I would like to read a statement of the President of the United States:

The investments you are making in your cities are vital to our future. We would like to complete them all at once. But if we attempt to do too much, too soon, we will end by accomplishing less by borrowing our money, by issuing bonds when the cost of money is at the highest point in several years—when costs are skyrocketing and materials and skilled labor are scarce * * *. I ask you to go home and get out your lead pencil—and take a good hard look at your next quarterly budget expenditures.

That was said by the President of the United States this year.

Mr. PATMAN. The answer to that is this is only an authorization. When the program comes to the appropriation stage, the factors which the gentleman has brought up, interest and other points, will be considered by the Appropriations Committee. This measure will merely give the power. If the Congress at that time still wants funds, then we will have to start anew for the funds in an appropriation bill and get the Appropriations Committees of the two Houses to agree and to recommend appropriations. This is just the initial step.

The CHAIRMAN. The time of the gentleman from Texas has expired.

Mr. WIDNALL. Mr. Chairman, I rise in support of the amendment offered by the gentleman from Tennessee [Mr. Brock].

When we were considering the omnibus housing bill and the demonstration cities bill before the subcommittee, and

later before the full Committee on Banking and Currency, as I said in my initial statement, I was very much impressed by the goals and desires of the proposed program, as to what we sought to do by way of a mass demonstration in the cities.

I did become increasingly alarmed by some of the statements that have been made by proponents of the bill, and I do not mean particularly on the House floor, but by remarks in radio and news editorials, and by those who are lobbying the Members of Congress. These remarks pertain to what they claim can be done with the appropriations that would be authorized under this bill.

I believe that time should be taken to clarify what is really meant to be done with such appropriations.

We heard a statement on the House floor yesterday by the gentleman from New York [Mr. FARBERSTEIN], in which he emphasized the fact that they ought to use a lot of this money for wharf repairs or removal of the docks in New York, to take away the unsightliness.

I had understood that the purpose of this legislation was to concentrate on the hard core areas in the cities, where the people do not have a decent living environment and particularly do not have decent housing, to help and to aid through a massive demonstration to improve their living quarters and the living surroundings of those people. There the residents have become so restive largely because of the failure of this country under the existing urban renewal program to put the money where it should have been going, instead of channeling it to high-rise luxury buildings and great shopping centers and, in many instances, on cultural centers. These programs are all wanted by many, but concentration should not have been in that direction under the existing urban renewal programs.

I should like to call the attention of our Chairman and of the Members of the House to the fact that this is not a reduction of the President's proposal. The President's proposal was for \$2.3 billion for a 6-year period. That averages out to \$383 million per year.

This proposal is for \$400 million the first year and \$500 million the second year, a substantial increase.

I have read the very forcible things in the press as to what the President has said with respect to the Congress, that the Congress should be holding the line on authorizations and, if anything, postponing and giving priority to those things most urgent.

This is an urgent matter, but there is certainly no urgency with respect to the first authorization, which is for the fiscal year 1968. What harm would be done at this time by postponing this full authorization and allowing the full amount for planning which has been requested, thus giving that time for wise and adequate planning and for presenting to the Congress the picture of what the problem really is so that we can more intelligently act upon it?

The appropriation itself cannot be made until next year. It would not be made until next year.

Certainly I cannot see what harm would be done to those few cities which would benefit from the demonstration cities program by cutting down this first title to just the planning money.

I urge the adoption of the amendment. Mr. BARRETT. Mr. Chairman, I rise in opposition to the amendment.

(Mr. BARRETT asked and was given permission to revise and extend his remarks.)

Mr. BARRETT. Mr. Chairman, this amendment would naturally cut the heart out of title I. The Housing Subcommittee considered and rejected the draft bill that would provide planning funds only for the demonstration cities and no funds for supplemental grants to carry out the planning. We rejected the planning only because of the approach, on the grounds that local communities could not be expected to enter into an elaborate plan for the alleviation of their problems without the assurance that supplemental grant funds would be available to carry out those plans. This amendment would reduce the demonstration cities program just to a planning program. It would hold out only the vague promise, with no commitment on the part of the Congress, that such funds would ever be made available.

Mr. Chairman, there has been an awful lot said about this bill and title I thereof and why the money was cut down from \$2.3 billion to \$900 million for 14 years.

Mr. Chairman, I think we first ought to have a definition of a comprehensive demonstration cities program. It would be defined as a locally prepared and scheduled program for rebuilding or restoring entire sections or neighborhoods in slum and blighted areas to the concentrated and coordinated use of all the Federal aids, local, private, and governmental resources, including citywide aids and resources necessary to improve the general welfare of the people living and working in the area.

You know, Mr. Chairman, they criticized us highly yesterday because of these demonstrations that are going on throughout the country. You know, this program and this bill could have had another title and I think a very appropriate one. It could have been called a comprehensive program to bring respectability to every American city in this great democracy. When we make an observation of the criteria necessary to get the application accepted in section 103 of this bill, we find that all available Federal aids, private and local governmental resources, citywide aids, and all other necessary aids would be pooled and on that basis would be submitted to the Secretary of HUD. If that application were accepted, it would get 80 percent of that non-Federal contribution.

Ladies and gentlemen, this is the greatest bill that has ever been offered since urban renewal came into being. The urban renewal moneys were always handled by an individual, by an agency, and in this bill, in this demonstration cities program, many agencies would be interested in it because their money

would be put into it in order that they may participate.

Mr. Chairman, this would represent raising an observation tower, with the private sector having a window in that observation tower, out of which it could look and see exactly how its money was being spent and how the money of the other agencies was being spent.

And, Mr. Chairman, it could call the attention to the other agencies involved to the fact that the money was not being expended properly and adequately.

Therefore, Mr. Chairman, we could tell them that this program does not call for waste in a time when authorities must adjust themselves.

The CHAIRMAN. The time of the gentleman from Pennsylvania has expired.

(Mr. BARRETT asked and was given permission to proceed for 1 additional minute.)

Mr. BARRETT. Mr. Chairman, these multipurpose watchdogs over the demonstration cities program, cause the taxpayers of this great country to be the recipients of moneys allocated through urban renewal, antipoverty, and other programs receiving money from the Federal Government to aid in their respective cities in these projects.

Mr. Chairman, I believe it would, in general, improve the living conditions for these people who live in such areas and would accomplish these objectives under the most effective and economic concentration and coordination of Federal, State, and local and private funds. This would affect and improve the entire quality of urban life.

Mr. Chairman, I hope that this amendment is voted down.

Mr. FINO. Mr. Chairman, I move to strike the requisite number of words.

(Mr. FINO asked and was given permission to revise and extend his remarks.)

Mr. FINO. Mr. Chairman, I rise in support of the amendment of the gentleman from Tennessee. There is no doubt that demonstration cities ought to be cut back to mere planning money so that it can be more intelligently redesigned.

As I noted earlier—the other day—there is a very real danger that black power is going to ride the demonstration cities gravy train in some cities. I refer to the Washington Post article of August 28, saying that the San Francisco City Redevelopment Director was dickering with black power for control of the local demonstration cities project. Judging from the behavior of black power in San Francisco, what we would get would be demonstration rioting and demonstration anarchy.

This we do not need. On Tuesday, I wrote to the President asking him to hold up demonstration cities until the Justice Department of the House Un-American Activities Committee could look into the question of a black power takeover. If it worries the Washington Post it ought to worry us.

Next I want to stress that this program, as now drawn, is an incredible vehicle for imposing Federal social standards on our cities. To become a demon-

stration city, a city will have to demonstrate how it can remake its school system to conform with the racial balance guidelines of Harold Howe—I mean rezoning, educational parks and the busing necessary to implement these and other Commissioner Howe brainstorms. This is in section 103(2).

Then there is section 103(4) which keeps cities from being picked as demonstration cities unless they modify their local laws the way Dr. Weaver wants, and draw up any necessary open housing and civil rights ordinances. He told this to the Housing Subcommittee—see pages 45–46 of the hearings. He also bragged that one of the benefits of the program would be encouraging cities to revise their zoning laws and real estate tax structure. No thanks. I do not want Dr. Weaver's planners setting the assessments on real property in my district or any other part of New York City.

You will be interested to know that Dr. Weaver, back in April, told a Cleveland gathering of the ADA how cities would have to plan rent supplement housing as part of the demonstration cities program. This means that the residential sections of our cities will have to submit to rent supplement housing, like it or not.

Let me close by noting that the demonstration cities program is to run 2 years at a cost of \$900 million plus \$250 million for urban renewal. This means that it is the same multibillion dollar 6-year program that came up to the Hill originally. What we are voting on today is a \$3 billion program to begin with, which the President's advisers told him will ultimately cost \$100 billion.

I do not for a minute believe that this tricky program is going to rebuild American cities where \$96 billion in Federal money, according to Senator Ribicoff, has failed over the last 10 years.

This program is just a gimmick—a gimmick to centralize power, to give the Federal Government power to promulgate zebra colored housing and education guidelines along the lines desired by Weaver and Howe. It may well be, if we are to credit the Washington Post, that this carelessly planned program will be a gravy train for black power. I urge you to support the amendment to cut the title I money and program back to planning.

We can come up with a much better program next year. For my part, I have introduced a bill to set up a Bank for Urban Renewal and Development. Others have proposed setting up private corporations. There are many things we can do that would be better than this. I grant you that time breathes down our neck in our struggle to help the cities, but I suggest that funding, a half-baked racial balance scheme that may well be a bankroll for black power is no solution at all. I urge you to support this amendment.

Mr. JONAS. Mr. Chairman, if the gentleman will yield on that point?

Mr. FINO. I yield to the gentleman.

Mr. JONAS. Mr. Chairman, it might be interesting to the Committee to know that the supplemental appropriation bill will be on the floor for consideration in the next few days and that it contains another \$750 million for urban renewal.

We are continuing to fund that program at the \$750 million level per year, and this is superimposed on top of that.

Mr. FINO. Mr. Chairman, I am very happy the gentleman made the comment.

The CHAIRMAN. The time of the gentleman from New York has expired.

Mr. WELTNER. Mr. Chairman, I move to strike out the last word and I rise in opposition to the amendment.

The CHAIRMAN. The gentleman from Georgia [Mr. WELTNER] is recognized for 5 minutes.

(Mr. WELTNER asked and was given permission to revise and extend his remarks.)

Mr. WELTNER. Mr. Chairman, I have heard several of our friends on the other side of the aisle ask the question, "What is the rush?" I think, properly, the question should be, "Why the delay?" The question is: Why is it that the Congress has waited for such a long time to give some degree of proper emphasis to the needs of people who live in the cities? Why is it that the Congress has waited until this year of 1966 to bring before this body a bill which would give some measure of hope for the rebuilding of American cities. The question is not why the rush, but why the delay?

I note that only a few days ago this body adopted a conference report for the spending of \$4 billion for public works. Now we are being beset by our friends on the other side of the aisle for suggesting that there be authorized to be appropriated for the fiscal year 1968 the sum of \$400 million. Four hundred million dollars—that is 10 percent of the amount that is already appropriated for public works—to try to alleviate the oppressing and seemingly impossible conditions of so many millions of Americans who live in cities.

Mr. Chairman, this is no longer a nation of small farmers and shopkeepers. Many wish that it were so. But I, for one, am content that this Nation has grown to be a mighty, industrial, urban Nation. I am content that this is a land where 70 percent of our people have chosen, through their own free will and volition, to live in cities.

I am content that we have rising throughout this whole Nation great urban complexes.

I am very proud to be a representative of one of those great urban complexes, the city of Atlanta. I know what this program can do for a city that plans, and for a city that takes advantage of what is made available through Federal legislation, and I know that the legislation we already have is not enough.

The gentleman from North Carolina says that we are going to consider a \$750 million supplemental appropriations for urban renewal—\$750 million—three-fourths of \$1 billion. That is less than 1 percent of the revenues of this country. Yet, we can spend \$5 billion or \$6 billion or \$7 billion a year on farm programs, and spend \$4 billion to build up lakes, rivers, and harbors. But they say we cannot spend \$400 million to build up our cities.

Mr. JONAS. Mr. Chairman, will the gentleman yield since he mentioned my name?

Mr. WELTNER. I am sorry, I must decline to yield to the gentleman.

Mr. Chairman, we have a massive program of land reclamation in this country, to take land and convert it so that it may be used to grow food. Why can we not add this additional program for the reclamation of human habitations in the United States of America?

The other side of the aisle issued a report the other day talking about crime in the streets. The steering committee, or some such body of the Republican Party, issued some report the other day saying that the great issue facing Americans is "crime in the streets."

I agree that that is an explosive proposition, and it could create more difficulties than we have dreamed of.

I hope that the authors of that report agree with me that now is not the time to decry the possibility of crime in the streets but the time is now to do something about it. This is what this bill will do. It does no good whatsoever to stand here in the well of the House, or to go back home and mount the platform, and talk about crime in the streets.

The only constructive approach is to come here to the Congress and to fashion and pass legislation that will rebuild these centers where crime breeds just as the night follows day.

If the minority in this body are interested in crime in the streets, and are interested in the problems of the cities, and if they are interested in the problems of mobs roaming the city streets, then let us do something for the people who live in those cities.

Mr. HANNA. Mr. Chairman, will the gentleman yield?

Mr. WELTNER. I yield to the gentleman from California.

Mr. HANNA. Mr. Chairman, I want to commend the gentleman from Georgia for his statement and to associate myself with his remarks.

I would like to ask him these questions.

In looking over the work of this Congress, and the money that has been spent in a very good and rightful way for farm programs and public works projects in the great expanse of the outdoors, is it not true that we have derived the funds that we have spent much more from the people of the cities—the 70 percent of our population that is involved in industrial work? Have we not derived our funds substantially from these people?

Mr. WELTNER. I am sure the gentleman has stated the situation correctly. I am sure the gentleman knows that the interests of the people in the cities have gone ignored and have been slighted ever since we began to emerge from a nation of small shopkeepers and small farmers.

The CHAIRMAN. The time of the gentleman from Georgia has expired.

Mr. HARVEY of Michigan. Mr. Chairman, I move to strike out the last word.

Mr. Chairman, I have heard this bill referred to as an aid to eliminating crime in the streets in the next year, and I hear it said, "What is the reason for the delay?"

Well, let me say to the membership here that there is not one single thing in this bill that will do anything for

eliminating crime in the streets in the next year. You can eliminate everything but the planning funds and all that these communities are going to be able to do next year in any event is to plan and that is precisely what we want them to do.

Earlier I heard my distinguished chairman of the subcommittee, for whom I have great regard, term this bill "the greatest comprehensive aid to every American city that exists."

Mr. Chairman, that is unadulterated nonsense. That is how this bill is being passed, or, rather, how they are attempting to pass this bill, by holding it out as a false hope to the cities across America.

There are more than 5,000 American cities, and it will not comprehensively aid those 5,000 American cities. We will be lucky if there are 50 American cities that will benefit from the bill after the planning takes place.

I also heard my distinguished chairman say that the amendment "would cut the heart out of title I."

Mr. Chairman, it would not cut the heart out of it one bit. What it would do is to permit the cities to do precisely what they would do with this money in here, and that is plan during the next year, and that is what we want them to plan.

I might say that I was very surprised to hear the chairman of the Subcommittee on Housing make these statements. I have in my hand the committee print of the bill that we used for the first several weeks, which I believe was introduced by him and from which we worked. This original bill, very coincidentally, provided only the planning funds, because that is what we thought would enable the cities to do the job and what we on this side of the aisle now feel will enable them to do the job if they want to do it.

I submit one final question to the Members of the House: How do you know what we are going to be doing over in southeast Asia, in Vietnam, in 1967 and 1968? In the last month we have increased the number of men over there from 300,000 to 325,000, and I support the President in that effort. But I say to you, How do you know you are not going to have 700,000 men over there in 1968? Is your vote on this authorization bill going to be the same then?

Let me submit one other question. Every administration spokesman I hear tells me that we are very likely to get a tax increase, personal and corporate, right after January 1, 1967, after the next Congress convenes.

I am not going back to my district and tell my people that I am voting for this particular bill, without seeing these plans, and not knowing what that tax increase is going to be, or not knowing what we are going to be needing in Vietnam at that time.

Mr. Chairman, this is a sound amendment. All it does is say to the cities, "You start out with the \$25 million planning funds. We think this is a worthwhile effort. This is the most you will get in the next year in any event. We will look at it very closely next year." And, believe me, you will get my support at that time, also.

Mr. WIDNALL. Mr. Chairman, will the gentleman yield?

Mr. HARVEY of Michigan. I yield to my distinguished ranking Member, the gentleman from New Jersey.

Mr. WIDNALL. I would like to join my colleague, the gentleman from Michigan [Mr. HARVEY] and support his remarks. I hope the gentleman from Georgia [Mr. WELTNER] has not left the floor. He made a very impassioned plea to the emotions. I am sure he will get some beautiful editorials written about the words that he has uttered in connection with the needs that we do not recognize. We must have heart. We must address ourselves to securing these things, and everyone interested in it should vote for this bill.

There is not one single person on this side of the aisle who is not interested in curing the cancerous sores of the city. But this bill at this time is not going to do it. I wish the gentleman from Georgia and the others on the other side of the aisle would discuss the facts as to what is in this bill and not try to emotionalize and editorialize.

Mr. ASHLEY. Mr. Chairman, I rise in opposition to the amendment.

Several questions have been raised by Members of the minority who are in opposition to this title. The gentleman from Michigan has suggested that Members of the majority are engaging in some kind of subterfuge when we bring forward a bill which promises, we say, to hold out hope for the cities of this country. He says that this subterfuge is based upon the fact that there will be only a relatively few cities participating in this program, and that we have not been quite honest with our colleagues or with the public in the presentation of the bill.

I would say to the gentleman that this title is called the demonstration cities program. What could be more clear? We do not say that this is a program that is going to encompass each and every city, the 5,000 cities the gentleman suggested, not for a minute.

We make it clear in two ways that this is a demonstration cities program.

First, we call it a demonstration cities program.

Second, we authorize for appropriations \$12 million for planning in the first year and \$12 million in the second year.

The gentleman knows full well that I inquired, as have other members of the committee, of officials of the Department of Housing and Urban Development as to the cost of planning. There was a little vagueness on this, because the cost depends upon the size of the city project. In any event, it was suggested that the planning of a particular project would be in the neighborhood of between \$250,000 to a half million dollars.

If we have \$24 million for planning, how many applications for planning can be approved?

Is this subterfuge, I ask my friend from Michigan?

Mr. HARVEY of Michigan. Mr. Chairman, will the gentleman yield?

Mr. ASHLEY. I yield to the gentleman from Michigan.

Mr. HARVEY of Michigan. What brought this up, as the gentleman will

recall, is that I quoted our subcommittee chairman when he said, "This is the greatest comprehensive aid to every American city." I wrote it down at the time.

I have been besieged by Members on this side of the aisle and on that side of the aisle who have said, "My hometown of Podunk," or "My hometown of so-and-so wants to be a demonstration city. My city manager and mayor have written to me. What chance do they have?"

I say to the gentleman that if one of the Members on his side gets up, such as the chairman, and says, "This is the greatest comprehensive aid to every American city," that is exactly what the tactics are, to encourage every city to believe this.

Mr. ASHLEY. I say that there are two ways to interpret this.

One is to interpret it as the gentleman has, that the gentleman from Pennsylvania is suggesting to the membership—which I do not believe to be the case—that every city in America is going to participate initially in the program.

Let us just suppose that this program is in fact an effective technique for demonstrating new mechanisms to bring about better living in our cities. Would it not follow, from the 50 to 60 cities in which there will be demonstration projects, that there would be the beneficial follow-on impact on other cities derived by what has been demonstrated in those project areas? Would that not be so?

Mr. HARVEY of Michigan. Mr. Chairman, will the gentleman yield?

Mr. ASHLEY. I yield.

Mr. HARVEY of Michigan. I do not quarrel with that proposition one bit. I do not quarrel with the proposition of demonstration cities. What I say is that they cannot do any more than use the planning funds next year, because this is all they are going to do next year. That is what the amendment of the gentleman from Tennessee would do, to give them planning funds which were in the original bill our subcommittee considered.

Mr. ASHLEY. That is right. I will get to that point.

Mr. HARVEY of Michigan. I agree with the proposition; it would help.

Mr. ASHLEY. Fine. I am happy to have the gentleman agree with me.

Mr. Chairman, I ask unanimous consent to proceed for an additional 5 minutes.

The CHAIRMAN. Is there objection to the request of the gentleman from Ohio?

There was no objection.

Mr. ASHLEY. My purpose in requesting this, Mr. Chairman, is to respond as briefly as possible to my good and valued colleague from New Jersey, the ranking minority member of the subcommittee and the committee, who has on two occasions raised the issue as to what in fact is in the measure before us which will help people, which will help cities, which will provide—and I believe this is the heart of his inquiry—better housing within our cities for people of low and moderate income.

I suggest, Mr. Chairman, it is absolutely and abundantly clear, both in the

bill and in the report, in the criteria spelled out and in the statement of purpose, that the main thrust of this bill is to provide better housing for families of low and moderate income.

We look at the statement of purpose on page 34 of the bill entitled "Findings and Declaration of Purpose." It states there on line 15:

The persistence of widespread urban slums and blight, the concentration of persons of low income in older urban areas, and the unmet needs for additional housing and community facilities and services arising from rapid expansion of our urban population have resulted in a marked deterioration in the quality of the environment and the lives of large numbers of our people while the Nation as a whole prospers.

We go to the next section, 103, on page 36 entitled "Eligibility for Assistance," and we find it says:

A comprehensive city demonstration program is eligible for assistance under sections 105 and 107 only if—

(2) the program is of sufficient magnitude to make a substantial impact on the physical and social problems and to remove or arrest blight and decay in entire sections or neighborhoods.

Then on page 37 it says a city demonstration program is eligible only if—

(3) The program, including rebuilding or restoration, will contribute to a well-balanced city with a substantial increase in the supply of standard housing of low and moderate cost.

So I would say to the gentleman from New Jersey, who I know is sympathetic to the proposition that our cities are in need and that low- and moderate-income families do need assistance in providing better shelter than is now available, that this bill does in fact spell out that this is its principal purpose.

Mr. Chairman, finally let me say with respect to the pending amendment that we might just as well be voting on final passage, because if there is no authorization—contrary to what has been said by the gentlemen in the minority, all of whom, to my knowledge, are against this measure—then I say there is no program and if there is no program, then there is no hope for cities and no hope of help for cities at the very moment in our history when assistance from the Federal Government is most urgently needed.

It is not as if we plan the first year so let us just have planning money. This is a specious argument. What mayor do you know who would be interested if at this point we gutted the bill by striking out the authorization for funds later on? Would we not then be saying to them, "Look. We have \$12 million for you to engage in planning." Planning for what? We would perforce reply. "Sorry. With the help of the minority, the guts of our program were struck out—there is no program."

Mr. WIDNALL. Mr. Chairman, will the gentleman yield?

Mr. ASHLEY. Yes. I yield to the gentleman.

Mr. WIDNALL. The only thing being stricken from title I is the money authorization for fiscal years 1968 and 1969. Every blessed word that you have just read is in there and every single mayor would be looking for planning

money. I do not know any mayor who would not be.

Mr. ASHLEY. What are they planning toward? If we say that we so little mean this program that we strike the funds for carrying it out, then what incentive would they have for planning?

Mr. BARRETT. Mr. Chairman, will the gentleman yield to me?

Mr. ASHLEY. Yes.

Mr. BARRETT. I thank the gentleman for yielding.

I understand the gentleman from Michigan, when I was not on the floor, said that I was advocating at the beginning for planning money only. I want to tell the gentleman that that is true. I did at the very beginning, and I think the minority leader also agreed that this would be fine, but my attention was called to the fact that this planning money would be not appropriate. You could not get the cities to go into a demonstration program unless they had the money to carry out the program when the application was accepted. They must have assurance of the availability of grant funds.

The CHAIRMAN. The time of the gentleman from Ohio has expired.

(Mr. ASHLEY, at the request of Mr. BARRETT, was given permission to proceed for 1 additional minute.)

Mr. ASHLEY. I yield further to the gentleman from Pennsylvania.

Mr. BARRETT. When this was pointed out to me, I saw the fallacy of my approach to this problem and I said, "Yes, I can agree, because I do not think any businessman with any kind of business or political acumen would enter into this type of program if he would not be able to get the money for his program after his application was accepted."

Mr. Chairman, I do hope that the gentleman on the other side of the aisle will not make the mistake that I was going to make at that time.

Mr. Chairman, I thank the gentleman from Ohio [Mr. ASHLEY] for yielding.

Mr. HARVEY of Michigan. Mr. Chairman, will the gentleman yield?

Mr. ASHLEY. I yield to the gentleman from Michigan.

Mr. HARVEY of Michigan. Mr. Chairman, I would hope that the chairman would agree with me that in the consideration and the deliberation of the committee we were all agreed upon planning funds; that there was no dissent on the subcommittee whatsoever; that we all felt that planning funds should be authorized and I do not believe there should be any question about that.

Mr. Chairman, will the gentleman answer that question?

The CHAIRMAN. The time of the gentleman from Ohio has again expired.

Mr. MOORHEAD. Mr. Chairman, I move to strike the requisite number of words.

(Mr. MOORHEAD asked and was given permission to revise and extend his remarks.)

Mr. MOORHEAD. Mr. Chairman, I rise in opposition to the amendment.

Mr. PATMAN. Mr. Chairman, will the gentleman yield?

Mr. MOORHEAD. I yield to the chairman of the full committee.

Mr. PATMAN. Mr. Chairman, I wonder if we can reach an agreement to end the discussion on this matter and vote?

Mr. Chairman, I would like to see how many Members would like to speak on this subject.

Well, Mr. Chairman, there are just too many Members who would like to speak on this subject. Therefore, Mr. Chairman, I withdraw the request.

Mr. MOORHEAD. Mr. Chairman, I want to make two points as to why this amendment should be defeated.

First, Mr. Chairman, as the gentleman indicated, at one time the subcommittee was considering merely having planning money contained in this bill.

However, at that time the mayors and community leaders came to us and said to us, "Can you tell us whether the Congress is really committed to this program or not—if you just have planning money."

We said, "No; we have to have a commitment of the Congress to authorize some money for the program. This is a commitment. Barring some catastrophe, this is a commitment by the Congress to go ahead. This is a justification for the mayors and other leaders to expend their time, money, and effort for the planning of this program. That is why the Congress should authorize the money at this time."

Furthermore, Mr. Chairman, as the gentleman from Georgia so ably said, we should have been doing it a long time ago. We have found in past years that we have despoiled our natural resources through uncontrolled strip mining, lumbering, and industrialization, and that we have despoiled and polluted our rivers and our air to the point now where we know that we have to be farsighted and preserve our natural resources.

Therefore, Mr. Chairman, we have our national parks, national forests, and sanctuaries and our various other conservation programs.

Mr. Chairman, what we propose to do in this legislation is apply to our cities the lessons which we have learned with reference to conservation and rehabilitation of our natural resources.

Mr. Chairman, I believe the time has come, if it had not, a long time ago, when we should enact this legislation. But, first, we should defeat the pending amendment.

Mr. PATMAN. Mr. Chairman, will the gentleman yield?

Mr. MOORHEAD. I yield to the gentleman from Texas.

Mr. PATMAN. Mr. Chairman, may I ask again if we cannot agree upon the period of 20 minutes for the remainder of the discussion concerning this amendment?

Mr. Chairman, I ask unanimous consent that the discussion on this amendment conclude in 20 minutes.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas?

Mr. WAGGONER. Mr. Chairman, I object.

Mr. ST GERMAIN. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, yesterday and again today we heard the most amazing argu-

ment, and the most specious one in my opinion, from one who is a member of the subcommittee, with reference to black power and citing the city of San Francisco, I believe it was, with respect to a story that had been carried in the Washington Post.

Everyone knows that no projects to date have been approved, so how could one, who should know better, make a statement to the effect that the black-power interests in San Francisco in—I think the area was Hunter Point, or something of the sort—are going to take over on a particular project.

Mr. FINO. Mr. Chairman, will the gentleman yield?

Mr. ST GERMAIN. I will be happy to.

Mr. FINO. Mr. Chairman, may I ask whether the gentleman was here yesterday?

Mr. ST GERMAIN. I was here yesterday.

Mr. FINO. Was the gentleman paying attention?

Mr. ST GERMAIN. I was paying attention and I was also at all of the hearings, and I paid attention there to what was said also.

Mr. FINO. I made reference to an article that appeared in the Washington Post. It was not my own thinking.

Mr. ST GERMAIN. That is right.

Mr. FINO. This was an article that appeared in the Washington Post of August 28, which talked about a conversation or an interview the writer of this column had with a Mr. Herman, who is the director of redevelopment out there.

Mr. ST GERMAIN. Mr. Chairman, I do not wish to yield for a speech by the gentleman.

Mr. FINO. I am only repeating what I read.

Mr. ST GERMAIN. The gentleman read it yesterday and the gentleman reiterated it today. I say to the gentleman as a member of the subcommittee that the gentleman should know better than to take something such as that as the gospel truth.

Mr. Chairman, I have respect for the gentleman's intelligence and for the gentleman's ability, and I feel it difficult to believe that he believes the words printed in that article.

Mr. FINO. Mr. Chairman, will the gentleman yield?

Mr. ST GERMAIN. Certainly I will yield to the gentleman.

Mr. FINO. Mr. Chairman, I trust that the gentleman will be on the floor a little later on, because I have an amendment which I will offer and, in the discussion of that amendment that I will offer, I will tell the gentleman a little more about this article and the writer of this article.

Mr. ST GERMAIN. That will be fine. I will look forward to that.

Mr. FINO. I appreciate that.

Mr. ST GERMAIN. Mr. Chairman, I say once again I am still greatly amazed at the gentleman's position.

Mr. FINO. I would say to the gentleman to not be amazed but to just listen.

Mr. ST GERMAIN. Mr. Chairman, I would like to ask the chairman of the subcommittee a question.

The Chairman will recall, I am sure, that throughout the hearings on this legislation in questioning the administration witnesses, I asked the gentlemen, I think, to emphasize the fact that this program should not be limited to the larger cities. Because if that were the case, the funds would be expended very rapidly and have a minimum of effect even as a demonstration or model in these United States in that just a few cities would be able to take advantage of it.

The chairman will recall that the gentleman from Michigan stated there are 5,000 cities that perhaps would be interested.

I ask the chairman is it not a fact that as the legislation is now written, as it comes before us, that a sincere attempt is going to be made, and that it has been made clear in the record of the hearings, that the demonstration cities that are approved should be of different sizes, so that all sizes of cities will be affected by this legislation?

Mr. BARRETT. Mr. Chairman, I certainly wish to commend the gentleman from Rhode Island because of his foresight in this program because I think it was the gentleman who established the fact that large and small cities would be given consideration.

Mr. ST GERMAIN. If I might say to the chairman, equal consideration.

Mr. BARRETT. I thank the gentleman. Ultimately we came up with this program. As the gentleman has pointed out in the very beginning, we say small cities as well as large cities ought to be given consideration if the deterioration of that city is such that it needs a demonstration city plan.

Mr. ST GERMAIN. Mr. Chairman, I thank the chairman.

Mr. BARRETT. Mr. Chairman, I wish to thank the gentleman for bringing that to the attention of the House.

Mr. ST GERMAIN. Mr. Chairman, there are many Members of the House who have questioned me on the floor both yesterday afternoon and today on this very point because of their concern that this might be limited just to the larger cities.

In conclusion, Mr. Chairman, I would like to state I wish to associate myself with the remarks of the gentleman from Ohio [Mr. ASHLEY], when he stated so clearly—and the gentleman from Pennsylvania [Mr. MOORHEAD] made the same statement, that you just cannot give the people in the cities the planning funds and say to them perhaps, maybe, someday you may have some money to implement these plans. Because the planning funds that will be granted by HUD to the cities that are selected will be granted after these cities have expended moneys to come up with their first prospectus. And certainly anyone who is aware of the magnitude of these plans realizes that in most instances these municipalities are going to be expending more funds than are granted by the Federal Government for these purposes.

The CHAIRMAN. The time of the gentleman has expired.

(Mr. ST GERMAIN asked and was given permission to revise and extend his remarks.)

Mr. DEL CLAWSON. Mr. Chairman, I move to strike out the last word and rise in support of the amendment.

Mr. Chairman, I was interested in the remarks of the gentleman from Rhode Island, particularly in connection with the colloquy about the article in the Sunday Washington Post of August 28, to which the gentleman from New York referred. I would be the last one to accept everything that you read in an article. However, I would like to bring this article to the attention of a wider audience and perhaps we can get to the meat of the subject and discover whether or not the accusations and some of the charges that have been made here may be true. If they are, then certainly this Congress has an obligation to carry on further investigation, I think, into what the Federal Government might be doing.

This article reads as follows:

[From the Washington Post, Aug. 28, 1966]

"PROGRAMS" STIFLE A LOFTY GHETTO—VIEW OF SAN FRANCISCO IS GREAT BUT 3 YEARS OF AID LEAVE HUNTERS POINT UNCHANGED

(By Nicholas von Hoffman)

SAN FRANCISCO.—A chilly, noncommittal sun bored through the morning fog. It raised the cloudy curtain, as it does almost every morning, so that the people who live here, high up in the Ghetto-in-the-Clouds, could enjoy their million-dollar panoramic view of the Candlestick Park across the cove, their view of the pastel, ticky-tacky row houses of South San Francisco stairstepping up the hills, of the great naval shipyard, of Butchertown's old factories, of the Bay Bridge leapfrogging on to Treasure Island and across the water to Oakland, of precipitous and horizontal downtown San Francisco, Gotham of the West.

The Negro people who live on this promontory called Hunters Point pay their rich man's view, as they say, "no, never mind." Like their always air-conditioned weather, they take it for granted as some of them get into old cars to drive to work and mothers take little ones down the back of the hill to the Head Start nurseries, and social workers drive up the hill while adolescents sleep late and the rhythm of the day begins.

Hunters Point is the ghetto complete to its latest, most advanced stage of urban development, a society with a polity and an economy of its own, distinct, separate, different, segregated and segregating. What is happening on Hunters Point may be an abnormal deviation or it may represent a national compromise on the problem of dealing with poor Negroes in the big cities.

One morning last week, two men stood talking in the doorway of the Youth Opportunity Center, a wooden World War II prefabricated located on the little peninsula's crest. Sloping away from them on all sides, on curling hilly roads that descend toward the water and the Bayview section of San Francisco, are some 2000 units of public housing.

The immediate sight from the Center's doorway is not encouraging. There is a cement, careless parking lot, some boys on a distant sidewalk playing dice as they do every morning and an almost abandoned shopping center. Private enterprise has tried, failed and fled. The only remaining example of free-market activity in this center, originally built to serve World War II shipyard workers who lived on Hunters Point, is the liquor store.

A MOUSE BROUGHT FORTH

Now the largest dollar volume activity in the ghetto is the Youth Opportunity Center, but that also, in the bureaucratic language the people on the hill are learning to use, is phasing out. Begun three years ago as a ten-agency, "coordinated" attack on youthful unemployment, the Center, if not a flat failure, has hardly been a roaring success.

After three years work and more than half a million dollars spent by the Ford Foundation and twice that much by Federal, state and local governments, probably no more than 300 people got full-time, permanent jobs. As with so many poverty programs, the records are incomplete and inconclusive, but the indications are that it cost from \$5000 to \$10,000 apiece to recruit, train and place this handful of Negro youngsters into jobs as office boys, "groundsmen-gardeners" and "clerk-typists." In the segregated and special economy of Hunters Point, the ordinary measures of cost do not apply.

The two men standing in disconsolate frustration at the Center's door knew this.

"Sometimes I wonder what I'm doing up here, why I'm breaking my head against this," Wilfred Ho, the Center's director, remarked. "You can't really say anything. If you report your program's a failure, who's going to pick you up for the next job?"

His companion, an energetic and vehement Negro psychologist who has been a consultant with the Center since its beginning, assented. "Nobody's willing to admit what's going on," said Gene Orro. "I talked to Ralph Sussman from HEW in Washington and his idea was, 'I know all these things, but I don't want to say anything.' That's the name of the game today. It's a charade, but what we're doing isn't worth an obscenity."

"The naive: when San Francisco State College did its study of the Center (a highly critical one), we laughed at the questionnaires. They asked what the Center had done to eliminate racial prejudice. Why, we haven't even gotten to the point of coming into contact with racial prejudice up here on this hill."

"It's so isolated. The citizens don't want to move out of here," said Ho, agreeing that racial prejudice is a purely academic consideration for many in the ghetto-with-a-view.

Next, Orro described how a black power structure, brought to prominence and influence by the new poverty programs, fends off and bamboozles visiting inspectors general from Washington:

"People like me are trotted out of the way naturally and the whole superstructure of big niggers takes over. Smile or be a Mau Mau. You may James-Baldwin it through. You know, kick him, stomp him in the guts, while the visitor says, 'Yes, yes, we're guilty.' Even the ministry is saying kill the whites and the middle class."

Dismayed astonishment at Washington's lack of knowledge about local conditions and the consequences of its programs does not stop with Gene Orro. Oreitha Eggleston, a Negro social worker with a master's degree, had similar words for the Office of Economic Opportunity's summer youth project, a \$44,000 jobs-for-kids "crash program" that seems to have crashed before it took off from Hunters Point.

"Oh, so much could have been done with that money, but the worst thing they could have done was making all of it available this summer the way they did. The children didn't work. They did absolutely nothing. They just sat there day after day doing nothing, getting in everybody's hair and being paid for it. One parent complained she didn't want her son getting this money for doing nothing."

Mrs. Eggleston and others like her are not simply complaining that people are being paid for work they are not doing. They are

worried about the wisdom of paying young people not to throw bricks and Molotov cocktails. They are concerned about rewarding people for antisocial behavior and creating a drifting, purposeless, isolated style of life as outside the Nation's economy as Hunter's Point is removed from San Francisco.

For Gene Orro, Hunters Point is already a special kind of ghetto, a new ghetto without the pain and anger and striving of the old:

"The people here don't want jobs, not real jobs. Jobs take away the one thing they want: leisure time, sitting in front of the liquor store over there and bulling. I'm talking philosophically but this is important. You have to realize the security they have up here on this hill is fantastic. You rob and steal and you can come back up on this hill and be accepted. A mother says the teacher isn't nice to 'my black son' when the teacher tries, because the people here don't try. They're out of it."

"Everything that goes to Washington says we're doing great, but really every leader has found that every problem he solves puts him in danger of losing his position. So they don't want to solve problems."

"Instead they push the ideas that any white person who comes around is in danger. But look what's happened to this community in the meantime. Two years ago we had three Little League baseball teams and two Pop Warner football teams, but now we don't play with anybody outside the community. They even want to build their own high school. The work has been going in the other direction—toward segregation."

SWARMS OF AIDS

A staff member of the California Department of Employment, familiar with Hunters Point statistics, recently estimated that most of the area's job growth arises out of poverty program jobs. The community swarms with "subprofessionals" and "aids" whose duties are imprecisely described as attending meetings, providing contacts, passing out leaflets, "interpreting needs" and "making resources available." One such program (paid for by OEO) in Hunters Point will soon have over 100 people engaged in this sort of nebulous work.

This program is directed, as are many others, by a candid, hard-working young man who makes no pretense at depicting things as other than they are. In fact, George Napper, like Orro and Ho, would welcome more criticism and less praise:

"We have five district offices where all the people work and basically nothing is really being done in this community organization project. We have a lot of people who come here from colleges and universities and say what a fantastic job we're doing, but I just can't see it. Sometimes I think I'm prostituting the community by drawing such a fabulous salary." (Napper is a 26-year-old Negro who is resigning to resume postgraduate studies at the University of California at far less than the \$12,000 a year he is making in his poverty job.)

If Hunters Point is not dynamic, it may be owing to its vast isolation from the dynamic points of American society. There is no business cycle in Hunters Point. The community does not go from boom to bust; instead it follows the more softly modulated, bureaucratic cycle of funding to phasing out.

Moreover, the new programs seem designed to pull Hunters Point yet further away from white America. On Sept. 1, the Agriculture Department's food stamp program will begin in Hunters Point so that the people in the community can even have a currency different from the rest of the population.

FINANCING REVOLUTION

San Francisco's OEO poverty programs are not run by City Hall. Hunters Point and the adjacent Bay View area has its own locally selected poverty board which, within very wide limits, devises and controls what's

done in the community. The system does not set well with some people like M. Justin Herman, head of the city's Redevelopment Agency.

"This is perhaps the first time in the history of our country that the Federal Government has decided to finance open and overt revolution," Herman declared on a recent visit to Hunters Point. Herman is dicker with the local Black Power structure over who will control the Demonstration Cities program to be put into Hunters Point if Congress completes action on the bill that would bring into existence yet one more system of coordination.

But many people working in the community see no revolution, only a separatist, growing vested interest which wants to maintain the system, not destroy it. Observes case worker Bob Ellis: "I think the poverty program has effectively bought off Hunters Point. Some way has got to be found to generate conflict. They ought to bring in a bad police chief. (Hunters Point even likes the police.) Everybody's happy out here. But I wonder, if they keep piling on more and more, doesn't it have to collapse? You do reach a point when you can't absorb any more programs and policies."

Yet everywhere on Hunters Point there are more programs and policies, and all of them seem to detach the community from the rest of the world. In general they are conduits for money to build institutions parallel to the ones already in existence. Thus side by side with the public school system there has sprung up a cluster of OEO and Labor Department-financed educational programs. The rationale for them is that because the more vocal people in the community want them, they enjoy a popular support that will make them more effective.

In truth, they appear to be shabby and undercapitalized. Since they offer neither tenure, fringe benefits nor guaranteed continuity of employment, it's hard for them to recruit teachers. Sometimes, as with the summer "crash" program that was supposed to provide education as well as jobs, the project was doomed before it started.

The overworked administrators had about one week to train and set up a staff organization to run a citywide program involving 400 kids and more than \$400,000. Before the program was six weeks old, the director and three staff members in the Hunters Point section had been fired.

Should anyone care to reverse the growing segregation of Hunters Point, he will face some formidable impediments.

When Hunters Point people are asked what would happen if the jobs were cut out, they shake their heads and predict an "explosion." The community's leaders and/or troublemakers—depending on how you look at them—are the people on the payroll. If their newly created jobs are taken away, the assumption is that they will start marching or, worse yet, rioting.

But, jobs aside, the prevailing tone in California among articulate, militant Negroes is to clear out of white society. In Watts, the "free city" movement is hoping to detach the area from the rest of Los Angeles and set up as a separate municipality. A few miles south along the bay, a Negro group in East Palo Alto has taken the first steps to do the same thing.

California whites may not be averse to the idea either. There is another drive here to get rid of the state's open occupancy law, and in the gubernatorial campaign, neither the liberal, Democratic incumbent, Pat Brown, nor the conservative, Republican challenger, Ronald Reagan, is talking about much besides the importance of protecting property rights.

For the whites, a subsidized and separated Hunters Point may seem a more humane answer to the question of race and poverty than the National Guard, but there are other questions it does not answer. If America has

been going through a second reconstruction, is this its end? Is this the final settlement meant for this generation, the price of peace in the city streets?

Hunters Point people pay such questions no-never-mind. They treat these as words unheard, words unspoken, as they do the roar of the crowd when Willie Mays hits a home run and the noisy cheers rise up to the Ghetto-in-the-Clouds.

Now we have been talking about the respectability of cities.

This Hunters Point project is a Federal program—a program of some 2,000 units with a beautiful view of the bay. It is a place where you look out over the bay—it is a paradise if it were not for the kind of ghetto that it is.

The subject article describes the crime that breeds here, how they go down into the central city and then come back and are protected.

Throwing more money into such programs in my opinion is not going to solve the problems that we are talking about.

I believe we ought to have investigation; we ought to have planning and surveys and do that first, then come back to the Congress and let us see if we can provide programs that will avoid another situation of the kind that has been described at Hunters Point.

Mr. ST GERMAIN. Mr. Chairman, will the gentleman yield?

Mr. DEL CLAWSON. I yield to the gentleman.

Mr. ST GERMAIN. Is it not the concept of the demonstration cities program to do exactly that which the gentleman just said, to find out how to prevent this crime?

Mr. DEL CLAWSON. The gentleman is absolutely correct. This is certainly what I suggest we do before we engage in another program that might result in what has been done at Hunter's Point, because that was a Federal program. Let us get the planning on the books and then come to Congress.

Mr. ST GERMAIN. May I ask the gentleman this question: Does the gentleman feel as though there is any indication, from what he has read, that this was black power on the move?

The CHAIRMAN. The time of the gentleman from California has expired.

Mr. WAGGONER. Mr. Chairman, I move to strike the requisite number of words.

The CHAIRMAN. The gentleman from Louisiana is recognized for 5 minutes.

Mr. BARRETT. Mr. Chairman, will the gentleman yield to me?

Mr. WAGGONER. I am glad to yield to the chairman of the subcommittee.

Mr. BARRETT. I am very much interested, and I know all the Members on both sides of the aisle are, in trying to conclude this bill early tonight so the Members will not have to come in tomorrow. I was wondering if we could agree upon a limitation of time after the gentleman's 5 minutes.

The CHAIRMAN. Will the gentleman make a unanimous-consent request?

Mr. BARRETT. Mr. Chairman, I ask unanimous consent that we conclude all debate on this amendment after the gentleman concludes and 15 minutes.

The CHAIRMAN. The gentleman from Pennsylvania makes a unanimous consent request that all debate on the amendment conclude in 15 minutes after the statement of the gentleman from Louisiana. Is there objection? The Chair hears none, and it is so ordered.

There was no objection.

The CHAIRMAN. The Chair observed standing Mr. PELLY, Mr. RYAN, Mr. MACGREGOR, Mr. MORTON, Mrs. SULLIVAN, and Mr. MULTER.

(Mr. WAGGONER asked and was given permission to revise and extend his remarks.)

Mr. WAGGONER. Mr. Chairman, it has been my observation through the years that those people nearest the forest have trouble seeing the trees. I do not live in a city. I live in the country near a little town of 1,237 people when they are all home. The Howard Johnson has only one flavor and that is vanilla. But I think people in the cities are having just a little bit of a problem in seeing what they ought to see.

The question has been asked, "Why the rush for this legislation?" The question has been posed in retort, "Why the delay?"

If these cities are as bad as you who live in them proclaim they are, perhaps we ought to build more highways and provide for an accelerated Federal highway program to help people get out of them. I think I have visited most all of the cities at one time or another. Seriously, I do not believe they are all as bad as you say. I do not argue that problems are nonexistent. I know they do exist. I think you ought to ask yourselves why the conditions which you describe exist in the first place, and I think this might be the reason: when the gentleman from Georgia stood in the well and the gentleman from Tennessee asked him to yield, he declined to yield, because until you can answer this question, you cannot solve the problem.

I submit to you that it is rather illogical to assume that the same people who live in the cities and who have allowed these problems to develop and to exist, if given the responsibility to try to correct them with Federal dollars, would come any nearer correcting the problems than they have in trying to prevent them from developing or existing in the first place. If you will be honest with yourselves you must admit that a lack of leadership caused the problem in the first place. I submit that leadership is lacking for corrective action in these cities.

So we have come to the point in the debate that we should ask ourselves some honest questions about what the problems of the cities really are and see if there are any answers.

I submit to you that the cities that you attempt to help with this legislation in fact cannot be helped with the legislation that is proposed. They are practically beyond help. We scoff at De Gaulle and his delusions of grandeur as he admits he seeks to restore France as the number one nation of the world. The idea is futile. So is the idea that this proposal will solve the problems of the cities. It will only add to the power of a centralized Federal Government, bring

more people to Washington with their hat in their hand. It will make a joke of city halls and State capitols. Very little can be done for our cities.

Why? Because the cities have long since exceeded their ability to provide the services needed for the people who live therein. The physical limitations of these subject cities have long since been exceeded, and the resources are not available, nor will they be available under this program, to meet what the people demand—and they do demand, I know. Only so many people can be put on an acre of land. Only so many can be transported at a given time. It is as simple as a can being full of beans.

You cannot provide the needs of transportation, you cannot provide for the living accommodations, you cannot provide for the educational needs, nor can you provide the other public services such as utilities which these overcrowded cities require. There is no available tax base. Race relations is a factor. Crime is a factor. People want out of these overcrowded cities.

It is tragic that this is the situation. But it is.

I have long held to the attitude that no man was entitled to criticize unless he had an alternative to offer.

The alternative is not simply to come to the Congress and say, "Give us dollars to rebuild our cities," because you cannot expend enough tax dollars, and enough tax dollars are not available to rebuild these cities. You cannot rebuild one portion of these decaying cities today without another section growing old at the same time. It is a never-ending process.

There is an answer. The answer is decentralization. This is an answer which is preventive in nature. Cure is not then needed. The President echoed the same thing when he visited Pennsylvania not long ago. The Secretary of Agriculture echoed the same thing in a farm report he made available to Congress this week, when he said, "Get the people out of the cities."

Thank goodness we still have many cities who are capable of solving and meeting their problems. Don't penalize those who provide for themselves. Decentralization is a far cheaper answer than coming to Congress and asking for a 2-year authorization, which we all know is only a drop in the bucket as compared to future requests. The request now is for \$400 million for program money for 1968 and \$500 million for program money for 1969. We should realize that the only thing to be done is to make those cities who get money and others as well who want money thirsty for more money. This will only whet an appetite, and even with a trillion dollars today you could not do what needs to be done in rebuilding these cities. There is testimony to substantiate this fantastic figure.

The CHAIRMAN. The Chair recognizes the gentleman from Washington [Mr. PELLY].

(Mr. PELLY asked and was given permission to revise and extend his remarks.)

Mr. PELLY. Mr. Chairman, one great argument against the demonstration

cities bill is the amount of the money to be spent. But even in view of present inflation due to excessive Federal Government spending, I would suggest other more persuasive reasons to oppose the legislation. For example I am concerned about its undue extension of Federal power. Cities should be doing the job of renewal and rehabilitation without Federal assistance. Furthermore this bill does not make it clear what is to be demonstrated or what relationship the program would have to existing urban renewal and public housing. No one has convinced me, moreover, what this measure would not create a Federal czar who would have absolute control over local affairs. Furthermore under this legislation there seems to be a definite attack on the concept of neighborhood schools through the use of grants. In other words a metropolitan area could be required to locate its schools and fix its policy under Federal guidelines.

Mr. Chairman, in this period of severe inflation, soaring prices and ever-increasing Government spending at home and abroad it is time to call a halt. When money is necessary for education, or poverty, or slums. I have long favored return to the States of tax revenues so local decisions as to spending remain free of Federal control. We have witnessed under programs such as urban renewal, the erosion of local responsibility and this growth of centralization of Federal control. One judge in my congressional district, reluctantly passing on a case where condemnation powers were used to expand a university campus called it morally and economically wrong although on legal grounds he was forced to rule in favor of the procedure.

This is an omnibus bill and anyone in opposition will be charged with being against education and improvements of municipal conditions and many needed changes.

Nevertheless will we support local incentive and while I fully understand the support for this bill of the mayors of big cities and municipal officers, I think the bill in the overall is not the answer to the major crises under which our cities suffer.

So unless the bill is substantially amended and improved, I could be forced to vote against it.

The CHAIRMAN. The Chair recognizes the gentleman from New York [Mr. RYAN].

(Mr. RYAN asked and was given permission to revise and extend his remarks.)

Mr. RYAN. Mr. Chairman, I rise in opposition to the amendment. As has been stated earlier by the distinguished chairman of the Committee on Banking and Currency and by the distinguished chairman of the subcommittee, this amendment would in effect destroy the bill. It would destroy the hope which has been kindled in the major cities of this country by the proposed demonstration cities bill.

Last winter the President of the United States called for a rebirth of the American city, and he submitted this program—which is not a panacea, which is

not going to solve the problems overnight, but which is a start, which is a beginning, and which says to the cities, "If you come forward with a plan, a comprehensive plan, that will take in not only physical renewal but social renewal and human renewal, the Federal Government will help you fund it."

No one should be more aware of the needs of the city of New York than the gentleman from New York [Mr. FINO], who took the floor to try to gut this bill. His Republican administration of the city of New York will benefit if this bill is passed. This bill is a beginning.

New York City has a shortage of housing; some 400,000 units of housing need to be built in the city of New York right now. It is a city which has myriad problems.

This is the result of years of neglect, to be true, but also years of failure on the part of the Congress to recognize that it has an obligation to help the urban dweller and the city resident, just as it long ago assumed an obligation to the farmer. The Federal Government is spending some \$3 billion per year for price supports, cropland diversion, and various agricultural programs. Many of us have supported those programs because we recognized the interdependence of the city and the rural area.

Now in our major cities we need assistance in order to rebuild not only the physical condition of cities which have been permitted to deteriorate but to rebuild human beings and to salvage human resources.

We need a bold plan, an Appalachian program for urban America which I have long advocated.

The terms of the magnitude of the problem, the Demonstration Cities and Metropolitan Development Act of 1966 is a disappointment.

Mr. Chairman, I have watched title I of this bill, the provision for demonstration city programs, change from a 5-year, \$2.3 billion program to a 2-year, \$1.2 billion one, and now to the sum of \$924 million for 2 years. Even \$2.3 billion would not have been enough. Indeed, the mayors of the cities of New York and Detroit, in testimony before the Senate Subcommittee on Executive Reorganization, both indicated how inadequate this amount would be. Testifying before the House Housing Subcommittee on March 21 of this year, I proposed that the \$2 billion be made available for the first year alone, or that the bill we are now considering authorize \$10 billion over a 5-year period. I maintain that this is a far more realistic figure when we consider the magnitude of the problem in our cities, when we consider that we plan to spend about \$3 billion in fiscal 1967 for price supports, cropland diversion, and other farm income stabilization measures, when we consider that we will spend over \$3 billion for the maintenance of natural resources in fiscal 1967. In fact under this bill we will spend for demonstration cities less in 1 year than we spend in 1 week in Vietnam. What a woefully inadequate sum for the salvation of our human resources.

I am further disturbed, Mr. Chairman,

that our colleagues in the other body added a 15-percent limit on the amount of funds any one State shall receive. As I said in arguing against a similar provision in the Housing and Urban Development Act of 1965, this limit is arbitrary, unreasonable, and ill conceived. The total urban population of New York State is 17.5 percent of the national urban population, if we consider cities of 50,000 or more to be urban, as of 1965. Let us assume that at least 50 cities will be selected for demonstration projects. The sum total population of the 50 most populous cities in this country in 1965, according to the 1966 Rand McNally Atlas, was 40,512,000, and the population of New York City alone—8,080,000—is 20 percent of the total population of these 50 cities. Adding Buffalo and Rochester, the populations of all the cities of New York State appearing among the top 50 cities is 22 percent of the national total. Since probably not all of the top 50 cities will receive grants for demonstration projects, the total population in cities selected will be considerably less than 40,512,000. Therefore, New York City's population would be much more than 20 percent of all people in cities conducting demonstration projects. Since New York City will have to share the 15 percent with any other demonstration cities in New York State, it is obvious that New York City and other cities in New York State will be adversely affected by the 15-percent provision.

Reliable estimates place the number of persons in New York City living in poverty-stricken households at more than 1.5 million. New York City's welfare program costs have soared to more than half a billion dollars per year. Since 1949 New York has received an aggregate of only \$286 million in Federal funds for urban renewal out of a total of \$5.3 billion spent nationwide. At the time when the bill contained a \$2.3 billion authorization, the mayors of New York, Detroit, Chicago, all stated that the entire \$2.3 billion could be used exclusively for rejuvenating neighborhoods in their own cities. Compared with the need of New York City alone, the \$60 million available to New York State for the fiscal year 1968 under this program will hardly alleviate the conditions under which millions of our citizens live in New York City. It is no wonder that there are those who out of desperate frustration become alienated from the democratic process.

Nevertheless the demonstration cities, program is an approach to the problems of the city, an approach which may prove to have the potential its framers envisioned. The opportunity to marshal all the existing programs and proposals, some of which are as yet only bold ideas, into a coordinated, concentrated attack on a specific target area desperately in need of help is an exciting prospect.

The bill before us states that the purpose of demonstrations programs are—

To provide additional financial and technical assistance to enable cities of all sizes;

To plan, develop, and carry out locally prepared and scheduled comprehensive

city demonstration programs containing new and imaginative proposals;

To rebuild or revitalize large slum and blighted areas;

To expand housing, job, and income opportunities;

To reduce dependence on welfare payments;

To improve educational facilities and programs;

To combat disease and ill health;

To reduce the incidence of crime and delinquency;

To enhance recreational and cultural opportunities;

To establish better access between homes and jobs; and generally to improve living conditions for the people who live in such areas, and to accomplish these objectives through the most effective and economical concentration and coordination of Federal, State, and local public and private efforts to improve the quality of urban life.

I approve of this concept of coupling physical and human rehabilitation into a single, massive effort.

It is also significant that this proposal is to be a flexible, adaptable program, not one which would exclude subsequent suggestions or ideas related to a particular locality. Rather, this proposal has room for these according to how the locality plans its demonstration project. Indeed, all the forces of businesses, churches, labor, foundations, and universities can be mobilized under it. There is room under demonstration cities for new concepts such as projects which encourage the maximum participation of the residents of the demonstration area by providing jobs in construction and opportunities to participate in social work, training programs, adult education, recreation, and in other areas in which the residents can play a part. Such meaningful participation develops neighborhood, civic, and human pride, a dignity which has been lacking, and a hope for the future.

At the same time, this proposal is not meant to be the final answer, the last word in urban rejuvenation. We would be deluding ourselves if we expected this proposal to solve once and for all the cities' problems. We must still search for new solutions to urban problems and look to the results of the demonstration programs to determine its successes and its failures. Attorney General Katzenbach testified before Senator RIBICOFF's subcommittee:

There are, in truth, a number of plausible methods of organizing our efforts. . . . No single umbrella will cover the whole system of urban affairs.

And the President, in his message on cities, said:

Let there be debates over means and priorities. Let there be experiment with a dozen approaches, or a hundred.

If this is to be an experiment, then cities should not be selected on the basis of their potential for success, as Secretary Weaver suggested, but rather on the basis of the manifest need of a particular neighborhood. Also, let me warn again, as I did before the Subcommittee on Housing, against sacrificing total planning to speed and expediency. If

cities rush to get their proposal in as early as possible to compete with the proposals of other cities, then much will be lost during the initial planning stages, and the overall success of the demonstration program threatened. Cities should be selected neither on a first come first served basis, nor on the basis of their chances for a palpable success, but on the needs of the city and the merits of the program.

The second title of this bill is closely related to the first, as closely related as are the suburbs to the central cities.

As the President observed in his January 26 message on demonstration cities:

The absence of cooperation between contiguous areas is wasteful.

It is wasteful, Mr. Chairman, because of the duplication and inefficiency. It is wasteful because the suburbs have for too long contributed to the problems of the central city without contributing to the solutions of these problems. In addition to the demands of the commuters, the suburbs impose additional hardship on the cities as havens for those wealthy enough to move. Discriminatory housing practices also result in systematic exclusion from the suburbs. The poor remain locked in the central city.

This title, however, should encourage contiguous areas, neighboring local governments, and conflicting or overlapping jurisdiction in the same metropolitan area to work and plan together on the local level to confront the vast number of common problems which have too often been left to the cities exclusively.

This title requires that all applications for Federal loans or grants for projects for open-space land, or hospitals, airports, libraries, water supply and distribution facilities, sewerage facilities, or water development and land conservation, highway, transportation facilities within any metropolitan area must, after June 30, 1967, be submitted for review and comments by a metropolitanwide comprehensive planning agency.

This section also provides for a "metropolitan expeditor" who would on request of local officials be appointed by the Secretary of Housing and Urban Development to provide information and assistance to local authorities and to Federal agencies with respect to HUD's programs and activities.

Title III includes provisions for liberalizing the FHA cooperative housing program and for preventing premature foreclosures on FHA-financed multifamily housing projects. The most significant parts of this title, though, are the provisions for raising the limits of mortgages financed under the FHA home mortgage insurance program for low- and moderate-income families, and for a new innovation in FHA below market interest rate financing of housing for low-income families. This latter would provide for FHA-insured mortgages for nonprofit organizations for purchase and rehabilitation of single family dwellings for resale to low-income individuals or families. Both these measures will contribute substantially to the desirable goal of homeownership for low-income families, which is a necessary comple-

ment for the construction of housing projects, and to a sense of pride and self-respect among low-income families which homeownership provides.

Title IV opens up an exciting possibility for a new kind of Federal program, that of FHA mortgage insurance for planned, new communities. The need for such a program is adequately demonstrated by the fact that, between 1960 and 1965, the suburbs have grown in population by 17.7 percent, while the central cities have grown by 3.2 percent during this period, and this trend is likely to continue. The mushrooming suburbs should not be allowed to become metropolitan oases which hide from the central cities behind a lily-white curtain. Rather, this title should encourage the construction of new communities which would be a contributing part of a planned metropolitan network. We must be wary, however, that these new communities do not become the middle-class ghettos, the closed suburban communities which many privately financed new towns have become. These new communities must provide housing for all income groups, permitting rich and poor alike to have the option of moving away from the central city if they so desire. We must make sure, in view of the defeat of the civil rights bill of 1966 in the Senate, that these new communities do not discriminate in any way in the sale of homes.

The authorization for FHA mortgage insurance for the construction of facilities for the group practice of medicine, optometry, and dentistry is contained in title V. This provision is of critical importance to those individuals who cannot get adequate medical care because of rising costs—hospital and doctor bills have risen 3.4 percent in the past 6 months—and to the cities which provide public health facilities for the indigent poor. Considering that the demand for health care is rising while the doctor-patient ratio is expected to remain about the same, group practice is one solution.

Title VI of this bill provides grants to localities for the recognition, relocation, and restoration of historic and architecturally valuable structures in urban renewal areas and loans to tenants or owners of these types of structures for their acquisition and rehabilitation. These are commendable provisions. Only recently was the grand Metropolitan Opera House in New York City saved from the wrecker's ball. Regrettably, many other valuable buildings are not so fortunate and are destroyed. It is my hope that this measure can help prevent such losses.

Title VII also grants permission to use air rights sites in urban renewal areas for industrial development. This may contribute to the urban renewal plan if the industry is compatible with the residential area, if it can provide substantial employment opportunities for the residents of the urban renewal area, especially the poorer residents, and if it is made manifestly clear that the sites are indisputably unsuitable for low- and moderate-income housing. But who, I wonder, will determine whether the site is unsuitable? The local urban renewal

agency, I suspect, the same type of agency which has authorized the construction of high rent, luxury apartments for urban renewal sites in the past and has systematically excluded low- and moderate-income housing. This situation must be halted. The provision that the site must be determined to be unsuitable for the use for low- and moderate-income housing must be carried out explicitly.

In title VIII, changes are made in legislation pertaining to rural housing, including extending the eligibility for and raising the ceilings of certain loans for purchase, rental, or repair of rural dwellings. The housing problem is a national problem, and the needs of our rural citizens must not be overlooked. As an urban Congressman, I recognize the relationship between the urban and rural areas of our country, and I recognize that providing adequate housing and opportunities in rural areas may well preclude the necessity for many of the rural poor to move to the city. By making more of our rural citizens eligible for low income housing and government loans, we can help both rural and urban areas.

Finally, title IX, besides including many clarifying amendments, also provides additional FHA assistance for cooperative housing, including FHA-insured advances during the construction of such housing, and for low-income housing under the section 221(d)(3) program. Also included are provisions: First, for Federal grants for the development of open-space areas whether or not these areas were acquired under a Federal grant program; second, for the Secretary of Defense to acquire the homes of servicemen and other employees of military bases slated to close or to reimburse them for losses, resulting from such closings, suffered in the sale of their homes, and third, for extending to 6 months after the passage of this bill the time allowed for submission of the report on the Secretary of the Department of Housing and Urban Development's study of relief for homeowners in the vicinity of airports.

Mr. Chairman, I am concerned, however, that of the three research and development projects, those in technology relating to design and construction of housing, urban environment, and hydrology, provided in this bill, only one project, the technology study, was granted a specific appropriation authorization. Considering the \$5.3 billion appropriated to NASA for space research, the \$15 million for the application of advances in technology is a token sum.

Mr. Chairman, despite the bill's weaknesses, its limitations and its deficiencies, it is urgently needed. The cities cannot begin to solve their problems without substantial Federal assistance. In New York City, for example, the fight for decent housing is being lost. The rate of decay of city housing has outstripped the role of rejuvenation and replacement. Unsound housing units in New York City, exclusive of rooming houses, have increased from 420,000 in 1960 to 525,000 despite present local, State, and Federal programs. At the same time, the rent-to-income ratio has increased from 18.4 to 20.4 percent.

The mayor of New York, testifying before Senator RIBICOFF's subcommittee stated that, in New York City, some 350,000 dwelling units are in buildings constructed before 1900, and a full 800,000 units are substandard, or one-fourth of New York City's total housing. Compare this latter figure with the 500,600 units which represents the total effort of Federal, State, and local authorities all over the country over a 5-year period in low- and moderate-income housing, including Federal, State, and local public housing, below market interest rate financing, low interest loans, and rehabilitation. The total 5-year effort of every level of government in this country could not adequately resolve the needs of the Nation's greatest city. And, by 1970, it is anticipated that almost 70 percent of all housing units in New York City will be more than 40 years old.

Let us look further at New York City, where nearly 2 million people live in poverty, enough people to be the fourth largest city in the country. Welfare payments amount to \$650 million a year, 14 percent of the city's budget, while only 7 percent of New York City welfare recipients live in public housing. This means that welfare payments to nearly all New York City's welfare recipients, payments which represent tax dollars, go to slumlords. New York City will spend \$571 million this year on hospitals and health services, and, despite this, \$400 million is urgently required to renovate or rebuild obsolete hospital facilities. And New York City's rapid transit system which every day transports 3½ million people, many of whom are commuters, in and out of the 9 square miles of Manhattan south of Central Park, requires \$4 billion over the next 10 years, 40 percent of New York City's capital budget for that period, for modernization. Yet this is the city which Secretary Weaver said before the authorization was cut, can expect to receive about \$50 million a year. This is an inadequate sum, to put it mildly.

The national picture is no less bleak. In a few years, 80 percent of all Americans will live in cities or dependent metropolitan areas. And right now, some 7 million urban homes are run down or deteriorating, and some 3 million are without adequate plumbing. It is estimated that by 1975, 2 million new homes will be needed; the cities will have 10 million additional school children; and they will have to move 200 million people and 80 million autos per day.

But even these figures are mute when we consider the desperate plight of the ghettos, the blighted neighborhoods which the demonstration cities legislation anticipates rehabilitating. In these areas, over 35 percent of the families live in poverty, over 40 percent of the housing is substandard, unemployment is as high as 20 percent, school dropout rates are as high as 70 percent, infant mortality is twice the normal rate, and the incidence of deaths from TB, pneumonia, and influenza is two or three times that outside the ghetto.

Clearly, the closer we look, the more hopeless conditions appear—hopeless because the cities have exhausted all the

remedies available to them. Their local tax base is eroding, for each new tax is followed by an exodus of the middle-income class and of businesses. The amount of decent housing declines as the low-income market increasingly predominates, for private builders will invariably build where the money is. And, as builders move out, job opportunities and city revenues decline still further. This is a vicious cycle. As more housing is needed, less is available. As more jobs are needed, fewer are available. As the need for more city revenues increases, the tax base withers.

Some of the results of these conditions have erupted in violence. As Attorney General Katzenbach observed:

These riots were indeed fomented by agitators—agitators named disease and despair, joblessness and hopelessness, rat-infested housing and long imparted cynicism.

Mr. Chairman, we have before us a bill which can help snap the spiraling vicious cycle of poverty. The cities of America need massive infusions of Federal assistance. Two years is obviously not enough, but if, after 2 years, the Congress will enlarge the program both in scope, to assist many more cities, and in size, to make a meaningful financial commitment, then we may reap some of the benefits this legislation promises. If, however, the Congress does not grant adequate financial authorization, the demonstration cities will be doomed without a chance, and the urban rebirth which the President has promised for the Nation may well be a miscarriage.

The CHAIRMAN. The time of the gentleman from New York [Mr. RYAN] has expired.

The gentleman from Minnesota [Mr. MACGREGOR], is recognized for something less than 3 minutes.

(Mr. MACGREGOR asked and was given permission to revise and extend his remarks.)

Mr. MACGREGOR. Thank you, Mr. Chairman. I rise in support of this amendment.

Mr. Chairman, this bill consisting of some 102 pages accompanied by a committee report of 156 pages was first available to the Members of this body 6 weeks ago. This amendment we are considering is to the comprehensive city demonstration program title, title I of the bill, which in and of itself is 15 pages long. For those of us who are not privileged to serve on the Committee on Banking and Currency, there has indeed been precious little time to carefully consider each and every one of the 82 subsections in this 102-page bill.

The first section is most attractive in concept. The idea of mobilizing Federal, State, and local resources, both public and private, in a concentrated effort to improve the physical and social environment of an existing slum neighborhood is undoubtedly the right approach.

I am impressed by the fact that the present amendment does not in any way do damage to what appears to be a very hopeful concept in title I of this bill. This amendment says, "Let us plan intelligently before we commit ourselves to the exact direction in which we go forward." The Department of HUD says it

needs a year for planning. Let us go forward with comprehensive plans during the course of the next 9 months and then see before the end of this fiscal year, on June 30, 1967, what direction would be the best direction to take in order to implement the plans that are deemed appropriate by the Executive and the legislative branches of this Government.

What could be more sound? Mr. Chairman, all of us in this body know that we are now facing expenditures in this fiscal year of approximately \$130 billion with a proposed \$14 to \$15 billion supplemental appropriation bill for Vietnam in January. We know in this body that receipts of our Government for fiscal year 1967 are now estimated to be in the neighborhood of \$117 billion.

Mr. Chairman, we are facing at the present time a projected deficit for this fiscal year of \$13 billion. I appreciate that this amendment does not in any way affect the \$24 million for planning. That will go forward. However, the gentleman from Pennsylvania [Mr. MOORHEAD], talked about us making a commitment here today on a new program that will bind a new Congress elected by the American people 3 weeks from Tuesday. I think it unwise, Mr. Chairman, to bind a new Congress on a new program, not an ongoing program but a new program, when the American people are going to have an opportunity in just 3 weeks from now to express themselves on whether they want these expensive programs and the tax increases that will be absolutely necessary in order to pay for them.

The Minneapolis-St. Paul metropolitan area has an excellent attitude and a progressive record of accomplishment in cooperative efforts through a five-county area to attack the problems facing all of our metropolitan centers. I feel sure that our metropolitan planning commission in cooperation with State and local officials and interested private citizens could develop a plan consistent with the purposes of the first section of this bill. Hopefully, the planning in my area and other additional plans would persuade the House Committee on Banking and Currency to authorize grants to carry the planning forward into reality.

It has been made abundantly clear here that no money will be appropriated this year to finance anything but planning during the next 8 or 9 months. We will have a new Congress in 3 months consisting of newly elected Representatives of the American people. That Congress will be obliged to consider a supplemental appropriation well in excess of \$10 billion for Vietnam together with a broad tax increase proposal of perhaps \$10 billion. Surely it would be more intelligent, since the majority does not plan in any event to grant any money under this title until next July 1, to have the members of the Banking and Currency Committee of the 90th Congress together with all of the Members of this body carefully evaluate expenditure priorities in this and other domestic programs.

The CHAIRMAN. The time of the gentleman from Minnesota has expired.

The gentleman from New York [Mr. HORTON], is recognized for something less than 3 minutes.

(Mr. HORTON asked and was given permission to revise and extend his remarks.)

[Mr. HORTON addressed the Committee. His remarks will appear hereafter in the Appendix.]

The CHAIRMAN. The Chair recognizes the gentlewoman from Missouri [Mrs. SULLIVAN].

Mrs. SULLIVAN. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The Chair recognizes the gentleman from New York [Mr. MULTER].

(Mr. MULTER asked and was given permission to revise and extend his remarks.)

Mr. MULTER. Mr. Chairman, it is awfully strange to hear some of the arguments against this bill, and all of them can be summed up to mean that if this amendment prevails, there will be little or nothing left to the bill and, certainly, nothing left to the new programs as now called for by the bill.

Mr. Chairman, permit me to direct the attention of the Members of the Committee of the Whole House on the State of the Union to the bill, S. 3708, which we are considering here.

Mr. Chairman, this bill was passed in the other body in August of 1966.

Mr. Chairman, we have two volumes of testimony taken over a period of 18 days on this bill.

Permit me to call your attention further to the fact that the distinguished gentleman from New York [Mr. FINO], who is raising so much objection to this legislation and who finds so many ghosts and scareheads in it, that gentleman on February 24, 1966, introduced a bill which provided, and I read:

There are hereby authorized to be appropriated such sums as may be necessary to carry out the provisions of this Act.

Without any limitation of any kind whatsoever.

Mr. Chairman, we bring the bill here to the floor of the House now and we limit the provisions thereof to planning for the 2 fiscal years ahead, and then we provide only an authorization for the next 2 fiscal years.

Mr. Chairman, we are not appropriating now. We are merely authorizing.

Mr. Chairman, all of those who are saying, "Now, let us not spend any money; let us reduce the deficit," let me say to them, "Let us consider the deficit that exists today in the human lives, and in the lack of housing, and in the lack of educational facilities and in the lack of adequate community facilities."

Mr. Chairman, let me urge those of you that do not like the bill, then vote with the gentleman from New York [Mr. FINO] and vote against it.

But, Mr. Chairman, let us not try to gut it first by adopting an amendment such as this.

Mr. Chairman, let us not pass just a title. Let us pass a bill. Let us defeat this amendment and then proceed to a vote on the bill.

The CHAIRMAN. The Chair recognizes the gentleman from Rhode Island [Mr. ST GERMAIN].

(Mr. ST GERMAIN asked and was

given permission to revise and extend his remarks.)

Mr. ST GERMAIN. Mr. Chairman, I would like to get just one point across to the Members of the Committee of the Whole House on the State of the Union.

Mr. Chairman, I think the ranking member of the committee and the chairman of the committee might help in this also.

Mr. Chairman, there has been a cloud cast upon this legislation. I believe that we should make it clear that it is in no way a civil rights bill and in no way directed toward helping only the Negro ghetto. But, it is directed toward helping the sick cities, no matter where they may be or no matter whom the residents thereof are.

Is that not a clear statement of fact?

Mr. BARRETT. Mr. Chairman, if the gentleman will yield; that is correct.

The CHAIRMAN. Under the unanimous-consent agreement all time has expired.

Mr. ASHLEY. Mr. Chairman, I make a point of order that a quorum is not present.

The CHAIRMAN. The Chair will count.

Ninety-four Members are present, not a quorum. The Clerk will call the roll.

The Clerk called the roll, and the following Members failed to answer to their names:

[Roll No. 364]

Abernethy	Fisher	O'Konski
Adair	Flynt	Pool
Albert	Foley	Powell
Andrews,	Frelinghuysen	Purcell
Glenn	Fuqua	Redlin
Aspinall	Green, Oreg.	Reinecke
Baring	Greigg	Resnick
Burton, Utah	Gross	Rivers, Alaska
Cabell	Hagan, Ga.	Rogers, Tex.
Callaway	Hamilton	Roncalio
Celler	Hansen, Idaho	Schisler
Clancy	Harvey, Ind.	Scott
Clausen,	Hébert	Selden
Don H.	Hicks	Smith, Calif.
Conte	Johnson, Okla.	Smith, Va.
Cooley	Johnson, Pa.	Stafford
Corbett	Karth	Stephens
Corman	Latta	Teague, Tex.
Culver	McCulloch	Thompson, N.J.
Curtin	McMillan	Thompson, Tex.
Davis, Ga.	Mackay	Toll
Dawson	Mackie	Trimble
Denton	Martin, Ala.	Ullman
Derwinski	Martin, Mass.	White, Idaho
Dickinson	Matsunaga	Willis
Dowdy	Michel	Wilson,
Duncan, Oreg.	Moeller	Charles H.
Edmondson	Morrison	Wyatt
Evans, Colo.	Moss	
Evins, Tenn.	Murray	

Accordingly, the Committee rose; and the Speaker having resumed the chair, Mr. Flood, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill S. 3708 and finding itself without a quorum, he had directed the roll to be called, when 348 Members responded to their names, a quorum, and he submitted herewith the names of the absentees to be spread upon the Journal.

The Committee resumed its sitting.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Tennessee [Mr. BROCK].

The question was taken and the Chairman announced that the "noes" appeared to have it.

Mr. BROCK. Mr. Chairman, I demand tellers.

Tellers were ordered, and the Chairman appointed as tellers Mr. Brock and Mr. BARRETT.

The Committee divided and the tellers reported that there were—ayes 110, noes 141.

So the amendment was rejected.

(Mr. OTTINGER asked and was given permission to revise and extend his remarks at this point.)

Mr. OTTINGER. I am very proud to have this opportunity to play a role in shaping and enacting this badly needed legislation. In my opinion, the Demonstration Cities Act, S. 3708, offers us our first real chance to deal with the crisis of urban blight and poverty and the tremendous social and economic problems that result.

As a member of the House Banking and Currency Committee, I have been deeply involved in the difficult job of shaping this legislation and I could not let this moment pass without paying a public tribute to the skill and leadership of the distinguished gentleman from Pennsylvania [Mr. BARRETT]. As the chairman of the Housing Subcommittee, it was his responsibility to guide this legislation from its inception as a bold new idea to its enactment here today.

I have great confidence in the enduring contribution that this legislation will make to improving the quality of American life and I can attest that that improvement will be in no small part a monument to our colleague [Mr. BARRETT].

AMENDMENT OFFERED BY MR. HARDY

Mr. HARDY. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. HARDY: On page 38, line 20, strike out the period and insert in lieu thereof the following: "Provided, That the authority of the Secretary under this paragraph shall not be used to impose criteria or establish requirements except those which are related and essential to the specific provisions of this title."

The CHAIRMAN. The gentleman from Virginia [Mr. HARDY] is recognized in support of his amendment.

(Mr. HARDY asked and was given permission to revise and extend his remarks.)

Mr. PATMAN. Mr. Chairman, will the gentleman yield?

Mr. HARDY. I yield to the gentleman.

Mr. PATMAN. Mr. Chairman, we are acquainted with the gentleman's amendment. He gave it to us in plenty of time to discuss it and evaluate it. We are willing to accept it on this side.

Mr. WIDNALL. Mr. Chairman, will the gentleman yield?

Mr. HARDY. I yield to the gentleman.

Mr. WIDNALL. For the purposes of the RECORD, I would like to have an explanation of what this amendment does?

Mr. HARDY. Mr. Chairman, I have given, as the gentleman from Texas [Mr. PATMAN] has said, a copy to him, and also to the gentleman from New Jersey [Mr. WIDNALL].

Mr. WIDNALL. But will the gentleman state for the purposes of the RECORD what this amendment does?

Mr. HARDY. Mr. Chairman, the subsection (5) which begins on line 18 reads as follows:

The program meets such additional requirements as the Secretary may establish to carry out the purposes of this title.

Mr. Chairman, this seems entirely too broad to me and puts no limit whatever on the requirements which the Secretary may impose. My amendment attempts to limit the authority somewhat by stipulating that the Secretary shall not impose criteria or requirements except those which are related and essential to the specific provisions of the title. Actually, I am not sure that my amendment is sufficiently restrictive, but I think it helps a little.

I am grateful to the chairman of the committee, the gentleman from Texas [Mr. PATMAN], for accepting the amendment, and I hope that the gentleman from New Jersey will do likewise and that the amendment will be adopted.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Virginia [Mr. HARDY].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. WIDNALL

Mr. WIDNALL. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. WIDNALL: On page 47, line 2, strike out "and 107" and insert the following: "and 107 of this Act and grants under the second sentence of section 103(b) of the Housing Act of 1949".

On page 48, line 11, strike out "shall be exercised only" and insert the following: "shall be exercised only to the extent that funds for such grants have theretofore been appropriated pursuant to section 111(b) of the Demonstration Cities and Metropolitan Development Act of 1966, and only".

On page 48, lines 16 and 17, strike out "the Demonstration Cities and Metropolitan Development Act of 1966" and insert "such Act".

Mr. WIDNALL. Mr. Chairman, in voting down the Brock amendment, the House has in fact given approval to the \$900 million authorization for 2 years, fiscal year 1968 and fiscal year 1969.

It must be said that as title I is now written, it earmarks the great bulk of existing, already authorized urban renewal funds for demonstration cities as well. This is a very important point. This applies to not only the \$900 million authorized in this bill but also to previous urban renewal funds amounting to \$1.5 billion. This means that for every dollar of demonstration cities money used for urban renewal operations, the Federal Government will have to cough up on a priority basis an additional 2 to 3 matching dollars of urban renewal funds for just a few cities, 50 at the most.

Testimony before the Housing Subcommittee, and yesterday on the floor, indicates these funds will go to a few cities, to possibly less than the 50 I just mentioned. I think it is unfair that we give so much to a few cities, and at the same time shut so many more out of the regular urban renewal program, which is oversubscribed right now.

My amendment will make all the demonstration cities use only those urban renewal dollars that come from appropriations authorized under this bill. It will leave the urban renewal authori-

zation already in existence for those cities that do not qualify under Secretary Weaver's criteria as a demonstration city. They can still obtain urban renewal funds if my amendment passes.

I would think the majority would welcome this amendment, since it cures the basic defect in the bill: A great deal for a few and very little, perhaps nothing, for many.

I am thinking of the statement made yesterday on the House floor by the gentleman from New York about the Poughkeepsies and whether they would still be able to keep their urban renewal money.

My amendment, if adopted, would still allow the Poughkeepsies and other cities in the United States to obtain urban renewal money under the urban renewal program, even though they were not selected as demonstration cities.

Mr. BARRETT. Mr. Chairman, will the gentleman yield?

Mr. WIDNALL. I yield to the gentleman from Pennsylvania.

Mr. BARRETT. Is it not true that what the gentleman is trying to do with the amendment is to take out the \$250 million of urban renewal money which is within the demonstration cities program from the \$900 million to be appropriated for the 2 years for the demonstration cities program?

What is the shift here?

Mr. WIDNALL. The \$250 million, as I understand it, would be for the one-third contribution with respect to the cities. Now, there is another two-thirds contribution that would also be earmarked under this bill and would become a priority item for demonstration cities, as I understand the proposal now before the House.

Mr. BARRETT. Much as I hate to disagree with my colleague and the leader of the minority on the committee, his amendment does nothing to help either urban renewal or the demonstration cities program. This will take out of the urban renewal \$250 million which could be used to benefit the demonstration cities program by wiping it out and taking the \$250 million out of the \$900 million to be appropriated for the demonstration cities program.

I am sorry to say, Mr. Chairman, I do not believe the amendment is well thought out, and it will not have the effect the gentleman intends it to have.

I hope the amendment is voted down, to save time.

The CHAIRMAN. The time of the gentleman from New Jersey has expired.

(By unanimous consent, Mr. WIDNALL was allowed to proceed for 2 additional minutes.)

Mr. WIDNALL. Mr. Chairman, we just had extensive debate over the \$900 million to go into the demonstration cities program, all earmarked for that purpose. We did not debate the \$250 million of other urban renewal authorizations presently in existence.

As I understand the remarks of the distinguished leader of the House majority on the subcommittee, the \$250 million in this bill for urban renewal is intended just for the 50 demonstration cities; but, the existing authorizations for urban renewal for which many, many nondemonstration cities have needs at

the present time, would be affected. These nondemonstration cities could end up with nothing, the money would go to the 50 demonstration cities.

Mr. ASHLEY. Mr. Chairman, will the gentleman yield?

Mr. WIDNALL. I yield to the gentleman from Ohio.

Mr. ASHLEY. The gentleman will recall that during the days when our subcommittee was considering this bill he and I and others on the subcommittee were concerned lest urban renewal funds which would otherwise be available to cities not participating in the demonstration cities program might, because of the priority of the program, be channeled into the demonstration cities program. The gentleman will recall that the answer of the subcommittee to this problem was to make available additional urban renewal funds specifically earmarked for the demonstration cities program.

The \$250 million to which the gentleman is referring in his amendment are funds for urban renewal that will go directly and specifically for demonstration city projects so that there will not be a drain on urban renewal funds under the general program; funds which will go to support urban renewal projects which are independent of demonstration cities projects.

Mr. WIDNALL. Also at the time this was discussed it was decided to put in \$600 million in additional urban renewal funds in order to prevent this, and it went to the Senate and they cut it by \$350 million.

The CHAIRMAN. The time of the gentleman from New Jersey has expired.

(Mr. WIDNALL asked and was given permission to proceed for 1 additional minute.)

Mr. ASHLEY. Mr. Chairman, if the gentleman will yield further, he is entirely correct. We did most certainly put that in at \$600 million. That was when we were considering a demonstration cities bill of a magnitude of \$2.3 billion.

Mr. WIDNALL. It is a greater magnitude now. Let us not discuss that here.

Mr. ASHLEY. That is the point. It was cut down in the Senate to \$250 million because grant funds for demonstration cities were cut from \$2.3 billion to \$900 million.

The CHAIRMAN. The time of the gentleman from New Jersey has again expired.

(Mr. WIDNALL asked and was given permission to proceed for 1 additional minute.)

Mr. CAHILL. Mr. Chairman, will the gentleman yield?

Mr. WIDNALL. I yield to the gentleman.

Mr. CAHILL. I am not clear myself—and I suppose some of the others may have the same problems that I have—as to what exactly the gentleman's amendment means. Do I understand that in addition to the \$400 million authorized under the demonstration cities title of this bill that there will be an additional \$250 million coming from urban renewal funds and that if a city is entitled to urban renewal but not selected as a dem-

onstration city, that there will be \$250 million less for those cities qualified but not eligible as demonstration cities?

Mr. WIDNALL. The urban renewal funds in this, \$250 million, could not be touched by other cities in an urban renewal project. It would have to be a demonstration city to touch the \$250 million. And that \$250 million will not be enough unless the Demonstration City program is a failure.

The CHAIRMAN. The time of the gentleman from New Jersey has again expired.

(Mr. WATSON asked and was given permission to extend his remarks at this point in the RECORD.)

Mr. WATSON. Mr. Chairman, should we pass this so-called demonstration cities bill, we will be opening the door to one of, if not, the most expensive programs ever considered by us. Frankly, I doubt that we would even be able to afford the printing presses to print the money that will be necessary, much less finance this program to its completion.

Instead of trying to bribe the cities with their own money, why do we not allow the cities to keep some of their own money? Frankly, most of the financial problems in our communities and cities are primarily the result of Washington preempting their tax base and diminishing their ability to meeting the needs of their own citizens. What is happening today is that the Federal Government has so choked and stifled our State and local governments in the realm of taxation, that our local governmental officials are being forced to turn to us in desperation.

Just as we are facing serious problems in our educational systems because of the illegal guidelines promulgated by the Commissioner of Education Harold Howe, passage of this legislation will bring further guidelines in the area of housing as well as education. We have allowed too much Federal money into our schoolhouses, and now Washington seeks a further invasion and takeover of our city halls and county courthouses.

According to the proponents of this measure, and I quote:

The Federal Government will help with technical and financial assistance, those cities presenting imaginative and effective ways of dealing with the physical and social problems of our urban areas.

Under the provisions of this measure, only those cities which are willing to submit to certain criteria as laid down by the Federal Government will be the beneficiaries of this financial aid. This means, they must conform with such plans as may be laid down by the Federal Government.

Without question, this bill would place unprecedented power in the hands of Commissioner of Education Howe, and the Secretary of Housing and Urban Development Robert Weaver. Past experience should convince us that these funds would be used primarily for the purpose of racial, social, and economic integration and not to remove the blight in our cities.

Many of our communities and States

have earlier experienced the heavy hand of Federal "registrars" attempting to direct our elections. But under the provisions of this bill, we will find new Federal commissars roaming the country under the name of "expeditors." As one of our noted columnists properly said, this bill is truly a "Trojan horse," and if the people knew what was in it, they would "hang its sponsors."

Let us not pass this measure which would put an economic pistol to the heads of our cities to be used primarily for further racial integration in housing and in our neighborhood schools. The people are tired of Washington's effort to buy or bribe them with their own money.

Certainly, no one could allow title II of this omnibus bill to be passed. Under its provisions, no metropolitan community would be able to get financial assistance, even for the development of water or sewage facilities, or any other program, without Secretary Weaver imposing such terms and conditions as he deems necessary on other projects that are federally assisted. The Secretary could make any grant for any project contingent upon areawide school mixing, or, for that matter, any other contingency of his choosing. Even zoning of land, or busing of children could be forced upon the metropolitan area prior to approval of a grant for any purpose, although totally unrelated.

Mr. Chairman, while the local governments need additional funds to meet increased demands as the result of increased population and depreciating facilities, I believe the price of this program, particularly in terms of money and in loss of local control, is too high to pay. We would be opening a Pandora's box, from which only a few cities, who are willing to succumb to all Federal demands, would be benefited, and the others would continue wrestling with their own problems, with even a heavier individual Federal tax burden. It is time we realize that Federal money is not the answer to all of our problems. The magnitude of this program is difficult to imagine, for the President himself has said that it would eventually require upward of \$100 billion.

Mr. CAHILL. Mr. Chairman, I rise in support of the amendment.

Mr. Chairman, I take this time merely to ask some questions, because frankly I am still perplexed. I ask any member of the committee this question: Assuming that a city is eligible for urban renewal funds and, as a project, it is qualified but that city does not qualify as a city under the demonstration cities program, will there be \$250 million less for the city qualified under urban renewal but not qualified under the demonstration cities?

Mr. ST GERMAIN. Mr. Chairman, will the gentleman yield?

Mr. CAHILL. I will be happy to.

Mr. ST GERMAIN. The \$750 million appropriation referred to by Mr. JONAS of North Carolina earlier this afternoon is \$750 million for urban renewal in existing communities that have filed applications. When we had the hearings

on this bill some of us questioned the Secretary of HUD as to whether or not the bill passed, if a city selected as a demonstration city were to have an urban renewal project in it, would it then have a priority on urban renewal funds, on the existing authorization, the annual yearly authorization. He said, "No. We are not going to rob Peter to pay Paul." By the same token, when asked where those funds would come from, he had no answer. Therefore, the subcommittee put in \$600 million which has been now cut to \$250 million for the specific purpose of funding urban renewal projects in demonstration cities. This is to protect other cities without demonstration cities projects to see to it they can continue to get their urban renewal funds.

Mr. CAHILL. So, what the gentleman is saying is that, in effect, there will be \$250 million additional urban renewal funds?

Mr. ST GERMAIN. That is correct.

Mr. CAHILL. And, which will be available for those cities which qualify under the demonstration cities program?

Mr. ST GERMAIN. That is correct.

Mr. CAHILL. I thank the gentleman.

The CHAIRMAN. The question is on the amendment offered by the gentleman from New Jersey [Mr. WIDNALL].

The question was taken; and on a division (demanded by Mr. WIDNALL) there were—ayes 29, noes, 54.

So the amendment was rejected.

AMENDMENT OFFERED BY MR. FINO

Mr. FINO. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. FINO: On page 38, line 17, strike out "and".

Page 38, after line 17, insert the following: "the Secretary shall not approve any until a list shall have been furnished of local groups which will be participating in such program, and these shall have been investigated by the Department of Justice to see if any among them shall be subversive, or connected with 'black power' or any other racist organizations."

Page 38, line 18, strike out "(5)" and insert "(6)".

(Mr. FINO asked and was given permission to revise and extend his remarks.)

Mr. FINO. Mr. Chairman, the purpose of this amendment is to require the Justice Department to check out any groups which are to participate in demonstration cities programs.

I do this in order to tell this House about the big lie of Dr. Robert C. Weaver, who has pressured the San Francisco redevelopment director, Justin Herman, into denying his earlier statements about "black power" lining up for control of the demonstration cities program.

On Tuesday, I wrote to President Johnson to tell him of a report in the August 28 Washington Post that the San Francisco redevelopment director was dickering with black power for control of the demonstration cities program. The President sent my letter to Dr. Weaver. What did Dr. Weaver do? Dr. Weaver called Justin Herman in San Francisco. I guess he told Herman "deny

this black power business or we are sunk." So Herman sent Weaver a telegram. In his telegram—which the gentleman from New York [Mr. SCHEVER] put in the RECORD yesterday—he said that the Washington Post story was "absolutely without foundation." He said that Post Reporter Nicholas Von Hoffman's charges were "ridiculous."

Now it occurred to me that the Washington Post is not the newspaper to be making up things that talk about black power. I checked and I found out that Justin Herman, out in San Francisco, was an old friend of Dr. Weaver's and a typical social planner from way back. He has been working with black power in San Francisco both before and after the riots. I guessed that perhaps Mr. Herman and Mr. Weaver had worked this out together—that they would cover up for black power. For this reason, Herman sent the telegram to Weaver calling Post Reporter Von Hoffman a liar.

This morning, one of my aids called Von Hoffman. He was staying at the Admiral Benbow Hotel in Jackson, Miss., covering a civil rights story. Nicholas Von Hoffman confirmed his story. He said that Justin Herman said "literally" everything that he, Von Hoffman, had quoted, both about black power and about the Government financing overt revolution.

Regarding the Herman denial, Nicholas Von Hoffman said Justin Herman, was full of bull, although the implication was much stronger. According to Mr. Von Hoffman, Herman said all this at a site office dedication in Hunters Point, San Francisco, in late August. He could not be more exact.

One month later, these quiet little friends of Mr. Herman and Dr. Weaver rioted in the streets of San Francisco; burning, looting, and pillaging. Shall we give them a present of money? Are we going to fund black power? That is exactly what you will be doing if you pass this bill.

I accuse Dr. Robert C. Weaver of the Department of Housing and Urban Development of having designed legislation to force school and residential racial balance schemes on this Nation against the people's will.

I accuse Weaver of having tried to hide this from the Housing Subcommittee of this House.

I accuse Weaver of having conspired with Justin Herman, the San Francisco redevelopment director, to hide and falsely deny to this House the position of black power vis-a-vis the demonstration cities program.

The CHAIRMAN. The time of the gentleman from New York [Mr. FINO] has expired.

Mr. FINO. Mr. Chairman, I ask unanimous consent to proceed for 1 additional minute.

Mr. MULTER. Mr. Chairman, I object.

The CHAIRMAN. The Chair has not put the question yet.

The gentleman from New York asks unanimous consent to proceed for 1 additional minute. Is there objection?

Mr. MULTER. Mr. Chairman, I object.

The CHAIRMAN. Objection is heard. Mr. PELLY. Mr. Chairman, I move to strike out the last word.

I yield to the gentleman from New York who may have the 5 additional minutes.

Mr. FINO. I thank the gentleman from Washington for yielding to me.

Mr. MULTER. Mr. Chairman, I would ask that the regular order be observed. There are several Members of the Committee on their feet who are seeking recognition.

The CHAIRMAN. The Chair has already recognized the gentleman.

Mr. FINO. Mr. Chairman, this House must not set up a \$900 million program tainted by the false statements of the Department of Housing and Urban Development and susceptible of use as a gravy train for "black power." Before we take any further action on this bill, Dr. Weaver, Mr. Herman, and other persons concerned should be called before a special House committee and questioned. It is a shocking thing to see a member of the U.S. Cabinet covering up for and maybe even working with—"black power." These charges should be investigated, and if they are true, Secretary Weaver ought to resign.

I hope that this Committee will adopt this amendment.

Mr. PELLY. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. For what purpose does the gentleman from Pennsylvania [Mr. BARRETT] rise?

Mr. BARRETT. Mr. Chairman, in the interest of time, I ask unanimous consent that we vote on this amendment immediately.

Mr. MULTER. Mr. Chairman, I object.

The CHAIRMAN. The gentleman from Pennsylvania [Mr. BARRETT] makes the unanimous-consent request that the vote be taken on this amendment at once.

Is there objection?

Mr. MULTER. Mr. Chairman, I object, and I am seeking recognition.

The CHAIRMAN. Objection is heard. For what purpose does the gentleman from New York rise?

Mr. MULTER. Mr. Chairman, I rise in opposition to the amendment.

The CHAIRMAN. The gentleman from New York will be heard for 5 minutes in opposition to the amendment.

Mr. PATMAN. Mr. Chairman, will the gentleman yield for a unanimous-consent request?

Mr. MULTER. I yield to the gentleman.

Mr. PATMAN. Mr. Chairman, I ask unanimous consent that at the conclusion of the 5 minutes by the gentleman from New York [Mr. MULTER] that we vote on this amendment only.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas [Mr. PATMAN]?

There was no objection.

Mr. MULTER. Mr. Chairman, I suppose there is a first time for everything.

This is the first time since I have served in this House, and that is since 1947, that I have ever objected to a request for an extension of time that was

asked for by any Member. This is the first time I have objected to the closing of time in order to expedite action on a bill.

Mr. Chairman, I have had it up to here. I am nauseated by the arguments that have been made on this floor today about the civil rights that are supposed to be in this bill, when, as a matter of fact, there are no civil rights provisions in this bill.

I recall with great amusement the argument made by the gentleman from Michigan [Mr. GERALD R. FORD] in answer to some of the same arguments that were made here, about when they were made against the education bill by the same gentleman from New York. You may remember the story that was then told about the old maid looking under the bed hopefully for what was not there. Our colleague has looked under the bed and found nothing but invective and scare words. Having found no civil rights in this bill, he has now found black power. In support of this amendment he drags in black power. Few, if any have been frightened by him. Most have been disgusted by his arguments.

As a member of a minority group that has suffered many persecutions, I know what it means to have these false insinuations hurled around without rhyme or reason. I want to say here, and I say it most deliberately, that the use of the words "black power" here today in order to malign all the nonwhite people of the country and all the Negroes should be stricken from the RECORD.

Mr. FINO. Mr. Chairman, will the gentleman yield?

Mr. MULTER. Not at the moment.

The CHAIRMAN. The gentleman refuses to yield. The gentleman will proceed.

Mr. MULTER. The use of the term "black power" here today in opposition to this bill and in support of this amendment is as bad as if some Member should rise and say that every Italian is a member of the Black Hand. Yes, it is just as bad—and I would resent that kind of statement as vigorously as I do now resent the use of the words "black power," only to try to smear all of the Negroes of the country and to insinuate that there is anything in this bill about black power.

There is nothing in this bill about black power. None of the members of this committee on either side of the aisle—none of them—should be subjected to the charge we are trying to inject black power into this bill or are trying to get it enacted because of any of the insidious and invidious implications hurled here today.

I resent it with all the vigor at my command, and I ask that the amendment be voted down. Not only for the reason just stated, but because it is nonsensical. It uses the words and asks for an investigation of local groups that may be planning something under this bill. Nowhere in this bill—and I have searched it through—is there any use of the words "local groups." I am certain that the gentleman cannot tell you what he means by "local groups." There is no mention of local groups anywhere in this bill. This is one more attempt by him to create some emotional reaction against the bill.

He should have heeded what the ranking minority member of his committee urged when he said that we should ignore the appeals to the emotions and asked us to talk about the merits of the bill.

Mr. JOELSON. Mr. Chairman, will the gentleman yield?

Mr. MULTER. I yield to the gentleman from New Jersey.

Mr. JOELSON. I think the gentleman should have let the gentleman from New York [Mr. FINO] speak, because I think in speaking for the "Fino fear amendment" the gentleman from New York [Mr. FINO] is proving what the President of the United States has been saying these past few weeks, that many people on the opposition side of the aisle have a platform composed of one word—"fear." This fear is being stirred up here today, and it is completely unjustified.

Mr. MULTER. The gentleman is correct, but I want to emphasize that by "many" he does not mean all, because I would not charge all members of the minority with that attempt to drag in emotional appeals and to create the fears and scares, because, although some of them are doing it, not all are doing it.

Mr. JOELSON. Mr. Chairman, will the gentleman yield further?

Mr. MULTER. I yield to the gentleman from New Jersey.

Mr. JOELSON. I chose my words very carefully, because I have many good friends on the other side of the aisle who certainly do not resort of such tactics, and I want that clearly understood.

Mr. MULTER. As per permission granted, I include the following editorial from today's Washington Post. It speaks loud and well against all that the gentleman from New York [Mr. FINO] has said. It follows:

FALSE ACCUSATION

The Demonstration Cities Bill will come to a vote in the House in an atmosphere polluted by increasingly gross attempts to stir up racial antipathies. The chief responsibility for this ugly campaign lies with Rep. PAUL A. FINO, a Republican from New York City, and the Republican Policy Committee. They have been going at it, hammer and tongs, to persuade the House that the bill conceals a Federal plot to coerce cities into programs of school integration and busing. This charge is, as we have earlier stated, a fantasy.

Mr. FINO's letter to this newspaper, printed on Wednesday, selectively quotes from the testimony of Secretary Weaver to misrepresent the Administration's repeated position. It is correct, as Mr. FINO says, that metropolitan planning under Title II of the bill must take account of schools. It must also take account of topography, but it is not a bill to move mountains. It must take account of land use, but it does not empower the Federal Government to zone the suburbs. Neither does this bill, nor any other legislation, contain any power whatever enabling the Federal Government to set standards of racial balance in classrooms. The Demonstration Cities Bill gives neither metropolitan planners nor Federal Government any authority to influence school policy either by holding up grants or by any other method. Mr. FINO's charge is flatly wrong.

But while the charge is wrong, it has its uses for a Republican leadership that hopes to force Southerners to vote against the bill. That event would be a tragedy, for the Southern cities as well as Mr. FINO's New York urgently need this bill. If Mr. FINO has any doubts about that need, he might profit-

ably read the testimony offered by New York City's Republican mayor.

Mr. FINO. Mr. Chairman, will the gentleman yield?

Mr. MULTER. I yield to the gentleman from New York.

The CHAIRMAN. The time of the gentleman from New York has expired. All time has expired.

The question is on the amendment of the gentleman from New York [Mr. FINO].

The amendment was rejected.

AMENDMENT OFFERED BY MR. CASEY

Mr. CASEY. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. CASEY: Page 38, line 20 add the following language: "In no instance shall the Secretary require a zoning ordinance and map as a requirement for participation in this program".

(Mr. CASEY asked and was given permission to revise and extend his remarks.)

Mr. CASEY. Mr. Chairman and Members of the Committee, yesterday I placed in the RECORD, on page 25571, a list of cities of over 10,000 that do not have zoning which was furnished to me by the American Municipal Association, I believe it is. I have since found out that the record I received is not completely accurate. I used the city of the charming gentlewoman from Hawaii, Honolulu, as an example. She corrected me, and I have since looked over the list and found that there were one or two other errors.

But there are over 290 and some odd cities of over 10,000 without zoning. One of those cities is the city of Houston, Tex., one of the largest in our Nation, one of the top 10. I will not get into an argument with anyone today as to which city is larger. I have been through that before, you will recall. But Houston is definitely in the top 10 of the largest cities in the Nation, and it does not have zoning.

The people of the city themselves have voted down zoning three times in the last several years.

Mind you, if the amendment is not adopted, I am confident that the same type of regulation with reference to title I of this bill will be adopted as was adopted for urban renewal.

On urban renewal, the minimum requirement is that one must have a zoning ordinance and map and subdivision regulations.

Let us not cut out all of these cities which do not have zoning. Let us make it so that the Secretary will consider every city which submits its application.

I do not know how many cities of under 10,000 there are which do not have zoning, but you can bet your bottom dollar that they will be excluded and they cannot qualify unless they adopt zoning.

I do not believe that Houston really has suffered from not having zoning. It is not a perfect city. We do not qualify for urban renewal, either, from that standpoint, because we do not have enough unemployment, and we do not have any depressed area recognition.

What I want to do is to put this in here so that should this bill be passed my city

and all these other cities which do not have zoning will have an opportunity to make application.

Mr. BARRETT. Mr. Chairman, will the gentleman yield?

Mr. CASEY. I am glad to yield to the gentleman from Pennsylvania.

Mr. BARRETT. I note that, as the gentleman pointed out, there are several errors in his bill, and certain people called attention to them.

Mr. CASEY. Not in my bill. That is in the list of cities I put in the RECORD.

Mr. BARRETT. We did not have the opportunity to hear any testimony on the gentleman's bill.

I do not see the need for this amendment. I am fearful it might distort the program. I would hope that the gentleman would withdraw his amendment and let the Banking and Currency Committee have an opportunity to give him a hearing on it, to learn the merits of it, in order that we might be helpful to him.

Mr. CASEY. I do not believe it takes any great hearing to determine whether or not we are going to give every city in this country an equal opportunity to participate in this program.

Merely because a city might not have an adopted zoning ordinance, I believe the Secretary could consider what other steps they have taken. In my city, since the people voted down the zoning, they have set up a planning commission. They have insisted that on any subdivision the subdivider submit proper covenants running with the land, to protect the growth. I believe it would be fair for the Secretary to take that into consideration.

But I do not believe we should have a hard and fast rule, like there is on urban renewal, that if a city does not have a zoning ordinance it cannot apply.

Mr. BARRETT. The gentleman certainly does not want to pass on such an important amendment as this—

Mr. CASEY. I certainly do want to pass on this amendment. I also want it to be adopted, because it is the fair thing to do.

Mr. ASHLEY. Mr. Chairman, will the gentleman yield?

Mr. BARRETT. I am glad to yield.

Mr. ASHLEY. The gentleman wants us to adopt the amendment, but he has shown it to us for the first time today.

Mr. CASEY. It has been sitting at the desk since this morning.

Mr. ASHLEY. We have been considering this bill for 6 months.

Mr. CASEY. Surely, but the gentleman does not expect the House to accept this bill without any amendments whatsoever.

Mr. ASHLEY. Not at all.

Mr. CASEY. I dare say the gentleman, in his long tenure, has offered many amendments which were not submitted first to another committee.

Mr. ASHLEY. And I plan to.

Mr. CASEY. I urge the adoption of the amendment.

Mr. BARRETT. Mr. Chairman, I rise in opposition to the amendment.

Mr. ASHLEY. Mr. Chairman, will the gentleman yield?

Mr. BARRETT. I yield to the gentleman from Ohio.

Mr. ASHLEY. I would point out very briefly, Mr. Chairman, that there is no requirement in the measure before us for zoning. The gentleman raises, it seems to me, an issue which does not exist.

Mr. CASEY. Mr. Chairman, will the gentleman yield?

Mr. ASHLEY. I yield to the gentleman from Texas.

Mr. CASEY. I do not believe there is any requirement in the Urban Renewal Act, either, but it is required by the Secretary. I just want to see that he does not make it a prerequisite.

Mr. ASHLEY. I would say this: If he does, frankly, in my view, it would not be a cataclysmic mistake. Zoning, by most cities and by most authorities in the field of planning and urban development, is considered an extremely useful tool. I know the gentleman's city of Houston has not adopted this.

It would seem to me that the Department is fully aware of this. If the gentleman's city would wish to qualify, it might well draw its plan around the fact that it does not believe in zoning, but this afternoon I do not think we want to carve out a little enclave for Houston, Tex., and say to the rest of the cities of the country in effect that zoning is not important and that there need be no requirement for you to utilize this tool as you have in the past. It does not make any sense to me at all, and I certainly urge the Members of this body to oppose the amendment.

Mr. CASEY. Mr. Chairman, will the gentleman yield?

Mr. BARRETT. Yes. I yield to the gentleman.

Mr. CASEY. I am not pleading here for just one city, I will say to the gentleman. It is true, although I am interested in my own city, I am also interested in the other 200-and-some-odd cities of over 10,000 population, to say nothing of the countless cities under 10,000 population who are in the same category. I do not want them to be precluded by saying that they cannot apply because they do not have any zoning.

Mr. ASHLEY. There is no suggestion in the bill about it.

Mr. CASEY. They are not in the urban renewal bill but in the other parts they say you have to have a zoning ordinance.

Mr. WIDNALL. Mr. Chairman, will the gentleman yield?

Mr. BARRETT. Yes. I yield to the gentleman.

Mr. WIDNALL. I am grateful to the gentleman from Texas [Mr. CASEY] for pointing out how Houston has been able successfully to get so many Government contracts and Government installations down there. Maybe they have pointed the way to other cities of the United States by not having zoning ordinances. Actually, I do not believe there is anything unfair about this provision at all, and I certainly hope the amendment will be voted down at this time. We can consider it later on, as the majority chairman suggested.

Mr. MOORHEAD. Mr. Chairman, will the gentleman yield?

Mr. BARRETT. I yield to the gentleman.

Mr. MOORHEAD. I think this amendment is not only possibly dangerous but certainly unnecessary in view of the fact that the House adopted the Hardy amendment, which says that the Secretary shall not establish any requirements or criteria except those which are related to and essential to the specific provisions of this title. I think this amendment should be defeated.

Mr. BROCK. Mr. Chairman, will the gentleman yield?

Mr. BARRETT. Yes. I yield to the gentleman.

Mr. BROCK. I appreciate the gentleman's yielding.

I rise in support of the amendment of the gentleman from Texas. I can see no possible reason to exclude 200 major cities of the United States, not just in Texas but in 44 States of the Union. Whether you are for this bill or not, you have no right to discriminate against those cities because by their own choice they have no zoning ordinance. It is commonsense that we should prohibit the Secretary from doing exactly what he is doing. This amendment makes a great deal of sense.

Mr. MIZE. Mr. Chairman, will the gentleman yield?

Mr. BARRETT. I yield to the gentleman.

Mr. MIZE. I notice in the material that was put in the RECORD by the gentleman from Texas, Congressman CASEY, that Wichita, Kans., is one of the cities that does not have zoning laws and will apparently be affected by this. However, I know they have an urban renewal program in Wichita.

Mr. BARRETT. Mr. Chairman, I ask unanimous consent that we vote on this amendment immediately.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Texas [Mr. CASEY].

The question was taken; and on a division (demanded by Mr. CASEY) there were—ayes 28, noes 47.

So the amendment was rejected.

Mr. JARMAN. Mr. Chairman, I move to strike the requisite number of words.

(Mr. JARMAN asked and was given permission to revise and extend his remarks.)

Mr. JARMAN. Mr. Chairman, I take this time to place on record the opposition of thousands of Oklahomans to this bill.

Mr. Chairman, this week I have received at least 5,000 telegrams, letters, and postcards expressing that opposition.

Mr. Chairman, in this morning's mail I received these petitions contained in this box, signed by 5,877 Oklahomans.

I am advised that these people signed these petitions after reading editorials on the demonstration cities bill that were carried in the Daily Oklahoman and in the Oklahoma City Times.

Mr. Chairman, I shall insert these editorials at this point in my remarks.

The editorials referred to follow:

[From the Oklahoma City (Okla.) Daily Oklahoman, Oct. 4, 1966]

BIGGEST PORK BARREL YET

While President Johnson was asking the governors to cut their spending, the house was preparing to consider a measure of his own that would open up the biggest political pork barrel in history.

The bill in question would commit the federal government to a new urban spending program of vast and nearly limitless dimensions. It would reduce the cities to federal chattels in accordance with the supreme court's dictum that the federal government controls what it subsidizes. It would be useful politically to any incumbent administration as an instrument for rewarding friends and punishing foes.

This pending legislation is the Demonstration Cities and Metropolitan Development Act of 1966. It has passed the senate and has cleared the house committee on banking and currency. Its final passage would hasten the trend toward the eventual extinction of local and state government and the consolidation of all powers in Washington.

The senate version contains a \$900 million authorization for a two-year "demonstration cities" program affecting an estimated 60 to 70 cities. Participating cities would receive up to 80 percent of local costs for a wide range of federal housing, welfare and transportation aid programs.

To note the bottomless needs of the cities is to have some faint idea of the eventual burden that the president is calling on the federal government to assume in the midst of war and threatened galloping inflation.

Mayor John Lindsay of New York City told a senate subcommittee last month that federal aid of \$50 billion in the next 10 years would be needed to make his city "thoroughly livable." Detroit Mayor Jerome B. Cavanaugh said Detroit alone needed \$15 billion in the next 10 years. Sen. ROBERT KENNEDY, a member of the subcommittee, noted that Lindsay had asked for \$50 billion, and inquired concerning how much would be needed if all urban centers in the nation received federal aid at a similar rate. An aide of Mayor Cavanaugh estimated the amount at \$1.1 trillion.

The house banking and currency committee says the "demonstration cities" program is to "be planned, developed and carried out by local people." But the bill itself puts almost unlimited powers in the hands of the secretary of housing and urban development.

Interesting in this connection are the supplemental views of Rep. PAUL A. FINO of New York City, as appended to the house committee report recommending passage. Rep. FINO says that not one of his constituents has written to support the bill, "but scores have written to protest the way it would give Secretary Weaver and U.S. Education Commissioner Howe dictatorial powers over city living patterns." He says his people "know what Dr. Weaver wants this control for." He says Weaver "wants to control zoning, locations of rent supplement housing, and other facets of so-called open occupancy."

Certainly a proposal calling for such vast new spending is at least debatable at a time when the president professes to be so deeply concerned about inflation. Moreover, the city officials who are running to Washington with outstretched hands might profitably consider what is happening to the public schools and the hospitals as an inevitable corollary of federal subsidy. Along with the federal money, they're now getting their orders from Washington. And right up to the end, a lot of them were insisting that federal money didn't necessarily mean federal control. The Oklahoma house delegation ought to vote in opposition to this attempted federal power grab.

[From the Oklahoma City (Okla.) Daily Oklahoman, October 4, 1966]

HIGHLY QUESTIONABLE

The United States House of Representatives in the next few days will be taking up the Demonstration Cities and Metropolitan Development Act of 1966.

This measure was passed handily in the senate August 19 by a 53 to 22 roll-call vote, but far from enough public discussion has been heard on such a sweeping measure. The public must be made aware of it, and swiftly, before it is too late to do anything about it.

The bill as it now stands would authorize a two-year, \$900 million "demonstration cities" plan for concentrated and co-ordinated attacks on urban blight.

Participating cities would receive up to 80 percent of local costs for an array of federal housing, welfare, and transportation programs. The bill contemplates aid to 60 to 70 cities.

The senate did trim down the original request from the \$2.3 billion, five-year program requested by the president. But it is the principle of the program, and not just the initial spending involved, that is significant.

What may happen if this bill is passed is that before too long the central government will, in effect, be running the largest cities of our nation.

GREAT POWER

This would give inordinate power over the destinies of these major cities to the president of the United States and, in day-to-day details, to the secretary of the department of Housing and Urban Development (HUD).

It would make possible a system of reward and punishment to the cities involved ("stay in line, or else!"). And it doesn't take much imagination to see how much this would help the party in power, and particularly the Democrats who are strong in most of the cities anyhow.

The states with the big cities have the electoral votes, so it can be seen how such a program would be of great aid to the Democrats. It could consolidate the Democrats in power forever, casting into discard the two-party concept.

Certainly the "demonstration cities" approach would be discriminatory against the many municipalities which were not included. Even with their ordinary slice of federal funds, they would be at a disadvantage against the special favors granted the others.

As the centralization of government grows rapidly, there is a feeling that nothing can be done to check it. But here is one positive place where a "no farther" protest could be registered.

This newspaper urges the Oklahoma delegation to join Rep. JOHN JARMAN, who is avowedly against the bill, in voting against the "demonstration cities" measure.

[From the Oklahoma City (Okla.) Daily Oklahoman, Oct. 5, 1966]

PROPOSAL STUDIED: STATE'S DELEGATES EYE BILL FOR CITIES

(By Allan Cromley)

WASHINGTON.—A dark cloud is on the legislative horizon for members of the Oklahoma house delegation.

The house next week is expected to take up a bill authorizing "demonstration city" grants for community renewal and other programs which are accumulating controversy as the legislation approaches the roll call stage.

The Sooners are not unique—the bill is causing discomfort among many members, and predictions are that its passage or defeat will be by a narrow margin.

The bill, a version of one passed by the Senate, also does these things:

One—Authorizes "incentive" grants to encourage metropolitan-wide planning.

Two—Provides Federal Housing Administration mortgage insurance for developers of entire new towns and communities.

Three—Establishes FHA mortgage insurance to finance and equip facilities for group medical and dental practices.

Proponents of the legislation claim it allows communities to pull themselves up by Uncle Sam's bootstraps. Opponents contend the result will be dangerous federal control of nearly every kind of community activity—including schools.

The bill calls for a two-year authorization of \$400 million next fiscal year and \$500 million the following year.

Except for Representative JOHN JARMAN, Sooner representatives are hesitant about committing themselves.

JARMAN said, "It's a program this nation can do without. The administration originally asked \$2.5 billion for it over the next five years, and the President has been quoted as saying it could cost \$100 billion.

"With the tremendous financial demands of Viet Nam and other domestic programs, I think the bill is not justified at the present time and I will vote against it."

Rep. PAGE BELCHER, the delegation's only Republican, was almost as definitely opposed as JARMAN.

BELCHER said he could not vote for the bill "unless it is drastically changed."

He said Oklahoma City and Tulsa are "out of it . . . nobody knows who the demonstration cities will be. There's a lot of politics in this one. I've received a lot of mail against it."

Rep. JED JOHNSON, Jr., said he could make "no firm comment now," but he added that he has "serious reservations."

He said there is "some interest" for the bill in Lawton.

JOHNSON added that he would "have to make cottonpickin' sure that a city in my district would be selected as a demonstration city."

Rep. ED EDMONDSON said he "hasn't been sold on the legislation . . . but I'll keep an open mind until the debate."

Rep. TOM STEED said he is "not opposed to demonstration cities per se. If Oklahoma City and Tulsa could participate, I'd be for it."

"I've heard talk that some big cities were earmarked for the program and we'd be cut out. It depends on who is chosen."

"That may sound provincial, but unless it has that broad scope, we don't want any part of it."

Rep. CARL ALBERT is recuperating from a heart attack, and could not be reached for comment. However, as majority leader he has supported virtually all Great Society programs in the past and presumably would be for the legislation.

[From the Oklahoma City (Okla.) Sunday Oklahoman, Oct. 9, 1966]

HEADED FOR DISASTER

Recently the president of the United States called 15 governors into the White House and solemnly warned them to cut back the spending of their states as it was adding to inflation.

He said nothing about the fact that more than half of each state's expenditures is in matching funds to meet the requirements of federal demands for aid to welfare recipients, schools and colleges, agricultural programs, highway construction and literally dozens of other federal programs.

If the federal government would cut back its demands of matching funds, state expenditures would automatically decline. The savings which governors could make would be peanuts compared with the untold billions

broadcast throughout the world by the federal administration.

Almost daily the White House comes out with new or additional proposals for scattering billions of dollars at home and abroad. One of the latest proposals is the most gigantic give-away ever devised by a prodigal government.

A bill already has passed the senate by a vote of 53 to 22 to select 60 or 70 cities in which the federal government will furnish most of the money to entirely rehabilitate and modernize each city, including its public transportation. This bill is highly discriminatory for the 60 cities would be selected with presidential approval and all rival cities and towns would be taxed to pay for the benefits in politically selected cities.

Some congressmen say that they have been told by the president that this project will take \$100 billions. That is an under-estimate for it could take several hundred billions since every city left out of the give-away group will be howling for its share of the flood of money from the United States treasury.

The mayor of New York City has said that his city alone would need \$50 billions.

Every town of even 5,000 or 10,000 could justly rise up and demand that it be given similar donations for public improvements.

MONEY GETS VOTES

The poverty program and other giant give-aways are not supposed to be discriminatory, but this record breaking proposed flood of free funds can always be managed to go only where it will produce the greatest number of votes for the benefit of the Democratic Party.

Great numbers of senators and congressmen are afraid to vote against this bill for if they did, their states and their cities would be left out in the cold. The house may vote on this bill this week. Wire or call your congressman today.

The majority of congressmen and senators are not voting their honest convictions. The White House often obtains their vote either by bludgeoning threats or reprisals or by sugaring them up with promises of great rewards for voting as the White House dictates.

Most American voters are blindly unaware of the abyss of debt which lies ahead. The interest on the national debt is now about \$13 billions per year. This sum of more than \$1 billion monthly means that the monthly interest payment for every man, woman and child in the United States averages more than \$5.00 and is rapidly going higher. A family of five with an average income is paying more than 25 per month interest on the national debt.

Soon the outstanding debt, costing perhaps 3½ percent to 5 percent interest, will have to be refunded at near 6 percent and the monthly bill of interest for each man, woman and child will soar above \$7.00 per month.

Unless American citizens wake up and elect only representatives who have the backbone to stand up for their own convictions and refuse to be intimidated by threats or seduced by promises of pie in the sky, then this country is heading for bankruptcy.

This newspaper is fully aware that this editorial will cause Oklahoma City to be blacklisted off the favored city lists.

[From the Oklahoma City (Okla.) Daily Oklahoman, Oct. 10, 1966]

NOW OR NEVER

Voters in all 50 states now have only a few days' time within which to head off the most gigantic raid on the federal treasury which was ever devised. Protests by the thousands must be sent to all congressman and senators.

A vote is scheduled this week or next by the lower house of Congress on a bill entitled, "Demonstration Cities and Metropoli-

tan Development Act of 1966." Already this bill has passed the senate by a vote of 53 to 22 and has been approved by the house committee on banking and currency.

The measure provides for the administration to select 60 or 70 cities for a complete remodeling and developing, including public transportation. The president is quoted as saying the measure will require \$100 billion. This is sure to be a gross under-estimate, for few metropolitan cities could be remodeled without an expenditure of several billion dollars and when the treasury begins financing the initial list of 60 or 70 cities, hundreds of other cities will demand the same bountiful treatment.

Every farmer, every workman, every individual and every corporation will be taxed to rebuild these cities.

The government will have no money for this project except what it may borrow at high rates of interest from the sale of government bonds or new taxes.

The government's present income from taxes and other sources is insufficient to meet its present expenditures for the war and the "Great Society," hence additional taxes and additional bond issues would be necessary to meet the cost of remodeling our cities.

No one can doubt that the list of cities would be politically selected and the most money spent where the most votes could be garnered.

The newspapers and the public throughout the United States apparently were asleep when this project for gutting the federal treasury was devised.

Write, wire or talk to your congressman, for it is the only way to prevent the house of representatives from bringing financial disaster to the nation.

[From the Oklahoma City (Okla.) Daily Oklahoman, Oct. 10, 1966]

EDITORIAL SPARKS PETITION CAMPAIGN

Political affiliations took a back seat Sunday night as Oklahoma City residents responded to a petition campaign against a massive congressional spending program on city development.

The petition drive was started by several city men after they read an editorial on the front page of The Sunday Oklahoman.

A table was placed in front of the new Oklahoma Publishing Co. building on NW 4 about 6 p.m. Sunday. The drive had been publicized on city radio stations, and, within minutes, cars began arriving from as far away as Guthrie.

At midnight, 384 persons had signed the petition which will be sent to Oklahoma congressmen.

Petition sponsors said they would return to the NW 4 location Monday at 8:30 a.m. so others might sign.

Honorary chairman of the petition committee is Jim Wade sales representative for an aircraft plant. He said the idea for the petition was a "spontaneous thing to show approval of the editorial."

Thomas J. Harris, city management consultant, was one of the men instrumental in organizing the petitioners. He called city radio stations, announcing that a table would be set up for those concerned about the proposed \$100 billion city development bill.

The petition states, in part: "... We wish to identify ourselves with the position stated in that editorial (The Sunday Oklahoman) and call upon our representatives in the senate and house in Washington to act accordingly. Now is the time to stand up and be counted."

Signers appeared fairly evenly divided between Republicans and Democrats, judging from those who volunteered political affiliations, petition sponsors said. Of course, political party is not noted on the petition, the sponsors added.

Mr. JARMAN. Mr. Chairman, I am advised that several of these petitions were signed by 500 people last Sunday evening, from 6:20 p.m. to midnight, after they heard by radio and television that said petitions could be signed at a table outside the Oklahoma Publishing Co. on Fourth Street in Oklahoma City. I am advised that these people left parties, quiet evenings at home, church meetings, and some even got out of bed to make a special trip to town just to sign the petition.

Mr. Chairman, these signatures were obtained with little or no effort except the simple announcement that a petition was available—no organization headed this effort—and most of the people had to go to the petition rather than have the petition brought to them. I am advised that there are many more such petitions on the way to me here in Washington.

Mr. Chairman, the petitions referred to carried this message to Mr. E. K. Gaylord, publisher of the Oklahoma Publishing Co.:

We the undersigned, citizens of Oklahoma, do hereby record our approval and express our appreciation for the front page editorial in the Sunday Oklahoman dated October 9, 1966.

We wish to identify ourselves with the position stated in the editorial and call upon our representatives in the Senate and in the House in Washington to act accordingly. Now is the time to stand up and be counted—if, in fact, Oklahoma City does lose a Federal aid program but the Nation is saved from bankruptcy, we believe all responsible citizens will join in supporting this action.

Mr. Chairman, with reference to the final thought expressed in the petition, let me point out that the editorial carried in last Sunday's Oklahoma City paper stated in part:

This newspaper is fully aware that this editorial will cause Oklahoma City to be blacklisted off the favored city lists.

Mr. Chairman, these petitions, editorials, telegrams, postcards, and letters represent the strongest expression of position on any bill by the people I represent during my 16 years in the Congress. It is clear-cut evidence that they are fed up with Federal programs that jeopardize the fiscal integrity of our Nation, with Federal handouts that inevitably mean Federal control at State and local levels, with a consistently unbalanced budget and a tremendous, always increasing national debt that now exceeds \$324 billion.

Mr. Chairman, I share the sentiments of the people I represent and I believe that millions of Americans feel exactly the same way. I urge the defeat of this demonstration cities bill.

Mr. BELCHER. Mr. Chairman, will the gentleman yield?

Mr. JARMAN. I am glad to yield to my colleague.

Mr. BELCHER. Mr. Chairman, I wish to associate myself with the remarks of my colleague from Oklahoma and state that I have received literally thousands of telegrams, letters, communications of every kind, not only from Oklahoma City of people that have read the Daily Oklahoman, but people from all parts of Oklahoma.

I might say that the Tulsa World carried an editorial a day or two ago opposing this bill. I have not counted the number of communications, but we received upward of 500 letters in the quickest mail that could get here after the editorial appeared in the Daily Oklahoman.

We have received probably upward of 3,000 or 4,000 communications opposing the bill, and we have received 4 letters supporting the bill.

Mr. Chairman, as I said, I wish to associate myself with the remarks of my colleague.

Mr. JARMAN. I thank the gentleman.

The CHAIRMAN. The time of the gentleman has expired.

Mr. PATMAN. Mr. Chairman, since there are no further amendments pending, I ask unanimous consent that the Clerk be instructed to read.

The CHAIRMAN. If there are no further amendments to title I, the Chair would remind the Committee that under the rule, the bill must be read by title, rather than by section.

The Clerk will read title II.

The Clerk read as follows:

TITLE II—PLANNED METROPOLITAN DEVELOPMENT

Findings and declaration of purpose

SEC. 201. (a) The Congress hereby finds that the welfare of the Nation and of its people is directly dependent upon the sound and orderly development and the effective organization and functioning of the metropolitan areas in which two-thirds of its people live and work.

It further finds that the continuing rapid growth of these areas makes it essential that they prepare, keep current, and carry out comprehensive plans and programs for their orderly physical development with a view to meeting efficiently all their economic and social needs.

It further finds that metropolitan areas are especially handicapped in this task by the complexity and scope of governmental services required in such rapidly growing areas, the multiplicity of political jurisdictions and agencies involved, and the inadequacy of the operational and administrative arrangements available for cooperation among them.

It further finds that present requirements for areawide planning and programing in connection with various Federal programs have materially assisted in the solution of metropolitan problems, but that greater coordination of Federal programs and additional participation and cooperation are needed from the States and localities in perfecting and carrying out such efforts.

(b) It is the purpose of this title to provide, through greater coordination of Federal programs and through supplementary grants for certain federally assisted development projects, additional encouragement and assistance to States and localities for making comprehensive metropolitan planning and programing effective.

Cooperation between Federal agencies

SEC. 202. In order to insure that all Federal programs related to metropolitan development are carried out in a coordinated manner—

(1) the Secretary is authorized to call upon other Federal agencies to supply such statistical data, program reports, and other materials as he deems necessary to discharge his responsibilities for metropolitan development, and to assist the President in coordinating the metropolitan development efforts of all Federal agencies; and

(2) all Federal agencies which are engaged in administering programs related to metropolitan development, or which otherwise perform functions relating thereto, shall, to the maximum extent practicable, consult with and seek advice from all other significantly affected Federal departments and agencies in an effort to assure fully coordinated programs.

Metropolitan expenditures

SEC. 203. Upon the request of one or more duly authorized local officials and after consultation with local governmental authorities in a metropolitan area, the Secretary may appoint a metropolitan expediter for such area whenever he finds a need for the services specified in this section. The metropolitan expediter shall provide information, data, and assistance to local authorities and private individuals and entities within the metropolitan area, and to all relevant Federal departments and agencies, with respect to all programs and activities conducted within such metropolitan area by the Department of Housing and Urban Development, and with respect to other public and private activities and needs within such metropolitan area which relate to the programs and activities of the Department.

Coordination of Federal aids in metropolitan areas

SEC. 204. (a) All applications made after June 30, 1967, for Federal loans or grants to assist in carrying out open-space land projects or for the planning or construction of hospitals, airports, libraries, water supply and distribution facilities, sewerage facilities and waste treatment works highways, transportation facilities, and water development and land conservation projects within any metropolitan area shall be submitted for review—

(1) to any areawide agency which is designated to perform metropolitan or regional planning for the area within which the assistance is to be used, and which is, to the greatest practicable extent, composed of or responsible to the elected officials of the units of general local government within whose jurisdiction such agency is authorized to engage in such planning, and

(2) if made by a special purpose unit of local government, to the unit or units of general local government with authority to operate in the area within which the project is to be located.

(b)(1) Except as provided in paragraph (2) of this subsection, each application shall be accompanied (A) by the comments and recommendations with respect to the project involved by the areawide agency and governing bodies of the units of general local government to which the application has been submitted for review, and (B) by a statement by the applicant that such comments and recommendations have been considered prior to formal submission of the application. Such comments shall include information concerning the extent to which the project is consistent with comprehensive planning developed or in the process of development for the metropolitan area or the unit of general local government, as the case may be, and the extent to which such project contributes to the fulfillment of such planning. The comments and recommendations and the statement referred to in this paragraph shall, except in the case referred to in paragraph (2) of this subsection, be reviewed by the agency of the Federal Government to which such application is submitted for the sole purpose of assisting it in determining whether the application is in accordance with the provisions of Federal law which govern the making of the loans or grants.

(2) An application for a Federal loan or grant need not be accompanied by the comments and recommendations and the state-

ments referred to in paragraph (1) of this subsection, if the applicant certifies that a plan or description of the project, meeting the requirements of such rules and regulations as may be prescribed under subsection (c), or such application, has lain before and appropriate areawide agency or instrumentality or unit of general local government for a period of sixty days without comments or recommendations thereon being made by such agency or instrumentality.

(3) The requirements of paragraphs (1) and (2) shall also apply to any amendment of the application which, in light of the purposes of this title, involves a major change in the project covered by the application prior to such amendment.

(c) The Bureau of the Budget, or such other agency as may be designated by the President, is hereby authorized to prescribe such rules and regulations as are deemed appropriate for the effective administration of this section.

Grants to assist in planned metropolitan development

SEC. 205. (a) The Secretary is authorized to make supplementary grants to applicant State and local public bodies and agencies carrying out, or assisting in carrying out, metropolitan development projects meeting the requirements of this section.

(b) Grants may be made under this section only for metropolitan development projects in metropolitan areas for which it has been demonstrated, to the satisfaction of the Secretary, that—

(1) metropolitanwide comprehensive planning and programing provide an adequate basis for evaluating (A) the location, financing, and scheduling of individual public facility projects (including but not limited to hospitals and libraries; sewer, water, and sewage treatment facilities; highway, mass transit, airport, and other transportation facilities; and recreation and other open-space areas) whether or not federally assisted; and (B) other proposed land development or uses, which projects or uses, because of their size, density, type, or location, have public metropolitanwide or interjurisdictional significance;

(2) adequate metropolitanwide institutional or other arrangements exist for coordinating, on the basis of such metropolitanwide comprehensive planning and programing, local public policies and activities affecting the development of the area; and

(3) public facility projects and other land development or uses which have a major impact on the development of the area are, in fact, being carried out in accord with such metropolitanwide comprehensive planning and programing.

(c)(1) Where the applicant for a grant under this section is a unit of general local government, it must demonstrate to the satisfaction of the Secretary that, taking into consideration the scope of its authority and responsibilities, it is adequately assuring that public facility projects and other land development or uses of public metropolitanwide or interjurisdictional significance are being, and will be, carried out in accord with metropolitan planning and programing meeting the requirements of subsection (b). In making this determination the Secretary shall give special consideration to whether the applicant is effectively assisting in, and conforming to, metropolitan planning and programing through (A) the location and scheduling of public facility projects, whether or not federally assisted; and (B) the establishment and consistent administration of zoning codes, subdivision regulations, and similar land-use and density controls.

(2) Where the applicant for a grant under this section is not a unit of general local government, both it and the unit of general local government having jurisdiction over

the location of the project must meet the requirements of this subsection.

(d) In making the determinations required under this section, the Secretary shall obtain, and give full consideration to, the comments of the body or bodies (State or local) responsible for comprehensive planning and programming for the metropolitan area.

(e) No grant shall be made under this section with respect to a metropolitan development project for which a Federal grant has been made or a contract of assistance has been entered into, under the legislation referred to in paragraph (2) of section 208, prior to February 21, 1966, or more than one year prior to the date on which the Secretary has made the determinations required under this section with respect to the applicant and to the area in which the project is located: *Provided*, That in the case of a project for which a contract of assistance under the legislation referred to in paragraph (2) of section 208 has been entered into after June 30, 1967, no grant shall be made under this section unless an application for such grant has been made on or before the date of such contract.

Extent of grant

SEC. 206. (a) A grant under section 205 shall not exceed (1) 20 per centum of the cost of the project for which the grant is made; nor (2) the Federal grant made with respect to the project under the legislation referred to in paragraph (2) of section 208. In no case shall the total Federal contributions to the cost of such project be more than 80 per centum. Notwithstanding any other provision of law, including requirements with respect to non-Federal contributions, grants under section 205 shall be eligible for inclusion (directly or through refunds or credits) as part of the financing for such projects: *Provided*, That projects or activities on the basis of which assistance is provided under section 105(c) shall not be eligible for assistance under section 205.

(b) There are authorized to be appropriated for grants under section 205 not to exceed \$25,000,000 for the fiscal year ending June 30, 1967, and not to exceed \$50,000,000 for the fiscal year ending June 30, 1968. Appropriations authorized under this section shall remain available until expended.

Consultation and certification

SEC. 207. In carrying out his authority under section 205, including the issuance of regulations, the Secretary shall consult with the Department of the Interior; the Department of Health, Education, and Welfare; the Department of Commerce; and the Federal Aviation Agency with respect to metropolitan development projects assisted by those departments and agencies; and he shall, for the purpose of section 206, accept their respective certifications as to the cost of those projects and the amount of the non-Federal contribution paid or to be paid to that cost.

Definitions

SEC. 208. As used in this title—

(1) "Metropolitan development" means all projects or programs for the acquisition, use, and development of open-space land; and the planning and construction of hospitals, libraries, airports, water supply and distribution facilities, sewerage facilities and waste treatment works, transportation facilities, highways, water development and land conservation, and other public works facilities.

(2) "Metropolitan development project" means a project assisted or to be assisted under section 702 of the Housing and Urban Development Act of 1965; title II of the Library Services and Construction Act; section 606 of the Public Health Service Act; section 8 of the Federal Water Pollution Control Act; section 120(a) of title 23, United States Code; section 12 of the Federal Airport Act; section 3 of the Urban Mass

Transportation Act of 1964; title VII of the Housing Act of 1961; or section 5(e) of the Land and Water Conservation Fund Act of 1965; or under section 101(a)(1) of the Public Works and Economic Development Act of 1965 (for a project of a type which the Secretary determines to be eligible for assistance under any of the other provisions listed above).

(3) "State" means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or an agency or instrumentality of any of the foregoing.

(4) "Metropolitan area" means a standard metropolitan statistical area as established by the Bureau of the Budget, subject however to such modifications and extensions as the Secretary may determine to be appropriate for the purposes of this title.

(5) "Comprehensive planning" includes the following, to the extent directly related to area needs or needs of a unit of general local government: (A) Preparation, as a guide for long-range development, of general physical plans with respect to the pattern and intensity of land use and the provision of public facilities, including transportation facilities; (B) programming of capital improvements based on a determination of relative urgency; (C) long-range fiscal plans for implementing such plans and programs; and (D) proposed regulatory and administrative measures which aid in achieving coordination of all related plans of the departments or subdivisions of the governments concerned and intergovernmental coordination of related planned activities among the State and local governmental agencies concerned.

(6) "Hospital" means any public health center or general, tuberculosis, mental, chronic disease, and other type of hospital and related facilities, such as laboratories, outpatient departments, nurses' home and training facilities, and central service facilities normally operated in connection with hospitals, but does not include any hospital furnishing primarily domiciliary care.

(7) "Areawide agency" means an official State or metropolitan or regional agency empowered under State or local laws or under an interstate compact or agreement to perform comprehensive planning in an area; an organization of the type referred to in section 701(g) of the Housing Act of 1954; or such other agency or instrumentality as may be designated by the Governor (or, in the case of metropolitan areas crossing State lines, any one or more of such agencies or instrumentalities as may be designated by the Governors of the States involved) to perform such planning.

(8) "Special purpose unit of local government" means any special district, public-purpose corporation, or other limited-purpose political subdivision of a State, but shall not include a school district.

(9) "Unit of general local government" means any city, county, town, parish, village, or other general-purpose political subdivision of a State.

(10) "Secretary" means the Secretary of Housing and Urban Development.

State limit

SEC. 209. Grants made under section 205 for projects in any one State shall not exceed in the aggregate 15 per centum of the aggregate amount of funds authorized to be appropriated pursuant to section 206(b).

Mr. PATMAN (during the course of the reading). Mr. Chairman, I ask unanimous consent that title II down to page 61 be considered as read and included in the RECORD at this point, subject to amendment at any point.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas?

There was no objection.

The CHAIRMAN. Title II is now open to amendment.

AMENDMENT OFFERED BY MR. MULTER

Mr. MULTER. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. MULTER: On page 57, after line 6, add the following new subsection:

"(f) Nothing in this section shall authorize the Secretary to require (or condition the availability or amount of financial assistance authorized to be provided under this title upon) the adoption by any community of a program to achieve a racial balance or to eliminate racial imbalance within school districts within the metropolitanwide area."

The CHAIRMAN. The gentleman from New York [Mr. MULTER] is recognized for 5 minutes in support of his amendment.

Mr. PATMAN. Mr. Chairman, will the gentleman yield?

Mr. MULTER. I will be glad to yield to the gentleman.

Mr. PATMAN. Mr. Chairman, since this is the same amendment that was inserted in title I by an overwhelming vote, I do not think that there will be much objection to this amendment in title II. I ask unanimous consent that we now vote on the amendment.

Mr. HALL. Mr. Chairman, I make a point of order against the amendment on the basis that it is not germane, and because it is well established in the rules of the House—Cannon's Precedents, volume 8, page 2995—that "the burden of proof as to the germaneness of a proposition has been held to rest upon its proponents."

The CHAIRMAN. The Chair will say to the gentleman from Missouri that the Chair had already recognized the gentleman from New York. The amendment had been read, and even further than that, the Chair had recognized the gentleman in support of his amendment.

Mr. HALL. Mr. Chairman, I submit that I was on my feet to make the point of order at the time that the amendment was read and thereafter before the Chair recognized the gentleman from New York.

The CHAIRMAN. Then the fault is that of the Chair, the Chair would say to the gentleman.

Mr. HALL. Mr. Chairman, I hold the Chair blameless.

The CHAIRMAN. The Chair recognizes the gentleman from New York for 5 minutes in support of his amendment.

Mr. PATMAN. Mr. Chairman, will the gentleman yield?

Mr. MULTER. I yield to the distinguished chairman.

Mr. PATMAN. Mr. Chairman, I ask unanimous consent that the debate be limited to a total of 10 minutes, 5 minutes on this side of the aisle and 5 minutes on the other side of the aisle.

Mr. FINO. Mr. Chairman, I object.

Mr. PATMAN. Let us limit it to 15 minutes, Mr. Chairman.

The CHAIRMAN. The gentleman from Texas makes a unanimous-consent request that all debate on this amendment and all amendments thereto end in 15 minutes.

Is there objection?

Mr. FINO. Mr. Chairman, I object.

The CHAIRMAN. Objection is heard.

Mr. PATMAN. Mr. Chairman, I ask unanimous consent that all debate on this amendment close in 20 minutes.

The CHAIRMAN. The gentleman from Texas extends his unanimous request of the same nature to 20 minutes.

Mr. FINO. Mr. Chairman, I object.

The CHAIRMAN. Objection is heard.

The gentleman from New York is recognized for 5 minutes in support of his amendment.

Mr. MULTER. Mr. Chairman, I will not take the 5 minutes and I do not intend to repeat the arguments that have already been made so many times today.

As our distinguished chairman of the Committee on Banking and Currency has already pointed out, this amendment is quite the same in intent and purport and it is in the language of the amendment we have already adopted to title I.

It makes it perfectly clear that there is nothing in this title and nothing in this bill that calls for or permits compulsory busing or forced busing of children and there is nothing in this title and nothing in this bill that directs or requires any impairment even to the slightest degree, of the neighborhood school concept.

Mr. Chairman, this amendment is quite the same as the amendment offered by the gentleman from Michigan [Mr. O'HARA] which was adopted in connection with the education bill at which time the same attempt was made to inject into the debate on that bill the racial conflict that has been sought to be injected into this debate on this bill.

Mr. O'HARA of Michigan. Mr. Chairman, will the gentleman yield?

Mr. MULTER. I yield to the gentleman.

Mr. O'HARA of Michigan. Mr. Chairman, I wish to say a few words in support of the amendment proposed by the gentleman from New York, which would add a new subsection (f) to section 205 of the Demonstration Cities and Metropolitan Development Act of 1966. This amendment would provide that in passing on applications for supplementary grants for metropolitan development projects under section 205 the Secretary of Housing and Urban Development would not be authorized to require—or condition the availability or amount of financial assistance authorized to be provided under this title upon—the adoption by any community of a program to achieve a racial balance or to eliminate racial balance within school districts within the metropolitan area.

The amendment means that the Secretary cannot compel community action to overcome racial balance; he has no power to coerce a community into following that course. By supporting this amendment I do not mean to suggest that anything in section 205 would have authorized the Secretary to do this in the absence of the amendment. But to be certain and to quiet some fears which have been expressed on the floor about it, we ought to make this intention clear.

Of course, the amendment would not preclude communities from dealing with the racial-balance problem in their schools as they see fit as part of metropolitan planning programs. That is a question to be decided on the local level. Nor would it prevent the Secretary from giving sympathetic consideration to such proposals under title II of the bill.

Finally, the amendment would not in any way restrict or hamper the Secretary in his efforts to enforce title VI of the Civil Rights Act of 1964. Title VI of that act does not permit the Secretary to require action to overcome racial imbalance in schools if that imbalance is not the result of unconstitutional racial discrimination with respect to assignments, zoning plans, or otherwise. This amendment would simply restate that limitation on title VI. But the Secretary would continue to be free to take into account any school assignment or zoning policies that are unconstitutional—that the courts would strike down under the 14th amendment. If such unconstitutional zoning or assignments would be perpetuated by metropolitan planning proposals the Secretary could refuse to make grants under title II.

Mr. ROBERTS. Mr. Chairman, will the gentleman yield?

Mr. MULTER. I am happy to yield to the gentleman.

Mr. ROBERTS. Mr. Chairman, would the gentleman explain the last line of his amendment where he specifies "within the metropolitanwide area"?

Would the gentleman's amendment not apply to towns that are smaller than those designated as metropolitan areas?

Mr. MULTER. We must bear in mind that the words as used in this amendment is the language of the words in the title of this bill. While in colloquial language, and usually when talking of metropolitan areas, we would exclude towns and villages such as the gentleman has in mind, this is intended to cover all of the areas as described within title II. There we are using language that is slightly different from what we would use colloquially when referring to a metropolitan area. We definitely include within the meaning of the title and within the meaning of my amendment, towns, villages, and small cities that qualify under title II.

Mr. BROCK. Mr. Chairman, will the gentleman yield?

Mr. MULTER. I yield to the gentleman.

Mr. BROCK. Is it the intention of the gentleman's amendment, when accepted and when it becomes law, that the Secretary of HUD shall have no authority to withhold funds to achieve racial balance or to correct imbalances or to in any manner affect the operation of the schools as they relate to the complex of population in the area?

Mr. MULTER. I think the gentleman's statement is accurate. We do not intend to write anything in this bill and, as I see it, we intend to make it crystal clear with the amendment that we are not going to allow any civil rights re-

strictions to get into this bill or into the administration of what is provided for in this bill.

Mr. BROCK. This would preclude him from exercising any jurisdiction over zoning ordinances or school districts in that same respect?

Mr. MULTER. If he is going to try to rewrite zoning laws and zoning ordinances and restrictions in order to create racial balance, of course, there is nothing in this bill that permits him to do it and the amendment says he is not going to be permitted to do so.

Mr. BROCK. That is the intention of the gentleman's amendment, to preclude him from such activities?

Mr. MULTER. That is correct. That is the intent of my amendment.

Mr. BROCK. I thank the gentleman.

Mr. MULTER. Mr. Chairman, I yield back the balance of my time.

Mr. FINO. Mr. Chairman, I rise in opposition to the amendment.

The antibusing amendment would accomplish absolutely nothing. It removes virtually none of the objections raised against the metro planning title. It only addresses itself to the question of busing and not to the far more important question of the creation of metropolitanwide school districts as called for by the U.S. Office of Education.

Can anyone in this House deny that at this very moment a comprehensive draft bill for 1967 is on the desk of Secretary of HEW Gardner?

Can anyone deny that that draft includes plans for using the metro title of this bill for supplemental grants to school districts to eliminate neighborhood schools and create metropolitanwide school districts?

Does this so-called racial balance amendment address itself to such things as metrowide school redistricting, pairing of adjacent schools, teacher assignments, and development of new curricular materials? Of course it does not.

If this House is sincere in its effort to eliminate any possibility of the U.S. Office of Education from using the metro title for metrowide school rezoning, then it should vote against the antibusing amendment.

For weeks now we have been hearing that there was absolutely no mention of education in title II. Contrary to Secretary Weaver's own testimony before the House Banking and Currency Committee there has been a massive effort to confuse the Members of this House into thinking that educational planning would not be a prerequisite to metropolitan planning agencies receiving incentive Federal aid grants. Now the proponents have admitted that education is involved. They come forth with a phony amendment that places absolutely no obstacle in the way of Federal planners who have admitted publicly before committees of this House that they want to use the metro planning title for metropolitanwide school rezoning.

There is only one way to clear the doubt, and that is to vote against the antibusing amendment and to vote for the amendment to strike title II.

We will have a record vote on this issue regardless of what occurs here in committee, and if Members of this House want to go home and face the voters in 2 weeks having voted for the destruction of our neighborhood schools then they have lost complete sight of the sentiment of an overwhelming majority of American families. This is the No. 1 domestic issue facing the voters this fall and I for one will be happy to have chosen this as my political battlefield.

Mr. PATMAN. Mr. Chairman, I ask unanimous consent that all debate on the amendment now close and that we now vote on the amendment.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas?

Mr. RYAN. Objection, Mr. Chairman.

Mr. PATMAN. Mr. Chairman, I move that all debate on the amendment do now close and that the House vote on the amendment.

The CHAIRMAN. The question is on agreeing to the motion of the gentleman from Texas.

The motion was agreed to.

The CHAIRMAN. The question is on the amendment offered by the gentleman from New York [Mr. MULTER].

The amendment was agreed to.

(Mr. RYAN asked and was given permission to extend his remarks at this point in the RECORD.)

Mr. RYAN. Mr. Chairman, I opposed a similar amendment to title I, and I oppose this. My reasons are the same. I deplore the erosion of civil rights which has taken place this year. I deplore the capitalization upon the so-called white backlash by some and the catering to it by others.

AMENDMENT OFFERED BY MR. ASHLEY

Mr. ASHLEY. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. ASHLEY: On page 51, strike out lines 5 through 19, and renumber the succeeding sections accordingly.

The CHAIRMAN. The gentleman from Ohio is recognized.

Mr. PATMAN. Mr. Chairman, will the gentleman yield?

Mr. ASHLEY. I yield to the gentleman from Texas.

Mr. PATMAN. Mr. Chairman, all through the hearings and deliberations of the subcommittee and the full committee this new official drew as much fire as any other section of the bill. I understand some important mayors are opposed to the metropolitan expeditors, and in the interest of harmony I see no reason why the amendment cannot be adopted. We accept it on this side.

Mr. ASHLEY. Mr. Chairman, I am delighted, as always, to have the cooperation and support of my chairman.

There is no real necessity, Mr. Chairman, for lengthy explanation of this amendment. It would strike section 203, which provides for metropolitan expeditors.

I might say that there are some of us who feel this is a worthy and desirable provision, but that it is not essential, at least at this time.

For this reason, and in the interests of economy, I offer the amendment.

Does the gentleman from Wisconsin [Mr. REUSS] wish to have me yield?

Mr. REUSS. I do.

Mr. ASHLEY. I yield to the gentleman from Wisconsin.

Mr. REUSS. I thank the gentleman, but since I must oppose the amendment I shall ask recognition when the gentleman is through.

Mr. ASHLEY. Mr. Chairman, if the gentleman is going to oppose the amendment I will amplify my explanation.

Title II, the planned metropolitan development title, contains four essential provisions.

First, we call upon Federal departments and agencies to coordinate their activities. There has been no controversy with respect to this.

Second, provision is made for metropolitan expeditors who, at local request, can achieve coordination in metropolitan areas.

Third, we require minimum levels of coordination and cooperation at the local level as a condition for receiving a grant of Federal funds for metropolitan development.

Finally, we provide incentive grants for more effective coordination of metropolitan planning and development.

Mr. Chairman, in reviewing the thrust of these four provisions it struck me clearly that the third is the least important, and in some respects it would impose a burden in terms of financing of the program, a burden which is not essential at this time.

It was for this reason, Mr. Chairman, that I offered my amendment. I ask that the amendment be approved.

Mr. REUSS. Mr. Chairman, I rise in opposition to the amendment.

I shall be brief and I hope moderate and modulated in tone.

This amendment comes as a surprise to me, because this is a dandy section of the bill, one of the finest in the whole bill. For the life of me I cannot understand why anybody wants to take it out.

What this section would do is to meet the needs of metropolitan areas, large and small, all over the country who are complaining because they can never get anyone from Washington to tell them about what these Federal plans and programs are.

The metropolitan expeditor would authorize and direct the Secretary of HUD, whenever a locality wants one and needs one, and in consultation with the locality, to make sure they get a personna who is grata to the locals. It is one of the finest things in the bill, I believe, and I am completely at a loss as to why we want to do in our own baby here. I hope, without prolonging debate further, that this amendment will be voted down. I think the issue is perfectly clear. This admirable metropolitan expeditor should be kept in the bill.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Ohio [Mr. ASHLEY].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. CASEY

Mr. CASEY. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. CASEY: On page 55, line 24, after the parenthesis (b), strike

all of the remaining portions of line 24 and 25, and on page 56, strike all of the portions of lines 1 through 7, and insert the following:

"In making this determination, the Secretary may give consideration to the applicant's program of metropolitan planning. He may consider the location and scheduling of public facility projects, whether or not federally assisted; and he may consider the applicant's efforts whether successful or not to establish zoning codes, to consistently administer subdivision regulations or similar land-use and density controls, and to establish and administer a planning commission to chart orderly community growth in the absence of a specific zoning code and zoning commission. In no instance shall a zoning code be a requirement for participation in this program."

Mr. PATMAN. Mr. Chairman, will the gentleman yield to me for a unanimous-consent request?

Mr. CASEY. I will be glad to.

Mr. PATMAN. I ask unanimous consent that all debate on this close in 10 minutes, with 5 minutes for the gentleman from Texas [Mr. CASEY] and 5 minutes for the opposition.

The CHAIRMAN. The gentleman from Texas makes a unanimous-consent request that all debate on this amendment end in 10 minutes, including 5 minutes for the gentleman from Texas [Mr. CASEY] and 5 minutes for those in opposition.

Is there objection to the request of the gentleman from Texas?

Mr. FINO. Mr. Chairman, reserving the right to object, is this only on the Casey amendment?

Mr. PATMAN. Yes. Just on the Casey amendment.

Mr. FINO. Thank you. I withdraw my reservation.

Mr. HALL. Mr. Chairman, I make a point of order. The time cannot be specified on a unanimous-consent request.

Mr. PATMAN. Mr. Chairman, I will change my request to 10 minutes.

The CHAIRMAN. Is there objection to that?

There was no objection.

The CHAIRMAN. The gentleman from Texas [Mr. CASEY] will be recognized now for 5 minutes in support of his amendment.

Mr. CASEY. Thank you, Mr. Chairman.

This again is an endeavor to see to it that cities such as my own hometown of Houston, one of the chairman's cities, Marshall, Tex., one of the gentleman from New Jersey's cities, Fairlawn, and others who do not have zoning, have the opportunity to participate in this program. I see no reason why they should object to the fact that the Secretary would have all of the latitude that he wants to sit down and determine whether or not a city would qualify, but to put in there that they would not have to have as a prerequisite zoning ordinances in order to comply. They have opposed my previous amendment along this line. One of the arguments made was that they felt zoning was a very high type of thing to have. They indicated it might be necessary. I do not argue that point, but I am just saying this: Our own city and its officials and citizens have tried three times in the past but were unsuc-

cessful. The people voted it down. That is their privilege if it is their desire, but let us not set up a program here which precludes hundreds of cities from even applying in order to participate in this program.

For the life of me, I cannot understand why this committee wants to object to that, but it does.

Mr. Chairman, the only thing that I can see is that this bill and language, if adopted and enacted, will place into the hands of the Secretary, with all of the latitude he has got in this bill, power to be the lord mayor of every city and town in this country and I, for one, shall not support the bill for that reason.

Mr. MULTER. Mr. Chairman, will the gentleman yield to me at that point?

Mr. CASEY. No, I am not going to yield.

Mr. ASHLEY. Mr. Chairman, I rise in opposition to the amendment.

(Mr. ASHLEY asked and was given permission to revise and extend his remarks.)

Mr. ASHLEY. Mr. Chairman, it will not be necessary for me to take more than a few seconds in opposition to this amendment.

Of course, Mr. Chairman, it is the same amendment that the gentleman from Texas has offered to title I.

I believe it is necessary only to point out that, of course, there are no requirements contained in the bill, as the gentleman seems to believe there are.

Mr. Chairman, I might say that the gentleman is flailing at windmills, and inasmuch as we have covered this ground before, not longer than 2 hours ago, I would hope that we could dispose of this amendment and that the members of the Committee would join me in voting it down.

Mr. CASEY. Mr. Chairman, will the gentleman yield?

Mr. ASHLEY. I yield to the gentleman from Texas.

Mr. CASEY. Mr. Chairman, can the gentleman from Ohio assure me that this will not be a definite requirement, a requirement that they have zoning ordinances?

Mr. ASHLEY. Mr. Chairman, I believe the bill speaks for itself, if I may say to the gentleman from Texas and, it is not possible for me to give assurance to the gentleman with respect to all facets of the operation of the bill.

Mr. CASEY. Mr. Chairman, if the gentleman will yield further, I will ask the gentleman this question:

Should the Secretary see fit to set minimum requirements, as he has done upon urban renewal projects to the effect that there must be a zoning ordinance, will the gentleman assist me in trying to see that he relaxes that provision?

Mr. ASHLEY. I think that to entertain any expression of interest on the part of the gentleman from Texas—

Mr. CASEY. Wait a minute. If it is going to take legislation, we ought to do it now. But, as I understand it, the gentleman from Ohio does not think it might be necessary to have legislation thereon.

Mr. ASHLEY. Mr. Chairman, I see no reason to feel that this subject needs additional legislation.

Mr. Chairman, I believe the gentleman from Kansas pointed out earlier that in his city, which has zoning requirements—

Mr. CASEY. Mr. Chairman, if the gentleman will yield further, I did not say that. This is not correct. This organization said, and the gentleman made a statement—

Mr. ASHLEY. The gentleman from Kansas pointed out the fact that he does have zoning in his city.

Mr. CASEY. Well, Mr. Chairman, I did not understand the gentleman to say that.

Mr. ASHLEY. Mr. Chairman, the gentleman from Texas is anticipating difficulties that I do not think will arise.

Mr. CASEY. Mr. Chairman, if the gentleman will yield further, I appreciate the gentleman's remarks, and I simply hope that the gentleman is right, that in any of these great metropolitan areas—and I can anticipate that Houston will have problems—it will want to at least participate.

Mr. ASHLEY. Mr. Chairman, I can appreciate the gentleman's concern and I do feel that he is a fine legislator and a gentleman for whom I have a very high regard and respect.

However, Mr. Chairman, I believe the gentleman is anticipating something in advance which I do not believe we should anticipate and I do not believe that we should legislate on that basis.

Mr. CASEY. Mr. Chairman, if the gentleman will yield further, I am sure that the gentleman from Ohio can see why I am anticipating that in advance, based upon what the Secretary did before?

Mr. ASHLEY. Can the gentleman from Texas show me wherein he has not been treated properly with reference to urban renewal? If the gentleman can do that, then I would be much more persuaded than by other mere statements.

Mr. CASEY. Oh, all I can show you is the planning regulations of the Secretary as to the requirements involved in urban renewal, and one of them is a zoning ordinance and a map.

Mr. ASHLEY. Well, Mr. Chairman, I believe the gentleman's point has been made, but I am sure that the gentleman can understand the position I am taking and I ask for a vote on the amendment.

The CHAIRMAN. The Chair recognizes the gentleman from New York [Mr. FINO] for 3 minutes.

(Mr. FINO asked and was given permission to revise and extend his remarks.)

Mr. FINO. Mr. Chairman, I rise in reluctant opposition to the amendment offered by the gentleman from Texas [Mr. CASEY]. I read with interest the speech of the gentleman of yesterday in opposition to title II as presently drafted where he said that title II would "create a Federal Lord Mayor over our cities, telling them what must be done on a local level." The gentleman was particularly bothered by the language on page 55 of the bill which would grant broad powers to the Secretary of HUD to determine whether metropolitanwide planning agencies had sufficient control over local zoning ordinances.

But his amendment in no way would cure the situation. All his amendment would do would be to make eligible several metropolitan areas that would be prohibited from participating in the program because they lack local zoning ordinances. But listen to what the amendment of the gentleman from Texas would permit:

Secretary Weaver would still have vast control over metropolitan planning. He would have control over both the location and the scheduling of all public facility projects in that metropolitan area, even those projects which are being built without Federal aid. As Secretary Weaver himself testified on page 53 of the printed hearings, the Casey amendment would still permit Secretary Weaver to have broad discretionary controls over metropolitanwide education facilities.

The Casey amendment would still permit Secretary Weaver to seek establishment of metrowide zoning controls as a prerequisite to Federal aid.

I can well understand why the gentleman is upset by title II and I commend him for calling the attention of the House to the huge power grab by the Department of HUD over purely local matters, such as zoning, land use patterns, subdivision regulations, as well as the location and scheduling of all public facility projects within a metropolitan area.

It makes little difference to me whether or not the House accepts or rejects this amendment, because the amendment would change nothing. It would merely permit the Secretary of HUD to hold a club over the heads of more metropolitan areas than the bill before us would permit.

Nevertheless because acceptance of this amendment might further confuse the House, I urge that it be rejected.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Texas [Mr. CASEY].

The question was taken and, on a division demanded by Mr. CASEY, there were—ayes, 15; noes, 38.

So the amendment was rejected.

AMENDMENT OFFERED BY MR. FRASER

Mr. FRASER. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. FRASER: Page 52, lines 9 and 10, strike out "elected officials of the units of general local government" and insert in lieu thereof "elected officials of a unit of areawide government or of the units of general local government."

The CHAIRMAN. The gentleman from Minnesota is recognized for 5 minutes in support of his amendment.

Mr. COLMER. Mr. Chairman, will the gentleman yield?

Mr. FRASER. I will be glad to yield to the gentleman.

Mr. COLMER. Mr. Chairman, I appreciate the gentleman yielding to me.

I merely wanted to announce that the Members have already received an invitation to attend the unveiling of a portrait of our friend, the chairman of the Committee on Rules, at 5 o'clock in the Committee on Ways and Means room in the Longworth Building. Those Members who can find it convenient to get away from here and go over there, we would be very happy to see them there.

I thank the gentleman for yielding.

Mr. FRASER. I thank the gentleman.

Mr. BARRETT. Mr. Chairman, will the gentleman yield?

Mr. FRASER. I yield to the gentleman.

Mr. BARRETT. Mr. Chairman, if it is agreeable to the other side, I want to state that the gentleman from Minnesota [Mr. FRASER] has discussed this amendment with me and with the chairman of the Committee on Banking and Currency and with others. The Department has no objection to this and I think the gentleman's amendment is a good one and I hope that it can be adopted.

Mr. FINO. Mr. Chairman, will the gentleman yield?

Mr. FRASER. I yield to the gentleman.

Mr. FINO. Mr. Chairman, in the absence of the ranking minority Member on this side, may I ask for a brief explanation of the amendment.

Mr. FRASER. Mr. Chairman, this amendment seeks to deal with the requirement for the planning agency in section 204.

On page 52 of the bill, line 5, paragraph (1), there is a requirement for a planning agency which is composed of or responsible to the elected officials of the units of general local government.

This is the way that our metropolitan planning commission is organized today in the Minneapolis-St. Paul area.

However, there is under discussion by some citizens of our community and by some of our officials of the possibility of having an agency with areawide responsibility which may be elected directly by the people.

The purpose of my amendment simply is to make more flexible the kinds of arrangements at the local level which will qualify under this provision of the bill.

This amendment is simply designed to enlarge local options and local choices with respect to this matter.

I might say that I have spoken to the gentleman from New Jersey briefly about this and while he indicated no position to it, I did furnish him with a copy of the amendment.

Mr. BARRETT. Mr. Chairman, will the gentleman yield?

Mr. FRASER. I yield to the gentleman.

Mr. BARRETT. Mr. Chairman, if it is agreeable with the other side, I want to state that the chairman of the full Committee on Banking and Currency has discussed this with me and with the gentleman and we are willing to accept the gentleman's amendment.

(Mr. FRASER asked and was given permission to revise and extend his remarks.)

Mr. FRASER. Mr. Chairman, section 204 of S. 3708, which begins on page 51 of the bill, is titled "Coordination of Federal Aids in Metropolitan Areas." It provides that all Federal loans or grants made after next June 30 for certain kinds of projects in a metropolitan area shall be submitted for review to an areawide agency. The section pertains to open-space land projects and to the planning and construction of hospitals, airports, libraries, water supply

and distribution facilities, sewerage facilities and waste treatment works, highways, transportation facilities, and water development and land conservation projects.

As the language of 204(a)(1), starting on line 5 of page 52 of S. 3708, now reads, the areawide agency designated to perform metropolitan or regional planning would be, "to the greatest practicable extent, composed of or responsible to the elected officials of the units of general local government within whose jurisdiction such agency is authorized to engage in such planning."

The amendment I am proposing would strike out the words "elected officials of the units of general local government" on lines 9 and 10. The substitute language would read instead, "elected officials of a unit of areawide government or of the units of general local government."

The present language contains little flexibility and could inhibit experimentation by State and local units of government in determining the type of agency that would be most suitable to their metropolitan areas.

My amendment is designed to assure that flexibility by broadening the language. In many metropolitan areas, such as the one I represent, there is a great proliferation of local units of government. The most effective areawide agency in some of these areas undoubtedly could best be chosen in some manner besides the "council of governments" approach written into the bill.

This amendment would not eliminate such an approach, which has proven effective in some metropolitan areas. All the amendment would do is give State and local governments the option of following another course of their own choosing.

Under our federal system, the scheme of Federal grants in aid is one of the most progressive and effective devices for carrying out programs of benefit to our local communities. Congress has established grant-in-aid programs where there is a national problem to be met but a strong desire to have administration of the program kept at the local level.

But we have used the grant-in-aid principle for so many different programs that there is now a real need for coordination of these activities, especially in our metropolitan areas.

The President's budget for fiscal 1967 proposed Federal aid to State and local governments in the amount of 14.6 billion dollars. This is three times the level of Federal aid 10 years ago.

The latest catalog of Federal aids to State and local governments prepared by the Senate Committee on Government Operations, lists nearly 400 separate authorizations for Federal assistance to State and local governments. Most of the executive departments and a large number of independent agencies operate Federal-aid programs.

Section 204 of S. 3708, "Coordination of Federal Aids in Metropolitan Areas," would insure that Federal agencies dispensing aid would have the benefit of the suggestions of a central planning agency for the metropolitan area. No longer would each Federal department operate

without regard to the plans of other Government agencies and interest groups.

Since the Minneapolis-St. Paul metropolitan area is a good example of proliferation of governmental units, I would like to address myself to the important question of how we can create an areawide agency capable of formulating a development plan and policy for the metropolitan area. This is extraordinarily difficult. It will have to be an agency that is, all at the same time, first, genuinely representative of the area; second, politically responsible to the area; and third, capable of making positive and effective decisions on the most sensitive and controversial issues.

I do not think any area in the country has come really close to a solution yet. The councils of governments approach now in use in the Washington area and in a dozen or so other metropolitan areas around the country is an important advance, in that it promises to involve political officials more closely in consideration of these issues of metropolitan growth. It has been given careful consideration in Minnesota. There is a strong feeling among people who have looked at this proposal for the Twin Cities area, however, that no formula for representation on an areawide council has yet been worked out which will make it possible for such a council to make the difficult and binding voting decisions which will inevitably be required if the hard issues of metropolitan development are to be settled effectively.

In the Twin Cities area we have 45 urban towns, 107 villages, 25 cities, 1 borough, and 7 counties. We have, in addition, as special units of local government, 69 school districts, 25 rural towns, 1 Federal reservation, and 19 districts handling everything from airports to mosquito abatement. Most important is that these cities and villages range in population from 500,000 down to 500. How—with this variation—are we to design an effective system of representation and voting? One of the interesting ideas put forward—by, among others, the municipal leaders in the Twin Cities area who are interested in forming some sort of areawide agency—is to base the representation not on local units directly but rather on the framework of the State legislative districts, which are now, after two reapportionments—and should remain—remarkably equal in population size. This would make possible a council in which the members would sit as equals and could vote on a one-man, one-vote basis. The unsolved problem is how to select the representatives within this framework. This is still being actively discussed.

I mention all this simply to suggest the tremendous variation that exists in the governmental situation among the various metropolitan areas of this country—and to emphasize the need that still remains for the broadest kind of experimentation with new forms of organization at the metropolitan level. I think it is important in drawing up the needed Federal incentives to encourage the creation of areawide agencies to prepare

metropolitan plans, and to review proposed Federal-aid projects for conformity with these plans, that the Congress follow a double policy:

First, it should be careful to leave room for areas, such as Twin Cities, to pioneer with entirely new arrangements for making areawide development policy.

Second, the Federal interest should be to encourage the creation of agencies which are as representative as possible of the full range of governmental organizations carrying on statutory activities, and levying taxes, within the metropolitan area—the State, the counties, the municipalities, and the school and other special districts.

We have very little really solid experience to rely on yet, to know what sort of institutional arrangements actually work effectively. While we may anticipate only slow, steady progress—through the cooperation and consultation of local units—in most of our urban area, we should be careful not to discourage the possibility that some State or metropolitan area may decide it wants to try a real breakthrough into some more advanced form of organization.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Minnesota [Mr. FRASER].

The amendment was agreed to.

AMENDMENT OFFERED BY MR. FINO

Mr. FINO. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. FINO: Strike out title II, beginning on page 49, line 1, and ending on page 61, line 16.

And redesignate the succeeding titles and sections (and the references thereto on page 77, lines 5 and 10, and page 125, line 2) accordingly.

Mr. FINO. Mr. Chairman, the purpose of my amendment is to strike title II—the metro title—of this bill. The gentleman from New York has offered and has been successful with a “red herring” amendment to make you think that metro is now harmless. But gentlemen, what have we achieved with an amendment that prohibits the metro planners from requiring busing as a condition of aid? I suggest to you that metro planning does not force or require communities to adopt busing schemes any more than the President forces Members of this Chamber to vote like he wants. What the metro planners, just like the President, will do is suggest this type of scheme. Just because you hear twisted arms cracking does not legally mean that local communities are being required, by law, to come up with school balance schemes. This phony amendment we passed is a pro-busing amendment, it will not slow down one Weaver-Howe schoolbus.

Besides, some of you act as if you think that busing was the only forced integration scheme in the book. There are many. Under this metro plan, our communities are going to have to volunteer to do a lot of things. Busing is just one of many—and the trick amendment passed does not stop even busing. On top of this, we have pairing and school redistricting. Then there will be educa-

tional parks. All these are racial balance schemes, and they will require busing coincidentally, but the busing will not be for racial balance, it will just be to get kids to school in the district they live.

Mr. Chairman, the amendment passed earlier is one of the biggest suckerbait amendments I have ever seen in my life. I know the Howe forces and the Weaver fans who drew it up were not trying to fool Republicans: they knew we were against it. They were trying to fool Democrats. Let me pose a question: Suppose someone asked you how this amendment would actually prevent busing. Could you give a good technical explanation? If not, you better vote to kill metro. I do not want any of my good friends to be left out on the limb with only the suckerbait amendment when metro gets rolling.

Educational facilities are not the only type facilities that are to be planned under metro. Dr. Weaver has also talked about “housing and relocation.” This means that suburbs and slums will have to plan housing together as well as education. Just in case there is not enough forced racial balance in the schools after all these metrowide plans, Dr. Weaver will see to it that there is forced integration in housing. For example, he will use metro planning to force rent supplement housing on unwilling communities in such a way as to undermine the “local option” proviso the Appropriations Committee tacked onto the rent supplement appropriation.

Let me return to metro. It is to be used to plan the metropolitan areawide location of all publicly assisted facilities. This includes not only public schools, but any parochial schools getting Federal assistance. Nor is metro planning limited to only the location of such facilities. The metro government is going to be allowed to plan the financing of such facilities. That means that suburbs are going to be forced to plan schools with central city slums—at the expense of those suburbs, whose tax structure will be supervised by the metro government.

Listen to the type of metro school planning U.S. Education Commissioner Howe has in mind. No antibusing amendment, even a legitimate one, can block him—only the demise of metro. This is a quote from Howe:

Traditional school boundaries often serve education badly and may have to be changed. New York and New Jersey surrendered state prerogatives to form the Port of New York Authority in the interests of improved transportation. If we can make such concessions for transportation, I suggest that we can make them for education. We could, for example, alter political boundaries to bring the social, intellectual and intellectual strength of the suburbs to bear on the problem of cities schools.

This is exactly what metro plans to do. Set up metro and you give the slums access of suburban taxpayers. Listen to the ultimate objective of metro. Now I will quote the Washington Post of July 3, which discussed the way the metro idea has found favor at a White House Conference “To Fulfill These Rights.” Listen to the plans the social planners have for metro:

Essentially, the idea is that the Federal Government must provide the lever for Negroes to crack the suburbs. The way to do it? Put all the Federal funds for housing, school, anti-poverty programs into one bag. To get the money, local officials would be required to draw up plans on a metropolitan wide basis. Suburbs would be asked to build scattered low-income housing and work out areawide plans for school integration.

I submit that metro is a dangerous thing to set up. No amendment can make anything decent out of it. No amendment has. I urge you to defeat the metro title by supporting my amendment.

Mr. PATMAN. Mr. Chairman, I rise in opposition to the amendment. I can see no reason to remove from the bill a genuinely effective incentive for well-planned metropolitan development.

Twenty years from now we will have added at least 54 million people to our metropolitan population, the great bulk of them in suburbs. This is the equivalent of adding 5 New Yorks or 27 Washingtons.

That is a vast amount of construction, a vast amount of new sewer lines, a vast amount of new highways, and parks, and houses. It is also a vast amount of Federal-aid funds. It is enough to make you wonder what our countryside, and our downtowns, are going to look like in 20 years.

It is clear that without good planning, the result will be an expensive and disorderly tangle of highways cutting carelessly through communities, disappearing parklands, and neon-lit strips substituted for quiet residential neighborhoods. Words alone are not going to meet this problem.

What does title II do? It provides a new approach to making planning effective. It increases Federal assistance to cities and other State and local bodies which actually develop projects and administer local zoning and subdivision controls consistently with their own metropolitanwide plans. The increase in aid will come in the form of a supplement to the Federal share of projects already being assisted under 10 different programs. The supplementary grant cannot exceed 20 percent of the cost of these projects.

A 20-percent increase in a Federal grant is a real incentive for good local planning, and for actually putting the local plans into effect.

At the same time, the bill will take a major step forward in coordinating the present 140 different programs and 21 different Federal agencies which offer aid to our cities.

The arguments against title II are very thin indeed. There has been a suggestion that the title might be amended next year to encourage busing of schoolchildren. I have been personally, and emphatically, assured by Secretaries Weaver and Gardner that no such intent exists, or ever did exist, on the part of the administration. Furthermore, to quote a telling point from Secretary Weaver's letter to me:

No legislation, no matter how worthy, would ever be enacted if it were delayed whenever there was a possibility that unde-

sirable amendments might be added in the future.

Let us remember, busing cannot be added to this title unless the Congress itself adds it.

Opponents of the title have raised the familiar specter of Federal domination. Yet, no community is compelled to enter the program, nor will it lose a penny of aid under already existing Federal programs, if it does not participate. In addition, there is no provision in this title, or anywhere else in the bill, which allows the Federal Government to dictate the decisions of any development plan.

Mr. Chairman, title II should be retained and I urge rejection of the amendment.

Mr. MULTER. Mr. Chairman, will the gentleman yield?

Mr. PATMAN. I yield to the gentleman from New York.

Mr. MULTER. I thank the gentleman for yielding. I merely wish to supplement what the distinguished chairman of our committee has said.

I want to indicate in opposition to the proposed amendment to strike this title that the language of my amendment, which has been adopted, says very clearly, beyond peradventure of doubt or argument, that nothing may be done in the bill or in the title that will in any manner authorize any requirement to achieve racial balance or to eliminate racial imbalance.

Mr. STANTON. Mr. Chairman, I rise in support of the amendment offered by the gentleman from New York.

(Mr. STANTON asked and was given permission to revise and extend his remarks.)

Mr. STANTON. Mr. Chairman, I rise in support of the amendment offered by the gentleman from New York, and in so doing I can honestly say that I know of few Members of this body who have had more experience with suburban growing pains in the last 8 years than the speaker in the well at the present time.

As a former county commissioner of a suburban county adjoining Cleveland, Ohio, I can fully appreciate the growing pains that many of our suburban communities in our metropolitan areas are going through. For 8 years I was faced with these problems in the fastest growing county in the State of Ohio.

I fully agree that there are entirely too many political subdivisions through which metropolitan wide problems are often left unsolved. I can attest to the fact that there is a real need for greater coordination between the central city and suburban governments.

As a matter of fact, I can even agree that, in certain instances, the Federal Government can provide the initiative and the leadership for better coordination of our metropolitan area problems.

For example, I fully agreed when the Federal Government insisted that the seven counties surrounding Cleveland form a seven-county transportation commission in order to implement the highway program that was authorized by a previous Congress.

But I think it would be a tragic mistake for this Congress to approve a pro-

gram that we are now considering that would place the Federal Government in a position of bribing metropolitan areas with millions of additional Federal aid in an effort to seek an answer to our metropolitan problems.

The real danger in title II is a potential one. A careful reading of this section leaves serious doubt if the creation of the metro form of government, as described in title II, would not in reality create a metro form of government under the complete control of the Federal planners in Washington.

In reading the testimony of Dr. Weaver in hearings before the other body on the demonstration cities program, he clearly states that, in order to cooperate, the cities will have to:

1. First examine their existing laws to determine the extent to which these laws impede substantial progress in carrying out their demonstration programs and to take appropriate action, if necessary, to make those laws consistent with the objectives of their program.

2. In many localities the structure of real estate taxes, inadequate and often obsolete housing codes, zoning laws and artificial restraints on building practices retard the prompt and proper development of the cities' physical characteristics. Local efforts to remove these restrictions can be one of the major benefits of the Cities Demonstrations Program.

3. Encourage good community relations and counteract the segregation of housing by race or income. Non-discrimination in any housing assisted under a Demonstration Program is a legal requirement.

4. Indicate that the projects and activities carried on under the program will be consistent with comprehensive planning for the entire urban and metropolitan area.

5. A program meeting the statutory criteria for a comprehensive Demonstration Cities Program—and committing the city to take these additional actions which may be expected of them—is not lightly undertaken.

The Secretary then adds:

But nothing less will do.

The bill clearly states that the Secretary of HUD will make the final determination as to the proper type of metropolitan planning. I think that we should make no mistake today that we are voting not simply on a question of metropolitan government on a volunteer basis, but a question of metropolitan government in the broadest and most comprehensive form.

But far more important than the argument of for or against metropolitan government is the more far-reaching question of whether or not metro government should be defined, controlled and guided by Federal guidelines.

Mr. Chairman, I urge support of the amendment of the gentleman from New York.

Mr. CRAMER. Mr. Chairman, I move to strike the requisite number of words.

(Mr. CRAMER asked and was given permission to revise and extend his remarks.)

Mr. CRAMER. Mr. Chairman, I rise in support of the amendment.

Mr. PATMAN. Mr. Chairman, will the gentleman yield to me for the purpose of propounding an unanimous-consent request?

Mr. CRAMER. Mr. Chairman, I do not care to have debate cut off at this

point. Therefore, I do not yield to the gentleman from Texas.

Mr. PATMAN. Mr. Chairman, I would hope that the gentleman from Florida would yield for a unanimous-consent request.

Mr. CRAMER. Mr. Chairman, if it is to cut off debate, no; I decline to yield, because I believe it is necessary to find out, frankly, what this title does, and I am taking this time, largely, in an effort to find out what this title proposes to do.

Frankly, Mr. Chairman, if the title does what it proposes to do—and I have sat here this afternoon and have read and reread not only the bill, I have not only read and reread title I, but I have read and reread title II; and not only the majority report, but the minority views as well, and frankly, I am afraid that the Committee is going much farther than it intends to go.

Mr. Chairman, I am talking about something other than the busing of students or about setting up these school communes under a metro plan, a plan which envisions 10,000 or 12,000 children being required to go to one large school in one large metropolitan area, and the destruction of the neighborhood school system and which I do not like.

Mr. Chairman, I am going to talk about something other than that. That is bad enough as it is.

However, Mr. Chairman, I would like to ask this question of the chairman of the committee, the gentleman from Texas [Mr. PATMAN].

Mr. Chairman, I read under title II in section 204 on page 51 of the bill language to this effect:

All applications made—

This is under "Federal Aids," and I would like some member of the committee to answer this question and I wish the Members would listen to this—

All applications made after June 30, 1967 for Federal loans or grants to assist in carrying out open-space land projects or for the planning or construction of hospitals, airports, libraries, water supply and distribution facilities, sewerage facilities and waste treatment works, highways, transportation facilities, and water development and land conservation projects within any metropolitan area shall be submitted for review—to a metropolitan planning agency—

Mr. Chairman, this is a matter that has bothered me. It again involves a standard metropolitan statistical area, a statistic established by the Bureau of the Budget, and we know what the statistical area is today in Washington, D.C.

Mr. Chairman, in Washington, D.C., it means the southern part of Maryland, near Washington, and all outlying areas of Maryland; it means the eastern part of Virginia near Washington.

Mr. Chairman, that is an example of the metropolitan area about which this bill speaks; is that not right?

Mr. BARRETT. Yes.

Mr. CRAMER. Mr. Chairman, a member of the committee says "Yes."

So, Mr. Chairman, it means that by June of 1967—that is 7 months—8 months from now—the whole metropolitan area of Washington, D.C., in Maryland, in Virginia—yes, and in the central east coast area of Florida, Tampa, St.

Petersburg, Clearwater—have got to get together and form an areawide planning group which they have no legislative authority to do—or lose Federal funds. There is no authority which those three communities have under State legislation to get together in a planning group.

I say to you the area here in Washington does not have adequate authority to do so, and it cannot be done so without approval. As to all of the Governors involved in this case—as is defined in “areawide agency” on page 60 what happens if they do not do it? That is the point.

Mr. REUSS. Mr. Chairman, will the gentleman yield?

Mr. CRAMER. Mr. Chairman, I will yield when I finish. I have not finished my thought.

Mr. REUSS. Mr. Chairman, I am sorry. I thought the gentleman wanted an answer to his question.

Mr. CRAMER. Let me finish my thought. Then I will be glad to yield to the gentleman.

As I said, what happens? They lose their money. So that this areawide plan has to take place by June of 1967 or they lose—not the bonus, listen to this, now. They not only lose the bonus that brings them up to 80 percent of the local cost, under section 205, but they lose everything under section 204.

Is that not right? They lose all this Federal granted money. They not only lose the bonus but the grant itself. The bonus is the next section dealing with grants to assist in planned metropolitan development.

Mr. REUSS. Mr. Chairman, will the gentleman yield?

Mr. CRAMER. If the gentleman will let me finish, I will yield.

I am talking now about Federal aid in metropolitan areas. It says all applications for grants for all these programs after June 30, 1967, must conform to this metropolitan plan or the money is lost under section 204.

Mr. REUSS. Mr. Chairman, will the gentleman yield?

Mr. CRAMER. Yes, I will yield to the gentleman.

Mr. REUSS. Mr. Chairman, the gentleman keeps propounding questions but not permit time for an answer, so it is a little difficult to answer his questions.

Mr. CRAMER. If the gentleman wishes to answer, I will be glad to yield for an answer.

Mr. REUSS. I will be glad to answer.

Mr. CRAMER. If you want to answer my question, I will yield.

Mr. REUSS. Mr. Chairman, if the gentleman will read on pages 60 and 61, subparagraph (7), in lines 22 to 25, inclusive, it says that the areawide agency that can approve these plans can be any other agency such as may be designated by the Governor.

Mr. CRAMER. That is true.

The CHAIRMAN. The time of the gentleman from Florida has expired.

Mr. CRAMER. Mr. Chairman, I ask unanimous consent that I be permitted to proceed for an additional 5 minutes.

The CHAIRMAN. The gentleman from Florida makes a unanimous-consent request that he be permitted to proceed for an additional 5 minutes.

Mr. REUSS. Mr. Chairman, reserving the right to object.

The CHAIRMAN. The gentleman from Wisconsin reserves the right to object.

Mr. REUSS. Mr. Chairman, is the gentleman who a moment ago refused to yield for a unanimous-consent request to the chairman of the Committee on Banking and Currency—

Mr. CRAMER. Yes, to cut off debate.

Mr. REUSS. Is the gentleman now asking for a unanimous-consent request to proceed further?

Mr. CRAMER. Mr. Chairman, I said I would decline to yield if he wanted to move to cut off debate. I said I would be happy to yield for any other purpose.

Mr. PATMAN. Mr. Chairman, would the gentleman yield to me at this time for a unanimous-consent request?

The CHAIRMAN. Is there an objection?

Mr. CRAMER. Mr. Chairman, is the unanimous-consent request of the gentleman from Texas to cut off debate?

Mr. PATMAN. Yes.

The CHAIRMAN. Let us have regular order, please.

Does the gentleman from Wisconsin withdraw his reservation of objection?

Mr. REUSS. Mr. Chairman, I withdraw my reservation of objection.

Mr. PATMAN. Mr. Chairman, I ask unanimous consent that the debate close on this amendment in 10 minutes after the gentleman from Florida concludes his 5 minutes.

The CHAIRMAN. The gentleman from Texas makes a unanimous-consent request that at the conclusion of the statement of the gentleman from Florida, all debate close in 10 minutes on this amendment.

Is there objection to the request of the gentleman from Texas?

There was no objection.

The CHAIRMAN. The Chair recognizes the gentleman from Florida for 5 additional minutes.

Mr. CRAMER. Mr. Chairman, the gentleman from Wisconsin has said that the Governor can designate what the metropolitan area should be. Who is the Governor of Washington, D.C., to make such a designation? I do not see in here any special exception for Washington, D.C.

Mr. REUSS. Mr. Chairman, if the gentleman will yield, I will be pleased to answer him.

Mr. CRAMER. I do not see any exception insofar as Washington, D.C., at least is concerned.

Mr. REUSS. Mr. Chairman, will the gentleman yield?

Mr. CRAMER. Yes, I yield.

Mr. REUSS. Mr. Chairman, I would say in reply to the gentleman that in the Washington area, instead of an uncoordinated group of isolated and self-Balkanizing communities, we have a Washington Metropolitan Council of Governments, which under section (7), lines 17 to 22, would be the regional agency empowered under State and local laws, or under an interstate compact or agreement, to perform comprehensive planning in this area.

So you do not need the Governor in Washington, D.C.

Mr. CRAMER. I understand that.

Mr. REUSS. So that the gentleman's fears for the Nation's Capital are groundless.

Mr. CRAMER. I understand that in the District there is an agency—but for limited purposes and not for planning sewage for instance. The Governor of the State of Florida does not have the authority under State law to appoint or designate such an agency and what is going to happen there in June of 1967 if there is going to be a cutoff thereafter, because the legislature will not have been able to act by that time to designate somebody. And the money going to these metropolitan areas because they have not conformed will be cut off for hospitals, airports, libraries, water supplies, sewage treatment facilities, highway and water development facilities.

That is precisely what is going to happen. I do not know whether the committee intended to do that or not. But I am giving you this word of caution that that is what is likely to happen. All of these grants, under the terminology of this section 204, it seems to me, are going to come to an end as of June 30, 1967, as this bill is drafted.

Now is that the penalty we are going to have to pay in order to get these statistical areas, these large metropolitan areas that include two or three municipalities into a planning program? Is that the price we are going to have to pay to force those two or three municipalities that have no legislative authority to plan in unison at the present time and who have a governor who has no power to appoint anybody to do their planning for them? They are helpless—they are helpless and they cannot possibly conform to the requirements of this section.

I fail to understand how anyone could possibly write a mandatory provision affecting all present grants affecting all of the highway programs, the interstate program, the primary and secondary, the rural and urban programs within these metropolitan areas—they are all going to be adversely affected. All of this sewage treatment money that we just voted out in conference the other day, \$3.4 billion—those municipalities that need this help so badly—by June of 1967, and therefore, it will be cut off of the sewage treatment construction money merely because they do not have an area-wide metropolitan planning agency that conforms to what the Secretary says he thinks it ought to be.

Mr. FRASER. Mr. Chairman, will the gentleman yield?

Mr. CRAMER. I yield to the gentleman.

Mr. FRASER. I have been reading this language that the gentleman has been referring to, and I am looking for the section which the gentleman seems to say will cut off these funds.

Mr. CRAMER. It is on page 51, in section 204.

Mr. FRASER. I have read that. What it says is that it shall be submitted to any area-wide agency which is designated.

Mr. CRAMER. Yes; and there is no possibility of designating an area-wide agency.

Mr. FRASER. Exactly.

Mr. CRAMER. And it is mandatory, it says it shall be submitted. It does not say "may be." It says it "shall be submitted."

Mr. FRASER. It says: "to any area-wide agency which is designated."

If there is none designated, obviously it is not a requirement, as I read it, unless the gentleman has found other language.

But it seems to me that this says if a local community or a State government, or whatever agency there is at the local level, has established this kind of area-wide agency, then the gentleman is right—it must be submitted. But if there is no such agency designated, I find no language anywhere here that cuts off the grant in the manner that the gentleman has suggested.

Mr. CRAMER. All applications under section 204 made after June 30 shall be cut off, and as I read it, it is mandatory to have such a planning agency after June 30, 1967, or the money will be lost. Reading paragraphs 1 and 2 on page 52 together it says such projects "shall" be, first, submitted to an area agency or, if none exists; second, to the local unit in conformity with areawide metropolitan plans and, therefore, such plans must be in force by June 30, 1967. I repeat, this bill says to conform or get cut off.

The CHAIRMAN. For what purpose does the gentlewoman from Ohio [Mrs. BOLTON] rise?

Mrs. BOLTON. Mr. Chairman, I move to strike out the last word.

Mr. HANNA. Mr. Chairman, will the gentlewoman yield for a parliamentary inquiry?

Mrs. BOLTON. I yield to the gentleman.

Mr. HANNA. Mr. Chairman, I wish to inquire of the Chair, if I am not correct in the assumption that there had been a limit of time established following the speech that has just been made. I would point out to the Chair that after the conclusion of the remarks of the gentleman who just concluded, there were several Members of the Committee standing. I thought the Chair would then divide the time between those persons then standing; am I right?

The CHAIRMAN. As I remember, if your statement were correct, you would be right. However, I only saw one person standing at the time it was closed and I so advised the Clerk. It did not include the gentlewoman. There are 10 minutes remaining. There are still 5 minutes remaining for that one person who I will name when the time comes. It did not include the gentleman from California.

The gentlewoman from Ohio will proceed for 5 minutes.

Mrs. BOLTON. Mr. Chairman, title II, the metro title of this bill, S. 3708, is the most far-reaching piece of legislation to come before the House in many years—all too far reaching.

How can any Member who believes in restoring and preserving the powers of local government, read pages 55 and 56 and still vote for this bill?

Why should the Secretary of Housing and Urban Development have discretionary powers over such purely local

matters as zoning, subdivision regulations, land-use patterns in metropolitan areas, and so on? Why should the Secretary of HUD have discretionary powers over the location, scheduling and financing of all public works projects in a metropolitan area, whether or not such projects receive Federal aid? Why should metrogovernment and metro planning be placed under the thumbs of Federal planners?

Why should metroplanning funds be contingent upon metrowide planning of our neighborhood schools, as outlined by Secretary Weaver in his testimony before the Housing subcommittee on page 53 of the printed hearings?

Mr. Chairman, how many of us would be truly representing our constituents if we vote for a metrogovernment for virtually every metropolitan area, under the complete control of a "Federal expeditor" who would take his orders from Washington?

How many areas of our country have voted for metrogovernment? The answer is, hardly any.

How many areas overwhelmingly have turned down, on public referendums, the metro concept? Practically every one, where a vote has been taken.

The people have rejected this, and now we are being asked—or is it forced—to circumvent their expressed desires.

Mr. Chairman, if this is still a "representative body," which I am beginning to question, then we will reject the metro title of this bill. I cannot tell you how unbelievable this whole bill is to me.

We Ohio people have a way, a history indeed, of not necessarily conforming to Federal ideas, and I, for one, though I originated as a Connecticut Yankee, am definitely an Ohio woman. I deeply resent the effort being made to change our entire form of government without opportunity being given to the people of these United States to express themselves.

The CHAIRMAN. The only person standing at the time the gentleman from Texas made his motion to limit debate was the gentleman from Tennessee [Mr. BROCK]. He will now be heard for 5 minutes.

(Mr. BROCK asked and was given permission to revise and extend his remarks.)

Mr. PATMAN. / Mr. Chairman, a point of order.

The CHAIRMAN. The gentleman will state it.

Mr. PATMAN. At the time the gentlewoman from Ohio was recognized, the gentleman from Pennsylvania [Mr. BARRETT] was on his feet asking for recognition.

The CHAIRMAN. That may be, but the Chair did not see the gentleman from Pennsylvania, and merely standing is not sufficient.

Mr. PATMAN. He asked for recognition.

The CHAIRMAN. May I point out that the Chair did not see the gentleman from Pennsylvania standing.

Mr. PATMAN. Perhaps I should make another unanimous-consent request.

The CHAIRMAN. The gentleman will state it.

Mr. PATMAN. Otherwise the members of the minority will have the last 15 minutes of debate, and I do not think that was intended.

The CHAIRMAN. I have no idea what was intended at the time the motion was made. At the time the motion was made by the gentleman from Texas to suspend debate the only Member standing was the gentleman from Tennessee [Mr. BROCK].

Mr. ST GERMAIN. Mr. Chairman, a point of order.

The CHAIRMAN. The gentleman will state it.

Mr. ST GERMAIN. At the time the gentleman from Texas made his unanimous-consent request he was standing.

The CHAIRMAN. That is correct.

Mr. ST GERMAIN. Why is he not recognized?

The CHAIRMAN. He is entitled to 2½ minutes if he wishes it.

Mr. ST GERMAIN. Thank you, Mr. Chairman.

Mr. MULTER. Mr. Chairman, a parliamentary inquiry.

The CHAIRMAN. The gentleman will state it.

Mr. MULTER. I understood that there were only 5 minutes remaining, and the Chair has recognized the gentleman from Tennessee [Mr. BROCK] for 5 minutes.

The CHAIRMAN. If the gentleman from Texas desires 2½ minutes, the gentleman from Tennessee [Mr. BROCK] will be recognized for 2½ minutes only.

The gentleman from Tennessee will proceed for 5 minutes. The gentleman from Texas is always very gracious.

Mr. BARRETT. Mr. Chairman, will the gentleman from Tennessee yield to me?

Mr. BROCK. I yield to the gentleman from Pennsylvania.

Mr. BARRETT. I want to call the attention of the gentlewoman who spoke previously to the fact that we have stricken the expeditor from the bill. The metropolitan expeditor was stricken this afternoon.

I also wanted to relate a message to the gentleman from Florida. He probably does not know that his own State is one of the 22 States which has a very strong metropolitan plan.

Mr. BROCK. I thank the gentleman.

Mr. CRAMER. Mr. Chairman, will the gentleman yield, since I was referred to?

Mr. BROCK. I yield to the gentleman from Florida.

Mr. CRAMER. My district is not a metropolitan area. My district does not want to be. It does not want any part of it. It does not want any part of this bill.

The report of the majority, on page 18, clearly shows that what I said was correct. This is a mandatory program—either conform or get cut off from all these funds. That is what is say on page 18 of the report.

Is that not the gentleman's understanding?

Mr. BROCK. I believe the gentleman is substantially correct.

Mr. BARRETT. I just want to call the attention of the gentleman from Florida to the fact that I know he does not want

his State to be considered one of the backward States. I am only calling his attention to that fact.

Mr. BROCK. I appreciate the gentleman's contribution.

Mr. Chairman, my State has the only other working metropolitan area I know of, in Nashville, Tenn. Just because we have a working metropolitan plan in Nashville does not mean we have a prerogative in this body to impose metropolitan government on every other community in the United States.

In my own community we had metropolitan government proposed and it was defeated 2 to 1. That is the people's choice, not ours.

I believe the step proposed in title II here today is a very dangerous step. I would suggest that Members read this particular section of this bill, because when we talk about a metropolitan planning committee we should note that there is no requirement whatsoever that these people be elected. None whatsoever.

I question whether some of our constituents are going to be very happy if they are included in a metropolitan district in which they represent a minority viewpoint, in which their projects may not be approved by this metropolitan council because it does not happen to suit the whims of larger communities in that same metropolitan district.

I believe this title represents the sum and substance of why we are opposed to this bill. It represents an effort by this administration to impose a new form of government upon our local communities. I believe it is the height of irresponsibility for us to do this without giving the people the right to vote on being included in such a form of government. I do not believe we have the right, either legally or morally, to impose ourselves on every local community in this Nation to this degree.

I hope the amendment will be agreed to.

The CHAIRMAN. The question is on the amendment offered by the gentleman from New York [Mr. FINO].

Mr. FINO. Mr. Chairman, I demand tellers.

Tellers were ordered, and the Chairman appointed as tellers Mr. FINO and Mr. BARRETT.

The Committee divided, and the tellers reported that there were—ayes 63, noes 93.

So the amendment was rejected.

The CHAIRMAN. Are there any further amendments to title II?

Mr. PATMAN. Mr. Chairman, I ask unanimous consent that the further reading of the bill be dispensed with in its entirety and that it be printed at this point in the Record and be open to amendment at any point.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas?

There was no objection.

The bill is as follows:

TITLE III—FHA INSURANCE OPERATIONS FHA mortgage financing for veterans

SEC. 301. The next to last sentence of section 203(b)(2) of the National Housing Act is amended by striking out "If the mortgagor is a veteran who has not received any direct,

guaranteed, or insured loan under laws administered by the Veterans' Administration for the purchase, construction, or repair of a dwelling (including a farm dwelling) which was to be owned and occupied by him as his home," and inserting in lieu thereof the following: "If the mortgagor is a veteran,".

Cooperative housing insurance fund

SEC. 302. (2) Section 213(m) of the National Housing Act is amended by striking out ", but only in cases where the consent of the mortgagee or lender to the transfer is obtained or a request by the mortgagee or lender for the transfer is received by the Commissioner within such period of time after the date of the enactment of this subsection as the Commissioner shall prescribe".

(b) Section 213(n) of such Act is amended—

(1) by striking out "insured under this section and sections 207, 231, and 232" and inserting in lieu thereof "the insurance of which is the obligation of either the Management Fund or the General Insurance Fund"; and

(2) by adding at the end thereof the following new sentence: "Premium charges on the insurance of mortgages or loans transferred to the Management Fund or insured pursuant to commitments transferred to the Management Fund may be payable in debentures which are the obligation of either the Management Fund or the General Insurance Fund."

(c) (1) The fourth sentence of section 213(k) of such Act is amended to read as follows: "The Secretary is directed to transfer to the Management Fund from the General Insurance Fund an amount equal to the total of the premium payments theretofore made with respect to the insurance of mortgages and loans transferred to the Management Fund pursuant to subsection (m) minus the total of any administrative expenses theretofore incurred in connection with such mortgages and loans, plus such other amounts as the Secretary determines to be necessary and appropriate."

(2) The second proviso in section 213(l) of such Act is amended by striking out "pursuant to subsection (k) or (o)" and inserting in lieu thereof "pursuant to subsection (o)".

Mortgage limits for cooperative housing

SEC. 303. Section 213(b)(2) of the National Housing Act is amended—

(1) by striking out "\$9,000", "\$12,500", "\$15,000", "\$18,500", and "\$21,000" in the matter preceding the first proviso and inserting in lieu thereof "\$11,500", "\$15,000", "\$17,500", "\$21,000", and "\$23,500", respectively; and

(2) by striking out "\$10,500", "\$15,000", "\$18,000", "\$22,500", and "\$25,500" in the first proviso and inserting in lieu thereof "\$13,000", "\$17,500", "\$20,500", "\$25,000", and "\$28,000", respectively.

Supplementary financing for cooperative housing

SEC. 304. Section 213(j)(2)(A) of the National Housing Act is amended by adding at the end thereof the following: "except that, in the case of improvements or additional community facilities, the outstanding indebtedness may be increased by an amount equal to 97 per centum of the amount which the Secretary estimates will be the value of such improvements or facilities, and the new outstanding indebtedness may exceed the original principal obligation of the mortgage if such new outstanding indebtedness does not exceed the limitations imposed by subsection (b);".

Mortgage limits under section 220 sales housing mortgage insurance program

SEC. 305. (a) Section 220(d)(3)(A)(i) of the National Housing Act is amended by striking out "(3) 75 per centum of such replacement cost in excess of \$20,000" and in-

serting in lieu thereof "(3) 80 per centum of such replacement cost in excess of \$20,000".

(b) Section 220(d)(3)(A)(i) of such Act is further amended by adding before the semicolon at the end thereof the following: "Provided further, That if the mortgagor is a veteran and the mortgage to be insured under this section covers property upon which there is located a dwelling designed principally for a one-family residence, the principal obligation may be in an amount equal to the sum of (1) 100 per centum of \$15,000 of the Commissioner's estimate of replacement cost of the property, as of the date the mortgage is accepted for insurance, (2) 90 per centum of such replacement cost in excess of \$15,000 but not in excess of \$20,000, and (3) 85 per centum of such replacement cost in excess of \$20,000. As used herein, the term 'veteran' means any person who served on active duty in the Armed Forces of the United States for a period of not less than ninety days (or is certified by the Secretary of Defense as having performed extra-hazardous service), and who was discharged or released therefrom under conditions other than dishonorable".

Mortgage limits for homes under section 221(d)(2)

SEC. 306. Section 221(d)(2)(A) of the National Housing Act is amended by striking out "\$11,000" and "\$18,000" and inserting in lieu thereof "\$12,500" and "\$20,000", respectively.

Nondwelling facilities in section 221 projects in urban renewal areas

SEC. 307. Section 221(f) of the National Housing Act is amended by inserting before the period at the end of the first sentence the following: "Provided, That in the case of any such property or project located in an urban renewal area, the provisions of section 220(d)(3)(B)(iv) shall apply with respect to the nondwelling facilities which may be included in the mortgage if the mortgagor waives the right to receive dividends on its equity investment in the portion thereof devoted to community and shopping facilities".

Single occupants in section 221(d)(3) housing

SEC. 308. Section 221(f) of the National Housing Act is amended by adding at the end thereof the following new sentence: "Low- and moderate-income persons who are less than 62 years of age shall be eligible for occupancy of dwelling units in a project financed with a mortgage insured under subsection (d)(3), but not more than 10 per centum of the dwelling units in any such project shall be available for occupancy by such persons."

Insurance of mortgages under section 221 to finance purchase and rehabilitation by nonprofit organizations of housing for resale to low-income purchasers

SEC. 309. (a) Section 221 of the National Housing Act is amended by adding at the end thereof the following new subsection:

"(h) (1) In addition to mortgages insured under the other provisions of this section, the Secretary is authorized, upon application by the mortgagee, to insure under this subsection as hereinafter provided any mortgage (including advances under such mortgage during rehabilitation) which is executed by a nonprofit organization to finance the purchase and rehabilitation of deteriorating or substandard housing for subsequent resale to low-income home purchasers and, upon such terms and conditions as the Secretary may prescribe, to make commitments for the insurance of such mortgages prior to the date of their execution or disbursement thereon.

"(2) To be eligible for insurance under paragraph (1) of this subsection, a mortgage shall—

"(A) be executed by a private nonprofit corporation or association approved for pur-

poses of this subsection by the Secretary, for the purpose of financing the purchase of property (comprising one or more tracts or parcels, whether or not contiguous) upon which there is located deteriorating or substandard housing consisting of five or more single-family dwellings of detached, semi-detached, or row construction and of rehabilitating such dwellings with a view to subsequent resale as hereinafter provided;

"(B) be secured by the property which is to be purchased and rehabilitated with the proceeds thereof;

"(C) be in a principal amount not exceeding the appraised value of the property at the time of its purchase under the mortgage plus the estimated cost of the rehabilitation;

"(D) bear interest (exclusive of premium charges for insurance and service charge, if any) at the rate in effect under the proviso in subsection (d) (5) at the time of execution;

"(E) provide for complete amortization (subject to paragraph (5) (E)) by periodic payments within such term as the Secretary may prescribe; and

"(F) provide for the release of individual single-family dwellings from the lien of the mortgage upon the sale of the rehabilitated dwellings in accordance with paragraph (5).

"(3) No mortgage shall be insured under paragraph (1) unless the mortgagor shall have demonstrated to the satisfaction of the Secretary that (A) the property to be rehabilitated is located in a neighborhood which is sufficient stable and contains sufficient public facilities and amenities to support long-term values, or (B) the rehabilitation to be carried out by the mortgagor plus its related activities and the activities of other owners of housing in the neighborhood, together with actions to be taken by public authorities, will be of such scope and quality as to give reasonable promise that a stable environment will be created in the neighborhood.

"(4) The aggregate principal balance of all mortgages insured under paragraph (1) and outstanding at any one time shall not exceed \$20,000,000.

"(5) (A) No mortgage shall be insured under paragraph (1) unless the mortgagor enters into an agreement (in form and substance satisfactory to the Secretary) that it will offer to sell the dwellings involved, upon completion of their rehabilitation, to individuals or families (hereinafter referred to as 'low-income purchasers') determined by the Secretary to have incomes below the maximum amount specified (with respect to the area involved) in section 101(c) (1) of the Housing and Urban Development Act of 1966.

"(B) The Secretary is authorized to insure under this paragraph mortgages executed to finance the sale of individual dwellings to low-income purchasers as provided in subparagraph (A). Any such mortgage shall—

"(i) be in a principal amount equal to that portion of the unpaid balance of the principal mortgage covering the property (insured under paragraph (1)) which is allocable to the individual dwelling involved; and

"(ii) bear interest at the same rate as the principal mortgage, and provide for complete amortization by periodic payments within a term equal to the remaining term (determined without regard to subparagraph (E)) of such principal mortgage.

"(C) The price for which any individual dwelling is sold to a low-income purchaser under this paragraph shall be the amount of the mortgage covering the sale as determined under subparagraph (B), except that the purchaser shall in addition thereto be required to pay on account of the property at the time of purchase such amount (which shall not be less than \$200, but which may be applied in whole or in part toward closing costs) as the Secretary may determine to be

reasonable and appropriate in the circumstances.

"(D) Upon the sale under this paragraph of any individual dwelling, such dwelling shall be released from the lien of the principal mortgage, and such mortgage shall thereupon be replaced by an individual mortgage insured under this paragraph to the extent of the portion of its unpaid balance which is allocable to the dwelling covered by such individual mortgage. Until all of the individual dwellings in the property covered by the principal mortgage have been sold, the mortgagor shall hold and operate the dwellings remaining unsold at any given time as though they constituted rental units in a project covered by a mortgage which is insured under subsection (d) (3) (and which receives the benefits of the interest rate provided for in the proviso in subsection (d) (5)).

"(E) Upon the sale under this paragraph of all of the individual dwellings in the property covered by the principal mortgage, and the release of all individual dwellings from the lien of the principal mortgage, the insurance of the principal mortgage shall be terminated and no adjusted premium charge shall be charged by the Secretary upon such termination.

"(F) Any mortgage insured under this paragraph shall contain a provision that if the low-income mortgagor does not continue to occupy the property the interest rate shall increase to the highest rate permissible under this section and the regulations of the Secretary effective at the time of commitment for insurance of the principal mortgage; except that the increase in interest rate shall not be applicable if the property is sold and the purchaser is (i) the nonprofit organization which executed the principal mortgage, (ii) a public housing agency having jurisdiction under the United States Housing Act of 1937 over the area where the dwelling is located, or (iii) a low-income purchaser approved for the purposes of this paragraph by the Secretary."

(b) (1) Section 221(g) (1) of such Act is amended by inserting after "paragraph (2) of subsection (d) of this section" the following: "or paragraph (5) of subsection (h) of this section".

(2) Section 221(g) (2) of such Act is amended by inserting after "paragraph (3) or (4) of subsection (d) of this section" the following: "or paragraph (1) of subsection (h) of this section".

(c) Section 221(f) of such Act is amended by inserting after "Housing Act of 1961," in the fourth sentence "or which meet the requirements of subsection (h),".

(d) Section 305(h) of such Act is amended by striking out "section 221(d) (3)" and inserting in lieu thereof "sections 221(d) (3) and 221(h)".

Application of Davis-Bacon Act to cooperative housing projects insured under section 221 (d) (3) and (d) (4) and mortgages insured under section 221(h) (1)

SEC. 310. The third sentence of section 212(a) of the National Housing Act is amended by striking out "subsection (d) (3) or (d) (4)." and inserting in lieu thereof "subsection (d) (3) or (d) (4) and (deeming the term 'construction' as used in the first sentence of this subsection to mean rehabilitation) of any mortgage described in subsection (h) (1) which covers property on which there is located a dwelling or dwellings designed principally for residential use for more than eight families; except that compliance with such provisions may be waived by the Secretary—

"(1) with respect to mortgages described in such subsection (d) (3) or (d) (4), in cases or classes of cases where laborers or mechanics (not otherwise employed at any time in the construction of the project) volun-

tarily donate their services without compensation for the purpose of lowering their housing costs in a cooperative housing project and the Secretary determines that any amounts saved thereby are fully credited to the cooperative undertaking the construction, and

"(2) with respect to mortgages described in such subsection (h) (1), in cases or classes of cases where prospective owners of such dwellings voluntarily donate their services without compensation, or other persons (not otherwise employed at any time in the rehabilitation of the property) voluntarily donate their services without compensation, and the Secretary determines that any amounts saved thereby are fully credited to the nonprofit organization undertaking the rehabilitation."

Waiver of deduction on assignment of property to secretary in lieu of foreclosure

SEC. 311. Title V of the National Housing Act is amended by adding at the end thereof the following new section:

"Waiver of deduction on assignment of property to Secretary in lieu of foreclosure

"SEC. 523. Notwithstanding any other provision of this Act, from and after the date of the enactment of the Housing and Urban Development Act of 1966, the Secretary, under such terms and conditions as he may approve, may waive all or a part of the 1 per centum deduction otherwise made from insurance benefits with respect to multifamily housing or land development mortgages assigned to him, where the assignment is made at his request in lieu of foreclosure of the mortgage."

Armed services housing mortgage insurance program

SEC. 312. (a) Section 803(a) of the National Housing Act is amended—

(1) by striking out "\$2,300,000,000" and inserting in lieu thereof "\$3,350,000,000";

(2) by striking out "October 1, 1962" and inserting in lieu thereof "October 1, 1969"; and

(3) by striking out "twenty-eight thousand" and inserting in lieu thereof "eighty-eight thousand".

(b) Section 803(b) of such is amended—

(1) by striking out "\$16,500" each place it appears in paragraph (3) (B) and inserting in lieu thereof "\$17,500"; and

(2) by striking out "4½ per centum" in the sentence following paragraph (3) (C) and inserting in lieu thereof "5½ per centum".

Increase in units insurable under section 810 program

SEC. 313. Section 810(i) of the National Housing Act is amended by striking out "five thousand dwelling units" and inserting in lieu thereof "ten thousand dwelling units".

TITLE IV—LAND DEVELOPMENT AND NEW COMMUNITIES

Mortgage insurance for new communities

SEC. 401. Title X of the National Housing Act is amended by inserting after section 1003 the following new section 1004 and redesignating the remaining sections accordingly:

"New communities

"SEC. 1004. (a) New communities consisting of developments, satisfying all other requirements under this title, may be approved under this section by the Secretary for mortgage insurance if they meet the requirements of subsection (b) of this section.

"(b) A development shall be eligible for approval as a new community if the Secretary determines it will, in view of its size and scope, make a substantial contribution to the sound and economic growth of the area within which it is located in the form of—

"(1) substantial economies, made possible through large-scale development, in the provision of improved residential sites;

"(2) adequate housing to be provided for those who would be employed in the community or the surrounding area;

"(3) maximum accessibility from the new residential sites to industrial or other employment centers and commercial, recreational, and cultural facilities in or near the community; and

"(4) maximum accessibility to any major central city in the area".

Mortgage amount and term

SEC. 402. (a) Section 1002(c) of the National Housing Act is amended by striking out "\$10,000,000" and inserting in lieu thereof "\$25,000,000".

(b) Section 1002(d)(1) of such Act is amended to read as follows:

"(1) contain repayment provisions satisfactory to the Secretary and have a maturity not to exceed seven years, or such longer maturity as the Secretary deems reasonable (A) in the case of a privately owned system for water or sewerage, and (B) in the case of a new community approved under section 1004;"

Encouragement of small builders

SEC. 403. The section of the National Housing Act redesignated as section 1005 by section 401 of this Act is amended by inserting "particularly small builders," after "broad participation by builders,".

Water and sewerage facilities

SEC. 404. The section of the National Housing Act redesignated as section 1006 by section 401 of this Act is amended to read as follows:

"Water and sewerage facilities"

"SEC. 1006. After development of the land it shall be served by public systems for water and sewerage which are consistent with other existing or prospective systems within the area, except that—

"(a) in the case of systems for water, the land may be served by privately or cooperatively owned systems which are consistent with other existing or prospective systems within the area; are approved as adequate by the Secretary; and are regulated in a manner acceptable to him with respect to user rates and charges, capital structure, methods of operation, rate of return, and conditions and terms of any sale or transfer; and

"(b) in the case of systems for sewage, the land may be served by—

"(1) existing privately or cooperatively owned systems (including reasonable extensions thereto) which are approved as adequate by the Secretary and are regulated in a manner acceptable to him; or

"(2) if it is necessary to develop a new system and the Secretary determines that public ownership of such a system is not feasible, an adequate privately or cooperatively owned new system (A) which he finds consistent with other existing or prospective systems within the area, (B) which will be regulated, during the period of such ownership, in a manner acceptable to him with respect to user rates and charges, capital structure, methods of operation, and rate of return, and (C) regarding which he receives assurances, satisfactory to him, with respect to eventual public ownership and operation of the system and with respect to the conditions and terms of any sale or transfer."

Federal National Mortgage Association special assistance for new communities

SEC. 405. Section 302(b) of the National Housing Act is amended by inserting after "or title VIII," in the proviso the following: "or under title X with respect to a new community approved under section 1004 thereof."

Urban planning grants

SEC. 406. Section 701(a)(4) of the Housing Act of 1954 is amended by inserting before the semicolon at the end thereof the following: "or for areas where rapid urbanization is expected to result on land developed or to be developed as a new community approved under section 1004 of the National Housing Act".

Public facility loans

SEC. 407. Section 202(b)(4) of the Housing Amendments of 1955 is amended by adding before the period at the end of the second sentence the following: "or (iii) to be provided in connection with the establishment of a new community approved under section 1004 of the National Housing Act".

TITLE V—MORTGAGE INSURANCE FOR GROUP PRACTICE FACILITIES

Purpose

SEC. 501. It is the purpose of this title to assure the availability of credit on reasonable terms to units or organizations engaged in the group practice of medicine, optometry, or dentistry, particularly those in smaller communities, to assist in financing the construction and equipment of group practice facilities.

Establishment of program

SEC. 502. (a) The National Housing Act is amended by adding at the end thereof the following new title:

"TITLE XI—MORTGAGE INSURANCE FOR GROUP PRACTICE FACILITIES"

"Insurance of mortgages"
